**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

**Quarterly Report Pursuant to Section 13 or 15(d)
of the Securities Exchange Act of 1934**

For the quarterly period ended:

March 31, 2008

Commission file number: 1-10853

BB&T

BB&T CORPORATION

(Exact name of registrant as specified in its charter)

**North Carolina
(State of Incorporation)**

**56-0939887
(I.R.S. Employer Identification No.)**

**200 West Second Street
Winston-Salem, North Carolina
(Address of Principal Executive Offices)**

**27101
(Zip Code)**

**(336) 733-2000
(Registrant's Telephone Number, Including Area Code)**

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports),

and (2) has been subject to such filing requirements for the past 90 days. YES ; NO

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of “accelerated filer and large accelerated filer” in Rule 12b-2 of the Exchange Act. (Check One):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

At April 30, 2008, 546,844,073 shares of the registrant's common stock, \$5 par value, were outstanding.

NOTE 1. Basis of Presentation

General

In the opinion of management, the accompanying unaudited Consolidated Balance Sheets, Consolidated Statements of Income, Consolidated Statements of Changes in Shareholders' Equity, and Consolidated Statements of Cash Flows of BB&T Corporation and subsidiaries (referred to herein as "BB&T", "the Corporation" or "the Company"), present fairly, in all material respects, BB&T's financial position at March 31, 2008 and December 31, 2007, and BB&T's results of operations, changes in shareholders' equity and cash flows for the three month periods ended March 31, 2008 and 2007. In the opinion of management, all adjustments necessary to fairly present the consolidated financial position and consolidated results of operations have been made. All adjustments during the first three months of 2008 and 2007 were of a normal recurring nature.

These consolidated financial statements and notes are presented in accordance with the instructions for Form 10-Q. The information contained in the footnotes included in BB&T's Annual Report on Form 10-K for the year ended December 31, 2007 should be referred to in connection with these unaudited interim consolidated financial statements.

Nature of Operations

BB&T is a financial holding company headquartered in Winston-Salem, North Carolina. BB&T conducts its operations primarily through its subsidiary Branch Banking and Trust Company ("Branch Bank"), which has branches in North Carolina, South Carolina, Virginia, Maryland, Georgia, West Virginia, Tennessee, Kentucky, Florida, Alabama, Indiana and Washington, D.C. Branch Bank provides a wide range of banking services to individuals and businesses, and offers a variety of loans to businesses and consumers. Such loans are made primarily to individuals residing in the market areas described above or to businesses located within BB&T's geographic footprint. Branch Bank also markets a wide range of deposit services to individuals and businesses. Branch Bank offers, either directly, or through its subsidiaries, lease financing to businesses and municipal governments; factoring; discount brokerage services, annuities and mutual funds; life insurance, property and casualty insurance, health insurance and commercial general liability insurance on an agency basis and through a wholesale insurance brokerage operation; insurance premium financing; permanent financing arrangements for commercial real estate; loan servicing for third-party investors; direct consumer finance loans to individuals; and trust services. The direct nonbank subsidiaries of BB&T provide a variety of financial services including automobile lending, equipment financing, full-service securities brokerage, payroll processing, asset management and capital markets services.

Principles of Consolidation

The consolidated financial statements of BB&T include the accounts of BB&T Corporation and those subsidiaries that are majority owned by BB&T and over which BB&T exercises control. In consolidation, all significant intercompany accounts and transactions are eliminated. The results of operations of companies acquired are included only from the dates of

acquisition. All material wholly owned and majority owned subsidiaries are consolidated unless accounting principles generally accepted in the United States of America require otherwise.

BB&T evaluates variable interests in entities for which voting interests are not an effective means of identifying controlling financial interests. Variable interests are those in which the value of the interest changes with the fair value of the net assets of the entity exclusive of variable interests. If the results of the evaluation indicate the existence of a primary beneficiary and the entity does not effectively disperse risks among the parties involved, that primary beneficiary is required to consolidate the entity. Likewise, if the evaluation indicates that the requirements for consolidation are not met and the entity has previously been consolidated, then the entity would be deconsolidated.

BB&T has variable interests in certain entities that were not required to be consolidated, including affordable housing partnership interests, historic tax credit partnerships, other partnership interests and trusts that have issued capital securities.

BB&T accounts for unconsolidated partnership investments using the equity method of accounting. In addition to affordable housing partnerships, which represent the majority of unconsolidated investments in variable interest entities, BB&T also has investments and future funding commitments to venture capital and other entities. The maximum potential exposure to losses relative to investments in variable interest entities is generally limited to the sum of the outstanding balance, future funding commitments and any related loans to the entity. Loans to these entities are underwritten in substantially the same manner as are other loans and are generally secured.

BB&T has investments in certain entities for which BB&T does not have controlling interest. For these investments, the Company records its interest using the equity method with its portion of income or loss being recorded in other noninterest income in the Consolidated Statements of Income. BB&T periodically evaluates these investments for impairment.

Reclassifications

In certain instances, amounts reported in prior periods' consolidated financial statements have been reclassified to conform to the current presentation. Such reclassifications had no effect on previously reported shareholders' equity or net income.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change relate to the determination of the allowance for loan and lease losses and the reserve for unfunded lending commitments, determination of fair value for financial instruments, valuation of goodwill,

intangible assets and other purchase accounting related adjustments, benefit plan obligations and expenses, and tax assets, liabilities and expenses.

Changes in Accounting Principles and Effects of New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 157, “*Fair Value Measurements*,” (“SFAS No. 157”), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 clarifies that fair value is the price that would be received to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants on the measurement date. SFAS No. 157 is required to be applied whenever another financial accounting standard requires or permits an asset or liability to be measured at fair value. SFAS No. 157 does not expand the use of fair value to any new circumstances. BB&T adopted SFAS No. 157 effective January 1, 2008. The adoption of SFAS No. 157 was not material to the consolidated financial statements. Additional disclosures required by SFAS No. 157 are included in Note 12 to these consolidated financial statements.

In September 2006, the FASB reached a consensus on Emerging Issues Task Force (“EITF”) Issue 06-4, “*Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements*,” (“EITF Issue 06-4”). In March 2007, the FASB reached a consensus on EITF Issue 06-10, “*Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements*,” (“EITF Issue 06-10”). Both of these standards require a company to recognize an obligation over an employee’s service period based upon the substantive agreement with the employee such as the promise to maintain a life insurance policy or provide a death benefit. BB&T adopted the provisions of these standards effective January 1, 2008. The adoption of these standards was not material to the consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, “*The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115*,” (“SFAS No. 159” or “the Fair Value Option”), which permits companies to choose to measure many financial instruments and certain other items at fair value, on an instrument-by-instrument basis. Once a company has elected to record eligible items at fair value, the decision is generally irrevocable. The objective of SFAS No. 159 is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. BB&T adopted SFAS No. 159 effective January 1, 2008, and elected the Fair Value Option for certain loans held for sale originated after December 31, 2007. The adoption of SFAS No. 159 was not material to the consolidated financial statements. Additional disclosures required by SFAS No. 159 are included in Note 12 to these consolidated financial statements.

In November 2007, the Securities and Exchange Commission (“SEC”) Staff issued Staff Accounting Bulletin No. 109 (“SAB No. 109”) “*Written Loan Commitments Recorded at Fair Value through Earnings*”, which supersedes the guidance previously issued in SAB No. 105 “*Application of Accounting Principles to Loan Commitments*” (“SAB No. 105”). SAB No. 109 expresses the current view of the Staff that the expected net future cash flows related to the

associated servicing of the loan should be included in the measurement of all written loan commitments that are accounted for at fair value through earnings. The provisions of SAB No. 109 affect only the timing of mortgage banking income recognition and are effective for loan commitments as of January 1, 2008. The adoption of the provisions of SAB No. 109 was not material to BB&T's consolidated results of operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "*Business Combinations*," ("SFAS No. 141(R)"). SFAS No. 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. SFAS No. 141(R) is effective for BB&T for business combinations consummated after December 31, 2008.

In December 2007, the FASB issued SFAS No. 160, "*Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51*," ("SFAS No. 160"). SFAS No. 160 requires that a noncontrolling interest in a subsidiary be accounted for as equity in the consolidated statement of financial position and that net income include the amounts for both the parent and the noncontrolling interest, with a separate amount presented in the income statement for the noncontrolling interest share of net income. SFAS No. 160 also expands the disclosure requirements and provides guidance on how to account for changes in the ownership interest of a subsidiary. SFAS No. 160 is effective prospectively for BB&T on January 1, 2009, except for the presentation and disclosure provisions which will be applied retrospectively for all periods presented.

In March 2008, the FASB issued SFAS No. 161, "*Disclosures about Derivative Instruments and Hedging Activities—an amendment of SFAS No. 133*," ("SFAS No. 161"). SFAS No. 161 requires that an entity provide enhanced disclosures related to derivative and hedging activities. SFAS No. 161 is effective for BB&T on January 1, 2009.

BB&T Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

First Quarter 2008

NOTE 2. Business Combinations and Intangible Assets

Acquisitions

During the first three months of 2008, BB&T acquired four insurance agencies. Approximately \$11 million in goodwill and \$10 million of identifiable intangibles were recorded in connection with these transactions.

Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill attributable to each of BB&T's operating segments for the three months ended March 31, 2008 are as follows:

Goodwill Activity by Operating Segment

	Banking Network	Residential Mortgage Banking	Sales Finance	Specialized Lending	Insurance Services	Financial Services	All Other	Total
	(Dollars in millions)							
Balance, January 1, 2008	\$ 4,035	\$ 7	\$ 93	\$ 100	\$ 741	\$ 192	\$ 26	\$ 5,194
Acquisitions	-	-	-	-	11	-	-	11
Contingent consideration	-	-	-	-	21	-	-	21
Other adjustments	2	-	-	(2)	-	-	-	-
Balance, March 31, 2008	<u>\$ 4,037</u>	<u>\$ 7</u>	<u>\$ 93</u>	<u>\$ 98</u>	<u>\$ 773</u>	<u>\$ 192</u>	<u>\$ 26</u>	<u>\$ 5,226</u>

The following table presents the gross carrying amounts and accumulated amortization for BB&T's identifiable intangible assets subject to amortization at the dates presented:

	Identifiable Intangible Assets					
	As of March 31, 2008			As of December 31, 2007		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
	(Dollars in millions)					
Identifiable intangible assets	\$ 457	\$ (295)	\$ 162	\$ 457	\$ (284)	\$ 173
Core deposit intangibles	\$ 457	\$ (295)	\$ 162	\$ 457	\$ (284)	\$ 173

Other (1)	<u>578</u>	<u>(266)</u>	<u>312</u>	<u>566</u>	<u>(250)</u>	<u>316</u>
Totals	<u>\$ 1,035</u>	<u>\$ (561)</u>	<u>\$ 474</u>	<u>\$ 1,023</u>	<u>\$ (534)</u>	<u>\$ 489</u>

(1) Other identifiable intangibles are primarily customer relationship intangibles.

BB&T Corporation and Subsidiaries

Equity and other securities	1,523	46	85	1	1,608	47
Total temporarily impaired securities	\$ 6,650	\$ 152	\$ 4,584	\$ 36	\$ 11,234	\$ 188

On March 31, 2008, BB&T held certain investment securities having continuous unrealized loss positions for more than 12 months. As of March 31, 2008, the unrealized losses on these securities totaled \$16 million. Substantially all of these losses were in U.S. government-sponsored entity mortgage-backed securities, as well as other investment grade mortgage-backed securities. The unrealized losses are the result of changes in market interest rates rather than the credit quality of the issuers. At March 31, 2008, BB&T had the ability and intent to retain these securities for a period of time sufficient to recover all unrealized losses. Accordingly, BB&T did not recognize any other-than-temporary impairment in connection with these securities during the first three months of 2008.

NOTE 4. Loans and Leases

The following table provides a breakdown of BB&T's loan portfolio as of March 31, 2008 and December 31, 2007.

	March 31, 2008	December 31, 2007
	(Dollars in millions)	
Loans and leases, net of unearned income:		
Commercial loans and leases	\$ 46,277	\$ 44,870
Sales finance	6,052	6,021
Revolving credit	1,598	1,618
Direct retail	15,570	15,691
Total consumer loans	23,220	23,330
Residential mortgage loans	17,446	17,467
Specialized lending	5,186	5,240

Loans held for sale			1,822		<i>779</i>
Total loans and leases		\$	93,951	\$	91,686

BB&T Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

First Quarter 2008

An analysis of the allowance for credit losses for the three month periods ended March 31, 2008 and 2007 is presented in the following table:

	March 31, 2008		March 31, 2007
(Dollars in millions)			
Beginning Balance	\$ 1,015	\$	888
Allowance for acquired (sold) loans, net	-		3
Provision for credit losses	223		71
Loans and leases charged-off	(141)		(82)
Recoveries of previous charge-offs	16		21
Net loans and leases charged-off	(125)		(61)
Ending Balance	\$ 1,113	\$	901
Allowance for loan and lease losses	\$ 1,097	\$	896
Reserve for unfunded lending commitments	16		5
Allowance for credit losses	\$ 1,113	\$	901

The following table provides a summary of BB&T's nonperforming and past due loans as of March 31, 2008 and December 31, 2007.

	March 31, 2008		December 31, 2007
(Dollars in millions)			
Nonaccrual loans and leases	\$ 760	\$	502
Foreclosed real estate	178		143
Other foreclosed property	51		51
Total foreclosed property	229		194
Total nonperforming assets	\$ 989	\$	696
Loans 90 days or more past due and still accruing	\$ 258	\$	223

NOTE 5. Long-Term Debt

Long-term debt is summarized as follows:

	March 31, 2008	December 31, 2007
(Dollars in millions)		
Parent Company		
6.50% Subordinated Notes Due 2011 (1,3)	\$ 648	\$ 648
4.75% Subordinated Notes Due 2012 (1,3)	497	496
5.20% Subordinated Notes Due 2015 (1,3)	997	997
4.90% Subordinated Notes Due 2017 (1,3)	366	365
5.25% Subordinated Notes Due 2019 (1,3)	600	600
Branch Bank		
Fixed Rate Secured Borrowings Due 2010 (5)	4,000	4,000
Floating Rate Senior Notes Due 2008	500	500
Floating Rate Senior Notes Due 2009	500	500
Floating Rate Subordinated Notes Due 2016 (1)	350	350
Floating Rate Subordinated Notes Due 2017 (1)	300	300
4.875% Subordinated Notes Due 2013 (1,3)	249	249
5.625% Subordinated Notes Due 2016 (1,3)	399	399
Federal Home Loan Bank Advances to Branch Bank (4)		
Varying maturities to 2027	9,853	7,210
Junior Subordinated Debt to Unconsolidated Trusts (2)		
5.85% BB&T Capital Trust I Securities Due 2035 (3)	514	514
6.75% BB&T Capital Trust II Securities Due 2036	598	598
6.82% BB&T Capital Trust IV Securities Due 2077 (6)	600	600
Other Securities (7)	182	183
Other Long-Term Debt	37	37
Fair value hedge-related basis adjustments	354	147

Total Long-Term Debt

\$	21,544	\$	18,693
----	--------	----	--------

- (1) Subordinated notes that qualify under the risk-based capital guidelines as Tier 2 supplementary capital, subject to certain limitations.
- (2) Securities that qualify under the risk-based capital guidelines as Tier 1 capital, subject to certain limitations.
- (3) These fixed rate notes were swapped to floating rates based on LIBOR. At March 31, 2008, the effective rates paid on these borrowings ranged from 2.92% to 5.26%.
- (4) At March 31, 2008, the weighted average cost of these advances was 4.21% and the weighted average maturity was 6.9 years.
- (5) This borrowing is currently secured by automobile loans. The fixed rate was swapped to a floating rate based on LIBOR.
- (6) These securities are fixed rate through June 12, 2037 and then switch to a floating rate based on LIBOR.
- (7) These securities were issued by companies acquired by BB&T. At March 31, 2008, the effective rate paid on these borrowings ranged from 4.50% to 10.07%. These securities have varying maturities through 2035.

NOTE 6. Contractual Obligations, Commitments, Contingent Liabilities, and Off-Balance Sheet Arrangements

BB&T utilizes a variety of financial instruments to meet the financing needs of clients and reduce exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit, standby letters of credit and financial guarantees, and derivatives. BB&T also has commitments to fund certain affordable housing investments and contingent liabilities of certain sold loans.

Standby letters of credit and financial guarantees written are unconditional commitments issued by BB&T to guarantee the performance of a customer to a third party. These guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper issuance, bond financing and similar transactions. The credit risk involved in the issuance of these guarantees is essentially the same as that involved in extending loans to clients and as such, the instruments are collateralized when necessary. As of March 31, 2008 and December 31, 2007, BB&T had issued standby letters of credit totaling \$3.6 billion and \$3.4 billion, respectively. The carrying amount of the liability for such guarantees was \$8 million and \$5 million at March 31, 2008 and December 31, 2007, respectively.

A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. These instruments include interest-rate swaps, swaptions, caps, floors, collars, financial forward and futures contracts, when-issued securities, foreign exchange contracts and options written and purchased. BB&T uses derivatives primarily to manage risk related to securities, business loans, Federal funds purchased, long-term debt, mortgage servicing rights, mortgage banking operations and certificates of deposit. BB&T also uses derivatives to facilitate transactions on behalf of its clients. BB&T held a variety of derivative financial instruments with notional values of \$57.9 billion and \$47.2 billion at March 31, 2008 and December 31, 2007, respectively. These instruments were in a net gain position of \$380 million and \$181 million at March 31, 2008 and December 31, 2007, respectively.

BB&T invests in certain affordable housing and historic building rehabilitation projects throughout its market area as a means of supporting local communities and receives tax credits related to these investments. BB&T typically acts as a limited partner in these investments and does not exert control over the operating or financial policies of the partnerships. Branch Bank typically provides financing during the construction and development of the properties; however, permanent financing is generally obtained from independent third parties upon completion of a project. BB&T's outstanding commitments to fund affordable housing investments totaled \$381 million and \$444 million at March 31, 2008 and December 31, 2007, respectively. At March 31, 2008, BB&T's maximum exposure to loss associated with these investments totaled \$706 million.

In the ordinary course of business, BB&T indemnifies its officers and directors to the fullest extent permitted by law against liabilities arising from pending litigation. BB&T also issues standard representations and warranties in underwriting agreements, merger and acquisition agreements, loan sales, brokerage activities and other similar arrangements. Counterparties in many of these indemnification arrangements provide similar indemnifications

to BB&T. Although these agreements often do not specify limitations, BB&T does not believe that any payments related to these guarantees would materially change the financial condition or results of operations of BB&T.

Merger and acquisition agreements of businesses other than financial institutions occasionally include additional incentives to the acquired entities to offset the loss of future cash flows previously received through ownership positions. Typically, these incentives are based on the acquired entity's contribution to BB&T's earnings compared to agreed-upon amounts. When offered, these incentives are typically issued for terms of three to five years. Since certain provisions of these agreements do not specify dollar limitations, it is not possible to quantify the maximum exposure resulting from these agreements.

BB&T has sold certain mortgage-related loans that contain recourse provisions. These provisions generally require BB&T to reimburse the investor for a share of any loss that is incurred after the disposal of the property. At March 31, 2008, BB&T had \$877 million of residential mortgage loans sold with recourse. In the event of nonperformance by the borrower, BB&T has maximum recourse exposure of approximately \$769 million. In addition, BB&T has \$2.2 billion in loans serviced for others that were covered by loss sharing agreements. BB&T's maximum exposure to loss for these loans is approximately \$625 million. The majority of these recourse obligations were acquired by BB&T during 2007 in connection with the acquisition of Collateral Real Estate Capital, LLC. Neither BB&T nor the predecessor has incurred any losses related to these recourse provisions.

BB&T has investments and future funding commitments to certain venture capital funds. As of March 31, 2008, BB&T had investments of \$107 million, net of minority interest, related to these ventures and future funding commitments of \$234 million. BB&T's risk exposure relating to such commitments is generally limited to the amount of investments and future funding commitments made.

NOTE 7. Benefit Plans

BB&T provides various benefit plans to substantially all employees, including employees of acquired entities. Employees of acquired entities generally participate in existing BB&T plans after consummation of the business combinations. The plans of acquired institutions are typically merged into the BB&T plans after consummation of the mergers, and, under these circumstances, credit is usually given to these employees for years of service at the acquired institution for vesting and eligibility purposes. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007 for descriptions and disclosures about the various benefit plans offered by BB&T.

BB&T Corporation and Subsidiaries
Notes to Consolidated Financial Statements (Unaudited)

First Quarter 2008

The following tables summarize the components of net periodic benefit cost recognized for BB&T's pension plans for the three month periods ended March 31, 2008 and 2007, respectively:

	Pension Plans			
	Qualified		Nonqualified	
	For the Three Months Ended March 31,		For the Three Months Ended March 31,	
	2008	2007	2008	2007
	(Dollars in millions)			
Service cost	\$ 17	\$ 19	\$ 1	\$ 1
Interest cost	18	17	2	2
Estimated return on plan assets	(34)	(29)	-	-
Amortization and other	(1)	-	1	1
Net periodic benefit cost	\$ -	\$ 7	\$ 4	\$ 4

NOTE 8. Computation of Earnings per Share

BB&T's basic and diluted earnings per share amounts for the three month periods ended March 31, 2008 and 2007, respectively, were calculated as follows:

	For the Three Months Ended March 31,	
	2008	2007
	(Dollars in millions, except per share data, shares in thousands)	
Basic Earnings Per Share:		
Net income	\$ 428	\$ 421
Weighted average number of common shares	546,214	541,851
Basic earnings per share	\$.78	\$.78
Diluted Earnings Per Share:		
Net income	\$ 428	\$ 421

Weighted average number of common shares	546,214	541,851
Add:		
Effect of dilutive outstanding equity-based awards	<u>2,732</u>	<u>5,379</u>
Weighted average number of diluted common shares	<u>548,946</u>	<u>547,230</u>
Diluted earnings per share	<u><u>\$.78</u></u>	<u><u>\$.77</u></u>

For the three months ended March 31, 2008 and 2007 the number of antidilutive awards was 32.5 million and 7.8 million shares, respectively.

NOTE 9. Comprehensive Income (Loss)

The balances in accumulated other comprehensive loss for the periods indicated are shown in the following tables:

	As of March 31, 2008		
	Pre -Tax Amount	Tax Benefit	After-Tax Amount
(Dollars in millions)			
Unrealized net losses on securities available for sale	\$ (29)	\$ (11)	\$ (18)
Unrecognized net pension and postretirement costs	(128)	(48)	(80)
Unrealized net losses on cash flow hedges	(11)	(4)	(7)
Foreign currency translation adjustment	2	-	2
Total	<u>\$ (166)</u>	<u>\$ (63)</u>	<u>\$ (103)</u>
As of December 31, 2007			
	Pre -Tax Amount	Tax Benefit	After-Tax Amount
(Dollars in millions)			
Unrealized net losses on securities available for sale	\$ (45)	\$ (17)	\$ (28)
Unrecognized net pension and postretirement costs	(127)	(48)	(79)
Foreign currency translation adjustment	3	-	3
Total	<u>\$ (169)</u>	<u>\$ (65)</u>	<u>\$ (104)</u>

NOTE 10. Operating Segments

BB&T's operations are divided into seven reportable business segments: the Banking Network, Residential Mortgage Banking, Sales Finance, Specialized Lending, Insurance Services, Financial Services and Treasury. These operating segments have been identified based on BB&T's organizational structure. The segments require unique technology and marketing strategies and offer different products and services. While BB&T is managed as an integrated organization, individual executive managers are held accountable for the operations of these business segments.

BB&T emphasizes revenue growth by focusing on client service, sales effectiveness and relationship management. The segment results contained herein are presented based on internal management accounting policies that were designed to support these strategic objectives. Unlike financial accounting, there is no comprehensive authoritative body of guidance for management accounting equivalent to generally accepted accounting principles. The performance of the segments is not comparable with BB&T's consolidated results or with similar information presented by any other financial institution. Additionally, because of the interrelationships of the various segments, the information presented is not indicative of how the segments would perform if they operated as independent entities.

Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007, for a description of internal accounting policies and the basis of segmentation, including a description of the segments presented in the accompanying tables.

The following tables disclose selected financial information with respect to BB&T's reportable business segments for the periods indicated:

BB&T Corporation
Reportable Segments
For the Three Months Ended March 31, 2008 and 2007

	Banking Network		Residential Mortgage Banking		Sales Finance		Specialized Lending		Insurance Services

(1) Includes financial data from subsidiaries below the quantitative and qualitative thresholds requiring disclosure.

NOTE 11. Equity-Based Compensation Plans

BB&T has options, restricted shares of common stock and restricted share units outstanding from the following equity-based compensation plans: the 2004 Stock Incentive Plan ("2004 Plan"), the 1995 Omnibus Stock Incentive Plan, the Non-Employee Directors' Stock Option Plan, and plans assumed from acquired entities. All plans generally allow for accelerated vesting of awards for holders who retire and have met all retirement eligibility requirements and in connection with certain other events. BB&T's shareholders have approved all equity-based compensation plans with the exception of plans assumed from acquired companies. As of March 31, 2008, the 2004 Plan is the only plan that has awards available for future grants. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007, for further disclosures related to equity-based awards issued by BB&T.

BB&T measures the fair value of each option award on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants awarded during the first three months of 2008.

Assumptions:

Risk-free interest rate	3.6 %
Dividend yield	4.5
Volatility factor	15.5
Expected life	6.9 yrs
Fair value of options per share	\$ 3.45

BB&T measures the fair value of restricted shares based on the price of BB&T's common stock on the grant date and the fair value of restricted share units based on the price of BB&T's common stock on the grant date less the present value of expected dividends that are foregone during the vesting period.

The following table details the activity during the first three months of 2008 related to stock options awarded by BB&T:

	For the Three Months Ended March 31, 2008	
Options	Wtd. Avg. Exercise Price	
Outstanding at beginning of period	38,042,742	\$ 36.61
Granted	6,512,031	34.32

Exercised	(857,976)		30.23
Forfeited or expired	(129,836)		36.97
Outstanding at end of period	<u>43,566,961</u>	\$	36.40
Exercisable at end of period	<u>26,969,625</u>	\$	35.31

The following table details the activity during the first three months of 2008 related to restricted shares and restricted share units awarded by BB&T:

	For the Three Months Ended March 31, 2008	
	Shares/Units	Wtd. Avg. Grant Date Fair Value
Nonvested at beginning of period	3,994,441	\$ 33.20
Granted	2,522,904	23.37
Vested	(17,520)	32.71
Forfeited	(53,660)	31.97
Nonvested at end of period	<u>6,446,165</u>	<u>\$ 29.36</u>

NOTE 12. Fair Value Measurements

BB&T adopted SFAS No. 157 effective January 1, 2008. SFAS No. 157, which provides a framework for measuring fair value, requires that an entity determine fair value based on the principal market for the asset or liability being measured. Upon adoption, BB&T changed its principal market for measuring the fair value of certain client derivative contracts. The impact of this change on the measurement of fair value for these contracts was \$7 million, pre-tax, and was recorded as a decrease in other noninterest income effective January 1, 2008.

BB&T also adopted SFAS No. 159 effective January 1, 2008. SFAS No. 159 allows an entity the option to elect fair value for the initial and subsequent measurement of certain financial assets and liabilities on a contract-by-contract basis. This option is generally irrevocable. BB&T elected to adopt fair value for all commercial mortgage loans held for sale and prime residential mortgage loans held for sale originated after December 31, 2007. There was no impact to retained earnings as a result of the adoption of SFAS No. 159.

BB&T elected the Fair Value Option for the majority of new loans held for sale because they are hedged using derivatives and the historical accounting practice resulted in volatility in earnings. Under historical accounting practices, BB&T was required to account for the derivatives at fair value and the loans held for sale at lower of cost or market. This practice resulted in volatility in reported earnings during a declining interest-rate environment, because the decline in the value of derivatives held were required to be marked down, but the increasing value of the loans held for sale could not be marked up. Under the Fair Value Option, BB&T will be permitted to record both the loans held for sale and the corresponding derivatives at the full fair value, which will eliminate the mismatch in reported earnings that was caused by the prior accounting practices. BB&T has not elected the Fair Value Option for a small portfolio of its loans held for sale because these loans are not exchanged in an active market and BB&T does not hedge these assets. Fair value for loans held for sale is primarily based on quoted market prices for securities

backed by similar types of loans. Following the adoption of SFAS No. 159,

direct loan origination fees and costs related to loans held for sale for which the Fair Value Option has been elected are no longer capitalized and recognized in earnings upon the sale of such loans, but rather are recorded as mortgage banking income in the case of the direct loan origination fees and primarily personnel expense in the case of the direct loan origination costs.

The following table details the fair value and unpaid principal balance of loans held for sale at March 31, 2008, that were elected to be carried at fair value.

	Fair Value	Aggregate Unpaid Principal Balance	Fair Value less Aggregate Unpaid Principal Balance
	(Dollars in millions)		
Loans held for sale reported at fair value			
Total (1)	\$ 1,745	\$ 1,734	\$ 11
Nonaccrual loans	-	-	-
Loans 90 days or more past due and still accruing interest	-	-	-

(1) The increase in fair value is reflected in mortgage banking income and does not relate to credit risk.

Fair Value Measurements

SFAS No. 157 defines fair value as the exchange price that would be received on the measurement date to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. SFAS No. 157 also establishes a three level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

Level 1

Level 1 asset and liability fair values are based on quoted prices in active markets for identical assets and liabilities. Level 1 assets and liabilities include certain equity securities and derivative contracts that are traded in an active market.

Level 2

Level 2 asset and liability fair values are based on observable inputs that include: quoted market prices for similar assets or liabilities;

quoted market prices that are not in an active market; or other inputs that are observable in the market and can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include fixed income securities and mortgage-backed securities that are held in the Corporation's trading and available-for-sale portfolios, loans held for sale, certain derivative contracts and short-term borrowings.

Level 3

Level 3 assets and liabilities are financial instruments whose value is calculated by the use of pricing models and/or discounted cash flow methodologies, as well as financial instruments for which the determination of fair value requires significant management

judgment or estimation. These methodologies may result in a significant portion of the fair value being derived from unobservable data. Level 3 assets and liabilities include certain trading securities, mortgage servicing rights, venture capital investments and certain derivative contracts.

Assets and liabilities measured at fair value on a recurring basis, including financial instruments for which BB&T has elected the Fair Value Option are summarized below:

	Fair Value Measurements for Assets and Liabilities Measured on a Recurring Basis			
	3/31/2008	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
		(Dollars in Millions)		
Assets:				
Trading securities	\$ 609	\$ 213	\$ 382	\$ 14
Securities available for sale	23,487	287	23,186	14
Loans held for sale (1)	1,745	-	1,745	-
Residential mortgage servicing rights	406	-	-	406
Derivative assets (2)	814	1	790	23
Venture capital investments (2)	141	-	-	141
Total assets	\$ 27,202	\$ 501	\$ 26,103	\$ 598
Liabilities:				
Derivative liabilities (2)	\$ 434	\$ 4	\$ 426	\$ 4
Short-term borrowed funds (3)	269	-	269	-
Total liabilities	\$ 703	\$ 4	\$ 695	\$ 4

(1) Loans held for sale are residential and commercial mortgage loans that were originated subsequent to December 31, 2007 for which the Company elected the fair value option under SFAS No. 159. Loans originated prior to January 1, 2008 and certain other loans held for sale are still accounted for at the lower of cost or market. There were \$77 million in loans held for sale that are not accounted for at fair value.

(2) These amounts are reflected in other assets and other liabilities on the Consolidated Balance Sheet.

(3) Short term borrowed funds reflect securities sold short positions.

The table below presents a reconciliation for the period of January 1, 2008 to March 31, 2008, for all Level 3 assets and liabilities that are measured at fair value on a recurring basis.

	Fair Value Measurements Using Significant Unobservable Inputs				
	AFS Securities	Trading	Mortgage Servicing Rights	Net Derivatives	Venture Capital Investments
	(Dollars in Millions)				
Beginning Balance	\$ 9	\$ 27	\$ 472	\$ 2	\$ 128
Total realized and unrealized gains or losses:					
Included in earnings	-	(2)	(107)	17	(1)
Included in other comprehensive income	-	-	-	-	-
Purchases, issuances and settlements	5	(14)	41	-	14
Transfers in and/or out of Level 3	-	3	-	-	-
Ending Balance	\$ 14	\$ 14	\$ 406	\$ 19	\$ 141

The table below summarizes unrealized and realized gains and losses recorded in earnings for Level 3 assets and liabilities for the period January 1, 2008 to March 31, 2008.

	Total Gains and Losses			
	Trading	Mortgage Servicing Rights	Net Derivatives	Venture Capital Investments
	(Dollars in Millions)			
Classification of gains and losses (realized/unrealized) included in earnings for the period:				
Mortgage banking income	\$ -	\$ (107)	\$ 17	\$ -
Other noninterest income	(2)	-	-	(1)
Total	\$ (2)	\$ (107)	\$ 17	\$ (1)
Net unrealized gains (losses) included in net income relating to assets and liabilities still held at March 31, 2008	\$ -	\$ (84)	\$ 19	\$ (1)

The realized and unrealized losses reported for the mortgage servicing rights asset are comprised of a negative valuation adjustment of \$84 million and the realization of expected residential mortgage servicing rights cash flows of \$23 million. BB&T uses various derivative financial instruments to mitigate the income statement effect of changes in fair value due to its quarterly valuation. During the three months ended March 31, 2008, the derivative instruments produced gains of \$82 million, which covered 97.6% of the negative valuation loss recorded.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations***Forward-Looking Statements***

This Quarterly Report on Form 10-Q contains forward-looking statements with respect to the financial condition, results of operations and businesses of BB&T. These forward-looking statements involve certain risks and uncertainties and are based on the beliefs and assumptions of the management of BB&T and the information available to management at the time that these disclosures were prepared. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following:

- general economic or business conditions, either nationally or regionally, may be less favorable than expected, resulting in, among other things, a deterioration in credit quality and/or a reduced demand for credit or other services;
- changes in the interest rate environment may reduce net interest margins and/or the volumes and values of loans made or held as well as the value of other financial assets held;
- competitive pressures among depository and other financial institutions may increase significantly;
- legislative or regulatory changes, including changes in accounting standards, may adversely affect the businesses in which BB&T is engaged;
- local, state or federal taxing authorities may take tax positions that are adverse to BB&T;
- adverse changes may occur in the securities markets;
- competitors of BB&T may have greater financial resources and develop products that enable them to compete more successfully than BB&T;
- costs or difficulties related to the integration of the businesses of BB&T and its merger partners may be greater than expected;
- expected cost savings associated with completed mergers may not be fully realized or realized within the expected time frames; and
- deposit attrition, customer loss and/or revenue loss following completed mergers may be greater than expected.

Regulatory Considerations

BB&T and its subsidiaries and affiliates are subject to numerous examinations by federal and state banking regulators, as well as the SEC, the Financial Industry Regulatory Authority, and various state insurance and securities regulators. BB&T and its subsidiaries have from time to time received requests for information from regulatory authorities in various states, including state insurance commissions and state attorneys general, securities regulators and other regulatory authorities, concerning their business practices. Such requests are considered incidental to the normal conduct of business. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007 for additional disclosures with respect to laws and regulations affecting the Company's businesses.

On April 1, 2008, BB&T Bankcard Corporation was converted into a federally chartered thrift institution and renamed BB&T Financial, FSB ("BB&T FSB"). As a federally chartered thrift, BB&T FSB will be subject to regulation, supervision and examination by the Office of Thrift Supervision. In connection with the charter conversion of BB&T FSB, Sheffield Financial, LLC and MidAmerica Gift Certificate Company, which were previously direct operating subsidiaries of the Corporation, became divisions or subsidiaries of BB&T FSB. In addition, Liberty Mortgage Corporation, formerly a subsidiary of Branch Bank, was reorganized as a subsidiary of BB&T FSB. These organizational structure changes were made to optimize the operating efficiency of these divisions or subsidiaries and have no impact on BB&T's reportable segments.

Critical Accounting Policies

The accounting and reporting policies of BB&T Corporation and its subsidiaries are in accordance with accounting principles generally accepted in the United States of America and conform to general practices within the banking industry. BB&T's financial position and results of operations are affected by management's application of accounting policies, including estimates, assumptions and judgments made to arrive at the carrying value of assets and liabilities and amounts reported for revenues and expenses. Different assumptions in the application of these policies could result in material changes in BB&T's consolidated financial position and/or consolidated results of operations and related disclosures. The more critical accounting and reporting policies include BB&T's accounting for the allowance for loan and lease losses and reserve for unfunded lending commitments, determining fair value of financial instruments, intangible assets and other purchase accounting related adjustments associated with mergers and acquisitions, costs and benefit obligations associated with BB&T's pension and postretirement benefit plans, and income taxes. Understanding BB&T's accounting policies is fundamental to understanding BB&T's consolidated financial position and consolidated results of operations. Accordingly, BB&T's significant accounting policies and changes in accounting principles are discussed in detail in Note 1 of the "Notes to Consolidated Financial Statements" in BB&T's Annual Report on Form 10-K for the year ended December 31, 2007.

The following is a summary of BB&T's critical accounting policies that are highly dependent on estimates, assumptions and judgments. These critical accounting policies are reviewed with BB&T's Audit Committee on a periodic basis.

Allowance for Loan and Lease Losses and Reserve for Unfunded Lending Commitments

It is the policy of BB&T to maintain an allowance for loan and lease losses and a reserve for unfunded lending commitments that equals management's best estimate of probable credit losses that are inherent in the portfolio at the balance sheet date. Estimates for loan and lease losses are determined by analyzing historical loan and lease losses, current trends in delinquencies and charge-offs, changes in commercial loan risk grades, plans for problem loan and lease administration, the results of regulatory examinations, and changes in the size, composition and risk assessment of the loan and lease portfolio. Also included in management's estimates for loan and lease losses are considerations with respect to the impact of current economic events, the outcomes of which are uncertain. These events may include, but are not limited to, fluctuations in overall interest rates, political conditions, legislation that may directly

or indirectly affect the banking industry and economic conditions affecting specific geographical areas and industries in which BB&T conducts business. The methodology used to determine an estimate for the reserve for unfunded lending commitments is inherently similar to the methodology utilized in calculating the allowance for loans and leases adjusted for factors specific to binding commitments, including the probability of funding and exposure at the time of funding.

Fair Value of Financial Instruments

A significant portion of BB&T's assets and liabilities are financial instruments that are carried at fair value. This includes securities available for sale, trading securities, derivatives, certain loans held for sale, residential mortgage servicing rights, certain short-term borrowings and venture capital investments. At March 31, 2008, the percentage of total assets and total liabilities measured at fair value was 19.9% and less than 1%, respectively. The majority of assets and liabilities carried at fair value are based on either quoted market prices or market prices for similar instruments. At March 31, 2008, the percentage of assets and liabilities measured at fair value using significant unobservable inputs was 2.2%, which is less than 1% of BB&T's total assets.

Securities

The fair values for available-for-sale and trading securities are generally based upon information received from nationally known third party pricing services. These values take into account recent market activity as well as other market observable data such as interest rate, spread and prepayment information. When market observable data is not available, which generally occurs due to the lack of liquidity for certain trading securities, the valuation of the security is subjective and may involve substantial judgment. As of March 31, 2008, BB&T had approximately \$28 million of available-for-sale and trading securities that were valued using unobservable inputs, which is less than 1% of total assets.

Mortgage Servicing Rights

BB&T has a significant mortgage loan servicing portfolio and related mortgage servicing rights. Mortgage servicing rights represent the present value of the future net servicing fees from servicing mortgage loans acquired or originated by BB&T. The methodology used to determine the fair value of mortgage servicing rights is subjective and requires the development of a number of assumptions, including anticipated prepayments of loan principal. The value of mortgage servicing rights is significantly affected by mortgage interest rates available in the marketplace, which influence mortgage loan prepayment speeds. In general, during periods of declining interest rates, the value of mortgage servicing rights declines due to increasing prepayments attributable to increased mortgage refinance activity. Conversely, during periods of rising interest rates, the value of servicing rights generally increases due to reduced refinance activity. BB&T has two classes of mortgage servicing rights for which it separately manages the economic risk: residential and commercial. Residential mortgage servicing rights are carried at fair value with changes in fair value recorded as a component of mortgage banking income each period. BB&T uses various derivative instruments to mitigate the income statement effect of

changes in fair value, due to changes in valuation inputs and assumptions, of its residential mortgage servicing rights. Commercial mortgage servicing rights are carried at lower of cost or market and amortized over the estimated period that servicing income is expected to be received based on projections of the amount and timing of estimated future cash flows. The amount and timing of servicing asset amortization is updated based on actual results and updated projections.

Loans Held for Sale

BB&T originates certain mortgage loans to be sold to investors. The majority of these loans are carried at fair value based on the Fair Value Option. For these loans, the fair value is primarily based on quoted market prices for securities backed by similar types of loans. Changes in the fair value are recorded as a component of mortgage banking income while mortgage loan origination costs for loans held for sale for which the Corporation elected the Fair Value Option are recognized in noninterest expense when incurred. The changes in fair value of these assets are largely driven by changes in interest rates subsequent to loan funding and changes in the fair value of servicing associated with the mortgage loan held for sale. BB&T uses various derivative instruments to mitigate the income statement effect of changes in fair value of the underlying loans.

Derivatives

BB&T utilizes derivatives to manage various financial risks. The fair values of derivative financial instruments are determined based on quoted market prices, dealer quotes and internal pricing models that are primarily sensitive to market observable data. BB&T mitigates the credit risk by subjecting counterparties to credit reviews and approvals similar to those used in making loans and other extensions of credit. In addition, certain counterparties are required to provide collateral to BB&T when their unsecured loss positions exceed certain negotiated limits. The fair value of interest rate lock commitments, which are related to mortgage loan commitments, is based on quoted market prices adjusted for commitments that BB&T does not expect to fund and includes the value attributable to the net servicing fee.

Venture Capital Investments

BB&T has venture capital investments that are carried at fair value. Changes in the fair value of these investments are recorded in other noninterest income each period. In many cases there is no observable market value for these investments and therefore management must estimate the fair value based on a comparison of the operating performance of the company to multiples in the marketplace for similar entities. This analysis requires significant judgment and actual values in a sale could differ materially from those estimated. As of March 31, 2008, BB&T had \$141 million of venture capital investments, which is less than 1% of total assets.

Intangible Assets

BB&T's mergers and acquisitions are accounted for using the purchase method of accounting. Under the purchase method, BB&T is required to record the assets acquired,

including identified intangible assets and liabilities assumed at their fair value, which often involves estimates based on third party valuations, such as appraisals, or internal valuations based on discounted cash flow analyses or other valuation techniques, all of which are inherently subjective. The amortization of identified intangible assets is based upon the estimated economic benefits to be received, which is also subjective. These estimates also include the establishment of various accruals and allowances based on planned facility dispositions and employee severance considerations, among other acquisition-related items. In addition, purchase acquisitions typically result in goodwill, which is subject to ongoing periodic impairment tests based on the fair value of net assets acquired compared to the carrying value of goodwill. The major assumptions used in the impairment testing process include the estimated future cash flows of each business unit and discount rates. Discount rates are unique to each business unit and are based upon the cost of capital specific to the industry in which the business unit operates.

Pension and Postretirement Benefit Obligations

BB&T offers various pension plans and postretirement benefit plans to employees. The calculation of the obligations and related expenses under these plans requires the use of actuarial valuation methods and assumptions. Actuarial valuations and assumptions used in the determination of future values of plan assets and liabilities are subject to management judgment and may differ significantly if different assumptions are used.

Income Taxes

The calculation of BB&T's income tax provision is complex and requires the use of estimates and judgments. As part of the Company's analysis and implementation of business strategies, consideration is given to the tax laws and regulations that apply to the specific facts and circumstances for any tax position under evaluation. For tax positions that are uncertain in nature, management determines whether the tax position is more likely than not to be sustained upon examination. For tax positions that meet this threshold, management then estimates the amount of the tax benefit to recognize in the financial statements. Management closely monitors tax developments in order to evaluate the effect they may have on the Company's overall tax position and the estimates and judgments utilized in determining the income tax provision and records adjustments as necessary.

EXECUTIVE SUMMARY

BB&T's total assets at March 31, 2008 were \$136.4 billion, an increase of \$3.8 billion, or 2.9%, from December 31, 2007. The asset category that experienced the largest increase was loans and leases, including loans held for sale, which grew \$2.3 billion, or 2.5%, during the first three months of 2008. In addition, securities available for sale increased \$1.1 billion, or 4.8%, compared to the balance at December 31, 2007.

Total deposits at March 31, 2008, were \$87.5 billion, an increase of \$715 million, or .8%, from December 31, 2007. Long-term debt

increased \$2.9 billion, or 15.3%, and short-term borrowings decreased \$1.0 billion, or 9.6%, during the first three months of 2008. Total shareholders' equity increased \$210 million compared to December 31, 2007.

Consolidated net income for the first quarter of 2008 totaled \$428 million, an increase of 1.7% compared to \$421 million earned during the first quarter of 2007. On a diluted per share basis, earnings for the three months ended March 31, 2008 were \$.78, compared to \$.77 for the same period in 2007, an increase of 1.3%. BB&T's results of operations for the first quarter of 2008 produced an annualized return on average assets of 1.29% and an annualized return on average shareholders' equity of 13.30% compared to prior year ratios of 1.41% and 14.81%, respectively.

Included in the results of operations for the first quarter of 2008 and 2007 were a number of notable items. The first quarter of 2008 included \$43 million in securities gains, a \$12 million charge resulting from a valuation adjustment for bank owned life insurance, a \$6 million reduction in earnings from trading activities, \$223 million in provision for credit losses, and a \$47 million increase in income associated with the initial public offering by Visa Inc., including a \$14 million reversal of a previously recorded liability. The securities gains resulted from a sale of available-for-sale securities, which allowed reinvestment at higher rates of return with no additional credit risk. The provision for credit losses exceeded net charge-offs by \$98 million, which resulted in an increase in the allowance for loan and lease losses as a percentage of loans and leases held for investment to 1.19%. The first quarter of 2007 included a \$19 million gain from the sale of an insurance operation and \$11 million in losses from the sales of securities available for sale.

During the first quarter of 2008, BB&T continued to experience challenges in the residential real estate markets and broader financial markets. These challenges resulted in significant credit deterioration during the quarter. Management expects further increases in nonperforming assets and charge-offs going forward, but continues to believe that those issues will be manageable. On the positive side, BB&T's core businesses are producing healthy loan growth and improved revenue growth. BB&T's net interest margin improved 8 basis points during the first quarter of 2008 compared to the fourth quarter of 2007, reflecting benefits realized from BB&T's liability sensitive balance sheet as short-term interest rates decreased during the quarter.

Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007, for additional information with respect to BB&T's recent accomplishments and significant challenges. The factors causing the fluctuations in the major balance sheet and income statement categories for the first quarter of 2008 are further discussed in the following sections.

[Back to Index](#)

ANALYSIS OF FINANCIAL CONDITION

Securities

Securities available for sale totaled \$23.5 billion at March 31, 2008, an increase of \$1.1 billion, or 4.8%, compared with December 31, 2007. Securities available for sale had net unrealized losses of \$29 million and \$45 million at March 31, 2008 and December 31, 2007, respectively. Trading securities totaled \$609 million, down \$400 million, or 39.6%, compared to the balance at December 31, 2007. The decline in the trading

portfolio was largely the result of a

reduction in Scott & Stringfellow's trading portfolio primarily due to management's decision to reduce risk associated with trading activities. BB&T's trading portfolio may fluctuate significantly from period to period based on market conditions, which affect the timing of purchases and sales of securities classified as trading.

Average total securities for the first three months of 2008 totaled \$23.4 billion, an increase of \$1.5 billion, or 7.1%, compared to the average balance during the first three months of 2007. The increase in average securities was the result of securities purchased in the third quarter of 2007 and the average impact from the timing of purchases and sales in the first quarter of 2008.

During the first quarter of 2008, BB&T took advantage of an opportunity to realize gains in certain U.S. government-sponsored entity securities and reinvested the proceeds in mortgage-backed securities issued by U.S. government-sponsored entities. The credit risk associated with these securities is essentially the same as the investments sold and the mortgage-backed securities have higher yields, which will benefit the net interest margin. BB&T sold a total of \$4.2 billion in available-for-sale securities during the three month period ended March 31, 2008, which produced securities gains of \$43 million.

The annualized fully taxable equivalent ("FTE") yield on the average securities portfolio for the first quarter of 2008 was 5.18%, which represents an increase of 12 basis points compared to the annualized yield earned during the first quarter of 2007. The fluctuations in the annualized FTE yield on the average securities portfolio were primarily the result of changes in the overall composition of the securities portfolio including purchases of higher-yielding mortgage-backed securities and municipal securities.

On March 31, 2008, BB&T held certain investment securities having continuous unrealized loss positions for more than 12 months. As of March 31, 2008, the unrealized losses on these securities totaled \$16 million. Substantially all of these losses were in U.S. government-sponsored entity mortgage-backed securities, as well as other investment grade mortgage securities. The unrealized losses are the result of changes in market interest rates rather than the credit quality of the issuers. At March 31, 2008, BB&T had the ability and intent to retain these securities for a period of time sufficient to recover all unrealized losses. Accordingly, BB&T has not recognized any other-than-temporary impairment in connection with these securities.

Loans and Leases

BB&T emphasizes commercial lending to small and medium-sized businesses, consumer lending, mortgage lending and specialized lending with an overall goal of maximizing the profitability of the loan portfolio, maintaining strong asset quality and achieving an equal mix of consumer and commercial loans. For the first quarter of 2008, average total loans were \$92.7 billion, an increase of \$7.8 billion, or 9.2%, compared to the same period in 2007.

The following table presents the composition of average loans and leases for the three months ended March 31, 2008 and 2007, respectively:

Table 1
Composition of Average Loans and Leases

	For the Three Months Ended			
	March 31, 2008		March 31, 2007	
	Balance	% of total	Balance	% of total
(Dollars in millions)				
Commercial loans and leases	\$ 45,549	49.2 %	\$ 41,122	48.4 %
Direct retail loans	15,639	16.9	15,272	18.0
Sales finance loans	6,031	6.5	5,734	6.8
Revolving credit loans	1,602	1.7	1,387	1.6
Consumer loans	23,272	25.1	22,393	26.4
Mortgage loans	18,574	20.0	16,481	19.4
Specialized lending loans	5,323	5.7	4,898	5.8
Total average loans and leases	\$ 92,718	100.0 %	\$ 84,894	100.0 %

The slight fluctuation in the mix of the loan portfolio during the first three months of 2008 compared to the same period of 2007 was primarily due to increased growth in the commercial loan and lease portfolio and the mortgage portfolio, which grew at a faster pace than the consumer portfolio. The slower growth in the consumer portfolio was the result of decreased demand for home equity loans as a result of a slowdown in the residential real estate market. Growth in the commercial portfolio has shifted somewhat, primarily due to a slowdown in commercial real estate lending, which has been offset by stronger growth in commercial and industrial loans. The mortgage portfolio reflected stronger growth due to an increase in refinance activity.

The annualized FTE yields on commercial, consumer, mortgage and specialized lending subsidiary loans for the first three months of 2008 were 6.47%, 7.22%, 6.03%, and 13.22%, respectively, resulting in an annualized yield on the total loan portfolio of 6.95%. The annualized FTE yields on commercial, consumer, mortgage and specialized lending subsidiary loans for the first three months of 2007 were 7.89%, 7.51%, 5.90%, and 13.62%, respectively, resulting in an annualized yield on the total loan portfolio of 7.73%. This reflects a decrease of 78 basis points in the annualized yield on the total loan portfolio during the first three months of 2008 compared to the same period in 2007. The decrease in the FTE yield on the loan portfolio was primarily the result of the repricing of loans in response to the decrease in the prime lending rate and other indices. In addition, the FTE yield on the total loan portfolio was affected by a change in the mix of loans, with a higher percentage of lower-yielding commercial and mortgage loans in 2008 compared to 2007.

Other Interest-Earning Assets

Federal funds sold and securities purchased under resale agreements or similar arrangements totaled \$342 million at March 31, 2008, a decrease of \$337 million, or 49.6%, compared to December 31, 2007. Interest-bearing deposits with banks, including segregated cash, increased \$124 million, or 20.8%, compared to year-end 2007. These categories of earning assets are subject to large daily fluctuations. The average yield on other interest-earning assets was 3.41% for the first three months of 2008, compared to 4.96% for the same period in 2007, reflecting the decline in the federal funds target rate during 2008 that began in the second half of 2007.

Noninterest-Earning Assets

BB&T's other noninterest-earning assets, including premises and equipment and noninterest-bearing cash and due from banks, increased \$1.2 billion from December 31, 2007 to March 31, 2008. The growth in this category included a slight increase in goodwill which resulted primarily from the acquisitions of insurance agencies and certain contingent payments related to prior acquisitions. In addition, derivatives in a gain position increased \$405 million compared to the balance at December 31, 2007 due primarily to the decline in interest rates which increased the value of certain derivatives hedging long-term debt.

Deposits

Client deposits generated through the BB&T banking network are the largest source of funds used to support asset growth. Deposits totaled \$87.5 billion at March 31, 2008, an increase of \$715 million, or .8%, from December 31, 2007.

Average deposits for the first three months of 2008 increased \$4.1 billion, or 4.9%, to \$86.6 billion compared to the first three months of 2007. The categories of deposits with the highest average rates of growth for the first three months of 2008 compared to the same period of 2007 were client certificates of deposit, which increased \$2.0 billion, or 7.9%; and other client deposits, which includes money rate savings accounts, investor deposit accounts, savings accounts, individual retirement accounts and other time deposits, which increased \$1.5 billion, or 4.4%. In addition, other interest-bearing deposits, which consist of negotiable certificates of deposit and Eurodollar deposits, increased \$792 million, or 8.9%, for the first three months of 2008 compared to the same period in 2007.

The following table presents the composition of average deposits for the three months ended March 31, 2008 and 2007:

Table 2
Composition of Average Deposits

	For the Three Months Ended			
	March 31, 2008		March 31, 2007	
	Balance	% of total	Balance	% of total
(Dollars in millions)				
Noninterest-bearing deposits	\$ 12,676	14.6 %	\$ 12,946	15.7 %
Interest checking	2,301	2.7	2,206	2.7
Other client deposits	34,851	40.2	33,393	40.4
Client certificates of deposit	27,061	31.3	25,076	30.4
Total client deposits	76,889	88.8	73,621	89.2
Other interest-bearing deposits	9,694	11.2	8,902	10.8
Total average deposits	\$ 86,583	100.0 %	\$ 82,523	100.0 %

The change in deposit mix is primarily due to a shift from lower cost products, such as noninterest-bearing accounts, to higher cost certificates of deposit. This change reflects a slowing economy during 2007 that continued into the first quarter of 2008, which resulted in a decline in noninterest-bearing deposits. The increase in certificates of deposit was largely due to growth in public funds, as BB&T was able to provide a safe investment alternative for these clients.

Borrowings

While client deposits remain the primary source for funding loan originations and other balance sheet growth, management uses short-term borrowings as a supplementary funding source for balance sheet growth. Short-term borrowings utilized by BB&T include federal funds purchased, securities sold under repurchase agreements, master notes, U.S. Treasury tax and loan deposit notes, and short-term bank notes. At March 31, 2008, short-term borrowings totaled \$9.6 billion, a decrease of \$1.0 billion, or 9.6%, compared to December 31, 2007. The decrease in these funds compared to December 31, 2007 was primarily due to a \$1.3 billion decrease in Treasury, tax and loan deposit notes as well as a \$583 million decrease in short-term bank notes. These decreases were partially offset by an increase of \$1.0 billion in short-term FHLB advances.

The average annualized rate paid on short-term borrowed funds was 3.50% for the first three months of 2008, a decrease of 111 basis points from the average rate of 4.61% paid during the comparable period of 2007. The lower rate paid on short-term borrowed funds during the first three

months of 2008 compared to the same period in 2007 was primarily the result of the decreases in the federal funds target rate.

BB&T also utilizes long-term debt for a variety of funding needs, including the repurchase of common stock and to supplement levels of regulatory capital. Long-term debt consists of FHLB advances to Branch Bank, corporate subordinated notes, senior and subordinated notes issued by Branch Bank, junior subordinated debentures issued by BB&T and certain private borrowings by Branch Bank. Long-term debt totaled \$21.5 billion at March 31, 2008, an increase of \$2.9 billion, or 15.3%, from the balance at December 31, 2007. The increase primarily resulted from a \$2.6 billion increase in FHLB advances due to the more competitive rates obtained compared to other financing options.

The average annualized rate paid on long-term debt for the first quarter of 2008 was 4.73%, a decrease of 59 basis points compared to the first quarter of 2007. The decrease in the cost of long-term funds resulted from decreases in short-term rates and new FHLB advances issued at lower rates. The decline in short-term rates resulted in decreases in the effective rates paid on the portion of BB&T's long-term debt that was issued as a floating-rate instrument or swapped to a floating rate.

Asset Quality

BB&T experienced significant credit deterioration during the first quarter, reflecting the ongoing challenges in the residential real estate markets with the largest concentration of credit issues occurring in Georgia, Florida and metro Washington, D.C.

Nonperforming assets, which are composed of foreclosed real estate, repossessions, nonaccrual loans and restructured loans, totaled \$989 million at March 31, 2008, compared to \$696 million at December 31, 2007. As a percentage of loans and leases plus foreclosed property, nonperforming assets were 1.05% at March 31, 2008 and .76% at December 31, 2007. Loans 90 days or more past due and still accruing interest totaled \$258 million at March 31, 2008, compared to \$223 million at year-end 2007.

BB&T's net charge-offs totaled \$125 million for the first quarter of 2008 and amounted to .54% of average loans and leases, on an annualized basis, compared to \$61 million, or .29%, of average loans and leases, on an annualized basis, in the corresponding period in 2007. The increase in net charge-offs was largely driven by challenges in the residential real estate market and higher default rates at Regional Acceptance, BB&T's sub-prime automobile lender, compared to the first quarter of 2007. The overall increase in net charge-offs has been more contained than the increase in nonperforming assets, due to the fact that BB&T is a very secured lender.

The allowance for credit losses, which totaled \$1.1 billion and \$1.0 billion at March 31, 2008 and December 31, 2007, respectively, consists of the allowance for loan and lease losses, which is presented on the Consolidated Balance Sheets, and the reserve for unfunded lending commitments, which is included in other liabilities on the Consolidated Balance Sheets. The allowance for loan and lease losses amounted to 1.19% of loans and leases held for investment at March 31, 2008, compared to 1.10% at year-end 2007.

Asset quality statistics for the last five calendar quarters are presented in the accompanying tables.

NOTES: (1) Home equity portfolio is a component of direct retail loans and originated through the BB&T branching network.

(2) Home equity lines without an outstanding balance are excluded from this calculation.

The residential acquisition, development and construction (ADC) loan portfolio totaled \$8.8 billion at March 31, 2008, a slight increase from December 31, 2007. The ADC portfolio is 9.3% of total loans and leases at March 31, 2008. Nonaccrual ADC loans were \$241 million at March 31, 2008, an increase of \$128 million, compared to \$113 million at December 31, 2007. As a percentage of loans and leases, ADC nonaccruals were 2.75% at March 31, 2008, compared to 1.30% at December 31, 2007. The other component of the commercial real estate portfolio, which is largely office buildings, hotels, warehouses, apartments, rental houses, and shopping centers, totaled \$10.1 billion at March 31, 2008. This portion of the portfolio has not shown evidence of material deterioration through the first quarter of 2008.

The residential mortgage loan portfolio totaled \$17.8 billion, a slight decrease from December 31, 2007. As a percentage of loans and leases, residential mortgage loan nonaccruals were 1.09% at March 31, 2008, compared to .71% at December 31, 2007. The prime and Alt-A portfolios totaled \$15.4 billion, or 16.4% of total loans and leases, at March 31, 2008. The two portfolios have high average credit scores and the majority of the loans are first mortgages.

Shareholders' Equity

Total shareholders' equity at March 31, 2008 was \$12.8 billion, an increase of \$210 million compared to \$12.6 billion at December 31, 2007. BB&T's book value per common share at March 31, 2008 was \$23.49, compared to \$23.14 at December 31, 2007. BB&T's tangible shareholders' equity was \$7.3 billion at March 31, 2008, compared to \$7.1 billion at

December 31, 2007. BB&T's tangible book value per common share at March 31, 2008 was \$13.30 compared to \$12.98 at December 31, 2007.

[Back to Index](#)

ANALYSIS OF RESULTS OF OPERATIONS

Consolidated net income for the first quarter of 2008 totaled \$428 million, an increase of \$7 million, or 1.7%, compared to \$421 million earned during the first quarter of 2007. On a diluted per share basis, earnings for the three months ended March 31, 2008 were \$.78, an increase of 1.3% compared to \$.77 for the same period in 2007. BB&T's results of operations for the first quarter of 2008 produced an annualized return on average assets of 1.29% and an annualized return on average shareholders' equity of 13.30%, compared to prior year ratios of 1.41% and 14.81%, respectively.

The following table sets forth selected financial ratios for the last five calendar quarters.

Table 5
Annualized
Profitability Measures

	2008		2007		
	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	First Quarter
Return on average assets	1.29 %	1.24 %	1.37 %	1.47 %	1.41 %
Return on average shareholders' equity	13.30	12.89	14.24	15.18	14.81
Net interest margin (taxable equivalent)	3.54	3.46	3.45	3.55	3.61

Net Interest Income and Net Interest Margin

Net interest income on an FTE basis was \$1.0 billion for the first quarter of 2008 compared to \$963 million for the same period in 2007, an increase of \$71 million, or 7.4%. For the quarter ended March 31, 2008, average earning assets increased \$9.8 billion, or 9.1%, compared to the same period of 2007, while average interest-bearing liabilities increased \$10.6 billion, or 11.3%, and the net interest margin decreased from 3.61% in the first quarter of 2007 to 3.54% in the current quarter. The decline in the net interest margin compared to the first quarter of 2007 was caused by a combination of factors. First, the mix of asset growth has shifted from higher-yielding commercial real estate and direct retail loans to lower-

yielding mortgage loans and commercial and industrial loans. Second, higher levels of nonaccruals have negatively affected net interest income and the net interest margin. Third, increased liability costs, specifically a shift to higher-cost deposits from lower-cost transaction accounts, contributed to the margin compression. However, beginning in the fourth quarter of 2007, BB&T started to realize the benefits from its liability sensitive balance sheet, which is reflected in the margin improvement over the last two quarters. Management expects that the margin will improve further throughout 2008.

The following table sets forth the major components of net interest income and the related annualized yields and rates for the first quarter of 2008 compared to the same period in 2007, as well as the variances between the periods caused by changes in interest rates versus changes in volumes.

- (1) Yields are stated on a taxable equivalent basis assuming tax rates in effect for the periods presented.
- (2) Includes Federal funds sold, securities purchased under resale agreements or similar arrangements, interest-bearing deposits with banks, and other earning assets.
- (3) Loan fees, which are not material for any of the periods shown, have been included for rate calculation purposes.
- (4) Nonaccrual loans have been included in the average balances. Only the interest collected on such loans has been included as income.
- (5) Includes securities available for sale at amortized cost and trading securities at estimated fair value.
- (6) Includes stock issued by the FHLB of Atlanta.

Provision for Credit Losses

The provision for credit losses totaled \$223 million for the first quarter of 2008, compared to \$71 million for the first quarter of 2007. The increase in the provision for credit losses was driven primarily by challenges in residential real estate markets with the largest concentration of credit issues occurring in Georgia, Florida, and metro Washington D.C. Net charge-offs have risen in recent periods as a result of a weakening economy and more distress by borrowers.

Net charge-offs were .54% of average loans and leases for the first quarter of 2008 compared to .29% of average loans and leases for the same period in 2007. The allowance for loan and lease losses was 1.19% of loans and leases held for investment and was 1.44x total nonaccrual and restructured loans and leases at March 31, 2008, compared to 1.06% and 3.24x, respectively, at March 31, 2007.

Noninterest Income

Noninterest income as a percentage of total revenues has increased in recent years due to BB&T's emphasis on growing its fee-based businesses. Fee-based service revenues lessen BB&T's dependence on traditional spread-based interest income and are a relatively stable revenue source during periods of changing interest rates. Noninterest income for the three months ended March 31, 2008 totaled \$771 million, compared to \$652 million for the same period in 2007, an increase of \$119 million, or 18.3%. The overall growth in noninterest income also reflects the impact of acquisitions.

Insurance commissions, which are BB&T's largest source of noninterest income, totaled \$212 million for the first quarter of 2008, an increase of \$15 million, or 7.6%, compared to the same three-month period of 2007. The increase in insurance revenues for the first quarter of 2008 compared to the corresponding period of 2007 was primarily attributable to new products introduced during the second half of 2007. This growth also includes the impact from acquisitions and divestitures completed during 2008 and 2007.

Service charges on deposits totaled \$154 million for the first quarter of 2008, an increase of \$16 million, or 11.6%, compared to the first quarter of 2007. This increase in revenues was primarily attributable to growth from overdraft fees compared to the same periods last year. During the first quarter of 2008, BB&T opened 36 thousand net new deposit accounts, which also contributed to the growth in service charges.

Investment banking and brokerage fees and commissions totaled \$86 million for the first quarter of 2008, an increase of \$4 million, or 4.9%, from \$82 million earned in the first quarter of 2007. The increase in fees and commissions during the first quarter was primarily attributable to increased sales by BB&T Investment Services.

Mortgage banking income totaled \$59 million in the first quarter of 2008, an increase of \$29 million, compared to \$30 million earned in the first quarter of 2007. BB&T adopted SFAS No. 159 for the majority of loans originated for sale after January 1, 2008, and implemented the

provisions of SAB 109. As a result of the adoption of both standards, mortgage banking income increased \$31 million. Of the \$31 million increase relating to the adoption of these accounting standards, approximately \$16 million relates to the elimination of the provisions of SFAS No. 91 on loans accounted for at fair value and resulted in a corresponding increase in personnel expense. The increase in commercial mortgage banking income of \$7 million is due to the acquisition of Collateral Real Estate Capital, LLC in November 2007.

The following table provides a breakdown of the various components of mortgage banking income and other statistical information for the first quarters of 2008 and 2007:

Table 7
Mortgage Banking Income and Related Statistical Information

	For the Three Months Ended	
	March 31,	
	2008	2007
	(Dollars in millions)	
Mortgage Banking Income		
Residential mortgage production income	\$ 38	\$ 13
Residential Mortgage Servicing:		
Residential mortgage servicing fees	32	29
Residential mortgage servicing rights (decrease) increase in fair value due to change in valuation inputs or assumptions	(84)	7
Mortgage servicing rights derivative gains	82	(3)
Net	(2)	4
Realization of expected residential mortgage servicing rights cash flows	(23)	(23)
Total residential mortgage servicing income	7	10
Total residential mortgage banking income	45	23
Commercial mortgage banking income	14	7
Total mortgage banking income	\$ 59	\$ 30

As of / For the Three Months Ended
March 31,

Mortgage Banking Statistical Information

	2008	2007
	(Dollars in millions)	
Residential mortgage originations	\$ 4,393	\$ 2,461
Residential mortgage loans serviced for others	33,323	28,647
Residential mortgage loan sales	2,647	1,558
Commercial mortgage originations	\$ 867	\$ 516
Commercial mortgage loans serviced for others	21,070	9,316

Other nondeposit fees and commissions, including bankcard fees and checkcard fees, totaled \$128 million for the first quarter of 2008, an increase of \$14 million, or 12.3%, compared to the first quarter of 2007. The principal drivers of the first quarter increase were debit and check card related service fees and bankcard income, which increased by \$5 million and \$6

million, respectively, compared to the same period in 2007. These increases were due to increased purchase volumes as clients continue to migrate toward electronic forms of payment.

Other income, including income from bank-owned life insurance, totaled \$49 million for the first quarter of 2008, a decrease of \$13 million, or 21.0%, compared to the first quarter of 2007. The decrease in 2008 primarily resulted from a decline of \$15 million in bank-owned life insurance primarily resulting from a valuation adjustment that resulted from a decline in the underlying assets of certain bank-owned life insurance policies. In addition, BB&T experienced reductions in revenues of \$6 million from trading activities and \$6 million related to the adoption and implementation of fair value accounting. The decline compared to the first quarter of 2007 was also a result of a prior-period sale of an insurance operation, which produced a gain of \$19 million last year. These decreases were partially offset by a \$33 million gain related to the initial public offering by Visa Inc.

Securities gains totaled \$43 million for the three months ended March 31, 2008, resulting from the sale of \$4.2 billion of available-for-sale securities, which allowed reinvestment at higher rates of return with no additional credit risk. During the first quarter of 2007, securities losses totaled \$11 million.

Noninterest Expense

Noninterest expenses totaled \$936 million for the first quarter of 2008, compared to \$883 million for the same period a year ago, an increase of \$53 million, or 6.0% . The overall growth in noninterest expense also reflects the impact of acquisitions.

Personnel expense, the largest component of noninterest expense, was \$547 million for the current quarter compared to \$524 million for the same period in 2007, an increase of \$23 million, or 4.4% . This increase was primarily attributable to an increase in salaries and wages of \$19 million and a \$16 million increase related to the implementation of the Fair Value Option for mortgage banking operations. These increases were partially offset by a decrease in equity-based compensation of \$12 million.

Occupancy and equipment expense for the three months ended March 31, 2008 totaled \$123 million, compared to \$116 million for the first quarter of 2007, representing an increase of \$7 million, or 6.0% . The increase for the first quarter of 2008 was primarily related to additional rent in connection with de novo branches, acquisitions and renewals of existing leases.

Other noninterest expenses, including professional services, loan processing expenses and amortization of intangibles, totaled \$261 million for the current quarter, an increase of \$24 million, or 10.1%, compared to the same period of 2007. The increase was primarily attributable to an increase of \$6 million in professional services expense, \$5 million in loan processing expense and \$6 million in foreclosed property expense compared to the first quarter of 2007. These increases were partially offset by the reversal of an accrual of \$14 million related to the litigation associated with BB&T's ownership interest in Visa Inc.

Merger-Related and Restructuring Activities

BB&T has incurred certain merger-related and restructuring expenses, primarily in connection with business combinations. Merger-related and restructuring expenses or credits include severance and personnel-related costs or credits, which typically occur in corporate support and data processing functions, occupancy and equipment charges or credits, which relate to costs or gains associated with lease terminations, obsolete equipment write-offs, and the sale of duplicate facilities and equipment, and other merger-related and restructuring charges or credits, which include expenses necessary to convert and combine the acquired branches and operations of merged companies, direct media advertising related to the acquisitions, asset and supply inventory write-offs, litigation accruals, and other similar charges. Merger-related and restructuring charges during the first quarters of 2008 and 2007 were \$5 million and \$6 million, respectively.

At March 31, 2008 and December 31, 2007, there were \$14 million and \$16 million, respectively, of merger-related and restructuring accruals. In general, a major portion of accrued costs are utilized in conjunction with or immediately following the systems conversion, when most of the duplicate positions are eliminated and the terminated employees begin to receive severance. Other accruals are utilized over time based on the sale, closing or disposal of duplicate facilities or equipment or the expiration of lease contracts. Merger and restructuring accruals are re-evaluated periodically and adjusted as necessary. The remaining accruals at March 31, 2008 are expected to be utilized during 2008, unless they relate to specific contracts that expire in later years.

Provision for Income Taxes

The provision for income taxes totaled \$201 million for the first quarter of 2008, a decrease of \$21 million compared to the same period of 2007, primarily due to increased tax reserves recorded in the first quarter of 2007 as a result of the adoption of FIN 48. BB&T's effective income tax rates for the first quarters of 2008 and 2007 were 32.0% and 34.5%, respectively.

BB&T has extended credit to and invested in the obligations of states and municipalities and their agencies, and has made other investments and loans that produce tax-exempt income. The income generated from these investments, together with certain other transactions that have favorable tax treatment, have reduced BB&T's overall effective tax rate from the statutory rate in 2008 and 2007.

BB&T continually monitors and evaluates the potential impact of current events and circumstances on the estimates and assumptions used in the analysis of its income tax positions and, accordingly, BB&T's effective tax rate may fluctuate in the future. On a periodic basis, BB&T evaluates its income tax positions based on tax laws and regulations and financial reporting considerations, and records adjustments as appropriate. This evaluation takes into consideration the status of taxing authorities' current examinations of BB&T's tax returns, recent positions taken by the taxing authorities on similar transactions, if any, and the overall tax environment in relation to tax-advantaged transactions. Accordingly, the results of these

examinations may alter the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions. In this regard, the Internal Revenue Service ("IRS") disallowed certain deductions taken by BB&T on leveraged lease transactions during 1997-2002. In 2004, BB&T filed a lawsuit against the IRS to pursue a refund of amounts assessed by the IRS related to a leveraged lease transaction entered into during 1997. On January 4, 2007, the United States Middle District Court of North Carolina issued a summary judgment in favor of the IRS related to BB&T's lawsuit. BB&T filed a notice of appeal with the United States Appeals Court for the Fourth Circuit, based in Richmond, Virginia. On April 29, 2008, the United States Appeals Court for the Fourth Circuit affirmed the lower court's decision.

BB&T paid \$1.2 billion to the IRS during the first quarter of 2007. This payment represented the total tax and interest due on leveraged lease transactions for all open years. The tax paid relates to differences in the timing of income recognition and deductions for income tax purposes for which deferred taxes had been previously provided.

Management has consulted with outside counsel and continues to believe that BB&T's treatment of its leveraged lease transactions was appropriate and in compliance with the tax laws and regulations applicable to the years examined. BB&T's management is currently considering its legal options.

[Back to Index](#)

MARKET RISK MANAGEMENT

The effective management of market risk is essential to achieving BB&T's strategic financial objectives. As a financial institution, BB&T's most significant market risk exposure is interest rate risk; however, market risk also includes product liquidity risk, price risk and volatility risk. The primary objective of interest rate risk management is to minimize any adverse effect that changes in interest rates may have on net interest income. This is accomplished through active management of asset and liability portfolios with a focus on the strategic pricing of asset and liability accounts and management of appropriate maturity mixes of assets and liabilities. The goal of these activities is the development of appropriate maturity and repricing opportunities in BB&T's portfolios of assets and liabilities that will produce consistent net interest income during periods of changing interest rates. BB&T's Market Risk and Liquidity Committee monitors loan, investment and liability portfolios to ensure comprehensive management of interest rate risk. These portfolios are analyzed for proper fixed-rate and variable-rate mixes under various interest rate scenarios.

The asset/liability management process is designed to achieve relatively stable net interest margins and assure liquidity by coordinating the volumes, maturities or repricing opportunities of earning assets, deposits and borrowed funds. It is the responsibility of the Market Risk and Liquidity Committee to determine and achieve the most appropriate volume and mix of earning assets and interest-bearing liabilities, as well as to ensure an adequate level of liquidity and capital, within the context of corporate performance goals. The Market Risk and Liquidity Committee also sets policy guidelines and establishes long-term strategies with respect to interest rate risk exposure and liquidity. The Market Risk and Liquidity Committee meets regularly to review BB&T's interest rate risk and liquidity positions in relation to present and prospective

market and business conditions, and adopts funding and balance sheet management strategies that are intended to ensure that the potential impact on earnings and liquidity as a result of fluctuations in interest rates is within acceptable standards.

The majority of BB&T's assets and liabilities are monetary in nature and, therefore, differ greatly from most commercial and industrial companies that have significant investments in fixed assets or inventories. Fluctuations in interest rates and actions of the Board of Governors of the Federal Reserve System to regulate the availability and cost of credit have a greater effect on a financial institution's profitability than do the effects of higher costs for goods and services. Through its balance sheet management function, which is monitored by the Market Risk and Liquidity Committee, management believes that BB&T is positioned to respond to changing needs for liquidity, changes in interest rates and inflationary trends.

Management uses Interest Sensitivity Simulation Analysis ("Simulation") to measure the sensitivity of projected earnings to changes in interest rates. Simulation takes into account the current contractual agreements that BB&T has made with its customers on deposits, borrowings, loans, investments and any commitments to enter into those transactions. Management monitors BB&T's interest sensitivity by means of a computer model that incorporates the current volumes, average rates earned and paid, and scheduled maturities and payments of asset and liability portfolios, together with multiple scenarios of projected prepayments, repricing opportunities and anticipated volume growth. Using this information, the model projects earnings based on projected portfolio balances under multiple interest rate scenarios. This level of detail is needed to simulate the effect that changes in interest rates and portfolio balances may have on the earnings of BB&T. This method is subject to the accuracy of the assumptions that underlie the process, but management believes that it provides a better illustration of the sensitivity of earnings to changes in interest rates than other analyses such as static or dynamic gap.

The asset/liability management process requires a number of key assumptions. Management determines the most likely outlook for the economy and interest rates by analyzing external factors, including published economic projections and data, the effects of likely monetary and fiscal policies, as well as any enacted or prospective regulatory changes. BB&T's current and prospective liquidity position, current balance sheet volumes and projected growth, accessibility of funds for short-term needs and capital maintenance are also considered. This data is combined with various interest rate scenarios to provide management with the information necessary to analyze interest sensitivity and aid in the development of strategies to reach performance goals.

The following table shows the effect that the indicated changes in interest rates would have on interest sensitive income as projected for the next twelve months under the "most likely" interest rate scenario incorporated into the Simulation computer model. Key assumptions in the preparation of the table include prepayment speeds of mortgage-related assets, cash flows and maturities of derivative financial instruments, changes in market conditions, loan volumes and pricing, deposit sensitivity, customer preferences and capital plans. The resulting change in interest sensitive income reflects the level of sensitivity that interest sensitive income has in relation to changing interest rates.

During the first quarter of 2008, the Market Risk and Liquidity Committee revised its policy for measuring interest sensitivity to align more with peers. The new parameters for asset/liability management prescribe a maximum negative impact on interest sensitive income of 2% for the next 12 months for a linear increase of 100 basis points for four months followed by a flat interest rate scenario for the remaining eight month period, and a maximum negative impact of 4% for a linear increase of 200 basis points for eight months followed by a flat interest rate scenario for the remaining four month period. Previously, management's policy was a maximum negative impact on interest sensitive income of 3% for the next 12 months for a linear increase of 150 basis points for six months followed by a flat interest rate scenario for the remaining six month period, and a maximum negative impact of 6% for a linear increase of 300 basis points for 12 months. Management was not able to model a negative 300 basis point decline in the current period, because this would have resulted in a fed funds rate of less than zero.

Table 8
Interest Sensitivity Simulation Analysis

Linear Change in Prime Rate	Interest Rate Scenario		Annualized Hypothetical Percentage Change in Net Interest Income	
	Prime Rate		March 31,	
	2008	2007	2008	2007
3.00 %	8.25 %	11.25 %	(1.56) %	(3.22) %
2.00	7.25	10.25	(0.87)	NA
1.50	6.75	9.75	(0.99)	(2.25)
1.00	6.25	9.25	(0.55)	NA
No Change	5.25	8.25	-	-
(1.00)	4.25	7.25	(1.02)	NA
(1.50)	3.75	6.75	(1.96)	1.65
(2.00)	3.25	6.25	(2.29)	NA
(3.00)	2.25	5.25	NA	1.97

BB&T has become less liability sensitive over the course of the first quarter. This is due to both changes in balance sheet mix and derivative positions that were designed to reduce BB&T's rate sensitivity. The interest sensitive position is fairly balanced and reflects slightly negative exposure to down rates if rates move in a parallel fashion, and slightly positive exposure if rates move down in accordance with the market based forward curve. Although BB&T's model indicates that the company is not liability sensitive given a parallel change in rates, the company expects to continue to benefit from its recent liability sensitive position due to the continued repricing of its liability portfolio relative to its assets.

Derivative Financial Instruments

BB&T utilizes a variety of financial instruments to manage various financial risks. These instruments, commonly referred to as derivatives, primarily consist of interest-rate swaps,

swaptions, caps, floors, collars, financial forward and futures contracts, when-issued securities, foreign exchange contracts and options written and purchased. A derivative is a financial instrument that derives its cash flows, and therefore its value, by reference to an underlying instrument, index or referenced interest rate. BB&T uses derivatives primarily to manage risk related to securities, business loans, Federal funds purchased, long-term debt, mortgage servicing rights, mortgage banking operations and certificates of deposit. BB&T also uses derivatives to facilitate transactions on behalf of its clients.

Derivative contracts are written in amounts referred to as notional amounts. Notional amounts only provide the basis for calculating payments between counterparties. Notional amounts do not represent amounts to be exchanged between parties, and are not a measure of financial risk. On March 31, 2008, BB&T had derivative financial instruments outstanding with notional amounts totaling \$57.9 billion. The estimated net fair value of open contracts was \$380 million at March 31, 2008. This compares to \$47.2 billion of notional amounts with a fair value of \$181 million outstanding at December 31, 2007. The majority of the increase in notional amounts was due to the addition of \$6.0 billion in derivatives related to mortgage banking operations. The \$199 million increase in the fair value of derivatives between December 31, 2007 and March 31, 2008 was primarily the result of changes in fair value of derivatives hedging long-term debt.

Credit risk related to derivatives arises when amounts receivable from a counterparty exceed amounts payable. Because the notional amount of the instruments only serves as a basis for calculating amounts receivable or payable, the risk of loss with any counterparty is limited to a small fraction of the notional amount. BB&T deals only with derivatives dealers that are national market makers with strong credit ratings in its derivatives activities. BB&T further controls the risk of loss by subjecting counterparties to credit reviews and approvals similar to those used in making loans and other extensions of credit. In addition, certain counterparties are required to provide collateral to BB&T when their unsecured loss positions exceed certain negotiated limits. All of the derivative contracts to which BB&T is a party settle monthly, quarterly or semiannually. Further, BB&T frequently has netting agreements with the dealers with which it does business. Because of these factors, BB&T's credit risk exposure related to derivative contracts at March 31, 2008 was not material.

The following tables set forth certain information concerning BB&T's derivative financial instruments at March 31, 2008 and December 31, 2007:

Table 9-1
Derivative Classifications and Hedging Relationships

	March 31, 2008

Contractual Obligations, Commitments, Contingent Liabilities, Off-Balance Sheet Arrangements and Related Party Transactions

BB&T utilizes a variety of financial instruments to meet the financial needs of its clients and reduce exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit, options written, standby letters of credit and other financial guarantees, interest-rate caps, floors and collars, interest-rate swaps, swaptions, when-issued securities and forward and futures contracts. Please refer to BB&T's Annual Report on Form 10-K for the year ended December 31, 2007 for discussion with respect to BB&T's quantitative and qualitative disclosures about its fixed and determinable contractual obligations. Items disclosed in BB&T's Annual Report on Form 10-K for the year ended December 31, 2007 have not materially changed since that report was filed. A discussion of BB&T's derivative financial instruments is included in the "Derivative Financial Instruments" section herein.

CAPITAL ADEQUACY AND RESOURCES

The maintenance of appropriate levels of capital is a management priority and is monitored on a regular basis. BB&T's principal goals related to the maintenance of capital are to provide adequate capital to support BB&T's comprehensive risk profile, preserve a sufficient capital base from which to support future growth, provide a competitive return to shareholders,

comply with regulatory standards and achieve optimal credit ratings for BB&T and its subsidiaries.

Management regularly monitors the capital position of BB&T on a consolidated basis. In this regard, management's overriding policy is to maintain capital at levels that will result in BB&T being classified as "well-capitalized" for regulatory purposes and to maintain sufficient capital relative to the Corporation's level of risk. Secondly, it is management's intent to maintain consolidated capital levels that result in regulatory risk-based capital ratios that are generally comparable with BB&T's peers of similar size, complexity and risk profile. Further, management particularly monitors and intends to maintain the following minimum capital ratios:

Tier 1 Capital Ratio	8.50 %
Total Capital Ratio	12.00 %
Tier 1 Leverage Capital Ratio	7.00 %
Tangible Capital Ratio	5.50 %

While nonrecurring events or management decisions may result in the Corporation temporarily falling below its minimum guidelines for one or more of these ratios, it is management's intent through capital planning to return to these targeted minimums within a reasonable period of time. Such temporary decreases below these minimums are acceptable provided the Corporation and Branch Bank remain "well-capitalized."

Financial holding companies and their bank subsidiaries are subject to regulatory requirements with respect to risk-based capital adequacy. Capital adequacy is an important indicator of financial stability and performance. Risk-based capital ratios measure capital as a percentage of a combination of risk-weighted balance sheet and off-balance sheet risk. The risk-weighted values of both balance sheet and off-balance sheet items are determined in accordance with risk factors specified by federal bank regulatory pronouncements. Please refer to the section titled "Capital" in BB&T's Annual Report on Form 10-K for the year ended December 31, 2007, for additional information with regard to BB&T's capital requirements.

BB&T's regulatory and tangible capital ratios for the last five calendar quarters are set forth in the following table. The increase in BB&T's regulatory capital in the second quarter of 2007 was largely due to the issuance of \$600 million in Tier 1 qualifying capital securities.

Table 10
Capital Ratios

	2008	2007			
	First Quarter	Fourth Quarter	Third Quarter	Second Quarter	First Quarter
Risk-based capital ratios:					
Tier 1 capital	9.0 %	9.1 %	9.3 %	9.4 %	8.7 %
Total capital	14.1	14.2	14.5	14.7	13.9
Tier 1 leverage ratio	7.3	7.2	7.3	7.5	6.9
Tangible capital ratio	5.6	5.6	5.5	5.5	5.5

Share Repurchase Activity

BB&T has periodically repurchased shares of its own common stock. In accordance with North Carolina law, repurchased shares cannot be held as treasury stock, but revert to the status of authorized and unissued shares upon repurchase.

On June 27, 2006, BB&T's Board of Directors granted authority under a new plan (the "2006 Plan") for the repurchase of up to 50 million shares of BB&T's common stock as needed for general corporate purposes. The 2006 Plan also authorizes the repurchase of the remaining shares from the previous authorization. The 2006 Plan remains in effect until all the authorized shares are repurchased unless modified by the Board of Directors. No shares were repurchased in connection with the 2006 Plan during the first quarter of 2008.

Table 11
Share Repurchase Activity

	2008			
	Total Shares Repurchased (1)	Average Price Paid Per Share (2)	Total Shares Purchased Pursuant to Publicly-Announced Plan	Maximum Remaining Number of Shares Available for Repurchase Pursuant to Publicly-Announced Plan
	(Shares in Thousands)			
January 1-31	-	\$ -	-	44,139
February 1-29	27	34.61	-	44,139
March 1-31	2	34.33	-	44,139

Total	29	\$	34.56	-	44,139

- (1) Repurchases reflect shares exchanged or surrendered in connection with the exercise of equity-based awards under BB&T's equity-based compensation plans.
- (2) Excludes commissions.

[Back to Index](#)

SEGMENT RESULTS

BB&T's operations are divided into seven reportable business segments: the Banking Network, Residential Mortgage Banking, Sales Finance, Specialized Lending, Insurance Services, Financial Services and Treasury. These operating segments have been identified based primarily on BB&T's organizational structure. See Note 10 "Operating Segments" in the notes to the consolidated financial statements contained herein for additional disclosures related to BB&T's reportable business segments. Fluctuations in noninterest income and noninterest expense incurred directly by the operating segments are more fully described in the sections titled "Noninterest Income" and "Noninterest Expense" of this discussion and analysis. The following table reflects the net income (loss) for each of BB&T's operating segments for the three month periods ended March 31, 2008 and 2007, respectively.

**BB&T Corporation
Reportable Segments**

	For the Three Months Ended	
	March 31, 2008	March 31, 2007
	(Dollars in Millions)	
Banking Network	\$ 379	\$ 376
Residential Mortgage Banking	46	31
Sales Finance	9	8
Specialized Lending	1	19
Insurance Services	19	32
Financial Services	24	13
Treasury	43	(25)
All Other Segments	(2)	(7)
Parent/Reconciling Items	(91)	(26)
BB&T Corporation	<u>\$ 428</u>	<u>\$ 421</u>

The \$15 million increase in net income attributable to the Residential Mortgage Banking segment was due to the adoption of fair value accounting for the loans held for sale portfolio and increased net interest income from growth in mortgage loans held for investment. The decline of \$18 million in the Specialized Lending segment was largely due to higher provision for loan and lease loss expense, as net losses in these portfolios were higher in the first quarter of 2008 compared to the same period last year. The decline of \$13 million in the Insurance Services segment was largely due to a pre-tax gain of \$19 million earned in the prior period on the sale of an insurance operation. The increase of \$11 million in net

income attributable to the Financial Services segment was primarily the result of strong performance from the corporate banking division, which focuses on meeting the financial needs of large commercial clients along with the management of BB&T's client interest-rate derivatives program. The increase of \$68 million in net income in the Treasury segment was primarily a result of securities gains of \$43 million earned in the current quarter compared to \$11 million of losses in the same period last year. In addition, the Treasury segment benefited from the decline in short term rates, which reduced liability costs.

Item 4. *Controls and Procedures*

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the management of the Company, under the supervision and with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the Company’s disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company’s disclosure controls and procedures are effective so as to enable the Company to record, process, summarize and report in a timely manner the information that the Company is required to disclose in its Exchange Act reports.

Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

The nature of the business of BB&T’s banking and other subsidiaries ordinarily results in a certain amount of litigation. The subsidiaries of BB&T are involved in various legal proceedings, all of which are considered incidental to the normal conduct of business. Based on information currently available, advice of counsel, available insurance coverage and established reserves, BB&T’s management believes that the liabilities, if any, arising from these proceedings will not have a materially adverse effect on the consolidated financial position, consolidated results of operations or consolidated cash flows of BB&T. However, in the event of unexpected future developments, it is possible that the ultimate resolution of these matters, if unfavorable, may be material to BB&T’s consolidated financial position, consolidated results of operations or consolidated cash flows.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in BB&T's Annual Report on Form 10-K for the year ended December 31, 2007. These risks could materially affect our business, financial condition or future results, and are not the only risks we face. Additional risks and uncertainties not currently known to us or that we have deemed to be immaterial also may materially adversely affect our business, financial condition, and/or operating results.
