FIDELITY BANCORP, INC. AND <u>SUBSIDIARIES</u> Notes to Consolidated Financial Statements — (Unaudited) <u>June 30, 2008</u>

(1) Consolidation

The consolidated financial statements contained herein for Fidelity Bancorp, Inc. (the "Company") include the accounts of Fidelity Bancorp, Inc. and its wholly-owned subsidiary, Fidelity Bank, PaSB (the "Bank"). All inter-company balances and transactions have been eliminated.

(2) Basis of Presentation

The accompanying consolidated financial statements were prepared in accordance with instructions to Form 10-Q, and therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations, and cash flows in conformity with generally accepted accounting principles in the United States. However, all adjustments (consisting of normal recurring adjustments), which, in the opinion of management, are necessary for a fair presentation of the financial statements, have been included. These financial statements should be read in conjunction with the audited financial statements and the accompanying notes thereto included in the Company's Annual Report for the fiscal year ended September 30, 2007. The results for the three and nine month periods ended June 30, 2008 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2008 or any future interim period.

Certain amounts in the 2007 financial statements have been reclassified to conform with the 2008 presentation format. These reclassifications had no effect on stockholders' equity or net income.

(3) New Accounting Standards

In September 2006, the Financial Accounting Standards Board ("FASB") issued Financial Accounting Standard ("FAS") No. 157, Fair Value Measurements, which provides enhanced guidance for using fair value to measure assets and liabilities. The standard applies whenever other standards require or permit assets or liabilities to be measured at fair value. The standard does not expand the use of fair value in any new circumstances. FAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In February 2008, the FASB issued Staff Position No. 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13, which removed leasing transactions accounted for under FAS No. 13 and related guidance from the scope of FAS No. 157. Also in February 2008, the FASB issued Staff Position No.157-2, Partial Deferral of the Effective Date of Statement 157, which deferred the effective date of FAS No. 157 for all nonfinancial assets and nonfinancial liabilities to fiscal years beginning after November 15, 2008. The Company is currently evaluating the impact the adoption of the standard will have on the Company's results of operations.

In February 2007, the FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities – Including an Amendment of FASB Statement No. 115, which provides all entities with an option to report selected financial assets and liabilities at fair value. The objective of FAS No. 159 is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. FAS No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007 provided the entity also elects to apply the provisions of FAS No. 157, Fair Value Measurements. The Company is currently evaluating the impact the adoption of the standard will have on the Company's results of operations.

In December 2007, the FASB issued FAS No. 141 (revised 2007), Business Combinations ("FAS 141(R)"), which establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in an acquiree, including the recognition and measurement of goodwill acquired in a business combination. FAS No. 141(R) is effective for fiscal years beginning on or after December 15, 2008. Earlier adoption is prohibited. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

Q

In December 2007, the FASB issued FAS No. 160, Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51. FAS No. 160 amends ARB No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. Among other requirements, this statement requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest. It also requires disclosure, on the face of the consolidated income statement, of the amounts of consolidated net income attributable to the parent and to the noncontrolling interest. FAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. Earlier adoption is prohibited. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In March 2008, the FASB issued FAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, to require enhanced disclosures about derivative instruments and hedging activities. The new standard has revised financial reporting for derivative instruments and hedging activities by requiring more transparency about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FAS No. 133, Accounting for Derivative Instruments and Hedging Activities; and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. FAS No. 161 requires disclosure of the fair values of derivative instruments and their gains and losses in a tabular format. It also requires entities to provide more information about their liquidity by requiring disclosure of derivative features that are credit risk-related. Further, it requires cross-referencing within footnotes to enable financial statement users to locate important information about derivative instruments. FAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In May 2008, the FASB issued FAS No. 162, The Hierarchy of Generally Accepted Accounting Principles. FAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (the GAAP hierarchy). FAS No. 162 will become effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. The Company does not expect the adoption of FAS No. 162 to have a material effect on its results of operations and financial position.

In September 2006, the FASB reached consensus on the guidance provided by Emerging Issues Task Force Issue 06-4 ("EITF 06-4"), Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. The guidance is applicable to endorsement split-dollar life insurance arrangements, whereby the employer owns and controls the insurance policy, that are associated with a postretirement benefit. EITF 06-4 requires that for a split-dollar life insurance arrangement within the scope of the issue, an employer should recognize a liability for future benefits in accordance with FAS No. 106 (if, in substance, a postretirement benefit plan exists) or Accounting Principles Board Opinion No. 12 (if the arrangement is, in substance, an individual deferred compensation contract) based on the substantive agreement with the employee. EITF 06-4 is effective for fiscal years beginning after December 15, 2007. The Company is currently evaluating the impact the adoption of the EITF will have on the Company's results of operations.

10

(4) Stock Based Compensation

As of June 30, 2008, the Company had six share-based compensation plans, which are described below.

The Company's 2005 Stock-Based Incentive Plan (the Plan), which was shareholder-approved, permits the grant of stock options and restricted stock to its employees and non-employee directors for up to 165,000 shares of common stock, of which a maximum of 55,000 may be restricted stock. Option awards are granted with an exercise price equal to the market value of the common stock on the date of the grant, the options vest over a three-year period, and have a contractual term of seven years, although the Plan permits contractual terms of up to ten years. Option awards provide for accelerated vesting if there is a change in control, as defined in the Plan. Additionally, at December 31, 2007, the Company awarded 5,100 shares of restricted stock from the unallocated shares under the Plan having a market value of approximately \$66,600. Compensation expense on the restricted stock awards equals the market value of the Company is stock on the grant date and will be amortized ratably over the three-year vesting period. As of June 30, 2008, 56,375 share awards remain unawarded under the Plan, of which a maximum of 49,900 may be restricted stock awards.

The Company also maintains the 1997 Employee Stock Compensation Program, which was shareholder approved. At June 30, 2008, no remaining options were available for grant under this program. Option awards under this program were granted with an exercise price equal to the market value of the common stock on the date of grant, had vesting periods from zero to two years, and had contractual terms from seven to ten years. Option awards under this program provide for accelerated vesting if there is a change in control, as defined in the Program.

The Company also maintains the 1998 Stock Compensation Program, the 2000 Stock Compensation Plan, the 2001 Stock Compensation Plan, and the 2002 Stock Compensation Plan, which provided for the grant of stock options to non-employee directors. At June 30, 2008, no remaining options were available for grant under these programs. Option awards under these programs were granted with an exercise price equal to the market value of the common stock on the date of grant, were exercisable immediately, and had contractual terms of ten years.

As of June 30, 2008 there was approximately \$152,000 of unrecognized compensation costs related to unvested share-based compensation awards granted.

Stock option transactions for the nine months ended June 30, 2008 were as follows:

		Weighted- Average Exercise	Aggregate Intrinsic	Average Remaining Term
	Options	Price	Value	(in years)
Outstanding at the beginning of the year	393,600	\$ 15.51		
Granted	12,625	13.06		
Exercised	(25,184)	11.99		
Forfeited	(4,086)	14.67		
Outstanding as of June 30, 2008	376,955	\$ 15.67	\$304,393	4.1
Exercisable as of June 30, 2008	327,829	\$ 15.43	\$304,393	3.9

11

Nine Months Ended

Table of Contents

The fair value of options granted for the nine month periods ended <u>June 30, 2008</u> and <u>2007</u> were estimated at the date of grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

	Nine Months En	aea <u>June 30,</u>
	2008	2007
Dividend yield	4.94%	3.81%
Expected life	5.5 years	5.5 years
Expected volatility	20.92%	22.02%
Risk-free interest rate	3.58%	4.50%
Weighted average fair value of options granted	\$ 1.64	\$ 3.31

Compensation cost related to restricted stock is recognized based on the market price of the stock at the grant date over the vesting period. Compensation expense related to restricted stock was \$11,000 and \$0 for the nine months ended June 30, 2008 and 2007, respectively. The following table summarizes restricted stock awards for the nine months ended June 30, 2008:

Number of shares awarded	5,100
Market price of stock on date of grant	\$13.06

(5) Earnings Per Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. The following table sets forth the computation of basic and diluted earnings per share (amounts in thousands, except per share data):

	THICC MIO	Three Months Ended		this Ended
	Jun	June 30,		e 30,
	2008	2007	2008	2007
Numerator:				
Net Income	\$ 1,227	\$ 1,050	\$ 3,256	\$ 2,930
Denominator:				
Denominator for basic earnings per share—weighted average shares outstanding	3,024	2,987	3,013	2,981
Effect of dilutive securities:				
Employee stock options	29	63	37	68
Denominator for diluted earnings per share—weighted average shares and assumed conversions	3,053	3,050	3,050	3,049
Basic earnings per share	\$ 0.41	\$ 0.35	\$ 1.08	\$ 0.98
• .	<u> </u>			
Diluted earnings per share	\$ 0.40	\$ 0.34	\$ 1.07	\$ 0.96

Options to purchase 17,215 shares of common stock at \$10.70 per share, 19,741 shares at \$8.23, 22,896 shares at \$7.43, 53,874 shares at \$11.06, 80,198 shares at \$14.27, and 12,625 shares at \$13.06 were outstanding during the nine months ended June 30, 2008, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive. Similarly, options to purchase 18,459 shares of common stock at \$14.41 per share, 20,206 shares at \$10.70, 22,953 shares at \$8.23, 27,114 shares at \$7.43, 54,003 shares at \$11.06, and 80,635 shares at \$14.27 were outstanding during the nine months ended June 30, 2007, but were not included in the computation of diluted EPS because to do so would have been anti-dilutive.

(7) Allowance for Loan Losses

Changes in the allowance for loan losses for the nine months ended <u>June 30, 2008</u>, fiscal year ended <u>September 30, 2007</u>, and for the nine months ended <u>June 30, 2007</u> are as follows (dollar amounts in thousands):

	Nine Months Ended	Year Ended	Nine Months Ended
	June 30,	September 30,	June 30,
	<u>2008</u>	<u>2007</u>	2007
Balance at beginning of period	\$ 3,027	\$ 2,917	\$ 2,917
Provision for loan losses	740	575	425
Charge-offs	(516)	(522)	(478)
Recoveries	71	57	49
Net charge-offs	(445)	(465)	(429)
Balance at end of period	\$ 3,322	\$ 3,027	\$ 2,913

The provision for loan losses charged to expense is based upon past loan loss experience and an evaluation of probable losses in the current loan portfolio, including the evaluation of impaired loans under SFAS Nos. 114 and 118. A loan is considered to be impaired when, based upon current information and events, it is probable that the Bank will be unable to collect all amounts due according to the contractual terms of the loan. An insignificant shortfall in payments does not necessarily result in a loan being identified as impaired. For this purpose, delays less than 90 days are considered to be insignificant.

13

Impairment losses are included in the provision for loan losses. SFAS No. 114 does not apply to large groups of smaller balance, homogeneous loans that are collectively evaluated for impairment, except for those loans restructured under a troubled debt restructuring. Loans collectively evaluated for impairment include consumer loans and residential real estate loans, and are not included in the following data.

At June 30, 2008, the recorded investment in loans that are considered to be impaired under SFAS No. 114 was \$10.8 million compared to \$2.0 million at June 30, 2007. Included in the current amount is \$393,000 of impaired loans for which the related allowance for loan losses is \$114,000. Impaired loans of \$10.4 million do not have a related allowance for loan losses as a result of applying impairment tests prescribed under SFAS No. 114. The average recorded investment in impaired loans during the nine months ended June 30, 2008 was \$9.4 million compared to \$1.9 million for the same period in the prior year. The increase in the total amount of loans considered to be impaired is primarily due to four commercial real estate loans totaling \$8.1 million. For the nine months ended June 30, 2008, the Company recognized \$185,000 of interest income on impaired loans using the cash basis of income recognition. The Company recognized \$14,000 of interest income on impaired loans during the nine month period ended June 30, 2007.

(8) Derivative Instrument

During the second quarter of fiscal 2008, the Company entered into an interest rate swap to manage its exposure to interest rate risk. This interest rate swap transaction involved the exchange of the Company's floating rate interest rate payment on its \$7.5 million in floating rate preferred securities for a fixed rate interest payment without the exchange of the underlying principal amount. Entering into interest rate derivatives potentially exposes the Company to the risk of counterparties' failure to fulfill their legal obligations including, but not limited to, potential amounts due or payable under each derivative contract. Notional principal amounts are often used to express the volume of these transactions, but the amounts potentially subject to credit risk are much smaller.

This hedge relationship fails to qualify for the assumption of no ineffectiveness (short cut method) as defined by SFAS 133 paragraph 68. Therefore, consistent with the requirement of SFAS No. 133 paragraphs 28-35 and with the risk management objective of hedging the variability of expected future cash flows, the Company accounts for this hedge relationship as a cash flow hedge.

The cumulative change in fair value of the hedging derivative, to the extent that it is expected to be offset by the cumulative change in anticipated interest cash flows from the hedged exposure, will be deferred and reported as a component of other comprehensive income (OCI). Any hedge ineffectiveness will be charged to current earnings. Consistent with the risk management objective and the hedge accounting designation, management measured the degree of hedge effectiveness by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated ash flows from the hedgen derivative. Management will utilize the "Hypothetical Derivative Method" to compute the cumulative change in anticipated interest cash flows from the hedged exposure, the hedge will be deemed effective. The Company will use the Hypothetical Derivative Method to measure ineffectiveness. Under this method, the calculation of ineffectiveness, as required under paragraph 30(b)(2) of SFAS No. 133, will be done by using the change in fair value of the hypothetical derivative. That is, the swap will be recorded at fair value on the balance sheet and other comprehensive income will be adjusted to an amount that reflects the lesser of either the cumulative change in fair value of the swap or the cumulative change in the fair value of the hypothetical derivative instrument. Management will determine the ineffectiveness of the hedging relationship by comparing the cumulative change in anticipated interest cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedged exposure over the hedging period to the cumulative change in anticipated cash flows from the hedged exposure over the hedging period to the cumulat

14

The pay fixed interest rate swap <u>contract</u> outstanding at <u>June 30, 2008</u> is being utilized to hedge \$7.5 million in floating rate preferred securities. Below is a summary of the interest rate swap <u>contract</u> and the terms at <u>June 30, 2008</u>:

(*) Variable receive rate based upon contract rates in effect at June 30, 2008

(9) Comprehensive Income

In complying with Financial Accounting Standards No. 130, "Reporting Comprehensive Income," the Company has developed the following table, which includes the tax effects of the components of other comprehensive income (loss). Other comprehensive income (loss) consists of net unrealized gains (losses) on securities available for sale and derivatives that qualify as cash flow hedges. Other comprehensive income (loss) and related tax effects for the indicated periods, consists of:

(Dollars in thousands)	Three Months Ended June 30, 2008	Three Months Ended June 30, 2007

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FIDELITY BANCORP, INC. AND <u>SUBSIDIARIES</u> MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Private Securities Litigation Reform Act of 1995 contains safe harbor provisions regarding forward-looking statements. When used in this discussion, the words "believes," "anticipates," "contemplates," "expects," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks and uncertainties which could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, risks associated with the effect of integrating newly acquired businesses, the ability to control costs and expenses, and general economic conditions. The Company does not undertake to, and specifically disclaims any obligation to, update any such forward-looking statements.

Fidelity Bancorp, Inc.'s ("Fidelity" or the "Company") business is conducted principally through its wholly-owned subsidiary, Fidelity Bank PaSB, (the "Bank"). All references to the Company refer collectively to the Company and the Bank, unless the context indicates otherwise.

Critical Accounting Policies

Note 1 on pages 60 through 67 of the Company's 2007 Annual Report to Shareholders lists significant accounting policies used in the development and presentation of its financial statements. This discussion and analysis, the significant accounting policies, and other financial statement disclosures identify and address key variables and other qualitative and quantitative factors that are necessary for an understanding and evaluation of the Company and its results of operations.

The most significant estimates in the preparation of the Company's financial statements are for the allowance for loan losses, evaluation of investments for other-than-temporary impairment, and accounting for stock options. Please refer to the discussion of the allowance for loan losses in Note 7, "Allowance for Loan Losses", on pages 13 and 14 above. In addition, further discussion of the estimates used in determining the allowance for loan losses is contained in the discussion on "Provision for Loan Losses" on page 46 of the Company's 2007 Annual Report to Shareholders. At least quarterly, management reviews all securities where the market value is less than the amortized cost. Each individual security is then reviewed taking into consideration criteria such as the magnitude and duration of the decline and the reasons underlying the decline to determine if such decline in market value is other-than-temporary. If the security is deemed other than temporarily impaired it is written down to the current fair value and a corresponding charge to earnings is recognized. The Company recognized other-than-temporary impairment losses on available-for-sale securities of \$322,000 for the nine months ended June 30, 2008. Similar losses were not recognized during the nine months ended June 30, 2007. Stock based compensation expense is reported in net income utilizing the fair-value-based method set forth in SFAS No. 123R. The fair value of each option award is estimated at the date of grant using the Black-Scholes option-pricing model. Please refer to the discussion of stock based compensation in Note 4, "Stock Based Compensation", on pages 83 through 85 of the Company's 2007 Annual Report to Shareholders.

Comparison of Financial Condition

Total assets of the Company decreased \$2.7 million, or 0.4%, to \$723.8 million at June 30, 2008 from \$726.6 million at September 30, 2007. Significant changes in individual categories include decreases in net loans of \$7.1 million and in cash and cash equivalents of \$1.8 million and increases in securities available-for-sale of \$3.7 million and in other assets of \$2.0 million. The increase in securities available-for-sale is consistent with the Company's asset/liability management strategies with securities being purchased to supplement loan originations.

16

Total liabilities of the Company decreased \$1.4 million, or 0.2%, to \$678.7 million at June 30, 2008 from \$680.1 million at September 30, 2007. Significant changes include a decrease in deposits of \$10.1 million, a decrease in short-term debt of \$19.5 million, and an increase in long-term debt of \$24.8 million. The long-term debt increase was primarily attributed to the decrease in deposits. Also, the Company decided to take advantage of the lower interest rates offered on long-term debt to replace short-term borrowings consistent with asset/liability management strategies. The Bank continues to face competition for deposits from alternative sources such as the stock market and mutual funds, as well as competition from other banking institutions

Stockholders' equity decreased to \$45.2 million at June 30, 2008, compared to \$46.5 million at September 30, 2007. This result reflects common stock cash dividends paid of \$1.3 million, and an increase in the accumulated other comprehensive loss of \$3.8 million. These decreases were offset by net income for the nine month period ended June 30, 2008 of \$3.3 million, stock options exercised of \$329,000 (including tax benefit of \$27,000), stock issued under the Dividend Reinvestment Plan of \$109,000, and stock-based compensation of \$85,000. Accumulated other comprehensive loss increased from September 30, 2007 as a result of changes in the net unrealized losses on the available-for-sale securities due to the fluctuations in interest rates and bond market uncertainty during the current period, partially offset by the unrealized gain recognized on the cash flow hedge as discussed in Note 8, "Derivative Instrument", on pages 14 and 15 above. Management does not consider the unrealized losses on the available-for-sale securities at June 30, 2008, to be other-than-temporary. Because of interest rate volatility, the Company's accumulated other comprehensive loss could materially fluctuate for each interim and year-end period. Approximately \$3.4 million of the balances in retained earnings as of June 30, 2008 and September 30, 2007 represent base year bad debt deductions for tax purposes only, as they are considered restricted accumulated earnings.

Non-Performing Assets

The following table sets forth information regarding non-accrual loans and foreclosed real estate held by the Company at the dates indicated. The Company did not have any loans which were classified as troubled debt restructurings at the dates presented (dollar amounts in thousands).

	<u>2008</u>	<u>2007</u>
Non-accrual residential real estate loans (one-to-four family)	\$ 643	\$ 831
Non-accrual construction, multi-family residential and commercial real estate loans	8,446	5,628
Non-accrual installment loans	511	340
Non-accrual commercial business loans	2,220	1,947
Total non-performing loans	\$11,820	\$ 8,746
Total non-performing loans as a percent of net loans receivable	2.62%	1.91%
Total foreclosed real estate	<u>\$ 107</u>	\$ 52
Total non-performing loans and foreclosed real estate as a percent of total assets	1.65%	1.21%

Included in non-performing loans at <u>June 30, 2008</u> are thirteen single-family residential real estate loans totaling \$643,000, five commercial real estate loans totaling \$8.4 million, twenty-nine home equity and installment loans totaling \$511,000, and fifteen commercial business loans totaling \$2.2 million. Non-performing loans increased \$3.1 million to \$11.8 million at <u>June 30, 2008</u> from \$8.7 million at <u>September 30, 2007</u> primarily because of two commercial real estate loans with an aggregate balance of \$3.0 million that were placed on non-accrual, both of which we believe to be adequately collateralized.

17

At <u>June 30, 2008</u>, the <u>Company</u> had an allowance for loan losses of \$3.32 million or 0.73% of gross loans receivable, as compared to an allowance of \$3.03 million or 0.66% of gross loans receivable at <u>September 30, 2007</u>. The allowance for loan losses equals 28.1% of non-performing loans at <u>June 30, 2008</u> compared to 34.6% at <u>September 30, 2007</u>. Management believes the balance is adequate based on its analysis of quantitative and qualitative factors as of <u>June 30, 2008</u>. Management has evaluated its entire loan portfolio, including these non-performing loans, and the overall allowance for loan losses and is satisfied that the allowance for loans esses on loans at <u>June 30, 2008</u> is reasonable. See also "*Provision for Loan Losses*" on page 22. However, there can be no assurance that the allowance for loan losses is sufficient to cover possible future loan losses.

The Company recognizes that it must maintain an Allowance for Loan and Lease Losses ("ALLL") at a level that is adequate to absorb estimated credit losses associated with the loan and lease portfolio. The Company's Board of Directors has adopted an ALLL policy designed to provide management with a systematic methodology for determining and documenting the ALLL each reporting period. This methodology was developed to provide a consistent process and review procedure to ensure that the ALLL is in conformity with the Company's policies and procedures and other supervisory and regulatory guidelines.

The Company's ALLL methodology incorporates management's current judgments about the credit quality of the loan portfolio. The following factors are considered when analyzing the appropriateness of the allowance: historical loss experience; volume; type of lending conducted by the Bank; industry standards; the level and status of past due and non-performing loans; the general economic conditions in the Bank's lending area; and other factors affecting the collectibility of the loans in its portfolio. The primary elements of the Bank's methodology include portfolio segmentation and impairment measurement. Management acknowledges that this is a dynamic process and consists of factors, many of which are external and out of management's control, that can change often, rapidly and substantially. The adequacy of the ALLL is based upon estimates considering all the aforementioned factors as well as current and known circumstances and events. There is no assurance that actual portfolio losses will not be substantially different than those that were estimated.

18

Comparison of Results of Operations for the Three and Nine Months Ended June 30, 2008 and 2007

Net Income

Net income for the three and nine months ended June 30, 2008 was \$1.23 million (\$0.40 per diluted share) and \$3.26 million (\$1.07 per diluted share), respectively, compared to \$1.05 million (\$0.34 per diluted share) and \$2.93 million (\$0.96 per diluted share), respectively, for the comparable prior-year periods. Net income for the nine months ended June 30, 2007 included an extraordinary gain, net of taxes, of \$89,000, or \$0.03 per diluted share, attributable to the receipt of additional insurance proceeds from the fire at the Bank's Carnegie branch in October 2005.

Net income for the three months ended June 30, 2008 was \$1.23 million (\$0.40 per diluted share) compared to \$1.05 million (\$0.34 per diluted share) in the prior year period, an increase of \$177,000, or 16.9%. The increase in net income is attributable to an increase in net interest income of \$661,000, or 18.4%, and an increase in other income of \$57,000, or 6.4%, partially offset by an increase in the provision for loan losses of \$250,000, an increase in operating expenses of \$212,000, or 7.0%, and an increase in the provision for income taxes of \$79,000, or 25.2%.

Income before extraordinary gain for the nine months ended <u>June 30, 2008</u> was \$3.26 million (\$1.07 per diluted share) compared to \$2.84 million (\$0.93 per diluted share) in the prior year period, an increase of \$415,000, or 14.6%. The increase in income before extraordinary gain is primarily attributable to an increase in net interest income of \$1.53 million, or 14.4%, partially offset by a decrease in other income of \$168,000, or 6.5%, an increase in the provision for loan losses of \$315,000, an increase in operating expenses of \$391,000, or 4.2%, and an increase in provision for income taxes of \$242,000, or 31.9%.

19

Interest Rate Spread

The Company's interest rate spread, the difference between average yields calculated on a tax-equivalent basis on interest-earning assets and the average cost of funds, increased to 2.40% (annualized) in the three months ended June 30, 2008 from 2.03% (annualized) in the same period in 2007. The Company's tax-equivalent interest rate spread increased to 2.30% (annualized) in the nine months ended June 30, 2008 from 1.99% (annualized) in the same period in fiscal 2007. The increase in both periods is the result of the average rate paid on interest-bearing liabilities decreasing more than the average yield on interest-earning assets. The following table shows the average yields earned on the Company's interest-earning assets and the average rates paid on its interest-bearing liabilities for the periods indicated, the resulting interest rate spreads, and the net yields on interest-earning assets.

	Three Montl		Nine Montl June	
	2008	2007	2008	2007
Average yield on:				
Mortgage loans	5.97%	6.14%	6.03%	6.11%
Mortgage-backed securities	4.48	4.39	4.44	4.40
Installment loans	6.24	6.43	6.40	6.41
Commercial business loans and leases	6.30	7.65	6.83	7.61
Interest-earning deposits with other institutions, investment securities, and FHLB stock (1)	5.10	5.49	5.36	5.55
Total interest-earning assets	5.63	5.90	5.78	5.88
Average rates paid on:				
Deposits	2.61	3.24	2.89	3.17
Borrowed funds	4.26	4.96	4.47	5.02
Total interest-bearing liabilities	3.23	3.87	3.48	3.89
Average interest rate spread	2.40%	2.03%	2.30%	1.99%
Net yield on interest-earning assets	2.52%	2.16%	2.42%	2.13%

¹⁾ Interest income on tax-exempt investments has been adjusted for federal income tax purposes using a rate of 34%.

Interest Income

Interest on loans decreased \$324,000 or 4.5% to \$6.95 million for the three months ended June 30, 2008, compared to \$7.27 million in the same period in 2007. Interest on loans decreased \$40,000 or 0.2% to \$21.43 million for the nine months ended June 30, 2008, compared to \$21.47 million in the same period in 2007. The decrease for the three month period ended June 30, 2008 reflects a decrease in the average loan balance outstanding during 2008 as well as a decrease in the average yield earned on the loan portfolio. The decrease for the nine month period ended June 30, 2008 reflects an increase in the average loan balance outstanding during 2008, partially offset by a decrease in the average yield earned on the loan portfolio.

Interest on mortgage-backed securities increased \$83,000 or 8.3% to \$1.09 million for the three month period ended June 30, 2008, compared to \$1.01 million in the same period in 2007. Interest on mortgage-backed securities decreased \$136,000 or 4.3% to \$3.01 million for the nine months ended June 30, 2008, compared to the same period in 2007. The increase for the three month period ended June 30, 2008 reflects an increase in the average balance of mortgage-backed securities owned as well as an increase in the average yield earned on the portfolio. The decrease for the nine month period ended June 30, 2008 reflects a decrease in the average balance of mortgage-backed securities owned, partially offset by a slight increase in the average yield earned on the portfolio.

20

Interest on interest-bearing demand deposits with other institutions and investment securities (non-tax equivalent) decreased \$166,000 or 8.9% to \$1.69 million for the three months ended June 30, 2008, as compared to \$1.86 million in the same period in 2007. Interest on interest-bearing demand deposits with other institutions and investment securities (non-tax equivalent) decreased \$404,000 or 6.9% to \$5.46 million for the nine months ended June 30, 2008, as compared to the same period in 2007. The decrease for both periods reflects a decrease in the average balance of investment securities in the portfolio as well as a decrease in the yield earned on these investments.

Interest Expense

Interest on deposits decreased \$681,000 or 19.8% to \$2.75 million for the three month period ended June 30, 2008, as compared to \$3.43 million during the same period in 2007. Interest on deposits decreased \$712,000 or 7.2% to \$9.17 million for the nine month period ended June 30, 2008, as compared to the same period in 2007. The decrease for the three month period ended June 30, 2008 reflects a decrease in the average balance of deposits as well as a decrease in the average cost of the deposits. The decrease for the nine month period ended June 30, 2008 reflects a decrease in the average cost of the deposits partially offset by an increase in the average balance of deposits.

Interest on securities sold under agreement to repurchase, including retail, term, and wholesale structured borrowings, increased \$95,000 or 8.5% to \$1.21 million for the three month period ended June 30, 2008, as compared to \$1.11 million in the same period in 2007. Interest on securities sold under agreement to repurchase increased \$472,000 or 15.4% to \$3.54 million for the nine month period ended June 30, 2008, as compared to the same period in 2007. The increase for both periods reflects a higher level of average securities sold under agreement to repurchase, partially offset by a decrease in the cost of these funds. The Bank had \$95 million and \$85 million of wholesale structured borrowings outstanding at June 30, 2008 and 2007, respectively.

Interest on short-term borrowings, including Federal Home Loan Bank ("FHLB") "RepoPlus" advances, FHLB revolving line of credit, federal funds purchased, and treasury, tax and loan notes, decreased \$296,000 or 84.1% to \$56,000 for the three month period ended June 30, 2008, as compared to \$352,000 in the same period in 2007. Interest on short-term borrowings decreased \$1.41 million or 67.4% to \$683,000 for the nine month period ended June 30, 2008, as compared to the same period in 2007. The decrease for both periods reflects a decrease in the average balance of these borrowings as well as a decrease in the average cost of these borrowings.

Interest on long-term debt, including FHLB fixed rate advances and "Convertible Select" advances, decreased \$56,000 or 4.0% to \$1.35 million for the three months ended June 30, 2008 as compared to \$1.40 million in the same period in 2007. Interest on long-term debt decreased \$115,000 or 2.8% to \$3.97 million for the nine months ended June 30, 2008 as compared to the same period in 2007. The decrease for both periods reflects a decrease in the average cost of the debt, partially offset by an increase in the average balance of the debt.

Interest on subordinated debt decreased \$152,000 or 65.2% to \$81,000 for the three months ended June 30, 2008, as compared to \$233,000 in the same period in 2007. Interest on subordinated debt decreased \$358,000 or 51.7% to \$335,000 for the nine months ended June 30, 2008, as compared to the same period in 2007. The decrease for both periods reflects a decrease in the average balance as well as a decrease in the average cost of these floating-rate debentures. On September 20, 2007, the Company issued \$7,500,000 of Floating Rate Preferred Securities at a rate equal to three-month LIBOR plus 1.36% and on September 26, 2007 the Company called its \$10,000,000 of Floating Rate Preferred Securities which bore an interest rate of three-month LIBOR plus 3.40%.

Interest on swap contracts was \$22,000 and \$11,000 for the three and nine months ended June 30, 2008, respectively. The Company did not have any interest rate swap contracts outstanding during the three and nine months ended June 30, 2007. As mentioned in Note (8) above, the Company entered into an interest rate swap during the second quarter of fiscal 2008. The interest rate swap transaction involved the exchange of the interest payment obligation on \$7.5 million in the Company's Floating Rate Preferred Securities for a fixed rate interest payment without the exchange of the underlying principal amount.

21

Net Interest Income

The Company's net interest income increased \$661,000 or 18.4% to \$4.26 million, for the three month period ended June 30, 2008, as compared to \$3.60 million in the same period in 2007. The Company's net interest income increased \$1.53 million or 14.4% to \$12.18 million, for the nine months ended June 30, 2008, as compared to the same period in 2007. The increase for the three month period ended June 30, 2008 is attributable to an increase in the interest rate spread, partially offset by a slight decrease in net interest-earning assets. The increase for the nine month period ended June 30, 2008 is attributable to an increase in both the interest rate spread and net interest-earning assets.

Provision for Loan Losses

The provision for loan losses increased to \$350,000 for the three month period ended June 30, 2008, as compared to \$100,000 for the same period in 2007. The provision for loan losses was \$740,000 for the nine months ended June 30, 2008 compared to \$425,000 for the nine months ended June 30, 2007. At June 30, 2008, the allowance for loan losses increased to \$3.32 million from \$3.03 million at September 30, 2007. Net loan charge-offs were \$229,000 for the three months ended June 30, 2008 as compared to net loan charge-offs of \$33,000 for the three months ended June 30, 2007. Net loan charge-offs were \$445,000 and \$429,000 for the nine months ended June 30, 2008 and 2007, respectively.

The provision for loan losses is charged to operations to bring the total allowance for loan losses to a level that represents management's best estimates of the losses inherent in the portfolio based on a monthly review by management of factors such as historical experience, volume, type of lending conducted by the Bank, industry standards, the level and status of past due and non-performing loans, the general economic conditions in the Bank's lending area, and other factors affecting the collectibility of the loans in its portfolio.

The allowance for loan losses is maintained at a level that represents management's best estimates of losses in the loan portfolio at the balance sheet date. However, there can be no assurance that the allowance for loan losses will be adequate to cover losses which may be realized in the future and that additional provisions for losses will not be required.

Other Income

Total non-interest or other income increased \$57,000 or 6.4% to \$954,000 and decreased \$168,000 or 6.5% to \$2.43 million for the three and nine month periods ended June 30, 2008, respectively, as compared to the same periods in 2007. The increase for the three month period ended June 30, 2008 is primarily attributed to an increase in loan service charges and fees, an increase in gains on sales of loans, an increase in deposit service charges and fees, and an increase in ATM fees, partially offset by a decrease in realized gains on sales of securities, a decrease in non-insured investment product income. The decrease for the nine month period ended June 30, 2008 is primarily attributed to a \$322,000 impairment charge taken on a security in its investment portfolio, a decrease in the realized gains on sales of securities, a decrease in non-insured investment product income, and a decrease in other income, partially offset by an increase in loan service charges and fees, an increase in gains on sales of loans, an increase in deposit service charges and fees, and an increase in ATM fees.

Loan service charges and fees, which includes late charges on loans and other miscellaneous loan fees, increased \$56,000 or 53.3% to \$161,000, and increased \$131,000 or 50.8% to \$389,000 for the three and nine month periods ended June 30, 2008, respectively, as compared to the same periods in 2007. The increase for both periods is primarily attributed to an increase in late charges collected on residential mortgage loans and commercial loans, an increase in transaction fees collected on lines of credit, an increase in miscellaneous fees collected on residential mortgage loans and an increase in title insurance fees.

Net realized gains on the sales of securities were \$0 and \$7,000 for the three and nine month periods ended June 30, 2008 respectively, as compared to realized gains of \$32,000 and \$126,000 in the same periods in fiscal 2007. Such sales were made from the available-for-sale portfolio as part of management's asset/liability management strategies.

22

The Company recorded an other-than-temporary impairment charge of \$322,000 on its investment in a mutual fund during the nine month period ended June 30, 2008. The net asset value of the AMF Ultra Short Mortgage Fund, which invests in mortgage-related securities, had declined as the result of continuing uncertainty in spreads in the bond market for mortgage-related securities. At the time the unrealized loss was deemed to be other-than-temporary, the cost basis of the investment was \$11.2 million, while the market value of the investment was \$10.9 million. The Company did not recognize any other-than-temporary impairment losses on investments during the three month period ended June 30, 2008 and the three and nine month periods ended June 30, 2007.

Gains on the sales of loans were \$71,000 and \$127,000 for the three and nine month periods ended June 30, 2008, respectively, as compared to gains of \$38,000 and \$69,000 for the same periods in fiscal 2007. The nine month period ended June 30, 2008 results reflect the sale of approximately \$11.6 million of fixed-rate, single-family mortgage loans, compared to \$5.6 million of similar loan sales during the prior fiscal period.

Deposit service charges and fees increased \$35,000 or 10.7% to \$363,000, and increased \$153,000 or 16.4% to \$1.09 million for the three and nine month periods ended <u>June 30, 2008</u>, respectively, as compared to the same periods in 2007. The increase for both periods is primarily attributed to an increase in the volume of fees collected for returned checks on deposit accounts.

Automated teller machine (ATM) fees were \$184,000 and \$529,000 for the three and nine month periods ended <u>June 30, 2008</u>, respectively, as compared to \$150,000 and \$436,000 for the same periods in 2007. The increase for both periods is primarily attributed to an increase in the interchange fees earned on debit card transactions.

Non-insured investment product income was \$40,000 and \$186,000 for the three and nine month periods ended <u>June 30, 2008</u>, respectively, as compared to \$114,000 and \$317,000 for the same periods in 2007. The decrease for both periods is primarily attributed to a decrease in the commissions earned on the sales of these products due to lower volumes of sales.

Other income increased slightly to \$135,000 for the three month period ended June 30, 2008, as compared to \$130,000 for the same period in 2007. Other income decreased \$31,000 or 6.8% to \$427,000 for the nine month period ended June 30, 2008, as compared to the same period in 2007. The decrease for the nine month period ended June 30, 2008 is primarily attributed to a reduction in the recoveries collected on a loss related to a check kiting fraud discovered in March 2005 attributable to one business customer. The recoveries collected for the nine months ended June 30, 2008 were \$28,000, as compared to \$63,000 for the nine months ended June 30, 2007.

Operating Expenses

Total operating expenses for the three month period ended June 30, 2008 increased to \$3.25 million, as compared to \$3.04 million for the same period in 2007. Total operating expenses for the nine month period ended June 30, 2008 totaled \$9.62 million compared to \$9.23 million for the same period in 2007. The increase for the three month period ended June 30, 2008 is primarily attributed to an increase in compensation and benefits expense, an increase in office occupancy and equipment expense, an increase in service bureau expense, and an increase in other operating expense, partially offset by a decrease in depreciation and amortization expense, a decrease in the loss on the sales of foreclosed real estate, and a decrease in foreclosed real estate expense. The increase for the nine month period ended June 30, 2008 is primarily attributed to an increase in compensation and benefits expense, an increase in professional fees expense, an increase in other operating expense, partially offset by a decrease in office occupancy and equipment expense, a decrease in depreciation and amortization expense, and a decrease in the loss on sales of foreclosed real estate.

23

Compensation and benefits expense was \$2.09 million for the three month period ended June 30, 2008, as compared to \$1.97 million for the same period in 2007. Compensation and benefits expense was \$6.13 million for the nine month period ended June 30, 2008 compared to \$5.97 million for the same period in 2007. The increase for the three month period ended June 30, 2008 is primarily attributed to normal salary increases for employees, an increase in retirement expense, and an increase in training expense. The increase for the nine month period ended June 30, 2008 is primarily attributed to normal salary increases for employees, an increase in directors' fees, and an increase in training expense, partially offset by lower health insurance expense and lower miscellaneous personnel expenses.

Office occupancy and equipment expense was \$250,000 for the three month period ended June 30, 2008, as compared to \$230,000 for the same period in 2007. Office occupancy and equipment expense was \$772,000 for the nine month period ended June 30, 2008, as compared to \$808,000 for the same period in 2007. The increase for the three month period ended June 30, 2008 is primarily attributed to an increase in rent expense and office repairs and maintenance expense. The decrease for the nine month period ended June 30, 2008 is primarily attributed to a decrease in equipment expense associated with converting its data processing operations to an outsourced service bureau environment in February 2007, partially offset by an increase in rent expense and office repairs and maintenance expense.

Depreciation and amortization expense was \$141,000 for the three month period ended June 30, 2008, as compared to \$163,000 for the same period in 2007. Depreciation and amortization expense was \$433,000 for the nine month period ended June 30, 2008, as compared to \$478,000 for the same period in 2007. The decrease is primarily attributed to equipment becoming fully depreciated, partially offset by depreciation on additions in the current period.

Losses on the sales of foreclosed real estate were \$16,000 for the three month period ended <u>June 30, 2008</u>, as compared to losses of \$27,000 for the same period in 2007. Losses on the sales of foreclosed real estate were \$21,000 for the nine month period ended <u>June 30, 2008</u>, as compared to losses of \$81,000 for the same period in 2007. Foreclosed real estate expense was \$5,000 and \$28,000 for the three and nine month periods ended <u>June 30, 2008</u>, respectively, as compared to \$28,000 and \$41,000 for the same periods in 2007. The results reflect the costs associated with the holding and disposition of properties, including writedowns during the periods. At <u>June 30, 2008</u>, foreclosed real estate consisted of four single-family residential properties.

Professional fees were \$76,000 for the three month period ended <u>June 30, 2008</u>, relatively unchanged as compared to \$75,000 for the same period in 2007. Professional fees increased to \$325,000 for the nine month period ended <u>June 30, 2008</u>, as compared to \$220,000 for the same period in 2007. The increase for the nine month period ended <u>June 30, 2008</u> is primarily attributed to an increase in legal and audit fees.

Service bureau expense was \$93,000 for the three month period ended June 30, 2008, as compared to \$44,000 for the same period in 2007. Service bureau expense was \$236,000 and \$100,000, for the nine month periods ended June 30, 2008 and 2007, respectively. In February 2007, the Bank converted its data processing operations from an in-house environment to an outsourced service bureau environment, which primarily contributed to the increase. Furthermore, the Bank received a discount on service bureau fees for the first year of outsourcing, thus also contributing to the increases in the current fiscal periods. The service bureau environment has reduced compensation expense and office occupancy and equipment expense.

Other operating expenses were \$470,000 for the three month period ended June 30, 2008 compared to \$397,000 for the same period in 2007. Other operating expenses were \$1.35 million for the nine month period ended June 30, 2008 compared to \$1.22 million for the same period in 2007. The increase for the three month period ended June 30, 2008 is due primarily to an increase in bad check and ATM charge offs, an increase in internet banking fees, an increase in charitable contribution expense, and an increase in ATM expenses. The increase for the nine month period ended June 30, 2008 is due primarily to an increase in bank service charge expense, an increase in bad check and ATM charge offs, an increase in internet banking fees, and an increase in ATM expenses, partially offset by a decrease in consulting fees.

24

Income Taxes

Total income tax expense for the three month period ended June 30, 2008 was \$393,000, as compared to \$314,000 for the same 2007 period. The effective tax rates for the three month periods ended June 30, 2008 and 2007 were approximately 24.3% and 23.0%, respectively. The increase in the effective tax rate is primarily due to higher earnings combined with lower levels of tax-exempt income in the current year period. Total income tax expense for the nine month period ended June 30, 2008 was \$1.0 million, as compared to \$758,000 for the same 2007 period. The effective tax rates for the nine month periods ended June 30, 2008 and 2007 were approximately 23.5% and 21.1%, respectively. Tax-exempt income earned on certain numicipal investments that qualify for state and/or federal income tax exemption; income earned by the Bank's Delaware subsidiary, which is not subject to state income tax; and earnings on Bank-owned life insurance policies, which are exempt from federal taxation. State and federal tax-exempt income for the three month period ended June 30, 2008 was \$1.9 million and \$394,000, respectively, compared to \$2.1 million and \$377,000, respectively, for the three month period ended June 30, 2007. State and federal tax-exempt income for the nine month period ended June 30, 2007.

Capital Requirements

The Federal Reserve Board measures capital adequacy for bank holding companies on the basis of a risk-based capital framework and a leverage ratio. The guidelines include the concept of Tier 1 capital and total capital. Tier 1 capital is essentially common equity, excluding net unrealized gains (losses) on securities available-for-sale, goodwill, and cash flow hedges, plus certain types of preferred stock, including the Preferred Securities issued by FB Statutory Trust III in 2007. The Preferred Securities may comprise up to 25% of the Company's Tier 1 capital. Total capital includes Tier 1 capital and other forms of capital such as the allowance for loan losses, subject to limitations, and subordinated debt. The guidelines establish a minimum standard risk-based target ratio of 8%, of which at least 4% must be in the form of Tier 1 capital. At June 30, 2008, the Company had Tier 1 capital as a percentage of risk-weighted assets of 11.28% and total risk-based capital as a percentage of risk-weighted assets of 11.97%.

In addition, the Federal Reserve Board has established minimum leverage ratio guidelines for bank holding companies. These guidelines currently provide for a minimum ratio of Tier 1 capital as a percentage of average total assets (the "Leverage Ratio") of 3% for bank holding companies that meet certain criteria, including that they maintain the highest regulatory rating. All other bank holding companies are required to maintain a Leverage Ratio of at least 4% or be subject to prompt corrective action by the Federal Reserve. At June 30, 2008, the Company had a leverage ratio of 7.43%.

The FDIC has issued regulations that require insured institutions, such as the Bank, to maintain minimum levels of capital. In general, current regulations require a leverage ratio of Tier 1 capital to average total assets of not less than 3% for the most highly rated institutions and an additional 1% to 2% for all other institutions. At <u>June 30, 2008</u>, the Bank complied with the minimum leverage ratio having Tier 1 capital of 6.68% of average total assets, as defined.

The Bank is also required to maintain a ratio of qualifying total capital to risk-weighted assets and off-balance sheet items of a minimum of 8%. At June 30, 2008, the Bank's total capital to risk-weighted assets ratio calculated under the FDIC capital requirement was 10.93%.

Liquidit

The Company's primary sources of funds have historically consisted of deposits, repurchase agreements, amortization and prepayments of outstanding loans, borrowings from the FHLB of Pittsburgh and other sources, including sales of securities and, to a limited extent, loans. At June 30, 2008, the total of approved loan commitments amounted to \$2.4 million. In addition, the Company had \$16.6 million of undisbursed loan funds at that date. The amount of savings certificates which mature during the next twelve months totals approximately \$141.1 million, a substantial portion of which management believes, on the basis of prior experience as well as its competitive pricing strategy, will remain in the Company.

Off Balance Sheet Commitments

The Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheet.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

A summary of the contractual amount of the Company's financial instrument commitments is as follows:

	2000		2007
		(in thous ands)	
Commitments to grant loans	\$ 2,437	\$	11,962
Unfunded commitments under lines of credit	62,884		51,947
Financial and performance standby letters of credit	1,611		651

The Company does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit written are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Generally, all letters of credit, when issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending other loan commitments. The Bank requires collateral supporting these letters of credit as deemed necessary. Management believes that the proceeds obtained through a liquidation of such collateral would be sufficient to cover the maximum potential amount of future payments required under the corresponding guarantees. The current amount of liability as of June 30, 2008 for guarantees under standby letters of credit issued is not material.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not Applicable

Item 4T. Controls and Procedures

The Company's management evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

26

Part II - Other Information

Item 1. Legal Proceedings

The Company is not involved in any pending legal proceedings other than non-material legal proceedings undertaken in the ordinary course of business.

Item 1A. Risk Factors

Not Applicable

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no unregistered sales of equity securities during the quarter ended June 30, 2008.

On October 19, 2005, the Company announced a stock repurchase plan for up to 5% of shares outstanding, or 147,000 shares. On October 18, 2006, and October 17, 2007, twelve-month extensions of the plan were announced. There were no repurchases of common stock during the three month period ended June 30, 2008. As of June 30, 2008, there were 116,110 shares remaining under the repurchase program.
