

EXPLANATORY STATEMENT SUBMITTED BY MR. ROGERS OF
KENTUCKY, CHAIRMAN OF THE HOUSE COMMITTEE ON
APPROPRIATIONS REGARDING THE HOUSE AMENDMENT TO
THE SENATE AMENDMENT ON H.R. 3547
CONSOLIDATED APPROPRIATIONS ACT, 2014

The following is an explanation of the Consolidated Appropriations Act, 2014.

This Act contains the twelve regular appropriations bills for fiscal year 2014. The divisions contained in the Act are as follows:

- Division A – Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2014;
- Division B – Commerce, Justice, Science, and Related Agencies Appropriations Act, 2014;
- Division C – Department of Defense Appropriations Act, 2014;
- Division D – Energy and Water Development and Related Agencies Appropriations Act, 2014;
- Division E – Financial Services and General Government Appropriations Act, 2014;

- Division F – Department of Homeland Security Appropriations Act, 2014;
- Division G – Department of the Interior, Environment, and Related Agencies Appropriations Act, 2014;
- Division H – Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2014;
- Division I – Legislative Branch Appropriations Act, 2014;
- Division J – Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2014;
- Division K – Department of State, Foreign Operations, and Related Programs Appropriations Act, 2014; and
- Division L – Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2014.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to “this Act” contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act specifies that this explanatory statement shall have the same effect with respect to the allocation of funds and

implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

Section 6 of the Act states that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism is contingent on the President so designating all such amounts and transmitting such designations to Congress. The provision is consistent with the requirements in the Budget Control Act of 2011 for Overseas Contingency Operations/Global War on Terrorism designations by the President.

Section 7 of the Act addresses possible technical scorekeeping differences for fiscal year 2014 between the Office of Management and Budget and the Congressional Budget Office.

Section 8 of the Act includes the text of the Senate amendment to H.R. 3547, relating to launch liability extension.

The Act does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

**DIVISION A – AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG
ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2014**

CONGRESSIONAL DIRECTIVES

The explanatory statement remains silent on provisions that were in both the House Report (H.Rpt. 113-116) and Senate Report (S.Rpt. 113-46) that remain unchanged by this agreement, except as noted in this explanatory statement.

The agreement restates that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The agreement further points out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the explanatory statement is approved and indicates congressional intentions. The explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment, unless otherwise directed.

Hereafter, in Division A of this statement, the term 'the Committees' refers to the Committees on Appropriations of the House of Representatives and the Senate.

TITLE I

AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$43,778,000 for the Office of the Secretary.

The following table reflects the agreement:

	<i>Office of the Secretary</i> (Dollars in Thousands)	
Office of the Secretary		\$5,051

Office of Tribal Relations	498
Office of Homeland Security and Emergency Coordination	1,496
Office of Advocacy and Outreach	1,209
Office of Assistant Secretary for Administration	23,590

Office of Assistant Secretary for Congressional Relations	3,869
Office of Communications	<u>8,065</u>
Total, Office of the Secretary	\$43,778

During fiscal year 2013, the Department of Agriculture (USDA) failed to communicate to the Committees information related to a number of Congressional priorities. In particular, the Department failed to provide timely updates on major spending changes for the Modernize and Innovate the Delivery of Agricultural Systems and the Rental Assistance Program among others. In fiscal year 2014 and beyond, it is incumbent upon USDA to promptly notify the Committees in writing and via briefing on major changes in projects or programs in order for the Committees to fulfill their oversight responsibilities.

The agreement reiterates that reports requested by the Committees are an important part of congressional oversight. The Department is consistently delinquent in submitting these reports, especially due to excessively long reviews in the Office of the Secretary. The Secretary is directed to ensure that the dates and directives, which are mandatory, in the House and Senate Committee reports and this agreement are met. Any agency that does not submit its report on time may be called upon to explain its actions before Congress.

In order to leverage existing capacity and expertise within the Department, the Secretary is directed to explore the creation of a Center of Excellence for loan servicing support functions in order to provide consolidated customer service, field office support, and centralized loan services to USDA agencies and other Federal agencies. The Secretary shall consult with employee representatives and management in the Farm Service Agency Farm Loan Information Technology, Accounting, and Finance Office loan servicing support functions; the Rural Development Deputy Chief Financial Officer and Deputy Chief Information Officer functions; and the Rural Housing Centralized Servicing Center. The Department is reminded that any consolidation of effort or functions is subject to the reprogramming requirements of this Act.

In accordance with the America COMPETES Reauthorization Act of 2010 (Public Law 111 – 358) and Office of Science and Technology Policy (OSTP) guidance, USDA has submitted a plan to make federally funded research publicly available. OSTP has yet to publish

the coordinated, government-wide plan to make federally funded research publicly available. USDA is directed to report to the Committees within 30 days of the release of the OSTP report on its efforts to make such research available.

The agreement includes the full funding request for GSA Rental Payments. However, there is concern that despite a decline in staff years of over 12 percent in the past decade, rental

costs have risen during this same period of time. The Department is directed to perform a comprehensive review of its rental space needs and report back to the Committees within 90 days of enactment with proposed options to reduce the total rental space and corresponding funding needs across the Department in fiscal year 2015 and beyond. The report should provide specific recommendations on where the Department may be able to consolidate space needs and where they can work with the General Services Administration to negotiate lower rental rates.

Included within funding for the Census of Agriculture is an increase of \$2,250,000 for the Organic Production Survey.

Since 2012, NASS has suspended or eliminated a number of reports due to budget constraints and has been unable to carry out four Current Industrial Reports formerly compiled by the U.S. Census Bureau. The funding level provided will allow NASS to resume or begin compilation of these reports at the frequency levels assumed in fiscal year 2012. NASS is directed to resume all of these reports immediately upon enactment of this Act. Further, this

funding level will allow NASS to carry out its full plan for fiscal year 2014 reports as presented in the budget.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement provides \$1,122,482,000 for the Agricultural Research Service, Salaries and Expenses.

The agreement does not accept the President's budget request regarding the termination of extramural research, reallocation of funds, or closure of six research locations. The agreement expects extramural research to be funded without the reductions assessed in fiscal years 2012 and 2013.

The agreement includes funding increases for human nutrition research, sustainable water use research, the National Agricultural Library, agroforestry, forage production, forest products, FOV Race 4, and improved scientific capacity.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE

RESEARCH AND EDUCATION ACTIVITIES

The agreement provides \$772,559,000 for the National Institute of Food and Agriculture's research and education activities.

The agreement directs the Department to include in the budget for fiscal year 2015 the funding levels proposed to be allocated to and the expected publication date, scope, and allocation level for each request for awards to be published under (1) each priority area specified in section 2(b)(2) of the Competitive, Special, and Facilities Research Grant Act (7 U.S.C. 450i(b)(2)); (2) each research and extension project carried out under section 1621(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5811(a)); (3) each grant awarded under section 1672B(a) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925b(a)); (4) each research, education, and extension project carried out under section 406 of the Research Reform Act of 1998 (7 U.S.C. 7626); and (5) each research and extension project carried out under section 412 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7632). The term 'request for awards' means a funding announcement published by NIFA that provides detailed information on funding opportunities at the Institute, including the purpose, eligibility, restrictions, focus areas, evaluation criteria, regulatory information, and instructions on how to apply for such opportunities.

OFFICE OF THE UNDER SECRETARY FOR MARKETING AND REGULATORY PROGRAMS

The agreement provides \$893,000 for the Office of the Under Secretary for Marketing and Regulatory Programs.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$821,721,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses.

The agreement does not support the request in the President's fiscal year 2014 budget for APHIS to fund two separate accounts for Equine and Cervid Health and Sheep and Goat Health.

The latest data from 2007 indicate that the cervid industry in the U.S. accounts for 5,600 deer farms and 1,900 elk farms, has an economic value of \$894,000,000, and supports nearly 30,000 jobs. This industry is currently adapting to a 2012 interim final rule that established a national, voluntary herd certification program (HCP) that provides uniform herd certification standards and will support the domestic and international marketability of U.S. cervid herds. The agreement believes that the industry requires additional support to ensure that the newly implemented chronic wasting disease HCP is successful. Therefore, APHIS should spend no less than \$3,000,000 for cervid health activities. Within the funds provided, APHIS should give consideration to indemnity payments if warranted.

The agreement acknowledges the growing economic and ecological damage caused by feral swine across the United States. Conservative estimates indicate feral swine are present in 44 States, and agricultural losses and control efforts cost \$1,500,000,000 annually. The agreement understands that computer models have shown that lethal methods combined with contraception could significantly reduce feral swine populations over several years. In addition to the agreement's support for the Department's proposed increased funding for feral swine management, the agreement encourages Wildlife Services to explore development and field testing of non-hormonal, species-specific oral contraceptives, such as phaged-peptide constructs.

The agreement provides funding for the animal disease traceability system within the Animal Health Technical Services line item. APHIS is directed to submit quarterly reports to the

Committees with system updates on the traceability framework, State and Tribal coordination, specific cost information, assessments of progress, and any deviations from the scheduled completion dates.

The National Clean Plant Network is instrumental in ensuring that safe, virus-free plant materials are available to orchards, vineyards, and other growers. Clean plant materials are critical to keeping our agriculture industry competitive in a global marketplace. The agreement recognizes the value of the National Clean Plant Network to improve detection and eradication of viruses, encourages the Department to continue its work on this important program, and includes funding for these purposes in Plant Protection Methods Development.

The agreement provides (Sec. 748) one-time funding of \$20,000,000 for the efforts of the multi-agency coordination involving the citrus industry, Federal and State regulatory personnel, and researchers to combat the spread and eventual eradication of citrus greening. APHIS is encouraged to use reimbursable and cooperative agreements with Federal and State entities as necessary to respond to this growing threat. The Department is directed to provide the Committees with a spending plan for these one-time funds within 90 days of enactment. Funds are available until September 30, 2015.

The agreement provides \$26,900,000 for the agriculture quarantine inspections function, including pre-departure and interline inspections.

BUILDINGS AND FACILITIES

The agreement provides \$3,175,000 for Animal and Plant Health Inspection Service Buildings and Facilities.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The agreement provides \$79,914,000 for the Agricultural Marketing Service.

The agreement does not approve of USDA’s continued implementation, enforcement, and the associated spending related to the mandatory country of origin labeling regulation for certain meat products during the pending World Trade Organization (WTO) dispute with Canada and Mexico. When USDA responded to a WTO arbitration ruling with a final rule entitled “Mandatory Country of Origin Labeling of Beef, Pork ...,” 78 Federal Register 31367, on May 24, 2013, the final rule estimated implementation costs of \$123,300,000 at the midpoint and ranging from \$53,100,000 at the low end to \$192,100,000 at the high end. In addition to the high cost of implementing the rule, the complainants have responded by formally stating that the revised final regulation does not address the international trade compliance concerns raised by the two countries in their WTO case. On June 7, 2013, Canada issued a list of U.S. products (agricultural and non-agricultural exports to Canada) that would face higher tariffs totaling up to \$1,100,000,000. Mexico is expected to issue a similar list of U.S. exports totaling several hundred million dollars. If the complainants do prevail, industry may be forced to change their labels and practices once again and the Nation will suffer the economic impact of approximately \$2,000,000,000 in retaliation actions affecting agriculture and non-agriculture jobs and industries across the U.S. It is strongly recommended that USDA not force increased costs on industry and consumers and that the Department delay implementation and enforcement of the final rule (78 Federal Register 31367) until the WTO has completed all decisions related to cases WT/DS384 and WT/DS386.

The agreement includes a \$1,000,000 increase above the fiscal year 2012 level for the National Organic Program.

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation on administrative expenses of \$60,435,000.

The agreement provides \$1,177,926,000 for the Farm Service Agency.

The agreement directs USDA to pursue options for obtaining additional reimbursements from public and private entities for the cost of providing imagery and/or imagery services acquired through the National Agriculture Imagery Program (NAIP). The supplemental funding would allow the NAIP program to collect high-quality digital aerial photography of the entire continental U.S. each year. In addition to base funds, these supplemental contributions should

provide the maximum benefit for USDA programs and other users of these images. Within 90 days of enactment of this Act, USDA shall submit a report to the Committees that includes a detailed description of options for obtaining such reimbursements, including a discussion on the option to request new legislative authority.

TITLE IV

DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The agreement provides \$811,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services.

USDA is directed to work with States to ensure full compliance with the law that all WIC and SNAP participants meet all program eligibility requirements. USDA is also directed to ensure these programs are not being promoted to ineligible individuals, which would increase program costs.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$19,287,957,000 for Child Nutrition Programs. Included in the total is an appropriated amount of \$11,276,388,000 and a transfer from Section 32 of \$8,011,569,000.

In lieu of the language in the House and Senate reports on School Meals, the Secretary is directed to establish a waiver approval process within 90 days of enactment for States to grant waivers for the 2014-15 school year to any local educational agency that certifies it cannot operate a food service program without incurring increased costs in order to comply with the interim final rule entitled “National School Lunch Program and School Breakfast Program: Nutrition Standards for All Foods Sold in School” and/or Part 220 of title 7, Code of Federal Regulations as such part relates to establishing new nutrition standards for the school breakfast program. The Secretary is further directed to provide schools that are granted a waiver technical assistance to help with implementation in future years.

USDA is directed to provide sufficient guidance and training so that States can ensure that all approved CACFP sites providing at-risk, after-school snacks and suppers, are in full compliance with the eligibility requirements for participating in the program.

There continues to be concern about high error and improper payment rates in the National School Lunch Program (NSLP) and the School Breakfast Program (SBP). For fiscal year 2013, the NSLP had an error rate of 15.69 percent totaling \$1,800,000,000 in improper payments, and the SBP had an error rate of 25.26 percent totaling \$831,000,000 in improper payments. The agreement provides the requested funding to support USDA’s efforts to reduce erroneous payments. USDA is directed to work with States and local educational agencies and submit a plan to the Committees within 60 days of enactment detailing the steps it will take to reduce high error and improper payment rates.

The agreement provides the following for Child Nutrition Programs:

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The agreement provides \$6,715,841,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC).

WIC regulations require the State agency conduct an on-site visit prior to or at the time of a vendor's initial authorization. The visit is part of the application review process that could take up to 90 days. USDA has taken strong actions to impose vendor moratoriums in States where questionable vendor practices have been identified. The agreement includes language to address a backlog of vendor applications that exists in States that have a federally imposed vendor moratorium. It is understood the Secretary will establish terms and conditions focusing on existing retailers that are in good standing, are at a low risk for fraud, and have existing master agreements in place.

The agreement expects the Secretary to amend 7 CFR 246.10 in order for state agencies to include all varieties of fresh, whole, or cut vegetables, except for vegetables with added sugars, fats, oils; provided that inclusion of such vegetables contribute towards meeting the

special nutritional needs of program participants and increases the availability of low-cost, high-nutrient alternatives for participants throughout the year. Within 15 days of any decision not to comply, the Secretary shall submit a report to the Committees explaining such decision.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The agreement provides \$82,169,945,000 for the Supplemental Nutrition Assistance Program. The agreement includes \$3,000,000,000 to be made available for a contingency reserve. The agreement provides a funding level for SNAP benefits as reflected in OMB’s mid-session review of the budget.

There is concern about the use of valuable tax dollars to promote enrollment of SNAP through radio, television, and other advertisements as well as outreach activities with foreign governments to encourage the use of SNAP. USDA is strongly encouraged to cease these types of government-sponsored recruitment activities.

USDA is directed to maintain restrictions for hot prepared foods and other foods intended for immediate on-premise consumption, including hot beverages and fountain drinks.

Total, FDA Program Level	<u>\$4,346,670</u>

The agreement directs that not less than \$24,504,000 shall be available for FDA's Medical Countermeasures Initiative.

The agreement includes full funding as requested for implementation of the Mammography Quality Standards Act. FDA is urged to follow up the November 2011 meeting of the National Mammography Quality Assurance Advisory Committee by promptly reviewing the evidence supporting including information related to an individual's breast density in the mammogram patient report and physician report.

One of the most critical issues facing FSMA implementation is proper training of Federal and State inspection personnel. FDA is expected to implement a comprehensive training program about what the regulations require, the conduct of inspections, and the type of observations that are appropriate to include on FDA Form 483.

FDA is to be commended for its recent decision to revise language in proposed rules affecting farmers including changes to proposed regulations regarding water quality standards and testing, the use of raw manure and compost, mixed use facilities, and qualified exemptions.

There is concern that FDA's analysis of the implementation costs for the Preventive Controls for Human Food rule [FDA-2011-N-0920] significantly underestimates the cost to those entities as demonstrated in comments filed with the agency on November 22, 2013. The agency did not include regulations or a cost benefit analysis for environmental, ingredient, and finished product testing. The agency has indicated that significant changes will be needed in key provisions and is encouraged to re-propose a rule that provides the necessity, location, and frequency of testing based upon risk/cost benefit and other established verification activities. FDA is urged to stay within the framework specified in law, ensure food safety rules are risk-based, and make certain that food safety improvements are economically feasible to both the agency and the industry.

It has been determined that FDA user fee programs are subject to sequester, although they are not normal tax revenue. It is important to maintain industry support for user fee programs and for FDA to continue to meet negotiated performance standards. The Administration is thereby encouraged to reconsider the inclusion of FDA user fees when calculating sequester.

The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (P.L. 111-80) included a new provision appropriating prescription drug user fees collected in excess of the fiscal year 2010 limitations stated in such Act. These fees were to be credited to the Food and Drug Administration Salaries and Expenses account and remain available until expended. It is understood that excess prescription drug fees collected prior to fiscal year 2010 remain unobligated. The intent of P.L. 111-80 was to make available such prior year excess collections. FDA is directed to make these funds, which are in excess of the fiscal year 2010 limitations, available for obligation to support the prescription drug review and approval process.

BUILDINGS AND FACILITIES

The agreement provides \$8,788,000 for the Food and Drug Administration Buildings and Facilities.

AGENCIES APPROPRIATIONS ACT, 2014**

Report language included in House Report 113–171 (“the House report”) or Senate Report 113–78 (“the Senate report”) that is not changed by this explanatory statement or this Act is approved. The explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House report and the Senate report address a particular issue not specifically addressed in the explanatory statement, the House report and the Senate report should be read as consistent and are to be interpreted accordingly. In cases where the House report or the Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2014; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2014. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in this statement, or in the House report or the Senate report and not changed by this Act or statement, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act which plans a reduction-in-force shall notify the Appropriations Committees of the House and Senate by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Appropriations Committees of the House and Senate and does not receive identical responses by the House and Senate, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If

reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved.

In compliance with section 535 of this Act, the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation shall submit spending plans, signed by the respective department or agency head, for the Committees' review not later than 30 days after enactment of this Act.

TITLE I
DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

This Act includes \$470,000,000 in total resources for the programs of the International Trade Administration (ITA). This amount is offset by \$9,439,000 in estimated fee collections, resulting in a direct appropriation of \$460,561,000. Within this amount, no less than \$320,000,000 shall be designated for Global Market activities, subject to section 505 reprogramming requirements of this Act. Language in the House and Senate reports regarding U.S. Export Assistance Centers is adopted but modified to clarify that ITA shall brief the Committees on Appropriations regarding these matters no later than 90 days after enactment of this Act.

SelectUSA.—The agreement includes up to \$7,000,000 for SelectUSA activities. SelectUSA activities shall not encourage investment in the United States by state-owned entities.

Interagency Trade Enforcement Center (ITEC).—The agreement includes up to \$7,500,000 for ITEC. The agreement acknowledges the concerns in the House report regarding reimbursements and clarifies that agencies may transfer or reprogram funds in accordance with existing authorities and section 505 of this Act. However, the agreement underscores concerns raised with respect to transferring funds to other agencies. Further guidance regarding this matter is included elsewhere in this statement under the heading “Office of the United States Trade Representative.” ITA shall submit detailed spending plans for SelectUSA and ITEC with the fiscal year 2014 Department of Commerce spending plan.

BUREAU OF INDUSTRY AND SECURITY

OPERATIONS AND ADMINISTRATION

This Act includes \$101,450,000 for the Bureau of Industry and Security.

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

This Act includes \$209,500,000 for Economic Development Assistance Programs. Funds are to be distributed as follows; any deviation of funds shall be subject to the procedures set forth in section 505 of this Act:

Public Works.....	\$96,000,000
Planning	29,000,000
Technical Assistance.....	11,000,000

Total	<u>\$209,500,000</u>

Assistance for coal mining communities.—The agreement includes House report language regarding efforts to assist communities impacted by economic dislocation in the coal and timber industries. In addition, the agreement includes no less than \$3,000,000 to enhance regional business development in areas negatively impacted by the downturn in the coal industry. Priority shall be given to those distressed counties whose coal mining job losses since July 1, 2011, as determined by data compiled by the Department of Labor, Mine Safety and Health Administration, Mine Data Retrieval System, exceed the average for job losses in the entire economy. Funds may be used for small business technical assistance, training development programs, export assistance, and other related programs.

Regional and Innovative Manufacturing Programs.—The agreement adopts and reiterates all House report language regarding loan guarantees under section 26 of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3721), and all Senate report language regarding grants under section 27 of such Act (15 U.S.C. 3722). For these programs, and for loan guarantees under section 27 of such Act (15 U.S.C. 3722), all available funding from fiscal year 2014 and prior years shall be centrally administered by EDA rather than by the regions. Program delays are unacceptable, and EDA is directed to work expeditiously to implement these programs and obligate the funds. In addition, the agreement clarifies that funding for all section 26 loan guarantees and section 27 grants and loan guarantees shall be administered and awarded in accordance with the requirements of 15 U.S.C. 3721–3722 rather than the Public Works and Economic Development Act (PWEDA). Other EDA programs shall continue to be implemented under the requirements of PWEDA and the Trade Adjustment Assistance Extension Act and administered through the regional offices and in compliance with related application eligibility requirements.

SALARIES AND EXPENSES

This Act includes \$37,000,000 for EDA salaries and expenses. The agreement modifies Senate report language regarding vacancies to note that EDA is expected to fill mission critical vacancies in both headquarters and the field as quickly as possible. The agreement also adopts Senate report language directing EDA to provide information on staff vacancies to the Committees on Appropriations no later than 30 days after enactment of this Act and every 180 days thereafter.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

This Act includes \$850,000,000 for the National Institute of Standards and Technology (NIST).

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

This Act includes \$651,000,000 for NIST's scientific and technical core programs. Within these amounts, an increase of \$30,000,000 is for advanced manufacturing initiatives at the NIST labs; an increase of \$5,000,000 is for cyber security research; and an increase of \$1,000,000 is for disaster resilience research. The agreement also includes up to \$3,000,000 for greenhouse gas measurements; \$4,000,000 for the National Initiative for Cybersecurity Education program; and up to \$5,000,000 is to maintain NIST's current forensic measurement activities and to participate in the National Commission on Forensic Science. Additional forensic science funding is described in title II of this statement.

Centers of Excellence.—The agreement includes \$15,000,000 to establish and operate centers of excellence on a competitive basis, and NIST is encouraged to establish a Center focused on forensic measurement science, technology, and standards as described in the Senate report and a Center on advanced manufacturing competitiveness and commercialization technology in carbon nanomanufacturing as described in the House report. In addition, \$15,000,000 is included for the National Cybersecurity Center of Excellence.

This Act includes \$143,000,000 for industrial technology services, including \$128,000,000 for Hollings Manufacturing Extension Partnerships. In lieu of Senate language regarding the Advanced Manufacturing Technology Consortia (AMTech), \$15,000,000 is for ongoing AMTech activities. The agreement does not address the Administration's proposal for National Network of Manufacturing Institutes (NNMI) because the NNMI legislative proposal has not been considered or approved by the Congress. 2c

CONSTRUCTION OF RESEARCH FACILITIES

This Act includes \$56,000,000 for NIST construction.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

This Act includes a total of \$5,314,606,000 for the National Oceanic and Atmospheric Administration (NOAA).

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFER OF FUNDS)

This Act includes a total program level of \$3,287,392,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes \$3,157,392,000 in direct appropriations; a transfer of \$115,000,000 from balances in the “Promote and Develop Fishery Products and Research Pertaining to American Fisheries” account; and \$15,000,000 is derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act.

National Ocean Service.—\$471,946,000 is for National Ocean Service operations, research, and facilities. The agreement does not adopt House report language regarding a National Academies of Sciences review of NOAA’s ocean and coastal data systems. Rather, this review shall commence upon completion of a GAO analysis of these same systems.

Navigation, Observations and Positioning.—The agreement includes the full requested level for the Navigation Response Teams and \$4,000,000 for competitive geospatial modeling grants. The agreement includes Senate report language requiring NOAA to provide a report on the establishment of two additional joint ocean and coastal mapping centers and clarifies that any fiscal year 2014 funding used to establish these centers shall be subject to approval by the Committees on Appropriations.

Marine debris.—NOAA shall spend up to \$6,000,000 for marine debris programs as described in the House and Senate reports.

Ocean and Coastal Management and Services.—Within the amounts for Coastal Zone Management Grants, no funding is for Regional Ocean Partnership grants.

National Marine Fisheries Service (NMFS).—\$812,560,000 is for NMFS operations, research, and facilities.

Regional fisheries office.—Senate report language regarding the closure of the NMFS Northeast Regional Office is not adopted. Since the Senate report was filed, NOAA has submitted its plan for how NMFS will improve its core functions in the Mid-Atlantic region. NOAA has made progress implementing this plan and shall continue making improvements in fiscal year 2014. The agreement modifies Senate report language by continuing operations at the Northeast Regional Fisheries Office, but directs NOAA to change the name of the office to the Greater Atlantic Regional Fisheries Office to better reflect the geographic region that office represents, which includes New England, the Mid-Atlantic and Great Lakes areas. The agreement further recommends that NMFS improve services to the fishing industry, as described in Senate report language, by enhancing operations at fishery science centers and fishery statistics offices to give NMFS stronger local connections throughout the region. With minimum investments and changes over time, such efforts could provide fishermen with more immediate access to NMFS support services at existing local offices in their home States and homeports.

Electronic logbooks.—The agreement reiterates Senate language that NOAA shall maintain full funding for the continued installation of electronic logbooks and monitoring systems, which are both inherent to NOAA’s core mission and essential to the implementation of current fishery regulations. The electronic monitoring systems shall be part of an integrated at-sea monitoring program and shall serve as an alternative to observers for vessels carrying such electronic monitoring systems. The agreement clarifies that NMFS shall work in fiscal year 2014 with the small boat fixed gear fleet to implement a cooperative research program designed to test the functionality of available electronic monitoring systems. This cooperative research program shall address data quality, costs, species identification capabilities, and the reliability of hardware. NMFS shall ensure that this effort is adequately resourced for the fiscal year 2014 work program. Further, when evaluating requests by small boat fixed gear vessels seeking a release from the requirement to carry a human observer due to a lack of physical space or other operational constraint, NMFS is encouraged to exercise reasonable discretion in making such determinations.

Oceanic and Atmospheric Research.—\$416,392,000 is for Oceanic and Atmospheric Research operations, research, and facilities.

Climate Research.—The agreement does not include specific funding amounts for climate variability on fish stocks that were directed in the Senate report. However, NOAA is not prohibited from moving ahead with such research.

Phased array radar.—Language in the House and Senate reports regarding phased array radar is adopted but modified to clarify that a report on these matters shall be provided to the House and Senate Committees on Appropriations no later than 120 days after enactment of this Act.

National Sea Grant College Program.—The agreement modifies Senate report language for the National Sea Grant College Program by providing no more than \$1,000,000 for the new Sea Grant Grand Challenge. The agreement adopts direction in the House report to provide funding for marine aquaculture research separate from the National Sea Grant College Program base. NOAA shall follow direction in the Senate report on competitively supporting external research efforts. The agreement does not adopt the administration's request to eliminate National Sea Grant College fellowship programs.

INSERT 10A

National Weather Service (NWS).—\$953,627,000 is for NWS operations, research, and facilities. Funding for the core life and safety missions fulfilled by the National Weather Service remains a high priority for the Committees on Appropriations. Investments in improved forecasting capabilities included in this Act and in Public Law 113–2, the Disaster Relief Appropriations Act, demonstrate the Committees' continued commitment to NOAA's weather enterprise. The agreement reiterates both House and Senate report language regarding the National Weather Service, including concerns raised about prior Antideficiency Act violations, transition of research capabilities, and consolidation of information technology activities in the context of a broader examination of a future staffing model for the National Weather Service. NOAA shall brief the Committees on Appropriations on no less than a quarterly basis regarding ongoing activities at the National Weather Service. Senate report language regarding data agreements and software development as a means to ingest, process, and assimilate data is modified to remove specific reference to geostationary hyperspectral data.

Senate language regarding a single, multiyear type of award is not adopted, and is further clarified in that any mesonet award competition should ensure that awardees provide data in formats that NWS may use in forecasts and severe weather alerts. The agreement recommends that NOAA conduct a study of how mesonet data can be integrated into the Advanced Weather Interactive Processing System. Within the funds provided, NOAA may, but is not required to, expand network coverage and add additional observations.

collaboration and that the GOES-R and JPSS programs are proceeding well and being effectively executed. However, this assessment also concludes, along with prior assessments made by the Commerce Inspector General and the Government Accountability Office, that critical issues remain to be addressed, namely JPSS gap mitigation and program fragility. The Committee ^{es} expects NOAA to present a strategy with the fiscal year 2015 budget that fully addresses both the short- and long-term challenges associated with the gap and fragility of the program. Such a strategy shall examine the proposed polar free flyer mission, which the agreement does not fund due to fiscal constraints. NOAA is expected to focus on the weather mission and to better address the weather gap in its fiscal year 2015 budget. In addition, NOAA may use JPSS funds included in this Act and prior appropriations for the procurement of additional spare instruments and spacecraft as necessary to ensure the continuity of polar observations. NOAA shall consult with the Committees on Appropriations prior to beginning this effort. DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

This Act includes \$110,000,000 for General Administration, Salaries and Expenses.

Since January 1, 2011, the Department of Justice (DOJ) has experienced more than 3,500 vacancies of core staff positions due to retirement or separation—about 3 percent of the workforce. Funding included in this Act for component agencies will allow hiring to improve readiness at the Department. It is expected that DOJ will prioritize hiring to fill vacant operational positions in the field including FBI, ATF and DEA Special Agents; Deputy U.S. Marshals; intelligence analysts; and Federal prosecutors.

In lieu of the House proposal to transfer funds to the Office of Inspector General (OIG) for an independent review of the management and policies of the Civil Rights Division, the agreement includes funding for such activity under the OIG appropriation as described below.

This Act includes language under general provisions requiring a Department-wide spending plan that encompasses plans for all Department agencies and activities, which supersedes direction in the Senate report.

To counter growing cyber threats, the agreement bolsters resources for DOJ capabilities to investigate and prosecute cases against cyber criminals, organized crime, and nation-state actors. To better inform budget formulation and help DOJ apply resources precisely and efficiently, the Department shall provide the Committees on Appropriations, not later than 120 days after the date of enactment of this Act, a multiyear strategic plan that identifies resources, programs and coordination structures needed to enable DOJ to prevent and respond more rapidly to future attacks. The plan should include recommendations for the DOJ cybersecurity workforce; collaboration with Federal agencies, State and local law enforcement, and the private sector; intelligence sharing among DOJ components and with other Federal agencies; and how DOJ can target technology procurement to maximize impact and minimize waste.

The Department shall review its existing legal penalties for companies associated with industrial espionage, as proposed in the House report, and brief the Committees on Appropriations on the efficacy of current penalties and recommendations for their improvement, in lieu of the report proposed by the House.

The Justice Department and the administration are encouraged to work with Congress, as proposed in the Senate report, on ways to reform DOJ enforcement and incarceration policies in order to address the burden of funding and supporting a rapidly growing inmate and detention population. Further direction is provided under “Federal Prison System, Salaries and Expenses” and “State and Local Law Enforcement Assistance” with regard to new assessments of Federal corrections policies, and DOJ shall take into account the results of such efforts and similar ones in developing its strategies and policies with regard to stemming the growth of the incarcerated population.

The Department shall brief the Committees on Appropriations not later than 120 days after the enactment of this Act on registration requirements and the number of lobbyists registered under the Foreign Agents Registration Act and the Lobbying Disclosure Act, as specified in the House report, in lieu of the House requirement to submit a report.

The Department shall submit a comprehensive report on all Department of Justice anti-human trafficking activities no later than 60 days after the date of enactment of this Act, as specified in the House report, with the exception that any information on sensitive matters pertinent to a full description of such activities may be provided to the Committees on Appropriations in a briefing before that date.

The Department shall brief the Committees on Appropriations not later than 120 days after enactment of this Act on Justice Department personnel and budgetary resources based in or assigned to support law enforcement efforts in Puerto Rico and U.S. Virgin Islands as specified in the House report, in lieu of the report proposed by the House. (the

This Act includes \$86,400,000 for the Office of Inspector General (OIG). Within this amount, \$1,000,000 shall be used to select an independent entity to conduct an assessment of the operation and management of the Department's Civil Rights Division (CRT). The results of this review shall be submitted to the Committees on Appropriations not later than one year after enactment of this Act, and shall address shortcomings identified in the March, 2013 OIG report,

Anti-gang efforts.—The FBI shall continue to sustain its National Gang Intelligence Center from within the total appropriation provided, as specified in the House report. In addition, the FBI shall sustain at no less than current levels its participation and leadership in Safe Streets Task Forces and similar cooperative anti-gang programs.

Insider threats.—The FBI shall submit to the Committees on Appropriations a classified report, with a summary unclassified to the greatest extent possible, on trends in espionage in U.S. laboratories, industry, and academia, as specified in the House report, not later than 120 days after the enactment of this Act.

Financial fraud.—The FBI shall, from within funding provided, make it a priority to sustain its financial and mortgage fraud investigations at not less than the fiscal year 2013 level.

Criminal Justice Information Services Division (CJIS).—Within funding provided, and including user fees, the FBI should sustain CJIS at no less than the fiscal year 2013 level.

FBI headquarters consolidation.—The agreement adopts, by reference, Senate language regarding FBI headquarters consolidation. FBI headquarters consolidation is expected to result in a full consolidation of FBI headquarters so that employees currently located at the J. Edgar Hoover building may be co-located with colleagues who are currently spread out across 20 leased offices in the region.

Surveillance.—Within funding provided, the FBI shall strive to meet the level of effort and funding proposed in the Senate report concerning surveillance.

National Instant Criminal Background Check System (NICS).—Within the amount provided, the FBI is expected to increase resources by \$60,000,000 to expand the capacity of the existing NICS system to meet the rising volume of requests for NICS checks.

Innocent Images.—Within funding provided, the FBI shall sustain efforts to investigate those who prey on children online, as specified in the Senate report, at a level no less than that supported in fiscal year 2013.

Terrorist Explosive Device Analytical Center (TEDAC).—The agreement provides \$30,000,000 to continue ongoing FBI counter-improvised explosive device (IED) initiatives, including \$16,500,000 under Construction and \$13,500,000 under this account for recurring operations and maintenance, permanent change of station expenses, and staffing for facilities that will be complete in 2014. The FBI may propose a transfer between these two accounts, as necessary, in accordance with the standard reprogramming guidelines, to address changing requirements.

Assessments of mobile phones in-flight.—The FBI shall coordinate with the Department of Homeland Security, the Federal Aviation Administration, and the Federal Communications Commission (FCC) to ensure any relevant research or threat assessments are taken into account as the FCC considers changes to rules regarding in-flight use of mobile phones.

CONSTRUCTION

This Act includes \$97,482,000 for FBI Construction, of which up to \$16,500,000 is included for additional facilities to support the exploitation and warehousing of IEDs by the TEDAC. This is in lieu of the Senate proposal to transfer funds to the “Salaries and Expenses” account.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

This Act includes a direct appropriation of \$2,018,000,000 for the salaries and expenses of the Drug Enforcement Administration (DEA). DEA expects to derive \$360,917,000 from fees deposited in the Diversion Control Fund to carry out the Diversion Control Program. The agreement includes language under the Community Oriented Policing Services (COPS) program transferring \$10,000,000 to DEA for methamphetamine lab cleanup. Firearms tracing, enforcement and regulatory oversight.—Within the amount provided, ATF is expected to undertake an enhancement of its enforcement and regulatory efforts, to include updating and expanding the National Integrated Ballistic Imaging Network (NIBIN), as proposed in both House and Senate reports. ATF shall provide a briefing, in lieu of the report

called for in the House report, to the Committees on Appropriations no later than 60 days after the date of enactment of this Act on the allocation of fiscal year 2014 funding for violent crime enforcement, regulatory efforts and firearms tracing, to include NIBIN.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

This Act includes \$6,769,000,000 for the salaries and expenses of the Federal Prison System, including \$2,492,500,000 for Inmate Care and Programs, \$2,951,000,000 for Institution Security and Administration, \$1,114,500,000 for Contract Confinement, and \$211,000,000 for Management and Administration. The Bureau of Prisons (BOP) shall give top priority in this account to filling existing and new vacancies to ensure safe and secure operations at existing facilities.

Senate report language regarding a Government Accountability Office (GAO) assessment of the growing cost of housing Federal inmates and detainees is adopted by reference, as is the requirement for the BOP to submit a comprehensive plan to address prison population growth. Further direction on Federal corrections reform is provided under “State and Local Law Enforcement Assistance” in this statement.

Within funding provided, BOP is expected to use contract confinement funding at no less than the fiscal year 2013 level to alleviate overcrowding. Similarly, within the funding provided, BOP should continue efforts to expand Second Chance Act and Residential Drug Abuse Program capacity.

BOP shall include detailed, project-specific information on activations in the Departmental spending plan required by this Act.

BUILDINGS AND FACILITIES

This Act includes \$90,000,000 for the construction, acquisition, modernization, maintenance and repair of prison and detention facilities housing Federal inmates.

BOP is directed to include detailed project-specific spending plans for both the New Construction and the Modernization and Repair decision units, along with a comprehensive

report on the current modernization and repair backlog, in the Department's spending plan required by this Act. The agreement adopts Senate language requiring BOP to use the findings from the GAO report on prison overcrowding in preparing a long-term plan to address needs, including, where warranted, the construction of new facilities; and House language directing BOP to move forward with ongoing facilities planning for future prison construction to meet projected capacity requirements.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

This Act includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated (FPI).

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

In total, this Act includes \$2,274,300,000 for State and local law enforcement and crime prevention programs. This amount includes \$2,193,300,000 in discretionary budget authority and \$81,000,000 scored as mandatory for Public Safety Officer Benefits.

House and Senate report language regarding management and administration expenses is adopted by reference, and it is clarified that the Department's methodology for assessing these costs should be both fair and equitable across all grant programs.

Spending plan.—The Department shall submit a spending plan and related materials for each program funded under this heading to the Committees on Appropriations not later than 30 days after the enactment of this Act, along with the overall spending plan required by this Act. In matters in the House report under this heading that call for a plan for the use of funds for a specific grant program, such requirement shall be satisfied by inclusion in the overall spending plan unless otherwise provided herein.

No less than \$250,000 of the funds provided for research and evaluation on violence against women shall be for the Bureau of Justice Statistics (BJS) to collect statistics and report on the incidence of honor violence in the United States. The report on this matter required by the House report shall include these statistics.

RESEARCH, EVALUATION AND STATISTICS

This Act provides \$120,000,000 for the Research, Evaluation and Statistics account. These funds are distributed as follows:

INSERT 28B

Forensic sciences.—The agreement provides \$4,000,000 for a forensics initiative, of which \$1,000,000 is to support the Forensic Science Advisory Committee, to be chaired by the Attorney General and the Director of the National Institute of Standards and Technology (NIST), and \$3,000,000 is provided, by transfer, to NIST to support Scientific Working Groups. DOJ shall coordinate its forensics initiative activities with NIST.

There is concern that the administration's forensic sciences initiative, as proposed in the budget request, lacks the involvement of the State and local practitioner community, making the community an observer—not a participant—in addressing forensic reform, and thereby running the risk that the initiative will not take into consideration existing, proven standards and processes used within the community. It is expected that the Forensic Science Advisory

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE

This Act includes \$1,171,500,000 for State and Local Law Enforcement Assistance programs. These funds are distributed as follows:

INSERT 29 A

Human trafficking.—The agreement includes ~~\$14,250,000~~ for victims of human trafficking. OJP shall consult with stakeholders in determining the overall allocation of this funding, including amounts allocated to assist foreign national victims, and such details shall be included in the spending plan required by this Act.

DNA grants.—Senate bill language regarding certain requirements for Debbie Smith Act grants is not included. OJP shall ensure that labs receiving funds made available through the Debbie Smith DNA Backlog Grant Program are operating in good standing and properly accredited before disbursing grant funding.

Byrne-Justice Assistance Grant (JAG) subgrantees.—The agreement includes Senate report language regarding State-imposed matching requirements on Byrne-JAG subgrantees, and DOJ is urged to work with States to find alternatives to such requirements.

Violent Gang and Gun Crime Reduction.—The agreement provides \$8,500,000 for competitive grants aimed at reducing homicides and gun-related violent crime in communities overwhelmed by gangs of national significance and illegally purchased and trafficked guns.

National Instant Criminal Background Check System (NICS) Initiative grants.—The agreement includes \$58,500,000 for grants to improve records in the NICS system. These funds will strengthen NICS by assisting States in finding ways to add more records to the system, especially mental health records. This will help close gaps in Federal and State records currently available in NICS, which hinder the ability to confirm quickly whether a prospective purchaser is prohibited from acquiring a firearm.

INSERT 29A

The agreement consolidates the National Criminal History Improvement Program and the NICS Act Record Improvement Program (NARIP), allowing grants to be made under both authorities. Not less than \$12,000,000 shall be available only for States meeting the requirements for NARIP.

Comprehensive School Safety Initiative.—The agreement includes \$75,000,000 for a Comprehensive School Safety Initiative, a research-focused initiative to increase the safety of schools nationwide. The Initiative shall bring together the Nation’s best minds to research the root causes of school violence, develop technologies and strategies for increasing school safety, and provide pilot grants to test innovative approaches to enhance school safety across the Nation. The National Institute of Justice (NIJ) shall develop and implement the Initiative and shall report to the Committees on Appropriations no later than 90 days after the date of enactment of this Act on its implementation plans.

NIJ shall collaborate with key partners from law enforcement, mental health, and education disciplines to develop a strategy and model for comprehensive school safety. The model should take into account concerns about the “school-to-prison pipeline” discussed in the Senate report. NIJ shall provide to the Committees on Appropriations a report detailing the results of this effort and an outline of the model not later than 90 days after the date of enactment of this Act. Immediately following the development of this model the NIJ shall make it available via the Department of Justice website.

Of the amounts provided, \$50,000,000 shall be for pilot grants to improve school safety aligned with the model described in the preceding paragraph. These grants may be used to: test and evaluate technologies and strategies to improve school safety; develop and update school safety assessments and plans; provide technical assistance or training; and support and assess other programs and technologies that are intended to enhance overall school safety efforts. Schools, in consultation with law enforcement and school mental health professionals, should coordinate when applying for funding. Uses of such funding should conform to the schools’ own comprehensive school safety assessments and plans, and should advance the goal of developing, testing and discerning best practices for school safety. In awarding such grants, NIJ shall take into account the extent to which the activities to be funded by the grants align with the model,

are informed by research, and are designed with a rigorous evaluation component to ensure that taxpayer funds are being spent effectively.

In addition, not less than \$25,000,000 shall be for research and evaluation. Such research shall analyze potential root causes of violence in schools, including gaps in the Nation's mental health system and exposure to violence in media. In addition, the Initiative shall examine promising new approaches and technologies to determine the most effective measures for the improvement of school safety, such as the development of comprehensive school safety assessments; the development and implementation of appropriate training modules; effectiveness of surveillance cameras; or new ways of designing schools to improve survivability in the event of a mass shooting incident. NIJ shall disseminate its research results, in both urban and rural areas, so school administrators and local officials can implement proven methods to keep schools and communities safe.

The Department's OIG shall conduct audits and oversight of funds provided under this Initiative. The OIG shall also review concerns raised by the public about specific investments using funds made available in this program, and relay findings of their reviews to the Director of the NIJ and the Committees on Appropriations.

Colson Task Force.—Of the amount provided for justice reinvestment, not less than \$1,000,000 is included to establish and support the operations of a nine-person, bipartisan, blue ribbon Charles Colson Task Force on Federal Corrections to address challenges in the Federal corrections system, as described in the House report. To create this task force the Department shall, no later than 60 days after enactment of this Act, choose an organization that will convene individuals with recognized relevant expertise in justice reinvestment and corrections reform. Not later than 12 months after its first meeting, the task force shall prepare and submit a report that contains a statement of its findings, conclusions, and recommendations to the Congress, Attorney General and President.

The task force shall develop practical, data-driven policy options to increase public safety, improve offender accountability, reduce recidivism, and control growth of spending on corrections. Such findings should include legislative actions for the Congress to consider. As part of its work, the task force shall examine: overcrowding in BOP facilities and options to avert continued growth in the system population; measures to address overcrowding within facilities;

violence in the system, including gang violence, and improved public safety measures; prison rehabilitation and employment programs; and reentry programs and policies to reduce recidivism. The task force shall also undertake a comprehensive analysis of relevant criminal justice data; identify factors driving the growth in prison populations; study “lessons learned” from successful State-level justice reinvestment initiatives; and evaluate current and potential criminal justice policies, including the cost-effectiveness of spending on corrections.

JUVENILE JUSTICE PROGRAMS

This Act includes \$254,500,000 for Juvenile Justice programs. These funds are distributed as follows:

INSERT 32A

Missing and exploited children.—The agreement provides \$67,000,000 for missing and exploited children programs, of which not less than the current year funding shall be provided for Internet Crimes Against Children program-related activities.

Part B—State Formula Grants.—The agreement provides \$55,500,000 for Part B—State Formula Grants, which help States implement the Juvenile Justice and Delinquency Prevention Act and improve their juvenile justice systems. As the agreement terminates funding for the Juvenile Accountability Block Grant (JABG) program, the Act allows up to \$10,000,000 provided under the Part B subparagraph to be used for building, expanding, renovating, or operating temporary or permanent juvenile correction, detention, or community corrections facilities, which are authorized activities under the former JABG program. OJP shall ensure that States using funding under this program for operating juvenile facilities include in their grant reporting a plan to transition away from using Juvenile Justice grant funding for such purposes in future fiscal years. In addition, OJP shall work with States to understand how Part B funding can be used for purpose areas where JABG and Part B overlap. OJP shall also ensure that States are aware of JABG purpose areas for which Byrne-JAG funding may be used. OJP should encourage States to pay particular attention to activities that are evidence based as well as those that increase offender accountability.

New initiatives.—The agreement includes \$5,000,000 for ~~the~~ Juvenile Justice and Education Collaboration Assistance, which will help encourage evidence-based responses to

OJP is urged to continue working with both OIG and affected grantees to review and implement audit recommendations as quickly as practicable in order to minimize the administrative and financial burden on those grantees and the disruption of services to the community.

PUBLIC SAFETY OFFICER BENEFITS

This Act includes \$97,300,000 for the Public Safety Officer Benefits program for fiscal year 2014. Within the funds provided, \$81,000,000 is for death benefits for survivors, an amount estimated by the Congressional Budget Office that is considered mandatory for scorekeeping purposes. In addition, \$16,300,000 is provided for disability benefits for public safety officers permanently and totally disabled as a result of a catastrophic injury and for education benefits for the spouses and children of officers killed in the line of duty or permanently and totally disabled as a result of a catastrophic injury sustained in the line of duty.

Section 217 places limitations on the obligation of funds from certain Department of Justice accounts and funding sources.

TITLE III SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

This Act includes \$5,555,000 for the Office of Science and Technology Policy (OSTP).

Science, Technology, Engineering and Math (STEM) education reorganization.—While the Congress is supportive of attempts to improve efficiency and effectiveness in Federal STEM education programs, the proposed reorganization of these programs contained in the budget request was incomplete and lacked sufficient detail. The proposal contained no clearly defined implementation plan, had no buy-in from the education community and failed to sufficiently recognize or support a number of proven, successful programs. Accordingly, the agreement does not adopt the reorganization; all STEM activities are funded in their existing programmatic structures unless explicitly noted otherwise elsewhere in this statement or through language in either the House or Senate report that is not modified or superseded by this statement.

OSTP shall reexamine other possible reorganizations of Federal STEM programs for consideration in a future fiscal year after engaging in an inclusive development process (involving the interagency community and major external stakeholders) and taking into consideration evaluations and other evidence of program success.

Dissemination of STEM findings.—The report on the dissemination of STEM education findings requested in the House report shall be provided no later than 90 days after the enactment of this Act.

Interagency Working Group on Neuroscience (IWGN).—The agreement incorporates language from the House report regarding OSTP's commendable efforts to coordinate and increase neuroscience research throughout the Federal government. In recognition of the international interest in furthering neuroscience research, OSTP shall, to the extent possible, identify possible opportunities for international collaboration to further the goals and efforts of the IWGN.

Public access to federally funded research.—Major Federal research agencies are in the process of drafting and implementing plans to enable public access to federally funded research

findings in accordance with guidance issued by OSTP in February, 2013. OSTP shall report to the Committees on each agency's progress in developing and implementing its plan. The first such report shall be submitted within 45 days of the enactment of this Act, with semi-annual updates thereafter.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

This Act includes \$17,646,500,000 for the National Aeronautics and Space Administration (NASA).

Asteroid Redirect Mission (ARM).—NASA has proposed a new mission known as the ARM that would engage both scientific and human exploration activities. While the ARM is still an emerging concept, NASA has not provided Congress with satisfactory justification materials such as detailed cost estimates or impacts to ongoing missions. The completion of significant preliminary activities is needed to appropriately lay the groundwork for the ARM prior to NASA and Congress making a long-term commitment to this mission concept.

Reprogrammings and transfers.—Reprogramming and transfer authorities exist so that NASA can respond to unexpected, exigent circumstances that may arise during the fiscal year, not so that NASA can pursue its internal priorities at the expense of congressional direction. If NASA persists in abusing its reprogramming and transfer authorities, those authorities will be eliminated in future appropriations acts.

A table of specific funding allocations for NASA is delineated below, and additional detail may be found under the relevant account headings.

INSERT 37A

SCIENCE

This Act includes \$5,151,200,000 for Science.

Education and Public Outreach (EPO).—Consistent with longstanding NASA practice, the agreement maintains EPO funding within the Science Mission Directorate (SMD). The current method of distributing EPO funds within SMD, however, may not produce the most efficient allocation of limited resources. For fiscal year 2015 and future years, NASA shall

Earth Science.—Within the amounts provided for Earth Science, NASA shall comply with direction from the Senate report on land imaging; the Soil Moisture Active Passive mission; Ice, Cloud and land Elevation Satellite-2; the Pre-Aerosol, Clouds, Ecosystem mission; carbon monitoring; and SERVIR.

The language contained in the House report regarding funding for the Deep Space Climate Observatory and for climate sensors previously planned for inclusion in NOAA's Joint Polar Satellite System (JPSS) is not adopted. Prior to expending any funds on the development of the JPSS climate sensors, however, NASA shall submit to the Committees a development plan for each sensor, including a notional budget and schedule profile covering the budget run-out period as well as a description of the effect this funding will have on the achievement of existing NASA priorities as recommended in the 2007 Earth Science decadal survey.

Planetary Science.—In lieu of any amounts included for specific Planetary Science activities in the House and Senate reports, the agreement provides \$130,000,000 for Research and Analysis; up to \$40,500,000 for Near Earth Object Observation; \$285,000,000 for Discovery; \$258,000,000 for New Frontiers, including \$218,700,000 for OSIRIS-REx; \$288,000,000 for Mars Exploration, including \$65,000,000 for the development of the Mars 2020 Rover; \$159,000,000 for Outer Planets, including \$80,000,000 for a Jupiter Europa mission as described in the House report; and \$146,000,000 for Technology, including up to the requested level for Plutonium-238 production.

NASA shall use the funds provided for the Discovery program to support extended operations for the Messenger program and to increase the tempo by which Announcements of Opportunity (AOs) are released and missions are selected from those AOs. NASA is encouraged to initiate a new Discovery AO no later than May 1, 2014 with final phase two selection and award of one or more missions by September, 2015.

NASA's discontinuation of Advanced Stirling Radioisotope Generator (ASRG) flight system development activities may disadvantage individuals or teams whose Planetary Science mission proposals assumed, based on NASA's previous AOs and development schedule, that ASRG technology would be available to them when needed. NASA shall take steps to mitigate

the impact on such proposers and ensure that they have sufficient opportunities to compete for funds in the future with adjusted mission concepts that no longer rely on ASRG technology.

Astrophysics.—Within the amounts provided for Astrophysics, NASA shall comply with direction from the Senate report regarding the Hubble Space Telescope, the Balloon Project and the Wide Field InfraRed Survey Telescope.

Heliophysics.—Within the amounts provided for Heliophysics, NASA shall comply with direction from the Senate report regarding the Magnetospheric MultiScale mission, Solar Probe Plus and the Explorer program.

AERONAUTICS

This Act includes \$566,000,000 for Aeronautics.

SPACE TECHNOLOGY

This Act includes \$576,000,000 for Space Technology.

EXPLORATION

This Act includes \$4,113,200,000 for Exploration.

Human Exploration Capabilities.—The following language pertaining to the Space Launch System (SLS) and Orion Multi-Purpose Crew Vehicle supersedes all positions expressed in either the House or Senate report unless otherwise noted.

The agreement reiterates disappointment in NASA’s SLS budget submissions and its failure to follow congressional direction to base the SLS budget on NASA’s own independent cost assessment (ICA). Adequate funding for SLS, a top NASA priority, is necessary to support program goals, preserve progress already made toward achieving the upcoming test flight and maintain a schedule that supports accomplishing an initial operating capability in 2017. The agreement provides \$1,600,000,000 under the “Exploration” heading to maintain critical forward momentum for the core development of SLS and, where practicable, components that will allow SLS to become a 130 metric ton vehicle, including the J2-X engine, upper stage, advanced boosters and SLS-related infrastructure. Due to continuing concerns regarding the diversion of funding intended for vehicle development to activities with only tangential relevance to SLS, NASA shall not use SLS funds for engineering or other activities that are not directly related to

SLS vehicle development. Further, NASA shall leverage its existing investments and find common designs that will limit the number of changes necessary during SLS development.

Until such time that NASA can produce sufficient information to the Committees that accurately reflects known funding requirements, NASA should not rely on anything other than its own ICA to guide its funding recommendations for SLS for fiscal year 2015.

NASA shall provide the quarterly SLS spending reports and the report on additional potential uses of the 130 metric ton SLS configuration as originally described in the House report. The quarterly spending reports shall also track key milestones and schedules in vehicle development and activities related to all SLS vehicle and ground systems work.

The agreement also provides \$1,200,000,000 for the Orion Multi-Purpose Crew Vehicle, including \$3,000,000 under the “Construction and Environmental Compliance and Restoration” heading. This funding will allow NASA to keep Orion development on schedule with SLS to meet upcoming testing milestones and to achieve initial operational readiness in 2017.

Commercial crew.—The agreement provides \$696,000,000 for the Commercial Crew Program (CCP) and confirms the intent of the House and Senate reports on Federal Acquisition Regulation–based contracts, private investment, safety standards and the number of CCP partners. In addition, NASA shall comply with language from the Senate report regarding rocket testing infrastructure.

The primary purpose of the CCP has always been to develop a national capability to restore domestic access to the International Space Station (ISS) as quickly and safely as possible. Currently, the ISS is scheduled to complete its mission by 2020, and NASA has no definitive plan yet to extend the mission beyond that date. This uncertainty has a substantial impact on planning and financial requirements in the CCP that must be addressed. To that end, the agreement withholds from obligation a portion of CCP funds until NASA certifies that the program has undergone an independent benefit-cost analysis that takes into consideration the total Federal investment in the CCP and the expected operational life of the ISS. “Expected operational life” shall be defined by NASA based on an ISS sustainability plan that includes a comprehensive systems assessment, identification of critical functional and scientific capabilities and long term funding projections as described in the Senate report. Benefits and costs shall be examined in relation to current ISS crew transportation practices.

In addition to the certification itself, both the ISS sustainability plan used to derive the ISS expected operational life and an un-redacted copy of the independent benefit-cost analysis shall be provided to the Committees.

SPACE OPERATIONS

This Act includes \$3,778,000,000 for Space Operations.

International Space Station.—The agreement does not include the specific funding level for the ISS contained in the Senate report. However, the agreement maintains strong support for the ISS, and the operational and financial concerns expressed in both the House and Senate reports stand. The agreement also modifies financial reports required by both the House and Senate reports pertaining to the operational costs of the ISS to include one reporting requirement detailed under the “Exploration” heading of this statement.

Satellite servicing.—The agreement supports the Senate’s direction on satellite servicing but modifies the total amount to \$100,000,000, including the requested amounts in both the Space Technology and Human Exploration and Operations Mission Directorates and carryover funding from fiscal year 2013.

Space and Flight Support.—The agreement provides the requested levels for the 21st Century Space Launch Complex and Rocket Propulsion Testing programs.

ISS intellectual property (IP).—The agreement encourages more research on the ISS but acknowledges that current IP rules may encumber the commercial application of such research. NASA shall submit to the Committees within 45 days of the enactment of this Act, or provide within its fiscal year 2015 budget request, proposed policies or legislation that appropriately address concerns regarding the ownership of IP, including inventions and data, developed through the use of the ISS. NASA shall take into consideration regulations and policies currently in place for industries that have an interest in using the ISS as a research platform.

EDUCATION

This Act includes \$116,600,000 for Education.

Space Grant.—Any Space Grant funds available in excess of the amount needed to fulfill base awards shall be made available to all consortia on a competitive basis.

Experimental Program to Stimulate Competitive Research (EPSCoR).—NASA shall consider and incorporate the findings of the November, 2013 report of the National Academy of Sciences on the EPSCoR program into its fiscal year 2015 budget request.

STEM Education and Accountability Projects (SEAP).—Consistent with language from the Senate report, NASA may reorganize and consolidate Office of Education activities funded within SEAP as proposed in the budget request.

CROSS AGENCY SUPPORT

This Act includes \$2,793,000,000 for Cross Agency Support.

Security.—In fiscal year 2013, NASA commissioned a review of its security policies and procedures by the National Academy of Public Administration (NAPA). Upon receipt of the final NAPA report, NASA shall submit to the Committees a list of NAPA’s recommendations for action along with a proposed response to each recommendation. This report shall be updated on a quarterly basis to document NASA’s progress in implementing its responses.

Infrastructure.—The NASA Office of Inspector General (OIG) recently released a number of reports, including IG-12-20, IG-13-008 and a memorandum dated December 11, 2013, examining NASA’s real property management. These reports found, in part, that NASA needs to revise its leasing guidance to ensure public notification of leasing opportunities, use competitive awarding practices whenever possible and help ensure the appropriate application of ancillary lease benefits such as aviation fueling. NASA shall report to the Committees on the status of each recommendation contained in the OIG reports, as well as any further steps taken by the agency to improve its real property management practices outside of the OIG recommendations. This report shall be provided no later than 120 days after the enactment of this Act.

As NASA continues its efforts to find non-governmental entities to take over its underutilized infrastructure, NASA should make that infrastructure available, to the greatest extent possible, through means that maximize flexibility and access for all interested users.

Reports.—All reports directed by the Committees shall be provided in electronic form as well as hard copy.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

This Act includes \$515,000,000 for Construction and Environmental Compliance and Restoration. Within the amount provided, up to \$142,000,000 shall be for Exploration Construction of Facilities.

OFFICE OF INSPECTOR GENERAL

This Act includes \$37,500,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS

This Act includes the following administrative provisions for NASA:

- a provision that makes funds for announced prizes available without fiscal year limitation until the prize is claimed or the offer is withdrawn;
- a provision that establishes terms and conditions for the transfer of funds; and
- a provision that subjects the NASA spending plan and specified changes to that spending plan to reprogramming procedures under section 505 of this Act.

NATIONAL SCIENCE FOUNDATION

This Act includes \$7,171,918,000 for the National Science Foundation (NSF).

RESEARCH AND RELATED ACTIVITIES

This Act includes \$5,808,918,000 for Research and Related Activities (R&RA).

Terminations and reductions.—NSF’s R&RA termination and reduction proposals are incorporated unless specifically noted otherwise in this statement or in language in either the House or Senate report that is not modified or superseded by this statement.

International Ocean Discovery Program (IODP).—The agreement provides the requested amount for IODP.

Cross-Foundation initiatives.—Limits on the implementation of OneNSF initiatives as proposed in the Senate report are not included. However, future growth in interdisciplinary research should not come at the expense of adequate support for infrastructure and core research

programs in each of NSF's individual scientific disciplines. NSF is urged to assess and refine the balance among these activities in its budget request for fiscal year 2015 and future years.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

This Act includes \$200,000,000 for Major Research Equipment and Facilities Construction. Funds are provided at the request level for all projects for which construction has already begun, and remaining funds are for the initiation of the Large Synoptic Survey Telescope (LSST) project. If NSF determines that LSST requires additional funding in fiscal year 2014, NSF may submit a transfer proposal to provide such funds.

EDUCATION AND HUMAN RESOURCES

This Act includes \$846,500,000 for Education and Human Resources (EHR).

Terminations and reductions.—NSF's EHR termination and reduction proposals are incorporated unless specifically noted otherwise in this statement or in language in either the House or Senate report that is not modified or superseded by this statement.

Broadening participation programs.—The agreement includes funding at the fiscal year 2013 current plan level for Centers for Research Excellence in Science and Technology and at the Senate level for the Historically Black Colleges and Universities Program, the Louis Stokes Alliance for Minority Participation, the Tribal Colleges and Universities Program and the Alliance for Graduate Education and the Professoriate.

NSF shall comply with both House direction to report on current and potential future efforts to meet the needs of Hispanic Serving Institutions (HSIs) through existing NSF programs and Senate direction to consider the establishment of an HSI-specific program similar to NSF's other broadening participation programs.

Advancing Informal STEM Learning (AISL).—The agreement includes \$55,000,000 for AISL.

AGENCY OPERATIONS AND AWARD MANAGEMENT

This Act includes \$298,000,000 for Agency Operations and Award Management.

OFFICE OF THE NATIONAL SCIENCE BOARD

This Act includes \$4,300,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

This Act includes \$14,200,000 for the OIG.

ADMINISTRATIVE PROVISION

This Act includes a provision that establishes terms and conditions for the transfer of funds.

TITLE IV
RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

This Act includes \$9,000,000 for the Commission on Civil Rights.

Oversight.—The fiscal year 2012 and 2013 appropriations Acts provided for an inspector general (IG) for the Commission, to be filled by the Inspector General of the Government Accountability Office (GAO). This Act provides for an orderly conclusion of the GAO IG’s fulfillment of this responsibility, including \$70,000 for the completion of any ongoing IG activities. House and Senate report language directing a new GAO review of the Commission is adopted by reference, but clarified to specify that the report on this review shall be due no later than 180 days after enactment of this Act. Senate language regarding additional elements of the review, such as an examination of the organizational structure of the Commission and any material differences between the work of the Commission and other work done within the Federal Government, is adopted by reference.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

This Act includes \$364,000,000 for the Equal Employment Opportunity Commission (EEOC). Up to \$29,500,000 shall be for payments to State and local enforcement agencies to ensure that the EEOC provides adequate resources to its State and local partners.

Reasonable factors other than age.—Section 538 of the House bill regarding an EEOC rule on age discrimination is not included. However, there is concern about this rule’s implementation with regard to public safety personnel. EEOC shall provide a report to the Committees on Appropriations, no later than 90 days after enactment of this Act, on the steps it is taking to ensure application of this rule does not have an adverse impact on the necessary employment policies of public safety agencies.

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

This Act includes \$83,000,000 for the International Trade Commission.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

This Act includes \$365,000,000 for the Legal Services Corporation (LSC).

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

Unauthorized uses of funds.—The Inspector General of the LSC is encouraged to conduct annual audits of LSC grantees to ensure that funds are not being used in contravention of the restrictions on engaging in political activities or any of the other restrictions by which LSC grantees are required to abide. The removal of funds from any LSC grantee determined by the Inspector General to have engaged in unauthorized political activity is recommended.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

This Act includes \$3,250,000 for the Marine Mammal Commission.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

This Act includes \$52,601,000 for the Office of the U.S. Trade Representative (USTR).

There has been an increase in Economy Act transfers of funds from federal agencies to USTR, including transfers that appear to reimburse USTR for carrying out activities that fall solely under USTR's mission. USTR is directed to isolate reimbursements for payments or travel expenditures as individual transfers, and to submit documentation of and justification for all Economy Act transfers, regardless of amount, to and from other federal agencies, to the House and Senate Committees on Appropriations not less than 15 days before such transfers of sums are made.

VC

VC

The agreement also adopts and clarifies Senate report language urging USTR to leverage the existing resources and expertise of other Federal agencies, when appropriate, to strengthen the U.S. negotiating position, including consulting subject matter experts and utilizing available information resources at relevant Federal agencies for the purpose of supporting trade negotiating positions and saving taxpayer dollars. However, the agreement does not support solicitation of monetary resources from other Federal agencies for the purpose of carrying out USTR's own mission.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

This Act includes \$4,900,000 for the State Justice Institute.

Language is included requiring the Department of Justice to notify the Committees 45 days in advance of any such reprogramming.

Section 506 provides that if it is determined that any person intentionally affixes a “Made in America” label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. Section 535 requires the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation to submit spending plans.

Section 536 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that was convicted of a felony criminal violation under any Federal law within the preceding 24 months, unless the agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 537 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless the agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 538 of the House bill, regarding an EEOC rule on age discrimination, is not included. Direction to EEOC on this subject is provided under title IV of this statement.

Section 541 of the House bill, expressing the sense of the Congress, is not included. Among agencies funded in this Act, those that aim to help create prosperity and/or promote economic development in distressed communities are urged to work diligently and creatively toward advancing these goals. In addition, these agencies are urged to continue improving their metrics for measuring mission success, including the relationship between agency resources and jobs created or preserved.

Section 523 of the Senate bill, regarding Office of Inspector General websites, is not included. The requirements of this provision were enacted into permanent law in the Inspector General Reform Act of 2008 (Public Law 110-409).

Section 539 of the Senate bill, regarding vehicle fleets, is not included. Instead, all agencies and departments funded under this Act shall submit to the Committees on Appropriations, at the end of the fiscal year, a report containing a complete inventory of the total number of vehicles owned, permanently retired, and purchased during fiscal year 2014 as well as the total cost of the vehicle fleet, including maintenance, fuel, storage, purchasing, and leasing.
