

DIVISION G – DEPARTMENT OF THE INTERIOR, ENVIRONMENT,
AND RELATED AGENCIES APPROPRIATIONS ACT, 2022

The following statement is an explanation of the effects of Division G, which provides appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2022.

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 117-83 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House report or this joint explanatory statement direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this joint explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

Each department and agency funded in this Act is directed to follow the directions set forth in this Act and the accompanying statement and to not reallocate resources or reorganize activities except as provided herein or otherwise approved by the House and Senate Appropriations Committees through the reprogramming process as referenced in this Act. This joint explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2021 enacted level and the fiscal year 2022 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

Continued Directives.—The Committees continue the directives in the explanatory statement accompanying Public Law 116-94 regarding Everglades Restoration and Domestic Production of Critical Minerals. Directives regarding Transparency of Information Regarding Grants, Agreements, Research, and Conferences Attendance in the explanatory statement accompanying Public Law 116-260 are also continued.

Deferred Maintenance.—The Department of the Interior and the Forest Service are directed to maintain updated 5-year deferred maintenance plans that, to the extent practicable, include a list of all outstanding deferred maintenance needs, and to provide them to the Committees on a quarterly basis.

Disaster Recovery Needs.—The Committees direct the Department of the Interior and the other agencies funded in this bill to establish quarterly reporting requirements for their component bureaus, regions, offices, and programs, as appropriate, to maintain up-to-date comprehensive information for supplemental funding needs related to disaster recovery.

Federal Lands Recreation Enhancement Act.—The Department of the Interior and the Forest Service are directed to annually post on a centralized agency website the list of Federal Lands Recreation Enhancement Act (FLREA) (Public Law 108–447) projects and activities performed in each fiscal year, which should include a project or activity title, description, location, and amount obligated. Each land management agency that is unable to complete this directive shall submit a report to the Committees within 90 days of enactment of this Act detailing the specific steps the agency plans to take to secure the capabilities needed to provide proper transparency on the spending of FLREA funds.

Federal Law Enforcement.—The agreement notes that the explanatory statement accompanying the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2022 directs the Attorney General to ensure implementation of evidence-based training programs on de-escalation and the use-of-force, as well as on police community relations, and the protection of civil rights, that are broadly applicable and scalable to all Federal law enforcement agencies. The agreement further notes that several agencies funded by this Act employ Federal law enforcement officers and are Federal Law Enforcement Training Centers partner organizations. The agreement directs such agencies to consult with the Attorney General regarding the implementation of these programs for their law enforcement officers. The agreement further directs such agencies to submit a report to the Committees on Appropriations on their efforts relating to such implementation no later than 180 days after consultation with the Attorney General. In addition, the agreement directs such agencies, to the extent that they are not already participating, to consult with the Attorney General and the Director of the FBI regarding participation in the National Use-of-Force Data Collection. The agreement further directs such agencies to submit a report to the Committees on Appropriations, no later than 180 days after enactment of this Act, on their efforts to so participate.

Firefighting Aviation Contracts.—In light of the receipt of the report directed in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116–260), the Forest Service and the Department of the Interior are urged to continue working with relevant stakeholders to evaluate ways to address impediments on the use of long-term contracts and other contracting strategies or approaches for wildland fire suppression activities.

Great American Outdoors Act.—At the end of this explanatory statement, the Committees have included allocation of projects pursuant to the Great American Outdoors Act (Public Law 116-152).

Mitigation Activities from Border Barrier Construction.—The agreement does not include direction requiring a report on the impacts of border barrier construction.

Training, Hiring, and Public Lands Education in Alaska.—The directive in Public Law 116-94 regarding conducting annual Alaska National Interest Lands Conservation Act training by the Department of the Interior and the Forest Service is continued. The Committees also recognize the importance of Alaska Public Land Information Centers as partners and tools to educate the public regarding Alaska's unique public lands and encourages the agencies to look for opportunities to strengthen these critical partnerships.

Tribal Lease Payments.—The Committees are aware of recent litigation in Federal courts regarding what constitutes reasonable lease costs under the 105(l) program. As part of the consultation required by language in Title IV of this Act, the Indian Health Service and the Department of the Interior are expected to consult with Tribes and Tribal organizations regarding agency regulations and policies that determine the amount of space and other standards necessary to carry out Federal programs under a section 105(l) lease, and to ensure that such regulations and policies are consistent, transparent, and clearly communicated to affected Tribes. The Service and the Department are expected to periodically update the Committees on the status of the consultation.

Wild Horses and Burros.—The Wild Free-Roaming Horses and Burros Act of 1971 conferred primary responsibility for wild horses across the rangelands of the American West to the Bureau of Land Management (BLM). However, given the challenges posed by rising horse populations coupled with degraded range, climate change, and invasive species, the consequences of inaction will have a cascading impact on all plants, animals, and people that share these lands and finite resources. This is a national crisis on our public lands and requires the expertise and resources of various bureaus and agencies; BLM should not shoulder the responsibility alone. To address this urgent problem, the Secretary of the Interior is directed to establish a task force with representation from the Bureau of Land Management, U.S. Fish and Wildlife Service, U.S. Geological Survey, and any other Bureau the Secretary deems appropriate. In subsequent years, task force membership will be expanded to include representatives of the U.S. Department of Agriculture and other agencies with essential skills and expertise. Any strategy or recommendation of the task force will not include any sale or actions that result in the destruction of healthy animals, which continues to be prohibited by this bill and should be in line with the goals and strategies of the Bureau of Land Management's May 2020 report to Congress on achieving a sustainable program through aggressive, non-lethal population control strategy (May 2020 report). The Secretary is to report to the Committees within 90 days of enactment of this Act on the establishment of this task force and a proposed meeting schedule. The Bureau of Land Management is to report to the Committees on a quarterly basis on the status of this program, staffing updates, and the work of the task force.

LAND AND WATER CONSERVATION FUND

With the August 4, 2020, enactment of the Great American Outdoors Act (Public Law 116-152), Congress provided a permanent appropriation of \$900,000,000 per year from the Land and Water Conservation Fund (LWCF). The Act also mandated that account allocations and detailed project information be proposed by the administration each year through the President's annual budget submission, and that such allocations, following review by the Committees on Appropriations, may be modified through an alternate allocation. A detailed table showing the LWCF allocation by agency, account, activity, and project, including lists of specific Federal land acquisition projects and Forest Legacy Program projects, including congressionally directed spending, accompanies this explanatory statement. The agencies are expected to continue to follow the directions included in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) under General Implementation, except that no funds are provided for acquisition contingencies. Specific additional directions follow.

Fish and Wildlife Service.—The Service is expected to provide outreach to all units of the National Wildlife Refuge System, including Clarks, McKinney, Ottawa, Loxahatchee, and Edwards, to ensure these refuges are aware of all funding opportunities available. There is an accumulating backlog of parcels available at Clarks River National Wildlife Refuge and the Service is strongly encouraged to begin the proper due diligence work in order for the refuge to access available funding opportunities. The newly-established Green River National Wildlife Refuge is eligible for funding under the recreational access and inholding lines and the Service is encouraged to use these additional funding tools at Green River, as it does for other refuge units. The Service is also encouraged to consider habitat conservation plan land acquisition applications that enhance efforts to establish State research forests through the Cooperative Endangered Species Conservation Fund. Further, the Service should utilize available funding from the recreational access and inholding/emergencies and hardships lines to account for any additional project cost need as identified on the fiscal year 2022 ranked project list.

National Park Service.—The Service is directed to report to the Committees within 90 days of enactment of this Act on a strategy for obligating balances in the State Conservation Grant formula and competitive programs from fiscal year 2018 and prior years that are not associated with any particular State's allocation. The Service is further directed to submit a report within 180 days of enactment of this Act detailing the recommendations developed by a working group of interested stakeholders to assist States in managing their obligations and compliance responsibilities related to LWCF, as addressed in Senate Report 116-123.

The Service requested and received approval to reprogram Acquisition funds in fiscal year 2021 which adjusted projects on the fiscal year 2022 agency priority list. The Service is encouraged to use the non-project subactivity lines as appropriate to complete any additional projects associated with the reprogramming and subsequent adjustments, including acquisitions at Harpers Ferry, Petroglyph, Congaree, and Sleeping Bear Dunes. The Ste. Genevieve National Historical Park was designated as a new park unit in October 2020 and the Service is encouraged to provide outreach to the community so that interested stakeholders are aware of available acquisition funding opportunities.

Forest Legacy Program.—The Forest Service is directed to use a portion of unobligated balances from fiscal year 2018 and prior years as needed to complete all of the projects listed in the table accompanying this explanatory statement. Use of additional unobligated balances may be proposed in accordance with the Committees' established reprogramming guidelines for projects included in the supplemental list submitted to the Committees pursuant to Public Law 116-220 but not specifically listed in the table.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—“Reprogramming,” as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

Agencies are reminded that this agreement continues longstanding General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees' review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations, workforce restructure, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of \$5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than \$1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of the National Park System Account. The Service is required to brief the House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—“Assessment” as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91-646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

TITLE I – DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
MANAGEMENT OF LANDS AND RESOURCES

Management of Lands and Resources (MLR).—The bill provides \$1,281,940,000 for the Management of Lands and Resources appropriation. All programs and activities are funded at the amounts enacted in fiscal year 2021 unless otherwise specified below or in the table at the end of this division. Fixed costs are provided. The Bureau is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83 unless otherwise specified below. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

Wild Horse and Burro Program.—The bill provides \$137,093,000 for the Wild Horse and Burro program, of which up to \$11,000,000 shall be used for administration of and research on reversible immunocontraceptive fertility control. This agreement continues support for the Bureau's May 2020 report on achieving a sustainable program through an aggressive, non-lethal population control strategy and emphasizes the need for adequate staffing to execute the program. The Bureau is expected to continue and expand efforts in line with the May 2020 report. Along with the directives in House Report 117-83, this includes increased gathers which will also help implement the vaccine strategy, improving on-range

removal capacity, and securing a greater number of less costly and longer-term off-range holding facilities and pastures. The Bureau is strongly encouraged to leverage funding through public-private partnerships with the help of the Foundation for America's Public Lands. The Bureau shall continue to abide by the Comprehensive Animal Welfare Program and the statutory restrictions on sale without restriction. Direction for a Wild Horse and Burro Task Force and regular and timely briefings are outlined in the beginning of this division and in the Office of the Secretary.

Wildlife Habitat Management.—The agreement provides \$140,747,000 which includes \$10,600,000 for Plant Conservation and Restoration, \$70,000,000 for sage-grouse habitat, and \$31,000,000 for Threatened and Endangered Species. The Bureau is encouraged to ramp up its use of reporting tools to gain a better understanding of completed recovery efforts and to provide annual species expenditure reporting information to the U.S. Fish and Wildlife Service.

Recreation Management.—The agreement provides \$78,928,000 which includes \$3,097,000 for National Wild and Scenic Rivers and \$6,547,000 for National Scenic and Historic Trails.

Energy and Minerals.—The agreement provides \$216,535,000.

Legacy Wells.—The agreement provides no less than \$22,100,000 for legacy well remediation to maintain program capacity and continue progress toward cleanup of the next cluster of legacy wells in need of remediation. The report, "National Petroleum Reserve in Alaska: 2020 Legacy Wells Strategic Plan," is appreciated, as is the Bureau's continued commitment to coordinate with State and local regulators.

Locatable Minerals.—Any Bureau review of regulations on mineral production should include regulations governing locatable mineral activities.

Oil and Gas Management.—The Bureau is directed to brief the Committees on the Department's review of the onshore oil and gas leasing program and any planned actions as a result of it within 120 days of enactment of this Act. Further, the Bureau is directed to increase staffing and resources necessary to support improvements to the oil and gas program.

Renewable Energy.—The agreement directs the Bureau to brief the Committees within 90 days of enactment of this Act on any planned rulemakings and how those interact with or support the directives contained in Public Law 116-260 on renewable energy and the competitive leasing rule.

Resource Protection and Maintenance.—The agreement provides \$136,140,000 which includes \$3,343,000 for abandoned mine land sites.

Transportation and Facilities Maintenance.—The agreement provides \$79,035,000 which includes \$100,000 for fleet related infrastructure.

Workforce and Organizational Support.—The agreement provides \$165,875,000 which includes \$400,000 for Diversity, Equity, Inclusion and Accessibility.

National Landscape Conservation System.—The agreement provides \$49,274,000 and expects that this increase will create capacity to initiate or revise management plans for monuments such as Cascade-Siskiyou National Monument, Rio Grande del Norte National Monument, and address other high priority areas.

Other Directives.—

Budget Structure.—The Bureau should consider a budget restructure to include a dedicated trails budget line item or to include congressionally-designated rivers and trails as component subactivities within the National Landscape Conservation System.

Bicycle Accessible Trails.—The Bureau is encouraged to identify and complete more plans to enhance bicycle opportunities on BLM trails in locations where those uses are appropriate and conducted in accordance with the applicable land management plan, particularly in states such as New Mexico, Colorado, and Nevada.

Bonneville Salt Flats.—The Bureau and the State of Utah have a shared interest in the long-term sustainability of the Bonneville Salt Flats and entered into a memorandum of understanding in April 2020 to improve coordination of planning and management for the area. The Bureau is directed to brief the Committees within 45 days of enactment of this Act on the progress in this effort, including what financial support the Bureau either has or intends to provide and the elements of the Bureau's restoration strategy.

Circumpolar Wildland Fire.—The Bureau is directed to collaborate with the Arctic Council to promote international cooperation and sharing of knowledge, resources, and training across the Arctic region to respond to increased wildland fire activity due to climate change.

Coos Bay Wagon Road Lands.—The agreement expects the Bureau to fully cooperate with the appraisal committee to determine whether the county payments are being made in accordance with the Coos Bay Wagon Road Act (Public Law 76–85). The land should be appraised in a manner that reflects the differences in how Coos Bay Wagon Road Grant lands are managed compared to private lands of similar character, including restrictions on timber activities. Sudden Oak Death treatments are to continue at current levels.

National Trails.—In coordination with its trail partners, the Bureau is directed to update exhibits at its trail interpretive centers to reflect these themes and provide a project list within 120 days of enactment of this Act. Funding for the Pacific Crest National Scenic Trail and Iditarod National Historic Trail should be maintained at not less than the enacted level. The agreement supports the concept of the proposed "Alaska Long Trail," which will interconnect Alaska communities from Seward to Fairbanks, providing direct economic benefit and expanded recreational access and expects the Bureau to offer material support as the effort takes shape.

Public Lands Policy.—Within available funds, the agreement supports efforts by the Bureau to work with a land grant university to create a framework for assessment, inventory, and monitoring of social and economic data related to how individuals and communities are affected by public lands management decisions. The Bureau should also take steps to understand how to use focused data gathered from social science best management practices to improve the public engagement process, including engagement on environmental justice and underrepresented populations. These efforts will assist urban and rural communities, policymakers, resource managers, and resource users to engage effectively in the public land policy process.

Range Management.—The Bureau is directed, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire. The Bureau is encouraged to improve the management of active allotments and reduce any backlog of permits. The Bureau is directed to brief the Committees within 90 days of enactment of this Act on progress made towards reviewing permits currently in the backlog. The Bureau will continue the quantitative, science-based analysis of the risk of disease transmission between domestic and bighorn sheep required in the explanatory statement accompanying the Consolidated Appropriations Act, 2016 (Public Law 114–113).

Signage for Wilderness Areas.—The Bureau is expected to ensure that the public is adequately informed regarding the lands protected as well as routes that are open or closed with properly posted and maintained signage for the areas protected by Public Law 116–9. To help inform the public, the Bureau should properly post signage and conduct regular reviews to ensure that signage is maintained, and in good readable condition, and to replace any damaged or unreadable signs in a timely manner.

Southern Nevada Public Land Management Act (SNPLMA).—Funds from the SNPLMA account are to be used for activities authorized under Public Law 105–263.

Tribal Coordination on Energy.—The Bureau is directed to continue to fulfill its fiduciary trust responsibilities by coordinating with Fort Berthold Tribal authorities for activities that impact the Fort Berthold Reservation.

OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$117,283,000 for the Oregon and California Grant Lands appropriation. Specific allocations at the activity and subactivity level are contained in the table at the back of this explanatory statement. The Bureau is directed to continue the fire protection agreement with the State of Oregon to maintain or enhance the current level of fire protection for BLM-managed lands in Western Oregon; to aggressively target hazardous fuels treatments and report annually on the amount spent, as

well as the scope of hazardous fuels management required across Oregon and California Grant Lands; and to regularly report its timber sale accomplishments for sales that have been sold and awarded rather than merely offered for sale. The Bureau is expected to report these activities in a manner consistent with the U.S. Forest Service and only count awarded volume.

Sudden Oak Death Syndrome.—The agreement provides funding adequate to continue efforts at fighting Sudden Oak Death syndrome.

RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill provides an indefinite appropriation estimated to be \$30,000,000 for Service Charges, Deposits, and Forfeitures.

MISCELLANEOUS TRUST FUNDS

The bill provides an indefinite appropriation estimated to be \$26,000,000 for Miscellaneous Trust Funds.

UNITED STATES FISH AND WILDLIFE SERVICE RESOURCE MANAGEMENT (INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,451,545,000 for Resource Management. All programs and activities are funded at the amounts enacted in fiscal year 2021 unless otherwise specified below or in the table at the end of this division. Fixed costs are provided. The Service is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83 unless otherwise specified below. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

The Service is expected to comply with language contained in the explanatory statement accompanying Public Law 116-260, the Consolidated Appropriations Act, 2021 regarding Traditional Knowledge, Subsistence Activities, Polar Bear Tourism, Continued Funding Prohibitions, Sea Otters, and Ozark Hellbender. The agreement reiterates the direction in House Report 117-83 and the explanatory

statement accompanying Public Law 116-260 regarding American red wolves. In addition, language contained in Senate Report 116-123 subtitled Native Handicrafts, Central Everglades Planning Project, Loxahatchee National Wildlife Refuge, Wildlife Trafficking, Invasive Species, and Unknown Florida Panther Disorder is restated. The agreement reiterates that the Service's 2016 regulation does not apply to Alaska Native handicrafts made from walrus ivory and mammoth ivory.

Ecological Services.—The agreement provides \$277,409,000 for programs and activities within Ecological Services, including \$21,279,000 for listing.

Planning and Consultation.—The agreement provides \$112,092,000 which maintains \$4,000,000 for Gulf Coast restoration activities.

Conservation and Restoration.—The agreement provides \$35,666,000 for conservation and restoration activities which includes \$6,220,000 for Marine Mammals with the increase directed toward manatees. The Service is expected to complete the survey and stock assessment of northern sea otters in Southeast Alaska and assess this population relative to the optimum sustainable level, improve management strategies, and document ecological impacts of sea otters. Upon finalization of this report, the Service shall transmit the report to the Committees. The agreement includes a \$500,000 reduction as requested.

Geospatial Data.—The agreement encourages the Service to work with partners to develop a geospatial index that includes tools to combine information from a wide variety of datasets into a single compatible framework, while protecting sensitive data and landowner information, in order to protect the Great Plains grassland habitat and the species that rely on them.

Conservation Banking Report.—The Service is directed to report back within 60 days of enactment of this Act on the status of meeting the directive in section 329 of the William M. (Mac) Thornberry National Defense Authorization Act, 2021 (Public Law 116-283), related to issuing regulations for wildlife conservation banking programs.

Recovery.—The agreement provides \$108,372,000 for activities in support of the recovery and delisting of threatened and endangered species which includes: \$3,750,000 for the State of the Birds; \$1,300,000 for the Prescott Grant program; and \$1,000,000 for the wolf-livestock demonstration program. The agreement supports focused efforts by the Service to prevent extinction of the most critically endangered species, particularly keystone species because of the significant impact they have on ecosystem health, but reminds the Service of the critical importance of continuing to reduce the backlog of 5-year reviews and associated inherently Federal responsibilities.

The agreement provides \$9,500,000 for Recovery Challenge matching grants. Recovery Challenge grants are to be used to develop and update recovery plans and implement high priority recovery actions as prescribed in recovery plans to recover federally listed species. Actions should

include, but are not limited to, genetically-sound breeding, rearing, and reintroduction programs. Longstanding partnerships, including for the northern aplomado falcon and California condor, would be funded at no less than their current levels, and partner contributions should be no less than their current amounts and provide at least a 50:50 partner match, which may include in-kind services. The remaining funds should be dedicated to new partnerships and should require at least a 50:50 partner match, which may include in-kind services. Unless an affected State is a partner on the project, no funds may be awarded to a project until the project partners have consulted with such State. Program direction contained in House Report 117-83 regarding working with the National Fish and Wildlife Foundation remains in effect.

Florida Grasshopper Sparrow.—The Service is directed to continue to support the Florida grasshopper sparrow recovery efforts and the captive breeding program as managed by its conservation partners as referenced in Senate Report 116-123 and the agreement provides \$200,000.

Western Monarch Butterfly Populations.—Western monarch populations are in decline and the agreement provides no less than \$4,000,000 across the account for western monarchs and pollinator recovery. Further, the Service is directed to provide a report within 120 days of enactment of this Act on whether there are Service-managed lands that could serve as milkweed habitat corridors for migrating western monarchs.

Habitat Conservation.—The agreement provides \$71,331,000 for habitat conservation programs, of which \$57,715,000 is for the Partners for Fish and Wildlife program and \$13,616,000 is for the Coastal Program. The agreement provides \$1,750,000 for the Chesapeake Bay nutria eradication project.

Klamath Restoration.—The Service is directed to consider additional activities that could be undertaken to recover endangered and threatened species, restore habitat, and improve the health of the Klamath Basin National Wildlife Refuges with the funds provided in fiscal year 2022 and during the fiscal year 2023 budget formulation. The Service is encouraged to continue to coordinate with the Bureau of Reclamation where appropriate and consult with Tribes. Within Habitat Conservation, the agreement provides no less than the fiscal year 2021 enacted level for Klamath River habitat restoration.

National Wildlife Refuge System.—The agreement provides \$518,761,000 for the National Wildlife Refuge System.

Wildlife and Habitat Management.—The agreement provides: \$15,925,000 for invasive species to focus on high priority invasive species including nutria, buffelgrass, and cheatgrass; \$1,750,000 for the Chesapeake Bay nutria eradication project; \$500,000 to help refuges improve water efficiency in order to maintain, improve, replace and upgrade refuge infrastructure on areas such as the Quivira National Wildlife Refuge; \$2,000,000 for Marine National Monuments including \$700,000 for the Northeast Canyons and Seamounts Marine National Monument; \$23,924,000 for inventory and monitoring

including no less than \$2,000,000 for western monarchs and pollinators. Focusing on chronic wasting disease is encouraged.

In lieu of the direction in House Report 117-83 regarding changes to trapping practices, the Service is directed to conduct an evaluation of trapping practices on Service lands in collaboration with the U.S Department of Agriculture, Wildlife Services and to brief the Committees on their findings including information regarding alternative non-lethal methods and equipment that may be used to remove invasive species or native pest species that behave like invasive species. House directives regarding signage and annual reporting are continued.

Chesapeake Marshlands National Wildlife Refuge Complex.—The Service’s collaboration with non-Federal partners to develop and implement the Blackwater 2100 “A Strategy for Salt Marsh Persistence in an Era of Climate Change” is supported as is the Service’s ability to implement the strategy while providing hunting, fishing, and other recreational opportunities where compatible. Ongoing engagement with the surrounding local communities will be the key to successful implementation and community support. The Service is also encouraged to sufficiently staff the refuge complex which has not had a full-time refuge manager in four years.

Visitor Services.—The agreement includes \$77,237,000 which includes \$6,000,000 for the Urban Wildlife Refuge Partnership program.

Refuge Management Plans.—The Service is encouraged to prioritize updating refuge management plans that predate the National Wildlife Refuge Improvement Act of 1997, to improve the management of refuges in a manner consistent with the strategic vision of the National Wildlife Refuge System.

Conservation and Enforcement.—The agreement provides \$164,721,000 for other conservation and enforcement programs as described below.

Migratory Bird Management.—The agreement provides \$49,568,000 which includes \$29,921,000 for Conservation and Monitoring of which \$600,000 is to manage bird-livestock conflicts; and \$15,562,000 is for the North American Waterfowl Management Plan/Joint Ventures program.

Law Enforcement.—The agreement provides \$89,788,000 for law enforcement activities, including a \$1,000,000 general program increase to help combat illegal global wildlife trafficking and implement the Lacey Act, and \$3,500,000 to continue the Service’s work with the Indian Arts and Crafts Board to combat international trafficking of counterfeit arts and crafts and to conduct criminal investigations of alleged violations of the Indian Arts and Crafts Act.

International Affairs.—The agreement provides \$25,365,000 including \$9,899,000 for International Conservation and \$15,466,000 for International Wildlife Trade. Funds are provided to continue progress on the electronic permit application and processing system. The Theodore Roosevelt

Genius Prizes for technological innovation to help conserve and manage wildlife is maintained at the fiscal year 2021 enacted level. A reduction of \$550,000 is included in accordance with instructions as outlined in House Report 116-448.

The Service is directed to provide the briefing required in the explanatory statement accompanying Public Law 116-94 on its current policy for sport-hunted trophies and its analysis on exporting countries' conservation programs and species survival within 60 days of enactment of this Act.

Fish and Aquatic Conservation.—The agreement provides \$220,826,000 for fish and aquatic conservation programs.

National Fish Hatchery System Operations.—The agreement provides \$71,776,000 which includes: \$3,750,000 for Klamath Basin restoration activities and directs the Service to work with the affected Tribes on fish restoration activities; \$4,700,000 for mitigation of the Pacific Salmon Treaty and directs the Service to work in cooperation with State fish and game agencies and which includes \$1,556,000 for implementation of the Yukon River Salmon Agreement and funding for anadromous salmonids. The Service is directed to continue to work in cooperation with State fish and game agencies on marking of anadromous fish and the agreement maintains funding for mass marking at the fiscal year 2021 enacted level. None of the funds provided under this subactivity may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March 2013 National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Tribes.

A \$5,000,000 increase is provided for the Warm Springs Fish Health Center (FHC) which provides disease diagnosis, biosecurity and disease management, disease treatment and prevention, fish health inspection services for Federal, State, and Tribal hatcheries responsible for production of salmonids and warm water species for recovery, restoration, and recreational fisheries, and inspection and certificates for the National Triploid Grass Carp Protection.

Habitat Assessment and Restoration.—The agreement provides \$46,326,000, which includes \$10,500,000 to implement the Delaware River Basin Conservation Act which is supplemented by \$5,200,000 provided in Public Law 117-58 for fiscal year 2022; \$18,598,000 for the National Fish Passage Program which is supplemented by \$40,000,000 provided in Public Law 117-58 for fiscal year 2022; and \$5,750,000 to implement Klamath Basin restoration activities.

Population Assessment and Cooperative Management.—The agreement provides \$33,965,000 which includes \$2,000,000 for Great Lakes Fish and Wildlife Restoration Act grants; \$890,000 for Great Lakes Consent Decree; \$818,000 for the Lake Champlain Sea lamprey program; and \$750,000 from within available funds for snakehead eradication.

Connecticut River Atlantic Salmon Commission.—The agreement provides \$500,000 for the Connecticut River Atlantic Salmon Compact, as authorized in Public Law 98–138, for research, monitoring, conservation, and habitat restoration work related to this high-priority watershed.

Aquatic Invasive Species.—The agreement includes \$42,713,000 for aquatic invasive species programs, of which: \$2,319,000 is for Prevention; \$4,338,000 is to implement subsection 5(d)(2) of the Lake Tahoe Restoration Act which is supplemented by \$3,400,000 provided in Public Law 117-58 for fiscal year 2022; \$25,200,000 is for invasive carp as outlined in House Report 117-83 and Senate Report 116-123 including not less than \$3,200,000 for contract fishing; \$2,834,000 for NISA State Plans and \$1,566,000 for NISA implementation which help control the spread of invasive carp; \$3,500,000 is to prevent the spread of quagga and zebra mussels; \$1,000,000 is for research on hydrilla, eel, and milfoil invasive grasses; and \$1,011,000 is for Great Lakes Sea Lamprey administration costs.

The Service is expected to continue to pursue methods for invasive species control that do not result in the addition of chemical agents to the ecosystem and harmful secondary by-products such as algal blooms, as directed in the explanatory statement accompanying Public Law 116-260.

Cooperative Landscape Conservation.—The agreement includes \$12,802,000 for Landscape Conservation Cooperatives (LCCs).

On February 1, 2022, the Service submitted a report regarding landscape conservation; however, the report was not responsive to the directive contained in the explanatory statement accompanying Public Law 116-260. The information requested on historic and present-day staffing and funding allocations, the status of the 22 LCCs, and the transition of the LCC activities is still expected. The Service is directed to report quarterly to the Committees on the allocation of fiscal year 2022 resources to address landscape scale conservation, partnerships, staffing, project funding, and technical assistance. The fiscal year 2023 budget request should include a revised account structure to better reflect the direction of the Science Applications Programs instead of using subactivities that no longer represent the program.

Science Support.—The agreement provides \$23,233,000 for the Science Support program, which includes \$3,500,000 for white nose syndrome; the fiscal year 2021 enacted level for Gulf Coast ecosystem restoration; \$4,000,000 for Chesapeake WILD; and \$2,000,000 for research on western monarch butterflies and other pollinators. Best practices developed in response to white nose syndrome are directed to be applied in response to other new and emerging high-risk wildlife diseases. The Service should also continue, along with the U.S. Geological Survey, to lead and implement the North American Bat Monitoring Program in association with other Federal natural resource management agencies and offices, States, Tribes, and non-governmental partners.

Stewardship Priorities.—The agreement provides \$6,813,000 in congressionally directed spending for stewardship projects to further conservation goals. Further detail on these projects is

provided in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

General Operations.—The agreement provides \$155,649,000 for general operations which includes an increase of \$400,000 for diversity.

The agreement continues support for the Everglades at not less than the fiscal year 2021 enacted level.

CONSTRUCTION (INCLUDING RESCISSION OF FUNDS)

The bill provides \$12,847,000 for Construction and includes fixed costs, \$150,000 for fleet related infrastructure, and a rescission of \$1,240,000 from prior year unobligated balances. The agreement continues to support the Service’s objective priority-setting process and expects the Service to follow its project priority list with the funds provided. When a construction project is completed or terminated and appropriated funds remain, the Service may use those balances to respond to unforeseen reconstruction, replacement, or repair of facilities or equipment damaged or destroyed by storms, floods, fires, and similar unanticipated natural events. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND (INCLUDING RESCISSION OF FUNDS)

The bill provides \$24,064,000 in discretionary funding from the Cooperative Endangered Species Conservation Fund for conservation grants, habitat conservation planning grants, and program administration. In addition, the bill allocates \$32,800,000 in mandatory funding from the Land and Water Conservation Fund for species recovery and habitat conservation plan land acquisitions. The bill also includes a rescission of \$945,000 from prior year unobligated balances. Detailed tables of funding recommendations below the account level are provided at the end of this report.

NATIONAL WILDLIFE REFUGE FUND

The bill provides \$13,228,000 for payments to counties from the National Wildlife Refuge Fund.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The bill provides \$48,500,000 for the North American Wetlands Conservation Fund.

NEOTROPICAL MIGRATORY BIRD CONSERVATION FUND

The bill provides \$5,000,000 for the Neotropical Migratory Bird Conservation Fund.

MULTINATIONAL SPECIES CONSERVATION FUND

The bill provides \$20,000,000 for the Multinational Species Conservation Fund. The detailed allocation of funding by activity is included in the table at the end of this explanatory statement.

STATE AND TRIBAL WILDLIFE GRANTS

The bill provides \$72,612,000 for State and Tribal Wildlife Grants which includes \$59,250,000 for State Wildlife Formula grants, \$7,362,000 for State Wildlife Competitive grants, and \$6,000,000 for Tribal Wildlife grants.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The bill provides \$2,767,028,000 for Operation of the National Park System (ONPS), \$78,741,000 above the enacted level and \$210,301,000 below the budget request. For this and all other Service accounts funded in this bill, the Service is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Additional details, instructions, and requirements follow below and in the table at the end of this division.

The Service is expected to execute its spending at the levels provided. The Service may not redistribute the recommendations in a fiscal year 2022 operating plan. The Committees appreciate the Service's initial efforts to identify spending trends within park base to help increase fidelity to park management increases. The Service is directed to continue to refine the Operation of the National Park Service Realignment and collaborate with the Committees with the goal to develop an updated methodology to improve the budgeting process.

The agreement provides fixed costs and funding for New Responsibilities at New and Existing Park Areas. Additional funding guidance is provided below.

Resource Stewardship.—The bill includes: \$4,900,000 for the Partnership Wild & Scenic Rivers program and other similarly managed rivers; \$2,000,000 for Active Forest Management; \$5,000,000 for Quagga and Zebra Mussel programs; \$800,000 for Cave and Karst Ecosystem Research; \$400,000 for Recreational Access – Support Alaska Subsistence; and \$16,856,000 for the National Trails System. The agreement provides \$8,825,000 for the National Networks. Within this amount, the African American Civil Rights Network is funded at the requested level of \$5,375,000 and the National Underground Railroad Network to Freedom is funded at \$2,500,000.

Visitor Services.—The bill accepts the proposed reduction for non-recurring funding to support the 2021 Presidential Inauguration and provides the requested increase for the Commemorations Office. Funding is provided at the enacted level for Recreational Access – Recreational Fishing, and the National Capital Area Performing Arts Program. The Service is encouraged to look for ways to leverage resources and maximize support for the Every Kid Outdoors Program. The agreement includes \$14,546,000 for activities that support programs like the Indian Youth Service Corps, the American Sign Language Conservation Corps, the Ancestral Lands Conservation Corps, Historically Black Colleges and Universities Internship Program, the Latino Heritage Internship Program, and the Scientists in Parks program. This is a \$3,000,000 increase over enacted.

Park Protection.—The bill provides funding as requested for the Statue of Liberty NM Security Contract, \$3,000,000 for United States Park Police Workforce Capacity, and the \$4,100,000 requested for equipment. All other activities are funded at no less than the enacted level.

Facility Operations and Maintenance.—The proposed reduction for DC Water and Sewer is accepted.

Park Support.—The proposed transfers have been accepted and \$400,000 is provided for the Diversity, Inclusion, and Compliance initiative. Funding for the Semiquincentennial Commission is provided in a separate account outside of the Service's budget, in accordance with the budget request.

Global Positioning System Modernization.—The agreement provides \$4,000,000 for the replacement of Global Positioning System (GPS) data collection devices used by the Service for facilities planning, lands administration, visitor safety, and infrastructure protection.

National Park Foundation.—The agreement provides \$5,000,000 for the National Park Foundation, equal to the fiscal year 2021 level.

Funding is provided at the requested level for the Roosevelt-Campobello International Park and the Katahdin Woods and Waters National Monument. Increases are also supported for the Honouliuli National Historic Site, the Pearl Harbor National Memorial, Coltsville National Historic Park, the Chesapeake Bay Office, and America's newest National Park, the New River Gorge National Park and Preserve.

Additional Guidance.—The following additional guidance is included:

Appalachian National Scenic Trail.—The Appalachian National Scenic Trail is a 2,190-mile linear park stretching through 14 states and 88 counties—more than any other unit of the National Park System. The Appalachian National Scenic Trail draws visitors from all over the United States and the world, bolstering the economy of the communities around the trail. The Committees are aware that the Trail is experiencing increased visitation and encourages the Service to include sufficient resources in future budget requests to meet its expanded visitor services, law enforcement, compliance, and land acquisition requirements.

Blackstone River Valley National Historical Park.—Within the funds provided for Park Support, the Committees support funding increases for Blackstone Valley National Historical Park with the expectation that the Service will continue to make funds available to the local coordinating entity to maintain staffing and capacity to assist in management of the park, as authorized in Public Law 113–291. The Committees encourage the Park to work with partners to provide safe recreational access along the Blackstone River and emphasize the importance of the river through continuous access, citizen science, and interpretive programming at the park. The Service is directed to continue its work to complete a General Management Plan for the Park, as required by Public Law 113-291, and to prioritize activities that will advance development of the Park, including the acquisition of Slater Mill’s historic dam.

Continued Directives.—The Committees continue the directives regarding Director’s Order 21, Roosevelt-Campobello International Park, and Katahdin Wood and Waters National Monument contained in Senate Report 116-123.

Diversity in Hiring.—The Service is directed to focus on building a workforce that reflects the diversity of America.

National Trails System.—The Committees understand the importance of providing adequate funding to develop and maintain the National Trails System for future generations to enjoy. The Committees urge the Service to continue its efforts to support construction and maintenance projects and volunteer coordination efforts, including activities in support of non-unit National Scenic Trails.

NATIONAL RECREATION AND PRESERVATION

The bill provides \$83,910,000 for national recreation and preservation, \$9,753,000 above the enacted level and \$9,396,000 below the budget request. The amounts recommended by the Committees compared with the budget estimates by activity are shown in the table at the end of this explanatory statement.

Cultural Programs.—The bill provides \$2,157,000 for Native American Graves Protection and Repatriation Grants; \$3,405,000 for Japanese Confinement Site Grants; and, \$2,750,000 for the competitive grant program authorized by the 9/11 Memorial Act (Public Law 115-413). Funding is recommended for financial assistance to nonprofit organizations or institutions for the purpose of supporting programs for Native Hawaiian or Alaska Native culture and arts development at a total program level of \$1,500,000, an increase of \$250,000 to the enacted level, which is provided to support both continued program levels and encourage new entities to apply. The bill provides the requested one-time funding for the Oklahoma City Memorial Endowment.

Heritage Partnership Programs.—The agreement provides \$27,144,000 for the Heritage Partnership Program. The directive contained in the explanatory statement that accompanied Public Law 116-6 with regards to funding distribution is continued. Due to concerns that efforts to complete management plans have been delayed due to COVID-19, the Committees note that areas that have not completed their management plan continue to be eligible for funding regardless of the status of their management plan.

HISTORIC PRESERVATION FUND

The bill provides \$173,072,000 for historic preservation, \$28,772,000 above the enacted level and \$21,272,000 above the budget request.

Competitive Grants.—The bill provides \$21,750,000 for the African American Civil Rights Grants, as requested. Additionally, \$4,625,000 is provided for the History of Equal Rights grants and \$1,250,000 for grants to underserved communities.

Paul Bruhn Historic Revitalization Grants.—The bill provides \$10,000,000 for historic revitalization grants and retains the directives regarding the distribution of funding included in Senate Report 116-123.

Save America's Treasures.—The Save America's Treasures program is provided \$26,500,000. The Committees support this program because of its important role in providing preservation and conservation assistance to nationally significant historical properties and collections, including historic courthouses.

Semiquincentennial Preservation Grants.—The bill provides \$10,000,000 for the Service to assist states in preparing for the upcoming Semiquincentennial celebration and to celebrate the Nation's history. Funds from this allocation should be used for a competitive grant program to support the restoration of sites that honor the 250th anniversary of the country's founding, including Revolutionary War

monuments. Priority should be given to state-owned sites. A site must be listed in, or be eligible to be listed in, the National Register of Historic Places in order to be eligible.

CONSTRUCTION

The bill provides \$225,984,000 for construction, \$2,077,000 above the enacted level and \$52,579,000 below the budget request.

Line-Item Construction.—Funding for line-item construction projects is provided as outlined in the table contained in House Report 117-83.

Ocmulgee River Corridor.—The Committees support the Service's initiation of the Ocmulgee River Corridor Special Resource Study to evaluate its potential for designation as a national park unit and directs the Service to complete the report in a timely manner.

Ste. Genevieve National Historical Park.—Within 90 days of enactment of this Act, the Service is directed to provide the Committees a report detailing the planned repair, rehabilitation, and restoration work at the Ste. Genevieve National Historical Park during the next four fiscal years.

CENTENNIAL CHALLENGE

The bill provides \$15,000,000 for the Centennial Challenge matching grant program, equal to the enacted level and the budget request.

UNITED STATES GEOLOGICAL SURVEY SURVEYS, INVESTIGATIONS, AND RESEARCH (INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,394,360,000 for Surveys, Investigations, and Research of the U.S. Geological Survey (USGS, or the Survey). All programs and activities are funded at the amounts enacted in fiscal year 2021 unless otherwise specified below or in the table at the end of this division. Fixed costs are provided. The Survey is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83 unless otherwise specified below. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

Ecosystems.—The agreement provides \$277,897,000 as outlined below.

Environmental Health Program.—The agreement provides \$26,489,000 for Environmental Health, which includes \$11,100,000 for Contaminant Biology and \$15,389,000 for Toxic Substances Hydrology. The agreement includes no less than \$2,750,000 for research on harmful algal blooms and \$2,700,000 for research on the transmission of per- and polyfluoroalkyl substances (PFOA/PFAS) in watersheds and aquifers. The Survey is to continue its research as directed in House Report 117-83.

The bill provides \$500,000 to continue competitively awarding grants for applied research to develop a system for integrating sensors. By working with partners, such as academic institutions, small businesses, and other government research organizations to submit innovative proposals to perform complementary development of technologies, the Survey can develop a convergent platform that enables existing and future sensor technologies to be deployed in extreme environments where real-time information is required.

Microplastics.—The Survey is developing a strategic vision for its microplastics research, including a review of the current science gaps and how Survey expertise and capabilities can address those gaps. The Survey is encouraged to brief the Committees on its findings after release.

Species Management Research Program.—The agreement provides \$55,418,000. There are long-term hydrological and ecological challenges associated with saline lakes in the Great Basin States and the Survey is encouraged to address related science needs in tandem with the Integrated Water Availability Assessment for saline lakes that is provided for under the Water Resources mission area.

The Survey is directed to provide a briefing to the Committees within 180 days of enactment of this Act on the merits of funding phenology related efforts to collect, maintain, and share information on seasonal timing to support resource management, climate adaptation, agriculture, and human health.

Land Management Research Program.—The agreement provides \$58,103,000 including \$6,000,000 for Chesapeake Bay activities.

Biological Threats and Invasive Species Research Program.—The agreement provides \$40,431,000 including \$4,720,000 for chronic wasting disease. In carrying out chronic wasting disease research, the Survey should continue to collaborate with institutions of higher education as directed in House Report 117-83 and may consult, partner, or contract with the Animal and Plant Health Inspection Service, the National Academy of Sciences, State and Federal public and private entities, and any chronic wasting disease task forces and working groups. Collaboration should continue with partners to develop early detection tools and compounds to disrupt transmission of the disease. In particular, the agreement encourages research and investment into carcass disposal methods to mitigate the spread of chronic wasting disease, and the Survey is urged to consult with the Environmental Protection Agency, the Federal Emergency Management Agency, Tribes, and States to develop recommendations for carcass disposal methods that are compliant with relevant Federal clean air and water and solid waste regulations.

The Survey is also encouraged to work in collaboration with the Fish and Wildlife Service to aid State and Tribal wildlife agencies in the application of existing human dimensions research to the management and prevention of chronic wasting disease. Funding is continued at the enacted level for white-nose syndrome (WNS) research and the direction found in Senate Report 116-123 is continued for WNS research. The agreement provides \$600,000 for coral disease and \$11,000,000 for invasive carp research, of which \$3,000,000 is for research on grass carp. The direction found in Senate Report 116-123 is continued for invasive carp, coral disease, and invasive species research, detection, and response efforts. Additional resources for invasives species were provided in Public Law 117-58 to the Office of the Secretary.

Climate Adaptation Science Center and Land Change Science Program.—The agreement provides \$71,450,000 of which \$51,903,000 is for the National and Regional Climate Adaptation Science Centers including \$2,000,000 for Tribal climate adaptation science. The agreement also provides \$19,547,000 for Land Change Science which includes \$150,000 for biological carbon sequestration.

Cooperative Research Units Program.—Cooperative Research Units (CRUs) are funded at \$26,006,000 in accordance with the specifications outlined in House Report 117-83. Of the funds provided, \$250,000 is for research into the causes of malignant melanomas affecting 25 percent or more of brown bullhead (*Ameiurus nebulosus*) in some northern New England waters and related fishery research at the host institution.

Great Lakes Science.—The Committees support Great Lakes science and the USGS collaboration with the broader Great Lakes Partnership to implement priority science. These resources will ensure delivery of information needed for Great Lakes management decisions. Funding for Great Lakes Science is provided at no less than \$14,000,000.

Energy and Mineral Resources.—The agreement provides \$95,223,000 for Energy and Mineral Resources. Mineral Resources is funded at \$63,737,000 which maintains \$10,598,000 for the critical minerals Earth Mapping Resources Initiative (Earth MRI) and provides \$3,774,000 for mine waste research and to characterize mine waste as a potential source for critical minerals. Energy Resources is funded at \$31,486,000 including \$1,977,000 for geologic carbon sequestration, a portion of which is to advance the understanding of alkalinity sources of carbon mineralization as outlined in House Report 117-83, \$200,000 is for geophysical data acquisition and \$175,000 is for the inventory of greenhouse gases.

Public Law 117-58 provides \$64,000,000 in fiscal year 2022 for Earth MRI and funding to the Department of Energy (DOE) for critical minerals research and the agreement urges USGS to expand their collaboration with DOE in this field.

The Survey is expected to continue critical mineral mapping efforts in Alaska, pursuant to the budget request, at no less than the fiscal year 2021 enacted level and to brief the Committees on such efforts within 90 days of enactment of this Act.

The Survey is expected to provide the report on potential initiatives to increase the domestic supply of critical minerals as directed in the explanatory statement accompanying Public Law 116-260.

Natural Hazards.—The agreement provides \$185,998,000 for the Natural Hazards Program, including \$90,037,000 for earthquake hazards. Within this funding, \$28,600,000 is included for continued development and expansion of the ShakeAlert West Coast earthquake early warning (EEW) system. Continued efforts to complete and operate the EEW system on the West Coast are supported. Concerns remain regarding the lack of knowledge and offshore real time instrumentation available for the Cascadia subduction zone. Our increased scientific understanding of earthquakes and the ocean environment will benefit from the wealth of offshore data collected and the continued development of an early earthquake warning system for the Cascadia system.

The agreement continues no less than the enacted level for the national seismic hazard map, including for expansion to Puerto Rico and the Virgin Islands, for regional networks to operate and maintain recently acquired USArray stations, for the Advanced National Seismic System (ANSS) and for regional seismic networks including the Central and Eastern U.S. Network. In addition, the agreement recognizes concern that updates to the national seismic hazard maps do not consistently include the entire country and urges the Survey to update the maps for all 50 states and provides \$500,000 for the maps for Puerto Rico and the Virgin Islands.

The agreement provides \$33,282,000 for volcano hazards.

In 2019 the National Volcano Early Warning and Monitoring System (NVEWS) was initiated. The Survey is completing the two prerequisite steps to NVEWS expansion and upgrades and is encouraged to accelerate the pace of these activities where possible. The agreement provides \$2,172,000 to begin implementation of NVEWS as well as \$1,800,000 for the Early Warning System and \$770,000 for Next Generation hazards assessments.

Concerns remain that systems and equipment used to monitor, detect, and warn the public of volcanic and seismic hazards, including lahars and earthquakes on high-threat volcanoes, are outdated and inadequate. The funding provided supports efforts to repair, upgrade, and expand systems and equipment that monitor, detect, and provide early warning of volcanic hazards with a focus on high-threat volcanoes.

The agreement includes \$8,929,000 for landslide hazards which includes \$750,000 for science outlined in House Report 117-83. In light of the increasing frequency of catastrophic wildfires, the Survey is encouraged to prioritize efforts to predict and reduce the risk of post-wildfire landslides.

The Survey is directed to continue to collaborate with the National Oceanic and Atmospheric Administration and State and local governments to assess landslide potential and hazards and implement tsunami warning capabilities in Prince William Sound, including through the use of physical instrumentation or remote sensing technologies, particularly where the threat of a landslide and tsunami presents the most serious risks to Sound residents, visitors, and property. The Survey is encouraged to expand this work to areas in Southeast Alaska that have recently experienced landslides and will continue to face the threat of devastating landslides. Further, the Survey is directed to brief the Committees within 60 days of enactment of this Act on what resources are needed to aid the development and deployment of early warning technologies to affected communities.

The agreement provides \$7,212,000 for the Global Seismographic Network; \$4,673,000 for Geomagnetism including \$2,888,000 for the expansion of magnetometer observatories and the fiscal year 2021 enacted level for the magnetotelluric survey to advance the collection of magnetotelluric observations of the Earth's naturally occurring electric and magnetic fields in the U.S. regions; and \$41,865,000 for Coastal/Marine Hazards which includes \$10,674,000 for coastal hazards, \$1,200,000 for coastal blue carbon, and \$950,000 for risk reduction and community resilience.

Emergent Hazards.—Within 90 days of enactment of this Act, the Survey is directed to brief the Committees on the need and potential of partnering with universities for a scalable, automated system that is capable of rapidly identifying emerging hazard threats and their potential impacts using remote sensing data to provide an impact model product capable of identifying and supporting response to emergent hazard threats.

Water Resources.—The agreement provides \$285,894,000 for Water Resources, with \$65,529,000 for activities associated with the Cooperative Matching Funds. Water Availability and Use Science is funded at \$64,501,000, which includes \$1,000,000 for the U.S. Mexico transboundary aquifer assessment; \$1,750,000 for research on water extraction for bottling and a phased study as directed in House Report 117-83; and \$1,500,000 for the Survey's work with the Open ET consortium and the Open ET software system.

The agreement includes \$13,500,000 for integrated water prediction to continue to utilize the best available technology to develop advanced modeling tools, state-of-the-art forecasts, and decision support systems and to incorporate these capabilities into daily water operations.

The bill includes at least \$2,000,000 to complete a groundwater model-based decision support system to support water sustainability decision-making and a basin-wide model and monitoring program for irrigation water-use for the Mississippi Alluvial Plain. In addition, the Survey is provided funds to transition tools and resources produced through the Mississippi Alluvial Plain project into resources that support Integrated Water Availability Assessments in targeted basins of interest including the Gulf of

Mexico Coastal Plain. The bill provides \$4,975,000 for integrated water availability assessments and includes no less than \$1,250,000 for the Survey to establish a regional Integrated Water Availability Assessment study program to assess and monitor the hydrology of saline lakes in the Great Basin and the migratory birds and other wildlife dependent on those habitats.

Groundwater and Streamflow Information is funded at \$110,651,000 which includes \$500,000 to maintain operational capacity within the existing super-gage network along the Ohio River in basins containing unique geology, distinct soils, and a significant agricultural presence. The agreement also includes \$25,215,000 for Federal priority streamgages and \$29,000,000 for the Next Generation Water Observing System (NGWOS). The agreement provides resources necessary to operate and maintain the fully deployed NGWOS in the Delaware River Basin and the Survey is encouraged to continue to study and monitor surface water and groundwater in the lower basin of the Delaware River and to provide geologic mapping of the basin in support of the pilot through the National Geologic Mapping Program. The Survey is encouraged to partner, where appropriate, with State and local government officials and with the academic research community. Funding for NGWOS includes \$4,500,000 to work with universities to develop innovative water resource sensor technologies that are scalable to regional and national monitoring networks.

The agreement provides at least \$1,500,000 for the Survey to install streamgages on certain transboundary rivers, including those at risk from mining pollution originating in Canada, including in the Kootenai watershed; at least \$1,500,000 for implementation of the baseline strategy for transboundary rivers, as outlined by the Survey's Water Quality Baseline Assessment for Transboundary Rivers; and \$120,000 for the streamgage on the Unuk River. The Survey is directed to continue to expand its streamgage monitoring of transboundary watersheds and to work with the Environmental Protection Agency to ensure the relevant equipment is deployed to the Kootenai watershed to support the agency's work to evaluate and reduce transboundary pollution. The direction is continued that the Survey enter into a formal partnership with local Tribes and other Federal agencies as necessary in the area to develop a water quality strategy for the transboundary rivers.

On-going monitoring of critical water budget components in the Klamath Basin is critical to provide the information needed to assess controls of inflow to Upper Klamath Lake from surface water and groundwater, improve snowmelt prediction, and forecast impacts of drought and other drivers on water availability for both human and ecological uses and the agreement provides \$1,000,000 to expand this work.

Hydrological Science Talent Pipeline.—Robust participation with universities in the hydrologic sciences is essential to building a talent pipeline as well as building capacity to support future hydrological research and operational efforts. To support this, the agreement provides \$2,000,000 within

the Water Availability and Use Science Program and \$2,000,000 within the National Groundwater and Streamflow Information Program above the enacted levels to pursue such cooperative research agreements with an emphasis on locations where the Survey has pending hydrological facilities as well as where there are other Federal operational hydrologic resources.

The agreement includes \$96,742,000 for the National Water Quality program which includes \$6,490,000 for harmful algal bloom research. The agreement provides \$1,600,000 to support PFAS substances research. The Survey is directed to consult with States and Tribes to determine priority mapping areas for PFAS contamination. Within funds provided, the Survey is directed to prioritize advanced testing capable of detecting suites of PFAS compounds and individual PFAS chemicals in the environment to support nationwide sampling for these chemicals in estuaries, lakes, streams, springs, wells, wetlands, and soil and funding is provided to support a nationwide PFAS sampling survey and the associated methods development (per the 2020 National Defense Authorization Act or NDAA). The agreement is supportive of the Survey's efforts to understand groundwater vulnerability, specifically in shallow fractured bedrock terrain, and directs this work to continue. Water Resources Research Institutes are funded at \$14,000,000 for research as discussed in House Report 117-83 of which \$1,500,000 is for research on the control and management of aquatic invasive species in the Upper Mississippi River region.

Special Initiatives.—The agreement provides an additional amount of \$1,000,000 in congressionally directed spending for the Survey to work with the State of Alaska to develop an implementation plan to be completed within two years in order to put Shake Alert/Earthquake Early Warning in Alaska. Further detail on this project is located in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

Core Science Systems.—The agreement provides \$263,802,000, which includes \$26,353,000 for science, synthesis, analysis, and research. Public Law 117-58 provides \$8,668,000 in fiscal year 2022 for the National Geologic and Geophysical Data Preservation which supplements base funding. The agreement provides \$42,431,000 for the National Cooperative Geologic Mapping of which the increase above fixed costs is for Phase Three of the National Geologic Map Database as outlined in House Report 117-83.

The National Geospatial program is funded at \$87,526,000 and includes a \$4,250,000 increase for the 3D Elevation Program (3 DEP) to accelerate completion of a nationwide baseline of high-resolution topographic elevation data, of which not less than \$250,000 is focused on Tribal lands; and not less than \$3,000,000 is focused on Federal lands in western states. No less than \$9,500,000 is provided for the Alaska mapping and map modernization initiative, which includes modernizing Alaskan hydrography

datasets. In addition, \$1,900,000 is provided for the United States Board of Geographic Names and \$850,000 is provided for the National Digital Trails project.

The agreement supports the continued operations of the Alaska Mapping Executive Committee (AMEC). The National Geospatial Program will continue its role in advancing the goals, objectives, and approaches collaboratively developed as part of the AMEC Alaska Coastal Mapping Strategy, to include collection and distribution of topography and orthoimagery in coastal areas. The agreement directs a briefing on the resources needed to enhance understanding of subsidence including what would be required to pivot from the National Land Cover Database to develop a National Land Level Change database. It is expected that any funding awarded outside the Federal sector will undergo a competitive review process.

The National Land Imaging program is funded at \$107,492,000 which includes \$84,788,000 for Satellite Operations and maintains the enacted level for the National Civil Applications Center. The agreement recognizes the value of the Remote Sensing State Grants program and directs the Survey to continue funding the grant program at the enacted level to ensure the on-going viability of the program nationwide.

Science Support.—The agreement includes \$99,736,000 which includes \$77,520,000 for administration and management including \$800,000 for diversity and \$150,000 for fleet related infrastructure, and \$22,216,000 for Information Services.

Facilities.—The agreement includes \$184,810,000 for facilities, deferred maintenance and capital improvement. Public Law 117-58 provides \$167,000,000 in fiscal year 2022 for the USGS Energy and Minerals Research Facility.

BUREAU OF OCEAN ENERGY MANAGEMENT OCEAN ENERGY MANAGEMENT

The bill provides \$206,748,000 for the Ocean Energy Management appropriation, which is partially offset through the collection of rental receipts and cost recovery fees totaling \$43,000,000, resulting in a net appropriation of \$163,748,000. Specific allocations at the activity level are contained in the table at the back of this explanatory statement.

Offshore Wind Site Identification.—The Bureau is expected to continue to coordinate with the Department of Energy on renewable energy research, to exchange information with coastal States, and to work with stakeholders to study new wind energy areas through its intergovernmental task forces, including continuing existing and launching new data collection campaigns in the Gulf of Maine. As the Bureau refines the permitting process, it must include steps to understand existing ocean uses by

consulting early and often with the commercial fishing industry and other stakeholders, for which the Rhode Island Ocean Special Area Management Plan provides a model. The Bureau must continue to partner with the National Oceanic and Atmospheric Administration and other co-operating agencies in the context of an “all-of-government” approach to offshore renewable energy. This includes support for research, incorporation of agency data, and consideration of recommendations on the siting and development of offshore wind projects. The Bureau is directed to notify the Committees prior to issuing leases that would allow wind turbines to be constructed or located less than 22 nautical miles from the State of North Carolina shoreline.

Regional Citizen Advisory Councils.—The Bureau’s commitment to working with Regional Citizen Advisory Councils on collaborative scientific research projects, environmental impact monitoring, and outreach activities is appreciated and the Committees direct the Bureau to continue to support these efforts.

Marine Minerals.—The Bureau should continue existing critical mineral assessments and activities at not less than the fiscal year 2021 enacted levels. The Bureau is directed to provide a briefing and a spend plan to the Committees on Marine Minerals Program activities for fiscal year 2022 within 45 days of enactment of this Act.

The agreement does not include the language in House Report 117-83 under the heading “General Provision” within the Bureau of Ocean Energy Management related to OCS pre-leasing and leasing activities.

BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT
OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT
(INCLUDING RESCISSION OF FUNDS)

The bill provides \$205,848,000 for the Offshore Safety and Environmental Enforcement appropriation. This amount is partially offset through the collection of rental receipts, cost recovery fees and inspection fees totaling \$55,000,000, resulting in a net appropriation of \$150,848,000. Specific allocations at the activity level are contained in the table at the back of this explanatory statement. The bill also contains a rescission of \$10,000,000 from unobligated prior year funds.

The agreement does not include the language in House Report 117-83 under the heading “Offshore Decommissioning” related to per barrel fees on oil and gas offshore activities.

OIL SPILL RESEARCH

The bill provides \$15,099,000 for Oil Spill Research.

Arctic Oil Spill Research.—While domestic and international activities in the Arctic Ocean are increasing, research on marine safety and pollution prevention measures has not kept pace. The Bureau is directed to report to the Committees within 90 days of enactment of this Act on the need and feasibility of establishing or partnering with stakeholder research institutions on facilities that naturally have or can recreate Arctic marine conditions for oil spill detection and response research.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT
REGULATION AND TECHNOLOGY

The bill provides \$118,117,000 for the Regulation and Technology appropriation. Included are fixed costs and the following requested program increases: to establish an Indian lands program; to enhance diversity, equity, inclusion and accessibility capacity; and to restructure the Division of Acquisition Management. Specific allocations at the activity level are contained in the table accompanying this explanatory statement.

ABANDONED MINE RECLAMATION FUND

The bill provides \$149,980,000 for the Abandoned Mine Reclamation Fund appropriation. Of the funds provided, \$27,480,000 shall be derived from the Abandoned Mine Reclamation Fund and \$122,500,000 shall be derived from the General Fund. Included are fixed costs and the following requested program increases: for Federal emergency reclamation projects; to assume responsibility for reclamation of sites on certain Indian lands; to enhance diversity, equity, inclusion and accessibility capacity; and to restructure the Division of Acquisition Management. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Abandoned Mine Land Economic Revitalization (AMLER).—The bill provides a total of \$122,500,000 for grants to States and federally recognized Indian Tribes for the reclamation of abandoned mine lands in conjunction with economic and community development and reuse goals. For fiscal year 2022, \$79,890,000 shall be divided equally between the three Appalachian States with the largest unfunded needs for the reclamation of Priority 1 and Priority 2 sites as delineated in the AML Inventory System; \$31,956,000 shall be divided equally between the next three Appalachian States with the largest unfunded needs for the reclamation of Priority 1 and Priority 2 sites as delineated in the AML Inventory System; and \$10,654,000 shall be for grants to federally recognized Indian Tribes. The Office is expected to continue to follow the additional program direction provided in Senate Report 116-123.

INDIAN AFFAIRS
BUREAU OF INDIAN AFFAIRS
OPERATION OF INDIAN PROGRAMS
(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,820,334,000 for Operation of Indian Programs. All programs, projects, and activities are maintained at fiscal year 2021 enacted levels, except requested fixed costs and internal transfers, or unless otherwise specified below. For this and all other Bureau accounts funded in this bill, Indian Affairs is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Language contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) regarding Missing and Murdered Indigenous Women (MMIW), advanced training for public safety and justice training needs, and Indian Police Academy is restated. Additional details, instructions, and requirements are included below and in the table at the end of this division. Indian Affairs is reminded of the importance of meeting reporting requirement deadlines so that the Committees can properly evaluate programs. Failure to do so could negatively impact future budgets.

Tiwahe.—The bill includes additional funds as noted below under Human Services and are to be used to expand the Tiwahe Initiative to more Tribes for human services-related Tiwahe activities. Further, the Committees expect funding to existing Tiwahe pilot programs to continue in the same amounts to the same recipients, including funding to support women and children's shelters. Finally, the Committees received the Federal and Tribal reports on the Tiwahe Initiative, which include recommendations on future action and expansion. The Bureau of Indian Affairs (BIA) is directed to submit a plan on how to expand the program to all Tribes incrementally along with a strategy on how to consider existing pilot programs during any expansion and be consistent with the final report and available funding.

Tribal Government.—The agreement provides \$355,424,000 for Tribal government programs, which includes an additional \$2,000,000 for Small and Needy Tribes and an additional \$1,000,000 for Tribal government program oversight for requested uses. The Committees have consistently included funding and directives regarding the Small and Needy Tribes supplement and are concerned about the overall administration of this important program. Within 180 days of enactment of this Act, the Bureau shall provide a report that includes a full listing of Tribes currently eligible for this program and clearly identify whether each Tribe is receiving the full level of funding defined under the current program criteria as well as a status of efforts to update the formula for the program. The report should include input gathered from Tribes during consultation.

The agreement also continues funding at fiscal year 2021 levels for school bus roads and NATIVE Act funding in the Road Maintenance program. The Committees direct the Bureau to report back within 60 days of enactment of this Act on funds that have not been utilized for roads along with a strategy outlining how to meet the increased demand to address tourism needs across Indian Country. The Committees encourage the Bureau to provide technical assistance to the maximum extent practicable to recently federally recognized Tribes on how best to leverage funding through existing programs. The Bureau is further directed to provide to the Committees within 120 days of enactment of this Act an analysis of Alaska Natives' eligibility for both Housing Improvement Program mortgage assistance grants and mortgages, as well as any barriers to affording new, energy-efficient homes in western Alaskan villages off the road system.

Human Services.—The bill provides \$164,310,000 for human services programs, which includes \$53,292,000 for Social Services (TPA) and \$78,494,000 for welfare assistance. Within these funds, an additional \$2,000,000 is to expand the Tiwahe Initiative to new sites, as noted above, \$1,000,000 is to implement the Indian Child Protection and Family Violence Prevention Act as proposed, and an additional \$500,000 is for a general program increase for welfare assistance. An additional \$500,000 is included to implement section 202 of the Indian Child Welfare Act (25 U.S.C. §1932), for a total of \$17,313,000 for the Indian Child Welfare Act program.

Trust – Natural Resources Management.—The bill provides \$302,927,000 for natural resources management programs, which continues funding at the fiscal year 2021 enacted level for the Everglades. For Natural Resources (TPA), the agreement provides \$14,250,000, which includes an additional \$1,000,000 for the Indian Youth Service Corps and a \$3,000,000 general program increase. Land acquisitions for newly recognized or landless Tribes are fully funded at the authorized level of \$2,000,000. BIA is encouraged to work with the committees of jurisdiction to evaluate whether a change in the authorization is warranted.

The Committees understand the Bureau is utilizing funding to plug abandoned wells in the Mineral Estate. The Committees direct the Bureau to report back to the Committees within 180 days of enactment of this Act outlining an initial estimate of the number of plugged and unplugged wells, along with estimated costs for those wells that are ready to be completed, which entails well bore abandonment in the mineral estate and well site remediation and restoration on the surface estate. It is understood that the final estimated number of unplugged wells and the associated cost estimates to address will continue to be revised as BIA realty processing is completed to identify presence or absence of responsible parties.

The Committees are aware that some Tribal communities have a significant problem with trash collection and disposal, but comprehensive data on the scope of the problem does not exist. The Bureau is

directed to conduct an assessment of how Tribes collect and dispose of trash and report to the Committees within 120 days of enactment of this Act.

The agreement provides \$45,687,000 for Rights Protection Implementation, which maintains \$1,500,000 for law enforcement needs and includes an additional \$1,700,000 for operations and maintenance, both as required to implement the Columbia River In-Lieu and Treaty Fishing Access Sites Improvement Act (Public Law 116–99). The agreement also includes a \$1,000,000 general program increase. The agreement provides \$14,459,000 for Tribal management/development programs, which includes an additional \$1,000,000 to implement Public Law 116-260 with respect to the return of the National Bison Range to the Confederated Salish and Kootenai Tribe as outlined in the budget request. Funding is continued at fiscal year 2021 enacted levels for pilot projects and programs for Alaska subsistence activities. The Committees are aware the Bureau has entered into cooperative agreements with Ahtna Inter-Tribal Resource Commission and the Kuskokwim River Inter-Tribal Fisheries Commission, and has initiated similar agreements with other organizations. Therefore, the Committees expect these pilot projects and programs to continue, and the Bureau is expected to keep the Committees apprised of changes to the distribution methodology. An additional \$1,000,000 is included for Endangered Species for uses proposed in the budget request.

For Tribal Climate Resilience, the agreement includes \$31,971,000. This includes \$5,000,000 for Tribal climate adaptation grants and \$8,000,000 for Tribal relocation grants, for which all Tribes shall be eligible. For agriculture and range programs, the bill provides \$37,827,000. This amount includes an additional \$1,000,000 for the invasive species program.

The Committees remind the Bureau that the Denali Commission was designated as the lead coordinating agency for Alaska Native village relocation in 2015, and the Commission has been leading the efforts since then. The Committees recommend the Bureau work closely with the Commission in order to avoid duplication of work and to take advantage of the Commission's expertise in the area when considering relocation grants.

For the Forestry Programs, the agreement provides \$60,277,000, which provides a \$3,000,000 general program increase for the Forestry Program (TPA) and an additional \$2,000,000 for Forestry Projects. The Committees have heard concerns from Tribes that BIA is not providing funding to support the management of trust lands described in Public Law 115-103. The Bureau is directed to brief the Committees within 90 days of enactment of this Act on how to address these concerns.

The Committees note that many Tribal communities are at a heightened risk of wildfire. In order to address the risks, the Committees direct the Bureau to consider pre-fire detection technologies and adopt strategies for their implementation. The Committees also direct the Bureau to provide a report within one year of enactment of this Act summarizing the fire detection deficits across Tribal lands.

For Water Resources programs, the agreement recommends \$15,802,000. This includes an additional \$2,000,000 for Water Resources (TPA) and an additional \$500,000 to partially fund the request for water management, planning and pre-development. For Fish, Wildlife and Parks programs, the agreement includes \$20,506,000, which provides a \$2,000,000 general program increase for Wildlife and Parks (TPA) and an additional \$1,000,000 for Fish, Wildlife, and Parks Projects for operation of fish hatcheries. Within Minerals and Mining, an additional \$4,804,000 is provided for uses as outlined in the budget request.

Funding is continued at the fiscal year 2021 enacted level for the Assistant Secretary for Indian Affairs to continue its support for ongoing Tribal cultural resource investigations in the Chaco Canyon region of the Southwest. The Committees understand the investigation and reports will be completed with base funds in 2022.

Trust – Real Estate Services.—The bill provides \$150,190,000 for Real Estate Services, of which \$3,000,000 is to begin remediating open dumps and prepare for other environmental quality challenges, and \$3,326,000 is to demolish and abate vacant BIA buildings at Shiprock as detailed in the budget request. Funding is continued at fiscal year 2021 enacted levels with fixed costs for the Alaska Native Claims Settlement Act historical places. The Committees are concerned with the Department's policy restricting Osage Nation access to its own trust records without a FOIA request. The Department should work with the Nation to discover a way to provide ready access to the records needed by the Nation and its members.

Public Safety and Justice.—The bill provides \$546,280,000 for public safety and justice programs. For Criminal Investigations and Police Services, the agreement includes \$297,676,000. This amount includes an additional \$4,000,000 to purchase bodyworn cameras and \$7,500,000 as a general program increase. Funding for MMIW cold cases, background checks to hire more law enforcement officers, opioid addiction assistance, and law enforcement to implement the Native American Graves Protection and Repatriation Act (NAGPRA) is continued at fiscal year 2021 enacted levels. The Committees remain concerned about theft, looting, and trafficking of sacred objects and items of cultural patrimony and note the importance of enforcing NAGPRA and related laws. The bill continues funding for opioids grants and provides flexibility in the use of funds for Tribes with unique circumstances that involve other illicit drugs as well.

The agreement includes \$62,000,000 to implement public safety changes resulting from the *McGirt v. Oklahoma* Supreme Court decision, which created an immediate and severe shortage of police and investigative personnel in the expanded Tribal criminal jurisdiction areas. BIA is directed to consult with impacted Tribes regarding the allocation of funds and to submit a subsequent reprogramming request to allocate portions of the funding to Detention/Corrections and Tribal Courts as necessary.

The Committees direct the Bureau, working with other Federal partners, to provide the Committees on Appropriations within one year of enactment of this Act a report on the training needs for Bureau law enforcement and Tribal law enforcement with a comprehensive plan on how to recruit, train, and fill vacancies. As part of this report, the Committees expect the Bureau to identify partnerships with Federal, State, and Tribal law enforcement entities for things such as facilities and hiring processes that could be utilized to address needs. The report should also identify potential legislative changes to improve recruitment and retention.

The agreement includes \$113,369,000 for Detention/Corrections, which includes a \$5,000,000 general increase, and continues the increases for Indian country detention facilities and background checks provided in fiscal year 2021. Due to reports of high numbers of deaths in BIA-funded detention facilities, the Committees direct the Office of the Inspector General (OIG) to follow-up on closed OIG recommendations to determine whether changes made by BIA in response to prior recommendations are being implemented correctly. As part of the review, the Committees expect the OIG to examine appropriations provided for Detention/Corrections in prior years to determine how the funds were spent and whether they were spent correctly. This review should begin no later than 60 days of enactment of this Act.

The agreement includes \$24,898,000 for Law Enforcement Special Initiatives, of which an additional \$5,000,000 is to continue addressing the MMIW effort, as requested. The Committees expect the Bureau to provide a comprehensive review of the MMIW Initiative to the Committees within 120 days of enactment of this Act, including all activities and associated funding by line, fund distribution, number of cold cases resolved, FTEs, law enforcement vacancies in each Bureau region (even if not MMIW related), as well as the number of public safety and justice background checks by activity pending as of the date of enactment of this Act. Funding for the Tiwahe recidivism initiative, equipment to collect and preserve evidence at crime scenes, and victim witness specialists is continued at fiscal year 2021 enacted levels.

For Tribal Justice Support, \$30,809,000 is provided, which continues \$3,000,000 to implement and ensure compliance with the Violence Against Women Act and provides an additional \$4,000,000 to address the needs of Tribes affected by Public Law 93-280 as outlined in the Senate Report 116-123.

An additional \$5,000,000 is included for Tribal Courts (TPA) for a total of \$43,169,000, of which no more than \$1,000,000 may be used for operation and maintenance of courts, as requested.

Community and Economic Development.—The bill provides \$29,353,000 for community and economic development programs, which includes \$13,401,000 for Job Placement and Training (TPA), \$5,218,000 for Economic development (TPA), of which an additional \$2,000,000 is provided for business incubators, and \$10,734,000 is for community development central oversight, of which an additional

\$1,500,000 is to implement the NATIVE Act. The Committees direct funding of not less than \$7,500,000 be used for grants to Tribes, Tribal organizations, and Native Hawaiian organizations to carry out Public Law 114-22. The agreement includes an additional \$1,500,000 for grants to federally recognized Indian Tribes and Tribal organizations to provide native language instruction and immersion programs to Native students not enrolled at BIE schools, including those Tribes and organizations in states without Bureau-funded schools.

Executive Direction and Administrative Services.—The bill includes \$270,600,000 for executive direction and administrative services, of which: \$19,409,000 is for Assistant Secretary support, which includes an additional \$500,000 to implement the PROGRESS Act, \$800,000 to establish the Diversity and Inclusion program for BIA and OST, and \$7,000,000 to implement the Native boarding school initiative to review past boarding school policies and to prepare a report on future efforts required to address this past wrong. Within Administrative Services (Central), an additional \$2,800,000 is provided for uses as requested, and within Information Resources Technology, a \$6,200,000 increase is provided for uses as requested. The bill includes \$1,250,000 for Special Initiatives identified in table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” included at the end of this division.

INDIAN LAND CONSOLIDATION

The bill establishes a new account as requested and provides \$7,000,000 for Indian Land Consolidation. Within 30 days of enactment of this Act, the Bureau is directed to submit administrative expense estimates and performance metrics, including the proposed number of fractionated interests to be purchased and acreage consolidated. Going forward, the Bureau is expected to include this data in the annual budget justification.

CONTRACT SUPPORT COSTS

The bill provides an indefinite appropriation for contract support costs, consistent with fiscal year 2021 and estimated to be \$240,000,000 in fiscal year 2022.

PAYMENTS FOR TRIBAL LEASES

The bill provides an indefinite appropriation for payments under section 105(l) of the Indian Self-Determination and Education Assistance Act, consistent with fiscal year 2021 and estimated to be \$36,593,000 in fiscal year 2022.

CONSTRUCTION
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$146,769,000 for Construction. All programs, projects, and activities are maintained at fiscal year 2021 levels, except for requested fixed cost and transfers, or unless otherwise specified below.

Public Safety and Justice Construction.—The bill provides \$47,811,000 for public safety and justice construction and includes the following: \$30,500,000 for facilities replacement and new construction, which includes a \$5,000,000 general program increase; \$4,494,000 for employee housing; \$9,372,000 for facilities improvement and repair; \$171,000 for fire safety coordination; and \$3,274,000 for fire protection.

The Bureau is expected to distribute funds provided in this Act to expeditiously complete construction of adult detention center projects that were previously awarded. Remaining amounts should be considered available for all public safety and justice facilities, consistent with previous direction. Direction is provided for the Bureau to: (1) produce a plan on how to spend unobligated public safety and justice balances on facilities in poor condition; and (2) provide the plan to the Committees within 120 days of enactment of this Act.

The Committees note with concern the frustrations raised by the San Carlos Apache Tribe about replacement of the 'Building 86' public safety facility operated by the Tribe and directs the Bureau to continue to work with the Tribe, to the maximum extent practicable, on a mutually agreeable path forward. The Committees further direct the Bureau to brief the House and Senate Committees on Appropriations no later than 90 days after enactment of this Act on their current efforts to find a solution.

Resources Management Construction.—The bill provides \$74,060,000 for resources management construction programs. Within this amount, \$28,710,000 is for irrigation project construction, of which \$10,000,000 is continued for projects authorized by the WIIN Act (Public Law 114–322). The Committees expect the funds designated for WIIN Act activities will be deposited into the Indian Irrigation Fund to fund those projects authorized by Public Law 114–322. Further, the agreement includes \$2,706,000 for engineering and supervision; \$1,016,000 for survey and design; \$665,000 for Federal power compliance; and \$40,963,000 for dam safety and maintenance, of which \$2,500,000 is a general program increase. The Committees direct the Bureau to begin dam safety work expeditiously and to

provide a report to the Committees on the number of reservation dams in need of a safety review and hazard classification.

Other Program Construction.—The bill provides \$24,898,000 for other program construction and includes \$1,419,000 for telecommunications; \$4,069,000 for facilities and quarters, which includes \$150,000 for fleet management infrastructure; and \$19,410,000 for program management, which includes an additional \$10,000,000 for BIA to conduct an assessment of BIA-owned water systems, contractual support to implement projects, and address lead pipe issues at Indian Affairs infrastructure and an additional \$77,000 to continue the project at Fort Peck.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$1,000,000 for Indian Land and Water Claim Settlements and Miscellaneous Payments to Indians. These funds are supplemented in fiscal year 2022 by not less than \$1,368,560,000 appropriated in Public Law 117-58, ensuring that Indian Affairs will fully meet its statutory obligations for all authorized settlement agreements to date.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$11,833,000 for the Indian Guaranteed Loan Program Account to facilitate business investments in Indian Country.

BUREAU OF INDIAN EDUCATION OPERATION OF INDIAN EDUCATION PROGRAMS

Bureau of Indian Education.—The bill includes \$1,017,601,000 for Bureau of Indian Education (BIE) program operations. All programs, projects, and activities are maintained at fiscal year 2021 enacted levels, except for requested fixed costs and internal transfers, or unless otherwise specified below. For this and all other Bureau accounts funded in this bill, BIE is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Additional details, instructions, and requirements follow below and in the table at the end of this division. Language contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) regarding displaying amounts required to comply with Department of Defense Education Activity is restated.

Elementary/Secondary Programs.—The bill includes \$638,865,000 for Elementary/Secondary Programs. Tribal grant support costs are fully funded. An additional \$1,500,000 is included for Native language immersion grants at BIE-funded schools within education program enhancements and an additional \$5,000,000 is included for a general program increase for Indian Student Equalization Program Formula Funds.

Johnson O'Malley.—The agreement provides \$21,198,000, as requested.

Post-Secondary Programs (forward funded).—Post-secondary programs (forward-funded) are provided with \$113,283,000, as requested. The budget request did not include fixed costs for Tribal colleges and universities or Tribal technical colleges. Failure to request adequate resources to cover full fixed cost requirements results in schools having to absorb these escalating costs at the expense of other program requirements. BIE is directed to collect this information and include it in future budget requests. General program increases are also provided for Scholarships and Adult Education (TPA), special higher education scholarships, and science post graduate scholarships.

Education Management.—The agreement includes \$59,888,000 for education program management, which includes \$400,000 to establish a Diversity, Equity, Inclusion and Accessibility office and an additional \$8,401,000 for Education IT for requested uses. Within 90 days of enactment of this Act, BIE is directed to provide a detailed spend plan with timelines for the Education IT funds.

EDUCATION CONSTRUCTION

Education Construction.—The bill provides \$264,330,000 for schools and related facilities within the BIE system. All programs, projects, and activities are maintained at fiscal year 2021 levels, except for requested fixed costs and internal transfers, or unless otherwise specified below. Language contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) regarding Tribal college and university operations, maintenance and infrastructure needs is restated. The agreement includes the following: \$115,504,000 for replacement school campus construction; \$23,935,000 for replacement facility construction; \$1,000,000 for replacement/new employee housing; \$13,589,000 for employee housing repair; \$95,302,000 for facilities improvement and repair; and \$15,000,000 for Tribal colleges and universities' facilities requirements.

OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS
FEDERAL TRUST PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$109,572,000 for the Office of the Special Trustee for American Indians (OST) and rejects the proposed budget structure for a new Bureau of Trust Funds Administration (BTFA) within the Office of the Assistant Secretary-Indian Affairs. This should not be construed as interfering with the statutorily required sunset of OST. This amount includes fixed costs as requested and internal transfers to effectuate historical trust accounting. It does not include requested internal transfers for new employees, nor are any funds included for these positions. However, to ensure OST participates in the Department's Diversity, Equity, Inclusion and Accessibility initiative in support of Executive Orders 13985 and 13988, the agreement includes \$400,000 for Indian Affairs to perform these activities on OST's behalf until the future of OST is resolved.

The Committees remain concerned about whether OST has completed its duties and responsibilities under the 1994 Indian Trust Reform Management Act (Public Law 103-412). In fiscal year 2019, Congress adopted the Department's proposal to shift OST's reporting structure from the Secretary to the Assistant Secretary - Indian Affairs. Congress did not adopt a proposal providing the Department with unilateral authority to create a new budget structure and bureau under Indian Affairs. The Department's actions over the past years with respect to this issue are concerning. In fiscal year 2021, Congress rejected the proposed budget structure for BTFA and continued funding OST. Yet the Department continues to take actions to establish BTFA, including taking steps towards formalizing BTFA by referencing BTFA in regulations despite BTFA not having been approved and not providing sufficient information to demonstrate compliance with Public Law 103-412. In addition, Congress expected the Department to consult with Tribes on the future of OST and its duties. Instead, the Department consulted on how BTFA should perform OST's functions.

The Committees continue to need additional information to evaluate the best path forward for any remaining OST functions and responsibilities once OST sunsets. The Government Accountability Office (GAO) has yet to complete its work directed by Congress in fiscal year 2021, in part because the Department has not provided GAO with requested information in a timely manner. The Committees are committed to working with the Department on a path forward to fulfill its trust responsibilities. Therefore, the Department is expected to work with GAO and provide the requested information in a timely manner to help the Committees make a more informed decision.

DEPARTMENTAL OFFICES
OFFICE OF THE SECRETARY
DEPARTMENTAL OPERATIONS
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$123,367,000 for the Office of the Secretary, Departmental Operations appropriation. Specific allocations at the activity level are contained in the table at the back of this explanatory statement. Fixed costs are provided as requested. Within the Executive Direction activity, the proposed transfer is accepted. Within the Leadership and Administration activity, funds are included to carry out activities in support of the Secretary's responsibilities under the Hawaiian Home Lands Recovery Act. The Department is directed to maintain the Office of Native Hawaiian Relations within the Office of the Assistant Secretary for Policy, Management, and Budget.

Wild Horse and Burro Task Force.—The Secretary is to establish a task force to bring experts from all relevant Interior Bureaus together to address the challenge of wild horses and burros as outlined in the beginning of this division. This task force is to have monthly meetings to review performance metrics, monitor outcomes, assess milestone achievements, and address any delays or setbacks to the implementation of the May 2020 report. The task force should analyze Federal investments and determine if any course correction is necessary. In subsequent years, task force membership will be expanded as previously outlined. The Secretary is to report to the Committees within 90 days of enactment of this Act on the establishment of this task force and a proposed meeting schedule.

INSULAR AFFAIRS ASSISTANCE TO TERRITORIES

The bill provides \$113,477,000 for Assistance to Territories. The detailed allocation of funding is included in the table at the end of this explanatory statement.

COMPACT OF FREE ASSOCIATION

The bill provides \$8,463,000 for Compact of Free Association, equal to the fiscal year 2021 enacted level. A detailed table of funding recommendations below the account level is provided at the end of this explanatory statement.

The agreement includes \$5,000,000 as the third payment towards the \$20,000,000 requested by the Republic of the Marshall Islands in September 2009, as authorized in section 111(d) of the Compact of Free Association Act of 1986 (Public Law 99-239; 99 Stat. 1799; 48 USC 1911) and section 108(b) of the Compact of Free Association Amendments Act of 2003 (Public Law 108-188; 117 Stat. 2755; 48 USC 1921g).

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The bill provides \$94,998,000 for the Salaries and Expenses appropriation within the Office of the Solicitor. Specific allocations at the activity level are contained in the table at the back of this explanatory statement. The Committees provide fixed costs and internal transfers, as requested. Remaining funds may be used to fund necessary costs required for office moves. To the extent funding is available, the Committees urge the office to consider further increases to staffing to address the department-wide backlog of pending Freedom of Information Act (FOIA) requests. FOIA Office staff are directed to brief the Committees semiannually on their efforts related to the backlog.

OFFICE OF INSPECTOR GENERAL SALARIES AND EXPENSES

The bill provides \$62,132,000 for the Office of Inspector General.

DEPARTMENT-WIDE PROGRAMS WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,026,097,000 for Department of the Interior Wildland Fire Management. Combined with \$330,000,000 appropriated in the Wildfire Suppression Operations Reserve Fund, the total amount for fire suppression operations at the Department is \$713,657,000. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Other Operations.—The bill provides \$271,897,000 for other wildland fire management operations. Within hazardous fuels, funding is included for Reserved Treaty Rights Lands for Tribal Nations to participate in collaborative projects with other landowners supporting the health and resiliency of priority Tribal resources at high risk to wildfire. The Department is directed to provide a briefing to the Committees within 60 days of enactment of this Act on the proposed distribution of hazardous fuels funding to its component bureaus, the allocation methodology, and how it takes into account areas with special designations, such as the Oregon and California Grant Lands. The Department is directed to provide \$4,000,000 to the Joint Fire Science program for fiscal year 2022, which combined with funding in the Forest Service provides \$8,000,000 in total. Direction related to the Joint Fire Science Program is included under the Forest and Rangeland Research heading in House Report 117-83. The Department shall report at the end of each fiscal year the number of acres treated by prescribed fire, mechanical fuels

reduction, and thinning activities, as well as the acres treated in wildland urban interface and the costs associated with such activities.

WILDFIRE SUPPRESSION OPERATIONS RESERVE FUND
(INCLUDING TRANSFERS OF FUNDS)

The bill includes \$330,000,000 for the Wildfire Suppression Operations Reserve Fund, which is \$20,000,000 above the enacted level. S. Con. Res. 14 (117th Congress), the concurrent resolution on the budget for fiscal year 2022, included a budget cap adjustment for wildfire suppression costs and this additional funding is included for fiscal year 2022.

CENTRAL HAZARDOUS MATERIALS FUND

The bill provides \$10,036,000 for the Central Hazardous Materials Fund appropriation.

ENERGY COMMUNITY REVITALIZATION PROGRAM
(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$5,000,000 for the Energy Community Revitalization Program. The funding provided allows entities to inventory, assess, decommission, reclaim, respond to hazardous substance releases, and remediate abandoned hardrock mines, orphaned oil and gas wells, and orphaned infrastructure, including but not limited to, facilities, pipelines, structures or equipment used in energy production operations, as authorized by law. Public Law 117-58 provided \$4,700,000,000 for orphan oil and gas well cleanup. Therefore, this agreement directs that the priority focus for this funding be to address abandoned hardrock and non-coal mine sites, including sand and gravel pits and abandoned uranium mines on Federal, State, Indian, and other non-Federal lands. In subsequent fiscal years, the Committees will examine the status of the remediation of abandoned hardrock mines and orphaned oil and gas wells and their associated infrastructure and direct how appropriated resources should be allocated.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION
NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The bill provides \$7,933,000 for the Natural Resource Damage Assessment Fund appropriation. Specific allocations at the activity level are contained in the table at the back of this explanatory statement.

WORKING CAPITAL FUND

The bill provides \$91,436,000 for the Working Capital Fund appropriation.

OFFICE OF NATURAL RESOURCES REVENUE

The bill provides \$169,640,000 for the Natural Resources Revenue appropriation of which \$1,000,000 is to support Osage Trust Accounting activities as requested.

Distribution of GOMESA Revenues.—The Office is directed to distribute revenues from Gulf of Mexico operations in a manner consistent with current law, including the Gulf of Mexico Energy Security Act (GOMESA) of 2006 (Public Law 109-432), as amended.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR (INCLUDING TRANSFERS OF FUNDS)

The bill includes various legislative provisions affecting the Department in Title I of the bill, “General Provisions, Department of the Interior.” The provisions are:

Section 101 provides Secretarial authority for the intra-bureau transfer of program funds for expenditures in cases of emergencies when all other emergency funds are exhausted.

Section 102 provides for the Department-wide expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Section 103 provides for the use of appropriated funds by the Secretary for contracts, rental cars and aircraft, telephone expenses, and other certain services.

Section 104 provides for the expenditure or transfer of funds from the Bureau of Indian Affairs and Bureau of Indian Education, and the Office of the Special Trustee for American Indians, for Indian trust management and reform activities.

Section 105 permits the redistribution of Tribal priority allocation and Tribal base funds to alleviate funding inequities.

Section 106 authorizes the acquisition of lands for the purpose of operating and maintaining facilities that support visitors to Ellis, Governors, and Liberty Islands.

Section 107 continues Outer Continental Shelf inspection fees to be collected by the Secretary of the Interior.

Section 108 provides the Secretary of the Interior with authority to enter into multi-year cooperative agreements with non-profit organizations for long-term care of wild horses and burros.

Section 109 addresses the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks.

Section 110 allows the Bureau of Indian Affairs and Bureau of Indian Education to more efficiently and effectively perform reimbursable work.

Section 111 provides for the establishment of a Department of the Interior Experienced Services Program.

Section 112 requires funds to be available for obligation and expenditure not later than 60 days after the date of enactment.

Section 113 provides the Secretary of the Interior the ability to transfer funds among and between the Bureau of Indian Affairs and the Bureau of Indian Education.

Section 114 provides funding for the Payments in Lieu of Taxes (PILT) program.

Section 115 directs notification of any deviation in procedure or equipment.

Section 116 allows the National Park Service to convey lands for purposes of transportation and recreation for a specific project.

Section 117 authorizes Tribally controlled schools access to interagency motor vehicles in the same manner as if performing activities under the Indian Self Determination and Education Assistance Act.

Section 118 extends the authorization for the Delaware Water Gap National Recreation Area.

Section 119 addresses National Heritage Areas.

Section 120 authorizes the Secretary of the Interior to conduct a study to evaluate resources associated with the 1965 Voting Rights March from Selma to Montgomery.

Section 121 modifies a provision on the exhaustion of administrative review.

Section 122 provides the Secretary of the Interior with certain pay authority for the Appraisal and Valuation Services Office.

Section 123 addresses the issuance of rules for sage-grouse.

TITLE II – ENVIRONMENTAL PROTECTION AGENCY

The agreement provides \$9,559,485,000 for the Environmental Protection Agency (EPA). The Agency is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Additional details, instructions, and requirements follow below and in the table at the end of this division.

Congressional Budget Justification.—The Committees direct the Agency to include in future justifications the provisions included in the joint explanatory statement accompanying Public Law 116-260.

Operating Plan.—Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for fiscal year 2022. The operating plan shall adhere to the program area levels, and where applicable, the program project levels, specified within this explanatory statement. For program project levels not otherwise specified herein, the operating plan should detail how the Agency plans to allocate funds at the program project level. Further, the budgets of each major office should be itemized to indicate the source of funds for each major office by program project level. Further, the Agency is directed to continue the longstanding practice of submitting quarterly statement of balances reports, and the Agency is directed to display data separately for both the current fiscal year and the prior fiscal year.

Workforce and Staffing Plans.—The Committees direct the Agency to adhere to the provisions included in the joint explanatory statement accompanying Public Law 116-260.

PFAS and Contaminants of Emerging Concern.—The Committees encourage the Agency to continue to take action on PFAS, including addressing contamination, advancing clean up and treatment solutions, conducting research, and undertaking needed rulemaking actions. Within 60 days of enactment of this Act, the Agency is directed to brief the Committees on planned fiscal year 2022 PFAS-related actions and provide the Committees with a spend plan that details funding at the program project level.

Combination of Separate Fiscal Year Grant Funding.—The Committees continue the directive contained in the joint explanatory statement accompanying Public Law 116-260.

SCIENCE AND TECHNOLOGY

For Science and Technology programs, the agreement provides \$750,174,000. The bill transfers \$30,985,000 from the Hazardous Substance Superfund account to this account. The agreement provides the following specific funding levels and direction:

Clean Air.—The agreement provides \$134,314,000 for Clean Air. The Committees are aware of a strong interest from a number of stakeholders to generate Renewable Fuels Standard credits from renewable electricity, also referred to as “eRINS”. The Committees understand that EPA is planning to

propose to revise the existing EPA regulations related to eRINs as part of a future rulemaking action. The Committees urge the Agency to undertake this rulemaking in a timely manner to provide transparency and clarity for all stakeholders and direct the Agency to brief the Committees on its progress within 180 days of the enactment of this Act.

Research: Air and Energy.—The agreement provides \$95,406,000 for Research: Air and Energy. Within available funds, the Committees continue funding for the study under the heading “Partnership Research” contained in the explanatory statement of Public Law 115–141.

Research: Chemical Safety and Sustainability.—The agreement provides \$127,447,000 for Research: Chemical Safety and Sustainability. Of the funds provided, \$1,500,000 shall be used to develop and demonstrate nano-sensor technology with functionalized catalysts that have potential to degrade selected contaminants in addition to detecting and monitoring pollutants.

Research: National Priorities.—The agreement provides \$11,430,000 for Research: National Priorities, including \$8,500,000 for extramural research grants, independent of the Science to Achieve Results (STAR) grant program, as specified under this heading in Public Law 116–260.

The agreement provides \$2,000,000 in congressionally directed spending to study the feasibility of establishing PFAS treatment facilities for surface water and groundwater across the State of Alaska, including mobile treatment systems. The bill also includes \$50,000 in congressionally directed spending to support harmful algal bloom monitoring in the Kodiak region of Alaska for purposes of studying the public health and environmental impacts of harmful algal blooms in the region, and \$80,000 in congressionally directed spending for research to assess wastewater infrastructure in Delaware that is vulnerable to PFAS contamination and to research and identify possible sources of PFAS contamination. The bill provides \$800,000 in congressionally directed spending to support the establishment of a Center for Wildfire Smoke Research and Practice to study the effects on public health of smoke emissions from wildland fires as well as the means by which communities can better respond to and protect against the impacts of emissions from wildland fires. Further detail on these projects is located in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” accompanying this explanatory statement.

Research: Safe and Sustainable Water Resources.—The agreement provides \$112,574,000 for Research: Safe and Sustainable Water Resources. Of the funds provided, up to \$3,000,000 shall be used for grants under section 2007 of America’s Water Infrastructure Act (P.L. 115–270). Additionally, consistent with House Report 117-83 direction, the agreement provides up to \$1,000,000 for the Agency to use existing tools and capabilities under the Clean Water Act to address alpine lake water quality and resilient uplands management.

Of funds provided, at least \$4,000,000 is to be used for research for Enhanced Aquifer Use and Recharge. The Agency shall distribute funds to appropriate Research Centers to carry out research activities that would directly support groundwater research on Enhanced Aquifer Recharge (EAR), including support of sole source aquifers; to work collaboratively with the U.S. Geological Survey to carry out these activities; and to partner, through cooperative agreements, contracts, or grants, with universities, Tribes, and water related institutions for planning, research, monitoring, outreach, and implementation in furtherance of EAR research.

Additional Guidance.—The following additional guidance is included:

Advanced Biofuels from Canola Oil.—In addition to House guidance on “Pathways for Renewable Fuel,” the Committees note that the Agency receives petitions for renewable fuel pathways that would enhance feedstock flexibility and support growth in the production and use of advanced biofuels. The Committees are aware that the Agency received a petition to include pathways for renewable diesel produced from canola oil as advanced biofuel. The Committees encourage the Agency to expedite review and report to the Committees on the status of the petition if a determination is not made within two years of the date of submission.

Framework for Cumulative Risk Assessment.—In lieu of the directive in House Report 117-83, the Agency is directed to brief the Committees on the Framework for Cumulative Risk Assessment and any planned reviews of the Framework.

Harmful Algal Blooms.—The agreement provides \$6,000,000 and the Agency is directed to follow the guidance in House Report 117-83 and Senate Report 116-123.

Health Outcomes and Links to Pollution.—In lieu of direction under the heading “Coronavirus Health Outcomes and Links to Pollution” in House Report 117-83, the Committees encourage the Agency to investigate any linkages between exposure to pollution and increased risk for adverse health outcomes from communicable respiratory diseases.

Integrated Risk Information System (IRIS) program.—In lieu of the directive in House Report 117-83 under the heading “Maintaining IRIS Program Integrity,” the Committees direct the Agency to continue the IRIS program within the Office of Research and Development and to utilize the IRIS program to support the Agency’s mission to protect human health and the environment.

Landfill Emissions Research.—The Committees encourage the Agency to prioritize efforts to refine greenhouse gas and air pollutant measurement. Municipal solid waste landfills continue to be a significant source of greenhouse gas and hazardous air pollutant emissions. The Committees direct that at least \$1,000,000 be used by the Office of Research and Development to support research grants to quantify emissions of methane and hazardous air pollutants from landfills using the most effective technologies, including near-infrared imaging from satellites, and, during the times the emissions are

measured, any quantity of methane captured by the landfill gas collection system, as well as strategies to reduce such emissions across the municipal waste management lifecycle, with a focus on diversion of organic discards from landfills for composting and digesting.

Microplastics.—The Committees note the growing concern regarding pervasive microplastic pollution. The Committees support the Agency's research on microplastics in water supplies and encourage the Agency to accelerate efforts to characterize the risks to human and ecosystem health as well as potential solutions. The Committees direct the Agency to brief the Committees on these efforts within 180 days of enactment of this Act.

Non-vertebrate Testing Methods.—The Committees note that Public Law 114–182 (the Lautenberg Act) directed the Agency to update Congress on efforts to advance non-animal testing and goals for future alternative test methods and strategies implementation. The Agency is directed to brief the Committees on its efforts as well as the Agency's experience with submitters developing information by means of an alternative test method or strategy before conducting new vertebrate animal testing, consistent with Section 4(h)(3)(A) of the Act. The Committees also note that new approach methodologies (NAMs), including in vitro tests, in chemico assays and in silico models, represent key advances in science to support hazard and risk assessments of pesticides and chemicals. The Committees encourage the Agency to continue supporting and performing research on the development and evaluation of NAMs through the Chemical Safety for Sustainability National Research Program.

Science to Achieve Results (STAR) Grants.—The agreement provides funds to continue the STAR program and directs the Agency to distribute grants consistent with fiscal year 2021. The Committees also direct that funding for Children's Environmental Health and Disease Prevention be continued. The Committees support the efforts of the Agency to focus this funding on research related to early life stage, including prenatal, vulnerabilities to environmental stressors. The Agency is directed to brief the Committees on the program within 60 days of enactment of this Act.

Water Security Test Bed.—Consistent with House Report 117-83 direction, the agreement provides up to \$1,000,000 for advancing full scale applied research and testing capabilities to address threats to drinking water and associated infrastructure at Water Security Test Bed facilities.

Wildfire Smoke Research.—The Committees note with concern the adverse health effects that smoke from wildfires has on impacted communities. The Committees encourage the Agency to expand its efforts to identify methods to reduce smoke exposure during wildfire episodes and improve wildfire smoke monitoring and prediction.

For Environmental Programs and Management, the bill provides \$2,964,025,000. The agreement provides the following specific funding levels and direction:

Clean Air.—The agreement provides \$290,328,000 for Clean Air. The Committees recognize the value of and continues to support the EnergySTAR program and other programs where EPA works collaboratively with non-governmental entities to identify beneficial methods to reduce emissions, reduce pollution, or increase efficiency.

Compliance.—The agreement provides \$103,500,000 for Compliance.

Enforcement.—The agreement provides \$335,934,000 for Enforcement, of which, \$94,159,000 is for environmental justice to make significant progress implementing tasks outlined in the “EJ 2020 Action Agenda,” and to continue its EJ grant programs. The budget structure for Environmental Justice remains consistent with prior years. In lieu of the House directives regarding Environmental Justice contained in House Report 117-83, the Agency is directed to provide the Committees with a spend plan 30 days after enactment of this Act and to provide a subsequent comprehensive briefing on how Environmental Justice work will be conducted across the Agency. Concurrently, the Committees expect the Agency to outline a comprehensive Environmental Justice proposal in its fiscal year 2023 budget, including specifics about a proposed national program office and relevant program metrics, so that the proposal can be transparently considered by all stakeholders.

Environmental Protection: National Priorities.—The agreement provides \$25,700,000, an increase of \$4,000,000 above the enacted level, for a competitive grant program for qualified non-profit organizations to provide technical assistance for improved water quality or safe drinking water, adequate waste-water to small systems, or individual private well owners. The Agency shall provide \$22,000,000 for Grassroots Rural and Small Community Water Systems Assistance Act (Public Law 114–98), for activities specified under section 1442(e) of the Safe Drinking Water Act (42 U.S.C. 300j-1(e)(8)). The Agency is also directed to provide \$2,700,000 for grants to qualified not-for-profit organizations for technical assistance for individual private well owners, with priority given to organizations that currently provide technical and educational assistance to individual private well owners. The Agency is directed to provide on a national and multi-State regional basis, \$1,000,000 for grants to qualified organizations for the sole purpose of providing on-site training and technical assistance for wastewater systems. The Agency shall require each grantee to provide a minimum 10 percent match, including in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

Geographic Programs.—The agreement provides \$587,192,000 as described in the table at the end of this division, and includes the following direction:

Great Lakes Restoration Initiative.—The agreement provides \$348,000,000 for the Great Lakes Restoration Initiative. The Agency shall continue to follow the direction as provided in House Report 117-83 and Senate Report 115–276 related to the Great Lakes Restoration Initiative.

Chesapeake Bay.—The agreement provides \$88,000,000 for the Chesapeake Bay program. From within the amount provided, \$9,625,000 is for nutrient and sediment removal grants and \$9,625,000 is for small watershed grants to control polluted runoff from urban, suburban, and agricultural lands, and \$7,250,000 is for state-based implementation in the most effective basins.

San Francisco Bay.—The agreement provides \$24,000,000 for the San Francisco Bay program. The Committees direct the Agency to undertake priority activities within the San Francisco Bay estuary Comprehensive Conservation and Management Plan approved under section 320 of the Clean Water Act.

Puget Sound.—The agreement provides \$34,250,000 for Puget Sound and the Agency is directed to follow the guidance in House Report 117–83.

Long Island Sound.—The agreement provides \$31,400,000 for the Long Island Sound program and the Agency is directed to follow the guidance in House Report 117-83.

South Florida.—The agreement provides \$7,500,000 for the South Florida program. Within the funds provided, the Committees recommend at least \$1,750,000 to monitor coral health in South Florida; \$1,025,000 to enhance water quality and seagrass monitoring in the Caloosahatchee Estuary and Indian River Lagoon, especially with respect to assessing the impact of Lake Okeechobee discharges and harmful algal blooms; and \$1,025,000 to enhance water quality and seagrass monitoring in Florida Bay and Biscayne Bay, especially with respect to assessing the impact of Everglades Restoration projects and harmful algal blooms.

Gulf of Mexico.—The agreement provides \$22,447,000 for the Gulf of Mexico Geographic Program. The Committees note that hypoxia continues to be a growing cause for concern. The Committees direct the Agency to coordinate with the Department of Agriculture, the Gulf States, and other State, local, and private partners to leverage greater resources toward conservation projects on working-lands within the Gulf Region and Mississippi River Basin. The Agency is directed to distribute funds in the same manner as fiscal year 2021.

Lake Champlain.—The agreement provides \$20,000,000 for the Lake Champlain program. From within the amount provided, \$12,000,000 shall be allocated through the Lake Champlain Basin Program and the remaining amount shall be directed to support significant, impactful projects identified in the State implementation plan that will make measurable progress towards meeting the phosphorus reduction targets of the EPA's 2016 Phosphorus Total Maximum Daily Load Plan for Lake Champlain.

Southern New England Estuaries.—The agreement provides \$6,000,000 for the Southern New England Estuaries program and the Agency is directed to follow the guidance in House Report 117-83.

Great Lakes and Lake Champlain Invasive Species Program.—The Committees appreciate receiving the Agency's recent plan on its previous and planned actions to implement the Great Lakes and Lake Champlain Invasive Species Program as authorized by the Vessel Incident Discharge Act (Public Law 115-282). In fiscal year 2022, the Committees expect the Agency to implement its plan expeditiously and direct the Agency to continue to use funds from the appropriate Geographic Programs to address invasive species in the Great Lakes and Lake Champlain.

Information Exchange/Outreach.—The agreement provides \$125,046,000 for Information Exchange/Outreach. Environmental Education is funded at not less than \$8,615,000. The Committees are concerned that the smart skin cancer education program has recently received insufficient attention from the Agency; therefore, the Agency is directed to use Environmental Education funds for the smart skin cancer education program, similar to prior years.

Resource Conservation and Recovery Act (RCRA).—The agreement provides \$120,075,000 for Resource Conservation and Recovery Act. Of the funds provided under this program area, \$9,000,000 is for implementation of a Federal permit program for coal combustion residuals in non-participating states, as authorized under section 4005(d)(2)(B) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)(2)(B)), or to provide technical assistance to states establishing their own permitting program under section 4005(d) of the Solid Waste Disposal Act (42 U.S.C. 6945(d)).

The Committees appreciate the work that EPA has done to improve recycling rates across the country, including through the National Recycling Strategy goal to increase the U.S. recycling rate to 50 percent by 2030. The Committees acknowledge the importance of the third goal laid out in the National Recycling Strategy: to improve markets for recycled content. The Committees recognize the need for a robust market for recycled content and provide \$1,000,000 to support activities that will improve markets for recycled materials, such as participating in the collaborative development of minimum recycled content standards for certain single-use products, reviewing and updating the products designated by EPA's Comprehensive Procurement Guidelines Program, assessing the extent to which toxic materials in plastics are re-incorporated into new products, and updating the recommended recycled-content levels of designated products. Additionally, consistent with House Report 117-83 direction, the agreement provides no less than \$1,000,000 for the Agency to work with relevant stakeholders to educate consumers and households about residential and community recycling programs and an additional \$1,000,000 for the Agency to assist communities with recycling infrastructure to help recapture valuable materials and divert biodegradable materials from landfilling to reduce the generation of methane gas.

The Committees provide \$1,500,000 for the Agency to enter into an agreement with the National Academy of Sciences to conduct a study of the costs of recycling programs to State, Tribal, local and municipal governments (including recycling fees paid directly by residents) and to include policy recommendations. The Agency is directed to provide a report to the Committees within 270 days after enactment of this Act.

The agreement does not include direction in House Report 117-83 under the heading “Reducing Plastic Waste in Commerce.”

Toxics Risk Review and Prevention.—The agreement provides \$98,060,000 for Toxics Risk Review and Prevention activities. The Committees are providing increased resources to help ensure the Agency can carry out EPA’s duties under the Toxic Substances Control Act (TSCA) as amended by the 2016 Lautenberg Act to bolster the transparency and scientific integrity of the program. The Committees remind the Agency that the Lautenberg Act established a shared responsibility for the taxpayer and industry to contribute their share to support the TSCA program. The Committees recognize that the Agency has repropose its TSCA Service Fees Rule and encourage the Agency to properly consider full costs in its deliberations, in line with the Lautenberg Act’s intent. Additionally, the Committees support the Safer Choice program and direct that the program be funded and operated consistent with prior years.

Water: Ecosystems.—The agreement provides \$55,071,000 for Water: Ecosystems and provides \$35,000,000 for National Estuary Program (NEP) grants as authorized by section 320 of the Clean Water Act, and other activities. This amount is sufficient to provide each of the 28 national estuaries in the program with a grant of at least \$750,000. Further, in the Administrative Provisions section, the bill directs that \$2,000,000 in competitive grants be made available for additional projects. The agreement also provides up to \$1,000,000 to support the Hypoxia Task Force’s work, as outlined in House Report 117-83, to provide assistance to state and tribal partners as they implement comprehensive water quality solutions designed to reduce nutrient loads in waterways throughout the greater Mississippi River Basin, consistent with the Gulf Hypoxia Action Plan.

Water: Human Health Protection.—The Committees recommend \$109,487,000 for Water: Human Health Protection. The Committees urge the Agency to proceed expeditiously to support monitoring for unregulated contaminants under Section 1445(a)(2)(C) of the Safe Drinking Water Act and direct the Agency to brief the Committees on the Agency’s implementation plan within 180 days of the enactment of this Act.

To the extent there are eligible permit and primacy applications for review, the agreement provides \$5,000,000 for the Agency’s continued work within the Underground Injection Control program related to Class VI wells for geologic sequestration to help develop expertise and capacity at the Agency.

Water Quality Protection.—The agreement provides \$216,350,000 for Water Quality Protection. The Agency is encouraged to continue using infrastructure solutions, such as distribution network leak detection, pressure monitoring, and sanitary and combined sewer monitoring technologies during upgrades to water and wastewater systems, to optimize water delivery performance, reduce energy usage, limit water waste in distribution systems, and enhance modeling of sewer collection networks. This will help to improve operations, maintenance, and capital expenditure in planning and budgeting and increase spatial and temporal monitoring data available on U.S. water quality and quantity. The Committees support the WaterSense program and appreciate EPA’s work to advance water recycling through the National Water Reuse Action Plan (WRAP).

The Committees support the Agency’s ongoing activities related to integrated planning, which will be increasingly necessary as States and communities work to meet their myriad clean water obligations while keeping rates affordable for water ratepayers. The Committees direct that funding for the Office of Municipal Ombudsman, as authorized by Congress, be funded at not less than the enacted level.

Additional Guidance.—The following additional guidance is included:

Biointermediates.—The Committees appreciate the work of the Agency to address the coprocessing of biointermediates and urge the Agency to finalize a rule permitting the production, transfer, and use of biointermediates. The Committees direct the Agency to brief the Committees within 60 days of enactment of this Act about its plans for action.

Community Air Quality Monitoring.—The Committees urge the Agency to prioritize air quality monitoring systems that yield frequently repeated measurements of pollutants and identify hotspots or areas of persistent elevated levels of pollutants localized to and caused by the characteristics of a specific geographic location. The Committees encourage the Agency to utilize this information to provide regularly updated data to overburdened and marginalized communities and for public awareness and other activities.

Environmentally Preferable Purchasing Program.—The Committees note that through the Environmentally Preferable Purchasing Program, the Agency makes efforts to improve the sustainable marketplace and uses purchasing power to help catalyze sustainable products innovation. The Committees direct the Agency to provide a briefing, within 180 days of enactment of this Act, on planned updates to the Recommendations of Specifications, Standards and Ecolabels for Federal Purchasing and conducting lifecycle environmental impact assessments to help reduce plastic waste.

Food Waste.—The Committees direct that, no later than September 30, 2022, EPA, in coordination with the U.S. Department of Agriculture, shall provide a briefing to the Committees on how

the nation is meeting, and how the agencies are measuring progress against the U.S. 2030 Food Loss and Waste Reduction Goal.

Modeling and Monitoring of Tijuana River Transboundary Pollution Events.—Within existing funds, the Committees encourage EPA to advance predictive models to assess and evaluate potential infrastructure projects to reduce beach closure days and other related impacts from transboundary untreated sewage pollution events.

Output-Based Regulations.—The Committees encourage EPA to inform States of applicable tools, such as output-based regulations, that will encourage fuel efficiency as an air pollution prevention measure and assist states in meeting environmental and energy goals.

Pesticide Licensing and Stakeholder Engagement.—The Committees urge EPA to consult with public health, environmental, and other non-governmental organizations, industry stakeholders, and other interested parties in advance of the deadline for progress reports required by Sec. 10115 of Agriculture Improvement Act of 2018 (Public Law 115–334) and to provide updates to stakeholders as appropriate. The Committees also request that EPA continue to keep the Committees apprised of stakeholder engagement activities, consistent with the timing of progress reports to Congress on Endangered Species Act consultation.

Pre-Commercial Thinning.—The Committees recognize that precommercial thinning from non-Federal forestland that is not ecologically sensitive forestland can qualify as renewable biomass for purposes of the Renewable Fuel Standard under the provisions detailed in 40 C.F.R. 80.1401. The Committees encourage the Agency to support other Federal agencies leading efforts to enhance markets for low-grade and low-value wood.

Small Refinery Relief.—The Committees recognize that the Renewable Fuels Standard (RFS) under Clean Air Act Section 211(o)(9) provides that EPA may exempt small refineries from compliance with the RFS in certain circumstances and that a small refinery “may at any time petition the Administrator for an extension of the exemption...for the reason of disproportionate economic hardship.”

Transboundary Watersheds.—The Committees direct the Agency to continue and expand its work coordinating with Federal, State, local, and Tribal agencies to monitor and reduce transboundary mining pollution in the Kootenai watershed and other U.S.-British Columbia transboundary watersheds. The Agency is also directed to report to the Committees within 90 days of enactment of this Act on its progress to document baseline conditions and mining-related impacts, and any additional staff or resources needed for this project. These efforts are funded at no less than the enacted level.

Unregulated Contaminant Monitoring Rule.—The Committees recognize stakeholder interest in monitoring additional unregulated contaminants in drinking water beyond what was recently proposed by

EPA and encourage the Agency to consider additional contaminants in future Unregulated Contaminant Monitoring Rules.

Updating Safe Drinking Water Information System.—The Committees recognize that the Safe Drinking Water Information System is in need of updates and expansion to maximize its utility for States, Territories, Tribes, utilities, and the public. The Committees expect the Agency to provide a briefing within 180 days of the enactment of this Act on the Agency's plans and resource needs for on-going and upcoming updates.

Water Infrastructure Interagency Coordination.—The Committees urge EPA to fund specific interagency coordination groups in support of effective water and wastewater infrastructure and services to colonias and Tribal communities. Interagency coordination groups should promote interagency planning and program coordination to better facilitate the construction, improvement, and maintenance of water and wastewater infrastructure and services in colonias and Tribal communities. The Interagency coordination groups are also encouraged to coordinate research efforts on the nexus between pollutant exposures, access to water, and disparities in coronavirus mortality and morbidity rates.

HAZARDOUS WASTE ELECTRONIC MANIFEST SYSTEM FUND

The agreement discontinues new appropriations for the Hazardous Waste Electronic Manifest System Fund account, consistent with the budget request. Because the e-Manifest Program is now fully operational and fee-supported, funding in this account is no longer necessary.

OFFICE OF INSPECTOR GENERAL

The bill provides \$44,030,000 for the Office of Inspector General. The bill transfers \$11,800,000 from the Hazardous Substance Superfund account to this account.

BUILDINGS AND FACILITIES

The bill provides \$34,752,000 for Buildings and Facilities.

HAZARDOUS SUBSTANCE SUPERFUND (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,232,850,000 for the Hazardous Substance Superfund account and includes bill language to transfer \$11,800,000 to the Office of Inspector General account and \$30,985,000 to the Science and Technology account. The agreement provides the following additional direction:

Enforcement.—The agreement provides \$181,355,000 for Enforcement, of which, \$5,841,000 is for the Environmental Justice program.

Homeland Security.—The agreement provides \$34,050,000 for Homeland Security. The Agency is directed to include \$1,468,000 from these funds as part of the transfer to the Science and Technology account.

Research: Chemical Safety and Sustainability.—The agreement provides \$12,824,000 for Research: Chemical Safety and Sustainability. The Agency is directed to include these funds as part of the transfer to the Science and Technology account.

Research: Sustainable and Healthy Communities.—The agreement provides \$16,463,000 for Research: Sustainable and Healthy Communities. The Agency is directed to include these funds as part of the transfer to the Science and Technology account.

Superfund Cleanup.—The agreement provides \$816,773,000 for Superfund Cleanup. Within this amount, the agreement provides \$192,000,000 for Emergency Response and Removal activities.

Additional Guidance.—The following additional guidance is included:

Adaptive Management.—Adaptive Management continues to show promise as a tool to expedite Superfund cleanup and remediation, effectively balance cost and benefits, and transition contaminated sites back into use while protecting public health and the environment. The Committees continue to be interested in the EPA's development of Adaptive Management Guidance that can be consistently applied across EPA Regions. The Committees encourage the Agency to prioritize the finalization and implementation of the Guidance, and to integrate it with the Agency's 2005 Contaminated Sediment Remediation Guidance for Hazardous Waste Sites to ensure consistent application of adaptive management at sediment sites.

Bubbly Creek.—The Agency is directed to follow the guidance in Senate Report 116–123.

Contaminants of Emerging Concern.—The Committees recommend that Emergency Response and Removal activities include collaborative work with State, Tribal, and local governments to help communities address contaminants of emerging concern. Furthermore, the Committees recommend that the Agency expeditiously remediate Superfund sites contaminated by these emerging contaminants, including PFAS, and provide technical assistance and support to States and Tribes during the remedial cleanup process.

Continued Improvements.—The Agency is directed to follow the guidance in Senate Report 116–123.

Manganese.—The Committees are concerned about manganese soil contamination in Chicago and encourage EPA to clean up all affected areas to the lowest possible limits for residential screening and monitoring to protect public health.

Polychlorinated Byphenyls (PCB) Contamination.—The Agency is directed to follow the guidance in Senate Report 116-123.

Tribal Guidance.—The Agency is directed to follow the guidance in Senate Report 116–123.

LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$92,293,000 for the Leaking Underground Storage Tank Trust Fund Program.

Additional Guidance.—The following additional guidance is included:

Tribal Consultation.—The Agency is directed to follow the guidance in Senate Report 116–123.

INLAND OIL SPILL PROGRAMS

The bill provides \$20,262,000 for Inland Oil Spill Programs.

STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$4,351,573,000 for the State and Tribal Assistance Grants program and includes the following specific funding levels and direction:

Community Project Funding Items/Congressionally Directed Spending Items.—From within funds provided for capitalization grants for the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund, the Committees recommend \$443,639,051 from the Clean Water SRF and \$397,766,044 from the Drinking Water SRF be for Community Project Funding/Congressionally Directed Spending grants for the construction of drinking water, waste-water, and storm-water infrastructure and for water quality protection. Each project shall provide not less than 20 percent matching funds from non-Federal sources, unless approved for a waiver. Applicable Federal requirements that would apply to a Clean Water State Revolving Fund or Drinking Water State Revolving Fund project grant recipient shall apply to a grantee receiving a CPF grant under this section. The Committees note that the following funding sources are to be treated as non-Federal funds and can be used to meet the non-Federal matching fund requirement: U.S. Department of Housing and Urban Development, Community Development Block Grant program; U.S. Department of Agriculture, Rural Development Program; and Appalachian Regional Commission grants. Funding made available to jurisdictions through the American Rescue Plan Act of 2021 (P.L. 117-2) are considered Federal funds and may not be applied towards the non-Federal

cost share requirement. A detailed list of projects is in the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items.”

Clean Water State Revolving Fund (CWSRF).—The agreement provides \$1,638,826,000 for the Clean Water SRF and directs the Agency to brief the Committees on addressing the impacts of nonpoint source pollution and stormwater runoff through the use of nature-based and other low impact development techniques.

Infrastructure Assistance.—The agreement provides \$3,252,189,000 for infrastructure assistance. The Committees are aware that the Agency requires a certified operator in order to release funds for certain water and sanitation funding; however, some communities do not have a community system for either, or access to a certified operator. Therefore, the Committees direct the Agency to work with the Indian Health Service and those communities that lack water and sanitation systems, as well as a certified operator, to prevent the potential loss of funding and develop a training plan for operator certification.

Brownfields Program.—The agreement provides \$91,987,000 for Brownfields grants and directs that at least 10 percent of such grants be provided to areas in which at least 20 percent of the population has lived under the poverty level over the past 30 years as determined by censuses and the most recent Small Area Income and Poverty Estimates. The bill makes U.S. territories and possessions categorically eligible for funding from within this set-aside.

The Committees note the value of multipurpose Brownfields grant awards, especially in communities that have clusters of Brownfield sites distributed over a larger geographic area. Many communities find that these larger awards allow for more rapid, cost-effective remediation and redevelopment planning, which in turn produce greater leveraging of Brownfields funding and offer more substantial returns on Federal investment. The Committees urge the Agency to tailor the size and frequency of multi-purpose awards to the needs of each region, in order to make grant funding consistently available to communities with Brownfields sites.

Diesel Emission Reductions Grants (DERA).—The agreement provides \$92,000,000 for DERA grants. The Committees note that the DERA program was recently reauthorized through 2024. The Committees support the use of DERA funding in transportation electrification projects.

Targeted Airshed Grants.—The agreement provides \$61,927,000 for Targeted Airshed Grants. These grants shall be distributed on a competitive basis to nonattainment areas that the Agency determines are ranked as the top five most polluted areas relative to annual ozone or particulate matter 2.5 standards, as well as the top five areas based on the 24-hour particulate matter 2.5 standard where the design values exceed the 35 mg/m³ standard. To determine these areas, the Agency shall use the most recent design values calculated from validated air quality data. The Committees note that these funds are available for emission reduction activities deemed necessary for compliance with national ambient air

quality standards and included in a State Implementation Plan submitted to the Agency. Not later than the end of fiscal year 2022, the Agency should provide a report to the Committees that includes a table showing how fiscal year 2020 and 2021 funds were allocated. The table should also include grant recipients and metrics for anticipated or actual results.

Combined Sewer Overflow Grants.—The agreement provides \$43,000,000 for Combined Sewer Overflow Grants to control and treat sewer overflows as authorized and in accordance with section 4106 of America’s Water Infrastructure Act (P.L. 115–270).

Categorical Grants.—The agreement provides \$1,099,384,000 for Categorical Grants. Funding levels are specified in the table at the end of this division.

Categorical Grant: Hazardous Waste Financial Assistance.—The agreement provides \$102,500,000 for Hazardous Waste Financial Assistance Grants. The bill includes a provision to spend categorical grant funds for the purpose of providing grants to assist States in the development and implementation of state programs for the control of coal combustion residuals under section 2301 of the Water and Waste Act of 2016 (Public Law 114–322), and the Agency is directed to allocate \$4,000,000 from the Hazardous Waste Financial Assistance categorical grants program project for this purpose. The Committees note that funds awarded under the authority provided by this Act are not subject to section 3011 of the Solid Waste Disposal Act (Public Law 89–272).

Categorical Grant: Nonpoint Source (Sec. 319).—The agreement provides \$178,000,000 for Nonpoint Source (Sec. 319) Grants. Within existing resources, the Committees urge the Agency to work with recipients to prioritize efforts to reduce non-point source pollution to help significantly reduce both the frequency and severity of Harmful Algal Blooms. The Committees also support ongoing efforts through non-point source programs and other mechanisms to reduce the amounts of plastic and other trash from entering waterways.

Categorical Grant: Public Water System Supervision.—The agreement provides \$113,000,000 in Public Water System Supervision Grants, \$1,000,000 above the enacted level. Of the funds provided, \$10,000,000 is to further support States, Territories, and Tribes in addressing PFAS and other contaminants of emerging concern as they carry out their Public Water System Supervision programs.

Categorical Grant State and Local Air Quality Management.—The agreement provides \$231,391,000 for State and Local Air Quality Management Grants. The Agency is directed to allocate funds for this program using the same formula as fiscal year 2015. Should the Agency seek to change the formula, it should submit a proposal in its fiscal year 2023 budget justification for consideration by the Committees.

Wildfire Smoke Preparedness.—The agreement provides \$4,000,000 for wildfire smoke preparedness grants. These grants shall be distributed on a competitive basis to States, federally

recognized Tribes, public pre-schools, local educational agencies as defined in 20 U.S.C. 7801(30), and non-profit organizations, for assessment, prevention, control, or abatement of wildfire smoke hazards in community buildings including schools as defined in 20 U.S.C. 3610(6), and related activities. The Federal share of the costs of such activities shall not exceed 90 percent except that the Administrator may waive such cost share requirement in the case of facilities located in economically distressed communities. A maximum of 25 percent of grant funding under this paragraph during this fiscal year may go to recipients in any one State.

Additional Guidance.—The following additional guidance is included:

National Water System Performance.—In lieu of the directive in House Report 117-83 under the heading “National Water System Consolidation Assessment,” the Agency is directed to brief the Committees with 90 days of enactment of this Act on the financial and technical capacity of smaller water systems to meet Federal water quality standards. The briefing should also include a review of the ability of the Drinking Water Needs Survey to assess water systems’ capability to meet these standards and the average debt levels of such systems.

Use of Iron and Steel.—The bill includes language in title IV general provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects, and the agreement includes only the following guidance: the Committees acknowledge that the Agency may issue a waiver of said requirements for de minimis amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

The agreement provides a total of \$69,526,000 for the Water Infrastructure Finance and Innovation Act (WIFIA) program. Of the amount provided, \$5,000,000 shall be for implementation of the SRF WIN Act, as authorized by section 4201 of Public Law 115-270. Greater investment in the replacement of aging infrastructure will help mitigate nationwide issues the Committees are tracking related to contaminants such as lead and arsenic, Combined Sewer Overflows and Sanitary Sewer Overflows, and the pressing need to improve water delivery.

ADMINISTRATIVE PROVISIONS—ENVIRONMENTAL PROTECTION AGENCY (INCLUDING TRANSFERS OF FUNDS)

The bill continues several administrative provisions from previous years.

The bill provides for the collection and obligation of certain hazardous waste electronic manifest fees in accordance with the Solid Waste Disposal Act.

The bill directs the availability of not less than \$2,000,000 of funds for the National Estuary Program for competitive grants.

The bill clarifies the use of aircraft in Superfund site cleanups financed through Special Accounts.

The bill clarifies the availability of expenditures for information technology from the Working Capital Fund.

The bill provides for the Office of Chemical Safety and Pollution Prevention and the Office of Water in fiscal year 2022 to use up to \$2,000,000 to hire students and recent graduates as contractors on a temporary or intermittent basis.

The bill provides certain hiring authorities related to certain specialized professional positions for fiscal years 2022 – 2025.

Additional Guidance.—The following additional guidance is included:

Title 42 Hiring Authority.—The agreement expands the authority for the Agency to hire scientists under 42 U.S.C. 209 in the Office of Research and Development (ORD) and the Office of Chemical Safety and Pollution Prevention (OCSPP) through 2025. Within the funding provided, the Agency is directed to enter into an agreement with the National Academy of Sciences to conduct a study on the Agency's use of Title 42 special hiring authority over the last ten years and how Title 42 hires have uniquely contributed to the Agency's mission. The study should also consider what controls the Agency has in place to ensure hiring practices are consistent, whether the Agency is using the authority to hire scientists that are in the highest priority fields, and what improvements the Agency can make to better manage its special hiring authority.

TITLE III – RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

OFFICE OF THE UNDER SECRETARY FOR NATURAL RESOURCES AND ENVIRONMENT

The bill provides \$1,000,000 for the Office of the Under Secretary for Natural Resources and Environment.

The Under Secretary is directed to brief the Committees within 90 days of enactment of this Act on a plan to promote innovative biomass usage within the Department and across the government, with

the aim of creating additional markets for hazardous fuels materials, and to encourage the use of wood products as a green building material, and potentially aid in carbon storage.

FOREST SERVICE

The agreement maintains funding for the activities delineated in House Report 117-83, unless otherwise specified herein, which the Service will fund with the appropriate combination of salaries and expenses and programmatic funds within each appropriations account.

The agreement provides up to \$10,000,000 for remote wildfire detection and an increase of up to \$1,500,000 for national scenic and historic trails.

The agreement provides funding to meet new federal minimum wage standards and the Service is directed to use additional salaries and expenses resources to strengthen the permanent wildland fire workforce through increased hiring and conversion of seasonal to permanent positions.

The agreement provides \$1,700,000 for Sudden Oak Death treatments and partnerships with States and private landowners. The Service is also expected to partner with Tribes to prioritize recovery on lands impacted by wildfire. The Service should consider a separate budget line item for restoring burned areas in future budget submissions. Lake Tahoe Restoration Act activities are funded as directed in House Report 117-83.

The Service should provide a legislative proposal to establish a non-profit organization that would complement its International Programs and Trade Compliance mission and expand its impacts to benefit American forestry stakeholders through global engagement on climate change, forest products trade, U.S. migratory species habitat conservation, and initiatives to protect American forests from invasive pests.

The Service is directed to submit a report to the Committees detailing its strategy for pursuing the maximum utilization of domestic labor and long-term workforce development within 90 days of enactment of this Act.

FOREST SERVICE OPERATIONS (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,069,086,000 for Forest Service Operations. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

FOREST AND RANGELAND RESEARCH

The bill provides \$296,616,000 for Forest and Rangeland Research. Each of the existing facilities and programs shall be funded at no less than the enacted level. Funding for new research herein and new geographically-based initiatives shall not to be factored into base allocations. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

The Service is directed to work with the National Agricultural Statistical Service to determine the best way to survey and report non-timber forest products [NTFP] harvest volumes on National Forest lands.

Funding Directives.—The agreement provides for the following research priorities:

—\$4,000,000 to the Joint Fire Science program, which combined with funding in the Department of Interior provides \$8,000,000 in total.

—\$2,000,000 for collaborative research to determine the quantity and spatial distribution of forest biomass and carbon at multiple spatial scales and analyze the financial impact of this determination to provide forest carbon program participants with greater opportunities for income generation.

—\$3,000,000 to conduct collaborative research to determine the distribution and movement of needle pathogens, understand the disease cycle and the environmental factors that drive the emergence and distribution of the needle pathogens, and determine if the appearance is due to more aggressive strains of the pathogens and the origins of the pathogens.

—\$5,000,000 to support the Northeastern States Research Cooperative. The Service is directed to continue to utilize existing partnerships with research institutions and States to fund research to establish methods, tools, and standard protocols that help quantify forest ecosystem services, particularly carbon, in natural forested regions as a resource that can be managed by forest landowners for ecological and economic benefit.

—\$2,000,000 for research on forest-based cellulose nanomaterials, including material forms, manufacturing processes, and technology transfer.

—\$2,000,000 to support new and existing academic partnerships to further explore the use of available technologies like remote sensing and methodologies such as small area estimation to further refine county and State biomass estimates as outlined in Sec. 8632 of Public Law 115–334.

—\$4,000,000 for cooperative research to develop new understandings and innovative solutions to address wildfire impacts on forested source water, downstream clean water, and water treatability.

—\$3,000,000 for university-led research and partnerships to better understand fires in the wildland-urban interface, improve workforce development for wildfire management professionals, and improve the safety and efficiency of wildland firefighting techniques.

—\$1,500,000 to conduct collaborative research to develop remote sensing capabilities that deploy acoustic technologies for wildfire monitoring.

STATE AND PRIVATE FORESTRY

The bill provides \$315,198,000 for State and Private Forestry. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement. All funding for specific programs, directives, or congressionally directed spending identified herein is in addition to funds otherwise provided to States and regions through the formula and competitive grant process and therefore is not to be factored into those allocations.

The Service is directed to support local organizations for implementing smaller-scale restoration projects through grants to increase organizations' capacity to collaborate on projects on Federal and non-Federal lands that benefit the National Forest System. The Service should model this initiative on the Community Capacity and Land Stewardship program and engage with the National Forest Foundation. The Service is directed to brief the Committees on how it will carry out this program within 90 days of enactment of this Act.

Within the funds provided, \$1,000,000 is for the Forest Ecosystem Monitoring Cooperative to support existing academic partnerships in the Northern Forest Region. A reduced non-Federal cost share shall be negotiated with the host agencies to enable full implementation of the program. The Service is directed to continue to utilize existing partnerships with research institutions and States to fund research to establish methods, tools, and standard protocols that help quantify forest ecosystem services, particularly carbon, in natural forested regions as a resource that can be managed by forest landowners for ecological and economic benefit.

Cooperative Fire Assistance.—The bill provides \$75,000,000 for State Fire Capacity Grants, formerly State Fire Assistance, and \$20,000,000 for Volunteer Fire Capacity Grants, formerly Volunteer Fire Assistance. The Forest Service is directed to use these titles in future budget submissions and agency documents.

Cooperative Forestry.—The Service is directed to work with States and Tribes to prioritize insect prevention, suppression, and mitigation projects on non-Federal land that support community wildfire protection and State forest action plans.

Forest Resource Information and Analysis.—The bill provides \$29,955,500 for congressionally directed spending in this program. A detailed list of projects is included in the "Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items" table accompanying this statement. Recipients are reminded that cost sharing requirements may apply to these projects.

NATIONAL FOREST SYSTEM

The bill provides \$1,866,545,000 for the National Forest System. The detailed allocation of funding by activity is included in the table accompanying this explanatory statement.

Land Management Planning, Assessment, and Monitoring.—Land management plan revisions and amendments should be tracked and reported in the annual budget submission. The Service is directed to report to the Committees within 180 days of enactment of this Act on the current list of forest management plans and comprehensive river management plans requiring revision or completion, a proposed course of action, and a timeline for compliance with the underlying statute.

Recreation, Heritage, and Wilderness.—Within the funds provided, \$1,000,000 is included for the Office of Recreation, Heritage and Volunteer Resources—Travel, Tourism and Interpretation Program to continue implementation of the Native American Tourism and Improving Visitor Experience [NATIVE] Act (Public Law 114–221) and to engage with Tribes, Tribal organizations, and Native Hawaiian organizations to promote sustainable native tourism activities, and \$3,000,000 is included to support infrastructure and trails development and to build the capacity of local user groups and partnership organizations, to be divided equally between National Recreation Areas administered by the Forest Service and established after 1997.

Grazing Management.—The Service is directed, to the greatest extent practicable, to make vacant grazing allotments available to a holder of a grazing permit or lease when lands covered by the holder of the permit or lease are unusable because of drought or wildfire. The Service is directed to brief the Committees within 90 days of enactment of this Act on its progress to relieve the backlog of fully processed permits. The Service is further directed to report to the Committees within 180 days of enactment of this Act on the number of grazing permits by region and unit that are the subject of the general provision related to the extension of grazing permits, a proposed course of action, and a timeline for compliance to the underlying statute.

Hazardous Fuels.—The bill provides \$187,388,000 for Hazardous Fuels. Of the funds made available, \$12,000,000 is for the Community Wood Energy Program; \$20,000,000 is for Wood Innovation Grants, of which \$2,000,000 is for grants to develop timber professional cooperatives that will address deficiencies in wood product infrastructure; and \$6,000,000 is provided for the Southwest Ecological Restoration Institutes to continue to assist communities and land managers in applying hazardous fuels and wildfire risk reduction treatments, conducting monitoring and evaluation research, providing technical assistance, and for independent analysis of managed fire. The agreement directs the Service to work with States in accordance with their State forest action plan for the removal of hazardous fuels caused by beetle infestation.

Prescribed Fire.—The Service is directed to report in the annual budget submission on prescribed fire activities by region for the previous fiscal year.

The Service must expand its efforts on innovative biomass uses, giving precedence to funding Wood Innovation Grant projects that will open the door to new, widespread uses for wood-based nanotechnology, mass timber and cross-laminated timber, high-energy efficient wood for energy production, affordable housing, and other promising products.

Wildlife and Fish Habitat Management.—The bill provides \$22,000,000 for Wildlife and Fish Habitat Management of which no less than the enacted level will be spent on threatened and endangered species activities and contribute to significant recovery actions. The Service should set performance indicators and other accountability measures for these activities in order to track its expenditures to comply with reporting requirements.

The direction contained in Senate Report 116-123 regarding Tariffs on Timber Exports is continued.

Salaries and Expenses.—The bill provides \$1,459,352,000 for Salaries and Expenses, including for employees who carry out functions funded by the Capital Improvement and Maintenance, Range Betterment Fund, and Management of National Forest Lands for Subsistence Uses accounts.

SQF Complex Fire.—The Service's ongoing fire recovery and rehabilitation efforts in the Sequoia National Forest as a result of the SQF Complex Fire is appreciated and the Service is directed to continue prioritizing projects that mitigate safety hazards in burned areas so they can be reopened to the public, promote ecological restoration, reduce the risk of future catastrophic wildfires, and protect the giant sequoias. Within 180 days of enactment of this Act, the Service is directed to provide a report to the Committees on the status of SQF Complex Fire restoration projects along with estimates of future funding needs.

CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

The bill provides \$159,049,000 for Capital Improvement and Maintenance programs.

Legacy Restoration Fund.—The Service is directed to ensure that the comprehensive list of deferred maintenance projects are included in the prioritization for funding, with particular emphasis on any projects related to life and safety and that require a substantial financial investment.

Facilities.—The bill provides \$54,037,000 for Facilities. The Service is encouraged to partner with non-Federal entities to meet its statutory responsibilities for preserving and curating its historical collection and the agreement includes sufficient funding for new repository space.

Roads.—The bill includes \$70,645,000 for Roads to provide safe and improved access to national forest lands while protecting water quality and natural resources.

Trails.—The bill includes \$18,500,000 for Trails. The Forest Service is directed to continue to collaborate with regional training centers and to focus on maintaining geographical diversity in its partnerships.

Legacy Roads and Trails.—The bill provides \$5,000,000 for Legacy Roads and Trails in a restored budget line item. The Service is directed to include accomplishment data to accompany the annual budget submission, including miles of roads improved and maintained, miles of trails improved and maintained, miles of roads decommissioned, miles of streams restored, number of bridges fixed, number of bridges and culverts constructed, and number of jobs created.

Construction Projects.—The bill provides \$10,867,000 for the following capital improvement funding requirements, which are also included in the “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” table accompanying this explanatory statement:

—\$5,770,000 for bridge and trailhead improvements on the Iditarod National Historic Trail, Chugach NF

—\$2,500,000 for new and improved mountain biking trails, Green Mountain NF

—\$1,000,000 for a community-based master recreation plan and recreational improvements at Lake Okhissa, Homochitto NF

—\$472,000 for an all-weather surface on Forest Road 512, Tonto NF

—\$1,125,000 for planning and implementation of improvements on the Franconia Ridge Trail, White Mountains NF

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The bill provides \$664,000 for the Acquisition of Lands for National Forests Special Acts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The bill provides \$150,000 for the Acquisition of Lands to Complete Land Exchanges.

RANGE BETTERMENT FUND

The bill provides \$1,719,000 for the Range Betterment Fund.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The bill provides \$45,000 for Gifts, Donations and Bequests for Forest and Rangeland Research.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The bill provides \$1,099,000 for the Management of National Forest Lands for Subsistence Uses.

WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The bill provides a total of \$2,005,106,000 for Forest Service Wildland Fire Management, including \$172,000,000 for preparedness, \$1,011,000,000 for suppression operations, and \$822,106,000 for salaries and expenses. Combined with \$2,120,000,000 provided in the Wildfire Suppression Operations Reserve Fund, the total amount for fire suppression operations at the Forest Service is \$3,131,000,000 for fiscal year 2022.

The Service should work to construct standardized cooperative fire protection agreement language among Federal, State, Tribal, and local partners to address interjurisdictional fire reimbursement challenges, including barriers for small municipalities.

WILDLAND SUPPRESSION OPERATIONS RESERVE FUND (INCLUDING TRANSFERS OF FUNDS)

The bill includes \$2,120,000,000 for the Wildfire Suppression Operations Reserve Fund, which is \$80,000,000 above the enacted level. S. Con. Res. 14 (117th Congress), the concurrent resolution on the budget for fiscal year 2022, included a budget cap adjustment for wildfire suppression costs and this additional funding is included for fiscal year 2022.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE INDIAN HEALTH SERVICES

The bill provides a total of \$6,630,986,000 for the Indian Health Service (IHS), of which \$4,660,658,000 is for the Services account as detailed below. All programs, projects, and activities are maintained at fiscal year 2021 enacted levels unless otherwise specified below. IHS is expected to comply

with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Language contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) regarding market-specific pay scales, limitations on incentives, tracking improvements to patient health, use of accreditation emergency funds, joint venture solicitations, and interoperability and compatibility of the new electronic health record system with the Department of Veterans' Affairs system is restated. Language contained in Senate Report 116-123 regarding the Alaska Comprehensive Forensic Training Academy, first aid kit enhancements, and dental health therapy is restated. Additional details, instructions, and requirements follow below and in the table at the end of this division.

Addressing Sexual Abuse.—The Committees remain deeply concerned about reports of sexual abuse at IHS operated facilities. IHS is to take prompt action on any new allegations, and keep the Committees apprised on implementation of recommendations to prevent sexual abuse. Further the Committees remind IHS of direction contained in the House bill and incorporate language included in the fiscal year 2021 explanatory statement related to addressing sexual abuse.

Current Services.—The agreement includes \$109,855,000 for pay costs and inflation, which is based upon updated recent estimates provided to the Committees. The Committees expect IHS to disburse all funding provided for current services upon receipt, and to consult with the Committees before withholding any appropriated funds.

Staffing for New Facilities.—The agreement includes \$90,412,000 for staffing newly opened health facilities, which is the full amount required in fiscal year 2022 based upon updated estimates provided to the Committees. Funds for staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2021 or will open in fiscal year 2022. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status. As initial estimates included as part of the annual budget request are refined, IHS is expected to communicate updated cost estimates to the Committees.

Hospitals and Health Clinics.—The agreement provides \$2,399,169,000 for hospitals and health clinics, which includes an additional \$14,000,000 for Tribal epidemiology centers, an additional \$500,000 for the Alzheimer's program, as directed in the House report, and an additional \$1,000,000 to improve maternal health. Also included is \$3,000,000 to establish a Produce Prescription Pilot program as directed in the House report 117-83. The agreement continues funding at the fiscal year 2021 enacted levels for the existing Tribal dental health therapist training program that trains students in Alaska, Washington, Idaho, and Oregon, Community Health Aide Program, the domestic violence prevention program, accreditation emergencies as discussed in the House report, village built clinics, health information technology, healthy

lifestyles in youth project, the combatting Hepatitis C and HIV Initiative, and the National Indian Health Board cooperative agreement.

Diabetic Retinopathy.—The Committees understand the Joslin Vision Network is evaluating ways to enhance diabetic retinopathy detection and encourages IHS to assess current FDA approved autonomous artificial intelligence systems to determine if these systems improve outcomes and lower treatment costs.

Village Built Clinics (VBC).—The Committees direct IHS to work collaboratively with impacted Tribes and Tribal organizations to produce, within 270 days of enactment of this Act, the data needed to accurately calculate the funding for VBC lease funding, including the number of active VBC facilities, their current funding levels, and if necessary, any additional amounts needed to fully fund the eligible operating and ownership costs for all VBC facilities.

Electronic Health Records.—The agreement provides \$145,019,000 for Electronic Health Records (EHR), which includes an additional \$110,500,000 for uses as requested.

Dental Health.—The agreement provides \$235,788,000 for dental health and includes increases of \$1,000,000 for electronic dental health records and \$1,000,000 for Dental Support Centers as discussed in the House report.

Mental Health.—The bill provides \$121,946,000 for mental health, which continues funding at fiscal year 2021 enacted levels for the behavioral health integration initiative, for suicide prevention, and for the Telebehavioral Health Center of Excellence.

Alcohol and Substance Abuse.—The bill provides \$258,343,000 for the alcohol and substance abuse program. The agreement includes an additional \$1,000,000 general program increase to address opioid abuse with instructions for IHS to comply with the explanatory statement accompanying Public Law 116-94. In addition, the agreement continues the Generation Indigenous, Youth Pilot project, and essential detoxification services, which shall be distributed as directed in Senate Report 116-123.

Purchased/Referred Care.—The agreement includes \$984,887,000 for the Purchased/Referred Care program, which maintains funding for the Indian Catastrophic Health Fund at fiscal year 2021 enacted levels.

Public Health Nursing.—The agreement includes \$102,466,000 for the public health nursing program, which includes a \$2,000,000 general program increase.

Urban Indian health.—The agreement includes \$73,424,000 for the Urban Indian health program, which includes a \$10,000,000 general program increase.

Indian Health Professions.—The agreement provides \$73,039,000 for Indian health professions, which includes an additional \$5,000,000 for the loan repayment program. Funding is continued at fiscal

year 2021 enacted levels for the InMed program, including the fourth site expansion, Quentin N. Burdick Indians into Nursing, and the American Indians into Psychology Programs.

Direct Operations.—The bill provides \$95,046,000 for direct operations, which includes a program increase of \$10,000,000 for management and operations. These funds are to be used to address long-standing management issues, including hiring and ensuring adequately trained staff to manage contract support costs and payments for Tribal leases, quality and oversight activities, to implement recommendations to prevent child sexual abuse, and other uses as proposed in the budget request. The Committees expect IHS to prepare the study on urban Indian organization infrastructure needs with the funding and direction provided in fiscal year 2021, and to redirect savings from completion of the study to address management issues noted above.

CONTRACT SUPPORT COSTS

The bill continues language from fiscal year 2021 providing an indefinite appropriation to fully fund contract support costs, which are estimated to be \$880,000,000 in fiscal year 2022.

The Committees are aware that recent actions taken by the Service are causing confusion and concern among Tribes and national and regional Tribal organizations. The Committees direct the Service to report 30 days after enactment of this Act explaining whether recent actions taken by the Service indicate a major shift in the way contract support costs are being calculated or if the Service interprets the *Cook Inlet Tribal Council v. Dotomain* decision and recent actions as a restatement of current law. The Committees direct the Service to clearly explain the rationale behind its interpretation of the *Cook Inlet* decision and articulate whether current practices for calculating contract support costs will change.

PAYMENTS FOR TRIBAL LEASES

The bill continues language from fiscal year 2021 providing an indefinite appropriation to fully fund payments for Tribal leases, which are estimated to be \$150,000,000 in fiscal year 2022.

INDIAN HEALTH FACILITIES

The bill provides \$940,328,000 for Indian Health Facilities. All programs, projects, and activities are maintained at fiscal year 2021 enacted levels unless otherwise specified below. IHS is expected to comply with the instructions and requirements at the beginning of this division and in House Report 117-83, unless otherwise specified below. Language contained in explanatory statement accompanying Public

Law 116-6 regarding health impacts of inadequate sanitation, Mt. Edgecombe, and Alaska facility assessments is restated.

Current Services.—The agreement includes \$9,955,000 for pay costs and inflation, which is based upon updated estimates provided to the Committees. The stipulation included in “Indian Health Services” regarding prompt distribution of funds pertains to this account as well.

Staffing for New Facilities.—The bill includes \$8,485,000 for staffing newly opened health facilities, which is the full amount based upon updated estimates provided to the Committees. The stipulations included in the “Indian Health Services” account regarding the allocation of funds pertain to this account as well.

Sanitation Facilities Construction.—The agreement provides \$197,783,000 for sanitation facilities construction, which continues funding at fiscal year 2021 enacted levels to provide technical assistance, training, and guidance to sanitation operators, families, and communities regarding the operation and maintenance of water supply and sewage disposal facilities. The bill also includes \$40,171,000 for Congressionally Directed Spending (CDS) projects as shown on the table titled “Interior and Environment Incorporation of Community Project Funding Items/Congressionally Directed Spending Items” at the end of this division. The Infrastructure Investment and Jobs Act (Public Law 117-58) provided \$3,500,000,000 to address the sanitation backlog. Within 90 days of enactment of this Act, the Committees expect IHS to submit an updated fiscal year 2022 spend plan for the funds provided herein. Further, the Committees expect IHS to include an updated five-year spend plan in fiscal year 2023 for any funds requested.

Health Care Facilities Construction.—The agreement provides \$259,293,000 for health care facilities construction, which continues funding at fiscal year 2021 enacted levels for quarters, green infrastructure as directed in the explanatory statement accompanying Public Law 116-94, and small ambulatory clinics, including the funds for replacement and expansion projects. The agreement directs the Agency to report to the Committees within 90 days of enactment of this Act on how these funds will be distributed as well as the estimated number of quarters and associated costs for new staff quarters at existing health facilities.

Facilities and Environmental Health.— The agreement provides \$283,124,000 for this program, which includes \$3,000,000 for preliminary engineering reports.

Equipment.—The bill provides \$30,464,000 for equipment, which continues \$500,000 for TRANSAM and includes a \$1,000,000 increase for emergency generators, as directed in House Report 116-448.

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The agreement provides \$82,540,000 for the National Institute of Environmental Health Sciences. The Committees continue the \$2,000,000 provided in fiscal year 2021 as base funds in fiscal year 2022 to further the Institute's work on PFAS and other contaminants of emerging concern. The Institute both leads and supports significant research on PFAS that will result in better remediation outcomes. Further, of the funds provided, not less than \$1,750,000 shall be to support risk reduction for Native Americans to hazardous metals mixtures from abandoned uranium mine waste.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

The agreement provides \$80,500,000. The Committees continue the \$2,000,000 provided in fiscal year 2021 to further the Agency's work on PFAS and other contaminants of emerging concern.

Birth Cohort Study.—The bill provides funding for continuation of the birth cohort study on the Navajo Nation. The Committees support the study to better understand the relationship between uranium exposures, birth outcomes, and early developmental delays on the Navajo Nation.

Pediatric Environmental Health Specialty Units.—The Committees encourage the Agency to continue support for Pediatric Environmental Health Specialty Units.

OTHER RELATED AGENCIES EXECUTIVE OFFICE OF THE PRESIDENT COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

The agreement provides \$4,200,000 for the Council on Environmental Quality and Office of Environmental Quality.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD SALARIES AND EXPENSES

The bill provides \$13,400,000 for the Chemical Safety and Hazard Investigation Board. The Committees urge the Board to address long-standing management challenges and staff vacancy issues so that it can effectively and fully accomplish its critical mission. The Committees also direct the Board to brief the Committees on proposed funding needs and budget structure for fiscal year 2023.

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION
SALARIES AND EXPENSES

The bill does not provide new appropriations for fiscal year 2022, however, a total of \$3,150,000 is made available from unobligated balances for fiscal year 2022 operations. The bill continues the direction provided in the explanatory statement accompanying Division G of the Consolidated Appropriations Act, 2017 (Public Law 115-31). There is continued commitment to bringing the relocation process to an orderly conclusion and ensuring all eligible relocatees receive the relocation benefits to which they are entitled. Consultation with all affected parties and agencies is the key to a transparent, orderly closeout.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE
AND ARTS DEVELOPMENT
PAYMENT TO THE INSTITUTE

The bill provides \$11,741,000 for fixed costs and academic programs of the Institute of American Indian Arts, which includes an additional \$228,000 as requested and an additional \$741,000 for fixed costs.

SMITHSONIAN INSTITUTION
SALARIES AND EXPENSES

The agreement provides a total of \$1,062,215,000 for all Smithsonian Institution accounts, of which \$852,215,000 is provided for salaries and expenses, which includes fixed costs. The detailed allocation of funding is included in the table at the end of this explanatory statement.

Within amounts provided for the Salaries and Expenses account, the agreement includes \$8,324,000 for the National Museum of the American Latino which integrates the funding for the Latino Pool and Latino Center into the museum line, and \$7,500,000 for the Smithsonian American Women's History Museum which integrates the funding for the American Women's History Initiatives into the museum line. The agreement also provides \$2,520,000 for Asian Pacific American Initiatives and Outreach and \$1,000,000 for the Research Pool Initiative to include research on recycling.

FACILITIES CAPITAL

The agreement provides \$210,000,000 for Facilities Capital.

NATIONAL GALLERY OF ART
SALARIES AND EXPENSES

The bill provides \$156,419,000 for the Salaries and Expenses account of the National Gallery of Art, of which not to exceed \$3,775,000 is for the special exhibition program.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$24,081,000 for the Repair, Restoration and Renovation of Buildings account and includes funds for the design and construction of an off-site art storage facility in partnership with the Smithsonian Institution.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS
OPERATIONS AND MAINTENANCE

The bill provides \$27,000,000 for the Operations and Maintenance account.

CAPITAL REPAIR AND RESTORATION

The bill provides \$13,440,000 for the Capital Repair and Restoration account.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS
SALARIES AND EXPENSES

The bill provides \$15,000,000 for the Woodrow Wilson International Center for Scholars to continue the Federal commitment and support operations.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES
NATIONAL ENDOWMENT FOR THE ARTS
GRANTS AND ADMINISTRATION

The bill provides \$180,000,000 for the National Endowment for the Arts (NEA) to continue the important work of the Endowment. Changes to the enacted level are included in the table at the end of this

explanatory statement. The agreement continues the Senate direction contained in Senate Report 116-123 supporting the Creative Forces NEA Military Healing Arts Network.

The Committees continue the direction regarding the collaborative relationship among NEA and the States, priorities, and allocation to State arts agencies contained in the explanatory statement accompanying the Further Consolidated Appropriations Act, 2020 (Public Law 116-94).

NATIONAL ENDOWMENT FOR THE HUMANITIES GRANTS AND ADMINISTRATION

The bill provides \$180,000,000 for the National Endowment for the Humanities (NEH) to continue the important work of the Endowment. Changes to the enacted level are included in the table at the end of this explanatory statement.

The Committees continue the direction regarding the “We the People” initiative contained in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116–260).

Further, the Committees encourage NEH to provide support for projects that illustrate the transformative role of women in American history, such as Katherine Johnson and Amelia Earhart, to educate and inspire the next generation of women leaders and professionals in fields such as aviation, advanced computer technologies and the STEM (Science, Technology, Engineering, and Math) disciplines.

COMMISSION OF FINE ARTS SALARIES AND EXPENSES

The bill provides \$3,328,000 for the Commission of Fine Arts.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The bill provides \$5,000,000 for the National Capital Arts and Cultural Affairs program. The agreement provides bill language regarding eligibility for grants. Grant funds shall be distributed consistent with the established formula and eligibility requirements used in fiscal year 2021.

ADVISORY COUNCIL ON HISTORIC PRESERVATION SALARIES AND EXPENSES

The bill provides \$8,255,000 for the Advisory Council on Historic Preservation.

NATIONAL CAPITAL PLANNING COMMISSION
SALARIES AND EXPENSES

The bill provides \$8,750,000 for the National Capital Planning Commission, including funding for lease costs.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM
HOLOCAUST MEMORIAL MUSEUM

The bill provides \$62,616,000 for the United States Holocaust Memorial Museum.

PRESIDIO TRUST

The bill provides \$40,000,000 in loan authority for the Presidio Trust.

WORLD WAR I CENTENNIAL COMMISSION
SALARIES AND EXPENSES

The bill provides \$1,000,000 for the Salaries and Expenses account of the World War I Centennial Commission.

UNITED STATES SEMIQUINCENTENNIAL COMMISSION
SALARIES AND EXPENSES

The bill provides \$8,000,000 for the necessary expenses of the United States Semiquincentennial Commission.

ALYCE SPOTTED BEAR AND WALTER SOBOLEFF COMMISSION ON NATIVE CHILDREN

The bill provides \$200,000 for necessary expenses of the Commission. The Commission is directed to conduct a comprehensive study of Federal, State, local, and Tribal programs that serve Native children. Section 118 of the House bill is not included, as the provision was enacted into law as Public Law 117-41.

TITLE IV—GENERAL PROVISIONS
(INCLUDING TRANSFERS OF FUNDS)

The bill includes various legislative provisions in Title IV of the bill. The provisions are:

Section 401 continues a provision providing that appropriations available in the bill shall not be used to produce literature or otherwise promote public support of a legislative proposal on which legislative action is not complete.

Section 402 continues a provision providing for annual appropriations unless expressly provided otherwise in this Act.

Section 403 continues a provision providing restrictions on departmental assessments unless approved by the Committees on Appropriations.

Section 404 continues a limitation on accepting and processing applications for patents and on the patenting of Federal lands.

Section 405 continues a provision regarding the payment of contract support costs.

Section 406 addresses the payment of contract support costs for fiscal year 2022.

Section 407 continues a provision providing that the Secretary of Agriculture shall not be considered in violation of certain provisions of the Forest and Rangeland Renewable Resources Planning Act solely because more than 15 years have passed without revision of a forest plan, provided that the Secretary is working in good faith to complete the plan revision.

Section 408 continues a provision limiting preleasing, leasing, and related activities within the boundaries of National Monuments.

Section 409 restricts funding appropriated for acquisition of land or interests in land from being used for declarations of taking or complaints in condemnation.

Section 410 continues a provision which prohibits no-bid contracts.

Section 411 continues a provision which requires public disclosure of certain reports.

Section 412 continues a provision which delineates the grant guidelines for the National Endowment for the Arts.

Section 413 continues a provision which delineates the program priorities for the programs managed by the National Endowment for the Arts.

Section 414 requires the Department of the Interior, Environmental Protection Agency, Forest Service and Indian Health Service to provide the Committees on Appropriations quarterly reports on the status of balances of appropriations.

Section 415 extends certain authorities through fiscal year 2022 allowing the Forest Service to renew grazing permits.

Section 416 prohibits the use of funds to maintain or establish a computer network unless such network is designed to block access to pornography websites.

Section 417 addresses the humane transfer and treatment of excess wild horses and burros.

Section 418 extends the authority of the Forest Service Facility Realignment and Enhancement Act.

Section 419 sets requirements for the use of American iron and steel for certain loans and grants.

Section 420 provides authority for the Secretary of the Interior to enter into training agreements and to transfer excess equipment and supplies for wildfires.

Section 421 provides a one-year extension of the Federal Lands Recreation Enhancement Act.

Section 422 incorporates Reprogramming Guidelines into the Act.

Section 423 continues a provision through fiscal year 2022 authorizing the Secretary of the Interior and the Secretary of Agriculture to consider local contractors when awarding contracts for certain activities on public lands.

Section 424 extends the authority for the Shasta-Trinity Marina fee for one year.

Section 425 extends the authority for the Interpretive Association for one year.

Section 426 extends the authority for Puerto Rico Schooling for one year.

Section 427 extends the authority for Forest Botanical Products fee collection for one year.

Section 428 includes certain limitations on oil and gas development near Chaco Culture National Historical Park.

Section 429 requires 105(l) Tribal lease payments to begin no earlier than the date the lease proposal is submitted and for the Federal agencies to consult with Tribes on lease requirements.

Section 430 extends the authority for the Forest Ecosystem Health and Recovery Fund by one year.

Section 431 requires the allocation of funds from the National Parks and Public Land Legacy Restoration Fund and Land and Water Conservation Fund.

Section 432 addresses carbon emissions from forest biomass.

Section 433 addresses the use of small remote incinerators in the State of Alaska.

Section 434 addresses timber sales involving Alaska western red and yellow cedar.

Section 435 provides transfer authority to the Federal Highway Administration for the National Parks and Public Land Legacy Restoration Fund.

Section 436 continues a provision prohibiting the use of funds to promulgate or implement any regulation requiring the issuance of permits under Title V of the Clean Air Act for carbon dioxide, nitrous oxide, water vapor, or methane emissions.

Section 437 continues a provision prohibiting the use of funds to implement any provision in a rule if that provision requires mandatory reporting of greenhouse gas emissions from manure management systems.

Section 438 continues a provision prohibiting the use of funds to regulate the lead content of ammunition or fishing tackle.

Section 439 provides for the designation of Lewis Peak.

Section 440 provides for wildland fire administrative funding.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each House Member, Senator, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. For each item, a Member is required to provide a certification that neither the Member nor the Member's immediate family has a financial interest, and each Senator is required to provide a certification that neither the Senator nor the Senator's immediate family has a pecuniary interest in such congressionally directed spending item. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.
