a	b	c	d	e	f	g	h	i

This prior approval reprogramming action is submitted for approval because these actions use general or special transfer authority, exceeds established reprogramming thresholds, affects special interest items, or indicates a new start. This reprogramming action provides funding in support of higher priority items, based on unforeseen military requirements, than those for which originally appropriated; and are determined to be necessary in the national interest. They meet all administrative and legal requirements, and none of the items have previously been denied by the Congress.

Part I of this reprogramming action transfers or realigns \$2,956.628 million among Fiscal Year (FY) 2018 Defense appropriations. This reprogramming action uses \$1,910.237 million of general transfer authority pursuant to section 8005 of division C of Public Law 115-141, the Department of Defense (DoD) Appropriations Act, 2018; and section 1001 of Public Law 115-91, the National Defense Authorization Act for FY 2018

Part II of this reprogramming action realigns \$134.630 million among FY 2018 Title IX Defense appropriations in section C of Public Law 115-141, the DoD Appropriations Act 2018.

Part III of this reprogramming action transfers \$195.434 million from the Defense Working Capital Fund, Army and the Defense Working Capital Fund, Navy, appropriations to the Operation and Maintenance, Army, 18/18, appropriation (\$100.0 million) and the Operation and Maintenance, Navy, 18/18, appropriation (\$95.434 million), respectively, pursuant to section 8008 of division C of Public Law 115-141, the DoD Appropriations Act, 2018.

Part IV of this reprogramming action realigns \$16.622 million within the Aircraft Procurement, Army, 18/20, appropriation; \$363.213 million within the Missile Procurement, Army, 18/20, appropriation; and \$28.0 million within the Aircraft Procurement, Navy, 18/20, appropriation as a result of proceeds from sales.

Part V of this reprogramming transfers \$1.997 million from the Defense Acquisition Workforce Development Fund, 18/20, appropriation to the Reserve Personnel, Army, 18/18, appropriation. This transfer is pursuant to Title 10, United States Code, section 1705(e)(1).

Part VI of this reprogramming action transfers or realigns \$333.044 million among FY 2017 Defense appropriations. This reprogramming action uses \$92.825 million of general transfer authority pursuant to division C of section 8005 of Public Law 115-31, the DoD Appropriations Act, 2017; and section 1001 of Public Law 114-328, the National Defense Authorization Act for FY 2017.

Approved (Signature and Date)

  11 July 2018

Subject: June 2018 Prior Approval Request (Omnibus)					DoD Serial Number: FY 18-17 PA

a		b	c	d	e	f	g	h	i

Part VII of this reprogramming action transfers \$423.981 million among FY 2017 Defense appropriations. This reprogramming action uses \$423.981 million of general transfer authority pursuant to section 9002 of Title IX OCO of division C of Public Law 115-31, the DoD Appropriations Act, 2017.

Part VIII of this reprogramming action transfers or realigns \$29.280 million among FY 2017 Air Force appropriations. This reprogramming action uses \$24.680 million of general transfer authority pursuant to section 10002 of Title X Additional Appropriations of division C of Public Law 115-31, the DoD Appropriations Act, 2017.

Part IX of this reprogramming action transfers or realigns \$150.195 million among FY 2016 Defense appropriations. This reprogramming action uses \$112.485 million of general transfer authority pursuant to section 8005 of division C of Public Law 114-113, the DoD Appropriations Act, 2016; and section 1001 of Public Law 114-92, the National Defense Authorization Act for FY 2016.

Part X of this reprogramming action transfers \$62.7 million within the Shipbuilding and Conversion, Navy, 11/20, appropriation. This reprogramming action uses \$62.7 million of general transfer authority pursuant to section 8005 of Public Law 112-10, the DoD Appropriations Act, 2011; and section 1001 of Public Law 111-383, the National Defense Authorization Act for FY 2011.

PART I – FY 2018 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2018 REPROGRAMMING INCREASES: **+2,956,628**

ARMY INCREASES: **+1,447,401**

Operation and Maintenance, Army, 18/18 **+524,386**

Budget Activity 01: Operating Forces

38,894,011	38,914,616	+399,294	39,313,910
------------	------------	----------	------------

Explanation: Funds are required for the following activities:

- \$+94.237 million to support increased home station training and equipment maintenance to increase unit and equipment readiness. This is a base budget requirement.
- \$+81.0 million for increased unit rotation training for Focused Ready Units and transportation of equipment to the forces on the Korean Peninsula to sustain and increase their readiness levels. This is a base budget requirement.
- \$+30.769 million to meet the Army's annual training guidance by providing units and commands supplemental training guidance and equipment maintenance standards to sustain a decisive action training tempo. This ensures that Army forces are ready to meet Combatant Commanders' requirements, and equipment and supply stocks are adequately maintained. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i
<ul style="list-style-type: none"> • \$+17.919 million for the Synthetic Training Environment to meet the immediate requirement to train Soldiers and Squads. This effort includes capability to maintain the highest level of proficiency and relevancy in close combat and advanced marksmanship training and increases Soldier lethality. This capability is critical to improve squad combat readiness, the fundamental building blocks of dismounted combat power. Training these skills through the use of simulators provides significant savings in time and money and provides statistical analysis of the training effect. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement. • \$+30.680 million for Army Cyber Operations Integration Center (ACOIC) support, maintenance upkeep at the home station during deployment, procurement of Non-Combat Evacuees Protective Masks to increase operational readiness. This is a base budget requirement. • \$+1.940 million for maintenance support to unit equipment left at the home station while units are deployed in order to maintain readiness of the home station requirement. This is a base budget requirement. • \$+42.391 million to support Logistics Readiness Centers (LRCs) for increased equipment readiness at home station installations. This is a base budget requirement. • \$+4.860 million for Additive Manufacturing Infrastructure to maintain throughput of industrial operations by increasing 3-D printing capabilities to print and manufacture difficult to procure parts. This is a base budget requirement. • \$+9.4 million for Air Defense Artillery spare parts and repairables, and medical supplies for Focused Ready Units. This is a base budget requirement. • \$+20.601 million for Combat Training Center (CTC) transportation and support contracts for upcoming National Guard units participating in CTC rotations at Fort Polk, Louisiana. This is a base budget requirement. • \$+12.0 million for Heavy Attack Reconnaissance Squadron rotation transportation cost to increase training for Army Aviation units and to integrate training with maneuver forces. This is a base budget requirement. • \$+3.918 million for the relocation of United States Forces Korea (USFK) from Yongsan to Camp Humphreys and for increased cyber security preparedness for USFK headquarters on the Korean peninsula. This is a base budget requirement. • \$+49.579 million for increased base life support safety and security; personnel and equipment transportation; and communications in the U. S. Central Command (USCENTCOM) area of responsibility to increase Army operational efficiency and effectiveness in furtherance of the increased end strength in the region. There is an additional \$77.135 million in Part II of this reprogramming action for the same requirement for a total of \$126.714 million. This is an OCO budget requirement.

Budget Activity 03: Training and Recruiting

5,039,572	5,039,557	+50,000	5,089,557
-----------	-----------	---------	-----------

Explanation: Funds are required to fund additional training requirements resulting from increases in military end strength and military instructors' shortfalls to build individual and institutional training readiness and provide trained personnel to line units, such as Multiple Launch Rocket System battalions and Security Force Assistant Brigades. This is a base budget requirement.

Budget Activity 04: Administration and Servicewide Activities

11,285,501	11,799,701	+75,092	11,874,793
------------	------------	---------	------------

Explanation: Funds are required to support Army Regional Cyber Centers (RCCs) and Base Management System (BMS). The funding will allow the Army's five Theater aligned Regional Cyber Centers to plan and execute defensive actions by detecting attacks and disruptions in support of Army readiness. The funding will also support the migration schedule for Joint Regional Security Stack (JRSS) and other network modernization initiatives. This is a base budget requirement.

Missile Procurement, Army, 18/20**+6,439****Budget Activity 02: Other Missiles****Lethal Miniature Aerial Missile System (LMAMS)**

257	16,669	257	16,669	+74	+6,439	331	23,108
-----	--------	-----	--------	-----	--------	-----	--------

Explanation: Funds are required procure Lethal Miniature Aerial Missile System (LMAMS) in support of JUON AF-0009. Funds will procure 74 All Up Rounds, support training equipment, and lot acceptance testing to be performed prior to the Defense Contract Management Agency (DCMA) buyoff of All Up Rounds. Funds will be added to existing contracts by September 2018. This is a base budget requirement.

Procurement of Weapons and Tracked Combat Vehicles, Army, 18/20**+305,000****Budget Activity 01: Tracked Combat Vehicles**

Stryker Upgrade	116	348,000	116	348,000	+91	+285,000	207	633,000
-----------------	-----	---------	-----	---------	-----	----------	-----	---------

Explanation: Funds are required to procure 91 Stryker Double V-Hull (DVHA1 Engineer Change Proposal (ECP) vehicles. This funding will support the replacement of the remaining six flat bottom Stryker brigades with Stryker DVHA1 ECP vehicles. Stryker DVHA1 ECP vehicles will provide Soldiers with increased capability and survivability compared to the flat bottom variant. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

Budget Activity 02: Weapons and Other Combat Vehicles Multi-Role Anti-Armor Anti-Personnel Weapons <div style="text-align: right;">6,520 6,520 +20,000 26,520</div>							
<u>Explanation:</u> Funds are required to procure 260 Lightweight Multi-Purpose Anti-Armor, Anti-Personnel Weapon System (MAAWS) with an improved Fire Control Unit. The MAAWS will provide Brigade Combat Teams (BCTs) with improved lethality and accuracy at increased ranges (from 400 to 1,000 meters) in support of dismounted Infantry formations. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.							
Other Procurement, Army, 18/20						+284,467	
Budget Activity 02: Communications and Electronics Equipment							
Production Base Support (C-E) 499 499 +12,171 12,670							
<u>Explanation:</u> Funds are required to support the integration and synchronization of Additive Manufacturing capabilities. This effort will enhance materiel readiness by improving capabilities for repairs and refurbishment and mitigating readiness impacts, such as obsolete parts, long lead items, and specialty tooling requirements. This is a new start . The estimated total cost of this new start effort is \$20.8 million (FY 2018, \$12.2 million, FY 2019, \$8.6 million). The FY 2019 required funding will be addressed in future reprogramming requests. This is a base budget requirement.							
Computer Ballistics: LHMBC XM32 8,117 8,117 +4,290 12,407							
<u>Explanation:</u> Funds are required to procure 262 M32A1 Lightweight Handheld Mortar Ballistic Computers (LHMBC). The M32A1 LHMBC computes firing solutions for all calibers of mortar rounds with speed and accuracy, serves as the Fire Direction Center for all mortar platforms, and communicates digitally on the Single Channel Ground and Airborne Radio System (SINCGARS). This is a base budget requirement.							
Mortar Fire Control System 34,760 34,760 +11,730 46,490							
<u>Explanation:</u> Funds are required for the following two efforts to allow Infantry Brigade Combat Teams (IBCT) and Armored Brigade Combat Team (ABCT) Mortar squads to send and receive secure digital call for fire messages, calculate ballistic solutions, and lay the mortar system to provide first round effects without vehicle dismount, thereby increasing accuracy, responsiveness, and survivability. This is a base budget requirement.							
<ul style="list-style-type: none"> • \$+7.830 million to procure 64 M150, 10 M151, and 108 Windows 10 Fire Control Computer with installation kits. The funding provides 120mm Mortar Fire Control capability to infantry squads in 5 IBCTs. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement 							

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)

Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i
<ul style="list-style-type: none"> \$+3.9 million to procure 18 M95 and 3 M96 for the integration into the M1064 Mortar Carrier for 1 ABCT. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement. 							
Transportable Tactical Command Communications							
		80,600		80,600		+93,000	173,600
<p><u>Explanation:</u> Funds are required to support four Very Small Aperture Terminal (VSAT) upgrade efforts to improve logistics satellite reach-back access on the DoD network and critical unit capabilities. This is a new start. The estimated total cost of this new start effort is \$93.0 million (FY 2018, \$93.0 million). These are base budget requirements. The following are the specific efforts:</p> <ul style="list-style-type: none"> \$+73.5 million to procure 266 new Tri-band Inflatable Satellite Antennas (ISA) to replace legacy single-band Combat Service Support (CSS) VSAT terminals that have performance issues and are becoming obsolete. \$+4.1 million to support multiband integration at Camp Roberts, CA, and Guam to accept Ka and X band satellite waveforms from TRIBAND ISAs onto the DoD global fiber backbone. \$+10.4 million to upgrade Combat Service Support (CSS) Automated Information Systems Interface (CAISI) with 2,417 Bridge Modules and 305 CAISI System Support Representative accessory kits to provide connectivity between the client computer terminals and a shared CSS VSAT terminal via radio. \$+5.0 million to procure ten Tri-band, Transportable Tactical Command Communications (T2C2) lite terminals for Countering Weapons of Mass Destruction teams' requirement to transmit site exploitation data/imagery to unit command posts via Manpack VSAT. 							
Night Vision Devices							
		182,619		182,619		+104,576	287,195
<p><u>Explanation:</u> Funds are required to procure 3,609 Army's Enhanced Night Vision Goggle – Binocular (ENVG-B) systems in support of the U.S. Army Forces Command (FORSCOM) Operational Needs Statement (ONS) 18-22806 and 25th Infantry Division ONS 18-22781. Soldiers require a single device that provides both night and thermal vision capability. This device must also include stereoscopic binocular depth perception to improve visual confidence in various lighting environments; resulting in increased mobility, rapid target detection, and faster engagement times on the modern battlefield. The only current technology that provides this capability is a fused display comprised of Image Intensification (I2) and thermal imagery in a binocular design. This capability provides normal binocular depth cues when performing a wide range of military tasks; plus higher resolution stereoscopic displays for faster target acquisition, better contrast sensitivity, and improved visual acuity over the current monocular device. This is a new start. The estimated total cost of this new start effort is \$278.6 million (FY 2018, \$104.6 million; FY 2019, \$109.7 million; FY 2020, \$64.3 million). The FY 2019 funding is included in the FY 2019 President's Budget request. The FY 2020 funding will be submitted in a future President's Budget request.</p>

	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
Line Item								
a	b	c	d	e	f	g	h	i

This is a congressional special interest item. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.

Budget Activity 03: Other Support Equipment

Robotics and Applique Systems	3,000	3,000	+21,000	24,000
-------------------------------	-------	-------	---------	--------

Explanation: Funds are required to procure Soldier Borne Sensor (SBS), squad-level Unmanned Aerial Systems (UAS), for seven additional Infantry Brigade Combat Teams (IBCTs). The SBS is a squad-level Intelligence, Surveillance, and Reconnaissance (ISR) asset that supports day and night operations, increasing situational awareness. This is a priority of the Secretary's Close Combat Lethality Task Force.

This is a base budget requirement.

CBRN Defense	36,246	36,246	+25,500	61,746
--------------	--------	--------	---------	--------

Explanation: Funds are required to procure 4 mass personnel and 17 high mobility decontamination systems, which enable the Army to respond to personnel and vehicle decontamination requirements. Mass personnel decontamination is a critical capability that enables the Army to decontaminate large numbers of patients in the event of contamination from a Chemical, Biological, Radiological and Nuclear (CBRN) Defense event. The high mobility decontamination system is an automated, modular decontamination system with increased flexibility that provides the ability to use multiple decontaminants while conducting Fixed Site and Terrain decontamination missions. This is a congressional special interest item. This is a base budget requirement.

Ground Soldier System	120,568	120,568	+12,200	132,768
-----------------------	---------	---------	---------	---------

Explanation: Funds are required to procure Nett Warrior, network range extension, and interoperability gateway system components for an Infantry Brigade Combat Team (IBCT) in order to assess the scalability of an integrated tactical network (ITN). The equipment will support the April 2019 assessment at the Joint Readiness Training Center. This is a congressional special interest item. This is a base budget requirement.

new start effort is \$392.0 million (FY 2018, \$46.0 million; FY 2019, \$105.0 million; FY 2020, \$106.0 million; FY 2021, \$73.0 million; FY 2022, \$62.0 million). The FY 2019 required funding will be addressed in future reprogramming requests. The FY 2020 and beyond funding will be submitted in future President's Budget requests. This is a base budget requirement.

Budget Activity 04: Advanced Component Development and Prototypes

PE 0603827A Soldier Systems - Advanced Development

54,526 54,526 +5,000 59,526

Explanation: Funds are required for the Adaptive Soldier Architecture effort intended to accelerate increased fidelity of squad and soldier baseline modeling and simulation, which allows assessment and comparison of lethality improvements to inform investment decisions. This is a new start. The estimated total cost of this new start effort is \$5.0 million. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.

PE 0603645A Armored System Modernization - Adv Dev

41,431 41,431 +98,580 140,011

Explanation: Funds are required to produce three sets of experimental-prototype Next Generation Combat Vehicle (NGCV) Optionally Manned Fighting Vehicles (OMFV) to support operational experiments for evaluation of Manned Unmanned Teaming (MUM-T) efforts and the applicability of two man crew (2MC) to achieve overmatch in the future fight. Funding will be used to execute an accelerated vehicle build and delivery timeline/schedule and provide prototype vehicles fully equipped with full mission equipment packages, additional sensors, and the capability to be optionally manned. Funding supports maturation and integration of Artificial Intelligence Terrain Recognition (AiTR) architecture, Hostile Fire Detection Localization (HFDL) camera and sensor to provide on-the-move capability and embedded processing, acquisition and integration of 3rd GEN FLIR prototype sensors, and evolving pre-shot detection sensor from single-band to multi-band. This is a base budget requirement.

PE 0604117A Maneuver - Short Range Air Defense (M-SHORAD)

19,201 19,201 +50,000 69,201

Explanation: Funds are required in support of the Initial Maneuver-Short Range Air Defense (IM-SHORAD) procurement of hardware and integration for an additional 12 prototypes to support a directed requirement. The additional funding will enable the Army to meet its objective of fielding a battery-sized unit of IM-SHORAD in the 4th quarter of FY 2020. This is a base budget requirement.

33,041

33,041

+15,200

48,241

Explanation: Funds are required to accelerate UH-60V developmental flight testing of prototype aircraft, Initial Operational Test & Evaluation (IOT&E) software developmental flight testing, and material fielding/training support development. This funding is necessary to prevent UH-60V fielding delays causing extended reliance on outdated analog and federated UH-60L cockpit systems, which significantly reduces situational awareness, increases pilot workload, and decreases mission readiness. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA		
Appropriation Title: Various Appropriations							Includes Transfer? Yes		
Component Serial Number:		(Amounts in Thousands of Dollars)							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i

NAVY INCREASES: **+434,144**

Military Personnel, Navy, 18/18 **+70,214**

Budget Activity 02: Pay and Allowances of Enlisted

18,595,954	18,595,954	+70,214	18,666,168
------------	------------	---------	------------

Explanation: Funds are required for the following activities:

- \$+54.0 million is required for enlistment bonuses to incentivize recruits in the Delayed Entry Program to accelerate their ship date to boot camp, which helps level loading of Navy basic training schools. This action is necessary to fully utilize training capacity as Navy increases its end strength in FY 2018 by over 4,000 enlisted Sailors. This is a base budget requirement.
- \$+16.214 million is required for enlisted basic pay, retired pay accrual, and social security due to 205 higher than the budgeted workyears of 268,187 for key Comprehensive Review/Strategic Readiness Review efforts to improve afloat unit manning and training. This requirement is included in the Navy strength plan that attains the end strength starting point for FY 2019 by the end of FY 2018. This is a base budget requirement.

Reserve Personnel, Navy, 18/18 **+2,600**

Budget Activity 01: Reserve Component Training and Support

2,005,210	2,005,210	+2,600	2,007,810
-----------	-----------	--------	-----------

Explanation: Funds are required for an additional 110 drill periods due an increase in drill participation and an increase of 4,800 mandays to support critical operational support and training to Commander Third Fleet's Rim of the Pacific (RIMPAC) exercises. This is a base funding requirement

Operation and Maintenance, Navy, 18/18 **+49,524**

Budget Activity 01: Operating Forces

45,499,212	45,519,144	+9,440	45,528,584
------------	------------	--------	------------

Explanation: Funds are required for Training and Equipment improvements to support execution of the Chief of Naval Operations (CNO) Comprehensive Review and the Secretary of the Navy (SECNAV) Strategic Readiness Review recommendations. Specific adjustments include the following:

- \$+1.3 million for the Naval Surface Forces Atlantic (SURFLANT) to update existing Automatic Identification System laptops. This is a ship safety equipment investment. This is a base budget requirement.
- \$+1.8 million for the Naval Sea Systems Command (NAVSEA) Ship Control System Design Review to reassess all variations of Bridge control systems in the fleet to determine suitability of human machine interfaces, and reliability of the underlying safety-critical control systems for thrust and steering. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations							Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i
<ul style="list-style-type: none"> \$+2,331 million to reestablish Commander, U.S. Second Fleet, as the operational and training fleet commander, under U.S. Fleet Forces Command, and symmetric to U.S. Third Fleet, to reduce overlap between administrative and operational responsibilities, and to better respond to the changing security environment. The Navy intends to establish a Commanding Officer Senior Mentor Program in Surface Ship homeports. The Navy also intends to establish a SURFLANT Fleet Improvement and Operational Safety Program and a Navy Expeditionary Combat Command Operational Safety Program. This is a base budget requirement. \$+4,009 million for business systems to address costs for making system changes to the Enterprise Resource Planning (ERP), the U.S. Marine Corps Standard Accounting, the Budgeting and Reporting System, and the Navy's legacy Standard Accounting and Reporting System accounting systems. This effort includes IT program management cost related to design for software changes, code development, changes to interfaces, system data conversion and cleansing; validation and testing of systems changes; automating system controls; audit control testing; and documenting systems and processes. This is a base budget requirement. 								
<u>Budget Activity 02: Mobilization</u>		919,734		919,734		+10,000		929,734
<u>Explanation:</u> Funds are required to refresh and sustain the Navy's Expeditionary Medical Facilities (EMF) - mobile field hospitals that support U.S. Marine Corps (USMC), Navy, and the Joint Force during combat operations in support of Combatant Commander Operational Plans for Wartime Contingency Operations. Specific adjustments include the following: <ul style="list-style-type: none"> \$+5.4 million for the prepositioning of the EMFs and other Deployable Medical Systems to designated sites. This is a base budget requirement. \$+4.6 million to refresh EMF equipment and supplies, such as surgical equipment, pressure infuser, glide scope, defibrillators, vital sign monitor, warehouse kit, and EMF module packing required to maintain and support current EMF/Expeditionary Medical Units (EMU) production schedules and readiness; providing continued medical care and collective protection capability for one legacy TEMPER tent based system. This is a base budget requirement. 								
<u>Budget Activity 03: Training and Recruiting</u>		1,946,082		1,946,128		+22,900		1,969,028
<u>Explanation:</u> Funds are required for Training and Equipment improvements to support execution of the CNO Comprehensive Review and the SECNAV Strategic Readiness Review recommendations. Specific adjustments include the following: <ul style="list-style-type: none"> \$+0.6 million to establish the Mariner Skills Training Program (MSTP) at Newport, RI, Norfolk, VA, and San Diego, CA, to provide a variety of courses of instruction to improve Surface Warfare Officer (SWO) and enlisted mariner skills. This is a base budget requirement. 								

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations							Includes Transfer? Yes

	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i
<ul style="list-style-type: none"> \$+22.0 million to establish the MSTP at Newport, RI, Norfolk, VA, and San Diego, CA, to provide a variety of courses of instruction to improve SWO and enlisted mariner skills. This effort is for planning and design of one East and one West Coast training facility followed by design build effort to deliver the training facilities. This is a base budget requirement. \$+0.3 million to expand the use of the United States Naval Academy (USNA) Yard Patrol craft for selected Naval Reserve Officers Training Corps (NROTC) midshipmen (80) during summer training in FY 2018. All commissioning sources (USNA/NROTC/Officer Candidate School) intend to expand the use of simulation capability. This is a base budget requirement. 								
Budget Activity 04: Administration and Servicewide Activities								
		4,082,142		4,226,266		+7,184		4,233,450
Explanation: Funding is for consulting services to plan and execute a forward-looking learning culture in the aftermath of the two ship collisions. Consulting group will partner with the Navy's Readiness Reform Steering Group (Industry and Best Practices Working Group) on framework for design and implementation of culture assessment models. Also funds modernization of the Navy Manpower Requirements System which is an analytical modeling tool to accurately predict manpower requirements for our surface ships. This is a base budget requirement.								
Operation and Maintenance, Marine Corps, 18/18						+103,000		
Budget Activity 01: Operating Forces								
		6,562,423		6,563,086		+103,000		6,666,086
Explanation: Funds are required for the following activities: <ul style="list-style-type: none"> \$+40.0 million for ground operations to improve readiness by purchasing Extreme Cold Weather gear based on a War Reserve Material study that identified shortfalls throughout the U.S. Marine Corps (USMC), with a focus on the Pacific Command Area of Responsibility. This is a base budget requirement. \$+11.0 million for preparations for Exercise Trident Juncture, which is scheduled for September 26, 2018 through November 7, 2018. This is a base budget requirement. \$+10.0 million for the field logistics program to support audit activities to include remediation of supply policies, reconciliation of records preparation of audit assertion work products, and development of process cycle narratives. This is a base budget requirement. \$+25.5 million for the base operating support program to support audit activities to include remediation of supply policies, reconciliation of records preparation of audit assertion work products, and development of process cycle narratives. This is a base budget requirement. \$+9.5 million for the base operating support program for wireless capability at maintenance and repair facilities at Marine Corps bases and stations to increase efficiency and effectiveness of maintenance

activities. Wireless will allow for an automated approach to supply management and accounting for property as required by audit. This is a base budget requirement.

- \$+7.0 million are required for a USMC mobility pilot for Disconnected, Intermittent, Low-bandwidth (DIL) users to include establishment of a Marine Corps tenant, associated hardware, and licensing for approximately 500 users who will be involved in testing. The Information Technology (IT) systems and applications hosted on commercial or military cloud providers rely on robust, reliable communications between the user and the cloud data center. As such, those cloud-hosted systems may not be available or useful to DIL users. This pilot will demonstrate the ability to extend systems residing in cloud hosting so that DIL users can both continue using them when temporarily disconnected and synchronize work when reconnected. If deemed successful, the hardware, software licensing, and developed procedures can be transitioned from pilot to production use for the pilot group. This is a base budget requirement.

Other Procurement, Navy, 18/20

+19,600

Budget Activity 02: Communications and Electronics Equipment

Items less than \$5 Million	109,447	109,447	+8,500	117,947
-----------------------------	---------	---------	---------------	---------

Explanation: Funds are required for the accelerated fielding of the Next Generation Surface Search RADAR (NGSSR). Additional funding will enable earlier NGSSR integration with AEGIS, Ship Self-Defense System, Cooperative Engagement Capability, and electronic navigation systems in direct support of the CNO Comprehensive Review and the SECNAV Strategic Readiness Review recommendations. This will significantly increase watch stander situational awareness while conducting navigation in congested waterways as well as increase overall safety of ship navigation. This is a congressional special interest item. This is a base budget requirement.

Budget Activity 07: Personnel and Command Support Equipment

Medical Support Equipment	11,383	11,383	+11,100	22,483
---------------------------	--------	--------	----------------	--------

Explanation: Funds are required to address modernization within the Navy's Deployable Medical Systems (DEPMEDS). Currently Expeditionary Medical Facilities (EMFs) are transitioning to Air-Supported Temper (Air Beam) tents. Approval will ensure the EMF Air Beam design has the correct and necessary equipment to be fully mission capable. A delay in acquiring these items will adversely impact the mission capability of Navy's various DEPMEDS platforms. Requirements include the following programs; these are base budget requirements:

- \$+6.0 million for COLPRO for one Air-Supported Temper (Air Beam) Tent-Based EMF.
- \$+5.1 million for EMF Information Technology, electrical upgrades, and other accessories for full mission capability.

PE 0603801N Innovative Naval Prototypes Advanced Technology Development								
	152,331		152,331		+99,443		251,774	
Explanation: Funds are required to begin design, fabrication, and testing of an advanced Railgun mount. Efforts include design trades, Preliminary and Critical Design Review (PDR and CDR), purchase of long-lead materials, and maturing mega-Ampere slip-ring technologies at full scale. A site for a land-based prototype mount installation will also be developed. This is a base budget requirement.								
PE 0603640M USMC Advance Technology Demonstration								
	164,711		164,711		+4,073		168,784	
Explanation: Funds are required for the following activities:								
<ul style="list-style-type: none">• \$+2.823 million for the War-Fighter Augmented Reality to accelerate warfighter capability in augmented reality training by transitioning to the Marine Corps Mobile Fire Support Training to increase night vision training capability and to improve integration with tactical command and control linkages. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.• \$+1.250 million for the Future Integrated Training Environment to accelerate warfighting capability for a distributed mission capable training simulator for pilots and aircrews to train effectively in a common, simulated operating environment. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.								
Budget Activity 04: Advanced Component Development and Prototypes								
PE 0604030N Rapid Prototyping, Experimentation and Demonstration								
	23,225		23,225		+2,000		25,225	
Explanation: Funds are required to support Phase 1A rocket motor prototyping for the Standard Missile-6 (SM-6). Development of a 21-inch rocket motor for the SM-6 BLK 1B was approved by the Navy as an accelerated acquisition initiative on January 17, 2018. The SM-6 BLK 1B is a propulsion improvement to the SM-6 BLK 1A that includes the development and prototyping of a 21-inch rocket motor for integration with the SM-6 BLK 1A guidance and ordnance sections to greatly improve kinematics and range. This is a base budget requirement.								
PE 0603925N Directed Energy and Electric Weapon Systems								
	93,817		93,817		+31,600		125,417

created because the contract was awarded 2 months ahead of the FY 2018 plan to enable an accelerated schedule for prototype development, testing, and ship installation. The objective of this essential accelerated acquisition program is to field a laser weapon system to defend against the proliferation of low-cost threats and emerging technologies that challenge the U.S. Navy. Funds will support FY 2018 open commitments for material development and delivery, and associated engineering labor. This is a congressional special interest item. This is a base budget requirement.

Budget Activity 05: System Development and Demonstration

PE 0604522N Air and Missile Defense Radar (AMDR) System

32,065	32,065	+12,300	44,365
--------	--------	---------	--------

Explanation: Funds are required for the Air and Missile Defense Radar (AMDR) to conduct another test for the failed test event. The AEGIS Readiness Assessment Vehicle (ARAV) development test failed due to software defects. The program identified the root causes, corrected the defect, and has taken actions to minimize recurrences. Funds will be used to procure test assets including a new ARAV (including rocket motors and guidance controllers), perform test planning events, conduct the actual test on the Pacific Missile Range Facility, Barking Sands, Hawaii, and conduct post mission test analysis. If additional funding is not received, the Department will be unable to complete the required retest and will be unable to award any AMDR production units for DDG 51 class destroyers beginning in FY 2019, leading to incomplete ships. This is a base budget requirement.

PE 0604757N Ship Self Defense (Engage: Soft Kill/EW)

98,199	98,199	+20,000	118,199
--------	--------	---------	---------

Explanation: Funds are required for the Surface Electronic Warfare Improvement Program Block 3 to continue Engineering Development Model (EDM) hardware procurement, integration, and testing of EDM hardware, software development, integration, and testing. The total developmental costs remain within the Acquisition Program Baseline due to unanticipated technical challenges of additional FY 2018 funds are required to complete Engineering and Manufacturing Development (E&MD) phase and to ensure this vital electronic warfare capability is delivered to the Fleet on schedule. If additional funding is not received, the Milestone decision will be delayed (currently scheduled in the fourth quarter of FY 2018), and both E&MD and the favorably priced Fixed Price Incentive Fee Low Rate Initial Production options will require renegotiation, which will delay fielding of this critical electronic attack capability to the Surface Fleet by at least 2 years. This is a base budget requirement.

Budget Activity 07: Operational System Development

PE 0204136N F/A-18 Squadrons	137,410	137,410	+19,790	157,200
------------------------------	---------	---------	---------	---------

Explanation: Funds are required for naval aviation physiological episode mitigation and root cause investigation on the F/A-18A-F and EA-18G aircraft. Specifically, development and certification of a Next Generation Oxygen Concentrator is required to prevent in-flight hypoxia and decompression sickness. This is a congressional special interest item. This is a base budget requirement.

AIR FORCE INCREASES: **+536,123**

Procurement of Ammunition, Air Force, 18/20 **+70,502**

Budget Activity 01: Procurement of Ammo. Air Force

Rockets	265,079	265,079	+9,000	274,079
---------	---------	---------	--------	---------

Explanation: Funds are required to restore funding for the planned procurement of illuminating and infrared flares and smoke warheads. The Air Force redirected \$9 million to procure the M282A2 warheads to support validated Urgent Operational Need (UON) to defeat threats that require a penetrating warhead with Advanced Precision Kill Weapon System II (APKWS) rockets in U.S Pacific Command area of operation. The M282A2 warhead qualification with the APKWS II rocket was completed in March 2018. This is a base budget requirement.

Joint Direct Attack Munition

37,707	954,102	37,707	954,102	-	+51,502	37,707	1,005,604
--------	---------	--------	---------	---	---------	--------	-----------

Explanation: Funds are required to modify 1,000 JDAM KMU-557H/B tail kits and to perform non-recurring engineering required to validate configuration testing. This supports an Urgent Operational Need (UON) for a new Joint Direct Attack Munition (JDAM) tailkit with strategic anti-jam beam-forming Global Positioning System (GPS) receiver for improved GPS anti-jam performance to address current operational concerns. This is a base budget requirement.

Budget Activity 02: Weapons

Small Arms	28,611	28,611	+10,000	38,611
------------	--------	--------	---------	--------

Explanation: Funds are required for procurement of M4A1 improved modular rifle components for improved lethality and effectiveness. This is a base budget requirement.

PE 0604445F Wide Area Surveillance		15,708		15,708		+18,901		34,609	
<u>Explanation:</u> Funds are required to fully fund and complete the planned Wide Area Surveillance (WAS) Engineering & Manufacturing and Development (EMD) program. The prime contract will run out of money in August 2018. The WAS will detect/track low, slow, and other asymmetrical threats in the airspace and meet the user needs of sensing stressing airborne targets in complex environments with available sensors. The sensor outputs will be incorporated into the Battle Control Systems-Fixed (BCS-F) air picture and utilized on the North American Aerospace Defense Command/Northern Command's Command and Control air surveillance system of record. This is a base budget requirement.									
PE 0102326F Region/Sector Operations Control Center Modernization		3,139		3,139		+3,750		6,889	
<u>Explanation:</u> Funds are required to implement Automatic Dependent Surveillance-Broadcast (ADS-B) and Earth Center Earth Fixed (ECEF) into the Battle Control Systems-Fixed (BCS-F). The ADS-B provides the BCS-F system with the capability to ingest Global Position System based location data at the Air Defense Sectors from ADS-B equipped aircraft. Implementation of ADS-B on aircraft flying in U.S. airspace is mandated by the Federal Aviation Administration by 2020. The ECEF is a three-dimensional earth model that eliminates artificial boundaries in the two-dimensional BCS-F stereographic plane. The BCS-F Modification 1 effort will be executed as a cooperative program between the United States and Canada. This is a base budget requirement.									
Classified Programs						+90,000			
<u>Explanation:</u> Funds are required for a classified effort. Additional classified details will be provided under separate cover. This is a base budget requirement.

Office of the Secretary of DefenseBudget Activity 04: Administration and Servicewide Activities

1,573,722	1,575,533	+15,000	1,590,533
-----------	-----------	---------	-----------

Explanation: Funds are required for the following efforts:

- \$+5.0 million to support the establishment of the Joint Artificial Intelligence Center (JAIC) in order to rapidly field AI at scale to the Services and Combatant Commands (CCMDs) to effectively deploy AI-enabled capabilities in support of DoD's warfighting missions and business functions. The funding will provide for initial staffing of the JAIC. This is a base budget requirement.
- \$+10.0 million to establish a Personnel Vetting Transformation Office (PVTO) within the Office of the Secretary of Defense. The PVTO will lead the effective transfer of the background investigation mission from the Office of Personnel Management to the DoD as directed in section 925 of the FY 2018 NDAA. Funding will provide staffing, merger and integration activities for the transition and modernization of the mission, personnel, and resources from National Background Investigations Bureau to the DoD. This is a base budget requirement.

Defense Information Systems AgencyBudget Activity 04: Administration and Servicewide Activities

2,031,690	2,031,690	+18,000	2,049,690
-----------	-----------	---------	-----------

Explanation: Funds are required to accelerate the standup and configuration of a common shared information technology (IT) services environment for the DoD Fourth Estate organizations, to include small-scale user testing and planning for full scale migration of users to commercial hosting, web-based email, office productivity, and collaboration services. Funds will also support migration of DoD applications to a common commercial cloud solution. This will establish the directory structure for all DoD, serving as a foundation for Defense Enterprise Office Solution (DEOS), Enterprise Collaboration and Productivity Services (ECAPS), and other DoD initiatives implementing Software as a Service (SaaS) IT solutions. In addition to a DoD-wide directory structure, this effort will deliver the baseline standards, processes, and procedures needed to migrate the rest of DoD. This effort will leverage critical boundary cloud access point security capabilities. This is a base budget requirement.

Missile Defense AgencyBudget Activity 04: Administration and Servicewide Activities

475,417	475,417	+6,600	482,017
---------	---------	--------	---------

Explanation: Funds are required for a Facility, Sustainment, Restoration and Modernization (FSRM) effort. Funding will be used to remove and replace existing degraded, Ballistic Missile Defense System In-Flight Interceptor Communications System (IFICS) Data Terminal (IDT) Environmental Control Units (ECUs) at Eareckson Air Station and to install new redundant ECUs like those at Fort Greely, AK, and Fort Drum,

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA			
Appropriation Title: Various Appropriations						Includes Transfer? Yes			
Component Serial Number:		(Amounts in Thousands of Dollars)							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i

NY. Replacement of old ECUs will result in reduced maintenance and increased asset availability. This is base budget funding.

Defense Health Program, 18/18

+11,600

Budget Activity 01: Operation and Maintenance

31,918,359	31,788,446	+11,600	31,800,046
------------	------------	---------	------------

Explanation: Funds are required within the Education and Training budget activity group (BAG 6) to support additional required Health Professions Scholarships for the U.S. Army Medical Command (\$9.2 million) and for the Navy Bureau of Medicine and Surgery (\$2.4 million). The Health Professions Scholarships Program (HPSP) is the primary source of trained healthcare professionals entering the armed forces and is essential for the continuity of graduate medical education and the provision of health care services to the operating force and to beneficiaries in military treatment facilities. This is a congressional special interest item. This is a base budget requirement.

Overseas Humanitarian, Disaster and Civic Aid, 18/19

+25,000

Budget Activity 01: Humanitarian Assistance

129,900	129,900	+25,000	154,900
---------	---------	---------	---------

Explanation: Funds are required to stabilize the Overseas Humanitarian Disaster and Civic Aid (OHDACA) program in FY 2018 so that the Department can support current and future humanitarian needs, such as the ongoing crisis in Syria and the upcoming hurricane season. Recent disaster responses in U.S. Southern Command, U.S. Indo-Pacific Command, and ongoing humanitarian relief efforts in Syria have stressed the OHDACA program to the point where even a small-to-medium size disaster will likely require additional funding. If the additional funding is not provided, the Department's response to a future crisis or disaster will be significantly delayed, hindering the Geographic Combatant Commanders' ability to provide immediate humanitarian assistance. This is a base budget requirement.

Procurement, Defense-Wide, 18/20

+4,535

Budget Activity 01: Major Equipment

Major Equipment- DCMA	4,347	4,347	+4,535	8,882
-----------------------	-------	-------	--------	-------

Explanation: Funds are required for mission-critical IT network security hardware that exceeds the investment threshold caused by delays in life cycle replacement. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations							Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i
Ground Based Midcourse (AP)	20	88,000	20	88,000	-	-	20	88,000
(Ground Based Interceptor -- Lot 1					-	+11,200)		
(Ground Based Interceptor -- Obsolete					-	-11,200)		
(Missile Field 1					-	+4,000)		
(Missile Field 4					-	-4,000)		

Explanation: Funds are realigned for the following efforts:

- \$+11.2 million is required for the procurement of critical parts that are becoming obsolete and are projected to be unavailable from the original equipment suppliers in FY 2018 to ensure availability for the FY 2020 Lot 2 (\$+5.6 million) and the FY 2021 Lot 3 (\$+5.6 million) production. These funds are required to maintain schedule, prevent redesign, and avoid additional costs. This action serves as notification to repurpose the advanced procurement funds. This is a congressional special interest item. This is a base budget requirement.
- \$-11.2 million is available due to an updated Redesigned Kill Vehicle (RKV) production flow, which reduced the FY 2018 need for advance procurement components required for the FY 2019 Ground Based Interceptors (GBI) production for Lot 1. This repurposing of funds will enable the program to maintain schedule, prevent redesign, and avoid additional costs. This is a congressional special interest item. This is base budget funding.
- \$+4.0 million is required to accelerate Missile Field 1 silo steel fabrication from FY 2019 to FY 2018. The Missile Field 4 silo steel rolling will be completed in August 2018; however, Missile Field 1 work is currently not planned to begin until FY 2019. To avoid costs to reconstitute the production line, realignment is required to fabricate the two Missile Field 1 silos in FY 2018. This FY 2018 realignment enables Missile Field 1 to be funded beginning in FY 2018 and will result in contract savings. This action serves as notification to repurpose the advanced procurement funds. This is a congressional special interest item. This is a base budget requirement.
- \$-4.0 million is available due to a revised schedule phasing for Missile Field 4. Funds were enacted to procure long lead components for the FY 2019 Missile Field 4 silo production lot, but due to the refinement of schedule requirements, not all of the long lead components are required until FY 2019. This action serves as notification to repurpose the advanced procurement funds. This is a congressional special interest item. This is base budget funding.

Research, Development, Test, and Evaluation, Defense-Wide, 18/19+445,425Budget Activity 03: Advanced Technology Development

PE 0603176C Advanced Concepts and Performance Assessment

12,709

12,709

+2,375

15,084

Explanation: Funds are required for current and future Ballistic Missile Defense (BMD) cyber requirements to maintain currency of computing system software and hardware for infrastructure required to support concept performance analysis requirements. The BMD requires technology refresh

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

of lab hardware and software due to vendor end of life notifications and software license expiration. This is base budget funding.

PE 0603286E Advanced Aerospace Systems

152,406 152,406 +20,000 172,406

Explanation: Funds are required to accelerate risk reduction ground testing activities for the Defense Advanced Research Projects Agency (DARPA) Tactical Boost Glide (TBG) program to develop and demonstrate technologies that enable air-launched tactical range hypersonic boost glide systems. Additional FY 2018 funds will prepare the program for flight tests in FY 2019/2020 timeframe. This is a base budget requirement.

PE 0603160BR, Counter Weapons of Mass Destruction Advanced Technology Development

278,607 278,607 +20,000 298,607

Explanation: Funds are required to identify kinetic solutions to counter unmanned aircraft systems (C-UAS) threats with low cost and low risk of collateral damage, provide a means for commercial partners to regularly test and experiment capabilities, conduct vulnerability assessments at critical sites, and establish the capability to perform C-UAS threat forecasting to inform countermeasure development that can be utilized in theater and domestically. Funds will be added to existing contracts in September 2018 in order to meet SECDEF guidance to rapidly field a solution by the end of the calendar year. This is part of a validated JUON ST-0008. This is a base budget requirement.

PE 0603680D8Z Defense-Wide Manufacturing Science and Technology Program

211,397 211,397 +4,000 215,397

Explanation: Funds are required to accelerate the development of an Adaptive Threat Force in support of service level training events and infantry training continuum to provide Marine Corps infantry units with a realistic and adaptive aggressor force. This is a priority of the Secretary's Close Combat Lethality Task Force. This is a base budget requirement.

Budget Activity 04: Advanced Component Development and Prototypes

PE 0603890C BMD Enabling Programs

499,193 499,193 +29,137 528,330

Explanation: Funds are required for the following requirements in support of the Ballistic Missile Defense (BMD) Enabling Program:

- \$+7.653 million for BMD Threat Systems Engineering threat modeling/scenario data to support hypersonic defense development and testing. This is a congressional special interest item. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

PE 1206895C Ballistic Missile Defense System Space Programs								
		30,461		30,461		+13,500		43,961
<u>Explanation:</u> Funds are required to complete multiple industry-based concept designs and mission architecture trade studies for a future space sensor capability. Funding will complete concept design studies from nine industry teams to include areas that were found to require deeper analyses. These areas include collaboration with the Federal government on future communications architectures along with defining satellite and ground mission data process concepts and pre-acquisition activities including completion of material solution analysis. This is a base budget requirement.								
PE 0604532D8Z Joint Artificial Intelligence								
		-		-		+70,000		70,000
<u>Explanation:</u> Funds are required for the establishment of the Joint Artificial Intelligence Center (JAIC) in order to rapidly field Artificial Intelligence (AI) at scale to the Services and Combatant Commands (CCMDs) to effectively deploy AI-enabled capabilities in support of DoD's warfighting missions and business functions. Funding will enable rapid development and fielding of operational solutions for at least two lines of effort in the first half of FY 2019 following the same method of delivery and program intensity as the Algorithmic Warfare Cross Functional Team (or Project Maven). The FY 2018 plans include using AI to improve predictive maintenance and demonstrate strategic reasoning in wargaming. There is an additional request of \$5.0 million Operation and Maintenance, Defense-Wide in Part I of this reprogramming to fund JAIC personnel. This is a new start . The estimated total cost of this new start effort is \$1,745.6 million (FY 2018, \$70.0 million; FY 2019, \$89.1 million; FY 2020, \$414.1 million; FY 2021, \$414.1 million; FY 2022, \$414.1 million; FY 2023, \$344.2 million; FY 2024). The FY 2019 required funding will be addressed in future reprogramming requests. The FY 2020 and beyond funding will be covered in future President's Budget requests. This is a base budget requirement.								
<u>Budget Activity 05: System Development and Demonstration</u>								
PE 0604165D8Z Prompt Global Strike Capability Development								
		215,400		215,400		+159,500		374,900
<u>Explanation:</u> Funds are required for the following activities: <ul style="list-style-type: none"> \$+40.0 million to accelerate Conventional Prompt Strike (CPS) transition to industry, i.e., increase CPS hypersonic glide vehicle (HGV) and prototype flight vehicle production. Funds are required to transition current CPS HGV design to multiple contractors utilizing affordability/productivity enhancements (e.g., initially develop five units per year with an industry partnership). This is a base budget requirement. \$+34.5 million to improve the U.S. industrial capacity to produce a Thermal Protection System (TPS) for CPS HGVs. The main issue is the lack of autoclaves (high-temperature and pressure ovens) in the curing/bonding process of the carbon-carbon composite materials used to produce the 								

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA			
Appropriation Title: Various Appropriations						Includes Transfer? Yes			
Component Serial Number:		(Amounts in Thousands of Dollars)

Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i

TPS. This funding would be the upfront costs in production of autoclaves to enable contracts for the production of TPS shells for CPS HGVs. Also, the vendor that currently produces carbon composite materials will cease production, so additional funding is necessary for qualifying a new carbon composite production vendor. This is a base budget requirement.

- \$+65.0 million to support an accelerated demonstration of a land-launched hypersonics capability. This is a **new start**. The estimated total cost of this new start effort is \$170.0 million (FY 2018, \$65.0 million; FY 2019, \$105.0 million). The FY 2019 required funding will be addressed in future reprogramming requests. This is a base budget requirement.
- \$+20.0 million to improve Test and Evaluation (T&E) infrastructure for full-scale, hypersonic flight testing with a focus on Conventional Prompt Strike. Funds are required for mobile sensors test and implementation, Automatic Flight Safety System testing, and Range Clearance acceptance, improved test communications architecture, and range clearance process improvements. This is a base budget requirement.

Budget Activity 07: Operational System Development

PE 0303126K Long-Haul Communications - DCS

15,428	15,428	+5,900	21,328
--------	--------	--------	--------

Explanation: Funds are required to complete development, integration, radiation testing, and certification efforts of the Baseband Interface Group - Airborne (BIG-A) module within the Presidential and National Voice Conferencing (PNVC) program. Cost growth is due to portions of the BIG-A failing nuclear certification testing and additional efforts related to interoperability and integration. This is a base budget requirement.

PE 0305327V Insider Threat	5,365	5,365	+1,900	7,265
----------------------------	-------	-------	--------	-------

Explanation: Funds are required for the expanded implementation of the Risk Rating Tool (RRT) as a part of the DoD's Background Investigation mission transfer from the National Background Investigations Bureau to the Defense Security Service (DSS) as directed in section 925 of Public Law 115-91, the National Defense Authorization Act for FY 2018. The RRT works to assess the risk of individuals and is used in conjunction with continuous evaluation for a new risk-based approach to personnel vetting. Funds will be used to purchase labor, licenses, and further data research. This is a **new start**. The estimated total cost of this new start effort is \$1.9 million. This is a base requirement.

PART I – FY 2018 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2018 REPROGRAMMING DECREASES: **-2,956,628**

ARMY DECREASES: **-1,601,599**

Military Personnel, Army, 18/18 **-1,083,705**

Budget Activity 01: Pay and Allowances of Officers

13,548,554	13,473,951	-87,325	13,386,626
------------	------------	---------	------------

Explanation: Funds are available from the following programs:

- \$-30.080 million available in separation pay due to the Army's decision to not use the temporary early retirement authority, which was in place as a drawdown tool for the Army and is no longer necessary as end strength increases in accordance with the FY 2018 National Defense Authorization Act and the FY 2018 DoD Appropriations Act. Funds are also available in involuntary separations payments as the Army is projecting to execute ~400 fewer-than-budgeted takers. This is base budget funding.
- \$-40.942 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.
- \$-16.303 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

Budget Activity 02: Pay and Allowances of Enlisted

26,352,892	26,433,288	-853,980	25,579,308
------------	------------	----------	------------

Explanation: Funds are available due to the following:

- \$-222.9 million in enlisted special pays due to decreased projections for Enlistment Bonus (EB) programs. There are two primary factors contributing to the asset. First, the Army has implemented increased internal controls to influence EB propensity and improve program efficiency. For example, by utilizing training seat fill projection analysis, the Army was able to identify Military Occupation Specialties (MOSSs) that no longer had immediate fill requirements and eliminated quick ship bonuses for those MOSSs. Additionally, the Army was able to reduce its EB take rate from 70% to 55% by identifying those Soldier's with MOSSs that do not require an EB to enter the Army as it did not influence their propensity to join. Secondly, the Army has experienced increased retention and reduced separation losses that enabled the Army to reduce its accession mission and lower the EB program requirement. This is base budget funding.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA		
Appropriation Title: Various Appropriations							Includes Transfer? Yes		
Component Serial Number:		(Amounts in Thousands of Dollars)							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i
<ul style="list-style-type: none"> • \$-210.0 million in Enlisted Basic Allowance for Housing (BAH) due to fewer takers and lower average rates than budgeted. The Army is currently executing fewer overall BAH payments and realizing a change in the ratio of Soldiers receiving BAH with dependents compared to those receiving domestic BAH without dependents, there are ~4,300 fewer enlisted receiving domestic BAH with dependents. Additionally, the Army is currently executing an average enlisted domestic BAH composite rate of \$19,007 compared to the budgeted composite rate of \$19,531. This is base budget funding. • \$-187.6 million in enlisted basic pay, retired pay accrual, and federal insurance contributions taxes due to lower than funded Active Component enlisted strength levels. In the FY 2018 DoD Appropriations Act, the Congress provided the Army with additional funding to increase overall end strength to 483,500. This increased the funded enlisted workyears to 377,999, compared to the initial budget request of 376,500. The Army currently projects execution of 377,117 enlisted workyears (-882 workyears). This is base budget funding. • \$-182.0 million in enlisted separation pay due to decreased separation payments as the Army retains more Soldiers than budgeted and increased end strength in accordance with the FY 2018 National Defense Authorization Act and the FY 2018 Department of Defense (DoD) Appropriations Act. Additionally, funding is available from the Career Status Bonus (CBS)/Redux retirement program (\$30 thousand lump-sum bonus payments), as the CSB/Redux program eligibility ended on December 31, 2017. This is base budget funding. • \$-20.303 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding. • \$-31.177 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding. 									
Budget Activity 04: Subsistence of Enlisted Personnel									
		2,184,043		2,184,043		-10,400		2,173,643	
<p><u>Explanation:</u> Funds are available in the basic allowance for subsistence (BAS) program due to a year-of-execution decrease in the inflation rate and under execution of enlisted average workyears by 882. The 2018 BAS inflation rate was budgeted at 3.4 percent; however, the actual BAS inflation rate was 0.3 percent, effective January 1, 2018. This is base budget funding.</p>

Budget Activity 05: Permanent Change of Station Travel

1,785,269 1,785,269 -90,000 1,695,269

Explanation: Funds are available in rotational moves (\$-63.0 million), accession travel (\$-15.0 million), separation moves (\$-7.0 million), and training travel (\$-5.0 million). The Army currently projects approximately 43,550 rotational moves, compared to the budgeted total of 47,522 moves. The accession travel asset is due to lower than budgeted costs for enlisted accessions moves. Based upon analysis of updated move data and continuous process improvements within the program, the Army is able to more accurately capture the number of takers and has updated rates based on actual costs, by move type. This change has decreased projected costs from \$2,188 to \$1,827 per enlisted accessions move. The Army currently projects approximately 75,916 separation moves, compared to the budgeted total of 77,865 moves (-1,949 moves). Additionally, the training travel asset is driven by a decreased projection to the total number of moves required in FY 2018. The Army currently projects approximately 14,115 training moves, compared to the budgeted total of 14,581 moves (-466 moves). This is base budget funding.

Budget Activity 06: Other Military Personnel Costs

356,798 356,798 -42,000 314,798

Explanation: Funds are available due to a lower-than-projected number of soldiers receiving unemployment compensation payments. The Army currently projects the total number of unemployment compensation recipients to be 15,847, compared to the budgeted total of 20,214 (-4,367 recipients). This is base budget funding.

Reserve Personnel, Army, 18/18

-11,910

Budget Activity 01: Reserve Component Training and Support

4,740,550 4,744,267 -11,910 4,732,357

Explanation: Funds are available from the following programs:

- \$-3.892 million in the Disability and Hospitalization Benefits funding and Incapacitation Pay (INCAP) due to programmatic changes, including standardized medical review board procedures resulting in fewer than budgeted paid INCAP claims. Program controls were implemented to address INCAP Army Audit Agency (AAA) findings. These program controls included more robust claim tracking and review mechanisms, which also resulted in a reduction in average days that Soldiers receive INCAP. This is base budget funding.
- \$-5.410 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.
- \$-2.608 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes

Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i

and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

National Guard Personnel, Army, 18/18

-14,114

Budget Activity 01: Reserve Component Training and Support

8,646,644

8,766,644

-14,114

8,752,530

Explanation: Funds are available from the following programs:

- \$-9.759 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.
- \$-4.355 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

Aircraft Procurement, Army, 18/20

-30,400

Budget Activity 01: Aircraft

UH-60 Black Hawk A and L Models

36 76,516

36 76,516

- -15,200

36 61,316

Explanation: Funds are available due to a decrease in the immediate requirement of UH-60V kits to meet the schedule for First Unit Equipped (FUE) by the 3rd Quarter of FY 2021. Only three of the funded seven kits are required now, and the remaining four will be resubmitted in future budget requests. This is base budget funding.

Budget Activity 04: Support Equipment and Facilities

Aircraft Survivability Equipment

66,804

66,804

-15,200

51,604

Explanation: Funds are available due to a reduction of aircraft platform types (three to one) that require Non-Recurring Engineering for integration of APR-39D (V)2 Radar Warning Receiver (RWR)/Electronic Warfare Management System A-kit. The integration of APR-39D (V)2 on the AH-64 aircraft will be completed first; the integration to two other platforms (UH-60 and CH-47) will be completed in the outyears. This is base budget funding.

Budget Activity 04: Subsistence of Enlisted Personnel

835,276	835,276	-19,000	816,276
---------	---------	---------	---------

Explanation: Funds are available from the following programs:

- \$-11.4 million in Basic Allowance for Subsistence (BAS) program due to increased collections of BAS and a year of execution decrease in the inflation rate. The 2018 BAS inflation rate was budgeted at 3.4%; however, the actual BAS inflation rate was 0.3% effective January 1, 2018. This is base budget funding.
- \$-7.6 million in Subsistence in Kind (SIK) program due to a reduction in the required numbers of operational rations. This is base budget funding.

Budget Activity 06: Other Military Personnel Costs

65,228	65,228	-4,000	61,228
--------	--------	--------	--------

Explanation: Funds are available due to lower-than-projected cost of unemployment compensation (UCX) for Marines. The Marine Corps currently projects the total cost of UCX to be \$30.6 million compared to the budget request assumption of \$34.6 million. This reduction in the cost of UCX claims is based on improving economic conditions. This is base budget funding.

Reserve Personnel, Navy, 18/18**-4,659****Budget Activity 01: Reserve Component Training and Support**

2,005,210	2,007,810	-4,659	2,003,151
-----------	-----------	--------	-----------

Explanation: Funds are available from the following programs:

- \$-4.118 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.
- \$-0.541 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

Ship Missile Support Equipment	266,770	266,770	-35,000	231,770
--------------------------------	---------	---------	---------	---------

Explanation: Funds are available due to a delay in awarding the full FY 2018 Nulka decoy contract and associated production engineering. Increased development efforts are required for this Nulka upgrade prior to contract award. The Nulka acquisition strategy included production of the legacy Nulka decoy concluding in FY 2016 and production of an upgraded decoy to address emerging threats beginning in FY 2017. Due to technical challenges during development of the upgraded decoy, Navy decided in December 2017 to delay introduction of the upgraded decoy until FY 2019. In the interim, Navy procured 38 upgraded legacy payloads (Advanced Decoy Architecture Project) to address emerging threats. These funds are in addition to the rescission proposed by the Senate. This is base budget funding.

Research, Development, Test, and Evaluation, Navy, 18/19**-2,000****Budget Activity 05: System Development and Demonstration****PE 0604366N Standard Missile Improvements**

Budget Activity 02: Pay and Allowances of Enlisted Personnel

17,970,955	17,970,955	-229,852	17,741,103
------------	------------	----------	------------

Explanation: Funds are available due to the following:

- \$-50.0 million due to fewer than previously projected numbers of Enlisted Selective Retention Bonus (SRB) payments. In FY 2018, the Air Force budgeted for 17,793 SRB payments; however, end of year estimates project 15,940 payments resulting in 1,853 fewer payments than budgeted. Additionally, those who reenlisted were in Air Force Specialty Codes/Zones with lower multipliers than projected. This is base budget funding.
- \$-56.0 million due to lower than projected grade mix variance within the enlisted force structure. This is base budget funding.
- \$-68.406 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.
- \$-55.446 million in Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

Reserve Personnel, Air Force, 18/18**-336****Budget Activity 01: Reserve Component Training and Support**

1,826,383	1,826,383	-336	1,826,047
-----------	-----------	------	-----------

Explanation: Funds are available from the Continuation Pay (CP) due to fewer members opting-in to the new BRS to-date and lower than planned payment levels. Under the new BRS, CP is a one-time, mid-career bonus payment in exchange for an agreement to perform additional obligated service of at least 3 years. This is base budget funding.

National Guard Personnel, Air Force, 18/18**-10,282****Budget Activity 01: Reserve Component Training and Support**

3,476,522	3,476,522	-10,282	3,466,240
-----------	-----------	---------	-----------

Explanation: Funds are available from the following programs:

- \$-5.110 million in Thrift Savings Plan (TSP) automatic and matching contributions for military members enrolled in the new Blended Retirement System (BRS). Based on execution to-date, the number of military personnel opting-into the new BRS is significantly lower than initially projected. In addition, many of those members opting-in to-date are contributing less than the anticipated average of 4.0 percent of basic pay. This is base budget funding.

<u>Budget Activity 05: Modification of Inservice Aircraft</u>							
C-5 RERP Mods		6,817		6,817		-3,512	3,305
<u>Explanation:</u> Funds are available because requirements for the C-5M Reliability Enhancement & Re-Engining Program modification shutdown activities, fuel, and government furnished equipment, etc., were less than originally budgeted. This is the final year of funding for this program. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.							
C-130J Mods		187,779		187,779		-83,458	104,321
<u>Explanation:</u> Funds are available because 12 Group A/B kits, interim supply support, and support equipment for Lot 2 for the C-130J Block 8.1 program will be procured with FY 2017 funds. This is base budget funding.							
E-3		176,692		176,692		-44,700	131,992
<u>Explanation:</u> Funds are available because they are early to need. The U.S. Air Force requested divestiture of 7 of 31 E-3 Airborne Warning and Control System (AWACS) aircraft in FY 2015. The U.S. Air Force added funding to modify the full 31 aircraft fleet after the divestiture was denied by Congress. These funds are early to need after validating the executable modification schedule for the fleet without impacting aircraft availability for operations, which extends through FY 2027. Part I of the Omnibus 2018 MIP request (FY 18-18 PA, page 5) includes an additional \$5.0 million source for a total reduction to the E-3 budget line item of \$49.7 million. These funds are in addition to the rescission proposed by Senate. This requirement will be addressed in future budget submissions. This is a congressional special interest item. This is base budget funding.							
<u>Budget Activity 07: Aircraft Support Equipment and Facilities</u>							
Other Production Charges		1,158,160		1,158,160		-18,067	1,140,093
<u>Explanation:</u> Funds are available due to the following:							
<ul style="list-style-type: none"> \$-13.0 million from a classified effort. Additional classified details will be provided under separate cover. This a base budget funding. \$-5.067 million due to the change in C-5M Weather Radar repair strategy. The business case analysis indicates the high Mean Time Between Failures does not warrant establishment of a depot repair. 							

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes

capability. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

Missile Procurement, Air Force, 18/20

-57,893

Budget Activity 01: Ballistic Missiles

Ballistic Missiles Replacement Equipment

94,744	94,744	-57,893	36,851
--------	--------	---------	--------

Explanation: Funds are available from the following efforts; these funds are in addition to the rescission proposed by the House; all are congressional special interest and base budget funding:

- \$-43.107 million due to delays in operational test completion for Transporter Erector Replacement Program (TERP) making funds early to need. There are no other known requirements for the funding at this time and no major impacts to the program.
- \$-9.581 million due to efforts being completed ahead of schedule for Minuteman Power Panels (\$-9.197 million) and Ballistic Missile Items Less than \$5 million (\$0.384 million) making funds early to need. There are no other known requirements for the funding at this time and no major impacts to the program.
- \$-5.205 million due to the warfighter reassessment of the Squadron Data Simulator requirement resulting in non-exercise of planned contract options making funds early to need. There are no other known requirements for the funding at this time and no major impacts to the program.

Other Procurement, Air Force, 18/20

-87,092

Budget Activity 03: Electronics and Telecommunications Equipment

Information Transport	28,159	28,159	-5,442	22,717
-----------------------	--------	--------	--------	--------

Explanation: Funds are available due to a change in the acquisition strategy for equipment recapitalization of Base Information Transport Infrastructure (BITI) sites. This change aligns funds to the fiscal year in which installation funds are required. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

AFNET	186,427	186,427	-11,650	174,777
-------	---------	---------	---------	---------

Explanation: Funds are available due to contract negotiation savings on multiple Air Force Network (AFNet) requirements. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA

Special Update Program		881,980		931,980		-70,000		861,980
<u>Explanation:</u> Funds are available from a classified effort. Additional classified details will be provided under separate cover. This is base budget funding.								
Research, Development, Test and Evaluation, Air Force, 18/19						-231,401		
Budget Activity 04: Advanced Component Development and Prototypes								
PE 1206422F Weather System Follow-on								
		102,088		102,088		-5,388		96,700
<u>Explanation:</u> Funds are available due to delays with the Compact Ocean Wind Vector Radiometer (COWVR) program, impacting the projected mission launch date from 2 nd quarter to 4 th quarter of FY 2018. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.								
PE 0603851F Intercontinental Ballistic Missile (Dem/Val)								
		27,424		27,424		-15,000		12,424
<u>Explanation:</u> Funds are available due to slower than anticipated program execution. Remaining funds are sufficient to execute all current and ongoing Intercontinental Ballistic Missile (ICBM) (Dem/Val) efforts. There are no other known requirements for the funding at this time. This is a congressional special interest item. This is base budget funding.								
PE 0604776F Deployment & Distribution Enterprise R&D								
		25,597		25,597		-200		25,397
<u>Explanation:</u> Funds are available because requirements for End-to-End Modeling Phase IV (ETEM IV) in Budget Activity 04, Advanced Component Development and Prototype, work is complete. There are no other known requirements for the funding at this time and no major impacts to the program. This is a congressional special interest item. This is base budget funding.								
Budget Activity 05: System Development and Demonstration								
PE 0101125F Nuclear Weapons Modernization								
		88,031		88,031		-14,000		74,031
<u>Explanation:</u> Funds are available due to realized savings from lower than anticipated contract costs and efficiencies in aircraft integration and test activities. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.								

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

PE 065030F Joint Tactical Network Center							
		12,736		12,736		-12,332	404
<u>Explanation:</u> Funds are available due to lower than estimated costs for Air Force's share of operations in FY 2018 for the Joint Enterprise Network Center. This is base budget funding.							
PE 065031F Joint Tactical Network 9,319 9,319 -7,988 1,331							
<u>Explanation:</u> Funds are available due to lower than estimated costs for Air Force's share of operations in FY 2018 for the Joint Enterprise Network Manager. This is base budget funding.							
<u>Budget Activity 07: Operational System Development</u>							
PE 0207417F Airborne Warning & Control System (AWACS)							
		146,506		146,506		-21,200	125,306
<u>Explanation:</u> Funds are available because of delays in E-3 Electronic Protection Engineering & Manufacturing and Development (EMD) Program. The Federal government issued a partial stop work on the prime contract due to major hardware/software development delay. Prototype installation has now been delayed at least a year; the EMD program has stretched by an estimated 29 months. The Program Office is investigating two alternatives for fielding this critical capability. This is base budget funding.							
PE 0101127F B-2 Squadrons 96,075 96,075 -6,100 89,975							
<u>Explanation:</u> Funds are available because the B-2 Enhanced High Frequency (EHF) Satellite Communications (SATCOM) program was terminated in the FY 2019 budget. Based on the results of the Bomber Vector, the operational utility of the program was judged to be insignificant due to the sunset date of the B-2 fleet. There are no other known requirements for the funding at this time and no major impacts to the program. This funding is available in addition to the \$13.0 million rescission proposed by the House. This is base budget funding.							
PE 0207452F DCAPEs 17,351 17,351 -1,200 16,151							
<u>Explanation:</u> Funds are available due to lower contractor costs for Deliberate and Crisis Action Planning and Execution Segments (DCAPEs) 2B program than originally estimated. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

PE 0303131F Minimum Essential Emergency Communications Network							
		34,868		34,868		-7,800	27,068
<u>Explanation:</u> Funds are available because of delays in Global Aircrew Strategic Network Terminal (GASNT) Increment (Inc.) 1, GASNT Inc. 2, and Common Very low frequency Receiver (CVR) Inc. 2 development programs. The GASNT Inc. 1 (\$3.733 million) slipped 15 months due to delays in completing the critical design review. The GASNT Inc. 2 (\$3.4 million) and the CVR Inc. 2 (\$0.669 million) program are slipping due to extended requirements clarification for both of these critical programs. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.							
PE 0401130F C-17 Aircraft							
		28,187		28,187		-5,640	22,547
<u>Explanation:</u> Funds are available due to a 10-month delay in the contract award for the C-17 Roll-on Conference Capsule development program. The schedule delay is a result of clarifying user requirements and completing enhanced structural integrity, airworthiness, and test article conversion to fielded configuration engineering analysis. The funding requirement has shifted from FY 2018 (February 2018) to FY 2019 (February 2019). There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.							
PE 0401318F CV-22							
		22,519		22,519		-4,000	18,519
<u>Explanation:</u> Funds are available due to a change to the contractor's projected expenditure profile. This update affects the CV-22 Suite of Integrated Radio Frequency Counter Measure (SIRFC) Ethernet (\$2.2 million) and Cockpit Engine Health Indicator development (\$1.8 million) schedules. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

Budget Activity 05: System Development and Demonstration

PE 0605013BL Information Technology Development

11,322	11,322	-4,535	6,787
--------	--------	--------	-------

Explanation: Funds are available as a result of a software development stand down. The Defense Contract Management Agency (DCMA) stood down software development in FY 2017 to conduct a requirements acquisition strategy review ensuring future development is aligned to DoD Enterprise and Agency strategic goals and objectives. In the interim, the new Agency Director and new Chief Information Officer directed a complete review of DCMA's information updated technology environment. This reprogramming action aligns development requirements to the funding schedule. This is a congressional special interest item. This is base budget funding.

Budget Activity 07: Operational System Development

PE 06037227D8Z Joint Warfighting Program

6,337	6,337	-1,900	4,437
-------	-------	--------	-------

Explanation: Funds are available due to the recent restructuring of the Under Secretary of Defense (Acquisition, Technology, and Logistics) (USD(AT&L)), the new incoming Assistant Secretary of Defense (Acquisition), component of the new USD(Acquisition and Sustainment), has made the decision to hold off investing funds into analytic support for joint customers and the Office of the Secretary of Defense staff elements until the final USD(Research and Engineering)/USD(A&S) restructuring has been announced and new roles and missions have been defined, making the FY 2018 funds excess to the program. This is base budget funding.

PART II – FY 2018 SPECIAL TRANSFER AUTHORITY (Section 9002)

FY 2018 REPROGRAMMING INCREASES: **+134,630**

ARMY INCREASES: **+89,125**

Operation and Maintenance, Army, 18/18 **+89,125**

Budget Activity 01: Operating Forces

38,894,011	38,914,616	+89,125	39,003,741
------------	------------	---------	------------

Explanation: Funds are required for the following activities:

- \$+8.357 million for deployment training and equipment support, pre-mobilization training events, and maintenance contracts for equipment that remains at the home station while troops are deployed to increase personnel training readiness and equipment readiness for operations in the U.S. Central Command (USCENTCOM) Area of Responsibility (AOR). This is an OCO budget requirement.
- \$+77.135 million for increased base life support safety, and security; personnel and equipment transportation; and communications in the USCENTCOM AOR to increase Army operational efficiency and effectiveness in furtherance of the increased end strength in the region. There is an additional \$49.579 million in Part I of this reprogramming action for the same requirement for a total of \$126.714 million. This is an OCO budget requirement.
- \$+3.633 million to continue the Military Information Support Operations (MISO) media initiative capability begun in FY 2017 that is critical to Army's effort to shape the operational environment throughout the African continent, counter violent extremist ideology, and support partner nation stability in coordination with the U.S. Department of State, U.S. Agency for International Development, U.S. Embassies, and various other partners. This is a congressional special interest item. This is an OCO budget requirement.

NAVY INCREASES: **+12,105**

Military Personnel, Navy, 18/18 **+8,105**

Budget Activity 02: Pay and Allowances of Enlisted

18,595,954	18,591,370	+4,330	18,595,700
------------	------------	--------	------------

Explanation: Funds are required due to the replacement for 47 additional OCO enlisted mobilization workyears above the budgeted level of 3,011. This is an OCO budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations							Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i
Budget Activity 05: Permanent Change of Station Travel								
		935,273		935,273		+3,775		939,048
Explanation: Funds are required due to higher than budgeted accession (4,146) and separation (2,426) moves due to increased mobilizations above budget, driving a shortfall to fund 68 accession and 3,028 separations moves. This is an OCO budget requirement.								
Military Personnel, Marine Corps, 18/18						+4,000		
Budget Activity 01: Pay and Allowances of Officers								
		2,899,356		2,896,105		+4,000		2,900,105
Explanation: Funds are required in the Officer Basic Pay, Retired Pay Accrual, Federal Insurance Contributions Act, and Separations program due to overexecution of officer average workyears by 44 above the budgeted level of 830. This is an OCO budget requirement.								
AIR FORCE INCREASES:						+33,400		
Operation and Maintenance, Air Force, 18/18						+33,400		
Budget Activity 01: Operating Forces								
		39,677,377		39,677,377		+33,400		39,710,777
Explanation: Funds are required to provide additional funding for Military Information Support Operations (MISO) program to consolidate military gains in areas of conflict, specifically by conducting influence activities focused on decreasing support for violent extremist organizations, reducing terrorist recruitment activities, and increasing messaging activities related to Force Protection for U.S., Coalition, and Partner forces. Funding will also provide U.S. Central Command (USCENTCOM) with the ability to expand its influence campaigns in Iraq and Syria to delegitimize and expose jihadists' ideology falsehoods, promote counter-narratives and amplify credible voices to deter adversaries from aggression against U.S. vital interests and discourage destabilizing behavior threatening U.S. interests in key areas of the USCENTCOM area of responsibility. This is a congressional special interest item. This is an OCO budget requirement.

PART II – FY 2018 SPECIAL TRANSFER AUTHORITY (Section 9002)

FY 2018 REPROGRAMMING DECREASES: **-134,630**

ARMY DECREASES: **-89,125**

Operation and Maintenance, Army, 18/18 **-89,125**

Budget Activity 01: Operating Forces

38,894,011	39,003,741	-3,633	39,000,108
------------	------------	--------	------------

Explanation: Funds are available from support to U.S. Africa Command's MISO, which was misidentified in the FY 2018 Budget Request. This request will correct the error for FY 2018. This is Title IX OCO budget funding.

Budget Activity 04: Administration and Servicewide Activities

11,285,501	11,799,701	-85,492	11,714,209
------------	------------	---------	------------

Explanation: Funds are available from the following activities:

- \$-8.855 million from the Joint Task Force (JTF) Guantanamo, Office of Military Commissions as the projected trials were delayed or cancelled in FY 2018. This is Title IX OCO budget funding.
- \$-71.519 million from Second Destination Transportation due to lower than budgeted transportation costs. This is Title IX OCO budget funding.
- \$-5.118 million from support for deploying new weapons systems fielding program as existing fielded systems provided the capability. This is Title IX OCO budget funding.

NAVY DECREASES: **-12,105**

Military Personnel, Navy, 18/18 **-8,105**

Budget Activity 04: Subsistence of Enlisted Personnel

1,241,812	1,214,812	-5,855	1,208,957
-----------	-----------	--------	-----------

Explanation: Funds are available due to increased basic allowance for subsistence (BAS) collections at Navy galleys and lower than projected food costs in the subsistence-in-kind program (Camp Lemonnier/ISA Air Base). This is Title IX OCO budget funding.

Budget Activity 06: Other Military Personnel Costs								
		153,258		143,258		-2,250		141,008
Explanation: Funds are available due to lower than projected number of Sailors receiving unemployment compensation payments, budgeted at \$6.0 million and projected to execute \$3.75 million. This is Title IX OCO budget funding.								
Military Personnel, Marine Corps, 18/18						-4,000		
Budget Activity 02: Pay and Allowances of Enlisted								
		9,107,544		9,021,466		-4,000		9,017,466
Explanation: Funds are available in the Basic Pay, Retired Pay Accrual, Federal Insurance Contributions Act, and Basic Allowance for Housing (BAH) programs due to a reduction in grade structure, longevity, and the number of enlisted members receiving BAH with dependents. This is Title IX OCO budget funding.								
AIR FORCE DECREASE:						-33,400		
Operation and Maintenance, Air Force, 18/18						-33,400		
Budget Activity 01: Operating Forces								
		39,677,377		39,710,777		-33,400		39,677,377
Explanation: Funds are available due to reduced installation contract support costs in U.S. Central Command. This is Title IX OCO budget funding.								
PART III – FY 2018 WORKING CAPITAL FUND TRANSFER AUTHORITY (Section 8008)								
FY 2018 REPROGRMMING INCREASES:						+195,434		
ARMY INCREASES:						+100,000		
Operation and Maintenance, Army, 18/18						+100,000		
Budget Activity 03: Training and Recruiting								
		5,039,572		5,039,557		+100,000		5,139,557
Explanation: Funds are required for the following activities:								
<ul style="list-style-type: none"> \$+3.8 million for additional training requirements to support increases in military end strength and to fill military instructors shortfalls to build individual and institutional training readiness and to provide trained personnel to line units. Army-directed increases to the training load along with additional Army-directed missions have significantly increased requirements without additional corresponding training resources. This is a base budget requirement. 								

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations							Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i
<ul style="list-style-type: none"> \$+18.2 million for additional specialized training seats to fill capability gaps in Security Force Assistance Brigade (SFAB) personnel training, Unmanned Aircraft Systems (UAS) training, and Cyber training for networks. Additional training is required for these activities to provide appropriately trained personnel for these critical operational force structure elements. This is a base budget requirement. \$+78.0 million to support increased requirements in Army flight training, which include continue rotary wing flight instructor support and aviation training contract support providing maintenance for Army flight training aircraft. Failure to fund the requirements will result in an increasing backlog of flight training students that will hinder the Army's ability to develop training pilots for Combat Aviation Brigades. This is a base budget requirement. 								
<u>NAVY INCREASES:</u>						<u>+95,434</u>		
<u>Operation and Maintenance, Navy, 18/18</u>						<u>+95,434</u>		
<u>Budget Activity 01: Operating Forces</u>								
	45,499,212		45,519,144		+31,050		45,550,194	
<p><u>Explanation:</u> Funds are required to improve audit readiness by finalizing the delivery of the Universe of Transactions (UoT) for all financial data. Today this effort is performed in a makeshift data warehouse. This effort will deliver a planned Navy Enterprise Resource Planning (ERP) Tech Refresh by shifting its financial data storage to the High-Performance Analytical Appliance (HANA) warehouse. The benefit of this effort is to employ software that more optimally works with Systems, Applications, and Products (Personas and Fiori), and to provide a transparent universe of transaction financial data that is validated and reconciled, including both General Ledger posting and supporting business events; all of which is critical for auditability. Without this effort, financial auditors are unable to validate the data for production of financial statements, the entry criteria for auditability. This is a base budget requirement.</p>								
<u>Budget Activity 04: Administration and Servicewide Activities</u>								
	4,082,142		4,230,275		+64,384		4,294,659	
<p><u>Explanation:</u> Funds are required to improve audit readiness by addressing new support requirements levied by the independent auditor including:</p> <ul style="list-style-type: none"> \$+55.493 million for Command Audit Support to provide for expenses associated with all Department of the Navy command requirements for audit and audit response to include support for review of the transaction universe, analyses, Business Process Standardization, improvement of the Navy's financial reporting metrics, and asset valuation. Funds will be used to hire temporary contract personnel to assist the Navy to complete actions such as document identification at each command to facilitate the Navy audit. This support is critical to help find documents, of the millions generated, in the systems to prove audit process compliance. This is a base budget requirement. 								

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA			
Appropriation Title: Various Appropriations						Includes Transfer? Yes			
Component Serial Number:		(Amounts in Thousands of Dollars)							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount

- \$+8.891 million for Business Systems to address costs for making system changes to the ERP, the U.S. Marine Corps Standard Accounting, the Budgeting and Reporting System, and the Navy's legacy Standard Accounting and Reporting System accounting systems. This effort includes IT program management cost related to design for changes, code development, changes to interfaces, system data conversion and cleansing; validation and testing of systems changes; automating system controls; audit control testing; and documenting systems and processes. This is a base budget requirement.

PART III – FY 2018 WORKING CAPITAL FUND TRANSFER AUTHORITY (Section 8008)

FY 2018 REPROGRAMMING DECREASES: **-195,434**

ARMY DECREASE: **-100,000**

Defense Working Capital Fund, Army, X **-100,000**

Explanation: Funds are available from the Army Working Capital Fund (AWCF) account due to sufficient cash being available to finance anticipated disbursement rates for the remainder of the fiscal year. The Army will maintain sufficient cash balance in the fund to reduce the necessity of price increases.

NAVY DECREASE: **-95,434**

Defense Working Capital Fund, Navy, X **-95,434**

Explanation: Funds are available due to sufficient Navy Working Capital Fund (NWCF) cash balances to maintain the required funding level within the Department of the NWCF operational range. This is base budget funding.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

PART IV – FY 2018 PROCEEDS FOR SALES**FY 2018 REPROGRAMMING INCREASES:** **+407,835****ARMY INCREASES:** **+379,835****Aircraft Procurement, Army, 18/20** **+16,622**Budget Activity 01: AircraftUH-60 Blackhawk M Model (MYP)

56	1,078,408	56	1,078,408	+1	+16,622	57	1,095,030
----	-----------	----	-----------	----	---------	----	-----------

Explanation: Funds are required to procure one UH-60M aircraft and associated equipment in conjunction with current base program dollars. The replacement helicopter is an improved version of the items sold. This is a base budget requirement.

Missile Procurement, Army, 18/20 **+363,213**Budget Activity 02: Other Missiles

MSE Missile	240	1,103,040	240	1,103,040	+84	+363,213	324	1,466,253
-------------	-----	-----------	-----	-----------	-----	----------	-----	-----------

Explanation: Funds are required to support the procurement of up to 100 Patriot Advanced Capability (PAC-3) Missile Segment Enhancement (MSE) missiles and to incrementally increase annual capacity from the current 240 to 350 in FY 2020. The Army sold 100 Patriot Guidance Enhanced Missiles - Tactical GEM-T missiles to the Government of the United Arab Emirates (UAE) and collected \$363,213,076 in proceeds from that sale. The Army intends to use those proceeds to procure up to 100 PAC-3 MSE missiles, which are an improved version of the items sold. This is a congressional special interest item. This is a base budget requirement.

NAVY INCREASE: **+28,000****Aircraft Procurement, Navy, 18/20** **+28,000**Budget Activity 04: Other Aircraft

KC-130J	6	472,277	6	472,277	-	+28,000	6	500,277
---------	---	---------	---	---------	---	---------	---	---------

Explanation: Funds are required to replace Fat Albert, which provides logistics support and flight demonstrations for the USN Blue Angels Flight Demonstration Team. The current Fat Albert is a C-130T aircraft that has reached the end of its service life and must be replaced in order to support the Blue Angels mission. The proposed replacement is a United Kingdom Royal Air Force (RAF) C-130 aircraft that is being offered for sale and can be procured at a substantial cost savings to the Department of the Navy using funding from foreign material sales (FMS). This is a base budget requirement.

PART V – FY 2018 DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

FY 2018 REPROGRAMMING INCREASE: **+1,997**

Reserve Personnel, Army, 18/18 **+1,997**

Budget Activity 01: Reserve Component Training and Support

4,740,550	4,732,357	+1,997	4,734,354
-----------	-----------	--------	-----------

Explanation: Funds are required for the Army Reserve Sustainment Command (ARSC) Functional Skill Development initiative for acquisition contracting and program management training of Army Reserve military personnel. This is a base budget requirement.

FY 2018 REPROGRAMMING DECREASE: **-1,997**

Defense Acquisition Workforce Development Fund, 18/20 **-1,997**

Budget Activity 01: Acquisition Workforce

500,000	500,000	-1,997	498,003
---------	---------	--------	---------

Explanation: Funds are available from the Defense Acquisition Workforce Development Fund, 18/20, appropriation for proper execution of the Army Reserves Functional Skills Development initiative. Pursuant to Title 10, United States Code, Section 1705(e)(I), this action does not change the purpose for which the funds were originally credited. This is base budget funding.

PART VI – FY 2017 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2017 REPROGRAMMING INCREASES: **+333,044**

ARMY INCREASES: **+13,692**

Missile Procurement, Army, 17/19 **+2,650**

Budget Activity 02: Other Missiles

Lethal Miniature Aerial Missile System (LMAMS)

110	18,677	110	18,677	+31	+2,650	141	21,327
-----	--------	-----	--------	-----	--------	-----	--------

Explanation: Funds are required to procure additional Lethal Miniature Aerial Missile System (LMAMS) to support JUON AF-0009. Funds will procure 31 All Up Rounds, support training equipment, and Lot Acceptance Testing to be performed prior to the Defense Contracts Management Agency (DCMA) buyoff of All Up Rounds. Funds will be added to existing contracts in September 2018. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)							DoD Serial Number:

Other Procurement, Army, 17/19**+11,042****Budget Activity 02: Communications and Electronics Equipment**

Biometrics Enterprise

+7,200

7,200

Explanation: Funds are required to procure new computing hardware for the Department of Defense (DoD) Automated Biometric Identification System (ABIS) v1.3 (Increment 0) as part of a planned Service Life Extension Program (SLEP). The DoD ABIS is the authoritative biometric enterprise repository system, which provides direct Biometric Identity management support to the multiple Combatant Commands and is used to share critical biometric information with other Federal government agencies (i.e., Department of Homeland Security, Federal Bureau of Investigation, Department of State, Customs and Border Protection. This is a base budget requirement.

Life Cycle Software Support (LCSS)	4,718	4,718	+2,400	7,118
------------------------------------	-------	-------	---------------	-------

Explanation: Funds are required to upgrade the Short Message Service (SMS) from Version 2 to Version 3 to provide a modern application that will reduce or eliminate degraded performance to allow migration to a new cloud-based Army datacenter to increase substantially application performance for the SMS user community; and to decrease technical operation costs. This is a base budget requirement.

Budget Activity 03: Other Support Equipment

Physical Security Systems (OPA3)	44,082	44,082	+1,442	45,524
----------------------------------	--------	--------	---------------	--------

Explanation: Funds are required to procure components for the Access Control Point (ACP) at Ft. Bragg, North Carolina, in order to defeat vehicular threats at a new highway exit. This is a base budget requirement.

NAVY INCREASES:**+25,728****Aircraft Procurement, Navy, 17/19****+13,311****Budget Activity 05: Modification of Aircraft**

SH-60 Series	109,506	109,506	+13,311	122,817
--------------	---------	---------	----------------	---------

Explanation: Funds are required to procure improved MH-60S Gunner Seats (Commander, Naval Air Forces /Naval Air Systems Command's #2 Safety Issue) to reduce or eliminate the detrimental impacts the current seats have on the health, preservation, and well being of the aircrew. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	<i>(Amounts in Thousands of Dollars)</i>						
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i
<u>Other Procurement, Navy, 17/19</u>						<u>+12,417</u>	
<u>Budget Activity 03: Aviation Support Equipment</u>							
Sonobouys – All Types		158,588		158,588		+12,417	171,005
<u>Explanation:</u> Funds are required to procure additional sonobuoys to increase the U.S. 6th Fleet (C6F) physical inventory above combat requirements. Unexpected high Anti-Submarine Warfare (ASW) operational tempo in 2017 resulted in an unexpected high expenditure rate of all type/model/series. In particular, there is immature inventory of SSQ 101 and 125 Multi-Static Active Coherent buoys. The additional funding requested will improve C6F ASW readiness. This is a base budget requirement.							
<u>AIR FORCE INCREASES:</u>						<u>+271,544</u>	
<u>Aircraft Procurement, Air Force, 17/19</u>						<u>+83,458</u>	
<u>Budget Activity 05: Modification of Inservice Aircraft</u>							
C-130J Mods		89,424		89,424		+83,458	172,882
<u>Explanation:</u> Funds are required to procure 12 Group A/B kits, interim supply support, and support equipment in Lot 2 for the C-130J Block 8.1 program. Total cost of Lot 2 is \$85.991 million with a planned award in October 2018. This is a base budget requirement.							
<u>Procurement of Ammunition, Air Force, 17/19</u>						<u>+41,086</u>	
<u>Budget Activity 01: Ammunition</u>							
General Purpose Bombs		569,482		569,482		+41,086	610,568
<u>Explanation:</u> Funds are required to procure 1,000 very low collateral damage bombs to support an Air Force Urgent Operational Need (UON) requesting delivery of 1,000 units of a 500 lb penetrating warhead. A series of comparative performance tests will be conducted in the third and fourth quarters of FY 2018 to determine the final procurement between the MPR-500 Israeli produced weapon and the BLU-129/B. These weapons use a composite case warhead, which adds explosive force nearby but lowers collateral damage to address current operational concerns. This is a new start . The estimated total cost of this new start effort is \$41.1 million. This is a base budget requirement.							
<u>Other Procurement, Air Force, 17/19</u>						<u>+48,450</u>	
<u>Budget Activity 02: Vehicular Equipment</u>							
Items Less Than \$5,000,000		19,455		19,455		+224	19,679
<u>Explanation:</u> Funds are required for five cargo trailers to support various special forces tactical skills training courses and operational test missions at Hurlburt Field, Duke Field, and Eglin Range, Florida. This is a base budget requirement.							

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)						
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program

a	b	c	d	e	f	g	h i
<u>Budget Activity 03: Electronics and Telecommunications Equipment</u> Air Traffic Control/Landing System (ATCALS)							
		70,728		70,728		+2,910	73,638
<u>Explanation:</u> Funds are required to support the Instrument Landing Systems (ILS) on Osan Airbase runway (09R/27L). Osan's only runway (09L/27R) with an ILS will close in October 2020 for repairs. The new ILS will need to be operational before 09L/27R closes. This ILS will be a permanent system as 09R/27L is the only true instrument runway. Due to geographic restrictions, 09L/27R does not have a full complement of approach lighting. The ILS approaches on 09L/27R are restricted to a decision height of 250 feet, instead of the typical 200 feet. The runway 09R/27L does, however, have a full complement of approach lights. Osan Airbase supports the U.S. and ROK alliance with 9,000 sorties annually. Osan experiences 140 days per year of weather requiring an ILS to 200 feet to safely land. Funds are required now to ensure adequate time to complete all site surveys, installation, certification, and flight checks of the new ILS on runway 09R/27L. This is a new start . The estimated total cost of this new start effort is \$2.9 million. This is a base budget requirement.							
Air Force Physical Security System	310,213		310,213			+5,500	315,713
<u>Explanation:</u> Funds are required to procure a comprehensive Closed Circuit TV (CCTV) system across the United States Air Force Academy that includes approximately 800 day/night high definition smart technology cameras, video recording equipment, and liquid crystal displays. Cameras will be located in Cadet facilities, large mass gathering mission essential facilities, and Security Forces access and entry control points. This is a base budget requirement.							
Strategic Command and Control	39,803		39,803			+5,000	44,803
<u>Explanation:</u> Funds are required to procure commercial-off-the-shelf (COTS) terminals and antennas for the Phoenix Air-to-Ground Communications Network (PAGCN) system, ensuring connectivity in difficult communications environments. Additional classified details will be provided under separate cover. This is a new start . The estimated total cost of the new start effort is \$5.0 million. This is a base budget requirement.							
<u>Budget Activity 04: Other Base Maintenance and Support Equipment</u>							
Items Less Than \$5,000,000		63,016		63,016		+34,816	97,832
<u>Explanation:</u> Funds are required for the following programs: <ul style="list-style-type: none"> \$+3.5 million to procure five additional rows of T-1 aircraft sunshades at Laughlin Air Force Base, Texas. This requirement continues the effort to ensure all aircraft at Laughlin have protection from the elements and severe weather. This is a base budget requirement.

<u>Explanation:</u> Funds are available due to a contract delay associated with ongoing negotiations. This is base budget funding.							
<u>Budget Activity 02: Procurement of Ammunition, MC</u>							
120mm, All Types		10,427		10,427		-2,000	8,427
<u>Explanation:</u> Funds are available in the 120MM Precision Extended Range Munition program due to the cancellation of the Expeditionary Fire Support System (EFSS). The Navy cancelled the EFSS program to avoid the high cost of the weapon system and ammunition with low operational impact. This is base budget funding.							
Other Procurement, Navy, 17/19						-1,041	
<u>Budget Activity 02: Communications and Electronics Equipment</u>							
Submarine Broadcast Support		31,459		31,459		-1,041	30,418
<u>Explanation:</u> Funds are available due to contract delays for the Low Band Universal Communications Systems program. This is base budget funding.

PE 0603724N Navy Energy Program									
		69,500		69,500		-15,001		54,499	
Explanation: Funds are available due to the Department of the Navy shift in priorities reducing the Navy Energy Program to amounts executed prior to FY 2011. Therefore, these funds are in excess of requirements. This is base budget funding.									
PE 0603725N Facilities Improvement 5,266 5,266 -915 4,351									
Explanation: Funds are available due to the cancellation of the waste heat technology effort. The technology is not maturing as planned, and the project will no longer be pursued. This is base budget funding.									
AIR FORCE DECREASES:						-266,544			
Aircraft Procurement, Air Force, 17/19						-100,070			
Budget Activity 02: Airlift Aircraft									
MC-130J 6 499,358 6 499,358 - -10,000 6 489,358									
Explanation: Funds are available because prior year negotiation savings are being applied to current year requirements for MC-130J procurement. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
Budget Activity 05: Modification of Inservice Aircraft									
B-1B 150,319 150,319 -1,380 148,939									
Explanation: Funds are available because the B-1B requirement changed from using Block Upgrade 2 to using the Multifunctional Information Distribution System/Joint Tactical Radio Systems due to increased capability. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
Increment 3.2B 76,410 76,410 -3,580 72,830									
Explanation: Funds are available due to contract negotiation savings for the F-22 Increment 3.2B program. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)						
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i
Budget Activity 06: Aircraft Spares and Repair Parts							
Initial Spares/Repair Parts		1,014,022		1,014,022		-18,910	995,112
Explanation: Funds are available from the following programs:							
<ul style="list-style-type: none"> \$-15.0 million because the updated validation of E-3 Airborne Warning and Control System (AWACS) spares requirements was lower than originally estimated. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding. \$-3.910 million because the KC-135 Communications, Navigation and Surveillance/Air Traffic Management Block 45 program has purchased all required spares to meet demand. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding. 							
Budget Activity 07: Aircraft Support Equipment and Facilities							
Other Production Charges		1,398,964		1,398,964		-59,700	1,339,264
Explanation: Funds are available from a classified effort. Additional classified details will be provided under separate cover. This is base budget funding.							
C-17A Post Production Support		83,859		83,859		-6,500	77,359
Explanation: Funds are available due to contracting strategy savings for procurement of C-17 Peculiar Support Equipment for base standups at Charlotte and Pittsburgh. The remaining FY 2017 funds are expected to be sufficient to meet the standup schedule. This is base budget funding.							
Missile Procurement, Air Force, 17/19						-5,269	
Budget Activity 03: Modification of Inservice Missiles							
MM III Modifications		68,692		68,692		-5,269	63,423
Explanation: Funds are available because the T-9 program (quantity of 1) final negotiated price was \$4.0 million higher than current FY 2017 funding, causing the program to be paid for with FY 2018 funding. Full Funding Policy prevents paying for a single end-item with two different appropriation fiscal years. All other FY 2017 program requirements have been achieved, making these funds available for other priorities. This is base budget funding.							

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i
Space Procurement, Air Force, 17/19						-14,692			
Budget Activity 01: Space Procurement, Air Force									
Wideband Gapfiller Satellites		48,772		48,772		-4,719		44,053	
Explanation: Funds are available because Wideband Gapfiller Satellite requirements are forecasted to be satisfied without the use of these funds. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
GPS III Space Segment		33,974		33,974		-4,274		29,700	
Explanation: Funds are available based on updated GPSIII program costs. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
NAVSTAR GPS Space		2,082		2,082		-2,080		2	
Explanation: Funds are available because the contractor support funds are early to need for the Key Loading Installation Facility for the Military Global Positioning System User Equipment (MGUE) program. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
Global Positioning (Space)		10,171		10,171		-2,827		7,344	
Explanation: Funds are available due to lower than originally forecast costs for the Global Positioning (Space) Requirement. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.									
Budget Activity 02: Space Procurement, Spares									
Spares and Repair Parts		20,606		20,606		-792		19,814	
Explanation: Funds are available since fewer spares and repair parts were required than originally forecast. Therefore, funds are available to support higher priority items. This is base budget funding.									
Other Procurement, Air Force, 17/19						-39,627			
Budget Activity 03: Electronics and Telecommunications Equipment									
GCSS-AF FOS		1,743		1,743		-692		1,051	
Explanation: Funds are available because costs were lower than expected for Global Combat Support System (GCSS) product lifecycle management software licenses. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.

a	b	c	d	e	f	g	h	i
Theater Battle Management C2 Systems9,6599,659-859,574								
<u>Explanation:</u> Funds are available because capital equipment refresh requirements for the Theater Battle Management program were acquired at a cost less than estimated. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.								
Minimum Essential Emergency Communication Network (MEECN)								
	44,750		44,750		-38,850		5,900	
<u>Explanation:</u> Funds are available due to delays in the Global Aircrew Strategic Network Terminal Increment 1 development program. The program has realized a 10-month slip and projects an additional 15-month slip to the Milestone C decision. The schedule slip resulted from technical and contract-related issues experienced in the Engineering, Manufacturing, and Development phase, as well as a risk assessment of the contractor's current status to date. The delays have pushed back the first year of production, making the FY 2017 procurement funds early to need. This is base budget funding.								
<u>Research, Development, Test, and Evaluation, Air Force, 17/18</u>						<u>-106,886</u>		
<u>Budget Activity 05: System Development and Demonstration</u>								
PE 0307581F JSTARS Recap123,334123,334-4,846118,488								
<u>Explanation:</u> Funds are available due to unrealized estimated costs for E-8 Joint Surveillance Target Attack Radar System (JSTARS) Recap risk reduction activities. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.								
PE 0605030F Joint Tactical Network Center (JTNC)								
	1,131		1,131		-108		1,023	
<u>Explanation:</u> Funds are available as excess after funding all FY 2017 Tri-Military Department Resource Plan requirements for the Joint Tactical Networking Center. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.								
PE 0605221F KC-46 Aerial Refueling ACFT								
	221,509		221,509		-8,002		213,507	
<u>Explanation:</u> Funds are available since the KC-46 development program has maintained stable requirements and experienced fewer changes than other historical programs. The Federal government costs for this development program are limited based on the contractual agreement. All other FY 2017 requirements have been met. This is a congressional special interest item. This is base budget funding.

PE 0101127F B-2 Squadrons		122,979		122,979		-9,000	113,979
<u>Explanation:</u> Funds are available due to unrealized estimated costs for B-2 Squadrons development efforts. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.							
PE 0102110F UH-1N Replacement Program		86,856		86,856		-83,458	3,398
<u>Explanation:</u> Funds are available from the UH-1N Replacement program due to pre-award U. S. Government Accountability Office (GAO) protest (File Number B-416027.1) filed on February 12, 2018. The original contract award was planned for June 2018; however, due to this pre-award protest the contract award is now planned for September 2018. While the GAO dismissed the protest on May 22, 2018, this realignment optimizes the budget strategy so that there are no expiring FY 2017 funds in the UH-1N Replacement program. If not funded, the program will not award until FY 2020. A separate request for FY 2018 UH-1N Replacement program funding is also submitted in this reprogramming to complete the intent of the \$75.0 million congressional add in the FY 2017 appropriation. The FY 2017 congressional add of \$75.0 million, which is part of this \$83.458 million proposed funding realignment, is a congressional special interest item. This is base budget funding.							
PE 0207161F Tactical AIM Missile		44,521		44,521		-1,472	43,049
<u>Explanation:</u> Funds are available because of a late initial contract award for the Tactical AIM Missile, which was delayed from May 2017 to September 2018. Additionally, a slip in the development of the new missile processor drove excess funding in FY 2017. There are no other known requirements for the funding at this time and no major impacts to the program. This is base budget funding.							
DEFENSE-WIDE DECREASES:						-29,730	
Research, Development, Test, and Evaluation, Defense-Wide, 17/18						-29,730	
Budget Activity 03: Advanced Technology Development							
PE 0603122D8Z Combating Terrorism Technology Support		113,366		113,336		-25,000	88,336
<u>Explanation:</u> Funds are available due to executability issues. The Department of Defense, in consultation with Israel, developed a plan to carry out research, development, test and evaluation on a joint basis that follows the guidelines stipulated in section 1279 (United States-Israel Anti-Tunnel Cooperation) of the FY 2016 National Defense Authorization Act (NDAA). In particular, the Department followed the guidelines of ensuring current year in-kind support and that at least 50 percent of the U.S. contributions was

spent in the United States. As a result of the agreed upon execution plan, the program now has funds that are unexecutable in FY 2018. This is a congressional special interest item. This is base budget funding.

PE 0603712S, Generic Logistics R&D Technology Demonstrations

15,011	15,011	-730	14,281
--------	--------	------	--------

Explanation: Funds are available because they are excess to needs and all requirements have been met. This is a congressional special interest item. This is base budget funding.

Budget Activity 05: System Development and Demonstration

PE 0605027D8Z OUSDC IT Development Initiatives

16,131	16,131	-4,000	12,131
--------	--------	--------	--------

Explanation: Funds are available due to delays in the Next Generation Resource Management System (NGRMS), as a result of the program transferring from the Defense Logistics Agency to the Office of the Secretary of Defense (Comptroller) beginning in FY 2017. This is base budget funding.

PART VII – FY 2017 SPECIAL TRANSFER AUTHORITY (Section 9002)

FY 2017 REPROGRAMMING INCREASES: **+423,981**

ARMY INCREASES: **+37,758**

Other Procurement, Army, 17/19 **+37,758**

Budget Activity 02: Communications and Electronics Equipment

Night Vision Devices	152,170	152,170	+4,137	156,307
----------------------	---------	---------	--------	---------

Explanation: Funds are required to procure an additional 1,147 AN/PVS-14 Monocular Night Vision Devices to fill shortfalls for European Deterrence Initiative (EDI) equipment sets and units. This is an EDI OCO budget requirement.

Budget Activity 03: Other Support Equipment

Physical Security Systems (OPA3)	44,082	44,082	+1,382	45,464
----------------------------------	--------	--------	--------	--------

Explanation: Funds are required to procure the Integrated Electronic Security System (IESS) capability to replace an outdated legacy system for physical security at Army bases. The IESS is comprised of the Closed Circuit Television (CCTV) and the Intrusion Detection System (IDS), which interface with a primary monitoring control station. This requirement supports Operation FREEDOM SENTINEL (OFS). This is an OCO budget requirement.

Mobile Maintenance Equipment Systems		35,303		35,303		+4,728		40,031
<u>Explanation:</u> Funds are required to procure four hydraulic systems test and repair units and ten armament repair shop sets to fill shortfalls for the EDI equipment sets and units. This is an EDI OCO budget requirement.								
Family of Forklifts		3,153		3,153		+8,502		11,655
<u>Explanation:</u> Funds are required to procure 81 5K light capability rough terrain forklifts to fill shortfalls for the EDI equipment sets and units. This is an EDI OCO budget requirement.								
Field Feeding Equipment		15,209		15,209		+17,785		32,994
<u>Explanation:</u> Funds are required to procure 126 refrigerated container systems to fill shortfalls for the EDI equipment sets and units. This is an EDI OCO budget requirement.								
Items Less Than \$5.0M (Maint Eq)		2,861		2,861		+1,224		4,085
<u>Explanation:</u> Funds are required to procure 200 machinists measuring tool sets to fill shortfalls for the EDI equipment sets and units. This is an EDI OCO budget requirement.								
<u>NAVY INCREASE:</u>						<u>+4,250</u>		
<u>Procurement of Ammunition, Navy and Marine Corps, 17/19</u>						<u>+4,250</u>		
<u>Budget Activity 01: Procurement of Ammunition, Navy</u>								
Cartridges & Cart Actuated Devices		48,635		48,635		+4,250		52,885
<u>Explanation:</u> Funds are required to replenish low inventory levels of critical safety and tactical support components within the Cartridge Actuated Devices and Propellant Actuated Devices product lines expended in current operations. Inventory shortages have driven numerous Service Life Extension (SLE) efforts to ensure the Navy and Marine Corps aircraft remain in operation. Replenishment of critical components will extend aircraft operations and mitigate risks associated with current SLE efforts. This is an OCO budget requirement.								

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

Aircraft Procurement, Air Force, 17/19						+41,840			
Budget Activity 05: Modification of Inservice Aircraft									
Other Aircraft		41,386		41,386		+41,840		83,226	
<u>Explanation:</u> Funds are required for the following activities: <ul style="list-style-type: none"> • \$+14.140 million to upgrade 15 BACN system kits for E11s and EQ-4Bs with Situational Awareness Data Link External Time Reference (SADL ETR) capability. Supported tactical assets have transitioned to SADL ETR baseline, degrading network datalink integration resulting in kill chain degradation and exposure of aircrew to air-to-air and ground-to-air threats when traversing between multiple SADL networks. This is an OCO budget requirement. • \$+23.4 million to procure and install a documented Urgent Operational Need (UON) requirement for the U.S. Air Force Central Command (AFCENT), per Air Force Requirements Decision Memorandum number 05-18-02, to modify the Military Global Positioning System (GPS) capability for two Battlefield Airborne Communication Node (BACN) equipped E-11A aircraft. This effort provides a more robust and secure GPS capability for the platform preventing unnecessary loss of life or critical mission failure for ongoing operations. This is a new start. The estimated total cost of this new start effort is \$23.4 million. This is an OCO budget requirement. • \$+4.3 million for the replacement of 17 Multifunctional Information Distribution System Low Volume Terminal (MIDS-LVT)-Link 16 terminals to complete the upgrade to BACN-equipped aircraft. With the FY 2015 and FY 2017 funding, the Air Force is procuring 32 of the 49 required terminals. This upgrade is required to sustain operations due to diminishing manufacturing suppliers and to comply with crypto modernization and frequency remapping mandates. This is an OCO budget requirement. 									
Procurement of Ammunition, Air Force, 17/19						+29,860			
Budget Activity 01: Ammunition									
Cartridges		235,087		235,087		+29,860		264,947	
<u>Explanation:</u> Funds are required to procure medium caliber ammunition to replenish ammunition stockpile shortfalls expended during current operations. These funds will be used to purchase 20mm and 30mm (PGU-27, PGU-15, Urban mix, and PGU-13D/B (combat mix)) rounds. This is an OCO budget requirement.									
Other Procurement, Air Force, 17/19						+98,861			
Budget Activity 02: Vehicular Equipment									
Items Less Than \$5,000,000		19,455		19,455		+1,500		20,955	
<u>Explanation:</u> Funds are required to replace ten Light Armored Vehicles (LAVs) that are damaged, inoperable, or have reached end-of-life. Up-armored vehicles are used to mitigate insurgent threats during operational ground movements. The LAVs will be distributed throughout the U.S. Air Force Central

Command (AFCENT) area of responsibility (AOR). Combat operations, austere environments, and a lack of parts has degraded vehicle capability and limited or ceased ground movements. These limiting factors have severely impacted mission effectiveness while increasing threats to U.S. Air Force personnel. This is an OCO budget requirement.

Budget Activity 03: Electronics and Telecommunications Equipment

USCENTCOM	13,418	13,418	+5,000	18,418
-----------	--------	--------	--------	--------

Explanation: Funds are required to replace the aged Precision Approach Radar (PAR) system at the Bagram Air Base (AB), Afghanistan. Bagram AB handles over 5,000 rotary-wing flights per month, and the PAR is the only means to safely recover those aircraft at night, in low visibility and adverse weather conditions. It serves as a redundant precision approach to the single Instrument Landing System (ILS) used for fixed-wing aircraft. The current GPN-22 PAR is nearing the end of its lifecycle and will no longer be supportable beyond FY 2022. This is an OCO budget requirement.

Combat Training Ranges	34,850	30,950	+38,500	69,450
------------------------	--------	--------	---------	--------

Explanation: Funds are required to purchase six Wideband Joint Threat Emitters (WJTE) with the Automatic Dependent Surveillance Broadcast (ADS-B) upgrade, two Fixed Command and Control Units (F2CU), and one Mobile Command and Control Unit (M2CU). This procurement fields two WJTEs and one M2CU at Polygone Electronic Warfare Tactics Range, Germany, and two WJTEs and one FC2U each at Royal Air Force Lakenheath, England, and Aviano Air Base, Italy. The WJTEs and FC2Us must be in-place for realistic exercises and training as well as the scheduled arrival of the F-35 aircraft in 2021. Without these emitters, U.S. Air Forces in Europe cannot train against Anti-Access and Area-Denial threats. This is a European Deterrence Initiative (EDI) OCO budget requirement.

General Information Technology	47,879	47,879	+3,290	51,169
--------------------------------	--------	--------	--------	--------

Explanation: Funds are required to procure one Battlefield Airborne Communication Node (BACN) remote ground station (Payload Control Elements Mission (PCE-M). Existing backup assets are being repurposed for interim coverage, increasing mission risk or degradation. This is an OCO budget requirement.

Budget Activity 04: Other Base Maintenance and Support Equipment

Items Less than \$5 Million	63,016	63,016	+50,571	113,587
-----------------------------	--------	--------	---------	---------

Explanation: Funds are required for replacement of the following equipment lost for the U.S. Central Command (USCENTCOM) operations to maintain the minimum essential level to support mobility operations. These are OCO budget requirements.

- \$+20.301 million for Operation INHERENT RESOLVE (OIR) equipment losses for 9,650 pallets, 9,650 top nets, and 19,299 side nets;

- \$+25.3 million for Operation FREEDOM'S SENTINEL (OFS) equipment losses for 12,026 pallets, 12,026 top nets, and 24,052 side nets;
- \$+5.15 million for Operation ENDURING FREEDOM HORN OF AFRICA equipment losses for 2,424 pallets, 2,424 top nets, and 4,848 side nets.

Research, Development, Test, and Evaluation, Air Force, 17/18**+6,100****Budget Activity 07: Operational System Development****PE 0207610F Battlefield Abn Comm Node (BACN)****+6,100****6,100**

Explanation: Funds are required to develop and integrate a Military Global Positioning System (GPS) capability on the Battlefield Airborne Communication Node equipped E-11A aircraft. This effort provides a more robust and secure GPS capability for the platform preventing unnecessary loss of life or critical mission failure for ongoing operations. This requirement is documented in a validated Urgent Operational Need for U.S. Air Force Central Command (AFCENT), Air Force Requirements Decision Memorandum number 05-18-02. This is a **new start**. The estimated total cost of this new start effort is \$39.3 million (FY 2017, \$6.1 million and FY 2019, \$33.2 million), which is fully funded in the FY 2019 President's Budget request. This is an OCO budget requirement.

DEFENSE-WIDE INCREASE:**+205,312****Defense Working Capital Fund, Defense, X****+205,312**

Explanation: Funds are required in the Defense Working Capital Fund to prevent a cash shortfall caused by actual cost paid for refined fuel products in excess of the amount budgeted for these products.

PART VII – FY 2017 SPECIAL TRANSFER AUTHORITY (Section 9002)**FY 2017 REPROGRAMMING DECREASES:****-423,981****AIR FORCE DECREASE:****-58,381****Missile Procurement, Air Force, 17/19****-58,381****Budget Activity 02: Other Missiles**

Predator Hellfire Missile	1,536	175,330	1,536	175,330	-	-58,381	1,536	116,949
---------------------------	-------	---------	-------	---------	---	---------	-------	---------

Explanation: Funds are available because of a lower than anticipated unit price for Hellfire missiles. Unit costs were less for the Air Force based on the lead Service (Army), other Services, and/or Foreign Military Sales procurement quantities. Hellfire missile production is operating at the maximum capacity. All other

Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i

FY 2017 program requirements have been achieved, making these funds available for other priorities. This is Title IX OCO budget funding.

DEFENSE-WIDE DECREASE: **-365,600**

Operation and Maintenance, Defense-Wide, 17/18 **-365,600**

Defense Security Cooperation Agency

Budget Activity 04: Administration and Servicewide Activities

1,313,951	1,313,951	-365,600	948,551
-----------	-----------	----------	---------

Explanation: Funds are available from the following programs:

- \$-42.0 million due to program and pricing changes from congressionally notified 10 U.S.C. 333 (section 333) foreign security forces train and equip programs resulting in available funds. Of the \$42.0 million decrease, \$22.0 million is available from programs delayed due to partner nation agreements and \$1.6 million is available due to congressional holds on section 333 programs. These \$23.6 million in programs will no longer be executable with expiring funds. This is Title IX OCO budget funding.
- \$-323.6 million of Coalition Support Fund is available due to the United States' announcement in January 2018 of the suspension of nearly all security assistance to Pakistan, with limited exceptions allowed for programs that directly support U.S. national security interests. Due to the limited time remaining in the fiscal year, even if the suspension is lifted there is insufficient time to process claims from Pakistan. This is Title IX OCO budget funding.

PART VIII – FY 2017 SPECIAL TRANSFER AUTHORITY (Section 10002)

FY 2017 REPROGRAMMING INCREASES: **+29,280**

AIR FORCE INCREASES: **+29,280**

Procurement of Ammunition, Air Force, 17/19 **+24,680**

Budget Activity 01: Ammunition

Cartridges	235,087	264,947	+24,680	289,627
------------	---------	---------	---------	---------

Explanation: Funds are required for the purchase of medium caliber ammunition to replenish ammunition stockpile shortfalls expended during current operations. These funds will be used to purchase 20mm and 30mm (PGU-27, PGU-15, Urban mix, and PGU-13D/B (combat mix)) rounds. This is a Title X budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	

Component Serial Number:	(Amounts in Thousands of Dollars)							
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a	b	c	d	e	f	g	h	i

Other Procurement, Air Force, 17/19**+4,600****Budget Activity 02: Vehicular Equipment**

Items Less Than \$5,000,000	19,455	20,955	+4,600	25,555
-----------------------------	--------	--------	--------	--------

Explanation: Funds are required to procure 18 vehicles to support Air National Guard Special Tactics and Guardian Angel Teams addressing emergency warfighting readiness requirements. A total of ten special tactics and guardian angel tactical low-visibility vehicles and eight special tactics all-terrain vehicles are required. Funds were erroneously requested in the Items Less than \$5 Million (Personal Safety & Rescue Equipment) budget line and are required in the vehicle budget line for procurement. This is a Title X budget requirement.

PART VIII – FY 2017 SPECIAL TRANSFER AUTHORITY (Section 10002)**FY 2017 REPROGRAMMING DECREASES:****-29,280****AIR FORCE DECREASES:****-29,280****Aircraft Procurement, Air Force, 17/19****-9,680****Budget Activity 05: Modification of Inservice Aircraft**

Large Aircraft Infrared Countermeasures

135,801	135,801	-9,680	126,121
---------	---------	--------	---------

Explanation: Funds are available because of contract negotiation savings for the C-17 Large Aircraft Infrared Countermeasures (LAIRCM) due to quantity discounts achieved compared to the original budget estimate. The procurement of the required Group A/B Kits has been completed and there are no other known requirements for the funding at this time. This is Title X OCO budget funding.

Other Procurement, Air Force, 17/19**-19,600****Budget Activity 03: Electronics and Telecommunications Equipment**

Air Force Physical Security System	297,469	310,213	-15,000	295,213
------------------------------------	---------	---------	---------	---------

Explanation: Funds are available because the original funding requirement for JUON EC-0009 was based on a different architecture solution than the final version. The final version cost is \$15 million less than originally projected. There are no other known requirements for the funding at this time and no major impacts to the program. This is Title X OCO budget funding.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)						
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i

Budget Activity 04: Other Base Maintenance and Support Equipment

Items Less Than \$5,000,000	63,016	63,016	-4,600	58,416
-----------------------------	--------	--------	--------	--------

Explanation: Funds are available because they were erroneously requested in the incorrect budget line. These funds were approved for the Air National Guard in the FY 2017 Additional Appropriations Title for procurement of Cargo and Utility Vehicles. This action does not change the purpose or intent for which the funds were originally appropriated. This is Title X OCO budget funding.

PART IX – FY 2016 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2016 REPROGRAMMING INCREASES: **+150,195**

NAVY INCREASES: **+20,056**

Other Procurement, Navy, 16/18 **+20,056**

Budget Activity 03: Aviation Support Equipment

Sonobouys – All Types	168,763	168,763	+20,056	188,819
-----------------------	---------	---------	---------	---------

Explanation: Funds are required to procure additional sonobuoys required to get the U.S. Sixth Fleet (C6F) physical inventory above Combat Requirements. Unexpected high Anti-Submarine Warfare (ASW) operational tempo in 2017 resulted in an unexpected high expenditure rate of all type/model/series. In particular, there is immature inventory of SSQ-101 and SSQ-125 Multi-Static Active Coherent buoys. Additional funding requested to improve C6F ASW Readiness. This is a base budget requirement.

AIR FORCE INCREASES: **+130,139**

Aircraft Procurement, Air Force, 16/18 **+13,400**

Budget Activity 07: Aircraft Support Equipment and Facilities

Other Production Charges	1,050,272	1,050,272	+13,400	1,063,672
--------------------------	-----------	-----------	---------	-----------

Explanation: Funds are required for a classified effort. Additional classified details will be provided under separate cover. This is a base budget requirement.

Missile Procurement, Air Force, 16/18 **+13,648**

Budget Activity 04: Spares and Repair Parts

Initial Spares/Repair Parts	48,523	48,523	+13,648	62,171
-----------------------------	--------	--------	---------	--------

Explanation: Funds are required to procure replenishment spares for flight test launches from Vandenberg, Air Force Base. Assets procured under this effort will ensure no gap in flight tests due to depletion of

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA			
Appropriation Title: Various Appropriations						Includes Transfer? Yes

		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
Line Item		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i

existing replenishment spare assets. These assets include MK12A AgZn Batteries, MK21 Antenna Kits, MK12A 3 to 5F Midsections, a Circumferential Linear Explosive Assembly (CLEA), and the Umbilical Retract Cartridge (URC). This is a base budget requirement.

Other Procurement, Air Force, 16/18

+30,591

Budget Activity 03: Electronics and Telecommunications Equipment

Theater Battle Management C2 Systems

7,473	7,473	+610	8,083
-------	-------	------	-------

Explanation: Funds are required for modernizing and refurbishing the non-releasable Command and Control (C2) capability complementing the 5th Air Force's bilateral Air Component Coordinating Element in the Japan Air Operations Center. In support of Korean Operations, the 5th Air Force is a central hub for force flow and noncombatant evacuation operations support. This modernization program enhances unilateral and bilateral C2 capability and enables joint task forces to participate through the full spectrum of military operations. This is a base budget requirement.

Air & Space Operations Ctr-Wpn System

9,993	9,993	+7,000	16,993
-------	-------	--------	--------

Explanation: Funds are required to procure a Theater Operationally Resilient Command and Control (TORCC) system to align Pacific Air Forces (PACAF) command and control (C2) with Air Force Multi Domain Command and Control efforts. The TORCC is a vendor consortium C2 system that will rapidly fill the distributed tactical C2 capability gap that exists across the Pacific Theater by providing all hardware, software, and engineering services through the General Services Administration schedule process at four locations (Misawa AB, Kadena AB, Yokota AB, and Andersen AFB). These systems could provide either a fixed or mobile capability for use in contingency operations. Without the TORCC system being installed, the Air Force will continue to rely on host nation fixed-site C2 systems and would not allow PACAF to align with the Chief of Staff of the Air Force Multi-Domain Command and Control (CSAF MDC2) efforts (tactical C2 capabilities only). This is a **new start**. The estimated total cost for this new start effort is \$7.0 million. This is a base budget requirement.

Base Communications Infrastructure	85,210	85,210	+4,000	89,210
------------------------------------	--------	--------	--------	--------

Explanation: Funds are required to update the Joint Space Operations Center, Vandenberg Air Force Base, California, communications for Building 7000. Additional fiber drops are required to support future systems, updates to existing systems, and new mission sets. The redesign is critical to meet the Commanders intent and requirements. This is a base budget requirement.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA	
Appropriation Title: Various Appropriations						Includes Transfer? Yes	
Component Serial Number:	(Amounts in Thousands of Dollars)						
	Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program
Line Item	Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity Amount
a	b	c	d	e	f	g	h i

Budget Activity 04: Other Base Maintenance and Support Equipment

Base Procured Equipment	10,095	10,095	+18,981	29,076
-------------------------	--------	--------	---------	--------

Explanation: Funds are required for the following programs:

- \$+9.746 million to procure 56 Uninterruptible Power Supply (UPS) backup systems. All systems are replacing aged UPS systems, as failures are occurring and limited repair/spare parts available to keep these units operational. These systems protect sensitive electronic equipment such as command and control centers, radars, and high performance computing equipment. Systems will be procured across the Air Force supporting various missions. Per specific equipment and safety standards, missions requiring the use of systems without the requisite back-up UPS are deemed non-operational. This impacts base support operations, flight-line operations, testing activities, and training in multiple disciplines. This is a base budget requirement.
- \$+9.235 million to procure Uninterruptible Power Supply (UPS), paralleling switch gear, and a medium voltage (MV) 3.2 megawatt backup generator for the Air Force Research Laboratory DoD Supercomputing Resource Center, Wright-Patterson Air Force Base, Ohio. The existing transfer switch is not supportable due to non-availability of spare parts. If the switch is not replaced, any ordinary electrical utility anomaly will corrupt critical data and damage high performance computing equipment. This backup system will allow for uninterrupted, continuous power to all vital high speed computing equipment and minimize damage of multi-million dollar computing equipment due to sudden loss of power. This is a base budget requirement.

Defense Working Capital Fund, Air Force, X

War Readiness Material (WRM)	66,462	66,462	+72,500	138,962
------------------------------	--------	--------	---------	---------

Explanation: Funds are required to procure War Readiness Material (WRM) medical and dental wartime assemblies and capabilities in support of 255 locations. This funding increases the Medical WRM inventory to a level that will meet current and future demand to support conflicts throughout the world. Approximately one-third of WRM pharmaceuticals must be replaced annually to ensure shelf life or emergence of newer, more effective treatments. Medical equipment requires constant upgrade to maintain the medical standard of care for required deployable capability. Without this funding, improvement to outdated clinical standards of care, incorporation of updated medical technology, and integration of enhancements to align with updated operating concepts will be delayed, degrading critical warfighter care readiness. This is a base budget requirement.

FY 2016 REPROGRAMMING DECREASES: **-150,195**

NAVY DECREASES: **-20,056**

Aircraft Procurement, Navy, 16/18 **-11,789**

Budget Activity 03: Trainer Aircraft

JPATS	8,914	8,914	-1,612	7,302
-------	-------	-------	---------------	-------

Explanation: Funds are available due to deferred production line shutdown efforts. Deferred line shutdown allows continuation of commercial line for Foreign Military sales. This is base budget funding.

Budget Activity 05: Modification of Aircraft

Adversary	1,141	1,141	-1,141	-
-----------	-------	-------	---------------	---

Explanation: Funds are available due to Falcon-Up Operational, Safety and Improvement Program misalignment. This is base budget funding.

JPATS Series	7,237	7,237	-6,638	599
--------------	-------	-------	---------------	-----

Explanation: Funds are available due to a delay in the contract award for the Automated Dependent Surveillance Broadcast Out. This is base budget funding.

Common Avionics Changes	169,590	169,590	-1,163	168,427
-------------------------	---------	---------	---------------	---------

Explanation: Funds are available as annual requirements have been fulfilled. Funds will be placed toward higher warfighter requirements and obligated prior to expiring September 30, 2018. This is base budget funding.

Budget Activity 07: Aircraft Support Equipment and Facilities

First Destination Transportation	1,801	1,801	-1,235	566
----------------------------------	-------	-------	---------------	-----

Explanation: Funds are available as annual requirements have been fulfilled. Funds will be placed toward higher warfighter requirements and obligated prior to expiring September 30, 2018. This is base budget funding.

Subject: June 2018 Prior Approval Request (Omnibus)						DoD Serial Number: FY 18-17 PA

Budget Activity 04: Other Aircraft								
Target Drones	75	131,879	75	131,879	-	-13,400	75	118,479
<u>Explanation:</u> Funds are available due to contract negotiation savings for the QF-16 Full Scale Aerial Target program. All other FY 2016 program requirements have been achieved, making these funds available for other priorities. This is base budget funding.								
Budget Activity 05: Modification of Inservice Aircraft								
C-130		139,078		139,078		-11,188		127,890
<u>Explanation:</u> Funds are available as they are residual funds after completing In-Flight Propeller Balancing and Engine Oil Cooler congressional interest items and early to need procurement for the C-130H Avionics Modernization Program (AMP) Increment 1. The C-130H AMP Increment 1 is currently in the Engineering, Manufacturing and Development phase with the Milestone C decision scheduled in late FY 2018. There are no other known requirements for the funding at this time and no major impacts to the program. This is a congressional special interest item. This is base budget funding.								
Airborne Warning and Control System (AWACS)								
		163,308		163,308		-7,760		155,548
<u>Explanation:</u> Funds are available because the E-3 Airborne Warning and Control System (AWACS) Block 40/45 modification production support and interim contractor support costs were less than the original government estimates. This is base budget funding.								
Budget Activity 06: Aircraft Spares and Repair Parts								
Initial Spares/Repair Parts		597,488		597,488		-33,212		564,276
<u>Explanation:</u> Funds are available from the following programs: <ul style="list-style-type: none"> • \$-0.365 million because automated test systems spares funds were not required because the contract cost came in lower than original estimate. This is base budget funding. • \$-0.744 million because the KC-10 CNS/ATM program has purchased all required spares. This is base budget funding. • \$-7.436 million due to an updated validation of the E-3 Airborne Warning and Control Systems (AWACS) spare requirements, which was lower than originally estimated. This is base budget funding. • \$-11.687 million due to updated initial spares requirements projections for the MQ-9, KC-135 Block 45, and P5 Combat Training Systems programs. Funding for FY 2016 spares requirements are excess to need for the MQ-9 (\$7.5 million), KC-135 (\$2.0 million), and P5 Combat Training Systems (\$2.2 million). This is base budget funding.

PART X – FY 2011 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2011 REPROGRAMMING INCREASE: **+62,700**

NAVY INCREASE: **+62,700**

Shipbuilding and Conversion, Navy, 11/20 **+62,700**

Budget Activity 02: Other Warships

Carrier Replacement Program	1,712,459	1,712,459	+62,700	1,775,159
-----------------------------	-----------	-----------	----------------	-----------

Explanation: Funds are required for the USS Gerald R. Ford (CVN 78) to correct deficiencies identified during testing as well as those changes required to ensure the safety of the ship and personnel. Specifically, funds are required for the following base budget requirements:

- \$+12.7 million for re-baselining the Advanced Weapons Elevator program to address continuing technical deficiencies
- \$+30.0 million for engineering, tooling, and repair of Main Thrust Bearings
- \$+11.0 million for emergent technical issues and correction of deficiencies identified during operational testing and extension of the Post-Shakedown Availability duration to accomplish required scope and repair of the propulsion train components
- \$+9.0 million to cover the increased cost of deferred work, labor and material.

PART X – FY 2011 GENERAL TRANSFER AUTHORITY (Section 8005)

FY 2011 REPROGRAMMING DECREASE: **-62,700**

NAVY DECREASE: **-62,700**

Shipbuilding and Conversion, Navy, 11/20 **-62,700**

Budget Activity 02: Other Warships

DDG-51	2,465,844	2,465,844	-62,700	2,403,144
--------	-----------	-----------	----------------	-----------

Explanation: Funds are available as they are excess to requirements. Both FY 2011 DDG-51 class ships (DDG 114, USS Ralph Jonson and DDG 115, USS Rafael Peralta) are delivered and commissioned and will have sufficient remaining funds to complete any deferred work or finance contract closeout costs. This is base budget funding.
