Dear Representatives Goodlatte, Welch, Costa and Womack:

The undersigned groups, representing livestock, food, engines, consumer, free-market, environmental, anti-hunger, energy and restaurants appreciate your continued leadership in pursuing needed reforms to the Renewable Fuel Standard. We applaud and support the reintroduction of the RFS Reform Act and urge Congress to swiftly pass this commonsense legislation.

Although our groups each have different reasons for supporting RFS reform, we all agree that the RFS is a fundamentally broken policy that disadvantages everyday Americans. After years of growing evidence that the RFS is failing to achieve its stated goals, and in many instances actually works against them, now is the time for the bipartisan reform your legislation embodies.

Again, thank you for your steadfast leadership on this important issue.

Sincerely,
