AGENCIES APPROPRIATIONS ACT, 2016**

Report language included in House Report 114–130 (“the House report”) or Senate Report 114–66 (“the Senate report”) that is not changed by this explanatory statement or this Act is approved. The explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House report and the Senate report address a particular issue not specifically addressed in the explanatory statement, the House report and the Senate report should be read as consistent and are to be interpreted accordingly. In cases where the House report or the Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying explanatory statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2016; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2016. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in this statement, or in the House report or the Senate report and not changed by this Act or statement, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act that plans a reduction-in-force shall notify the Committees by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the

reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2016, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 534 of this Act, each department and agency funded in this Act shall submit spending plans, signed by the respective department or agency head, for the Committees' review not later than 45 days after enactment of this Act.

TITLE I

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

This Act includes \$493,000,000 in total resources for the programs of the International Trade Administration (ITA). This amount is offset by \$10,000,000 in estimated fee collections, resulting in a direct appropriation of \$483,000,000. This Act includes an increase in funding above the fiscal year 2015 enacted level for Enforcement and Compliance activities. ITA shall make enforcement of antidumping and countervailing duties a priority, including thoroughly investigating the extent of harm caused to domestic industries and reducing case backlogs.

Fee collections.—ITA is directed to include an accurate estimate of fee collections in the fiscal year 2017 budget submission. Fees have been underestimated each year since fiscal year 2009, by an average of 13 percent and by as much as 22 percent. ITA shall also include an accurate assessment of expected fee collections and corresponding expenditures in the fiscal year 2016 spending plan, and shall report to the Committees on updated fee projections on a quarterly basis thereafter.

Foreign Trade Zones (FTZ).—Of the amounts provided for ITA in this Act, \$5,000,000 shall not be available until 15 days following the delivery of a report and certification from the FTZ Board to the Committees on Appropriations. The report shall include: (1) a survey of all current and past business models utilized by FTZ grantees for zone management and administration activities; (2) specific impacts 15 CFR 400.43 has or may have on these various business models; (3) the specific activities and components of current and past business models

that are allowed under partial and full waivers granted by the FTZ Board, as of the date of enactment of this Act pursuant to this regulation; and (4) the specific steps the FTZ Board will take to ensure that all FTZ grantees are in compliance with the regulation. The FTZ Board shall simultaneously provide a certified list of the specific business practices and business models that a FTZ grantee would need to achieve in order to qualify for a waiver under the regulation.

Trade enforcement.—The Act provides up to \$10,000,000 for the Interagency Trade Enforcement Center (ITEC), provided that the Department of Commerce shall lead ITEC, with the Office of the United States Trade Representative (USTR) providing an advisory and assistance role. Within funds provided, ITA shall oversee and support the full salary of the ITEC director and no funds shall be transferred to any other agency but shall remain within ITA’s Enforcement and Compliance Unit, except that FTEs included under this account may be housed outside of the Department through an interagency agreement. The agreement strongly supports the continued interagency partnership that has been developed through ITEC to advance our nation’s business and trade interests. Not later than June 30, 2016, ITA, in coordination with USTR, shall submit an action plan to the Committees detailing any changes necessary to meet this directive. The action plan shall be submitted for approval by the Committees, and subject to that approval, the transition of ITEC leadership shall be completed no later than November 15, 2016.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

This Act includes total appropriations of \$5,765,579,000 for the National Oceanic and Atmospheric Administration (NOAA). The agreement does not include section 570 of the House bill regarding the National Ocean Policy. No funding was provided in fiscal year 2015, and none was requested by any agencies funded in this Act in fiscal year 2016, to implement the National Ocean Policy. Consequently, no funds for National Ocean Policy activities are included for any agency funded in this Act.

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFER OF FUNDS)

This Act includes a total program level of \$3,453,477,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes \$3,305,813,000 in direct appropriations; a transfer of \$130,164,000 from balances in the “Promote and Develop Fishery Products and Research Pertaining to American Fisheries” fund; and \$17,500,000 is derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act:

National Ocean Service.—\$500,100,000 is for the National Ocean Service.

Navigation, Observations and Positioning.—Senate language is modified to stipulate that not more than 7 percent of funds available for the Hydrographic Survey Priorities/Contracts program may be used for internal Hydrographic Survey Priorities/Contracts program management costs.

INSERT 8A

National Marine Fisheries Service (NMFS).—\$849,497,000 is for NMFS Operations, Research, and Facilities.

Hatchery genetic management plans.—The agreement adopts the House language requiring a comprehensive plan to address the backlog of Hatchery Genetic Management plans and directs NOAA to increase funding for the review of these plans above the fiscal year 2015 level.

Gulf of Mexico reef fish stock assessments.—The agreement adopts House and Senate language regarding reef fish in the Gulf of Mexico. The agreement provides \$5,000,000 within the amount provided for Fisheries Data Collections, Surveys, and Assessments, and \$5,000,000 within the amount provided for Sea Grant for the purposes stated in the House and Senate reports. The Committees direct NOAA to, in addition to current surveys and assessments, use fishery independent data that includes surveying and assessing red snapper populations on and aggregated near marine structures including offshore oil and gas platforms, artificial reefs, and structures created in the Gulf of Mexico and naturally occurring reefs and rock structures. NOAA shall ensure the research supported by this funding is complementary between respective line offices and not duplicative. Additionally, NOAA shall provide the Committees with a plan for these research efforts, and how they will be coordinated, not later than 45 days after enactment of this Act. The Committees strongly encourage NOAA to incorporate data from all external assessments carried out under this paragraph at the earliest possible date, but not later than fiscal year 2017, for the purposes of determining reef fish quotas and Annual Catch Limits

in the Gulf of Mexico. NOAA shall report to the Committees, within 45 days of enactment, any impediments to incorporating these data for such purposes.

The Committees remain gravely concerned with red snapper management in the Gulf of Mexico and the unacceptably short recreational fishing season. NOAA is directed to consider the impacts of sector separation created by amendments to any fishery management plan for the Gulf of Mexico, particularly negative impacts on private anglers. The agreement adopts Senate language urging NOAA to consider increasing the recreational fishery allocation. While all sectors have faced challenges in the Gulf red snapper fishery, the private boat recreational sector has been especially impacted. NOAA shall brief the Committees on Appropriations on its efforts to address this matter no later than 30 days after enactment of this Act, at which time NOAA shall provide a comprehensive plan to address the concerns of recreational anglers.

Fishery cooperatives.—The agreement adopts the House language on fishery cooperatives, and directs the submission of the required report no later than 30 days after enactment of this Act.

Tribal support.—The agreement modifies House language and encourages NOAA to support the coastal impacts mitigation efforts of coastal tribal communities through NOAA’s ongoing efforts at storm surge and coastal inundation modeling, sea level prediction, and related information services. Such information is essential to understanding severe weather-related risks facing such communities, and could prove valuable in the efforts of these communities to secure mitigation and relocation assistance from Federal and state agencies.

Marine Recreational Information Program (MRIP).—The agreement clarifies the Senate language regarding MRIP. No funding is provided in this Act for the full operational transition to a new MRIP methodology. Funding may be used to continue testing, development, and side-by-side comparison of the new methodology with the current MRIP model, including activities planned for fiscal year 2016 in the May 5, 2015 report entitled “Transition Plan for the Fishing Effort Survey.” No funds shall be available for the full operational transition to a new MRIP methodology until NMFS also improves its stock assessments and surveys to account for fish inhabiting areas of artificial reefs and fixed offshore energy infrastructure.

Non-releasable marine mammals.—Not later than 45 days following enactment of this Act, NMFS shall provide a report to the Committees on Appropriations detailing the process

used to prioritize qualified facilities for the placement of live, non-releasable, stranded marine mammals. The report shall include specific factors used for such placements, including the weight given to a facility's geographic proximity to the stranding location and past experience of caring for non-releasable marine mammals. Furthermore, the report shall provide a comprehensive list of each U.S. facility that received a non-releasable marine mammal since 2010, including the number and type of marine mammals and associated costs incurred for each by NMFS.

Non-native predators.—The Committees are encouraged by the steps that NOAA has taken, in consultation with the United States Fish and Wildlife Service, the Bureau of Reclamation, States, and other stakeholders, to evaluate and implement projects that could improve protection and recovery of endangered salmon. The Committees encourage NOAA to continue consultations with Federal, State, and local agencies to develop additional activities that could aid in mitigating or removing non-native predators that prey on endangered salmon.

Electronic monitoring.—The Committees are concerned with NMFS's failure to account for significant factors in its June 10, 2015, report entitled, "A Preliminary Cost Comparison of At Sea Monitoring and Electronic Monitoring for a Hypothetical Groundfish Sector." The Committees have strongly supported NMFS's research of electronic monitoring programs to streamline processes, reduce costs, and strengthen management of our nation's commercial fisheries. Not later than 120 days following enactment of this Act, NMFS shall provide a new report to the Committees detailing cost estimates for an electronic monitoring program for the same hypothetical sector that uses cost-savings suggested but not included in estimates in the June 10, 2015, report. Furthermore, NMFS is directed to apply other applicable, practical cost-saving measures not mentioned in the previous report in the new estimates.

INSERT 10A-B

Oceanic and Atmospheric Research.—\$461,898,000 is for Oceanic and Atmospheric Research Operations, Research, and Facilities.

Joint Technology Transfer Initiative.—The agreement adopts House language regarding the Joint Technology Transfer Initiative and provides \$6,000,000 for this purpose. NOAA shall provide the Committees a detailed spending and implementation plan for this initiative not later than 60 days after the enactment of this Act.

Coastal Ecosystem Resiliency Grants.—The Act provides \$10,000,000 within Habitat Conservation and Restoration to continue the coastal ecosystems resiliency grants program established in fiscal year 2015.

The following narrative and table identify the specific activities and funding levels included in this Act:

Polar Follow-on.—The Act provides \$370,000,000 for NOAA’s Polar Follow-on mission, but does not include funding for the proposed and experimental Earth Observing Nanosatellite-Microwave component. NOAA’s mission for polar orbiting weather satellites continues on a tenuous path. NOAA shall focus on procuring the next series of satellites for the JPSS constellation, using proven sensors and platforms, to achieve the program’s budgetary estimates and launch schedule.

Space Weather Follow-On.—The agreement includes \$1,200,000 for the activities identified in the Senate report and non-Federal awards for a study or studies to evaluate low-cost

This report shall include an inventory of all existing and planned space weather assets held by NOAA and NOAA's partners, to include each asset's function, operation and maintenance expenses, and lifetime cost estimates, and shall identify any potential gaps in data needed for space weather forecasting.

New Vessel Construction.—The agreement provides \$80,050,000 for new vessel construction for NOAA's fleet, contingent upon delivery of the latest fleet modernization and recapitalization plan to the Committees on Appropriations. Such funds shall be competitively awarded and target replacing one of NOAA's oldest vessels currently in operation, per the request.
