

DIVISION A – AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2022

CONGRESSIONAL DIRECTIVES

The explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 117-82 and Senate Report 117-34 carries the same weight as language included in this explanatory statement and should be complied with unless specifically addressed to the contrary in this explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate or this explanatory statement has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division A of this statement, the term 'the Committees' refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO-04-261SP Appropriations Law—Vol. I and GAO-05-734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2022, accompanying Committee reports, explanatory statements, and budget justifications.

Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, within 60 days of enactment of this Act. The agreement also directs the Food and Drug Administration (FDA), the Commodity Futures Trading Commission (CFTC), and the Farm Credit Administration (FCA) to provide an organizational chart of each agency, respectively, to the division and subdivision level, as appropriate, within 60 days of enactment of this Act.

Further, USDA, FDA and CFTC should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2023. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2023 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a monthly basis.

This agreement provides funding for Community Project Funding/Congressionally Directed Spending. The bill includes language in each account with such spending that the funding "shall be for the purposes, and in the amounts, specified for [the relevant account] in the table titled 'Community Project Funding/Congressionally Directed Spending' in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act), in accordance with applicable statutory and regulatory requirements."

The agreement fully funds the request of the Department of Agriculture for the costs of the fiscal year 2022 pay increase and its increased contributions to the Federal Employees Retirement System for the USDA agencies funded in this bill.

The agreement notes that the explanatory statement accompanying the Commerce, Justice. Science, and Related Agencies Appropriations Act, 2022 directs the Attorney General to ensure implementation of evidence-based training programs on de-escalation and the use-offorce, as well as on police community relations, and the protection of civil rights, that are broadly applicable and scalable to all Federal law enforcement agencies. The agreement further notes that several agencies funded by this Act employ Federal law enforcement officers and are Federal Law Enforcement Training Centers partner organizations. The agreement directs such agencies to consult with the Attorney General regarding the implementation of these programs for their law enforcement officers. The agreement further directs such agencies to submit a report to the Committees on Appropriations on their efforts relating to such implementation no later than 180 days after consultation with the Attorney General. In addition, the agreement directs such agencies, to the extent that they are not already participating, to consult with the Attorney General and the Director of the FBI regarding participation in the National Use-of-Force Data Collection. The agreement further directs such agencies to submit a report to the Committees on Appropriations, no later than 180 days after enactment of this Act, on their efforts to so participate.

TITLE

AGRICULTURAL PROGRAMS

PROCESSING, RESEARCH, AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$54,710, 000 for the Office of the Secretary. This includes an increase of \$1,000,000 for the Office of Partnership and Public Engagement (OPPE) for grants under the 2501 program. OPPE is directed to use not more than five percent of this sum for administrative costs.

Following the destruction of grain storage facilities during the December 2021 tornado in Western Kentucky, there is a need for temporary grain storage facilities to provide storage capacity for the 2022 harvest season. The agreement directs the Secretary to identify possible funding sources for temporary ground storage facilities that can be built at public and private inland waterway ports. The agreement further directs the Secretary to submit a report to the Committees not later than 30 days after enactment of this Act on the potential funding options.

EXECUTIVE OPERATIONS

\$54,710

Total, Office of the Secretary

OFFICE OF THE CHIEF ECONOMIST

The agreement provides \$27,199,000 for the Office of the Chief Economist.

The agreement provides \$8,000,000 for policy research under 7 U.S.C. 3155 for entities with existing institutional capacity to conduct complex economic and policy analysis and which have a lengthy and well-documented record of conducting policy analysis for the benefit of USDA, the Congressional Budget Office, or the Congress. Of the amount provided for policy research activities, \$3,000,000 is provided for the Department to focus efforts on entities that have developed models, databases, and staff necessary to conduct in-depth analyses of impacts of agriculture or rural development policy proposals on rural communities, farmers, agribusiness, taxpayers, and consumers. The Department is encouraged to fund regional and State-level baseline projections in addition to currently available national and international outlooks. The agreement also continues to provide funding for the National Drought Mitigation Center.

OFFICE OF HEARINGS AND APPEALS

The agreement provides \$16,173,000 for the Office of Hearings and Appeals.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The agreement provides \$11,337,000 for the Office of Budget and Program Analysis.

OFFICE OF THE CHIEF INFORMATION OFFICER

The agreement provides \$84,746,000 for the Office of the Chief Information Officer, of which not less than \$69,672,000 is for cybersecurity requirements of the Department.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The agreement provides \$7,118,000 for the Office of the Chief Financial Officer.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The agreement provides \$1,426,000 for the Office of the Assistant Secretary for Civil Rights.

OFFICE OF CIVIL RIGHTS

The agreement provides \$35,328,000 for the Office of Civil Rights. This includes an increase of \$6,000,000 for addressing program deficiencies identified by the Office of Inspector General.

AGRICULTURE BUILDINGS AND FACILITIES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$108,397,000 for Agriculture Buildings and Facilities. The agreement urges the Department to provide updates on the One Neighborhood Initiative and future space needs following the COVID-19 pandemic as soon as possible.

HAZARDOUS MATERIALS MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$7,540,000 for Hazardous Materials Management.

OFFICE OF SAFETY, SECURITY, AND PROTECTION

The agreement provides \$23,306,000 for the Office of Safety, Security, and Protection. The agreement does not provide funding for activities that are currently funded through other resources such as the Working Capital Fund or that have historically been funded through other means.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$106,309,000 for the Office of Inspector General.

OFFICE OF THE GENERAL COUNSEL

The agreement provides \$57,268,000 for the Office of the General Counsel.

OFFICE OF ETHICS

The agreement provides \$4,277,000 for the Office of Ethics.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION, AND ECONOMICS

The agreement provides \$3,327,000 for the Office of the Under Secretary for Research, Education, and Economics. The agreement includes \$1,000,000 to further build out the planning and management structure of AGARDA and hire staff. In addition, the agreement includes \$1,000,000 for the Secretary to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine as described in House Report 117-82.

Farmers throughout the country continue to face significant adverse impacts associated with the phase-out of methyl bromide. To address the need for soil fumigant alternatives, especially for growers of carrots, strawberries, and tree nuts, the agreement continues funding for NIFA and provides an increase of \$1,000,000 for ARS to prioritize broad spectrum research for pre-plant and pre-harvest, commercial-scale methyl bromide, metal sodium, and 1,3-dichlorppropene alternatives.

ECONOMIC RESEARCH SERVICE

The agreement provides \$87,794,000 for the Economic Research Service (ERS). The agreement includes \$1,000,000 for expanding data modeling capabilities and \$200,000 for life cycle analysis for various biobased products.

The agreement recognizes that a lack of job opportunities in some rural areas is causing more workers to commute greater distances to urban areas from rural areas, but this increased commuting does not represent an increase in access to services for rural residents. Therefore, the agreement encourages ERS to continue to coordinate its research work with the Federal Office of Rural Health Policy to identify clear, consistent, and data-driven methods for accurately defining rural areas in the United States.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The agreement provides \$190,162,000 for the National Agricultural Statistics Service (NASS), of which \$46,850,000 is for the Census of Agriculture. The agreement includes an increase of \$2,000,000 to expand the existing geospatial program and \$1,500,000 to resume the Cost of Pollination survey.

The agreement expects NASS to continue its ongoing activities at the frequency levels assumed in fiscal year 2021, including Acreage, Crop Production and Grain Stocks; Barley acreage and production estimates; the Bee and Honey Program; the Chemical Use Data Series, including the collection of Fruit Chemical Use data and Vegetable Chemical Use data in alternating years; the feed costs components surveys; the Floriculture Crops Report; and Fruit and Vegetable Reports, including in-season forecasts for non-citrus fruit and tree nut crops such as pecans.

The agreement directs NASS to continue to work with stakeholders to better understand how to capture supplemental information for certain crops to help offset data losses from the discontinuation of agricultural statistics district level estimates.

AGRICULTURAL RESEARCH SERVICE SALARIES AND EXPENSES

The agreement provides \$1,633,496,000 for the Agricultural Research Service (ARS), Salaries and Expenses.

The agreement expects extramural and intramural research to be funded at no less than the fiscal year 2021 levels. The agreement provides funding increases for Activated Foods; AgTech Cooperative Agreements; Alternative Protein Research; Ancient Crops; Animal Health

and Agro/Bio Defense Program; Appalachian Natural Products Research; Applied Epidemiological Research; BARD; Barley Pest Initiative; Bec Genomic Sequencing; Bovine Pleuropneumonia; Chronic Wasting Disease; Climate Hubs; Coffee Germplasm; Coffee Leaf Rust; Cotton Blue Disease; Cotton Seed Bug; Cover Crops and Cereal Grain Variety; Cover Crops Research and Outreach; Cranberry Research; Crop Production Systems; Dairy Forage Research; East Coast Shellfish Breeding; Fertilizer Innovation Research; Genetic Oat Research; Genetic Resistance; Grape Genetics; Healthy Soils Initiative; Hemp Genomics; Herbicide Resistance Research; High Performance Computing; Histomonas Research; Human Nutrition; Improving Poultry Agricultural Fields; Integrated Plant and Animal Production Systems; Little Cherry Discase; Livestock Genetic Research; Methyl Bromide; Missouri River Basin; Mycotoxin Food Safety; National Bio- and Agro Defense Facility; Peanut Research; Pecan Genetic Research; Pecan Processing Research; Pollinator Recovery, Education, and Research; Poultry Research; Precision Aquaculture; Pulse Crop Quality; Pulse Health Initiative; Rangeland Research; Reduce Mixed Infections in Warm Water Aquaculture; Regenerative and Precision Agriculture for Orchards; Repair and Maintenance; Small Fruits Research; Sorghum Genetic Database; Strawberry Production Research; Sugar Beet Research; Sugarcane Variety; Sustainable Aquaculture; Sustainable and Advanced Technology Systems for Poultry Processing: Tropical Grazing Land Pest Management; Whitefly; and Wildfire Smoke Taint.

The highly perishable and labor-intensive nature of strawberry production makes it an ideal test bed for innovative automation technologies. The agreement provides \$500,000 to utilize innovative automation technologies to enhance strawberry production using vertical farming.

BUILDINGS AND FACILITIES

The agreement provides \$127,805,000 for ARS Buildings and Facilities.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE RESEARCH AND EDUCATION ACTIVITIES

The agreement provides \$1,046,244,000 for the National Institute of Food and Agriculture (NIFA), Research and Education Activities.

With the innovations and advancements in organic and grass-fed dairy research, the agreement encourages NIFA to consider research projects that lead to innovation in infant nutritional organic and grass-fed dairy products.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,110,218,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses.

The agreement provides a net increase of \$46,039,000 for high priority initiatives in order to protect the plant and animal resources of the Nation from pests and diseases. Within the increase total, the agreement includes the following: \$3,000,000 for the Equine, Cervid, and Small Ruminant Health program to help address chronic wasting disease; \$2,000,000 for Cattle Health to combat the cattle fever tick; \$4,000,000 for Veterinary Diagnostics to continue the transition and carry out programs at the National Bio and Agro-defense Facility; \$500,000 for Zoonotic Disease Management to combat antimicrobial resistance; \$1,000,000 for the Cotton Pests program to continue eradication efforts against the cotton boll weevil; \$2,500,000 for Specialty Crop Pests for the control and eventual eradication of the spotted lanternfly (\$1,000,000), European cherry fruit fly (\$1,000,000), and apple snails [Pomaceae maculate]

(\$500,000); \$3,170,000 for Wildlife Damage Management to reduce blackbird depredation in the Northern Great Plains (\$250,000), to assist producers in combatting the persistent threat and economic hardship caused by cormorants, pelicans, and other birds (\$500,000), to develop best management practices for body gripping traps where current use increases the risk of non-target capture (\$300,000), to continue feral swine eradication efforts (\$1,000,000), and to hire personnel to implement non-lethal livestock-predator conflict deterrence techniques (\$1,120,000); \$2,000,000 for Wildlife Services Methods Development for chronic wasting disease work at the National Wildlife Research Center; \$250,000 to Emergency Preparedness and Response for the AgDiscovery Program; \$2,000,000 for the Safe Trade and International Technical Assistance program to support the implementation of the Lacey Act (\$1,000,000) and to strengthen APHIS' oversight of imported dogs (\$1,000,000); \$1,000,000 for the Horse Protection Program. In addition, the agreement includes \$8,500,000 in this account for Huanglongbing Multi-Agency Coordination (HLB-MAC) projects and maintains the Emergency Support Function #11 (ESF #11) within APHIS.

The agreement provides no less than \$14,000,000 for cervid health activities, of which \$10,000,000 shall be for APHIS to allocate funds directly to State departments of wildlife, State departments of agriculture, and Native American Tribes to further develop and implement chronic wasting disease (CWD) surveillance, testing, management, and response activities. In allocating these funds, APHIS shall give priority to States that have experienced a recent incident of CWD, have a CWD monitoring and surveillance program, and have a diagnostic laboratory system certified for CWD testing. Within the remaining \$4,000,000 provided, APHIS should give consideration to indemnity payments if warranted. In addition, the agreement provides an increase of \$2,000,000 for Wildlife Services Methods Development for CWD work at the National Wildlife Research Center, and directs APHIS to continue working with University collaborators to provide research support to the overall effort to detect, combat, and control CWD.

The Committees are pleased that APHIS has confirmed that it has stopped the use of teachable moments and directs it to continue to do so and to ensure that all inspectors' findings are documented in inspection reports.

However, the Committees are concerned about the ongoing mis-management of APHIS's Animal Care program. News reports have repeatedly documented long and inexplicable delays

by APHIS in acting against blatant violations of the Animal Welfare Act that resulted in the illness and death of many animals under APHIS's jurisdiction.

The Committees intend to monitor APHIS's compliance with the directives adopted in this statement and in the House and Senate reports, as well as its fulfillment of its statutory and regulatory responsibilities with respect to animals.

The agreement provides \$1,077,000 for the Office of the Under Secretary for Food Safety.

FOOD SAFETY AND INSPECTION SERVICE

The agreement provides \$1,108,664,000 for the Food Safety and Inspection Service.

This amount includes an increase of \$5,000,000 for information technology modernization; \$2,800,000 to address the persistently high levels of public health veterinarian vacancies; and \$5,000,000 to continue the reduced user fees for small and very small establishments as established by the American Rescue Plan Act of 2021. The Act also includes \$1,000,000 for the inspection of wild caught invasive species in the order siluriformes and family Ictaluridae, including blue catfish in the Chesapeake Bay. In addition, \$12,525,000 is provided in Title VII of the Act for costs associated with the Goodfellow move.

TITLE II

FARM PRODUCTION AND CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FARM PRODUCTION AND CONSERVATION

The agreement provides \$1,687,000 for the Office of the Under Secretary for Farm Production and Conservation.

The agreement notes that the Extending Government Funding and Delivering Emergency Assistance Act (Public Law 117-42) provided \$10,000,000,000 for disaster assistance to aid producers who suffered losses due to droughts, hurricanes, wildfires, floods and other qualifying disasters in calendar years 2020 and 2021. The funding included \$750,000,000 for livestock producers for losses incurred during 2021 due to drought or wildfire. The agreement remains concerned about the impacts of these natural disasters and directs the Department to expeditiously distribute the assistance to help our producers and ranchers recover and maintain their operations.

FARM PRODUCTION AND CONSERVATION BUSINESS CENTER SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$238,177,000 for the Farm Production and Conservation (FPAC) Business Center. In addition, \$60,228,000 is transferred from the Commodity Credit Corporation.

FARM SERVICE AGENCY SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,173,070,000 for Farm Service Agency (FSA), Salaries and Expenses, and includes funding for partnerships and cooperative agreements to conduct better outreach and program access, and for temporary staff. The agreement expects FSA to fund the Urban Agriculture Initiative.

The agreement remains concerned by the foreign purchase of American agricultural land and the potential detrimental impacts such ownership could have. The agreement also recognizes the threats to food security and rural economies posed by higher rates of agricultural land purchased by non-farming entities, including private equity firms and foreign-owned corporations, due to an aging farmer population and decreasing number of individuals entering into farming and ranching. Within 180 days of enactment of this Act, the agreement directs USDA to submit a report regarding data on foreign-owned agricultural land trends including land owned, or partially owned, by the governments of China, Russia, Iran, or North Korea over the

past decade and projections for the next decade based off of previous trends, and the potential impacts on the American agricultural sector, food security, and rural economies. In addition, USDA is directed to submit to the Committees on Appropriations and Committees on Agriculture in the House and Senate the annual report completed in December on "Foreign Holdings of U.S. Agricultural Lands."

GRASSROOTS SOURCE WATER PROTECTION PROGRAM

The agreement provides \$6,500,000 for the Grassroots Source Water Protection Program.

DAIRY INDEMNITY PROGRAM

(INCLUDING TRANSFER OF FUNDS)

The agreement provides such sums as may be necessary for the Dairy Indemnity Program.

The agreement is aware that some dairy farms are unable to sell their milk as a result of contamination from a family of synthetic chemicals, collectively known as "PFAS" chemicals. The agreement notes USDA updated the Dairy Indemnity Payment Program (DIPP) to provide additional options to dairy producers impacted by PFAS contamination, and looks forward to continuing to work with USDA, other state and Federal partners, and producers to mitigate the impacts of PFAS.

GEOGRAPHICALLY DISADVANTAGED FARMERS AND RANCHERS

The agreement provides \$3,000,000 for the Reimbursement Transportation Cost Payment Program for Geographically Disadvantaged Farmers and Ranchers.

AGRICULTURAL CREDIT INSURANCE FUND PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)

DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

The agreement provides \$536,387,000 for the Distance Learning, Telemedicine, and Broadband Program. The Act provides \$3,000,000 to address critical healthcare needs, as authorized by section 379G of the Consolidated Farm and Rural Development Act. The agreement also provides \$2,272,000 for the broadband deployment programs authorized in the Agriculture Improvement Act of 2018. Within that amount, \$500,000 is provided for the Middle Mile program. The agreement directs the Department to provide the Committees with the subsidy rate and the regulatory process required for this new program within 60 days of enactment of this Act.

The agreement provides \$486,605,000 for the ReConnect pilot, which was established in the Consolidated Appropriations Act, 2018 (Public Law 115–141). This includes \$50,000,000 from the Cushion of Credit account. The agreement notes that the Infrastructure Investment and Jobs Act (IIJA) provided an additional \$2,000,000,000 for the ReConnect program, and the agreement directs the Department to announce funding availability in a timely manner and with

multiple rounds to continue to improve the program administration based on stakeholder feedback. The agreement is concerned that the most recent funding announcement dictates build out speeds that are not technology neutral and could inflate deployment and consumer access costs. Therefore, the Act sets the build out speeds to ensure that all broadband technologies have equal access to the program. In addition, the agreement encourages the Secretary to eliminate or revise the awarding of extra points under the ReConnect program to applicants from States without restrictions on broadband delivery by utilities service providers in order to ensure this criterion is not a determining factor for funding awards. The agreement encourages Rural Development to work to expeditiously disburse ReConnect funds once grants and loans are awarded. Additionally, the agreement encourages the Department to examine, and appropriately adjust and lower the collateral requirements within ReConnect Loan Agreements, Grant Agreements, or Loan/Grant Agreements to ensure greater Program access. The agreement encourages the Department to continue to update the program and review process to make ReConnect more efficient, including collaborating with the Rural Electric Division to ensure that all utilities and broadband technologies are treated equally in the application process. The agreement directs the Secretary to allow entities of any structure, including partnerships and infrastructure applications, to apply provided sufficient assurances are given that broadband service will be provided to the subject area through contractual arrangements. In addition, the agreement reminds USDA to avoid efforts that could duplicate existing networks built by private investment or those built leveraging and utilizing other Federal programs and to continue to coordinate with the National Telecommunications Information Administration and the Federal Communications Commission in a transparent manner to ensure wherever possible that any funding provided to support deployment of last-mile broadband infrastructure is targeted to areas that are currently unserved. In any areas, study areas, or census blocks outside an area where a Tribal government has jurisdiction, and where a provider is already subject to a buildout obligation of 25/3 Mbps or greater for fixed terrestrial broadband pursuant to a commitment to another government entity, RUS Telecommunications Program should take that funding into account to prevent the duplication of services financed by Federal support. Entities subject to such existing commitment applying for ReConnect funds to bring service offerings to the ReConnect build-to speed should be given a scoring preference by RUS. This shall include areas pending FCC final approval of an award of High-Cost USF funds for two years after the

applicable Long Form application deadline. Further, the agreement encourages the agency to prioritize projects financed through public-private partnerships and projects where Federal funding will not exceed 50 percent of the project's total cost. The agreement also supports efforts to increase transparency and encourages the Secretary to follow the notice and comment rulemaking procedures of the Administrative Procedure Act (Public Law 79–404) with respect to all program administration and activities, including publishing a written decision on RUS' website of how challenges were decided and the agency's reasons for such decision. In addition, the agreement encourages the Department to hold listening sessions prior to announcing the next round of funding availability and to address comments made during those sessions in the funding announcement to increase transparency. Finally, the agreement is concerned that states and territories outside the contiguous United States are having difficulty participating with the USDA broadband programs, and encourages the Secretary to consider grants or loans for satellite, or other technologies, if such middle mile infrastructure predominantly serves a "rural area" as defined in section 601(b) and do not lead to overbuilding.

The following table indicates loan levels provided by the agreement:

(Dollars in Thousands)

Subsidy and grants:	
Distance learning and telemedicine grants	\$60,000
DLT Congressionally Directed Spending	2,510
Broadband ReConnect Loans and Grants	400,000

TITLE IV

DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION, AND CONSUMER SERVICES

The agreement provides \$1,327,000 for the Office of the Under Secretary for Food, Nutrition, and Consumer Services.

The agreement recognizes all Federal feeding programs should be accessible to those with culturally or religiously sensitive diets, including kosher and halal. The agreement urges the Secretary to seek input from Jewish and Muslim community leaders on this issue, and requests a

report within 120 days from the enactment of this Act on how to overcome the challenges of incorporating kosher and halal food into The Emergency Food Assistance Program, the National School Lunch Program, and the School Breakfast Program.

FOOD AND NUTRITION SERVICE

CHILD NUTRITION PROGRAMS

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$26,883,922,000 for Child Nutrition Programs.

The agreement recognizes the value of the Farm to School program and is interested in ensuring the program becomes scalable and replicable across states. Of the grant funds provided, the agreement directs the Secretary to use \$500,000 for cooperative agreements to support the continued expansion of Farm to School Institutes throughout the country for the purposes of connecting schools with local farmers and ranchers and providing training and technical assistance.

The agreement understands that Summer Electronic Benefit Transfer (EBT) has proven to lower food insecurity among children during the summer months when school is not in session. The agreement provides an increase of \$3,000,000 and encourages the Department to expand the program.

The agreement provides the following for Child Nutrition Programs:

Total Obligational Authority (Dollars in Thousands)

School lunch program	\$14,665,855
School breakfast program	5,188,750
Child and adult care food program	4,314,605
Summer food service program	581,074
Special milk program	6,250
State administrative expenses	332,000

Summer EBT demonstration	45,000
Child Nutrition Training	2,000
Farm to School Grants	12,000

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

For the Special Supplemental Nutrition Program for Women, Infants, and Children, the agreement provides \$6,000,000,000, which fully funds expected participation in fiscal year 2022. The agreement includes \$90,000,000 for the breastfeeding peer counselor program and \$14,000,000 for infrastructure.

The work of the National Academies of Science (NAS) to review and make recommendations for updating the WIC food packages to reflect current science and cultural factors is recognized. The agreement notes, however, that while all revised packages now allow some fish, the amounts remain low compared to the recommendations of other authoritative health agencies. The agreement strongly encourages the Department to consider the health and cultural benefits of fish consumption as the NAS recommendations are reviewed and used to inform the Department's next course of action. The agreement also strongly encourages the Department to continue to allow states to submit cultural food package proposals to respond to the cultural preferences of WIC participants in states like Alaska.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The agreement provides \$140,440,868,000 for the Supplemental Nutrition Assistance Program (SNAP).

The agreement supports the implementation of the National Accuracy Clearinghouse (NAC), as written in the Agriculture Improvement Act of 2018. The Department is directed to move expeditiously in its implementation, as it is months behind in initial matches, so as to prevent duplicative issuances of SNAP benefits and uphold program accountability. When the USDA implements the NAC, the agreement urges the Department to allow States to use a blended workforce including contractors and subcontractors who have the capability to use complex match technology with multiple data elements and administer an appeals process, ensuring households are not automatically removed from receiving benefits.

The Department is reminded that SNAP funding is not to be used in contravention of section 107(b) of Division A of the Victims of Trafficking and Violence Protection Act of 2000.

The agreement provides the following for SNAP:

Total Obligational Authority (Dollars in Thousands)

Benefits	\$127,379,769

FOOD FOR PEACE TITLE II GRANTS

The agreement provides \$1,740,000,000 for Food for Peace Title II Grants.

McGovern-Dole international food for education and child nutrition program grants

The agreement provides \$237,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program.

COMMODITY CREDIT CORPORATION EXPORT (LOANS)

CREDIT GUARANTEE PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$6,063,000 for the Commodity Credit Corporation Export (Loans) Credit Guarantee Program Account.

TITLE VI

RELATED AGENCIES AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES

FOOD AND DRUG ADMINISTRATION

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$3,304,145,000 in discretionary budget authority and \$2,791,737,000 in definite user fees for a total of \$6,095,882,000 for Food and Drug Administration (FDA), Salaries and Expenses. This total does not include permanent, indefinite user fees for: the Mammography Quality Standards Act; Color Certification; Export Certification; Priority Review Vouchers Pediatric Disease; Food and Feed Recall; Food Reinspection; Voluntary Qualified Importer Program; the Third Party Auditor Program; Outsourcing Facility; and Over-the-Counter Monograph.

The agreement expects FDA to continue all programs, projects, activities, and laboratories, as included in fiscal year 2021 unless otherwise specified, and maintains the

\$1,500,000 transfer to the Health and Human Services' Inspector General for its audit and oversight work involving FDA.

The agreement provides a net increase of \$102,217,000, of which \$29,000,000 is for medical product safety, \$29,500,000 is for food safety activities, \$41,300,000 is for cross cutting initiatives supporting both medical and food safety, and \$2,417,000 is for infrastructure investments.

Within the increases provided for medical product safety, the agreement includes \$5,000,000 for Device Shortages and Supply Chain; \$1,500,000 for CVM Medical Product Supply Chain; \$8,000,000 for Advancing the Goal of Ending the Opioid Crisis; \$3,000,000 for the Predictive Toxicology Roadmap; \$1,000,000 for the Data Modernization and Enhanced Technology Initiative; \$5,000,000 for Foreign Unannounced Human Drug Inspection Pilots; \$1,000,000 for Rare Cancer Therapeutics; \$2,500,000 for the Orphan Products Grants Program; \$1,500,000 for Rare Diseases; and \$500,000 for BioFilm Regulatory Research.

The agreement strongly supports the Center for Devices and Radiological Health's (CDRH) initiative to establish a permanent program for U.S. supply chain resilience for medical devices. The agreement includes \$5,000,000 for CDRH to begin these efforts. The agreement looks forward to understanding how additional resources in the future will strengthen these efforts.

Physical inspections, especially when unannounced, arc one of FDA's most important tools to ensure drug safety and quality. While COVID—19 understandably delayed many routine inspections abroad, the Committees are concerned that FDA may not prioritize physical inspections as highly as other regulatory review methods. The agreement notes that the intent of funds provided in the fiscal year 2021 bill were to increase unannounced inspections and not to assess the value of unannounced inspections or compare them to pre-announced inspections. The agreement includes an additional \$5,000,000 above the fiscal year 2021 level solely to increase unannounced inspections and directs FDA to immediately begin to hire additional foreign office-based investigators to increase short notice and unannounced foreign facility inspections in India.

Within the increases provided for food safety activities, the agreement provides \$11,000,000 for Maternal and Infant Health and Nutrition; \$7,000,000 for Emerging Chemical and Toxicology Issues; \$9,000,000 for New Era of Smarter Food Safety; \$1,000,000 for Animal Feed Reviews; and \$1,500,000 for Standards of Identity.

Within the increases for Crosscutting, agency-wide support initiatives, the agreement provides \$17,900,000 for Pay Costs; \$3,000,000 for Data Modernization and Enhanced Technologies; \$10,000,000 for Inspections; \$4,700,000 for the Office of Minority Health and Health Equity; \$1,500,000 for the Office of Laboratory Safety; \$2,200,000 for the Office of the Chief Counsel; and \$2,000,000 for Essential Services.

The agreement provides specific amounts by Food and Drug Administration activity as reflected in the following table:

As FDA prepares the report directed in House Report 117-82 on the agency's acceptance of alternatives to animal tests, FDA is also directed to include a review, in consultation with interagency partners at the Departments of Agriculture, Defense, Homeland Security, and Health and Human Services, of the potential impact and role of animal testing to security countermeasures development and deployment.

The agreement directs FDA to provide a briefing on the regulation of advertising and sales of boric acid suppositories. FDA shall include within the briefing an update on any changes to the regulatory status of any related products as necessary.

The agreement expects further progress on regulatory pathways for cannabis-derived products that contain cannabidiol. Additionally, the agreement maintains at least the fiscal year 2021 funding level for cannabidiol related oversight and enforcement.

As previously noted, the agreement provides funds to further develop and advance strategies to confront the opioid crisis through the agency's priority areas, including additional funding for International Mailing Facilities.

The agreement is encouraged by the work the FDA has put forth in developing a comprehensive food traceability system, and recognizes the substantial technological, logistical, and resource demands underlying this goal. Therefore, the agreement encourages the FDA to work with stakeholders and evaluate currently available and emerging technologies, barriers to and opportunities for their widespread adoption, and to utilize pilots, studies, and technology development competitions to further explore expediting traceability while leveraging, wherever possible, existing supply chain systems and processes while minimizing the burden of new systems on the supply chain. In addition, the FDA is encouraged to harmonize the traceability rule on existing traceability strategies the food supply chain has developed to simply and

effectively track and trace food. Specific to the data elements that would be required, the agreement urges the FDA to clearly define traceability requirements that, where possible, align with existing consensus standards for traceability already commonly used by many in the industry.

The agreement is concerned about dietary supplement products that are adulterated or misbranded, in particular with imported products. The agreement provides an increase of \$2,000,000 to be used for inspections as well as enforcement of the Dietary Supplement Health and Education Act of 1994 (Public Law 103-417).

The agreement is concerned that very few products in recent years have switched from prescription drugs to nonprescription drugs. The agreement expects the FDA to meet the goals of Fall 2021 Unified Agenda and publish (and subsequently finalize) the proposed rule titled "Nonprescription Drug Product with an Additional Condition for Nonprescription Use" given the resources and authorities provided by Congress.

BUILDINGS AND FACILITIES

The agreement provides \$12,788,000 for Buildings and Facilities.

FDA INNOVATION ACCOUNT, CURES ACT (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$50,000,000 for FDA as authorized in the 21st Century Cures Act.

INDEPENDENT AGENCIES

COMMODITY FUTURES TRADING COMMISSION

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$382,000,000 for the Commodity Futures Trading Commission.

Within 180 days of enactment of this Act, the CFTC is directed to issue a public report on factors affecting the aluminum commodities market.

In lieu of the direction contained in House Report 117-82, CFTC is directed to brief the Committees on the agency's priority initiatives to fulfill its mission and address emerging issues as the derivatives markets continue to evolve.

FARM CREDIT ADMINISTRATION LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation of \$84,200,000 on administrative expenses of the Farm Credit Administration.
