

**DIVISION C – DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2014**

The agreement on the Department of Defense Appropriations Act, 2014, incorporates some of the provisions of both the House-passed and the Senate-reported versions of the bill. The language and allocations set forth in House Report 113-113 and Senate Report 113-85 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

**DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY**

The agreement delineates that, for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2014, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2015, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and

operation and maintenance in any budget request, or amended budget request, for fiscal year 2015.

#### CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

#### CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

#### REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). For operation and maintenance accounts, the Secretary of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I

and II and quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

#### FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

#### CIVILIAN FURLOUGHES

In fiscal year 2013, the Secretary of Defense furloughed most Department of Defense civilian employees for up to six days due to budgetary shortfalls caused primarily by sequestration. There is concern that the negative impact on productivity, morale, and readiness substantially outweighed the savings generated from civilian furloughs. The Bipartisan Budget Act (BBA) replaced sequester in fiscal years 2014 and 2015 with new spending limits and raised the budget limit for National Defense

(Function 050) spending above the sequestration level. While the agreement does not include provisions to prohibit the use of funds to furlough civilian employees, it is assumed that the passage of the BBA and the passage of this Act will eliminate entirely any need to furlough civilian employees in fiscal year 2014.

#### MARINE CORPS EMBASSY SECURITY GROUP EXPANSION

The National Defense Authorization Act for fiscal year 2013 directed the Secretary of Defense to develop and implement a plan to increase the number of Marines assigned to the Marine Corps Embassy Security Group by up to 1,000 Marines. The agreement provides full funding, based on the Marine Corps' most recent projected fiscal year 2014 requirement, in the military personnel, operation and maintenance, and procurement accounts to support this plan. The Secretary of Defense is directed to fully fund the expansion plan in the fiscal year 2015 budget request and the Future Years Defense Plan.

#### REVIEW OF MILITARY SERVICE ACADEMY SUPERINTENDENTS

The agreement includes a provision directing a review of the role of a modern military service academy superintendent, including the criteria for selecting and evaluating the performance of a superintendent. The review shall be conducted by the Under Secretary of Defense (Personnel and Readiness) and shall examine the role of a superintendent; the criteria for selecting a superintendent; the criteria for evaluating the performance of a superintendent; the actions necessary to ensure that the military is cultivating effective superintendents; the role diversity plays in the selection of a superintendent; the ability of superintendents to adapt and respond to changes in the military; and the extent to which the nature of the work of a superintendent is changing, including what skills are needed to adapt to an evolving leadership role.

In conducting the review, the Under Secretary of Defense (Personnel and Readiness) should consult with a wide variety of outside experts on this issue, including current and former university presidents and former military service academy superintendents. The Under Secretary of Defense (Personnel and Readiness) is directed to submit the findings of this review to the Secretary of Defense and the congressional defense committees not later than 180 days after the enactment of this Act.

#### PATRIOT MODERNIZATION

The fiscal year 2014 budget request includes \$70,053,000 in Research, Development, Test and Evaluation, Army and \$256,438,000 in Missile Procurement, Army for modifications to the Patriot missile air defense system. While support for modification and modernization of the aging Patriot system continues, concerns persist regarding the Army's acquisition and funding strategies for this program.

First, while the Army has updated its decades-old requirements document, the new requirements document lacks details of the specific technologies required, the development and fielding schedules, and the costs of the overall effort. Further, the current modernization spiral is budgeted at close to \$2,000,000,000 over the next five years, with an additional \$800,000,000 required thereafter. The scope and cost of additional spirals are still to be determined, but the current spiral's costs are significant, and when combined with the costs of future spirals, the total modernization program will likely breach thresholds for what ordinarily would be an Acquisition Category I program. Therefore, there is concern that the Army plans to sole-source most of its modification program and bypass full and open competition, a practice that has historically resulted in reduced costs. Finally, it is noted that contrary to previously stated intentions from Army leaders, the Army does not have a funded plan to harvest technologies developed from Army programs previously terminated for use in the Patriot

Modernization program, such as the Surface Launched Advanced Medium Range Air to Air Missile, the Joint Land Attack Cruise Missile Defense Elevated Netted Sensor System, and the Medium Extended Air Defense System. These acquisition programs were terminated after a combined investment of approximately \$6,000,000,000.

Recognizing the urgent need to address current capability gaps, the agreement recommends \$361,491,000 for modifications to the Patriot system. It is directed that not more than 50 percent of research and development funds for Patriot modification or modernization may be obligated until 30 days after the Secretary of the Army, in conjunction with the Under Secretary of Defense (Acquisition, Technology, and Logistics), provides to the congressional defense committees a plan that establishes an open system software architecture for future upgrades and technology refresh to the Patriot system in the near-term. Further, the Secretary of the Army, in conjunction with the Under Secretary of Defense (Acquisition, Technology and Logistics), is directed to provide an acquisition and funding strategy that incorporates full and open competition for Patriot modernization in the near-, mid-, and long-term with the fiscal year 2015 budget submission.

#### SHIP MODERNIZATION, OPERATIONS AND SUSTAINMENT FUND

In the fiscal year 2014 budget submission, the Navy again proposes to prematurely retire seven Ticonderoga class guided missile cruisers and two amphibious dock landing ships that have a combined remaining service life of over 100 years. It is noted that this proposal was rejected by Congress in the National Defense Authorization Act for fiscal year 2014, as well as in Public Law 112-239, the National Defense Authorization Act for fiscal year 2013, and in Division C of Public Law 113-6, the Consolidated and Further Continuing Appropriations Act, 2013, and that Congress previously appropriated considerable funds to man, operate, sustain, and modernize these ships. As previously

expressed in Senate Reports 113-85 and 112-196, and in House Reports 113-113 and 112-493, the House and Senate Appropriations Committees are concerned with this proposed elimination of force structure and believe this change is disconnected from the strategic shift to the Asia-Pacific region. Additionally, this force structure change would likely create future unaffordable shipbuilding requirements and exacerbate force structure shortfalls that negatively impact the Department's ability to meet Combatant Command requirements.

It is noted that some key assumptions that led the Navy to propose prematurely retiring these ships have changed. This includes the material condition of at least one ship being superior to what the Navy had assumed, as well as the scope and cost of modernization efforts required for these platforms to maintain their operational relevance for the balance of their service lives. It is believed that further adjustments to projected modernization efforts could be made, resulting in cost savings while retaining valuable operational capability in the near-term. Therefore, these proposed premature retirements are again denied, and the agreement directs the Secretary of the Navy to retain this force structure in its entirety. The agreement provides \$2,244,400,000 to man, operate, sustain, upgrade, and modernize only CG-63, CG-64, CG-65, CG-66, CG-68, CG-69, CG-73, LSD-41 and LSD-46 in the Ship Modernization, Operations and Sustainment Fund, as specified by Section 8107 of this Act. Recognizing the time required to plan and execute shipyard availabilities and modernization periods, these funds are made available until September 30, 2021.

However, upgrades to these ships have been delayed for too long, and therefore the Secretary of the Navy is directed to upgrade at least one of the above listed Ticonderoga class cruisers starting in fiscal year 2014. Further, the Secretary of the Navy is directed to provide to the congressional defense committees, not later than 30 days after enactment of this Act, and every 90 days thereafter, a written report, unclassified to the greatest

extent possible and with a classified annex if required, detailing for each of the nine ships listed above its readiness, operational and manning status, planning efforts for modernization, deployment schedules, as well as scheduled shipyard induction periods dating back to fiscal year 2012 and going forward for each fiscal year until 2021. The agreement provides the fiscal relief required by the Navy to maintain this critical force structure and allows the Navy sufficient time to budget for this force structure in future budget submissions. Therefore, no funds provided in this Act shall be used to prepare a budget submission to retire the above-listed ships.

#### NATIONAL SECURITY AGENCY

The Director of the National Security Agency (NSA) is directed to provide the following to the congressional intelligence committees, the Senate Committee on the Judiciary, and the House Committee on the Judiciary, not later than 90 days after the enactment of this Act:

- 1) A report, unclassified to the greatest extent possible, which sets forth for the last five years, on an annual basis, the number of records acquired by the NSA as part of the bulk telephone metadata program authorized by the Foreign Intelligence Surveillance Court, pursuant to section 215 of the USA PATRIOT Act, and the number of such records that have been reviewed by NSA personnel in response to a query of such records. Additionally, this report shall provide, to the greatest extent possible, an estimate of the number of records of United States citizens that have been acquired by NSA as part of the bulk telephone metadata program and the number of such records that have been reviewed by NSA personnel in response to a query.
- 2) A report, unclassified to the greatest extent possible and with a classified annex if necessary, describing all NSA bulk collection activities, including when such

activities began, the cost of such activities, the types of records that have been collected in the past, the types of records that are currently being collected, and any plans for future bulk collection.

- 3) A report, unclassified to the greatest extent possible and with a classified annex if necessary, listing terrorist activities that were disrupted, in whole or in part, with the aid of information obtained through NSA's telephone metadata program and whether this information could have been promptly obtained by other means.

#### GLOBAL HAWK BLOCK 30

The agreement supports the continuation of the Global Hawk Block 30 mission. The Secretary of the Air Force is directed to fully comply with current law, including Section 8118 of this Act prohibiting the retirement, divestment, realignment, or transfer of Global Hawk Block 30 aircraft and requiring the Air Force to maintain the operational capability of each such aircraft.

The agreement includes \$10,000,000 in Research, Development, Test and Evaluation, Air Force for the Air Force to conduct a study on the potential adaptation of U-2 sensors to the Global Hawk Block 30 airframe for flight test and demonstration. This study shall consider the technical aspects of each feasible method of adapting U-2 sensors (with particular focus on the SYERS-2 electro-optical/infrared sensor) to the Global Hawk Block 30 airframe and provide an estimated cost and schedule for each such method; assess the availability of SYERS-2 sensors to support a demonstration on the Block 30 platform and the availability of alternative sensors of comparable capability; and compare the concept of operations for using such sensors on the U-2 and Global Hawk with attention to how differences in flight performance would affect sensor performance. The Secretary of the Air Force is directed to report to the congressional

defense committees on the results of this study not later than 180 days after the enactment of this Act. This report may be submitted in classified form if necessary.

#### C-130 AVIONICS MODERNIZATION PROGRAM

The agreement includes \$47,300,000 in Research, Development, Test and Evaluation, Air Force to continue the C-130 avionics modernization program (AMP). The agreement supports the competitive procurement of AMP kits if the program proceeds to production. The agreement retains \$14,200,000 requested under Aircraft Procurement, Air Force for C-130 communication, navigation, and surveillance/air traffic management requirements, subject to the conditions set forth in the National Defense Authorization Act for fiscal year 2014.

#### FIRE AND BUILDING SAFETY ACCORD

The Marine Corps is commended for adopting a requirement to abide by the Accord for Fire and Building Safety in Bangladesh, and the rest of the Armed Forces are strongly encouraged to adopt this standard. In order to better understand the magnitude of business that the Department conducts with businesses that are not signatories or in compliance with the Accord, the Secretary of Defense is directed to provide quarterly reports to the congressional defense committees that specify whether any garments purchased by the military exchange system are manufactured in Bangladesh from suppliers that are not signatories or in compliance with the Accord.

## TITLE I - MILITARY PERSONNEL

The agreement provides \$128,796,287,000 in Title I, Military Personnel. The agreement on items addressed by either the House or the Senate is as follows:

## MILITARY RECRUITMENT AND ENLISTMENT OF GRADUATES OF SECONDARY SCHOOLS

The National Defense Authorization Act for fiscal year 2014 requires the Secretary of Defense to implement a means for ensuring that graduates of a secondary school, including graduates who receive diplomas from secondary schools that are legally operating or who otherwise complete a program of secondary education in compliance with state law, are required to meet the same standard of any test, assessment, or screening tool used to identify persons for recruitment and enlistment in the armed forces. The recommendation supports this provision, and the Secretary is encouraged to ensure its timely implementation.

## DEPARTMENT OF DEFENSE GUIDANCE FOR THE APPOINTMENT OF CHAPLAINS

The agreement supports the Department of Defense Guidance for the Appointment of Chaplains for the Military Departments as currently written upon enactment of this Act. This Guidance requires all applicants to fulfill the requirements to become a chaplain, which includes endorsement by a religious organization that completes and maintains all administrative requirements as laid out by the Guidance.

## HAZING IN THE ARMED FORCES

The agreement reiterates the concerns expressed in the report accompanying the House-passed Fiscal Year 2014 Department of Defense Appropriations bill (H.R. 113-113) on hazing in the military. The act of hazing is inconsistent with the values of the military and undermines the cohesion and discipline of a unit. The Secretary of Defense is reminded that a report providing data on the rates of incidence of hazing was directed by the Consolidated and Further Continuing Appropriations Act, 2013. This report is

overdue, and the Secretary of Defense is directed to provide this report, which should include a review of ways to prevent and respond to incidents, without further delay.

## REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2014 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

*Army:*

- Maneuver units
- Modular support brigades
- Land forces operations support
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities Sustainment, Restoration, and Modernization

*Navy:*

- Aircraft depot maintenance
- Ship depot maintenance
- Facilities Sustainment, Restoration, and Modernization

*Marine Corps:*

- Depot maintenance
- Facilities Sustainment, Restoration, and Modernization

*Air Force:*

Primary combat forces  
Combat enhancement forces  
Combat communications  
Facilities Sustainment, Restoration, and Modernization

*Air Force Reserve:*  
Depot maintenance

*Air National Guard:*  
Depot maintenance

Additionally, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

*Operation and Maintenance, Army National Guard:*  
Other personnel support/recruiting and advertising

During fiscal year 2014, the Secretary of the Air Force is required to submit written notification and justification to the congressional defense committees not later than 30 days prior to implementing transfers in excess of \$15,000,000 out of the following budget sub-activities:

Operating forces depot maintenance  
Mobilization depot maintenance  
Training and recruiting depot maintenance  
Administration and service-wide depot maintenance

These transfers may be implemented 30 days after congressional notification unless an objection is received from a congressional defense committee.

Finally, with respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of

\$15,000,000 shall be subject to prior approval reprogramming procedures, unless otherwise specified in this explanatory statement.

#### JUNIOR RESERVE OFFICER TRAINING CORPS

The agreement designates the funding requested and appropriated for the Junior Reserve Officer Training Corps as a special interest item in fiscal year 2014. As such, funds are to be so designated on the DD Form 1414 (Base for Reprogramming), and any transfer of funds from this program will require a prior approval reprogramming action.

#### TUITION ASSISTANCE

The agreement designates the funding requested and appropriated for the Tuition Assistance program as a special interest item in fiscal year 2014. As such, funds are to be so designated on the DD Form 1414 (Base for Reprogramming), and any transfer of funds from this program will require a prior approval reprogramming action.

The agreement does not include the funding floor for tuition assistance as directed in House report 113-113. However, in order to maintain visibility of this funding, the Secretary of Defense is directed to include the prior year actual, current year estimate, and budget year request for tuition assistance in the performance criteria for the budget line item in which it is requested.

#### SEXUAL ASSAULT IN THE MILITARY

Sexual assault remains a pervasive problem in the military. While the military must do more to stop assaults from occurring in the first place, it must also ensure that when they do occur, assaults are investigated properly so cases may be effectively prosecuted and perpetrators held fully accountable. A 2013 Department of Defense Inspector General report evaluating the Military Criminal Investigative Organizations'

sexual assault investigations found that while 89 percent of investigations completed in 2010 met or exceeded investigative standards, 11 percent of cases had significant deficiencies. The agreement directs the Secretary of Defense and the Service Secretaries to fully implement the recommendations of the Inspector General Report DODIG-2013-091, dated July 9, 2013. From the funds provided, the agreement directs the Service Secretaries to fully fund programs to train investigators on how to properly investigate sexual assault-related offenses as directed by the Inspector General report.

There are also concerns of reports in which mental health diagnoses were misused to administratively discharge or retaliate against victims of sexual assault. Victims of sexual assault should not be punished for reporting crimes committed against them. The Secretary of Defense is directed to review separation records of servicemembers who made an unrestricted report of sexual assault and to correct records of service in those cases in which the victims were improperly discharged.

The agreement also retains a provision contained in the House and Senate bills to provide an additional \$25,000,000 for the Department of Defense and made available for transfer to the Army, Navy, Marine Corps, and Air Force for the expansion of a Special Victims' Counsel program to every military Service, including the National Guard and reserve components, as authorized by the section 1716 of the National Defense Authorization Act for fiscal year 2014.

#### MILITARY INFORMATION SUPPORT OPERATIONS

The agreement includes an allocation of funds by combatant command and funding levels for certain programs as delineated in the classified annex. The agreement reiterates direction included in House report 113-113 designating amounts as congressional special interest items subject to sections 8005, 8006, and 9002 of this Act and the requirement

for submission of a report detailing the execution of funding provided for these programs. Further direction regarding certain matters is contained in the classified annex.

#### VOLUNTARY MILITARY EDUCATION PROGRAMS – ADVERTISING AND MARKETING

The agreement underscores the importance of Department of Defense oversight to prevent abusive advertising and aggressive recruitment practices by higher education institutions that accept Tuition Assistance and My Career Advancement Account education benefits from the Department. The Department's Memorandum of Understanding [MOU] effective December 6, 2012, requires institutions participating with the Department to adopt policies in section 3g, 3h, and 3i of the MOU as "part of efforts to eliminate aggressive marketing aimed at Service members." The Secretary of Defense is directed to submit a report documenting its oversight, evaluation and enforcement of these provisions, along with institutional data on advertising and marketing budgets. The report shall be submitted not later than June 1, 2014, and shall include the number of participating institutions investigated for potential violations of section 3g, section 3h, or section 3i of the MOU and the results of those investigations; an assessment on the effectiveness of the provision in eliminating aggressive marketing targeting servicemembers or their spouses; a detailed description of the procedures and guidelines for conducting oversight of these provisions; and a voluntary accounting of the ten participating institutions who have received the most Tuition Assistance program funds in fiscal year 2013. The accounting shall establish the institution's total dollar value of its marketing, advertising and recruitment budget, and the percentage of that budget targeting servicemembers, including resources dedicated to advertising in military publications, billboards near bases, and internet lead generation efforts.

#### ENERGY INDEPENDENCE AND SECURITY ACT

The agreement does not include a provision proposed by the House on the Energy Independence and Security Act of 2007. It is noted that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments and agencies should be minimized to the greatest extent possible under the law.

#### MAINTENANCE OF REAL PROPERTY

The agreement directs that none of the funds made available by this Act may be used to maintain or improve Department of Defense real property with a zero percent utilization rate according to the Department's real property inventory database, except in the case of maintenance of an historic property as required by the National Historic Preservation Act (16 U.S.C. 470 et seq.) or maintenance to prevent a negative environmental impact as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

INSERT 36A-E

CYBER COMMAND FUNDING

Funding for the United States Cyber Command, a subordinate unified command under the United States Strategic Command, currently is not discretely visible in the Air Force's budget justification material. With the increased emphasis on cyber activities and related resourcing, the Secretary of the Air Force is directed to separately report and separately justify funds not later than the submission of the fiscal year 2016 budget justification material to support Cyber Command in sub-activity Group 015A, "Combatant Commands Direct Mission Support" and in sub-activity Group 015B, "Combatant Command Core Operations".

OPERATION AND MAINTENANCE, DEFENSE-WIDE

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

117301 F 374-D

GLOBAL SECURITY CONTINGENCY FUND

The agreement includes \$30,000,000 for the Global Security Contingency Fund and maintains the current authorization amount of \$200,000,000 from within the Operations and Maintenance, Defense-Wide account.

The request for an appropriation in this account is precedent setting and was included in the fiscal year 2014 request for the first time. The reduction to this request for a direct appropriation is taken without prejudice to the fund and maintains the requested authorization ceiling.

MEALS READY TO EAT

The Defense Logistics Agency is commended for initiating action to study the Meals Ready to Eat (MRE) War Reserve and industrial base, and the Director is to be applauded for the decision to maintain stockage levels at five million cases through at

least fiscal year 2015. In order to meet this objective, and at the same time ensure the industrial base is able to meet surge requirements, the Director is encouraged to establish an annual minimum rate of 2.5 million cases as part of the current five year industry contract. The Director of the Defense Logistics Agency shall provide the congressional defense committees written notification 30 days prior to making reductions to the War Reserve after September 30, 2014.

#### STEM EDUCATION AND STARBASE

The agreement finds that consolidation of Science, Technology, Engineering, and Mathematics (STEM) education and significant changes to the STARBASE program are not advisable at this time. STARBASE provides a unique low-cost leveraging of community and military resources that another federal agency will not be able to duplicate. The benefits of cooperative community and military relationships stimulate the long-term interest of youth in STEM careers. The recommendation therefore provides \$25,000,000 to continue the Department of Defense STARBASE program in fiscal year 2014. The agreement encourages the Secretary of Defense to continue the STARBASE program through fiscal year 2015.

#### SPECIAL OPERATIONS COMMAND DIRECTION

The agreement reiterates the direction included in House report 113-113 regarding the Special Operations Command National Capital Region.

The agreement transfers \$17,000,000 in funding to the Defense Health Program and directs the Service Surgeons General to work with the Commander, Special Operations Command to implement an embedded behavioral health program for special operations units during fiscal year 2014 that is consistent with Service programs.

## SPECIAL OPERATIONS COMMAND BUDGET JUSTIFICATIONS

The agreement directs that budget activities be established for the Special Operations Command operation and maintenance budget in fiscal year 2015. Additionally, the Commander, Special Operations Command, is directed to submit an OP-5 Operation and Maintenance Detail exhibit and OP-32 Summary of Price and Program Changes exhibit for each budget sub-activity. Finally, the agreement directs that normal prior approval reprogramming procedures be used to transfer funds between budget activities in excess of \$15,000,000. The following table assigns the budget activity and budget sub-activity structure:

Budget Activity 1 includes sub-activities:

- Combat development activities
- Flight operations
- Other operations
- Ship/boat operations
- Base support
- Communications
- Force related training
- Intelligence
- Maintenance
- Management/operational headquarters
- Operational support

Budget Activity 3 includes sub-activities:

- Professional development
- Specialized skill training

Budget Activity 4 includes sub-activity:

Acquisition/program management

The House and Senate Appropriations Committees look forward to working with the Under Secretary of Defense (Comptroller) and the Commander, Special Operations Command, to improve budget justification materials. This structure shall be the starting point and may be revised in future years based on mutually agreed upon recommendations.

#### TRANS-REGIONAL WEB INITIATIVE

The agreement provides \$2,000,000 for the Trans-Regional Web Initiative in fiscal year 2014. The Commander, Special Operations Command is directed to continue expenditure of fiscal year 2013 funds for this program and transition this effort to the Geographic Combatant Commands or other agencies of the United States Government, as appropriate, starting in fiscal year 2014.

CONTRACTOR LOGISTICS SUPPORT FOR DEPOT MAINTENANCE

The Consolidated and Further Continuing Appropriations Act, 2013 consolidated all depot maintenance funding contained in the Air Force Reserve and Air National Guard budget requests in the respective Depot Maintenance sub-activity Groups (SAGs) and directed the Secretary of the Air Force to display all depot maintenance funds requested in the fiscal year 2014 budget request in the Depot Maintenance SAG. While the Air National Guard fiscal year 2014 budget request displayed all depot maintenance funds requested in the Depot Maintenance SAG, it failed to capture costs and quantities for weapons systems that rely on Contractor Logistics Support (CLS) for Depot Maintenance. This severely limits both visibility of funding for this program and the ability to conduct oversight of a program which is critical to military readiness. While funding is not reduced due to unjustified cost increases for CLS, concerns remain that the Air National Guard is unable to properly justify requested increases in CLS funding for Depot Maintenance or to

differentiate between flight line activities, for which funding should be requested in the Aircraft Operations and Mission Support SAGs in the budget request, and depot maintenance activities, for which funding should be requested in the Depot Maintenance SAG.

The Secretary of the Air Force is directed to continue to display all depot maintenance funds (and only depot maintenance funds) requested in fiscal year 2015 in the Depot Maintenance SAG. Funds which support flight line spares and/or repairs shall be displayed in the budget request in the appropriate SAG. The agreement further directs the Secretary to fully display costs and quantities for weapons systems that rely on CLS for Depot Maintenance in the budget request to provide full visibility of depot maintenance funding and enable effective management and oversight of this critical program.

## UNITED STATES COURT OF APPEALS FOR THE ARMED SERVICES

The agreement provides \$13,606,000 for the United States Court of Appeals for the Armed Services.

## ENVIRONMENTAL RESTORATION, ARMY

The agreement provides \$298,815,000 for Environmental Restoration, Army.

## ENVIRONMENTAL RESTORATION, NAVY

The agreement provides \$316,103,000 for Environmental Restoration, Navy.

## VIEQUES ISLAND ENVIRONMENTAL RESTORATION

The Navy is conducting environmental restoration at sites on Vieques Island associated with former Navy activities. The agreement recognizes that the Navy is working with the Puerto Rico Environmental Quality Board, the United States Environmental Protection Agency, and the Fish and Wildlife Service to select by consensus a final remedy for those sites. There remains concern regarding the current pace of cleanup action, and the Secretary of the Navy is encouraged to accelerate cleanup efforts once a consensus is achieved. The agreement reiterates direction included in House Report 113-113 that the Secretary of the Navy shall inform the congressional defense committees on the progress of site cleanup. Additionally, the Secretary of the Army shall inform the congressional defense committees on cleanup measures occurring on the island of Culebra, Puerto Rico.

## ENVIRONMENTAL RESTORATION, AIR FORCE

The agreement provides \$439,820,000 for Environmental Restoration, Air Force.

## ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The agreement provides \$10,757,000 for Environmental Restoration, Defense-Wide.

## ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES

The agreement provides \$287,443,000 for Environmental Restoration, Formerly Used Defense Sites.

## OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The agreement provides \$109,500,000 for Overseas Humanitarian, Disaster, and Civic Aid.

## COOPERATIVE THREAT REDUCTION ACCOUNT

The agreement provides \$500,455,000 for the Cooperative Threat Reduction Account, as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	FY 2014 Request	Final Bill
<b>COOPERATIVE THREAT REDUCTION PROGRAM</b>		
Strategic offensive arms elimination	10,000	5,700
Chemical weapons destruction	21,250	13,000
Cooperative biological engagement	306,325	306,325
Threat reduction engagement	2,375	6,375
Other assessments/admin costs	28,175	28,175
Global nuclear security	86,508	32,808
Proliferation prevention	73,822	136,072
Forward financed from previous years		-28,000
<b>TOTAL, COOPERATIVE THREAT REDUCTION PROGRAM</b>	<b>528,455</b>	<b>500,455</b>

## COOPERATIVE THREAT REDUCTION PROGRAM

The Department of Defense Cooperative Threat Reduction (CTR) program has proven highly successful in its efforts to secure and dismantle weapons of mass destruction and their associated infrastructure in the former Soviet Union and former Soviet bloc countries. On June 17, 2013, the Russian Federation chose not to renew the umbrella agreement with the United States. Therefore, the fiscal year 2014 program has changed substantially from the fiscal year 2014 budget request.

For many years, the CTR program has been unable to obligate funding in a timely manner. Furthermore, the program has significant flexibility which impedes oversight. For example, in fiscal year 2013, the program realigned 25 percent of its budget across different sub-accounts after enactment. This flexibility allows for dynamic changes in spending. The Congress has had little opportunity to practice due diligence in its oversight role due to the late receipt of funding changes. Section 1302 of the National Defense Authorization Act (NDAA) for fiscal year 2014 directs that no fiscal year 2014 Cooperative Threat Reduction funds may be obligated or expended for a purpose other than appropriated without submitting a report. In addition to the NDAA requirements, the agreement directs that the report include additional justification regarding risks associated with the funding sources, cumulative accounting of changes, and the impact for each funding realignment.

## DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND

The agreement provides \$51,031,000 for the Department of Defense Acquisition Workforce Development Fund.

### TITLE III – PROCUREMENT

The agreement provides \$92,861,300,000 in Title III, Procurement. The agreement on items addressed by either the House or the Senate is as follows:

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval

reprogramming procedures for congressional special interest items are established elsewhere in this statement.

#### ARSENAL SUSTAINMENT INITIATIVE

The agreement supports the ongoing efforts of the Department of the Army to develop the Army Organic Industrial Base Strategy. This process is identifying manufacturing capabilities at the arsenals that are critical for this country to sustain in wartime and peacetime. However, there is concern that while the Army Organic Industrial Base Strategy identified needed capabilities, the Army will not fund these capabilities at a level adequate to maintain them. To address these concerns, the agreement provides \$150,000,000 to the Army Defense Working Capital Fund for the Industrial Mobilization Capacity Account to address the issue of non-competitive rates at the arsenals to better allow them to compete for public/private partnerships and other business to help sustain capacity, cost efficiency and technical competence in peacetime, while preserving the ability to provide an effective and timely response to mobilizations, national defense contingency situations, and other emergent requirements. Additionally, the Secretary of the Army is directed to release the Army Organic Industrial Base Strategy Report not later than 30 days after the enactment of this Act. Further, the Secretary of the Army is directed to assign the arsenals sufficient workload to maintain the critical capabilities identified in the Army Organic Industrial Base Strategy Report, and to brief the congressional defense committees not later than 90 days after the enactment of this Act to ensure sufficient workload for the efficient operation (also known as the “blue line level”) of the arsenals. This is also addressed in Section 8141 of this Act.

OTHER PROCUREMENT, NAVY

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

INSERT 63A-K

DESTROYER MODERNIZATION

The agreement fully funds the budget request for destroyer modernization and expects the Navy to continue with its original strategy of working through the inventory of oldest ships in its modernization efforts. There is concern that the Navy will attempt a premature retirement of capable Arleigh Burke class guided missile destroyers as is being proposed for Ticonderoga class guided missile cruisers. Therefore, the Secretary of the Navy is directed to prioritize the modernization of older, Flight I and II Arleigh Burke class ships over newer Flight IIA ships, dependent on ship availability, in order to ensure the operational readiness of the older ships throughout their projected service lives.

AIRCRAFT PROCUREMENT, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

insert - b5A-G

MQ-9 REAPER

The agreement provides \$349,217,000 for the procurement of 20 MQ-9 aircraft, an increase of eight aircraft above the request. The Secretary of the Air Force is directed to procure no fewer than the full number of MQ-9 aircraft appropriated in this Act as a single production lot.

OTHER PROCUREMENT, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

INSERT - 103A-F

MQ-1/9 REMOTE SPLIT OPERATIONS

The agreement provides an additional \$40,000,000 to procure equipment necessary for the transition of six Air National Guard squadrons to MQ-1/9 remote split operations by fiscal year 2020. The Secretary of the Air Force is directed to submit an execution plan for these and all other funds made available for this purpose not later than 90 days after the enactment of this Act, to include detailed plans for funding, training, manning, and equipping all six Air National Guard squadrons. Additionally, the Secretary is directed to begin training for all six squadrons not later than fiscal year 2014 as previously indicated by the Air Force and to include any additional funding necessary to equip these squadrons in the fiscal year 2015 budget request.

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (House Report 110-279). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval

reprogramming procedures for congressional special interest items are established elsewhere in this statement.

#### JOINT STRIKE FIGHTER FOLLOW-ON DEVELOPMENT

The agreement finds that a formal capability development document for Block 4, defining the next increment of warfighting capability to be integrated into the F-35 platform, must be approved before any funding may be used to begin Block 4 development. The agreement provides \$6,000,000 only to perform the work necessary to produce, staff, and gain approval of a Block 4 capability development document.

#### COMMON DATA LINK

The agreement strongly supports increased competition for Common Data Link (CDL) devices, which are vital for securely conveying intelligence, surveillance, and reconnaissance information in the field. Accordingly, the agreement directs that no funds be obligated or expended for CDL solicitations unless they are compliant with Section 157 of the National Defense Authorization Act for fiscal year 2013. Recognizing that efforts are underway to increase competition and eliminate reliance on proprietary solutions for CDL, the agreement directs the Under Secretary of Defense (Acquisition, Technology, and Logistics) to submit a report updating the congressional defense committees on these efforts not later than 60 days following the enactment of this Act.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

insert 74A - J

USER INTERFACES TO IMPROVE WARFIGHTER PERFORMANCE

The Army is performing research and conducting exercises aimed at closing the gap between the difficulty in operating traditional military equipment and the ease of operating modern handheld devices. The Secretary of the Army is encouraged to accelerate these ongoing technology development efforts and update equipment user interfaces to improve warfighter performance.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

insert 75A-N

BONE MARROW REGISTRY

The agreement provides \$31,500,000 for the Department of the Navy to be administered by the Bone Marrow Registry, also known as and referred to within the Naval Medical Research Center as the C.W. Bill Young Marrow Donor Recruitment and Research Program. Funds appropriated for the Bone Marrow Registry shall remain available only for the purposes for which they are appropriated and may only be obligated for the Bone Marrow Registry. This Department of Defense donor center has recruited more than 750,000 Department of Defense volunteers and provides more marrow donors per week than any other donor center in the nation. More than 5,600 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now includes more than 11,000,000 potential volunteer donors, is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the Bone Marrow Registry in

the development and testing of their contingency plans. The Secretary of Defense shall show this as a congressional interest item on the DD Form 1414 (Base for Reprogramming). The Secretary of Defense is further directed to release all the funds appropriated for this purpose to the Bone Marrow Registry not later than 60 days after the enactment of this Act.

#### NEXT GENERATION JAMMER

Senate Report 112-196 directed the Government Accountability Office (GAO) to conduct a review of the Next Generation Jammer (NGJ) program to determine if there are redundancies across the Services and to assess whether this effort should become a joint Service solution. The agreement concurs with the following GAO recommendations: the Secretary of Defense should require the NGJ capabilities development document to consider potential redundancies between the NGJ program and existing and proposed programs across all of the planned roles and to ensure that the Electronic Warfare Strategy report to Congress includes information on potentially overlapping capabilities. In addition, the GAO recently upheld the technology development bid protest highlighting four recommendations, and the agreement directs that all four recommendations be implemented. Due to the fact that the Navy is limiting competition early in the NGJ acquisition program, the Navy should acquire the necessary technical data rights and allow for an open systems architecture approach that would facilitate continued competition for the remainder of the NGJ acquisition program. As a result of the bid protest being upheld and a six month program delay, the agreement reduces the NGJ program by \$100,000,000.

## VIRGINIA PAYLOAD MODULE

The fiscal year 2014 budget request for the Virginia Payload Module (VPM) is \$59,000,000. The agreement fully funds the budget request; however, concerns remain over increasing the Virginia-class submarine size to accommodate a 93.7 foot module in the submarine's center. The module's requirements are not defined, which likely will result in instability to a proven submarine design, disrupt a stable production line, and add significant cost to the current estimates. These concerns are raised due to a history of cost growth on previous submarine development efforts. For instance, in 1999, the Navy began designing the conversion of four SSBN submarines to SSGN configurations with the initial cost estimates for a four-boat program of \$2,400,000,000. By the time these submarines were converted, the cost was \$4,000,000,000, or an increase of 66 percent above the initial estimates. Similarly, when the Navy modified SSN-23, it increased the submarine's cost by \$887,000,000 for a total of \$3,300,000,000 for one submarine.

The Department of the Navy recently received Joint Requirements Oversight Committee approval of the capabilities development document for the VPM. The document includes two additional key performance parameters for controlling costs: the non-recurring engineering cost to design the modification is limited to \$800,000,000 in constant fiscal year 2010 dollars for development, and the production cost is limited to \$475,000,000 for the lead ship and \$350,000,000 for the follow-on ships. The Navy is directed not to exceed these cost thresholds.

The Secretary of the Navy shall create a separate budget line item to enable additional congressional oversight and increase transparency into the costs of VPM. Furthermore, the Secretary shall submit a bi-annual report to the congressional defense committees describing the actions the Navy is taking to minimize costs. The agreement fences \$20,000,000 until the first bi-annual report is provided to the congressional defense committees.

NAVY SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS PROGRAM

The agreement encourages the Office of Naval Research (ONR) to support America's Ocean Exploration Program as recommended by the Presidential Commission on Ocean Policy, which includes the development of advanced remotely controlled and autonomously operated vehicles down to 6,000 meters as well as telepresence technology. Additionally, the Secretary of the Navy is encouraged to expand the Navy's Science, Technology, Engineering, and Mathematics (STEM) Educational Outreach program to include the United States Naval Academy, thereby providing opportunities for midshipmen to participate in America's Exploration Program and serve as role models for ONR's STEM Program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~ 2

~~(INSERT PROJECT LEVEL TABLE)~~ 6

insert 79A-N

COMBAT RESCUE HELICOPTER

The agreement includes \$333,558,000 for the Combat Rescue Helicopter (CRH) program and directs that the funds provided shall be considered a congressional special interest item. The CRH will replace the aging fleet of Pave Hawk helicopters that support not only the Air Force but combat missions across all the Services. These helicopters need to be replaced. However, in a period of fiscal austerity, the program must be affordable to ensure that it is not canceled due to insufficient funding in future years. The Air Force must continue to assess its acquisition strategy to find ways to control costs and ensure that the program remains on track to deliver these helicopters to the fleet.

Prior to any decision to terminate the CRH program due to insufficient funding in future years, the Secretary of the Air Force and the Chief of Staff of the Air Force are directed to review the threshold and objective requirements as established in the capability development document and to review alternative acquisition strategies using

cost-benefit analysis in order to establish an affordable program. The Secretary of the Air Force is directed to brief the outcome of this review to the congressional defense committees.

#### HARD TARGET MUNITIONS

The Secretary of the Air Force is directed to report to the congressional defense committees on the results of the hard target munitions analysis of alternatives (AoA) not later than 15 days after the AoA is approved and to include in the report a discussion of how the fiscal year 2014 new start efforts for the 5,000-pound Joint Direct Attack Munitions demonstration and the advanced 2,000-pound penetrator demonstration are consistent with the AoA. The agreement provides that the Secretary may obligate and expend funds for these new start efforts prior to completion of the AoA.

#### HUMAN PERFORMANCE SENSING

The agreement supports Air Force Research Laboratory (AFRL) research into human performance sensing. Accordingly, the agreement encourages AFRL to continue its research into the manufacture of nano-biomaterial sensors.

#### NATIONAL SECURITY SPACE PROGRAM PLANNING AND EXECUTION

The Director of Cost Assessment and Program Evaluation is directed to submit the report required by House Report 113-113 to the congressional defense committees not later than July 1, 2014.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

~~(INSERT PROJECT LEVEL TABLE)~~

INSERT AIR-M

CONVENTIONAL PROMPT GLOBAL STRIKE

The agreement includes \$65,440,000 to continue the Prompt Global Strike program, a decrease from the \$200,383,000 appropriated in fiscal year 2013. The program achieved a significant milestone on November 17, 2011, when the Army conducted a successful flight test of the advanced hypersonic weapon (AHW). The Secretary of Defense is directed to follow through on the stated intent of additional fiscal year 2013 funding provided for continued planning and completion of a second, longer range AHW flight test to validate the design and further confirm previously demonstrated AHW flight technology. Also, considering the fiscal constraints under which the Department of Defense is operating, the Secretary is directed to avoid commitments that will cause funds to be used for design or development efforts intended to support a significant departure from HTV-2 or the Army's AHW payload delivery vehicle designs.

## REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

There remain concerns regarding the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and improve oversight within the Defense Health Program operation and maintenance account, a provision is included which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying explanatory statement language should not be interpreted by the Department as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, funding for the Direct Care System continues to be designated as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Secretary of Defense to follow prior approval reprogramming procedures.

The Secretary of Defense also shall provide written notification to the congressional defense committees of cumulative transfers in excess of \$15,000,000 out of the Private Sector Care budget activity.

## CARRYOVER

For fiscal year 2014, the agreement recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2013 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

#### PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$25,000,000 for a peer-reviewed cancer research program to research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: blood cancer, colorectal cancer, genetic cancer research, kidney cancer, listeria vaccine for cancer, melanoma and other skin cancers, mesothelioma, myeloproliferative disorders, neuroblastoma, pancreatic cancer, pediatric brain tumors, and cancers related to radiation exposure.

#### PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$200,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to the following areas: acupuncture, arthritis, chronic migraine and post-traumatic headache, congenital heart disease, DNA vaccine technology for postexposure prophylaxis, dystonia, epilepsy, food allergies, Fragile X syndrome, hereditary angioedema, illnesses related to radiation exposure, inflammatory bowel disease, interstitial cystitis, lupus, malaria, metabolic disease, neuroprosthetics, pancreatitis, polycystic kidney disease, post-traumatic osteoarthritis, psychotropic medications, respiratory health, rheumatoid arthritis, segmental bone defects, and tinnitus. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

## INTEGRATED ELECTRONIC HEALTH RECORD

The agreement includes a provision restricting the amount of funding that may be obligated for the Interagency Program Office (IPO) and the Defense Healthcare Management Systems Modernization (DHMSM) program to 25 percent of the funding provided until the Secretary of Defense provides the House and Senate Appropriations Committees an expenditure plan that includes elements such as a budget and cost baseline for full operating capability and the total life cycle costs of the program. The expenditure plan should also describe how the forthcoming Request for Proposal (RFP) for DHMSM will require adherence to data standardization as defined by the IPO. This is critical to ensure interoperability between current and future Department of Veterans Affairs and Department of Defense electronic health record systems.

It is concerning that after five years of working to establish a joint framework to collaborate and develop an integrated Electronic Health Record, the program was restructured in February 2013, with the Departments of Defense and Veterans Affairs each pursuing their own core systems. The IPO also took on a more limited but still vital role after the restructure and is now responsible for establishing, monitoring, and approving the clinical and technical data standards to ensure seamless integration of health data between the two Departments and private health care providers. The IPO is directed to deliver to the congressional defense committees, the House and Senate Subcommittees on Appropriations for Military Construction, Veterans Affairs, and Related Agencies, and the Government Accountability Office (GAO) a quarterly report that includes a detailed explanation of it is working to fulfill this new role.

As the Department of Defense prepares to release an RFP for the DHMSM in fiscal year 2014, it is imperative that it does not lose sight of the ultimate goal of interoperability with Department of Veterans Affairs health records. The Program Executive Officer (PEO) of the Defense Healthcare Management Systems (DHMS), in

conjunction with the DHMSM Program Manager, is directed to provide quarterly reports to the congressional defense committees and the GAO on the cost and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. PEO DHMS is further directed to continue briefing the House and Senate Defense Appropriations Subcommittees on a quarterly basis, coinciding with the report submission. Additionally, the GAO is directed to review these quarterly reports and provide an annual report to the congressional defense committees and the House and Senate Subcommittees on Appropriations for Military Construction, Veterans Affairs, and Related Agencies on the cost and schedule of the program.

#### RADIATION EXPOSURE

Recent reports of sailors who have developed cancer and other health conditions linked to radiation exposure after serving on the USS Ronald Reagan during Operation Tomodachi, which provided humanitarian assistance following the earthquake and subsequent tsunami in Japan in March 2011, are disconcerting. The Assistant Secretary of Defense (Health Affairs) is directed to submit a report to the congressional defense committees not later than April 15, 2014, on the number of sailors serving on the USS Ronald Reagan during Operation Tomodachi who were potentially exposed to increased levels of radiation during the humanitarian mission. The report should include a complete inventory of any adverse medical conditions experienced by these sailors since Operation Tomodachi, as well as a description of the actions taken before, during, and after the mission to ensure the safety of sailors from nuclear radiation. It should also include a breakdown of the number of sailors who participated in Operation Tomodachi who are still Navy servicemembers, including reserve component, as well as the number of sailors who have since separated.

The Secretary of the Navy is directed to take all necessary steps to ensure that any health effects resulting from this humanitarian mission are fully addressed. The agreement includes \$200,000,000 for the peer-reviewed medical research program, \$100,000,000 for the joint warfighter medical research program, and \$25,000,000 for the peer-reviewed cancer research program. A portion of these funds should be utilized, if necessary, to carry out additional research on the health effects of radiation exposure. Further, the Secretary of the Navy is directed to report to the congressional defense committees on any research efforts related to radiation exposure, not later than 30 days after additional funds are provided to new or existing research efforts.

## CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

The agreement on items addressed by either the House or the Senate is as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	FY 2014 Request	Final Bill
<b>OPERATION AND MAINTENANCE</b>	<b>451,572</b>	<b>398,572</b>
Program decrease		-53,000
<b>PROCUREMENT</b>	<b>1,368</b>	<b>1,368</b>
<b>RESEARCH, DEVELOPMENT, TEST AND EVALUATION</b>	<b>604,183</b>	<b>604,183</b>
<b>TOTAL, CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE</b>	<b>1,057,123</b>	<b>1,004,123</b>

## DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The agreement on items addressed by either the House or the Senate is as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [in thousands of dollars]

---

	FY 2014 Request	Final Bill
<b>DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES</b>	<b>938,545</b>	<b>1,015,885</b>
National Guard counter-drug program		130,000
Young Marines - drug demand reduction		4,000
Previously funded RDTE projects		-6,660
Historical underexecution		-50,000

## JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

The agreement does not recommend funding for the Joint Improvised Explosive Device Defeat Fund in the base budget. Funding requirements of the Joint Improvised Explosive Device Defeat Organization are addressed in title IX, Overseas Contingency Operations.

## OFFICE OF THE INSPECTOR GENERAL

The agreement on items addressed by either the House or the Senate is as follows:

### EXPLANATION OF PROJECT LEVEL ADJUSTMENTS [In thousands of dollars]

	FY 2014 Request	Final Bill
<b>OPERATION AND MAINTENANCE</b>	<b>311,131</b>	<b>315,000</b>
Program increase		3,869
<b>PROCUREMENT</b>	<b>1,000</b>	<b>1,000</b>
<b>TOTAL, OFFICE OF THE INSPECTOR GENERAL</b>	<b>312,131</b>	<b>316,000</b>

### OFFICE OF THE INSPECTOR GENERAL GROWTH PLAN

Since 2008, Congress has provided the Department of Defense Inspector General (DODIG) with increased funding to support increased audit, investigative, assessment, and evaluation capabilities, commonly referred to as the DODIG Growth Plan. The National Defense Authorization Act for fiscal year 2013 directed the DODIG to provide an updated requirements plan to establish future staffing objectives based on oversight needs and current budgetary realities. The agreement supports the revised DODIG Growth Plan and directs the Secretary of Defense to fully fund the updated DODIG Growth Plan in the fiscal year 2015 budget request and the Future Years Defense Plan.

COLLABORATION WITH THE DEPARTMENT OF VETERANS AFFAIRS INSPECTOR GENERAL  
REGARDING SERVICE TREATMENT RECORDS

The agreement includes a provision directing the Department of Defense Inspector General, together with the Department of Veterans Affairs Inspector General, to assess the time it takes for service treatment records to be transmitted to the Department of Veterans Affairs, the impediments to providing the records in a useable electronic format, and recommendations to streamline the process. The agreement directs that this report should be submitted to the House and Senate Appropriations Committees not later than September 8, 2014.

## TITLE VII - RELATED AGENCIES

The agreement provides \$1,042,229,000 in Title VII, Related Agencies. The agreement on items addressed by either the House or the Senate is as follows:

~~(INSERT COMPUTER TABLE)~~

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate detailed and comprehensive classified annex. The Intelligence Community, Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying this Act.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY  
SYSTEM FUND

The agreement provides \$514,000,000 for the Central Intelligence Agency Retirement and Disability Fund.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The agreement provides \$528,229,000 for the Intelligence Community Management Account.

## TITLE VIII – GENERAL PROVISIONS

The agreement incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement retains a provision proposed by the Senate which provides general transfer authority not to exceed \$5,000,000,000. The House bill contained a similar provision which provided general transfer authority not to exceed \$4,000,000,000.

The agreement modifies a provision proposed by the House which identifies tables as Explanation of Project Level Adjustments. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate regarding limitations and conditions on the use of funds made available by this Act to initiate multi-year contracts. The House bill contained a similar provision.

The agreement retains a provision proposed by the Senate which prohibits the use of funds to demilitarize or dispose of certain small firearms. The House bill contained a similar provision but made it permanent.

The agreement retains a provision proposed by the House regarding incentive payments authority by the Indian Financing Act of 1974. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which provides funding from various appropriations for the Civil Air Patrol Corporation. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding funds appropriated for programs of the Central Intelligence Agency. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding mitigation of environmental impacts on Indian lands resulting from Department of Defense activities. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House and the Senate regarding field operating agencies.

The agreement modifies a provision proposed by the Senate regarding the use of new designs or fielding of combat and camouflage utility uniforms. The House bill contained no similar provision.

(RESCISSIONS)

The agreement modifies a provision proposed by the House and the Senate recommending rescissions and provides for the rescission of \$1,906,089,000. The rescissions agreed to are:

2011 Appropriations:

National Defense Sealift Fund:

Strategic sealift acquisition.....\$10,000,000

2012 Appropriations:

Other Procurement, Army:

Biometrics Enterprise.....40,000,000

Aircraft Procurement, Navy:

E-2D ..... 10,000,000

Weapons Procurement, Navy:

Cruiser modernization weapons.....33,300,000

Other Procurement, Navy:

CG modernization.....266,486,000

Aircraft Procurement, Air Force:

C-27J Joint Cargo Aircraft.....312,000,000

Integrated Electronic Health Record research .....	998,000

The agreement modifies language proposed by the House and the Senate, which includes a modification to Section 8057 regarding human rights vetting. With respect to the term “national security emergency” in the paragraph on exceptions, the Secretary of Defense shall narrowly define its use when applying this exception.

The agreement modifies a provision proposed by the House which provides a grant to the Fisher House Foundation, Inc. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House and the Senate related to funding for the Israeli Cooperative Defense programs.

The agreement retains a provision proposed by the Senate regarding Fleet Forces Command operational and administrative control of Navy forces assigned to the Pacific Fleet. The House bill contained a similar provision which also placed certain limitations on United States Transportation Command operations and administrative control of C-130 and KC-135 forces assigned to the Pacific and European Air Force Commands.

The agreement retains a provision proposed by the Senate regarding specific allocation of funds under the heading “Shipbuilding and Conversion, Navy”. The House bill contained a similar provision.

The agreement retains a provision proposed by the Senate which requires separate budget justification documents for the costs of participation in contingency operations for the military personnel, operation and maintenance, procurement, and research, development, test and evaluation accounts. The House bill contained a similar provision but did not include the research, development, test and evaluation accounts.

The agreement retains a provision proposed by the House which provides funding to the United Service Organizations and the Red Cross. The Senate bill contained a similar provision but did not provide funding to the Red Cross.

The agreement retains a provision proposed by the House which establishes a baseline for application of reprogramming and transfer authorities for the Office of the Director of National Intelligence. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House regarding reprogramming guidelines for the National Intelligence Program. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House requiring monthly reporting of incremental contingency operations costs for Operation Enduring Freedom or any other named operations. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House and the Senate regarding funds appropriated for the purpose of making remittances to the Defense Acquisition Workforce Development Fund.

The agreement retains a provision proposed by the House which prohibits funding for the Association of Community Organizations for Reform Now (ACORN) or its subsidiaries. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the Office of the Director of National Intelligence from employing more Senior Executive Service employees than are specified in the classified annex. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House to provide grants through the Office of Economic Adjustment to assist the civilian population of Guam. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House regarding parking spaces provided by the BRAC 133 project. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which requires quarterly reports on civilian end strength. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which prohibits funds from being used to separate the National Intelligence Program from the Department of Defense budget. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which provides general transfer authority of \$2,000,000,000 for funds made available for the intelligence community. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the Senate regarding the Ship Modernization, Operations and Sustainment Fund to be used for certain purposes. The House bill contained no similar provision.

The agreement modifies a provision proposed by the Senate regarding a comprehensive evaluation of the role of a modern superintendent of a military service academy. The House bill contained no similar provision.

The agreement modifies a provision proposed by the Senate which reduces funding due to favorable foreign exchange rates. The House bill contained no similar provision.

The agreement retains a provision proposed by the House regarding the transfer of detainees from Naval Station Guantanamo Bay, Cuba to the United States. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House regarding the transfer of detainees from Naval Station Guantanamo Bay, Cuba to foreign countries. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funding to modify any United States facility, other than the facility at Naval Station Guantanamo Bay, Cuba, to house any individual detained at Naval Station Guantanamo Bay, Cuba. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the Senate which prohibits funding from being used to enter into contracts or other agreements with any corporation in which any unpaid federal tax liability has been assessed. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used to violate the Trafficking Victims Protection Act of 2000. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House regarding the obligation and expenditure of funds for the RQ-4B Global Hawk aircraft. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House which prohibits funds from being used to violate the Child Soldier Prevention Act of 2008. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used to violate the War Powers Resolution. The Senate bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funding from being used in violation of Presidential Memorandum-Federal Fleet Performance, dated May 24, 2011. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funding from being used to enter into contracts with entities listed in the EPLS/SAM as having been convicted of fraud against the federal government. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House related to funding for Rosoboronexport. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which strikes paragraph (7) of Section 8159(c) of the Department of Defense Appropriations Act, 2002. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used for the purchase or manufacture of a flag of the United States unless such flags are treated as covered items under section 2533a(b) of title 10, U.S.C. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House which prohibits funding from being used in contravention of the amendments made to the Uniform Code of Military Justice by the National Defense Authorization Act for fiscal year 2014 regarding offenses related to sexual assault. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which provides funding to be made available to local military commanders or officers or employees to provide ex gratia payments for damage, personal injury, or death that is incident to combat operations of the Armed Forces in a foreign country as subject to certain provisions. The House bill contained no similar provision.

The agreement retains a provision proposed by the Senate prohibiting funding from being used to conduct any environmental impact analysis related to Minuteman III silos. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House and Senate regarding a reduction of funding for general and flag officers and a prohibition of funding from being used to increase the number of general or flag officers over current levels.

The agreement retains a provision proposed by the Senate which prohibits funding from being used to transition elements of the 18<sup>th</sup> Aggressor Squadron out of Eielson Air Force Base. The House bill contained no similar provision.

The agreement modifies a provision proposed by the House regarding the use of funds to cancel the avionics modernization program of record for the C-130 aircraft. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds from being used to grant an enlistment waiver for an offense within offense code 433 related to certain sex crimes. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House regarding force structure changes at Lajes Field, Azores, Portugal. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funding from being used in contravention of Section 41106 of title 49, U.S.C. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House regarding funding for flight demonstration teams at locations outside the United States. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House limiting the use of funds to carry out reductions to the nuclear forces of the United States to implement the New START Treaty. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House to prohibit funds from being used to implement an enrollment fee for the TRICARE for Life program. The Senate bill contained no similar provision.

The agreement modifies a provision proposed by the House related to agreements with the Russian Federation pertaining to missile defense or information regarding United States ballistic missile defense systems. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the House which prohibits funds from being used by the National Security Agency to conduct an acquisition for the purpose of targeting a United States person or to acquire, monitor, or store the contents of any electronic communication of a United States person from a provider of electronic communication services to the public. The Senate bill contained no similar provision.

The agreement includes a provision reducing the amount of cash to be retained by the Working Capital Fund. The House and Senate bills contained no similar provisions.

The agreement includes a provision to maintain competitive rates at the nation's arsenals. The House and Senate bills contained no similar provisions.

## TITLE IX – OVERSEAS CONTINGENCY OPERATIONS

The agreement provides \$85,190,942,000 in Title IX, Overseas Contingency Operations.

### REPORTING REQUIREMENTS

The Secretary of Defense is directed to continue to report incremental contingency operations costs for Operation New Dawn or any other operation designated and identified by the Secretary of Defense for the purposes of Section 127a of Title 10, U.S.C. on a monthly basis in the Cost of War Execution report as required by the Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The Secretary of Defense is directed to continue providing Cost of War reports to the congressional defense committees that include the following information by appropriation account: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

In order to meet unanticipated requirements, the Secretary of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The Secretary of Defense is directed to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title using authority provided in section 9002 of this Act.

MILITARY PERSONNEL

## OPERATION AND MAINTENANCE

The agreement on items addressed by either the House or the Senate is as follows:

~~[INSERT O&M OCO TABLE]~~

Insert 113A-9

### DEFENSE SECURITY COOPERATION AGENCY - COALITION SUPPORT FUND

The agreement reduces the budget request for the Coalition Support Fund by \$243,000,000. This undistributed reduction is taken without prejudice to the current year allocation but is an effort to bring balance to the account due to carryover of fiscal year 2011 unexpired funds in the same amount. When combined with the fiscal year 2011 unexpired funds, funding in the full amount requested should be available upon the enactment of this Act.

### AFGHANISTAN SECURITY FORCES FUND

The agreement reduces the budget request for the Afghanistan Security Forces Fund (ASFF) by \$365,000,000 to address requested “enablers.” Specifically, this reduction was taken due to the new position announced by the Department of Defense that it no longer intends to purchase the Mi-17 rotary wing aircraft as part of the Interior Forces equipment request. Concurrent with this decision, and following the original budget request, the Department of Defense reevaluated the total \$2,615,000,000 request for “enablers” and found that the request exceeded current requirements. Therefore, the Department notified Congress of its intent to reduce the previously requested enablers by nearly 60 percent, including eliminating requests for several platforms.

<b>UNDISTRIBUTED REDUCTION</b>		<b>-2,635,000</b>
<b>TOTAL, AFGHANISTAN SECURITY FORCES FUND</b>	<b>7,726,720</b>	<b>4,726,720</b>
<b>TOTAL, OPERATION AND MAINTENANCE</b>	<b>62,829,052</b>	<b>59,914,922</b>

Additionally, the budget requests for the ASFF have been greatly overstated for the past four years. Excess appropriations in this account have been carried into the following fiscal years for obligation. Because of the previously unknown demand for the needs of the Afghanistan Security Forces, Congress allowed the Department of Defense to maintain this excess funding to offset unforeseen expenses. This carryover, however, has become a constant, as have the recurring costs associated with maintaining a military and police force in Afghanistan. Therefore, an additional undistributed reduction of \$2,635,000,000 is taken in the ASFF account to eliminate continued excess carryover.

Rather than rescinding the funds from prior year appropriations, the agreement reduces the current year request as a mechanism to obtain balance within the program and is done without prejudice to the current year's need.

#### AFGHANISTAN SPECIAL MISSION WING

The Secretary of Defense is directed to provide a report to the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act that details personnel, maintenance, and logistics milestones met and still to be achieved so that the Afghan Special Mission Wing (SMW) is able to operate and maintain its fleet of aircraft as well as an analysis of alternative platforms that may be able to meet SMW mission requirements over the long-term.

#### AFGHANISTAN INFRASTRUCTURE FUND

The agreement reduces the budget request for the Afghanistan Infrastructure Fund (AIF) by \$80,000,000. Amendments included during the House of Representatives floor debate reduced the requested amount by nearly 80 percent. The agreement takes into consideration the lack of granularity provided by the Department of Defense regarding projects to be completed, anticipated fuel costs or remedies for payment thereof, and

anticipated projects not included in the original budget request. The lack of a detailed strategy was further compounded by a House-passed amendment that restricts the AIF to no new projects beyond those currently underway. As late as 75 days into fiscal year 2014, the Department issued the Committees a verbal and unofficial notification that it was considering two notional hydroelectric projects. No funding is provided for these projects.

#### BUILDING PARTNERSHIP CAPACITY - LIGHT AIR SUPPORT AIRCRAFT

The agreement does not include the language in Senate Report 113-85 regarding the Building Partnership Capacity Program and instead directs the Secretary of the Air Force to report to the congressional defense committees 30 days prior to entering into a contract for any future Light Air Support aircraft.

## PROCUREMENT

The agreement on items addressed by either the House or the Senate is as follows:

## NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$1,000,000,000 for National Guard and Reserve Equipment. Of that amount, \$315,000,000 is for the Army National Guard; \$315,000,000 is for the Air National Guard; \$175,000,000 is for the Army Reserve; \$65,000,000 is for the Navy Reserve; \$60,000,000 is for the Marine Corps Reserve; and \$70,000,000 is for the Air Force Reserve to meet urgent equipment needs that may arise in fiscal year 2014.

This funding will allow the Guard and reserve components to procure high priority equipment that may be used by these units for both their combat missions and their missions in support of State governors. The National Guard and Reserve Equipment account shall be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: 13K AT Forklift; ARC 210 Radios for ANG F-16s; Air National Guard Missile Warning System; Arctic Sustainment Kits; Base Physical Security Systems; Blue Force Tracker Next Generation; CBRN Reconnaissance Equipment; Chemical and Biological Protective Shelters; Coastal Riverine Force Boats and Communications Upgrades; Counter Communications Systems; Digital Radar Warning ALR-69A Receivers for F-16s; F-15 AESA Radars; F-16/F-15/A-10 Radar Warning Receivers and Defensive Systems Upgrades; General Engineering Equipment; Generation 4 Advanced Targeting Pods; HC-130 Hostile Fire Indication System; Helmet-Mounted Integrated Targeting System; High-Density Storage Cabinets; In-Flight Propeller Balancing System; Integrated Vehicle Health Management System for UH-72As; Internal and External Auxiliary Fuel Tanks for Rotary Wing Aircraft; Joint Threat Emitters; KC-135 and C-130 Real Time Information in Cockpit (RTIC) Data Link; Large Aircraft Infrared Countermeasures (LAIRCM); Light Utility Helicopters; Lightweight Multi-Band Satellite Terminal; Mobile Ad Hoc Network Emergency Communications Equipment; Modernized Medical Equipment Sets for

HMMWVs; Modular Small Arms Training Systems; Reactive Skin Decontamination Lotion; RED HORSE Squadron Vehicles; Remotely Piloted Aircraft Squadron Operations Centers and Targeting Unit Equipment; Simulation Training Systems; Small and Light Arms; Tactical Trucks; Targeting Pod Upgrades; UH-60 A-L Modernization; UH-60 Civilian Communications Package A & B Kits; Ultra-Light Tactical Vehicles; VSS Modernization for Geographically Separated Units and Unified Capabilities; and Wireless Mobile Mesh Network Systems.

<b>TOTAL, JOINT IED DEFEAT FUND</b>		<b>879,225</b>

The agreement provides funding for the Joint Improvised Explosive Device Defeat Fund in title IX as such requirements are considered to be war related.

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$10,766,000 for the Office of the Inspector General.

## GENERAL PROVISIONS – THIS TITLE

The agreement for title IX incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in the agreement are as follows:

The agreement retains a provision proposed by the House regarding the supervision and administration costs and costs for design during construction associated with a construction project. The Senate bill contained a similar provision but did not include language regarding costs for design during construction.

The agreement retains a provision proposed by the Senate regarding limitations on the purchase of passenger motor vehicles and heavy and light armored vehicles. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House regarding funding and guidelines for the Commander's Emergency Response Program. The Senate bill contained a similar provision.

The agreement modifies a provision proposed by the House concerning notification of operations and activities of the Office of Security Cooperation in Iraq. The Senate bill contained a similar provision.

### (RESCISSIONS)

The agreement modifies a provision proposed by the House and the Senate recommending rescissions. The provision provides for the rescission of \$140,370,000 from the following programs:

2009 Appropriations:

General Provision:

Retroactive stop loss special pay program.....\$53,100,000

2013 Appropriations:

Other Procurement, Army:

CI HUMINT auto reporting and collection .....6,400,000

Counter Intel/Security countermeasures.....80,870,000

The agreement retains a provision proposed by the House which makes Coalition Support Funds for Pakistan contingent on a certification by the Secretary of Defense, with concurrence from the Secretary of State, that certain conditions are met. The Senate bill contained no similar provision.

The agreement retains a provision proposed by the Senate which prohibits funds from being used with respect to Syria in contravention of the War Power Resolution. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits funds from the Afghanistan Infrastructure Fund from being used for projects commenced after the date of enactment of this Act. The Senate bill contained no similar provision.

**TITLE X – MILITARY DISABILITY RETIREMENT AND SURVIVOR  
BENEFIT ANNUITY RESTORATION**

The agreement amends section 1401a(b) of title 10, United States Code, as added by section 403(a) of the Bipartisan Budget Act of 2013.
