PART I

ITEM 1. BUSINESS

State Street Corporation is a financial holding company, organized in 1970 under the laws of the Commonwealth of Massachusetts. Through its subsidiaries, including its principal banking subsidiary, State Street Bank and Trust Company, State Street Corporation provides a full range of products and services for institutional investors worldwide. All references in this Form 10-K to "the parent company" are to State Street Corporation. Unless otherwise indicated or unless the context requires otherwise, all references in this Form 10-K to "State Street," "we," "us," "our" or similar terms mean State Street Corporation and its subsidiaries on a consolidated basis. State Street Bank and Trust Company is referred to as "State Street Bank." The parent company is a legal entity separate and distinct from its subsidiaries, assisting those subsidiaries by providing financial resources and management. At December 31, 2007, we had consolidated total assets of \$142.54 billion, consolidated total deposits of \$95.79 billion, consolidated total shareholders' equity of \$11.30 billion and employed 27,110. Our executive offices are located at One Lincoln Street, Boston, Massachusetts 02111 (telephone (617) 786-3000).

We make available, without charge, on or through our Internet website at www.statestreet.com all reports we electronically file with, or furnish to, the Securities and Exchange Commission, including our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as any amendments to those reports, as soon as reasonably practicable after those documents have been filed with, or furnished to, the SEC. These documents are also accessible on the SEC's website at www.sec.gov. We have included the website addresses of State Street and the SEC as inactive textual references only. Except as may be specifically incorporated by reference into this Form 10-K, information on those websites is not part of this Form 10-K.

We have adopted Corporate Governance Guidelines, as well as written charters for the Executive Committee, the Examining and Audit Committee, the Executive Compensation Committee, and the Nominating and Corporate Governance Committee of our Board of Directors, and a Code of Ethics for Senior Financial Officers, a Standard of Conduct for Directors, and a Standard of Conduct for our employees. Each of these documents is posted on our website, and each is available in print to any shareholder who requests it by writing to the Office of the Secretary, State Street Corporation, One Lincoln Street, Boston, Massachusetts 02111.

GENERAL

We conduct our business primarily through our principal banking subsidiary, State Street Bank, which traces its beginnings to the founding of the Union Bank in 1792. State Street Bank's current charter was authorized by a special act of the Massachusetts Legislature in 1891, and its present name was adopted in 1960. With \$15.30 trillion of assets under custody and \$1.98 trillion of assets under management at year-end 2007, we are a leading specialist in meeting the needs of institutional investors worldwide. Our customers include mutual funds and other collective investment funds, corporate and public retirement plans, insurance companies, foundations, endowments and other investment pools, and investment managers. Including the United States, we operate in 26 countries and more than 100 geographic markets worldwide.

For a discussion of our business activities, refer to the "Lines of Business" section that follows. For information about our management of capital, liquidity, market risk, including interest-rate risk, and other risks inherent in our businesses, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations included under Item 7, and Risk Factors, under Item 1A, of this Form 10-K. Financial information with respect to our non-U.S. activities is included in note 23 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

In July 2007, we completed our acquisition of Investors Financial Services Corp., a bank holding company based in Boston, Massachusetts, with approximately \$17 billion in total assets and approximately \$1.9 trillion in assets under custody. We acquired Investors Financial in order to enhance our position as a worldwide service provider to institutional investors. Additional information about this acquisition is included in note 2 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

LINES OF BUSINESS

We report two lines of business: Investment Servicing and Investment Management. These two lines of business provide services to support institutional investors, including custody, recordkeeping, daily pricing and administration, shareholder services, foreign exchange, brokerage and other trading services, securities finance, deposit and short-term investment facilities, loan and lease financing, investment manager and hedge fund manager operations outsourcing, performance, risk and compliance analytics, investment research and investment management, including passive and active U.S. and non-U.S. equity and fixed income strategies. For additional information about our lines of business, see the "Line of Business Information" section of Management's Discussion and Analysis included under Item 7, and note 22 of the Notes to Consolidated Financial Statements included under Item 8, of this Form 10-K.

COMPETITION

We operate in a highly competitive environment in all areas of our business worldwide. We face competition from other financial services institutions, deposit-taking institutions, investment management firms, insurance companies, mutual funds, broker/dealers, investment banking firms, benefits consultants, leasing companies, and business service and software companies. As we expand globally, we encounter additional sources of competition.

We believe that there are certain key competitive considerations in these markets. These considerations include, for investment servicing, quality of service, economies of scale, technological expertise, quality and scope of sales and marketing, and price; and for investment management, expertise, experience, the availability of related service offerings, and price.

Our competitive success will depend upon our ability to develop and market new and innovative services, to adopt or develop new technologies, to bring new services to market in a timely fashion at competitive prices, to continue and expand our relationships with existing customers and to attract new customers.

SUPERVISION AND REGULATION

We are registered with the Board of Governors of the Federal Reserve System, which we refer to as the Federal Reserve Board, as a bank holding company pursuant to the Bank Holding Company Act of 1956, as amended. The Bank Holding Company Act, with certain exceptions, limits the activities in which we and our non-bank subsidiaries may engage, to those that the Federal Reserve Board considers to be closely related to banking or managing or controlling banks. These limits also apply to non-bank companies of which we own or control more than 5% of a class of voting shares. The Federal Reserve Board may order a bank holding company to terminate any activity or its ownership or control of a non-bank subsidiary if the Federal Reserve Board finds that such activity, ownership or control constitutes a serious risk to the financial safety, soundness or stability of a bank subsidiary or is inconsistent with sound banking principles or statutory purposes. In the opinion of management, all of our present subsidiaries operate within the statutory standard or are otherwise permissible. The Bank Holding Company Act also requires a bank holding company to obtain prior approval of the Federal

Reserve Board before it may acquire substantially all the assets of any bank or ownership or control of more than 5% of the voting shares of any bank.

The parent company operates as a financial holding company, which reduces to some extent the Federal Reserve Board's restrictions on our activities. A financial holding company and the companies under its control are permitted to engage in activities considered "financial in nature" as defined by the Gramm-Leach-Bliley Act and Federal Reserve Board interpretations, and therefore may engage in a broader range of activities than permitted for bank holding companies and their subsidiaries. Financial holding companies may engage directly or indirectly in activities considered financial in nature, either *de novo* or by acquisition, provided the financial holding company gives the Federal Reserve Board after-the-fact notice of the new activities. Activities defined to be financial in nature include, but are not limited to, the following: providing financial or investment advice; underwriting; dealing in or making markets in securities; merchant banking, subject to significant limitations; and any activities previously found by the Federal Reserve Board to be closely related to banking. In order to maintain status as a financial holding company, each of a bank holding company's depository subsidiaries must be well capitalized and well managed, as judged by regulators, and must comply with Community Reinvestment Act obligations. Failure to maintain such standards may ultimately permit the Federal Reserve Board to take certain enforcement actions against such company.

Many aspects of our business are subject to regulation by other U.S. federal and state governmental and regulatory agencies and self-regulatory organizations (including securities exchanges), and by non-U.S. governmental and regulatory agencies and self-regulatory organizations. Aspects of our public disclosure, corporate governance principles and internal control systems are subject to the Sarbanes-Oxley Act of 2002 and regulations and rules of the SEC and the New York Stock Exchange.

Capital Adequacy

Like other bank holding companies, we are subject to Federal Reserve Board minimum risk-based capital and leverage ratio guidelines. As noted above, our status as a financial holding company also requires that we maintain certain capital ratio levels. State Street Bank is subject to similar risk-based capital and leverage ratio guidelines. As of December 31, 2007, our capital levels on a consolidated basis, and the capital levels of State Street Bank, exceeded the applicable minimum capital requirements and the requirements to qualify as a financial holding company. Failure to meet capital requirements could subject us to a variety of enforcement actions, including the termination of deposit insurance of State Street Bank by the Federal Deposit Insurance Corporation, and to certain restrictions on our business that are described further in this "Supervision and Regulation" section.

For additional information about our capital position and capital adequacy, refer to the "Capital" section of Management's Discussion and Analysis included under Item 7, and note 14 of the Notes to Consolidated Financial Statements included under Item 8, of this Form 10-K.

Subsidiaries

The Federal Reserve Board is the primary federal banking agency responsible for regulating us and our subsidiaries, including State Street Bank, for both our U.S. and non-U.S. operations.

Our bank subsidiaries are subject to supervision and examination by various regulatory authorities. State Street Bank is a member of the Federal Reserve System and the FDIC and is subject to applicable federal and state banking laws and to supervision and examination by the Federal Reserve Bank of Boston, as well as by the Massachusetts Commissioner of Banks, the FDIC, and the regulatory authorities of those countries in which a branch of State Street Bank is located. Other subsidiary trust companies are subject to supervision and examination by the Office of the Comptroller of the Currency, other offices of the Federal Reserve System or by the appropriate state banking regulatory authorities of the states in which they are located. Our non-U.S. bank subsidiaries are subject to

regulation by the regulatory authorities of the countries in which they are located. As of December 31, 2007, the capital of each of these banking subsidiaries was in excess of the minimum legal capital requirements as set by those authorities.

The parent company and its non-bank subsidiaries are affiliates of State Street Bank under federal banking laws, which impose certain restrictions on transfers of funds in the form of loans, extensions of credit, investments or asset purchases from State Street Bank to the parent and its non-bank subsidiaries. Transfers of this kind to affiliates by State Street Bank are limited with respect to each affiliate to 10% of State Street Bank's capital and surplus, as defined, and to 20% in the aggregate for all affiliates, and are subject to certain collateral requirements. As a bank holding company, the parent company and its subsidiaries are prohibited from engaging in certain tie-in arrangements in connection with any extension of credit or lease or sale of property or furnishing of services. Federal law also provides that certain transactions with affiliates must be on terms and under circumstances, including credit standards, that are substantially the same or at least as favorable to the institution as those prevailing at the time for comparable transactions involving other non-affiliated companies or, in the absence of comparable transactions, on terms and under circumstances, including credit standards, that in good faith would be offered to, or would apply to, non-affiliated companies. The Federal Reserve Board has jurisdiction to regulate the terms of certain debt issues of bank holding companies. Federal law provides as well for a depositor preference on amounts realized from the liquidation or other resolution of any depository institution insured by the FDIC.

Our investment management division, State Street Global Advisors, or "SSgA," which acts as an investment advisor to investment companies registered under the Investment Company Act of 1940, is registered as an investment adviser with the SEC. However, a major portion of our investment management activities are conducted by State Street Bank, which is subject to supervision primarily by the Federal Reserve Board and the SEC with respect to these activities. Our U.S. broker/dealer subsidiary is registered as a broker/dealer with the SEC, is subject to regulation by the SEC (including the SEC's net capital rule) and is a member of the Financial Industry Regulatory Authority, a self-regulatory organization. Many aspects of our investment management activities are subject to federal and state laws and regulations primarily intended to benefit the investment holder. These laws and regulations generally grant supervisory agencies and bodies broad administrative powers, including the power to limit or restrict us from carrying on our investment management activities in the event that we fail to comply with such laws and regulations, and examination authority. Our business relating to investment management and trusteeship of collective trust funds and separate accounts offered to employee benefit plans is subject to ERISA and is regulated by the U.S. Department of Labor.

Our businesses, including our investment management and securities and futures businesses, are also regulated extensively by non-U.S. governments, securities exchanges, self-regulatory organizations, central banks and regulatory bodies, especially in those jurisdictions in which we maintain an office. For instance, the Financial Services Authority, the London Stock Exchange, and the Euronext.liffe regulate activities in the United Kingdom; the Deutsche Borse AG and the Federal Financial Supervisory Authority regulate activities in Germany; and the Financial Services Agency, the Bank of Japan, the Japanese Securities Dealers Association and several Japanese securities and futures exchanges, including the Tokyo Stock Exchange, regulate activities in Japan. We have established policies, procedures, and systems designed to comply with these requirements. However, as a global financial services institution, we face complexity and costs in our worldwide compliance efforts.

Most of our non-U.S. operations are conducted pursuant to Federal Reserve Board Regulation K through State Street Bank's Edge Act corporation subsidiary or through international branches of State Street Bank. An Edge Act corporation is a corporation organized under federal law that conducts foreign business activities. In general, banks may not invest more than 20% of their capital and surplus in their Edge Act corporations (and similar state law corporations), and the investment of any amount in excess of 10% of capital and surplus requires the prior approval of the Federal Reserve Board

(which approval is generally valid for a 12-month period). State Street Bank periodically applies to the Federal Reserve Board to invest in excess of 10% of its capital and surplus in its Edge Act corporation, and State Street Bank currently has approval to continue investing a dollar amount up to the equivalent of 18% of its capital and surplus.

In addition to non-U.S. operations conducted pursuant to Regulation K, we make new investments abroad directly (through the parent company or through non-bank subsidiaries of the parent company) pursuant to Federal Reserve Board Regulation Y, or through international bank branch expansion, which are not subject to the 20% investment limitation for Edge Act corporation subsidiaries. We cannot predict with certainty what the future impact of the Regulation K investment limitation may be, but in light of available alternatives, we do not believe the limitation will materially limit our ability to expand internationally.

We are subject to the USA PATRIOT Act of 2001, which contains anti-money laundering and financial transparency laws and requires implementation of regulations applicable to financial services companies, including standards for verifying client identification and monitoring client transactions and detecting and reporting suspicious activities. Anti-money laundering laws outside the U.S. contain similar requirements.

We are also subject to the Massachusetts bank holding company statute. The Massachusetts statute requires prior approval by the Massachusetts Board of Bank Incorporation for our acquisition of more than 5% of the voting shares of any additional bank and for other forms of bank acquisitions.

Support of Subsidiary Banks

Under Federal Reserve Board guidelines, a bank holding company is required to act as a source of financial and managerial strength to its bank subsidiaries. Under these guidelines, the parent company is expected to commit resources to State Street Bank and any other bank subsidiary in circumstances in which it might not do so absent such guidelines. In the event of our bankruptcy, any commitment by the parent company to a federal bank regulatory agency to maintain the capital of a bank subsidiary will be assumed by the bankruptcy trustee and will be entitled to a priority payment.

ECONOMIC CONDITIONS AND GOVERNMENT POLICIES

Economic policies of the U.S. government and its agencies influence our operating environment. Monetary policy conducted by the Federal Reserve Board directly affects the level of interest rates, which may impact overall credit conditions of the economy. Monetary policy is applied by the Federal Reserve Board through open market operations in U.S. government securities, changes in reserve requirements for depository institutions, and changes in the discount rate and availability of borrowing from the Federal Reserve. Government regulation of banks and bank holding companies is intended primarily for the protection of depositors of the banks, rather than for the shareholders of the institutions. We are also impacted by the economic policies of non-U.S. government agencies, such as the European Central Bank.

STATISTICAL DISCLOSURE BY BANK HOLDING COMPANIES

The following information, provided under Items 6, 7 and 8 of this Form 10-K, is incorporated by reference herein:

"Selected Financial Data" table (Item 6)—presents return on average common equity, return on average assets, common dividend payout and equity-to-assets ratios.

"Distribution of Average Assets, Liabilities and Shareholders' Equity; Interest Rates and Interest Differential" table (Item 8)—presents average balance sheet amounts, related fully taxable-equivalent interest earned or paid, related average yields and rates paid and changes in fully taxable-equivalent

interest revenue and expense for each major category of interest-earning assets and interest-bearing liabilities.

Note 3, "Investment Securities," of the Notes to Consolidated Financial Statements (Item 8) and "Investment Securities" section included in Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7)—disclose information regarding book values, market values, maturities and weighted average yields of securities (by category).

Note 1, "Summary of Significant Accounting Policies—Loans and Lease Financing" of the Notes to Consolidated Financial Statements (Item 8)—discloses our policy for placing loans and leases on non-accrual status.

Note 4, "Loans and Lease Financing," of the Notes to Consolidated Financial Statements (Item 8) and "Loans and Lease Financing" section included in Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7)—disclose distribution of loans, loan maturities and sensitivities of loans to changes in interest rates.

"Loans and Lease Financing" and "Cross-Border Outstandings" sections of Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7)—disclose information regarding cross-border outstandings and other loan concentrations of State Street.

"Credit Risk" section of Management's Discussion and Analysis of Financial Condition and Results of Operations (Item 7) and note 4, "Loans and Lease Financing," of the Notes to Consolidated Financial Statements (Item 8)—present the allocation of the allowance for loan losses, and a description of factors which influenced management's judgment in determining amounts of additions or reductions to the allowance charged or credited to results of operations.

"Distribution of Average Assets, Liabilities and Shareholders' Equity; Interest Rates and Interest Differential" table (Item 8)—discloses deposit information.

Note 8, "Short-Term Borrowings," of the Notes to Consolidated Financial Statements (Item 8)—discloses information regarding short-term borrowings of State Street.

ITEM 1A. RISK FACTORS

This Form 10-K contains statements (including, without limitation, statements in Management's Discussion and Analysis of Financial Condition and Results of Operations, included in this Form 10-K under Item 7) that are considered "forward-looking statements" within the meaning of U.S. federal securities laws. In addition, State Street and its management may make other written or oral communications from time to time that contain forward-looking statements. Forward-looking statements, including statements as to industry trends, management's future expectations and other matters that do not relate strictly to historical facts, are based on assumptions by management, and are often identified by such forward-looking terminology as "expect," "look," "believe," "anticipate," "estimate," "seek," "may," "will," "trend," "target" and "goal," or similar statements or variations of such terms. Forward-looking statements may include, among other things, statements about State Street's confidence in its strategies and its expectations about financial performance, market growth, acquisitions and divestitures, new technologies, services and opportunities, and earnings.

Forward-looking statements are subject to various risks and uncertainties, which change over time, and are based on management's expectations and assumptions at the time the statements are made and are not guarantees of future results. These expectations and assumptions, and the continued validity of the forward-looking statements, are subject to change due to a broad range of factors affecting the national and global economies, the equity, debt, currency and other financial markets, and factors specific to State Street and its subsidiaries, including State Street Bank. Factors that could cause

changes in the expectations or assumptions on which forward-looking statements are based include, but are not limited to:

- our ability to integrate and convert acquisitions into our business, including the acquisition of Investors Financial Services Corp.;
- the level and volatility of interest rates, particularly in the U.S. and Europe; the performance and volatility of securities, currency and other markets in the U.S. and internationally; and economic conditions and monetary and other governmental actions designed to address those conditions;
- the liquidity of the U.S. and European securities and currency markets, particularly the markets for fixed income securities, including asset-backed commercial paper, and the liquidity requirements of our customers;
- the credit quality and credit agency ratings of the securities in our investment securities portfolio, a deterioration or downgrade of which could lead to other-than-temporary impairment of the respective securities and the recognition of an impairment loss;
- our ability to attract non-interest bearing deposits and other low-cost funds;
- the results of litigation and similar disputes and, in particular, the effect that current or potential litigation may have on the reputation of SSgA and its ability to attract and retain customers;
- the possibility that the ultimate costs of the legal exposure associated with certain of SSgA's actively managed fixed-income strategies may exceed or be below the level of the related reserve, in view of the uncertainties of the timing and outcome of litigation, and the amounts involved; and the possibility of further developments of the nature giving rise to the legal exposure associated with SSgA's actively managed fixed-income and other investment strategies;
- the performance and demand for the products and services we offer;
- the competitive environment in which we operate;
- the enactment of legislation and changes in regulation and enforcement that impact us and our customers, as well as the effects of legal and regulatory proceedings, including litigation;
- our ability to continue to grow revenue, control expenses and attract the capital necessary to achieve our business goals and comply with regulatory requirements;
- our ability to manage systemic risks and control operating risks;
- our ability to obtain quality and timely services from third parties with which we contract;
- trends in the globalization of investment activity and the growth on a worldwide basis in financial assets;
- trends in governmental and corporate pension plans and savings rates;
- changes in accounting standards and practices, including changes in the interpretation of existing standards, that impact our consolidated financial statements; and
- changes in tax legislation and in the interpretation of existing tax laws by U.S. and non-U.S. tax authorities that impact the amount of taxes due.

Forward-looking statements should not be viewed as predictions, and should not be the primary basis upon which investors evaluate State Street. Any investor in State Street should consider all risks and uncertainties disclosed in this Form 10-K and in our other SEC filings, including our reports on Form 10-Q and Form 8-K, which are accessible on the SEC's website at www.sec.gov or on our website at www.statestreet.com.

Actual outcomes and results may differ materially from what is expressed in our forward-looking statements and from our historical financial results due to the factors discussed in this Risk Factors section and elsewhere in this Form 10-K or disclosed in our other SEC filings, and forward-looking statements should not be relied upon as representing our expectations or beliefs as of any date subsequent to the date this Form 10-K is filed with the SEC. State Street undertakes no obligation to revise the forward-looking statements contained in this Form 10-K to reflect events after the date it is filed with the SEC. The factors discussed above and below are not intended to be a complete summary of all risks and uncertainties that may affect our businesses. Though we strive to monitor and mitigate risk, we cannot anticipate all potential economic, operational and financial developments that may adversely impact our operations and our financial results.

Business Conditions/Economic Risk

Our businesses are affected by global economic conditions, political uncertainties and volatility and other developments in the financial markets. Factors such as interest rates and commodities prices, regional and international rates of economic growth, inflation, political instability, the liquidity and volatility of fixed-income, equity, credit, currency, derivative and other financial markets, and investor confidence can significantly affect the financial markets in which we and our customers are engaged. Such factors have affected, and may further unfavorably affect, both regional and worldwide economic growth, creating adverse effects on many companies, including us, in ways that are not predictable or that we may fail to anticipate.

A significant market downturn may lead to a decline in the value of assets under management and custody, which would reduce our asset-based fee revenue and the value of securities we hold in our investment portfolio, and may adversely impact other transaction-based revenue, such as securities finance revenue, and the volume of transactions that we execute for our customers. The assets held by our asset-backed commercial paper conduits can be similarly affected. In addition, lower market volatility, even in a generally rising market environment, may reduce trading volumes of our customers, and our ability to achieve attractive spreads, which could lead to lower trading revenues. Our revenues, particularly our trading revenues, may increase or decrease depending upon the extent of increases or decreases in cross-border investments made by our customers. The level of cross-border activity can be influenced by a number of factors, including geopolitical instabilities and customer mix. General market downturns would also likely lead to a decline in the volume of transactions we execute on behalf of our customers, decreasing our fee and revenue opportunities and reducing the level of assets under management and custody. Market performance and volatility may also influence the revenue that we receive from off-balance sheet activities. A widening of credit spreads or credit deterioration could cause some or all off-balance sheet assets and liabilities to be consolidated onto our balance sheet.

In addition, revenues during a calendar year, driven by the products and services we provide, can fluctuate commensurate with the normal course of business activity of our customers, typically resulting in stronger revenues in the second and fourth quarters and relatively weaker revenues in the first and third quarters.

In recent years, investment manager and hedge fund manager operations outsourcing and non-U.S. asset servicing have been areas of rapid growth in our business. If the demand for these types of services were to decline, we could see a slowing in the growth rate of our revenue.

Strategic/Competition Risk

We expect the markets in which we operate to remain both highly competitive and global across all facets of our business, resulting in increases in both regional and global competitive risks. We have experienced, and anticipate that we will continue to experience, pricing pressure in many of our core businesses. Many of our businesses compete with other domestic and international banks and financial

services companies, such as custody banks, investment advisors, broker/dealers, outsourcing companies and data processing companies. Many of our competitors, including our competitors in core services, have substantially greater capital resources. In some of our businesses, we are service providers to significant competitors. These competitors are in some instances significant customers, and the retention of these customers involves additional risks, such as the avoidance of actual or perceived conflicts of interest and the maintenance of high levels of service quality. The ability of a competitor to offer comparable or improved products or services at a lower price would likely negatively affect our ability to maintain or increase our profitability. Many of our core services are subject to contracts that have relatively short terms or may be terminated by our customer after a short-notice period. In addition, pricing pressures as a result of the activities of competitors, customer pricing reviews, and rebids, as well as the introduction of new products, may result in a reduction in the prices we can charge for our products and services.

Acquisitions of complementary businesses and technologies, development of strategic alliances and divestitures of portions of our business, in addition to fostering organic growth opportunities, are an active part of our overall business strategy to remain competitive. We may not be able to effectively assimilate services, technologies, key personnel or businesses of acquired companies into our business or service offerings, alliances may not be successful, and related revenue growth or cost savings may not be achieved. In addition, we may not be able to successfully manage the divestiture of identified businesses on satisfactory terms, if at all, and this would reduce anticipated benefits to earnings. Ongoing consolidation within the financial services industry could pose challenges in the markets we serve.

Acquisitions present risks that differ from the risks associated with our ongoing operations. Our financial results for 2008 and for the next few years may be significantly impacted by our ability to achieve the cost savings and other benefits that we anticipate as a result of the acquisition of Investors Financial in 2007, as well as our ability to retain its customer base and to successfully cross-sell our products and services to its customers. These cost savings and customer retention goals will be significantly influenced by our ability to convert former Investor Financial customers onto State Street systems in a timely manner and to maintain the level of customer service such customers received from Investors Financial. Future acquisitions may present similar integration, cost savings and customer retention challenges.

Intellectual property of an acquired business, such as Currenex, Inc. in 2007, may be an important component of the value that we agree to pay for such a business; however, these types of acquisitions entail the risk that the acquired business does not own the intellectual property that we believe we are acquiring, that the intellectual property is dependent upon licenses from third parties, that the acquired business infringes upon the intellectual property rights of others, or that the technology does not have the acceptance in the marketplace that we anticipated. Acquisitions of investment servicing businesses such as Investors Financial normally entail information technology systems conversions, which involve operational risks and may result in customer dissatisfaction and defection. Customers of businesses that we acquire, including, in the case of Investors Financial, its largest customer, are competitors of our non-custody businesses. The loss of some of these customers or a significant reduction in revenues generated from them, for competitive or other reasons, would adversely affect the benefits that we expect to achieve from the acquisition.

Our ability to acquire other entities that provide our core services to achieve greater economies of scale or to expand our product offering is dependent upon our financial resources and ability to access the capital markets. Due to company-specific issues or lack of liquidity in the capital markets, our ability to continue to expand through acquisitions or to dispose of businesses that no longer are strategic to us may be adversely affected.

In connection with most acquisitions, before the acquisition can be completed, we must obtain various regulatory approvals or consents, which approvals may include the Federal Reserve Board, the Massachusetts Commissioner of Banks and other domestic and foreign regulatory authorities. These regulatory authorities may impose conditions on the completion of the acquisition or require changes to its terms. Although we would not enter into a transaction anticipating materially adverse regulatory conditions, such conditions may be imposed, or we may experience regulatory delays, that could limit the benefits of the transaction.

With any acquisition, the integration of the operations and resources of the two businesses could result in the loss of key employees, the disruption of our and the acquired company's ongoing businesses, or inconsistencies in standards, controls, procedures and policies that could adversely affect our ability to maintain relationships with customers, and employees or to achieve the anticipated benefits of the acquisition. Integration efforts may also divert management attention and resources. Where we acquire a business and combine it with our operations, we are also exposed to risks from unknown or contingent liabilities with respect to which we may have no recourse against the seller. While we normally seek to mitigate that risk through pre-acquisition due diligence, increasingly acquisition transactions are competitive auctions in which we have limited time and access to information to evaluate the risks inherent in the business being acquired, and no or limited recourse against the seller if undisclosed liabilities are discovered after we enter into a definitive agreement.

We may not achieve the benefits we sought in an acquisition, or, if achieved, those benefits may come later than we anticipated. Failure to achieve anticipated benefits from an acquisition could result in increased costs and lower revenues than expected of the combined company. In addition, if the financial performance associated with an acquisition falls short of expectations, it may result in impairment charges associated with the intangible assets reported as part of the acquisition.

Our financial performance depends, in part, on our ability to develop and market new and innovative services and to adopt or develop new technologies that differentiate our products or provide cost efficiencies, while avoiding increased related expenses. The risks we face include rapid technological change in the industry, our ability to access technical and other information from our customers, and the significant and ongoing investments required to bring new products and services to market in a timely fashion at competitive prices. Our proactive cross selling of multiple products and services to our customers can exacerbate the negative financial effects associated with the risk of loss of any one customer. Developments in the securities processing industry, including shortened settlement cycles and straight-through processing, have required continued internal procedural enhancements and further technology investment.

Our strategy for growth depends upon both attracting new customers and cross selling additional products and services to our existing customer base. To the extent that we are not able to achieve these goals, we may not be able to attain our financial goals. Substantial risks and uncertainties are associated with the introduction of new products and services, including technical and control requirements that may need to be developed and implemented to offer such products while also managing associated risks. The introduction of new products and services can also entail significant time and resources. Regulatory and internal control requirements, capital requirements, competitive alternatives and shifting market preferences may also determine if such initiatives can be brought to market in a manner that is timely and attractive to our customers. Failure to successfully manage these risks in the development and implementation of new products or services could have a material adverse effect on our business, as well as our results of operations and financial condition.

Liquidity Risk and Management

Liquidity management is critical to the management of our consolidated balance sheet and to our ability to service our customer base. In managing our consolidated balance sheet, our primary source of

funding is customer deposits. Our deposits are predominantly short-term, transaction-based deposits by institutional investors. Our ability to continue to attract these deposits, and other funding sources such as certificates of deposit and commercial paper, is subject to variability based upon a number of factors, including volume and volatility in the global securities markets, our credit rating and the relative interest rates that we are prepared to pay for these liabilities.

In managing our consolidated balance sheet, we also depend on access to global capital markets to provide us with sufficient capital resources and liquidity to meet our commitments and business needs, and to accommodate the transaction and cash management needs of our customers. Other sources of funding available to us, and upon which we rely as regular components of our liquidity risk management strategy, include inter-bank borrowings, repurchase agreements and borrowings from the Federal Reserve discount window, or comparable non-U.S. central banking sources. Any occurrence that may limit our access to the capital markets, such as a decline in the confidence of our corporate debt or equity purchasers, or a downgrade of our debt rating, may adversely affect our capital costs and our ability to raise capital and, in turn, our liquidity. Similarly, the failure to maintain an acceptable credit rating on our obligations may preclude us from being competitive in certain products. General market disruptions, natural disasters or operational problems may affect either third parties or us, and can also have an adverse effect on our liquidity.

We generally use our sources of funds to invest in a portfolio of investment securities and to maintain the liquidity necessary to extend credit to our customers. These funds are invested in a variety of assets ranging from short-term interest-bearing deposits with banks to longer-maturity investment securities. While we have historically maintained our investment portfolio at a relatively short duration with respect to interest-rate risk, the average maturity of the investment portfolio is significantly longer than the contractual maturity of our deposit base. In addition, as part of our custody business, we provide overdraft financing to our customers, and liquidity lines to third-party commercial paper conduits and mutual funds, as well as more traditional extensions of credit. The demand for credit is difficult to forecast and control, and may be at its peak at times of dislocation in the securities markets, potentially compounding liquidity issues.

In a period of financial disruption, or if negative developments occurred with respect to State Street, the availability and cost of our funding sources could be adversely affected. In that event, our cost of funds may increase, thereby reducing our net interest revenue, or we may need to dispose of a portion of our investment portfolio, which, depending upon market conditions, could result in our realizing a loss or experiencing other adverse accounting consequences upon those dispositions. Our efforts to monitor and manage liquidity risk may not be successful or sufficient to deal with dramatic or unanticipated changes in the global securities markets or other State Street or market event-driven reductions in liquidity.

In our business activities, we assume liquidity and interest-rate risk in managing longer-term assets or asset pools for third parties that are funded on a short-term basis, or where the customers participating in these products may have a right to the return of cash or assets on limited notice. These business activities include, among others, the unconsolidated asset-backed commercial paper conduits managed by our Structured Products group, securities finance collateral pools and money market and other short-term investment funds. In the commercial paper conduits, for example, pools of medium- and long-term financial instruments, principally mortgage- and other asset-backed securities, are financed through the issuance of short-term commercial paper. The conduits strive to maintain a positive margin between the rate of return on their longer-term assets and the short-term cost of funding. This mismatch in the maturity of the investment pools and funding creates risk if disruptions occur in the liquidity of the short-term debt or asset-backed securities markets, or if the cost of short-term borrowings exceeds the conduits' rate of return on their investment pools or purchased assets.

In connection with the administration of the activities of the commercial paper conduits, we provide contractual back-up liquidity to the conduits if they cannot meet their liquidity needs through the issuance of commercial paper. Other institutions can and do provide liquidity to the conduits. In the event that maturing commercial paper cannot be placed by the conduits, the liquidity providers are required by contract to, among other things, provide liquidity to the conduits by purchasing portfolio assets from them. We may also provide liquidity by purchasing commercial paper or providing other extensions of credit to the conduits.

Beginning in the third quarter of 2007, asset-backed commercial paper conduits, including those sponsored by State Street, experienced significantly less liquidity and higher borrowing costs in the global fixed-income securities markets, and in a few cases, required liquidity support from their sponsoring bank. The fixed-income markets remain significantly disrupted, and the potential for decreased liquidity, increased funding costs and adverse asset valuations remains a material risk. We on occasion have purchased, and during the third and fourth quarters of 2007 did purchase, commercial paper from the conduits, the purchase of which we recorded in our consolidated balance sheet. We may continue to do so in the future. These purchases of commercial paper were funded from our general liquidity, and the liquidity agreements were not drawn.

The conduits are not recorded in our consolidated financial statements. However, if circumstances change we may be required, under existing accounting standards, to consolidate the conduits onto our consolidated balance sheet. For example, if changes in market conditions require us to update the assumptions in our expected loss model, we may be required to increase the amount of first-loss notes in order for the investors in the first-loss notes to continue to be considered the primary beneficiaries of the conduits. In various circumstances, including if the conduits are not able to issue additional first-loss notes or take other actions, we may be determined to be the primary beneficiary of the conduits, and we would be required to consolidate the conduits' assets and liabilities onto our consolidated balance sheet. Existing accounting standards may be changed or interpreted differently in the future in a manner that increases the risk of consolidation of the conduits.

Consolidation, or the purchase of assets of the conduits pursuant to the contractual agreements described above, could affect the size of our consolidated balance sheet and related funding requirements, our financial and regulatory capital ratios and, if the conduit assets include unrealized losses, could require us to recognize those losses. Because of our contractual agreements to purchase assets from the conduits under specified conditions, we are also exposed to the credit risks in the conduits' portfolios.

Other of our business activities that involve managing pools of assets that are funded in the short-term markets and invested in longer-term markets include managing securities finance collateral pools and money market and other short-term investment funds. These businesses involve similar risks inherent in an arbitrage of funding and investment; however, in these businesses, we primarily act as agent and do not have the direct principal risk. For example, if a collateral pool or a money market fund that we manage were to have unexpected liquidity demands from investors in the pool that exceeded available liquidity, the investment pool would be required to sell assets to meet those redemption requirements. During periods of disruption in the credit markets, it may be difficult to sell the assets held by these pools at a reasonable price. In those circumstances, the financial loss accrues to the pools' investors and not to us.

Similarly, credit risks inherent in these portfolios are attributable to the investors in the investment pools and not to State Street. These investment pools may have significant exposure to individual credits. The incurrence of substantive losses in these pools, particularly in money market funds, could result in significant harm to our reputation and significantly and adversely affect the prospects of our associated business units. In some circumstances, we may seek to mitigate that risk by compensating the investment pools for all or a portion of such losses even if not contractually obligated to do so;

however, that would potentially result in the recognition of significant losses or a greater use of capital than we have available. Certain accounts managed by SSgA are managed in accordance with specific investment guidelines and have the benefit of contractual arrangements with third-party financial institutions that allow the accounts to issue and redeem units based upon the book value of such units rather than market value. The third-party financial institutions have an obligation to fund any shortfall after all the units have been redeemed at book value. Several of these accounts were significantly impacted by the volatility in the fixed-income markets in the second half of 2007. The continued willingness of these financial institutions to partner with us in these products may be negatively impacted if the variance between book and market value and other risk metrics fall or remain below the financial institutions' internal risk standards.

We used a portion of the reserve announced on January 3, 2008 to reduce the differences between the book and market value of these accounts. This cash infusion was intended to reduce the difference between market and book values of these accounts to levels that are within the risk tolerance of such third-party financial institutions. If the third-party financial institutions are or become unwilling to continue to partner with us, our business may be adversely affected. There can be no assurance that these and other costs associated with our legal exposures resulting from SSgA's active fixed income strategies will not exceed the reserve we have established.

Investment, operational and other decisions and actions, often made to achieve scale and other benefits, are implemented over multiple investment pools as applicable, increasing the opportunity for losses, even small losses, to have a significant effect. To mitigate these risks to the investment pools, we seek to prudently manage the duration and credit exposure of the pools, to satisfy large liquidity demands by the in-kind delivery of securities held by the pools and to closely monitor liquidity demand from investors; however, market conditions or increased defaults could result in our inability to effectively manage those risks. To some degree, all of our investment management pools hold potential risks to our reputation and business prospects if the asset pools that we manage have higher than anticipated redemption or other liquidity requirements and the pools incur losses to meet such demands.

Other parts of our business where we primarily act as agent, such as other investment management activities of SSgA and certain of State Street Global Markets' business units, do not currently have significant liquidity requirements; however, as we develop new products in response to customer demand and to remain competitive in a dynamic marketplace, we could take on more principal risk in these businesses. Any increase in the extent to which these or other businesses assume principal positions would increase the risks associated with our liquidity management strategy.

The disruption in the global fixed-income securities markets beginning in the third quarter of 2007 has had a substantially greater impact upon liquidity and valuations in those markets than has historically been experienced. Because demand from investors for fixed-income products has markedly decreased and dealers have been less prepared to take principal exposures, funding sources, such as the commercial paper markets for conduits, have been less reliable and more expensive. At the same time, the ability of the markets to absorb the sale of large portfolios of certain types of securities has been substantially impaired. These conditions have also led to greater difficulty in accurately valuing portfolio positions. These market conditions have made the management of our own and our clients' liquidity significantly more challenging. As discussed above, the risks to State Street inherent in its management of liquidity are significant, and a further deterioration in the credit markets could adversely affect our consolidated financial position, including our regulatory capital ratios, and could adversely affect our results of operations and our business prospects in the future.

Reputational Risk

Our relationship with many of our customers is predicated upon our reputation as a fiduciary and a service provider that adheres to the highest standards of ethics, service quality and regulatory compliance. Adverse publicity, regulatory actions, litigation, operational failures, the failure to meet client expectations and other issues could materially and adversely affect our reputation and our ability to retain and attract customers. Preserving and enhancing our reputation depends not only in maintaining systems and procedures that address known risks and regulatory requirements, but also our ability to identify and mitigate additional risks that arise due to changes in our businesses and the marketplaces in which we operate, the regulatory environment, and customer expectations. If any of these developments, including our recently announced customer concerns related to certain SSgA active fixed income strategies, has a material effect on our reputation, our business will suffer.

Credit Risk

Our focus on large institutional investors and their businesses requires that we assume credit and counterparty risk, both on- and off-balance sheet, in a variety of forms. We may experience significant intra- and inter-day credit exposure through settlement-related extensions of credit. From time to time, we may assume concentrated credit risk at the individual obligor, counterparty, guarantor, industry and/or country level, thereby potentially exposing us to a single market or political event or a correlated set of events. The credit quality of our on- and off-balance sheet exposures may be affected by many factors, such as economic and business conditions or deterioration in the financial condition of an individual counterparty, group of counterparties or asset classes. If a significant economic downturn occurs in either a country or a region, or we experience the failure of a significant individual counterparty, we could incur financial losses that could adversely affect our earnings.

Financial Markets Risk

As asset values in worldwide financial markets increase or decrease, our opportunities to invest in and service financial assets change. Given that a portion of our fees is based on the value of assets under custody and management, fluctuations in the valuation of worldwide securities markets will affect revenue. Many of the costs of providing our services are relatively fixed; therefore, a decline in revenue could have a disproportionate effect on our earnings. In addition, if investment performance in our asset management business fails to meet either benchmarks or the performance of our competitors, we could experience a decline in assets under management and a reduction in the fees that we earn, irrespective of economic or market conditions.

We have increased the portion of our management fee revenue that is generated from enhanced index and actively managed products, with respect to which we generally receive higher fees compared to passive products. We may not be able to continue to increase this segment of our business at the same rate that we have achieved in the past few years. The amount of assets in active fixed-income strategies, for example, has been adversely impacted in 2007. In addition, with respect to certain of our enhanced index and actively managed products, we have entered into performance fee arrangements, where the management fee revenue we earn is based on the performance of managed funds against specified benchmarks. The reliance on performance fees increases the potential volatility of our management fee revenue.

Financial markets trading businesses, as well as our asset and liability management activities, are also subject to market risks. Adverse movements in levels and volatilities of financial markets could cause losses that may affect our consolidated results of operations and financial condition. In addition, changes in investor and rating agency perceptions regarding certain asset classes or structures can also affect volatility, liquidity and market prices, which, in turn, can lead to losses. The degree of volatility in foreign exchange rates can affect our foreign exchange trading revenue. In general, we benefit from

currency volatility, although it can increase risk. Foreign exchange revenue, all other things being equal, is likely to decrease during times of decreased currency volatility. In addition, as our business grows globally, our exposure to changes in foreign currency exchange rates could affect our levels of revenue, expense and earnings, as well as the value of our investment in our non-U.S. operations.

Interest Rate Risk

State Street's financial performance could be unfavorably affected by changes in interest rates as they impact our asset and liability management process. The levels of global market interest rates, the shape of these yield curves (changes in the relationship between short- and long-term interest rates), the direction and speed of interest rate changes, and the asset and liability spreads relative to the currency and geographic mix of our interest-earning assets and interest-bearing liabilities, affect our net interest revenue. Our ability to anticipate these changes and/or to hedge the related exposures on and off our balance sheet can significantly influence the success of our asset and liability management process and the resulting level of our net interest revenue. The impact of changes in interest rates will depend on the relative durations of assets and liabilities in accordance with their relevant currencies. In general, sustained lower interest rates, a flat or inverted yield curve and narrow interest-rate spreads have a constraining effect on our net interest revenue.

Operational Risk

Operational risk is inherent in all of State Street's activities. Our customers have a broad array of complex and specialized servicing, confidentiality and fiduciary requirements. We have established policies, procedures and systems designed to comply with these regulatory and operational risk requirements. We also face the potential for loss resulting from inadequate or failed internal processes, employee supervisory or monitoring mechanisms, or other systems or controls, and from external events, which could materially affect our future results of operations. We may also be subject to disruptions from events that are wholly or partially beyond our control, which could cause delays or disruptions to operational functions, including information processing and financial market settlement functions. In addition, our customers, vendors and counterparties could suffer from such events. Should these events affect us, or the customers, vendors or counterparties with which we conduct business, our results of operations could be negatively affected.

Our success depends, in large part, on our ability to attract and retain key people. Competition for the best people in most activities in which we engage can be intense, and we may not be able to hire people or retain them. The unexpected loss of services of one or more of our key personnel could have a material adverse impact on our business because of their skills, their knowledge of our markets, their years of industry experience, and, in some cases, the difficulty of promptly finding qualified replacement personnel. Similarly, the loss of key portfolio management staff, either individually or as a group, can adversely impact customer perception of SSgA's ability to continue to manage certain types of investment management mandates. In some of our businesses, we have experienced significant employee turnover, which increases costs, requires additional training and increases the potential for operational risks.

We enter into long-term fixed-price contracts to provide middle office or investment manager and hedge fund manager operations outsourcing services to customers, services related but not limited to certain trading activities, cash reporting, settlement and reconciliation activities, collateral management and information technology development. These long-term contracts require considerable up-front investment by us, including technology and conversion costs, and carry the risk that pricing for the products and services we provide might not prove adequate to generate expected operating margins over the term of the contracts. Profitability of these contracts is largely a function of our ability to accurately calculate pricing for our services and our ability to control our costs and maintain the relationship with the customer for an adequate period of time to recover our up-front investment.

Performance risk exists in each contract, given our dependence on successful conversion and implementation onto our own operating platforms of the service activities provided. In addition, our failure to meet specified service levels may adversely affect our revenue from such arrangements, or permit early termination of the contracts by the customer.

We actively strive to achieve significant cost savings by shifting certain business processes to lower-cost geographic locations, while continuing to maintain service quality, control and effective management of risks within these business operations. This transition to a true "shared services" operational model focuses on certain core service offerings, including middle- and back-office reconciliations, securities processing and transfer agency activities. We have employed various structural arrangements to achieve these goals, including establishing operations in lower cost areas, such as Eastern Europe, India and China, forming joint ventures in India and China and outsourcing to vendors in various jurisdictions. The increased elements of risk that arise from conducting certain operating processes in some jurisdictions could lead to an increase in reputational risk. During periods of transition, greater operational risk and client concern exists regarding the continuity of a high level of service delivery. The extent and pace at which we are able to move functions to lower-cost locations may also be impacted by regulatory and customer acceptance issues. Such relocation of functions also entails costs, such as technology and real estate expenses, that partially offset the financial benefits of the lower-cost locations.

Our businesses depend on an information technology infrastructure to record and process a large volume of increasingly complex transactions, in many currencies, on a daily basis, across numerous and diverse markets. Any interruptions, delays and/or breakdowns of this infrastructure can result in significant costs. As a result, we continue to invest significantly in this infrastructure. Our businesses and our relationship with customers, are dependent upon our ability to maintain the confidentiality of our and our customers' trade secrets and confidential information (including personal data of their customers). A failure of our security measures in such regard could have a material adverse impact on our competitive position, relationship with customers and reputation. To the extent that we are not able to protect our intellectual property through patents or other means, we are also exposed to the risk that employees with knowledge of such intellectual property may leave and seek to exploit our intellectual property for their own advantage.

Litigation Risks

From time to time, our customers may make claims and take legal action relating to our performance of fiduciary or contractual responsibilities. If such claims and legal actions are not resolved in a manner favorable to us, such claims may result in financial liability to State Street and/or adversely affect the market perception of us and our products and services, and could impact customer demand for our products and services. We record balance sheet reserves for probable loss contingencies, including litigation and operational losses. However, we cannot always accurately estimate our ultimate exposure. As a result, any reserves we establish to cover any settlements, judgments or operational losses may not be sufficient to cover our actual financial exposure. Any underestimation or overestimation could have a material impact on our consolidated financial condition or results of operations.

In connection with certain of SSgA's active fixed-income strategies, we established a reserve to cover legal exposure and related costs in connection with such strategies as of December 31, 2007. Among other things, the portfolio managers for certain actively managed fixed-income strategies materially increased the exposure of these strategies to securities backed by sub-prime mortgages and shifted the weighting of these portfolios to more highly rated sub-prime instruments. During the third quarter of 2007, as the liquidity and valuations of these securities, including the more highly rated instruments, came under increased pressure, the performance of these strategies was adversely affected, in some cases significantly. The underperformance, which was greater than that typically associated with

fixed-income funds, also caused a number of our customers to question whether the execution of these strategies was consistent with their investment intent. This has resulted in several civil suits, including putative class action claims. These lawsuits allege, among other things, that we failed to comply with our standard of care in managing these active funds as a fiduciary under ERISA. We have also received inquiries from regulatory authorities regarding SSgA's active fixed-income strategies. Given our desire to fully respond to customer concerns, following the end of the third quarter of 2007, State Street undertook a further review of all the actively managed fixed-income strategies at SSgA that were exposed to sub-prime investments. Based on our review and on-going discussions with customers who were invested in these strategies, we established the reserve to address our estimated legal exposure.

The reserve was established based upon our best judgment as to legal exposures and related costs associated with the active fixed-income investments. As of December 31, 2007, we had entered into settlement agreements with aggregate total payments of \$16 million. We believe that our reserve will be adequate to accommodate the potential exposure relating to SSgA's active fixed-income strategies. The amount of the reserve is based on certain assumptions. While we believe the reserve represents a reasonable estimate of our legal exposure and other costs associated with these issues, we do not believe that it is feasible to predict or determine the amount of such exposure with certainty. As such, it is possible that we have overestimated or underestimated our exposure. If the amount of our actual exposure is materially different from our reserve, there would be a material impact on our financial condition and results of operations.

To determine whether the issues that arose within the active fixed-income area are limited to SSgA's active fixed-income strategies, we are conducting, with the assistance of third-party consultants, a systematic review of the operational, risk and compliance infrastructure, procedures and resources across SSgA's entire product line. This review has only recently begun and no conclusions or recommendations have resulted from that review as of the date of this filing. While we do not believe that such review will identify material legal or regulatory exposures, there can be no assurance as to the conclusions of such review.

Regulatory/Legal/Accounting/Tax Risk

Most of our businesses are subject to extensive regulation, and many of the customers to which we provide services are themselves subject to a broad range of regulatory requirements. These regulations may affect the manner and terms of delivery of our services. As a financial institution with substantial international operations, we are subject to extensive regulatory and supervisory oversight, both in the United States and overseas in connection with our global operations. Our businesses are subject to stringent regulation and examination by U.S. federal and state governmental and regulatory agencies, including the Federal Reserve, the SEC and the Massachusetts Commissioner of Banks, and self-regulatory organizations (including securities exchanges), and by non-U.S. governmental and regulatory agencies and self-regulatory organizations. The regulations affect, among other things, the scope of our activities and customer services, our capital structure and our ability to fund the operations of our subsidiaries, our lending practices, our dividend policy and the manner in which we market our services. Evolving regulations, such as the new Basel II capital framework and anti-money laundering regulations, can require significant effort on our part to ensure compliance. New or modified regulations and related regulatory guidance may have unforeseen or unintended adverse effects on the financial services industry.

If we do not comply with governmental regulations, we may be subject to fines, penalties or material restrictions on our businesses in the jurisdiction where the violation occurred, which may adversely affect our business operations and, in turn, our financial results. Similarly, many of our customers are subject to significant regulatory requirements, and retain our services in order for us to assist them in complying with those legal requirements. Changes in these regulations can significantly affect the services that we are asked to provide, as well as our costs. If we cause customers to fail to

comply with these regulatory requirements, we may be liable to them for losses and expenses that they incur. In addition, adverse publicity and damage to our reputation arising from the failure or perceived failure to comply with legal, regulatory or contractual requirements could affect our ability to attract and retain customers or to maintain access to capital markets, or could result in enforcement actions, fines, penalties and lawsuits. In recent years, regulatory oversight and enforcement have increased substantially, imposing additional costs and increasing the potential risks associated with our operations. If this regulatory trend continues, it could adversely affect our operations and, in turn, our financial results.

New accounting requirements, or changes in the interpretation of existing accounting requirements, by the Financial Accounting Standards Board or the SEC, can potentially affect our consolidated financial condition and results of operations, as accounting rules in the United States and other jurisdictions consistently evolve to reflect the increasing complexities of business. These changes are very difficult to predict, and can materially impact how we record and report our financial condition and results of operations and other financial information. In some cases, we could be required to apply a new or revised standard retroactively, resulting in the revised treatment of certain transactions or activities, and, in some cases, the restatement of prior period financial statements.

Our businesses can be affected by new tax legislation or the interpretation of existing tax laws worldwide. Changes in tax laws may affect our business directly or indirectly through their impact on the financial markets. In the normal course of business, we are subject to reviews by U.S. and non-U.S. tax authorities. These reviews may result in adjustments to the timing or amount of taxes due and the allocation of taxable income among tax jurisdictions. These adjustments could affect the attainment of our financial goals.

Risk Management

We seek to monitor and manage risk on a corporate basis and within specific business units. The types of risk that we monitor and seek to manage include operational risk, interest rate risk, trading risk, fiduciary risk, legal and compliance risk, liquidity risk and credit risk. We have adopted various policies, procedures and systems to monitor and manage risk. There can be no assurance that those policies, procedures or systems are adequate to identify and mitigate all risks inherent in our various business. In addition, our businesses and the markets in which we operate are continuously evolving. We may fail to fully understand the implications of changes in our business or the financial markets and fail to adequately or timely enhance our risk framework to address those changes. If our risk framework is ineffective, either because it fails to keep pace with changes in the financial markets or our business or for other reasons, we could incur losses.

We also measure our material risks. Our measurement methodologies rely upon many assumptions and historical analyses and correlations. There can be no assurance that those assumptions will be correct or that the historical correlations will continue to be relevant. Consequently the measurements that we make for regulatory and economic capital may not adequately capture or express the true risk profiles of our businesses. Additionally, as businesses and markets evolve, our measurements may not accurately reflect those changes. While our risk measures may indicate sufficient capitalization, we may in fact have inadequate capital to conduct our businesses.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We occupy a total of approximately 6.8 million square feet of office space and related facilities around the world, of which approximately 6.1 million square feet are leased. Of the total leased space,

approximately 3.4 million square feet are located in eastern Massachusetts. An additional 1.3 million square feet are located elsewhere throughout the U.S. and in Canada. We occupy approximately 1.0 million square feet in Europe, and approximately 370,000 square feet in the Asia/Pacific region.

Our headquarters is located at State Street Financial Center, One Lincoln Street, Boston, Massachusetts, a 36-story office building. We have leased the entire 1,025,000 square feet of this building, as well as the entire 366,000-square-foot parking garage at One Lincoln Street, under 20-year non-cancelable capital leases. A portion of the lease payments is offset by subleases for 153,000 square feet of the building. We occupy two buildings located in Quincy, Massachusetts, one of which we own and the other we lease. The buildings, containing a total of approximately 821,000 square feet, function as State Street Bank's principal operations facilities.

Additional information about our occupancy costs, including commitments under non-cancelable leases, is in note 18 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

ITEM 3. LEGAL PROCEEDINGS

We are involved in various industry-related and other regulatory, governmental and law enforcement inquiries and subpoenas, as well as legal proceedings, including recent proceedings related to SSgA's active fixed-income strategies, that arise in the normal course of business. For a discussion of recent proceedings, litigation exposure and related costs and other similar matters associated with SSgA's active fixed-income strategies, including the establishment of a reserve of approximately \$625 million, refer to "Risk Factors—Litigation Risks" included under Item 1A; the "Summary," "Financial Highlights," "Operating Expenses" and "Line of Business Information" sections of Management's Discussion and Analysis of Financial Condition and Results of Operations included under Item 7; and note 10 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K. In the opinion of management, after discussion with counsel, these regulatory, governmental and law enforcement inquiries and subpoenas and legal proceedings, including the above-mentioned matters associated with SSgA's active fixed-income strategies, can be defended or resolved without a material adverse effect on our consolidated financial position or results of operations in future periods.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITIES HOLDERS

None.

ITEM 4A. EXECUTIVE OFFICERS OF THE REGISTRANT

The following table sets forth certain information with regard to each of our executive officers as of February 15, 2008.

Name	Age	Position
Ronald E. Logue	62	Chairman, President, Chief Executive Officer and Chief Operating Officer
Joseph C. Antonellis	53	Vice Chairman
Joseph L. Hooley	50	Vice Chairman
Jeffrey N. Carp	51	Executive Vice President, Chief Legal Officer and Secretary
Joseph W. Chow	55	Executive Vice President
James J. Malerba	53	Senior Vice President and Corporate Controller
David C. O'Leary	61	Executive Vice President
James S. Phalen	57	Executive Vice President; Interim President and Chief Executive Officer of State Street Global Advisors
David C. Phelan	50	Executive Vice President, General Counsel and Assistant Secretary
Edward J. Resch	55	Executive Vice President and Chief Financial Officer
Stanley W. Shelton	53	Executive Vice President

All executive officers are appointed by the Board of Directors. All officers hold office at the discretion of the Board. There are no family relationships among any of our directors and executive officers.

Mr. Logue joined State Street in 1990. He has served as President since 2001 and Chief Operating Officer since 2000. In June 2004, he was appointed Chairman and Chief Executive Officer.

Mr. Antonellis joined State Street in 1991. In 2003, he was named head of Information Technology and Global Securities Services. In 2006, he was appointed Vice Chairman with additional responsibility as head of Investor Services in North America and Global Investment Manager Outsourcing Services.

Mr. Hooley joined State Street in 1986. Since 2002, he has served as Executive Vice President and head of Investor Services. In 2006, he was appointed Vice Chairman and global head of Investment Servicing and Investment Research and Trading.

Mr. Carp joined State Street in January 2006 as Executive Vice President and Chief Legal Officer. In 2006, he was also appointed Secretary. From April 2004 until December 2005, Mr. Carp served as executive vice president and general counsel of Massachusetts Financial Services, an investment management and research company. From 1989 until 2004, Mr. Carp was a senior partner at the law firm of Hale and Dorr LLP, where he was an attorney since 1982.

Mr. Chow first joined State Street in 1990, retired in 2003, and rejoined State Street in 2004. When he retired in 2003, he was Executive Vice President and head of Credit and Risk Policy. Since 2004, he has served as Executive Vice President, Risk and Corporate Administration, and is engaged in a variety of strategic and management initiatives across the organization.

Mr. Malerba joined State Street in November 2004 as Deputy Corporate Controller. In 2006, he was appointed Corporate Controller. Prior to joining State Street, he served as Deputy Controller at FleetBoston Financial Corporation from December 2000 and continued in that role after the merger with Bank of America Corporation in April 2004.

Mr. O'Leary joined State Street in 2005 as Executive Vice President and head of Global Human Resources. In 2004, he served as a senior advisor to Credit Suisse First Boston Corporation, a global

financial services company, after serving as Managing Director from 1990 to 2003 and Global Head of Human Resources from 1988 to 2003.

Mr. James Phalen joined State Street in 1992. As of 2003, he served as Executive Vice President of State Street and Chairman and Chief Executive Officer of CitiStreet, a global benefit provider and retirement plan recordkeeper. In February 2005, he was appointed head of Investor Services in North America. In 2006, he was appointed head of international operations for Investment Servicing and Investment Research and Trading, based in Europe. In January 2008, he was appointed Interim President and Chief Executive Officer of State Street Global Advisors.

Mr. David Phelan joined State Street in 2006 as Executive Vice President, General Counsel and Assistant Secretary. From 1995 until 2006, he was a senior partner at the law firm of Hale and Dorr LLP (and, following a merger, of Wilmer Cutler Pickering Hale and Dorr LLP), where he was an attorney since 1993.

Mr. Resch joined State Street in 2002 as Executive Vice President and Chief Financial Officer. He also served as Treasurer from 2006 until January 2008.

Mr. Shelton joined State Street in 1984. Since prior to 2003, he has served as Executive Vice President and head of State Street Global Markets.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

MARKET FOR REGISTRANT'S COMMON EQUITY

Our common stock is listed on the New York Stock Exchange under the ticker symbol STT. There were 4,432 shareholders of record at December 31, 2007. Information concerning the market prices of, and dividends on, our common stock during the past two years is included in this Form 10-K under Item 8, under the caption "Quarterly Summarized Financial Information."

In March 2007, our Board of Directors authorized the purchase of up to 15 million shares of common stock for general corporate purposes, including mitigating the dilutive impact of shares issued under employee benefit plans, in addition to its previous authorization in 2006 of up to 15 million shares, of which 12.2 million shares remained available for purchase at December 31, 2006. We generally employ third-party broker/dealers to acquire shares on the open market in connection with our common stock purchase program.

Under the above-described authorization, during 2007 we repurchased 13.4 million shares of our common stock, and an additional .6 million shares in January 2008, in connection with a \$1 billion accelerated share repurchase program that concluded on January 18, 2008. As of that date, approximately 13.2 million shares remained available for future purchase under the combined authorization described above.

RELATED STOCKHOLDER MATTERS

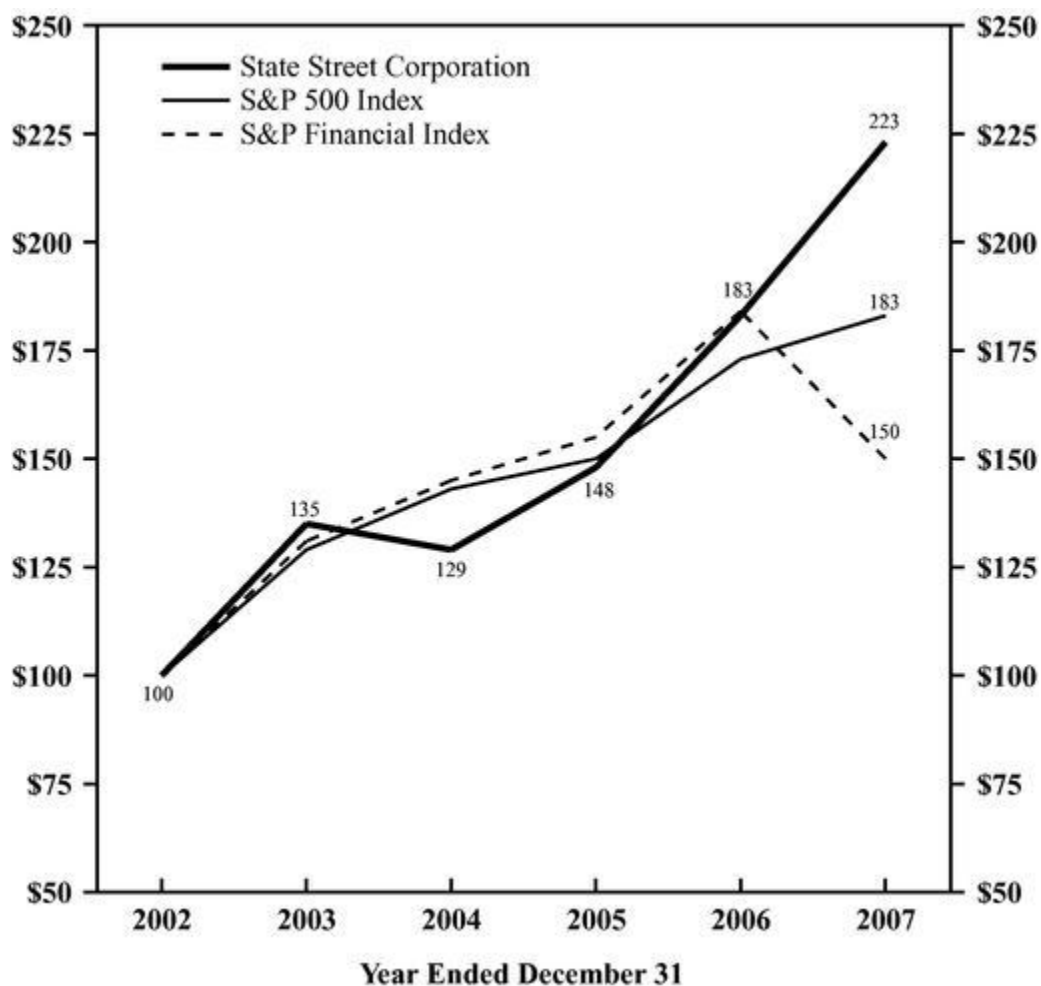

As a bank holding company, the parent company is a legal entity separate and distinct from its principal banking subsidiary, State Street Bank, and its non-bank subsidiaries. The right of the parent company to participate as a shareholder in any distribution of assets of State Street Bank upon its liquidation, reorganization or otherwise is subject to the prior claims by creditors of State Street Bank, including obligations for federal funds purchased and securities sold under repurchase agreements and deposit liabilities. Payment of dividends by State Street Bank is subject to the provisions of Massachusetts banking law, which provide that dividends may be paid out of net profits provided (i) capital stock and surplus remain unimpaired, (ii) dividend and retirement fund requirements of any preferred stock have been met, (iii) surplus equals or exceeds capital stock, and (iv) losses and bad debts, as defined, in excess of reserves specifically established for such losses and bad debts, have been deducted from net profits.

Under the Federal Reserve Act, the approval of the Federal Reserve Board would be required if dividends declared by State Street Bank in any year exceeded the total of its net profits for that year combined with retained net profits for the preceding two years, less any required transfers to surplus. Information about dividends from our subsidiary banks is in note 14 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. Future dividend payments of State Street Bank and other non-bank subsidiaries cannot be determined at this time.

SHAREHOLDER RETURN PERFORMANCE PRESENTATION

The graph presented below compares the cumulative total shareholder return on State Street's common stock to the cumulative total return of the S&P 500 Index and the S&P Financial Index for the five fiscal years which commenced January 1, 2003 and ended December 31, 2007. The cumulative total shareholder return assumes the investment of \$100 in State Street common stock and in each index on December 31, 2002, and also assumes reinvestment of dividends. The S&P Financial Index is a publicly available measure of 92 of the Standard & Poor's 500 companies, representing 30 diversified financial services companies, 24 banking companies, 24 insurance companies, and 14 real estate companies.

Comparison of Five-Year Cumulative Total Shareholder Return

	2002	2003	2004	2005	2006	2007
State Street Corporation	\$ 100	\$ 135	\$ 129	\$ 148	\$ 183	\$ 223

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

State Street Corporation is a financial holding company organized under the laws of the Commonwealth of Massachusetts. All references in this Management's Discussion and Analysis to "the parent company" are to State Street Corporation. Unless otherwise indicated or unless the context requires otherwise, all references in this Management's Discussion to "State Street," "we," "us," "our" or similar terms mean State Street Corporation and its subsidiaries on a consolidated basis. State Street Bank and Trust Company is referred to as "State Street Bank." At December 31, 2007, we had total assets of \$142.54 billion, total deposits of \$95.79 billion, total shareholders' equity of \$11.30 billion and employed 27,110. With \$15.30 trillion of assets under custody and \$1.98 trillion of assets under management at year-end 2007, we are a leading specialist in meeting the needs of institutional investors worldwide.

We report two lines of business: Investment Servicing and Investment Management. These lines of business provide a full range of products and services for our customers, which include mutual funds and other collective investment funds, corporate and public retirement plans, insurance companies, foundations, endowments and other investment pools, and investment managers. Investment Servicing provides services to support institutional investors, such as custody, product- and participant-level accounting, daily pricing and administration; master trust and master custody; recordkeeping; shareholder services, including mutual fund and collective investment fund shareholder accounting; foreign exchange, brokerage and other trading services; securities finance; deposit and short-term investment facilities; loans and lease financing; investment manager and hedge fund manager operations outsourcing; and performance, risk and compliance analytics. Investment Management provides a broad array of services for managing financial assets, such as investment research services and investment management, including passive and active U.S. and non-U.S. equity and fixed-income strategies. For additional information about our lines of business, see the "Line of Business Information" section of this Management's Discussion and Analysis and note 22 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

This Management's Discussion and Analysis should be read in conjunction with the Consolidated Financial Statements and accompanying Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. Certain previously reported amounts presented have been reclassified to conform to current period classifications. We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the U.S., referred to as "GAAP". The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions in the application of certain accounting policies that materially affect the reported amounts of assets, liabilities, revenue, and expenses. Accounting policies that require management to make assumptions that are difficult, subjective, or complex about matters that are uncertain and may change in subsequent periods are discussed in more depth in the "Significant Accounting Estimates" section of this Management's Discussion and Analysis.

This Management's Discussion and Analysis contains statements that are considered "forward-looking statements" within the meaning of U.S. federal securities laws. Forward-looking statements are based on our current expectations about revenue and market growth, acquisitions and divestitures, new technologies, services and opportunities, earnings and other factors. These forward-looking statements involve certain risks and uncertainties which could cause actual results to differ materially. We undertake no obligation to revise the forward-looking statements contained in this Management's Discussion and Analysis to reflect events after the date we file this Form 10-K with the SEC. Additional information about forward-looking statements and related risks and uncertainties is included in the Risk Factors section of this Form 10-K under Item 1A.

(1) Financial results for the year ended December 31, 2007 include results of the acquired Investors Financial business for the third and fourth quarters of 2007.

(2) Operating expenses for the year ended December 31, 2007 include merger and integration costs of \$198 million associated with the acquisition of Investors Financial and a net charge of \$467 million related to certain active fixed-income strategies at State Street Global Advisors.

Summary

Our financial results for 2007 reflect our overall objectives of consistent revenue growth, managing growth in operating expenses and balancing growth in operating expenses with growth in revenue.

- All categories of fee revenue, as reported in our consolidated statement of income, increased compared to 2006, with the exception of processing fees and other revenue, which declined 13%.
- Net interest revenue increased 56% compared to 2006.
- We achieved positive operating leverage for 2007 compared to 2006, as defined by management.
- Our Investment Management business, State Street Global Advisors, which we refer to in this Management's Discussion and Analysis as "SSgA," contributed approximately 18% of our consolidated total revenue for 2007, compared to 19% for 2006, and generated net new business of \$116 billion during 2007, compared to \$86 billion for 2006.

- We ended 2007 with levels of assets under custody and assets under management that increased 29% and 13%, respectively, from year-end 2006.
- We completed our acquisition of Currenex in March 2007. For the period March to December 2007, the acquired Currenex business contributed approximately \$65 million of revenue, primarily other trading services revenue.
- We completed our acquisition of Investors Financial in July 2007, and issued approximately 60.8 million shares in the transaction. For the second half of the year, the acquired Investors Financial business contributed \$456 million in revenue, including \$395 million in fee revenue, and \$340 million in operating expenses. In connection with the acquisition, during the second half of the year we recorded \$198 million, or \$129 million after-tax, of merger and integration costs.
- During the second half of 2007, we purchased 13.4 million shares of our common stock, as well as an additional .6 million shares in January 2008, under a \$1 billion accelerated share repurchase program, which program concluded on January 18, 2008.
- During the fourth quarter of 2007, we recorded a net pre-tax charge of \$467 million, or \$279 million after-tax, to establish a reserve associated with certain active fixed-income strategies managed by SSgA.

Certain financial information is presented and discussed in the following sections on both a GAAP basis and on an "operating" basis. Management measures certain financial information on an operating basis to provide for meaningful comparisons from period to period, and to present comparable financial trends with respect to our normal ongoing business operations. Management believes that operating-basis financial information, which includes the impact of revenue from non-taxable sources and excludes the impact of non-recurring expenses, facilitates an investor's understanding and analysis of State Street's underlying performance and trends in addition to financial information prepared in accordance with GAAP.

Financial Highlights

For 2007, we recorded income from continuing operations of \$1.3 billion, or \$3.45 per diluted share, compared to \$1.1 billion, or \$3.26 per diluted share, for 2006. Total revenue increased 32% from 2006, and return on equity from continuing operations was 13.4% compared to 16.2% for 2006. Results for 2007 included two significant expenses. First, we recorded aggregate merger and integration costs of \$198 million, or \$129 million after-tax, in connection with our acquisition of Investors Financial. Second, we recorded a net pre-tax charge of \$467 million, or \$279 million after-tax, in connection with the establishment of a reserve to address legal exposure and other costs associated with the underperformance of certain active fixed-income strategies managed by SSgA, and customer concerns as to whether the execution of these strategies was consistent with the customers' investment intent. These costs are more fully discussed in the "Consolidated Results of Operations—Operating Expenses" section of this Management's Discussion and Analysis.

Our results for 2006 included income from discontinued operations of \$10 million (pre-tax income of \$16 million reduced by related income tax expense of \$6 million), or \$.03 per diluted share, the result of the finalization of certain legal, selling and other costs recorded in connection with our divestiture of Bel Air Investment Advisors LLC.

Total revenue for 2007 grew 32% from 2006. Total fee revenue for 2007, which grew 27%, reflected consistent growth throughout the year in servicing fees and management fees, up 24% and 21%, respectively, compared to 2006, and trading services and securities finance revenue, up 34% and 76%, respectively. Generally, servicing fees benefited from the inclusion of the acquired Investors Financial

business, net new business and favorable equity markets, and management fees benefited primarily from net new business and favorable equity markets. Trading services revenue grew primarily as a result of increases in customer volumes and the inclusion of the acquired Investors Financial business, with respect to foreign exchange revenue, and as a result of the inclusion of revenue from the acquired Currenex business, with respect to other trading services revenue. Securities finance revenue benefited from increases in volumes of securities loaned, both from new customers and from growth in volume from existing customers, and increases in spreads.

Net interest revenue increased 56% compared to 2006, and net interest margin increased to 1.71% from 1.25%. This growth was the result of several favorable trends—(1) favorable rates and volumes on non-U.S. deposits; (2) the addition of interest-earning assets from Investors Financial's balance sheet; and (3) the favorable impact of fixed-rate investments.

Total operating expenses increased 42% from 2006, partly reflective of the \$665 million aggregate impact of merger and integration costs associated with Investors Financial and a net pre-tax charge associated with certain SSgA active fixed-income strategies. If these aggregate costs are excluded, total operating expenses for 2007 totaled \$5.768 billion (\$6.433 billion less \$665 million), an increase of 27% from \$4.54 billion for 2006, as we continued to carefully manage operating expenses and balance growth in operating expenses with growth in revenue. Most of the increase resulted from the inclusion of the operating expenses of the acquired Investors Financial business for the second half of 2007, as well as increased incentive compensation due to improved performance and increased staffing levels to support new business, particularly internationally. Excluding the aggregate \$665 million of merger and integration costs and the net pre-tax charge, as a result of year-over-year growth in revenue of 32% and year-over-year growth in total operating expenses of 27% as described above, we generated positive operating leverage of approximately 500 basis points. We define positive operating leverage as a rate of total revenue growth that exceeds the rate of growth of total operating expenses, determined on an operating basis.

SSgA was a significant contributor to our overall results for 2007. Its total revenue increased 25% for 2007 over 2006, and comprised about 18% of our total consolidated revenue for 2007, compared to 19% for 2006. In addition, SSgA generated net new business in assets under management, which we expect will generate management fee revenue in future years, of approximately \$116 billion for 2007, compared to \$86 billion for 2006. The decline in SSgA's relative contribution to our consolidated total revenue was the result of the impact of the acquired Investors Financial business's revenue on total revenue of our Investment Servicing line of business, which increased 34% for 2007 over 2006.

We continue to expand our business outside of the U.S., particularly in Europe and the Asia/Pacific region. For 2007, approximately \$3.42 billion, or 41% of our consolidated total revenue of \$8.336 billion, was generated from non-U.S. activities, compared to 43% for 2006. The 2007 percentage reflects revenue from the acquired Investors Financial business, which was predominantly generated in the U.S. For illustrative purposes, if we exclude total revenue from the acquired Investors Financial business for 2007 of \$456 million, non-U.S. revenue of \$3.42 billion for 2007 comprised approximately 43% of consolidated total revenue for 2007 of \$7.88 billion (\$8.336 billion less \$456 million). At year-end 2007, we employed 9,500 outside the U.S., compared to 8,630 at year-end 2006. Our goal is to eventually generate 50% of our consolidated total revenue from outside the United States.

Assets under custody and assets under management both increased from year-end 2006, with assets under custody at \$15.30 trillion, up 29% from \$11.85 trillion a year ago, and assets under management at \$1.98 trillion, up 13% from \$1.75 trillion a year ago. The acquired Investors Financial business contributed \$1.9 trillion of assets under custody. Assets under custody have grown at a compound annual rate of 13% since year-end 2003, with U.S. assets growing by 12% and non-U.S. assets growing by 16%, while assets under management have grown at a compound annual rate of 16% over the same period.

CONSOLIDATED RESULTS OF OPERATIONS

This section discusses our consolidated results of operations for 2007 compared to 2006, and should be read in conjunction with the consolidated financial statements and accompanying notes included in this Form 10-K under Item 8. A comparison of consolidated results of operations for 2006 with those for 2005 is provided in the "Comparison of 2006 and 2005—Overview of Consolidated Results of Operations" section of this Management's Discussion and Analysis.

Total revenue	\$ 8,336	\$ 6,311	\$ 5,473	32

We are one of the world's leading specialists in servicing mutual funds, other collective investment funds and pension plans. We are consistently gaining business globally, and for 2007, our non-U.S. revenue was approximately 41% of our total revenue, compared to 43% for 2006 and 24% for 2002. We provide a broad range of reliable, easy-to-integrate investment services that are global and enable our customers to develop and launch competitive new investment products. We also provide active management products, including enhanced indexing, hedge fund strategies and quantitative management, and passive investment management products and strategies.

We provide fund accounting, custody, investment management, securities finance, transfer agency services, and operations outsourcing for investment managers and hedge fund managers. These services support the complex financial strategies and transactions of our customers worldwide, in any time zone across multiple currencies. Our focus on the total needs of the customer allows us to develop active, long-term relationships that result in high customer retention, cross-selling opportunities, and recurring revenue. The servicing markets in which we compete are very price-competitive, and we consistently focus on winning and retaining customer business. This focus requires a strong commitment to customers while constantly working toward providing services at lower costs.

Our broad range of services generates fee revenue and net interest revenue. Fee revenue generated by investment servicing and investment management is augmented by securities finance, trading services and other processing fee revenue. We earn net interest revenue from customers' deposits and short-term investment activities, by providing deposit services and short-term investment vehicles, such as repurchase agreements and commercial paper, to meet customers' needs for high-grade liquid investments, and investing these sources of funds and additional borrowings in assets yielding a higher rate.

Fee Revenue

Servicing and management fees are the largest components of fee revenue, and collectively comprised approximately 69% of total fee revenue for 2007 and 71% for 2006. These fees are a function of several factors, including the mix and volume of assets under custody and assets under management, securities positions held and the volume of portfolio transactions, and the types of products and services used by customers, and are affected by changes in worldwide equity and fixed-income valuations.

Generally, servicing fees are impacted, in part, by changes in daily average valuations of assets under custody, while management fees are impacted by changes in month-end valuations of assets under management. Additional factors, such as the level of transaction volumes, changes in service level, balance credits, customer minimum balances, pricing concessions and other factors may have a significant impact on servicing fee revenue. Generally, management fee revenue is more sensitive to market valuations than servicing fee revenue. Management fees also include performance fees, which amounted to approximately 6% of management fees for 2007 compared to 9% for 2006. Performance fees are generated when the performance of managed funds exceeds benchmarks specified in the management agreements, and we experience more volatility with performance fees than with more traditional management fees.

In light of the above, we estimate, assuming all other factors remain constant, that a 10% increase or decrease in worldwide equity values would result in a corresponding change in our total revenue of approximately 2%. If fixed-income security values were to increase or decrease by 10%, we would anticipate a corresponding change of approximately 1% in our total revenue.

The following table presents selected equity market indices. Daily averages and the averages of month-end indices demonstrate worldwide equity market valuation changes that impact servicing and management fee revenue, respectively. Year-end indices impact the value of assets under custody and management at those dates. The index names listed in the table and elsewhere in this Management's Discussion and Analysis are service marks of their respective owners.

FEE REVENUE

Years ended December 31, (Dollars in millions)	2007	2006	2005	Change 2006-2007
Servicing fees	\$ 3,388	\$ 2,723	\$ 2,474	24%
Management fees(1)	1,141	943	751	21
Trading services	1,152	862	694	34
Securities finance	681	386	330	76
Processing fees and other	237	272	302	(13)
Total fee revenue	\$ 6,599	\$ 5,186	\$ 4,551	27

(1) Includes performance fees of \$72 million, \$84 million and \$41 million for 2007, 2006 and 2005, respectively.

Approximately 61% of the \$1.4 billion increase in total fee revenue over 2006 was generated from servicing and management fees.

Servicing Fees

Servicing fees include fee revenue from U.S. mutual funds, collective investment funds worldwide, corporate and public retirement plans, insurance companies, foundations, endowments, and other investment pools. Products and services include custody; product- and participant-level accounting; daily pricing and administration; recordkeeping; investment manager and hedge fund manager operations outsourcing services; master trust and master custody; and performance, risk and compliance analytics.

The increase in servicing fees of \$665 million from 2006 primarily resulted from the inclusion of \$304 million of servicing fee revenue from the acquired Investors Financial business, net new business from existing and new customers, higher average equity market valuations and higher customer transaction volumes. Net new business is defined as new business net of lost business. For 2007, servicing fees generated from customers outside the U.S. were approximately 41% of total servicing fees, down from 44% in 2006. The decrease in the non-U.S. proportion reflected the contribution of servicing fees from the acquired Investors Financial business, which are generated predominantly in the U.S.

We are the largest provider of mutual fund custody and accounting services in the United States. We distinguish ourselves from other mutual fund service providers by offering customers a broad array of integrated products and services, including accounting, daily pricing and fund administration. We calculate more than 34% of the U.S. mutual fund prices provided to NASDAQ that appear daily in *The Wall Street Journal* and other publications with an accuracy rate of 99.9%.

We have a leading position for servicing U.S. tax-exempt assets for corporate and public pension funds. We provide trust and valuation services for more than 4,000 daily-priced portfolios, making us a leader for both monthly and daily valuation services.

We are a leading service provider outside of the U.S. as well. In Germany, we provide Depotbank services for approximately 16% of retail and institutional fund assets. In the United Kingdom, we provide custody services for 18% of pension fund assets and provide administration services to more than 24% of mutual fund assets. We service approximately 23% of the hedge fund market and more than \$650 billion of offshore assets, primarily domiciled in Ireland and Luxembourg. We have more than \$1 trillion in assets under administration in the Asia/Pacific region, and are the largest non-domestic trust bank in Japan.

At year-end 2007, our total assets under custody were \$15.30 trillion, compared to \$11.85 trillion a year earlier. The value of assets under custody is a broad measure of the relative size of various markets served. Changes in the value of assets under custody do not necessarily result in proportional changes in revenue. Assets under custody consisted of the following at December 31:

Management Fees

We provide a broad range of investment management strategies, specialized investment management advisory services and other financial services for corporations, public funds, and other sophisticated investors. These services are offered through SSgA. Based upon assets under management, SSgA is the largest manager of institutional assets worldwide, the largest manager of assets for tax-exempt organizations (primarily pension plans) in the United States, and the third largest investment manager overall in the world. SSgA offers a broad array of investment management strategies, including passive and active, such as enhanced indexing and hedge fund strategies, using quantitative and fundamental methods for both U.S. and global equities and fixed income securities. SSgA also offers exchange traded funds, or "ETFs," such as the SPDR® Dividend ETFs.

The \$198 million increase in management fees from 2006 primarily resulted from net new business and higher equity market valuations. Performance fees decreased from \$84 million in 2006 to \$72 million in 2007. Management fees generated from customers outside the United States were approximately 41% of total management fees, up from 32% for 2006.

At year-end 2007, assets under management were \$1.98 trillion, compared to \$1.75 trillion at year-end 2006. While certain management fees are directly determined by the value of assets under management and the investment strategy employed, management fees reflect other factors as well, including our relationship pricing for customers who use multiple services, and the benchmarks specified in the respective management agreements related to performance fees. Accordingly, no direct correlation necessarily exists between the value of assets under management, market indices and management fee revenue. Assets under management consisted of the following at December 31:

ASSETS UNDER MANAGEMENT

Trading Services

Trading services revenue includes revenue from foreign exchange trading and brokerage and other trading services. We offer a complete range of foreign exchange services under an account model that focuses on the global requirements of our customers to execute trades and receive market insights in any time zone. In March 2007, we acquired Currenex's electronic foreign exchange trading platform. The Currenex business serves hedge funds, banks and other commercial enterprises in the active-trading segment of the foreign exchange market. We have exclusive ownership of FX Connect®, the world's first foreign exchange trading platform, and we provide quantitatively-based research into investor behavior, as well as consultative services that use quantitative tools designed to optimize our

customers' returns. Foreign exchange trading revenue is influenced by three principal factors: the volume and type of customer foreign exchange transactions; currency volatility; and the management of currency market risks.

For 2007, foreign exchange trading revenue increased 31%, to \$802 million from \$611 million in 2006, and benefited from the disruption in the global securities markets that occurred in the second half of the year. The increase was mainly driven by a 39% increase in customer volumes, but also was the result of the inclusion of \$43 million of foreign exchange revenue from the acquired Investors Financial business. These increases were partly offset by an unfavorable transaction mix influenced by lower margin transactions and a 5% decline in currency volatility.

We also offer a range of brokerage and other trading products tailored specifically to meet the needs of the global pension community, including transition management, commission recapture and self-directed brokerage. These products are differentiated by our position as an agent of the institutional investor. Brokerage and other trading fees were \$350 million in 2007, up 39% compared to 2006. The increase was attributable to the contribution of revenue from the acquired Currenex business and an increase in revenue from transition management.

Securities Finance

Securities finance provides liquidity to the financial markets and an effective means for customers to earn revenue on their existing portfolios. By acting as a lending agent and coordinating loans between lenders and borrowers, we lend securities and provide liquidity to customers around the world. Borrowers provide collateral in the form of cash or securities to State Street in return for loaned securities. For cash collateral, we pay a usage fee to the provider of the cash collateral, and invest the cash collateral in certain investment vehicles. The spread between the yield on the investment vehicle and the usage fee paid to the provider of the collateral is split between the lender of the securities and State Street as agent. For non-cash collateral, the borrower pays a fee for the loaned securities, and the fee is split between the lender of the securities and State Street.

Securities finance revenue is principally a function of the volume of securities loaned and the interest-rate spreads earned on the collateral. For 2007, securities finance revenue increased 76% from a year earlier, as loan volumes increased 30%, with this volume resulting from both new customer demand and increased demand from existing customers. Consolidated spread also increased, primarily in the domestic and non-U.S. equity portfolios and the corporate bond and fixed-income portfolios. Spreads benefited from reductions in federal funds rates during 2007, as well as from the above-mentioned market disruption.

Processing Fees and Other

Processing fees and other revenue includes diverse types of fees and other revenue, including fees from our structured products business, fees from software licensing and maintenance, profits and losses from unconsolidated subsidiaries, gains and losses on sales of leased equipment and other assets, and amortization of investments in tax-advantaged financings. Processing fees and other revenue decreased 13% from 2006, with an additional \$32 million of revenue from the acquired Investors Financial business and improved joint venture performance more than offset by reduced revenue from the structured products business, primarily from the asset-backed commercial paper program, and the absence of revenue from our tax-exempt investment program. The absence of revenue from the tax-exempt investment program resulted from the impact of the consolidation of the program onto our balance sheet on September 30, 2006. As a result of this consolidation, revenue from the program, previously recorded in processing fees and other, is now recorded in net interest revenue.

NET INTEREST REVENUE

Years ended December 31,

	2007			2006			2005		
	Average Balance	Interest Revenue/Expense	Rate	Average Balance	Interest Revenue/Expense	Rate	Average Balance	Interest Revenue/Expense	Rate

Net interest margin - fully taxable-equivalent basis			1.71%			1.25%			1.08%
Net interest revenue — GAAP basis		\$ 1,730			\$ 1,110			\$ 907	

(1)

Amounts include fully taxable-equivalent adjustments of \$58 million for 2007, \$45 million for 2006 and \$42 million for 2005.

Net interest revenue is defined as the total of interest revenue on interest-earning assets less interest expense on interest-bearing liabilities. Interest-earning assets, which consist of investment securities, loans and leases and money market assets, are financed primarily by customer deposits and short-term borrowings. Additional detail about the components of interest revenue and interest expense is in note 16 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

On a fully taxable-equivalent basis, net interest revenue increased 55% (56% on a GAAP basis) compared to 2006, and net interest margin increased to 1.71% from 1.25%. This growth was the result of several favorable trends. First, transaction deposit volume, particularly with respect to non-U.S. deposits, increased 28%, and spread increased 29%. Volume increases resulted from net new business in non-U.S. assets under custody, as we continue to grow our servicing business internationally, and spreads increased because deposit rates lagged rate increases by foreign central banks during 2006 and 2007. Second, the acquired Investors Financial business added interest-earning assets and related net interest revenue. Third, as fixed-rate investment securities matured, they were replaced by higher yielding investments.

Net interest margin represents the relationship between net interest revenue and average interest-earning assets. Changes in the components of interest-earning assets, as well as interest-bearing liabilities, are discussed in more detail below.

Average federal funds sold and securities purchased under resale agreements increased 12.3% or \$1.58 billion, from \$12.82 billion in 2006 to \$14.40 billion for 2007. The increase was primarily the result of excess liquidity.

Our average investment securities portfolio increased from approximately \$61.58 billion to approximately \$70.99 billion, primarily due to the acquisition of investment securities of Investors Financial and increases in our tax-exempt securities portfolio. The investment portfolio now includes a higher percentage of collateralized mortgage obligations and mortgage- and asset- backed securities compared to a year earlier. These increases did not adversely affect overall risk, as we continued to invest conservatively in "AA" and "AAA" rated securities. Securities rated "AA" and "AAA" comprised approximately 95% of the investment securities portfolio, with approximately 89% "AAA" rated, at December 31, 2007.

Loans and leases averaged \$10.75 billion, up 40% from \$7.67 billion in 2006. The increase was related to higher levels of customer overdraft activity. Approximately 70% of the loans and leases portfolio is composed of U.S. and non-U.S. short-duration advances, primarily related to the processing of custodied customer investments, which averaged approximately \$7.53 billion for 2007, up from \$5.21 billion in 2006.

The \$12.59 billion increase in average interest-bearing deposits from 2006 was mainly due to the acquisition of Investors Financial and an increase in low cost customer deposits, primarily non-U.S. deposits. This deposit growth funded the \$11.89 billion increase in average interest-earning assets.

Average short-term borrowings decreased primarily due to the liquidity provided by the increase in customer deposits, and long-term debt increased due to debt issuances associated with the Investors Financial acquisition.

Several factors could affect future levels of net interest revenue and margin, including the Federal Reserve's ongoing actions to manage short-term interest rates, the level and pace of changes in non-U.S. interest rates, particularly as a result of actions of the European Central Bank and the Bank of England, the mix of customer liabilities, and the shapes of the various yield curves around the world.

Gains (Losses) on Sales of Available-for-Sale Securities, Net

Our management of the investment securities portfolio has many objectives, the foremost of which are to provide liquidity and to serve as a source of collateral for customer activities. These objectives may entail strategic sales of specific securities as market conditions warrant. We recorded net gains of \$7 million on sales of available-for-sale securities for 2007, compared to net gains of \$15 million for 2006. At December 31, 2007, approximately 94% of the investment securities portfolio, or \$70.33 billion, was classified as available for sale. Additional information about available-for-sale securities, and the gross gains and losses that comprise the net gains, is in note 3 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

OPERATING EXPENSES

	2007	2006	2005	Change 2006—2007
Years Ended December 31, (Dollars in millions)				
Salaries and employee benefits	\$ 3,256	\$ 2,652	\$ 2,231	23%
Information systems and communications	546	501	486	9
Transaction processing services	619	496	449	25
Occupancy	408	373	391	9
Provision for legal exposure	600	—	—	—
Merger and integration costs	198	—	—	—
Other	806	518	484	56
Total operating expenses	\$ 6,433	\$ 4,540	\$ 4,041	42
Number of employees at year-end	27,110	21,700	20,965	

The 23% increase in salaries and employee benefits from 2006 was driven primarily by the inclusion of approximately \$180 million of salaries and benefits expense of the acquired Investors Financial business and salaries and benefits expense of the acquired Currenex business, higher incentive compensation costs due to improved performance which were offset by the reduction of incentive compensation recorded as part of the net pre-tax charge related to SSgA discussed later in this section, and the impact of higher staffing levels. Staffing levels increased to support growth in our Investment Servicing business, particularly in Europe, and in our Investment Management business, as well as in information technology and risk management.

The increase in information systems and communications expense included approximately \$21 million from the acquired Investors Financial business, as well as increased spending internationally to support growth.

Transaction processing services expenses are volume-related, and include equity trading services and fees related to securities settlement, sub-custodian fees and external contract services. The 25% increase included approximately \$39 million from the acquired Investors Financial business, specifically sub-custody costs, higher transaction volumes, and external contract services, primarily in Europe.

Occupancy expense was up 9% from 2006, primarily due to additional leased space acquired as part of the Investors Financial acquisition, as well as higher occupancy costs in support of growth in Europe.

During the fourth quarter of 2007, we recorded a net pre-tax charge of \$467 million in connection with the establishment of a reserve to address litigation exposure and other costs associated with certain active fixed-income strategies managed by SSgA and customer concerns as to whether the execution of these strategies was consistent with customers' investment intent. The net charge had the following components—a provision for legal exposure of \$625 million offset by \$25 million of insurance coverage; a \$156 million reduction of salaries and benefits expense related to reduced incentive compensation primarily associated with SSgA, offset by \$15 million of severance costs; and \$8 million of other expenses related to professional fees. More information about this litigation exposure is included in note 10 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

During the second half of 2007, in connection with the Investors Financial acquisition, we recorded merger and integration costs of \$198 million. These costs consisted only of direct and incremental costs to integrate the acquired Investors Financial business into our operations, and did not include on-going expenses of the combined organization. The costs included a non-cash charge of approximately \$91 million resulting from the termination of an operating lease related to one of our office buildings in Boston. This termination was completed in connection with an overall evaluation of our requirements for office space as a result of the acquisition.

The merger and integration costs also included \$42 million associated with employee retention and other compensation, and \$22 million associated with the integration of the acquired Investors Financial business's accounting and management systems. In addition, subsequent to the completion of the acquisition, we redeemed an aggregate of \$500 million of unsecured junior subordinated debentures issued by the parent company to two of our statutory business trusts, composed of \$200 million of 7.94% debentures issued in 1996 and \$300 million of 8.035% debentures issued in 1997. We paid the trusts the outstanding amount on the debentures plus accrued interest and an aggregate redemption premium of approximately \$20 million, which was included in the merger and integration costs.

The 56% increase in other expenses from 2006 primarily resulted from the acquired Investors Financial business, increases in professional services, securities processing costs, higher sales promotion costs and increased amortization of intangibles that resulted from the acquisitions of Investors Financial and Currenex.

Income Taxes

Income tax expense totaled \$642 million for 2007, compared to \$675 million from continuing operations a year ago. The decrease was primarily the result of the absence of the impact of federal tax legislation that increased income tax expense for 2006. The overall effective tax rate for 2007 was 33.7%, compared to 38.1% for 2006. Additional information about income tax expense is in note 20 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

The 2006 income tax expense from discontinued operations of \$6 million was related to \$16 million of income associated with the finalization of certain costs recorded in connection with our divestiture of Bel Air, which was completed during 2006.

Information about income tax contingencies related to our leveraged lease portfolio is in note 10 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

LINE OF BUSINESS INFORMATION

We report two lines of business: Investment Servicing and Investment Management. Given our services and management organization, the results of operations for these lines of business are not necessarily comparable with those of other companies, including companies in the financial services industry. Information about revenue, expense and capital allocation methodologies is in note 22 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

The following is a summary of line of business results. Results presented exclude the income (loss) from discontinued operations related to our divestiture of Bel Air. The amount presented in the "Other/One-Time" column for 2007 represents merger and integration costs recorded in connection with our acquisition of Investors Financial. The amount presented in the same column for 2005 represents additional gain from our sale of the Private Asset Management business. The amount

presented in the net charge line items are associated with the underperformance of certain active fixed-income strategies managed by SSgA.

Investment Servicing

The 34% increase in total revenue from 2006 was primarily driven by increases in servicing fees and trading services and securities finance revenue, as well as a 60% increase in net interest revenue, slightly offset by a decline in processing fees and other revenue.

Servicing fees increased from 2006 primarily due to the contribution of fees from the acquired Investors Financial business, increases in net new business from existing and new customers, higher equity valuations and higher customer transaction volumes. The increase in trading services revenue reflected a higher dollar volume of foreign exchange trades for customers and a higher volume of fixed-income transition management business. Securities finance revenue increased as a result of higher lending volumes and increased spreads. Processing fees and other revenue declined from 2006, primarily as a result of declines in revenue associated with the commercial paper conduits and our

tax-exempt investment program, the latter of which was consolidated onto our balance sheet in 2006. Revenue from this program is now recorded in net interest revenue.

Servicing fees, trading services revenue and net gains (losses) on sales of available-for-sale securities for our Investment Servicing business line are identical to the respective consolidated results. Refer to the "Servicing Fees," "Trading Services" and "Gains (Losses) on Sales of Available-For-Sale Securities, Net" captions in the "Total Revenue" section of this Management's Discussion and Analysis for a more in-depth discussion. A discussion of processing fees and other revenue is provided under the caption "Processing Fees and Other" in the "Total Revenue" section.

Net interest revenue increased 60% from 2006 due to an increase in average interest-earning assets, including those from the acquired Investors Financial business, as well as higher yields on our investment securities portfolio. A portion of net interest revenue is recorded in the Investment Management business line based on the volume of customer liabilities attributable to that business.

Operating expenses increased from 2006, driven primarily by the inclusion of the operating expenses of the acquired Investors Financial business and Currenex, as well as higher incentive compensation costs due to improved performance and the impact of higher staffing levels. Staffing levels increased to support growth in business, particularly in Europe. Transaction processing costs increased due to a higher volume of sub-custodian fees, particularly from the acquired Investors Financial business. Other expenses increased as a result of the inclusion of expenses of the acquired Investors Financial business, increases in professional services, securities processing costs and increased amortization of intangibles that resulted from the Investors Financial and Currenex acquisitions.

Investment Management

Total revenue for 2007 increased 25% from 2006. Management fees for the Investment Management business line, which were up 21%, are identical to the respective consolidated results. Refer to the "Management Fees" caption in the "Total Revenue" section of this Management's Discussion and Analysis for a more in-depth discussion. Securities finance revenue for 2007 was up 73% from 2006, reflecting higher lending volumes and increased spreads. Net interest revenue improved due to higher volumes of customer liabilities, primarily resulting from the growth of our non-U.S. operations, as well as a more favorable mix of deposits.

Operating expenses of \$981 million, which do not include the net pre-tax charge allocated to Investment Management of \$514 million, increased 23% from \$798 million in 2006, primarily due to the cost of increases in staffing levels to support growth in business, and related increases in information systems and communications expenses. The net pre-tax charge was recorded in connection with the establishment of a reserve to address legal exposure and other costs associated with the under-performance of certain active fixed-income strategies managed by SSgA and customer concerns as to whether the execution of these strategies was consistent with the customers' investment intent. The net charge had the following components—a provision for legal exposure of \$625 million offset by \$25 million of insurance coverage; a \$109 million reduction of salaries and benefits expense related to reduced incentive compensation offset by \$15 million of severance costs; and \$8 million of other expenses related to professional fees. More information about this charge is included in the "Consolidated Results of Operations—Operating Expenses" section of this Management's Discussion and Analysis.

The pre-tax margin for Investment Management, which is the percentage of the business line's pre-tax income to its total revenue, was 3% for 2007 compared to 35% for 2006 and 31% for 2005. The significant decrease in margin was the result of the net charge described above. Without the net charge, Investment Management's pre-tax income would have been \$555 million (\$41 million plus \$514 million), and its pre-tax margin would have been 36% for 2007.

During the second half of 2007, the global markets for fixed-income securities, particularly the markets for financial instruments collateralized by sub-prime mortgages, experienced significant disruption. This disruption affected the liquidity and pricing of securities traded in these markets, as well as the returns of, and levels of redemptions in, investment vehicles investing in those instruments. Additional information about the impact of these market conditions on the asset-backed commercial paper conduits administered by State Street is provided in the "Off Balance Sheet Arrangements" section of this Management's Discussion and Analysis and in the Risk Factors section included under Item 1A of this Form 10-K.

As of December 31, 2007, global fixed-income assets under management totaled approximately \$259 billion, an increase of approximately \$45 billion compared to \$214 billion at December 31, 2006, with approximately \$43 billion under active management. This amount included approximately \$6.1 billion of SSgA customer assets which were invested in strategies that were adversely affected by a combination of holdings in financial instruments collateralized by sub-prime mortgages, illiquidity in the fixed-income markets generally, and customer redemptions. These strategies included approximately \$2.2 billion of institutional customer investments in non-registered pooled investment funds; approximately \$2.1 billion of unit investments by other SSgA investment funds in the same non-registered pooled investment funds; approximately \$1.6 billion of institutional customer investments in separately-managed customer accounts; and approximately \$0.2 billion of customer investments in mutual funds.

Information about recent proceedings, legal exposure and related costs and other similar matters associated with SSgA's active fixed-income strategies, including the establishment of a reserve of approximately \$625 million, is included in "Risk Factors—Litigation Risks" included under Item 1A; the "Consolidated Results of Operations—Operating Expenses" section of this Management's Discussion and Analysis; and note 10 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K.

COMPARISON OF 2006 AND 2005

OVERVIEW OF CONSOLIDATED RESULTS OF OPERATIONS

	2006	2005	\$ Change	% Change
Years ended December 31, (Dollars in millions, except per share amounts)				
Total fee revenue	\$ 5,186	\$ 4,551	\$ 635	14%
Net interest revenue	1,110	907	203	22
Provision for loan losses	—	—	—	—
Gains (Losses) on sales of available-for-sale investment securities, net	15	(1)	16	—
Gain on sale of divested business	—	16	(16)	—
Total revenue	6,311	5,473	838	15
Total operating expenses	4,540	4,041	499	12
Income from continuing operations before income tax expense	1,771	1,432	339	24
Income tax expense from continuing operations	675	487	188	39
Income from continuing operations	1,096	945	151	16
Income (Loss) from discontinued operations	10	(107)	117	—
Net income	\$ 1,106	\$ 838	\$ 268	32
Earnings per share from continuing operations:				
Basic	\$ 3.31	\$ 2.86	\$.45	16
Diluted	3.26	2.82	.44	16
Earnings per share:				
Basic	\$ 3.34	\$ 2.53		
Diluted	3.29	2.50		
Return on shareholders' equity from continuing operations	16.2%	15.3%		
Return on shareholders' equity	16.4%	13.6%		

The income from discontinued operations in 2006 of \$10 million, or \$.03 per share, resulted from the finalization of legal, selling and other costs recorded in connection with our divestiture of Bel Air. The loss in 2005 of \$107 million, or \$.32 per share, was the result of our agreement to divest Bel Air.

TOTAL REVENUE

	2006	2005	\$ Change	% Change
Years ended December 31, (Dollars in millions)				
Fee revenue:				
Servicing fees	\$ 2,723	\$ 2,474	\$ 249	10%
Management fees	943	751	192	26
Trading services	862	694	168	24
Securities finance	386	330	56	17
Processing fees and other	272	302	(30)	(10)
Total fee revenue	5,186	4,551	635	14
Net interest revenue:				
Interest revenue	4,324	2,930	1,394	48
Interest expense	3,214	2,023	1,191	59
Net interest revenue	1,110	907	203	22
Provision for loan losses	—	—	—	—
Net interest revenue after provision for loan losses	1,110	907	203	22
Gains (Losses) on sales of available-for-sale investment securities, net	15	(1)	16	
Gain on sale of Private Asset Management business	—	16	(16)	
Total revenue	\$ 6,311	\$ 5,473	\$ 838	15

The increase in total revenue for 2006 compared to 2005 primarily reflected growth in fee revenue, which mainly reflected growth in servicing and management fees, with almost 70% of the overall growth in fee revenue generated from these two services.

The increase in servicing fees was the result of new business from existing and new customers, and higher equity market valuations. Our business continued to grow outside the U.S., with approximately 44% of our servicing fees derived from non-U.S. customers, up from 40% in 2005. Assets under custody increased to \$11.85 trillion at December 31, 2006, up 17% from \$10.12 trillion a year earlier.

The increase in management fees reflected net new business and higher average month-end equity market valuations. Approximately 32% of management fees were derived from customers outside the U.S. in 2006, up from 30% for 2005. Assets under management increased to \$1.75 trillion at December 31, 2006, up \$308 billion from \$1.44 trillion a year earlier.

The growth in trading services revenue, which includes foreign exchange trading and brokerage and other trading revenue, reflected an increase in foreign exchange trading revenue of \$143 million, primarily due to increased transaction volumes, a favorable transaction mix related to custody foreign exchange services, and an increase in foreign exchange trading profits. Brokerage and other fees increased from \$251 million in 2006, up 11% compared to 2005 due to a significant increase in other trading services and trading profits, offset by a slight decrease in brokerage revenue, the result of a decline in commission recapture revenue.

The increase in securities finance revenue reflected the effect of improved interest rate spreads and a 22% increase in securities lending volumes.

The decline in processing fees and other revenue reflected a decrease of \$30 million in payments made by Deutsche Bank AG in consideration of net interest revenue earned from acquired customer deposits, largely offset by an increase in revenue from our structured products business. The deposits were held by Deutsche Bank until customers and their related deposits were converted to our systems. Net gains on sales of available-for-sale securities of \$15 million in 2006 compared to net losses of \$1 million in 2005.

The increase in net interest revenue reflected an increase in the size of our average balance sheet and the impact of investment securities portfolio repositioning and increasing the average size of the portfolio.

OPERATING EXPENSES

Years ended December 31, (Dollars in millions)	2006	2005	\$ Change	% Change
Salaries and employee benefits	\$ 2,652	\$ 2,231	\$ 421	19%
Information systems and communications	501	486	15	3
Transaction processing services	496	449	47	10
Occupancy	373	391	(18)	(5)
Other	518	484	34	7
Total operating expenses	\$ 4,540	\$ 4,041	\$ 499	12

The increase in operating expenses from 2005 reflected higher expenses for salaries and employee benefits, information systems and communications, transaction processing and other expenses, somewhat offset by a decline in occupancy.

The increase in salaries and employee benefits was driven by higher incentive compensation costs due to improved performance, the impact of higher staffing levels associated with the growth of the Investment Servicing business in Europe, annual merit increases and planned benefit increases.

Information systems and communications expense slightly increased due to higher telecommunications costs and third-party software expenditures to support overseas growth.

Transaction processing services expenses, which in large part are volume-related, include equity trading services and fees related to securities settlement, sub-custodian fees and external contract services. The increase resulted from a higher transaction volumes, as well as expansion of our operations in Europe.

Occupancy expense decreased primarily due to the absence of the \$26 million charge recorded in 2005 related to a long-term sub-lease agreement for space in our headquarters building, offset by a slight increase in energy and other utility costs.

The increase in other operating expenses was primarily due to increased costs to support growth initiatives, offset by a decline in professional services fees related to information technology and the restructuring of our Global Treasury function, which occurred in 2005.

Income Taxes

The increase in income tax expense from continuing operations for 2006 compared to 2005 resulted from increased pre-tax earnings, as well as additional income tax expense recorded in 2006 primarily related to federal tax legislation and certain leveraged leases. The effective tax rate for continuing operations for 2006 was 38.1%. Our effective rate for 2005 was 34%. The 2005 income tax benefit from discontinued operations of \$58 million was related to the loss of \$165 million recorded in connection with our agreement to divest Bel Air in 2005.

SIGNIFICANT ACCOUNTING ESTIMATES

Our consolidated financial statements are prepared in accordance with GAAP. Our significant accounting policies are described in note 1 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

The majority of these accounting policies do not involve difficult, subjective or complex judgments or estimates in their application, or the variability of the estimates is not material to the consolidated financial statements. However, certain of these accounting policies, by their nature, require management to make judgments, involving significant estimates and assumptions, about the effects of matters that are inherently uncertain. These estimates and assumptions are based on information available as of the date of the financial statements, and changes in this information over time could

materially impact amounts of assets, liabilities, revenue and expenses reported in subsequent financial statements.

Based on the sensitivity of reported financial statement amounts to the underlying policies, estimates and assumptions, the relatively more significant accounting policies applied by State Street have been identified by management as accounting for fair value of financial instruments; accounting for special purpose entities; accounting for goodwill; and accounting for income taxes. These policies require the most subjective or complex judgments, and related estimates and assumptions could be most subject to revision as new information becomes available. An understanding of the judgments, estimates and assumptions underlying these accounting policies is essential in order to understand our reported consolidated financial condition and results of operations.

The following is a brief discussion of the above-mentioned significant accounting policies. Management of State Street has discussed these significant accounting estimates with the Examining and Audit Committee of our Board of Directors.

Fair Value of Financial Instruments

We carry certain of our assets and liabilities at fair value in our consolidated financial statements, including trading assets, investment securities available for sale and derivative instruments. At December 31, 2007, approximately \$75.43 billion of our assets and approximately \$4.57 billion of our liabilities were carried at fair value. The fair value of a financial instrument is defined as the amount at which the instrument could be exchanged in an arm's length transaction between willing parties, other than in a forced or liquidation sale. The degree of management judgment involved in determining the fair value of a financial instrument is dependent upon the availability of quoted market prices and observable market inputs. For a significant amount of our assets and liabilities which are measured at fair value, those fair values are determined based upon quotations provided by independent third-party pricing services or observable market inputs, and as a result there is little or no management judgment involved in determining fair value. Prices provided by independent third-party pricing services are subject to review by management. In developing their quotations, the independent pricing services seek to utilize observable inputs, including trade and market information. However, because many fixed-income securities do not trade regularly, the pricing services' quotations may also be based on proprietary financial models that incorporate available information, such as benchmarking to similar securities, sector groupings or matrix pricing.

Quotations may not always be available for some securities or in markets where trading activity has slowed or ceased. When quotations are not available, and are not provided by third-party pricing services, management judgment is necessary to determine fair value. In situations involving management judgment, fair value is determined using discounted cash flow analysis or other valuation models, which incorporate available market information, including appropriate benchmarking to similar instruments, analysis of default and recovery rates, estimation of prepayment characteristics and implied volatilities.

Discounted cash flow analysis is dependent upon estimated future cash flows and the level of interest rates. Expected cash flows are discounted using market interest rates commensurate with the credit quality and duration of the investment. Valuation models use as their basis independently-sourced market inputs including, for example, interest rate yield curves and foreign currency exchange rates. Our valuation process using models considers factors such as credit quality, product structure, third-party enhancements and guarantees. We apply judgment in the application of these factors. Other factors can affect our estimates of fair value, including market dislocations, incorrect model assumptions and unexpected correlations. These valuation methods could expose us to materially different results should the models used or underlying assumptions be inaccurate.

We determine fair value for trading account assets primarily by using quoted market prices for identical or similar instruments in active markets for those securities. Fair value for investment

securities available for sale is determined using quotations from independent third-party pricing services, which generally are based on observable market inputs for identical or similar instruments in active and non-active markets for those securities. We value derivative instruments primarily by using valuation models. These models generally do not involve material subjectivity because the methodologies used do not necessitate significant judgment, and the pricing inputs are observed from actively quoted markets, for instance with over-the-counter interest-rate swap and option contracts, and foreign exchange forward and option contracts.

Management reviews the fair value of the portfolio at least quarterly, and evaluates individual securities for declines in fair value that may be other than temporary. This review considers factors such as current and expected future interest rates, external credit ratings, dividend payments, the financial health of the issuer and other pertinent information. Other pertinent information includes current developments with respect to the issuer, the length of time the cost basis has exceeded the fair value, the severity of the impairment measured as the ratio of fair value to amortized cost and management's intent and ability to hold the security.

The review includes all investment securities for which we have issuer specific concerns regardless of quantitative factors. The review considers current economic conditions, adverse situations that might affect our ability to fully collect interest and principal, the timing of future payments, the credit quality and performance of underlying collateral and guarantees and other relevant factors. If declines are deemed other than temporary, an impairment loss is recognized and the amortized cost basis of the investment security is written down to its current fair value, which becomes the new cost basis.

Additional information about fair values of financial instruments and fair value estimates is included in note 24 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K.

Special Purpose Entities

In the normal course of business, we utilize three types of special purpose entities, referred to as "SPEs," two of which are not recorded in our consolidated financial statements. Information about the activities of these SPEs, which are used in connection with our tax-exempt investment program, our involvement with managed investment vehicles and our asset-backed commercial paper program, is in notes 10 and 11 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. Additional information about SPEs used in connection with our commercial paper program is provided below.

In our role as a financial intermediary, we administer four third-party asset-backed commercial paper conduits, which are structured as bankruptcy-remote, limited liability companies, and which are not included in our consolidated financial statements. These conduits purchase a variety of financial assets from third-party financial institutions, and fund these purchases by issuing commercial paper. The financial assets purchased by the conduits are not originated by us, and we do not hold any equity ownership interest in the conduits. Additional information about the conduits and their business activities is in the "Off-Balance Sheet Arrangements" section of this Management's Discussion and Analysis and in note 11 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K.

Our accounting for the conduits' activities, and our conclusion that we are not required to include each or all of the conduits' assets and liabilities in our consolidated financial statements, is based on our application of the provisions of FASB Interpretation No. 46(R), which governs our accounting for the conduits and which is discussed in more detail in note 11. Expected losses, which we estimate using a financial model as described below, form the basis for our application of the provisions of FIN 46(R). Expected losses, as defined by FIN 46(R), are not economic losses. Instead, expected losses are calculated by comparing projected possible cash flows, which are probability-weighted, with expected cash flows for the risk(s) the entity was designed to create and distribute; they represent the variability

in potential cash flows of the entity's designated risks. We believe that credit risk is the predominant risk that is designed to be created and distributed by these entities. There is also a modest amount of basis risk within each conduit. Basis risk arises when commercial paper funding costs move at a different rate than the comparable floating-rate asset benchmark rates (generally LIBOR). This risk is mitigated through the use of derivative instruments, principally basis swaps, which remove this variability from each conduit. Accordingly, basis risk is not a significant assumption in the financial model.

Any credit losses of the conduits would be absorbed by (1) investors in the subordinated debt, commonly referred to as "first-loss notes," issued by the conduits; (2) State Street; and (3) the holders of the conduits' commercial paper, in order of priority. The investors in the first-loss notes, which are independent third parties, would absorb the first dollar of any credit loss on the conduits' assets. If credit losses exceeded the first-loss notes, we would absorb credit losses through our credit facilities provided to the conduits. The commercial paper holders would absorb credit losses after the first-loss notes and State Street's credit facilities have been exhausted. We have developed a financial model to estimate and allocate each conduit's expected losses. Our model has determined that, as of December 31, 2007, the amount of first-loss notes of each conduit held by the third-party investors causes them to absorb a majority of each conduit's expected losses, as defined by FIN 46(R), and, accordingly, the investors in the first-loss notes are considered to be the primary beneficiary of the conduits. The aggregate amount of first-loss notes issued by the conduits totaled approximately \$32 million as of December 31, 2007.

In order to estimate expected losses as required by FIN 46(R), we estimate possible defaults of the conduits' assets. These expected losses are allocated to the conduits' variable interest holders based on the order in which actual losses would be absorbed, as described above. We use the model to estimate expected losses based on hundreds of thousands of probability-weighted loss scenarios. These simulations incorporate published rating agency data to estimate expected losses due to credit risk. Primary assumptions incorporated into the financial model relative to credit risk variability, such as default probabilities and loss severities, are directly linked to the conduit's underlying assets. These default probabilities and loss severity assumptions vary by asset class and ratings of individual conduit assets. Accordingly, the model's calculation of expected losses is significantly affected by the credit ratings and asset mix of each conduit's assets. These statistics are reviewed by management regularly and more formally on an annual basis. If downgrades and asset mix change significantly, or if defaults occur on the conduits' underlying assets, we may conclude that the current level of first-loss notes is insufficient to absorb a majority of the conduits' expected losses.

We perform stress tests and sensitivity analyses, with respect to each conduit individually, in order to model potential scenarios that could cause the amount of first-loss notes to be insufficient to absorb the majority of the conduits' expected losses. As part of these analyses, we have identified certain conduit assets that could be more susceptible to credit downgrade because of their underlying credit characteristics. Our scenario testing specifically addresses asset classes that have experienced significant price erosion and/or have little observed market activity. Examples of scenarios that are designed to measure the sensitivity of the sufficiency of the first-loss notes include performing a downgrade of all assets which have underlying monoline insurance provider support, and a downgrade scenario on certain other conduit securities where our analysis of the timing and amount of expected cash flows for selected security default expectations does not re-affirm the security's current external credit rating. These simulations do not include a scenario whereby all positions are simultaneously downgraded, the possibility of which we consider remote. In addition, a scenario could arise where one or more defaults could be so severe that the associated losses would exhaust the conduits' total first-loss notes currently outstanding.

We believe that the current level of first-loss notes of approximately \$32 million as of December 31, 2007 is sufficient to support default scenarios that we believe are more likely, including the stress tests previously described. However, in the future, if the determination and allocation of

conduit expected losses by the financial model indicates that the current level of first-loss notes is insufficient to absorb a majority of the conduits' expected losses, we would be required to either (1) issue additional first-loss notes to third parties; (2) change the composition of conduit assets; or (3) take other actions in order to avoid being determined to be the primary beneficiary of the conduits. If we were unable to accomplish any of the above, we would be determined to be the primary beneficiary of the conduits, and would be required to consolidate the conduits' assets and liabilities. For illustrative purposes only, if consolidation of all four of the conduits had been required on December 31, 2007, we would have recognized an extraordinary after-tax loss of approximately \$530 million in our consolidated statement of income. In addition, the consolidation of the conduit's assets would have had a direct impact on our leverage capital ratios. The illustrative impact of consolidation of the conduits and the assumptions underlying its calculation are discussed in the "Off-Balance Sheet Arrangements" section of this Management's Discussion and Analysis.

The conduits do not regularly trade their assets. That is, the design of the conduits is such that conduit assets are purchased with the intent to hold to them to their maturities. Accordingly, changes in the fair values of the conduits' assets do not impact the day-to-day management of the conduits. However, we closely monitor changes in fair values of the conduits' assets to ensure that the default assumptions in our financial model continue to be appropriate. As of December 31, 2007, total assets in the unconsolidated conduits were approximately \$28.76 billion, and the pre-tax unrealized loss on those assets was approximately \$850 million, or \$530 million after-tax. We believe the fair values of the conduits' assets are impacted by a number of factors, including the lack of liquidity of mortgage- and asset-backed securities, supply and demand imbalance in the market, and a risk aversion premium being demanded by investors for certain asset types. We do not believe that the current fair values of some of the conduits' assets are necessarily indicative of a change in marketplace participants' view of the default probabilities for these assets.

Goodwill

Goodwill is created when the purchase price exceeds the assigned value of net assets of acquired businesses, and represents the value attributable to unidentifiable intangible elements being acquired. Almost all of our goodwill has resulted from business acquisitions of our Investment Servicing line of business. As a result, substantially all of the total goodwill recorded in our consolidated statement of condition was recorded by this business line, with the remainder recorded by Investment Management.

The sustained value of the majority of this goodwill is supported ultimately by revenue from our investment servicing business. A decline in earnings as a result of a lack of growth, or our inability to deliver cost-effective services over sustained periods, could lead to a perceived impairment of goodwill, which would be evaluated and, if necessary, be recorded as a write-down of the reported amount of goodwill through a charge to earnings in our consolidated statement of income.

On an annual basis, or more frequently if circumstances dictate, management reviews goodwill and evaluates events or other developments that may indicate impairment in the carrying amount. We perform this evaluation at the reporting unit level, which is one level below our two major business lines. The evaluation methodology for potential impairment is inherently complex and involves significant management judgment in the use of estimates and assumptions.

We evaluate impairment using a two-step process. First, we compare the aggregate fair value of the reporting unit to its carrying amount, including goodwill. If the fair value exceeds the carrying amount, no impairment exists. If the carrying amount of the reporting unit exceeds the fair value, then we compare the "implied" fair value of the reporting unit's goodwill with its carrying amount. If the carrying amount of the goodwill exceeds the implied fair value, then goodwill impairment is recognized by writing the goodwill down to the implied fair value. The implied fair value of the goodwill is determined by allocating the fair value of the reporting unit to all of the assets and liabilities of that unit, as if the unit had been acquired in a business combination and the overall fair value of the unit was the purchase price.

To determine the aggregate fair value of the reporting unit being evaluated for goodwill impairment, we use one of two principal methodologies—external or independent valuation, using quoted market prices in active markets; or an analysis of comparable recent external sales or market data, such as multiples of earnings or similar performance measures. In limited circumstances, these methodologies are not available, and as such, we estimate future cash flows using present-value techniques.

Events that may indicate goodwill impairment include significant or adverse changes in the business, economic or political climate; an adverse action or assessment by a regulator; unanticipated competition; and a more-likely-than-not expectation that we will sell or otherwise dispose of a business to which the goodwill relates. Our goodwill impairment testing for 2007 indicated that none of our goodwill was impaired. Goodwill recorded in our consolidated statement of condition at December 31, 2007 totaled approximately \$4.57 billion.

Additional information about goodwill, including information by line of business, is in note 5 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K.

Income Taxes

Our overall tax position is fundamentally complex, and management judgment is involved in the analysis of income tax assets and liabilities. We are subject to the income tax laws of the U.S., its states and municipalities and those of the foreign jurisdictions in which we operate. These tax laws can be subject to different interpretations by the taxpayer and the taxing authorities.

In establishing a provision for income tax expense, we must make judgments and interpretations about the application of these inherently complex tax laws. Disputes over interpretations of the tax laws may be adjudicated by the court systems of the various tax jurisdictions or may be settled with the taxing authority upon examination or administrative appeal.

Management's determination of the likelihood that deferred tax assets can be realized is subjective and involves estimates and assumptions about matters that are inherently uncertain. The realization of deferred tax assets arises from future taxable income, including foreign-source income, and the achievement of tax planning strategies. Underlying estimates and assumptions can change over time, influencing our overall tax positions, as a result of unanticipated events or circumstances.

Management continually monitors and evaluates the worldwide impact of tax legislation, decisions, rulings and other current developments on the estimates and assumptions underlying our calculations of current and deferred taxes and our analysis of the expected realization of deferred tax assets. Additional information about income taxes is in notes 10 and 20 of the Notes to Consolidated Financial Statements included under Item 8 of this Form 10-K.

FINANCIAL CONDITION

Years ended December 31, (In millions)	2007 Average Balance	2006 Average Balance
Assets:		
Interest-bearing deposits with banks	\$ 7,433	\$ 9,621
Securities purchased under resale agreements	12,466	12,543
Federal funds sold	1,936	277

Other liabilities	9,769	7,471
Shareholders' equity	9,427	6,744
Total liabilities and shareholders' equity	\$ 123,482	\$ 106,444

Overview of Consolidated Statement of Condition

The structure of our consolidated statement of condition, or balance sheet, is primarily driven by the liabilities generated by our core Investment Servicing and Investment Management businesses. As our customers execute their worldwide cash management and investment activities, they use short-term investments and deposits that constitute the majority of our liabilities. These liabilities are generally in the form of non-interest-bearing demand deposits; interest-bearing transaction account deposits, which are denominated in a variety of currencies; and repurchase agreements, which generally serve as short-term investment alternatives for our customers.

Our customers' needs and our operating objectives determine the volume, mix and currency denomination of our consolidated balance sheet. Deposits and other liabilities generated by customer activities are invested in assets that generally match the liquidity and interest-rate characteristics of the liabilities. As a result, our assets consist primarily of high-quality, marketable securities held in our available-for-sale or held-to-maturity investment securities portfolio and short-term money-market instruments, such as interest-bearing deposits, federal funds sold and securities purchased under resale agreements. The actual mix of assets is determined by the characteristics of the customer liabilities and our desire to maintain a well-diversified portfolio of high-quality assets. Managing our consolidated

balance sheet structure is a disciplined process conducted within specific Board-approved policies for interest-rate risk, credit risk and liquidity.

For 2007, the growth in average interest-bearing liabilities of \$9.7 billion was primarily composed of a \$12.6 billion increase in customer deposits, \$7.5 billion of which were foreign, offset by a decline in repurchase agreements of \$4.8 billion. These changes are representative of the higher levels of customer activity outside the U.S. Average interest-earning assets in 2007 increased \$11.9 billion from 2006, consistent with the increased level of customer liabilities. Additional information about our average balance sheet, primarily interest-earning assets and interest-bearing liabilities, is included in the "Consolidated Results of Operations—Net Interest Revenue" section of this Management's Discussion and Analysis.

Investment Securities

The carrying values of investment securities were as follows as of December 31:

	2007	2006	2005
(In millions)			
Available for sale:			
U.S. Treasury and federal agencies:			
Direct obligations	\$ 8,181	\$ 7,612	\$ 10,214
Mortgage-backed securities	14,585	11,454	11,138
Asset-backed securities	25,069	25,634	23,842
Collateralized mortgage obligations	11,892	8,476	5,527
State and political subdivisions	5,813	3,749	1,868
Other debt investments	4,041	3,027	1,695
Money-market mutual funds	243	201	232
Other equity securities	502	292	463
Total	\$ 70,326	\$ 60,445	\$ 54,979
Held to maturity:			
U.S. Treasury and federal agencies:			
Direct obligations	\$ 757	\$ 846	\$ 1,657
Mortgage-backed securities	940	1,084	925
Collateralized mortgage obligations	2,190	2,357	2,086
Other investments	346	260	223
Total	\$ 4,233	\$ 4,547	\$ 4,891

We consider a well-diversified, high-credit quality investment securities portfolio to be an important element in the management of our consolidated balance sheet. The portfolio continues to be concentrated in securities with high credit quality, with approximately 95% of the carrying value of the

portfolio "AAA" or "AA" rated. The percentages of the carrying value of the investment securities portfolio by external credit rating were as follows as of December 31:

	2007	2006
AAA(1)	89%	88%
AA	6	6
A	3	4
BBB	1	1
Non-rated	1	1
	100%	100%

(1)

Includes U.S. Treasury securities.

The investment securities portfolio is also diversified with respect to asset class. The majority of the portfolio is in high-grade mortgage-backed and asset-backed securities. The largely floating-rate asset-backed portfolio consists of home-equity loan, credit card, auto- and student-loan securities. Mortgage-backed securities are split between securities of Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and large-issuer collateralized mortgage obligations. As of December 31, 2007, the asset-backed securities in the portfolio included \$6.2 billion collateralized by sub-prime mortgages. Of this total, 71% were AAA rated and 29% were AA rated.

We had \$1.105 billion of net pre-tax unrealized losses on available-for-sale investment securities at December 31, 2007, or \$678 million after-tax. Net pre-tax unrealized losses on available-for-sale securities at December 31, 2006 were \$378 million, or \$227 million after tax. Management considers the aggregate decline in fair value and the resulting net unrealized losses to be temporary and not the result of any material changes in the credit characteristics of the investment securities portfolio. Management has the ability and the intent to hold the securities until recovery in market value.

We intend to continue managing our investment securities portfolio to align with interest-rate and duration characteristics of our customer liabilities and in the context of our overall balance sheet structure, which is maintained within internally approved risk limits, and in consideration of the global interest-rate environment. Even with material changes in unrealized losses on available-for-sale securities, we may not experience material changes in our interest-rate risk profile, or experience a material impact on our net interest revenue. Additional information about these and other unrealized losses is in notes 3 and 12 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

The carrying amounts, by contractual maturity, of debt securities available for sale and held to maturity, and the related weighted-average contractual yields, were as follows as of December 31, 2007:

	Under 1 Year		1 to 5 Years		6 to 10 Years		Over 10 Years	
	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield
(Dollars in millions)								
Available for sale(2):								
U.S. Treasury and federal agencies:								
Direct obligations	\$ 5,683	4.43%	\$ 1,072	3.91%	\$ 520	6.27%	\$ 906	7.63%
Mortgage-backed securities	116	4.16	1,384	4.31	4,152	4.90	8,933	5.18
Asset-backed securities	1,304	4.68	11,321	5.13	8,223	5.21	4,221	5.21
Collateralized mortgage obligations	170	4.90	3,156	5.07	3,617	5.48	4,949	5.45
State and political subdivisions(1)	370	5.94	1,997	5.74	1,644	5.60	1,802	5.41
Other investments	1,686	6.46	1,405	5.48	906	5.33	44	5.61
Total	\$ 9,329		\$ 20,335		\$ 19,062		\$ 20,855	
Held to maturity(2):								
U.S. Treasury and federal agencies:								
Direct obligations	\$ 256	3.89%	\$ 501	4.38%				
Mortgage-backed securities	—	—	30	3.95	329	4.85%	581	5.35%
Collateralized mortgage obligations	—	—	725	4.94	970	5.03	495	5.03
Other investments	163	1.99	119	5.81	61	6.02	3	7.16
Total	\$ 419		\$ 1,375		\$ 1,360		\$ 1,079	

(1) Yields have been calculated on a fully taxable-equivalent basis, using applicable federal and state income tax rates.

(2) The maturities of mortgage-backed securities, asset-backed securities and collateralized mortgage obligations are based upon expected principal payments.

Loans and Lease Financing

U.S. and non-U.S. loans and lease financing as of December 31, and average loans and lease financing, were as follows for the years ended December 31:

	2007	2006	2005	2004	2003
(In millions)					
U.S.:					
Commercial and financial	\$ 9,402	\$ 3,480	\$ 2,298	\$ 1,826	\$ 2,344
Lease financing	396	415	404	373	395
Total U.S.	9,798	3,895	2,702	2,199	2,739
Non-U.S.:					
Commercial and financial	4,420	3,137	1,854	526	424
Lease financing	1,584	1,914	1,926	1,904	1,858
Total non-U.S.	6,004	5,051	3,780	2,430	2,282
Total loans	\$ 15,802	\$ 8,946	\$ 6,482	\$ 4,629	\$ 5,021
Average loans and lease financing	\$ 10,753	\$ 7,670	\$ 6,013	\$ 5,689	\$ 5,568

At December 31, 2007, approximately 11% of our consolidated total assets consisted of loans and lease financing. The aggregate increase in loans from 2006 reflected an increase in overdrafts, which result primarily from securities settlement activities of our customers. Overdrafts included in loans were \$11.65 billion and \$5.69 billion at December 31, 2007 and December 31, 2006, respectively. Average

overdrafts were approximately \$7.53 billion and \$5.21 billion for the years ended December 31, 2007 and 2006, respectively. These balances do not represent significant credit risk because of their short-term nature, which is generally overnight, the lack of significant concentration, and their occurrence in the normal course of the cash and securities settlement process.

As of December 31, 2007 and 2006, unearned income included in lease financing was \$1.29 billion and \$1.01 billion for non-U.S. leases, respectively, and \$212 million and \$129 million for U.S. leases, respectively.

Maturities for loan and lease financing categories were as follows as of December 31, 2007:

	YEARS			
	Total	Under 1	1 to 5	Over 5
(In millions)				
U.S.:				
Commercial and financial	\$ 9,402	\$ 9,372	\$ 10	\$ 20
Lease financing	396	8	—	388
Total U.S.	9,798	9,380	10	408
Non-U.S.:				
Commercial and financial	4,420	4,419	1	—
Lease financing	1,584	—	53	1,531
Total non-U.S.	6,004	4,419	54	1,531
Total	\$ 15,802	\$ 13,799	\$ 64	\$ 1,939

The following table presents the classification of loans and leases due after one year according to sensitivity to changes in interest rates as of December 31, 2007:

(In millions)	
Loans and leases with predetermined interest rates	\$ 1,973
Loans and leases with floating or adjustable interest rates	30
Total	\$ 2,003

Cross-Border Outstandings

Cross-border outstandings, as defined by bank regulatory rules, are amounts payable to State Street by residents of foreign countries, regardless of the currency in which the claim is denominated, and local country claims in excess of local country obligations. These cross-border outstandings consist primarily of deposits with banks, loans and lease financing and investment securities.

In addition to credit risk, cross-border outstandings have the risk that, as a result of political or economic conditions in a country, borrowers may be unable to meet their contractual repayment obligations of principal and/or interest when due because of the unavailability of, or restrictions on, foreign exchange needed by borrowers to repay their obligations.

Cross-border outstandings to countries in which we do business which amounted to at least 1% of our consolidated total assets were as follows as of December 31:

	2007	2006	2005
(In millions)			
United Kingdom	\$ 5,951	\$ 5,531	\$ 2,696
Canada	4,565	—	1,463
Australia	3,567	1,519	1,441
Netherlands	—	—	992
Germany	2,944	2,696	4,217
Total cross-border outstandings	\$ 17,027	\$ 9,746	\$ 10,809

The total cross-border outstandings presented in the table represented 12%, 9% and 11% of our consolidated total assets as of December 31, 2007, 2006 and 2005, respectively. There were no cross-border outstandings to countries which totaled between .75% and 1% of our consolidated total assets as of December 31, 2007. Aggregate cross-border outstandings to countries which totaled between .75% and 1% of our consolidated total assets at December 31, 2006, amounted to \$1.05 billion (Canada) and at December 31, 2005, amounted to \$1.86 billion (Belgium and Japan).

Capital

Regulatory and economic capital management both use key metrics evaluated by management to ensure that our actual level of capital is commensurate with our risk profile, is in compliance with all regulatory requirements, and is sufficient to provide us with the financial flexibility to undertake future strategic business initiatives.

Regulatory Capital

Our objective with respect to regulatory capital management is to maintain a strong capital base in order to provide financial flexibility for our business needs, including funding corporate growth and supporting customers' cash management needs, and to provide protection against loss to depositors and creditors. We strive to maintain an optimal level of capital, commensurate with our risk profile, on which an attractive return to shareholders will be realized over both the short and long term, while protecting our obligations to depositors and creditors and satisfying regulatory requirements. Our capital management process focuses on our risk exposures, our capital position relative to our peers, regulatory capital requirements and the evaluations of the major independent credit rating agencies that assign ratings to our public debt. The Capital Committee, working in conjunction with the Asset and Liability Committee, referred to as "ALCO," oversees the management of regulatory capital, and is responsible for ensuring capital adequacy with respect to regulatory requirements, internal targets and the expectations of the major independent credit rating agencies.

The primary regulator of both State Street and State Street Bank for regulatory capital purposes is the Federal Reserve Board. Both State Street and State Street Bank are subject to the minimum capital requirements established by the Federal Reserve Board and defined in the Federal Deposit Insurance Corporation Improvement Act of 1991. State Street Bank must meet the regulatory capital thresholds for "well capitalized" in order for the parent company to maintain its status as a financial holding company.

Regulatory capital ratios and related regulatory guidelines for State Street and State Street Bank were as follows as of December 31:

	REGULATORY GUIDELINES		STATE STREET		STATE STREET BANK	
	Minimum	Well Capitalized	2007	2006	2007	2006
Regulatory capital ratios:						
Tier 1 risk-based capital	4%	6%	11.2%	13.7%	11.2%	12.0%
Total risk-based capital	8	10	12.7	15.9	12.7	14.1
Tier 1 leverage ratio(1)	4	5	5.3	5.8	5.5	5.6

(1)

Regulatory guideline for well capitalized applies only to State Street Bank.

At December 31, 2007, State Street's and State Street Bank's regulatory capital ratios decreased compared to year-end 2006. Growth in capital from earnings and the issuance of our common stock to acquire Investors Financial were offset by the repurchase of our common stock under the accelerated share repurchase program and the impact of goodwill and other intangible assets recorded in connection with the Currenex and Investors Financial acquisitions. Total risk-weighted assets increased year over year, as balance sheet risk-weighted assets, partly from the Investors Financial acquisition, and off-balance sheet equivalent risk-weighted assets both grew from year-end 2006. All ratios for State Street and State Street Bank exceeded the regulatory minimum and well-capitalized thresholds.

To manage fluctuations in the tier 1 and total risk-based capital of State Street and State Street Bank resulting from foreign currency translation, we have entered into foreign exchange forward contracts to hedge a portion of our net foreign investment in non-U.S. subsidiaries. The notional value of these contracts was €100 million, or approximately \$146 million, at December 31, 2007.

In 2004, the Committee on Banking Supervision released the final version of its capital adequacy framework, commonly referred to as "Basel II". In 2006, the four U.S. banking regulatory agencies jointly issued their second draft of implementation rules, with industry comment provided by the end of March 2007. Additional supervisory guidance from the agencies was released late in February 2007; comments to the agencies were provided by the end of May 2007, and the final rules were released on December 7, 2007, with a stated effective date of April 1, 2008. State Street previously established a comprehensive implementation program to ensure these regulatory requirements are met within prescribed timeframes. We anticipate adopting the most advanced approaches for assessing capital adequacy.

In March 2007, our Board of Directors authorized the purchase of up to 15 million shares of common stock for general corporate purposes, including mitigating the dilutive impact of shares issued under employee benefit plans, in addition to its previous authorization in 2006 of up to 15 million shares, of which 12.2 million shares remained available for purchase at December 31, 2006. We generally employ third-party broker-dealers to acquire shares on the open market in connection with our stock purchase program.

Under the above-described authorization, during 2007 we repurchased 13.4 million shares of our common stock, and an additional .6 million shares in January 2008, in connection with a \$1 billion accelerated share repurchase program that concluded on January 18, 2008. As of that date, approximately 13.2 million shares remain available for future purchase under the combined authorization described above.

We have increased our quarterly dividend twice each year since 1978. Over the last ten years, dividends per share have grown at a 15% compound annual growth rate. Funds for cash distributions to our shareholders by the parent company are derived from a variety of sources. The level of dividends

to shareholders on our common stock, which totaled \$320 million in 2007, is reviewed regularly and determined by the Board of Directors considering our liquidity, capital adequacy and recent earnings history and prospects, as well as economic conditions and other factors deemed relevant. Federal and state banking regulations place certain restrictions on dividends paid by subsidiary banks to the parent holding company. In addition, bank regulators have the authority to prohibit bank holding companies from paying dividends if they deem such payment to be an unsafe or unsound practice. Information concerning limitations on dividends from our subsidiary banks is in note 14 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

Economic Capital

We define economic capital as the common equity required to protect debt holders against unexpected economic losses over a one-year period at a level consistent with the solvency of a firm with our target "AA" debt rating. Our entire economic capital process is the responsibility of our Capital Committee. The framework and methodologies used to quantify economic capital for each of the risk types described below have been developed by our Enterprise Risk Management, Global Treasury and Finance groups, and are designed to be generally consistent with our risk management principles. This framework has been approved by senior management and has been reviewed by the Executive Committee of the Board. Due to the evolving nature of quantification techniques, we expect to periodically refine the methodologies used to estimate our economic capital requirements, which could result in a different amount of capital needed to support our risk profile.

We quantify capital requirements for the risks inherent in our business activities and group them into one of the following broadly-defined categories:

- Market risk: the risk of adverse financial impact due to fluctuations in market prices, primarily as they relate to our trading activities
- Interest-rate risk: the risk of loss in non-trading asset and liability management positions, primarily the impact of adverse movements in interest rates on the repricing mismatches that exist between balance sheet assets and liabilities
- Credit risk: the risk of loss that may result from the default or downgrade of a borrower or counterparty
- Operational risk: the risk of loss from inadequate or failed internal processes, people and systems, or from external events
- Business risk: the risk of adverse changes in our earnings from business factors, including changes in the competitive environment, changes in the operational economics of business activities, and the effect of strategic and reputation risks

Economic capital for each of these five categories is estimated on a stand-alone basis using statistical modeling techniques applied to internally generated and, in some cases, external data. These individual results are then aggregated at the State Street consolidated level. A capital reduction or diversification benefit is then applied to reflect the unlikely event of experiencing an extremely large loss in each risk type at the same time.

Liquidity

The objective of liquidity management is to ensure that we have the ability to meet our financial obligations in a timely and cost-effective manner, and that we maintain sufficient flexibility to fund strategic corporate initiatives as they arise. Effective management of liquidity involves assessing the potential mismatch between the future cash needs of our customers and our available sources of cash under normal and adverse economic and business conditions. Uses of liquidity consist primarily of meeting deposit withdrawals; funding outstanding commitments to extend credit or purchase securities

as they are drawn upon; overdraft facilities; and liquidity asset purchase agreements. Liquidity is provided by the maintenance of broad access to the global capital markets and our balance sheet asset structure.

Global Treasury is responsible for the day-to-day management of our global liquidity position, which is conducted within risk guidelines established and monitored by ALCO. Management maintains a liquidity measurement framework to assess the sources and uses of liquidity that is continuously monitored by Global Treasury and Enterprise Risk Management. Embedded in this framework is a process that outlines several levels of potential risk to our liquidity and identifies "triggers" that we use as early warning signals of a possible difficulty. These triggers are a combination of internal and external measures of potential increases in cash needs or decreases in available sources of cash and possible impairment of our ability to access the global capital markets. Another important component of the framework is a contingency funding plan that is designed to identify and manage through a potential liquidity crisis. The plan defines roles, responsibilities and management actions to be undertaken in the event of a deterioration in our liquidity profile caused by either a State Street-specific event or a broader disruption in the capital markets. Specific actions are linked to the levels of "triggers."

We generally manage our liquidity risk on a global basis at the consolidated level. We also manage parent company liquidity, and in certain cases branch liquidity, separately. State Street Bank generally has broader access to funding products and markets limited to banks, specifically the federal funds market and the Federal Reserve's discount window. The parent company is managed to a more conservative liquidity profile, reflecting narrower market access. We typically hold enough cash, primarily in the form of interest-bearing deposits with subsidiary banks, to meet current debt maturities and cash needs, as well as those projected over the next one-year period.

Sources of liquidity come from two primary areas: access to the global capital markets and liquid assets maintained on our consolidated balance sheet. Our ability to source incremental funding at reasonable rates of interest from wholesale investors in the capital markets is the first source of liquidity we would tap to accommodate the uses of liquidity described below. On-balance sheet liquid assets are also an integral component of our liquidity management strategy. These assets provide liquidity through maturities of the assets, but more importantly, they provide us with the ability to raise funds by pledging the securities as collateral or through outright sales. Each of these sources is used in the management of daily cash needs and in a crisis scenario where we would need to accommodate potential large, unexpected demand for funds.

Uses of liquidity result from four primary areas: withdrawals of unsecured customer deposits; draws on unfunded commitments to extend credit or purchase securities, generally provided through lines of credit; overdraft facilities; and liquidity asset purchase agreements supporting the four commercial paper conduits that we administer. Customer deposits are generated largely from our investment servicing activities, and are invested in a combination of term investment securities and short-term money market assets whose mix is determined by the characteristics of the deposits. Most of the customer liabilities are payable upon demand or are short-term in nature, which means that withdrawals can potentially occur quickly and in large amounts. Similarly, customers can request disbursement of funds under commitments to extend credit, or can overdraw deposit accounts rapidly and in large volumes.

Material risks to sources of short-term liquidity would include, among other things, external rating agency downgrades of our deposits and debt securities, which would restrict our ability to access the capital markets and may lead to withdrawals of unsecured deposits by our customers. In addition, a large volume of unanticipated funding requirements, such as fundings under liquidity asset purchase agreements that have met draw conditions, or large draw-downs of existing lines of credit, could require additional liquidity. During the summer of 2007, the disruption in the global fixed-income securities

markets, which largely stemmed from sub-prime mortgages and securities collateralized by them and later spread to asset-backed securities in general, caused us to invoke some elements of our contingency funding plan, resulting in more active monitoring of our liquidity position and more frequent reporting to management. Of primary concern was our ability to replace maturing commercial paper issued by the conduits. As more fully discussed in the "Off-Balance Arrangements" section of this Management's Discussion and Analysis, we have been able to reissue the paper, but with some difficulty and at higher rates of interest because of a significant decline in the demand for asset-backed commercial paper in the market generally. One action we have taken to improve our liquidity position has been the issuance of term wholesale certificates of deposit and the placement of those funds into short-term money market assets where they would be available to meet cash needs. This portfolio stood at \$4.57 billion as of December 31, 2007. It is important to note that we did not experience any deterioration in our customer deposit base; it was stable to growing during 2007.

While maintenance of our high investment-grade credit rating is of primary importance to our liquidity management program, on-balance sheet liquid assets represent significant liquidity that we can directly control, and provide a source of cash in the form of principal maturities and the ability to borrow from the capital markets using our securities as collateral. Our liquid assets consist primarily of short-term money-market assets, such as federal funds sold and interest-bearing deposits with banks, the latter of which are multicurrency instruments invested with major multinational banks; and high-quality, marketable investment securities not already pledged, which generally are more liquid than other types of assets and can be sold or borrowed against to quickly generate cash. As of December 31, 2007, the cash value of our liquid assets, as defined, totaled \$55.14 billion. Securities carried at \$39.84 billion as of December 31, 2007 were designated as pledged for public and trust deposits, borrowed funds and for other purposes as provided by law, and are excluded from the liquid assets calculation. Included in liquid assets are securities that have been pledged to the Federal Reserve Bank of Boston in order to secure our ability to borrow from the discount window should the need arise. This access to the discount window, including the Federal Reserve's recently announced term auction facility, is an important source of back-up liquidity for State Street Bank. As of December 31, 2007, we had no outstanding borrowings from the discount window.

Based upon our level of liquid assets and our ability to access the capital markets for additional funding when necessary, management considers overall liquidity at December 31, 2007 more than sufficient to meet State Street's current commitments and business needs, including accommodating the transaction and cash management needs of its customers.

In April 2007, the parent company issued \$700 million of senior debt, consisting of \$250 million of floating-rate notes due in 2012 and \$450 million of 5.375% notes due in 2017. In addition, State Street Capital Trust IV, a Delaware statutory trust wholly owned by the parent company, issued \$800 million in aggregate liquidation amount of floating-rate capital securities and used the proceeds to purchase a like amount of floating-rate junior subordinated debentures from the parent company. The capital securities represent an undivided preferred beneficial interest in those junior subordinated debentures, which are the only assets of the trust. The junior subordinated debentures have an initial scheduled maturity in June 2037 and an initial final repayment date in June 2067, each of which we may extend by ten years in specified circumstances. In accordance with existing accounting standards, we did not record the trust in our consolidated financial statements. The junior subordinated debentures qualify for inclusion in tier 1 regulatory capital.

In connection with the issuance of the junior subordinated debentures, the parent company entered into a replacement capital covenant in which it agreed, for the benefit of the holders of its junior subordinated debentures due 2028 underlying the floating-rate capital securities issued by State Street Capital Trust I, that it will not repay, redeem or repurchase, and that none of its subsidiaries will purchase, any part of the newly issued debentures or the floating-rate capital securities on or before June 1, 2047, unless the repayment, redemption or repurchase is made from the net cash proceeds of

the issuance of certain qualified securities and pursuant to the other terms and conditions set forth in the covenant.

In July 2007, we redeemed an aggregate of \$500 million of unsecured junior subordinated debentures issued by the parent company to two of our statutory business trusts, State Street Capital Trusts A and B, composed of \$200 million of 7.94% debentures issued in 1996 and \$300 million of 8.035% debentures issued in 1997. We paid the trusts the outstanding amount on the debentures plus accrued interest and an aggregate redemption premium of approximately \$20 million. This redemption premium was included in the merger and integration costs which we recorded during the third quarter of 2007 in connection with the Investors Financial acquisition. Additional information about these costs is in the "Consolidated Results of Operations—Operating Expenses" section of this Management's Discussion and Analysis.

In July 2007, the trusts, consistent with the terms of their applicable governing documents, redeemed their respective outstanding capital securities, with an aggregate liquidation amount of \$500 million, corresponding to the debentures. The trusts paid to the holders of the outstanding capital securities the same amount that was paid by the parent company to the trusts to redeem the debentures.

In January 2008, State Street Capital Trust III, a Delaware statutory trust wholly owned by the parent company, issued \$500 million in aggregate liquidation amount of 8.250% fixed-to-floating rate normal automatic preferred enhanced capital securities, referred to as "normal APEX," and used the proceeds to purchase a like amount of remarketable 6.001% junior subordinated debentures due 2042 from the parent company. In addition, the trust entered into stock purchase contracts with the parent company under which the trust agrees to purchase, and the parent company agrees to sell, on the stock purchase date, a like amount in aggregate liquidation amount of the parent company's non-cumulative perpetual preferred stock, series A, \$100,000 liquidation preference per share. State Street will make contract payments to the trust at an annual rate of 2.249% of the stated amount of \$100,000 per stock purchase contract. The normal APEX are beneficial interests in the trust. The trust will pass through, as distributions on or the redemption price of normal APEX, amounts that it receives on its assets that are the corresponding assets for the normal APEX. The corresponding assets for each normal APEX, \$1,000 liquidation amount, initially are \$1,000 principal amount of the 6.001% junior subordinated debentures and a 1/100th, or a \$1,000, interest in a stock purchase contract for the purchase and sale of one share of the Series A preferred stock for \$100,000. The stock purchase date is expected to be March 15, 2011, but it may occur on an earlier date or as late as March 15, 2012. From and after the stock purchase date, the corresponding asset for each normal APEX will be a 1/100th, or a \$1,000, interest in one share of the Series A preferred stock. In accordance with existing accounting standards, we did not record the trust in our consolidated financial statements. The 6.001% junior debentures qualify for inclusion in tier 1 regulatory capital.

As stated previously, our ability to maintain consistent access to liquidity is fostered by the maintenance of high investment-grade ratings on our debt, as measured by the major independent credit rating agencies. Factors essential to retaining high credit ratings include diverse and stable core earnings; strong risk management; strong capital ratios; diverse liquidity sources, including the global capital markets and customer deposits; and strong liquidity monitoring procedures. High ratings on debt minimize borrowing costs and enhance our liquidity by ensuring the largest possible market for our debt. A downgrade or reduction of these credit ratings could have an adverse impact to our ability to access funding at favorable interest rates. Following our January 3, 2008 announcement of a net charge to establish a reserve associated with certain active fixed-income strategies managed by SSgA, the major national rating agencies affirmed their ratings for State Street and State Street Bank. However, Moody's Investors Service and Fitch changed their outlook from stable to negative. These

changes have not had a material impact on our liquidity position or on our ability to access the global capital markets at reasonable rates of interest.

	Standard & Poor's	Moody's Investors Service	Fitch	DBRS
State Street Corporation:				
Short-term commercial paper	A-1+	P-1	F1+	R-1(mid)
Senior debt	AA-	Aa3	AA-	AA (low)
Subordinated debt	A+	A1	A+	A (high)
Capital securities	A	A1	A+	A (high)
State Street Bank:				
Short-term deposits	A-1+	P-1	F1+	R-1(high)
Long-term deposits	AA	Aa1	AA	AA
Senior debt	AA-	Aa1	AA-	AA
Subordinated debt	AA-	Aa2	A+	AA (low)
Outlook	Stable	Negative	Negative	Stable

CONTRACTUAL CASH OBLIGATIONS

	PAYMENTS DUE BY PERIOD				
	Total	Less than 1 year	1-3 years	4-5 years	Over 5 years
As of December 31, 2007					
(In millions)					
Long-term debt(1)	\$ 7,339	\$ 188	\$ 357	\$ 877	\$ 5,917
Operating leases	1,880	225	418	324	913
Capital lease obligations	823	52	104	104	563
Total contractual cash obligations	\$ 10,042	\$ 465	\$ 879	\$ 1,305	\$ 7,393

(1) Long-term debt above excludes capital leases (reported as a separate line item) and the effect of interest-rate swaps. Interest payments were calculated at the stated rate with the exception of floating-rate debt, for which payments were calculated using the indexed rate in effect on December 31, 2007.

The obligations presented in the table are recorded in our consolidated statement of condition at December 31, 2007. The table does not include obligations which will be settled in cash, primarily in less than one year, such as deposits, federal funds purchased, securities sold under repurchase agreements and other short-term borrowings. Additional information about deposits, federal funds purchased, securities sold under repurchase agreements and other short-term borrowings is in notes 7 and 8 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

The table does not include obligations related to derivative instruments, because the amounts included in our consolidated statement of condition at December 31, 2007 related to derivatives do not represent the amounts that may ultimately be paid under the contracts. Additional information about derivative contracts is in note 15 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. We have obligations under pension and other post-retirement benefit plans, which are more fully described in note 17 of the Notes to Consolidated Financial Statements, which are not included in the above table.

Additional information about contractual cash obligations related to long-term debt and operating and capital leases is in notes 9 and 18 of the Notes to Consolidated Financial Statements. The consolidated statement of cash flows, included in this Form 10-K under Item 8, provides additional liquidity information.

OTHER COMMERCIAL COMMITMENTS

	TENURE OF COMMITMENT				
	Total amounts committed(1)	Less than 1 year	1-3 years	4-5 years	Over 5 years
As of December 31, 2007 (In millions)					
Indemnified securities financing	\$ 558,368	\$ 558,368			
Liquidity asset purchase agreements	34,947	29,321	\$ 1,569	\$ 2,379	\$ 1,678
Unfunded commitments to extend credit	17,404	13,555	1,175	2,599	75
Standby letters of credit	4,505	925	2,567	1,002	11
Total commercial commitments	\$ 615,224	\$ 602,169	\$ 5,311	\$ 5,980	\$ 1,764

(1)

Total amounts committed are reported net of participations to independent third parties.

Additional information about the commercial commitments disclosed in this section is in note 10 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

Risk Management

The global scope of our business activities requires that we balance what we perceive to be the primary risks in our businesses with a comprehensive and well-integrated risk management function. The measurement, monitoring and mitigation of risks are essential to the financial performance and successful management of our businesses. These risks, if not effectively managed, can result in current losses to State Street as well as erosion of our capital and damage to our reputation. Our systematic approach also allows for a more precise assessment of risks within a framework for evaluating opportunities for the prudent use of capital.

We have a disciplined approach to risk management that involves all levels of management. The Board of Directors provides extensive review and oversight of our overall risk management programs, including the approval of key risk management policies and the periodic review of State Street's key risk indicators. These indicators are designed to identify major business activities of State Street with significant risk content, and to establish quantifiable thresholds for risk measurement. Key risk indicators are reported regularly to the Executive Committee of the Board, and are reviewed periodically for appropriateness. Modifications to the indicators are made to reflect changes in our business activities or refinements to existing measurements. Enterprise Risk Management, or ERM, a dedicated corporate group, provides oversight, support and coordination across business units and is responsible for the formulation and maintenance of enterprise-wide risk management policies and guidelines. In addition, ERM establishes and reviews approved limits, and with business line management, monitors key risks. The head of ERM meets regularly with the Board or a Board committee, as appropriate, and has the authority to escalate issues as necessary.

The execution of duties in the management of people, products, business operations and processes is the responsibility of business unit managers. The function of risk management is responsible for designing, orchestrating and directing the implementation of risk management programs and processes consistent with corporate and regulatory standards. Accordingly, risk management is a shared responsibility between ERM and the business lines and requires joint efforts in goal setting, program design and implementation, resource management, and performance evaluation between business and functional units.

Responsibility for risk management is overseen by a series of management committees. The Major Risk Committee, or MRC, is responsible for the formulation and recommendation of policies, and the approval of guidelines and programs governing the identification, analysis, measurement and control of material risks across State Street. Chaired by the head of ERM, the MRC focuses on the review of

business activities with significant risk content and the assessment of risk management programs and initiatives. The Capital Committee, chaired by the Chief Financial Officer, oversees the management of our regulatory and economic capital, the determination of the framework for capital allocation and strategies for capital structure and debt and equity issuances. ALCO, chaired by the Treasurer, oversees the management of our consolidated balance sheet, including management of our global liquidity and interest-rate risk positions. The Fiduciary Review Committee reviews the criteria for the acceptance of fiduciary duties, and assists our business lines with their fiduciary responsibilities executed on behalf of customers. The Credit Committee, chaired within ERM, acts as the credit policy committee for State Street. The Operational Risk Committee, chaired within ERM, provides cross-business oversight of operational risk to identify, measure, manage and control operational risk in an effective and consistent manner across State Street. The Model Assessment Committee, chaired within ERM, provides unbiased recommendations concerning technical modeling issues and independently validates qualifying financial models utilized by our businesses. Several other committees with specialized risk management functions report to the MRC.

Corporate Audit serves in a complementary role to our program of risk management, providing the Board and management with continuous monitoring and control assessments to ensure adherence to State Street's policies and procedures and the effectiveness of its system of internal controls. Additionally, the internal control environment is evaluated through external examinations and regulatory compliance efforts. The Corporate Compliance, Regulatory and Industry Affairs, and Legal groups also serve essential roles in risk management. Corporate Compliance is responsible for the design, implementation and oversight of policies, guidelines and programs to ensure our compliance with applicable laws and regulations wherever we conduct business. The Regulatory and Industry Affairs group monitors proposed changes in rules and legislation, and the Legal group provides counsel that enables us to deal with complex legal and regulatory environments, maximize business opportunities and minimize legal, regulatory and other risks.

While we believe that our risk management program is effective in managing the risks in our businesses, external factors may create risks that cannot always be identified or anticipated. For example, a material counterparty failure or a default of a material obligor could have a material adverse effect on our consolidated results of operations.

Market Risk

Market risk is defined as the risk of adverse financial impact due to fluctuations in interest rates, foreign exchange rates and other market-driven rates or prices. We are exposed to market risk both in our trading and non-trading, or asset and liability management, activities. We manage our overall market risk through a comprehensive risk management framework. This framework includes risk management groups that report independently to senior management through ERM. The process of managing market risk for these activities, discussed in further detail below, applies to both on-balance sheet and off-balance sheet exposures.

Trading Activities

We primarily engage in trading and investment activities to serve our customers' needs and to contribute to overall corporate earnings and liquidity. In the conduct of these activities, we are subject to, and assume, market risk. The level of market risk that we assume is a function of our overall objectives and liquidity needs, customer requirements and market volatility. Interest-rate risk, a component of market risk, is more thoroughly discussed in the "Asset and Liability Management" portion of this "Market Risk" section.

Market risk associated with foreign exchange and trading activities is controlled through established limits on aggregate and net open positions, sensitivity to changes in interest rates, and

concentrations, which are supplemented by stop-loss thresholds. We use an array of risk management tools and methodologies, including value-at-risk, to measure, monitor and control market risk. All limits and measurement techniques are reviewed and adjusted as necessary on a regular basis by business managers, the market risk management group and the Trading and Market Risk Committee.

We use a variety of derivative financial instruments to support customers' needs, conduct trading activities and manage our interest-rate and currency risk. These activities are designed to create trading revenue or to hedge volatility in net interest revenue. In addition, we provide services related to derivative financial instruments in our role as both a manager and servicer of financial assets.

Our customers use derivative financial instruments to manage the financial risks associated with their investment goals and business activities. With the growth of cross-border investing, customers have an increasing need for foreign exchange forward contracts to convert currency for international investment and to manage the currency risk in international investment portfolios. As an active participant in the foreign exchange markets, we provide foreign exchange forward contracts and options in support of these customer needs.

As part of our trading activities, we assume positions in the foreign exchange and interest-rate markets by buying and selling cash instruments and using derivative financial instruments, including foreign exchange forward contracts, foreign exchange and interest-rate options and interest-rate swaps. As of December 31, 2007, the notional amounts of all of these derivative financial instruments were \$796.19 billion, of which \$732.01 billion were foreign exchange forward contracts. In the aggregate, long and short foreign exchange forward positions are closely matched to minimize currency and interest-rate risk. All foreign exchange contracts are valued daily at current market rates.

We use a variety of risk measurement and estimation techniques, including value-at-risk. Value-at-risk is an estimate of potential loss for a given period within a stated statistical confidence interval. We use a system of risk management to estimate value-at-risk daily for all material trading positions. We have adopted standards for estimating value-at-risk, and we maintain capital for market risk in accordance with applicable regulatory guidelines. Value-at-risk is estimated for a 99% one-tail confidence interval and an assumed one-day holding period using a historical observation period of greater than one year. A 99% one-tail confidence interval implies that daily trading losses should not exceed the estimated value-at-risk more than 1% of the time, or approximately three days out of the year. The methodology uses a simulation approach based on observed changes in market prices and takes into account the resulting diversification benefits provided from the mix of our trading positions.

Like all quantitative risk measures, value-at-risk is subject to certain limitations and assumptions inherent in the methodology. Our methodology gives equal weight to all market-rate observations regardless of how recently the market rates were observed. The estimate is calculated using static portfolios consisting of positions held at the end of the trading day. Implicit in the estimate is the assumption that no intraday action is taken by management during adverse market movements. As a result, the methodology does not represent risk associated with intraday changes in positions or intraday price volatility.

The following table presents market risk related to our trading activities as measured by our value-at-risk methodology:

VALUE-AT-RISK

Years ended December 31, (In millions)	2007			2006		
	Annual Average	Maximum	Minimum	Annual Average	Maximum	Minimum
Foreign exchange products	\$ 1.8	\$ 4.0	\$.7	\$ 1.7	\$ 4.3	\$.7
Interest-rate products	1.4	3.7	.1	.8	1.8	.2

We compare daily profits and losses from trading activities to estimated one-day value-at-risk. For the years ended December 31, 2007, 2006 and 2005, we did not experience any trading losses in excess of our end-of-day value-at-risk estimate.

Asset and Liability Management Activities

The primary objective of asset and liability management is to provide sustainable and growing net interest revenue, or "NIR," under varying economic environments, while protecting the economic values of our balance sheet assets and liabilities from the adverse effects of changes in interest rates. Most of our NIR is earned from the investment of deposits generated by our core Investment Servicing and Investment Management businesses. We structure our balance sheet assets to generally conform to the characteristics of our balance sheet liabilities, but we manage our overall interest-rate risk position in the context of current and anticipated market conditions and within internally approved risk guidelines.

Our overall interest-rate risk position is maintained within a series of policies approved by the Board and guidelines established and monitored by ALCO. Our Global Treasury unit has responsibility for managing State Street's day-to-day interest-rate risk. To effectively manage the consolidated balance sheet and related NIR, Global Treasury has the authority to take a limited amount of interest-rate risk based on market conditions and its views about the direction of global interest rates over both short-term and long-term time horizons. Global Treasury manages our exposure to changes in interest rates on a consolidated basis, and they have organized themselves into three regional treasury units, North America, Europe, and Asia/Pacific, to reflect the growing, global nature of our exposures and to capture the impact of change in regional market environments on our total risk position.

Our investment activities and our use of derivative financial instruments are the primary tools used in managing interest-rate risk. We invest in financial instruments with currency, repricing, and maturity characteristics we consider appropriate to manage our overall interest-rate risk position. In addition to on-balance sheet assets, we use certain derivatives, primarily interest-rate swaps, to alter the interest-rate characteristics of specific balance sheet assets or liabilities. The use of derivatives is subject to ALCO-approved guidelines. Additional information about our use of derivatives is in note 15 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

As a result of growth in our non-U.S. operations, non-U.S. dollar denominated customer liabilities are a significant portion of our consolidated balance sheet. This growth results in exposure to changes in the shape and level of non-U.S. dollar yield curves, which we include in our consolidated interest-rate risk management process.

Because no one individual measure can accurately assess all of our risks to changes in rates, we use several quantitative measures in our assessment of current and potential future exposures to changes in interest rates and their impact on net interest revenue and balance sheet values. *Net interest revenue simulation* is the primary tool used in our evaluation of the potential range of possible net interest revenue results that could occur under a variety of interest-rate environments. We also use

market valuation and *duration analysis* to assess changes in the economic value of balance sheet assets and liabilities caused by assumed changes in interest rates. Finally, *gap analysis*—the difference between the amount of balance sheet assets and liabilities re-pricing within a specified time period—is used as a measurement of our interest-rate risk position.

To measure, monitor, and report on our interest-rate risk position, we use (1) NIR simulation, or "NIR-at-risk," which measures the impact on NIR over the next twelve months to immediate, or "rate shock," and gradual, or "rate ramp," changes in market interest rates; and (2) economic value of equity, or "EVE," which measures the impact on the present value of all NIR-related principal and interest cash flows of an immediate change in interest rates. NIR-at-risk is designed to measure the potential impact of changes in market interest rates on NIR in the short term. EVE, on the other hand, is a long-term view of interest-rate risk, but with a view toward liquidation of State Street. Both of these measures are subject to ALCO-established guidelines, and are monitored regularly, along with other relevant simulations, scenario analyses and stress tests by both Global Treasury and ALCO.

In calculating our NIR-at-risk, we start with a base amount of NIR that is projected over the next twelve months, assuming that the then-current yield curve remains unchanged over the period. Our existing balance sheet assets and liabilities are adjusted by the amount and timing of transactions that are forecasted to occur over the next twelve months. That yield curve is then "shocked," or moved immediately, ± 100 basis points in a parallel fashion, or at all points along the yield curve. Two new twelve-month NIR projections are then developed using the same balance sheet and forecasted transactions, but with the new yield curves, and compared to the base scenario. We also perform the calculations using interest rate ramps, which are ± 100 basis point changes in interest rates that are assumed to occur gradually over the next twelve-month period, rather than immediately as we do with interest-rate shocks.

EVE is based on the change in the present value of all NIR-related principal and interest cash flows for changes in market rates of interest. The present value of existing cash flows with a then-current yield curve serves as the base case. We then apply an immediate parallel shock to that yield curve of ± 200 basis points and recalculate the cash flows and related present values. A large shock is used to better capture the embedded option risk in our mortgage-backed securities that results from the borrower's prepayment opportunity.

Key assumptions used in the models described above include the timing of cash flows; the maturity and repricing of balance sheet assets and liabilities, especially option-embedded financial instruments like mortgage-backed securities; changes in market conditions; and interest-rate sensitivities of our customer liabilities with respect to the interest rates paid and the level of balances. These assumptions are inherently uncertain and, as a result, the models cannot precisely calculate future NIR or predict the impact of changes in interest rates on NIR and economic value. Actual results could differ from simulated results due to the timing, magnitude and frequency of changes in interest rates and market conditions, changes in spreads and management strategies, among other factors. Projections of potential future streams of NIR are assessed as part of our forecasting process.

The following table presents the estimated exposure of NIR for the next twelve months, calculated as of December 31, 2007 and 2006, due to an immediate ± 100 basis point shift in then-current interest rates. Estimated incremental exposures presented below are dependent on management's assumptions about asset and liability sensitivities under various interest-rate scenarios, such as those previously discussed, and do not reflect any actions management may undertake in order to mitigate some of the adverse effects of interest-rate changes on State Street's financial performance.

NIR-AT-RISK

	Estimated Exposure to Net Interest Revenue	
	2007	2006
(In millions)		
Rate change:		
+100 bps shock	\$ (98)	\$ (90)
-100 bps shock	7	52
+100 bps ramp	(44)	(57)
-100 bps ramp	20	46

The following table presents estimated EVE exposures, calculated as of December 31, 2007 and 2006, assuming an immediate and prolonged shift in interest rates, the impact of which would be spread over a number of years.

ECONOMIC VALUE OF EQUITY

	Estimated Exposure to Economic Value of Equity	
	2007	2006
(In millions)		
Rate change:		
+200 bps shock	\$ (1,195)	\$ (1,023)
- 200 bps shock	48	371

With respect to the December 31, 2007 information presented in the tables above, the balance sheet of Investors Financial is reflected in the estimated NIR-at-risk and the estimated EVE exposure. Information for prior periods was not restated. The incremental increases in the levels of NIR-at-risk and EVE exposure to upward shifts in interest rates are largely attributable to increased purchases of fixed-rate securities in the first quarter of 2007, slower projected prepayment speeds for mortgage-backed securities effective in the fourth quarter of 2007, and the contribution of the acquired Investors Financial business during the third quarter of 2007. While the dollar amount of NIR-at-risk increased, its rate of increase was lower than the reported growth rate for NIR.

While the measures presented in the tables above are not a prediction of future NIR or valuations, they do suggest that if all other variables remained constant, in the short term, falling interest rates would lead to NIR that is higher than it would otherwise have been, and rising rates would lead to lower NIR. Other important factors that impact the levels of NIR are balance sheet size and mix; interest-rate spreads; the slope and interest-rate level of U.S. dollar and non-U.S. dollar yield curves and the relationship between them; the pace of change in market interest rates; and management actions taken in response to the preceding conditions.

One of the most important assumptions in our management of interest rate risk is the response of customer liabilities to changes in market interest rates. As such, we regularly reassess the characteristics of customer liabilities. Our most recent assessment was completed during the second quarter of 2007 and resulted in a small lengthening in the estimated duration of customer liabilities. The impact of this longer estimated duration for customer liabilities reduced both NIR-at-risk and EVE exposure to increases in market interest rates, partially mitigating the factors responsible for higher interest-rate risk detailed above.

Credit Risk

Credit and counterparty risk is defined as the risk of financial loss if a borrower or counterparty is either unable or unwilling to repay borrowings or settle in accordance with contractual terms. The extension of credit and acceptance of counterparty risk by State Street are governed by corporate

guidelines based on the prospective customer's risk profile, the markets served, counterparty and country concentrations, and regulatory compliance. Our focus on large institutional investors and their businesses requires that we assume concentrated credit risk in a variety of forms to certain highly-rated entities. This concentration risk is mitigated by comprehensive guidelines and procedures to monitor and manage all aspects of credit and counterparty risk that we undertake. Exposures are evaluated on an individual basis at least annually.

We provide, on a limited basis, traditional loan products and services to key customers and prospects in a manner that enhances customer relationships, increases profitability and minimizes risk. We employ a relationship model in which credit decisions are based upon credit quality and the overall institutional relationship. This model is typical of financial institutions that provide credit to institutional customers in the markets that we serve.

An allowance for loan losses is maintained to absorb probable credit losses in the loan portfolio and is reviewed regularly by management for adequacy. An internal rating system is used to assess potential risk of loss based on customer investment profile, current economic and/or customer financial indicators. The provision for loan losses is a charge to earnings to maintain the overall allowance for loan losses at a level considered adequate relative to the level of credit risk in the loan and lease financing portfolio. No provision was recorded in either 2007, 2006 or 2005.

At December 31, 2007 and 2006, the allowance for loan losses was \$18 million. Changes in the allowance for loan losses were as follows for the years ended December 31:

	2007	2006	2005	2004(1)	2003
(In millions)					
U.S.:					
Balance at beginning of year	\$ 18	\$ 18	\$ 17	\$ 43	\$ 43
Provision for loan losses	—	—	—	(15)	—
Loan charge-offs—commercial and financial	—	—	—	—	—
Recoveries—commercial and financial	—	—	—	—	—
Reclassification	—	—	—	(14)	—
Balance at end of year—U.S.	18	18	17	14	43
Non-U.S.:					
Balance at beginning of year	—	—	1	18	18
Provision for loan losses	—	—	—	(3)	—
Reclassification	—	—	—	(11)	—
Balance at end of year—Non-U.S.	—	—	1	4	18
Total balance at end of year	\$ 18	\$ 18	\$ 18	\$ 18	\$ 61

(1)

In 2004, we reclassified \$25 million of the allowance for loan losses to other liabilities as a reserve for off-balance sheet commitments. Subsequent to the reclassification, the reserve for off-balance sheet commitments was reduced by \$10 million, and recorded as an offset to other operating expenses. We also reversed \$18 million through the provision for loan losses as a result of reduced credit risk exposures and improved credit quality.

Past-due loans are loans on which principal or interest payments are over 90 days delinquent, but where interest continues to be accrued. There were no past-due loans as of December 31, 2007, 2006, 2005, 2004 and 2003.

We generally place loans on non-accrual status once payments are 60 days past due, or earlier if management determines that full collection is not probable. Loans 60 days past due, but considered both well-secured and in the process of collection, may be excluded from non-accrual status. For loans

placed on non-accrual status, revenue recognition is suspended. There were no non-accrual loans at year-end 2007, 2006, 2005, 2004 and 2003.

We purchase securities under agreements to resell. Risk is minimized by establishing the acceptability of counterparties; limiting purchases almost exclusively to low-risk U.S. government securities; taking possession or control of transaction assets; monitoring levels of underlying collateral; and limiting the duration of the agreements. Securities are revalued daily to determine if additional collateral is necessary from the borrower. Most repurchase agreements are short-term, with maturities of less than 90 days.

We also provide customers with off-balance sheet liquidity and credit enhancement facilities in the form of letters of credit, lines of credit and liquidity asset purchase agreements. These exposures are subject to an initial credit analysis, with detailed approval and review processes. These facilities are also actively monitored and reviewed on an annual basis. We maintain a separate reserve for probable credit losses related to certain of these off-balance sheet activities. Management reviews the adequacy of this reserve on a regular basis.

On behalf of our customers, we lend their securities to creditworthy banks, broker/dealers and other institutions. In most circumstances, we indemnify our customers for the fair market value of those securities against a failure of the borrower to return such securities. Though these transactions are well-collateralized, the substantial volume of these activities necessitates thorough credit-based underwriting and monitoring processes. State Street requires the borrowers to provide collateral in an amount equal to or in excess of 100% of the fair market value of the securities borrowed. Collateral funds received in connection with our securities lending services are held by us as agent and are not recorded in our consolidated statement of condition. The borrowed securities and collateral are revalued daily to determine if additional collateral is necessary. State Street held, as agent, cash and securities totaling \$572.93 billion and \$527.37 billion as collateral for indemnified securities financing at December 31, 2007 and 2006, respectively.

Processes for credit approval and monitoring are in place for other credit extensions. As part of the approval and renewal process, appropriate due diligence is conducted based on the size and term of the exposure, as well as the quality of the counterparty. Exposures to these entities are aggregated and evaluated by ERM.

Investments in debt and equity securities, including investments in affiliates, are monitored regularly by Corporate Finance and ERM. To the extent necessary, procedures are in place for evaluating potentially impaired securities, as discussed in notes 1 and 3 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. Total non-performing investment securities were \$3 million and \$4 million at December 31, 2007 and 2006, respectively.

Operational Risk

We define operational risk as the potential for loss resulting from inadequate or failed internal processes, people and systems, or from external events. As a leading provider of services to institutional investors, our customers have a broad array of complex and specialized servicing, confidentiality and fiduciary requirements. Active management of operational risk is an integral component of all aspects of our business, and responsibility for the management of operational risk lies with every individual at State Street. Our Operational Risk Policy Statement defines operational risk and details roles and responsibilities for managing operational risk. The Policy Statement is reinforced by the Operational Risk Guidelines, which codify our approach to operational risk. The Guidelines document our sound practices and provide a mandate within which programs, processes, and regulatory elements are implemented to ensure that operational risk is identified, measured, managed and controlled in an effective and consistent manner across State Street.

We maintain an operational risk governance structure to ensure that responsibilities are clearly defined and to provide independent oversight of operational risk management. Business units periodically review the status of the business controls and monitor and report key risk indicator results. ERM oversees the overall operational risk management program. The MRC and the Operational Risk Committee review key risk indicators and policies related to operational risk, provide oversight to ensure compliance with the operational risk program, and escalate operational risk issues of note to the Executive Committee of the Board. Corporate Audit performs independent reviews of the application of operational risk management practices and methodologies and reports to the Examining and Audit Committee of the Board.

State Street's internal control environment is designed to provide a sound operational environment. Our discipline in managing operational risk provides the structure to identify, evaluate, control, monitor, measure, mitigate and report operational risk.

Business Risk

We define business risk as the risk of adverse changes in our earnings related to business factors, including changes in the competitive environment, changes in the operational economics of business activities and the potential effect of strategic and reputation risks, not already captured as market, interest-rate, credit or operational risks. We incorporate business risk into our assessment of our economic capital needs. Active management of business risk is an integral component of all aspects of our business, and responsibility for the management of business risk lies with every individual at State Street.

It is sometimes difficult to separate the effects of a potential material adverse event into operational and business risks. For instance, the direct financial impact of an unfavorable event in the form of fines or penalties would be classified as an operational risk loss, while the impact on our reputation and the potential loss of customers and corresponding decline in revenue would be classified as a business risk loss. An additional example of business risk is the integration of a major acquisition. Failure to successfully integrate the operations of an acquired business, and the resultant inability to retain customers, would be classified as a business risk loss.

Business risk is managed with a long-term focus. Techniques include the careful development of business plans and appropriate management oversight. The potential impact of the various elements of business risk is difficult to quantify with any degree of precision. We use a combination of historical earnings volatility, scenario analysis, stress-testing and management judgment to help assess the potential effect on State Street attributable to business risk. Management and control of business risks are generally the responsibility of the business units as part of their overall and strategic planning and internal risk management processes.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, we hold assets under custody and assets under management in a custodial or fiduciary capacity for our customers, and, in accordance with GAAP, we do not record these assets in our consolidated statement of condition. Similarly, collateral funds associated with our securities finance activities are held by us as agent; therefore, we do not record these assets in our consolidated statement of condition. Additional information about these and other off-balance sheet activities is in note 10 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

In the normal course of business, we utilize derivative financial instruments to support our customers' needs, to conduct trading activities and to manage our interest-rate and foreign currency risk. Additional information about our use of derivatives is in note 15 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

In the normal course of business, we utilize three types of special purpose entities, referred to as SPEs, two of which are not recorded in our consolidated financial statements. Information about the activities of these SPEs, which are used in connection with our tax-exempt investment program, our involvement with managed investment vehicles and our asset-backed commercial paper conduits, is in notes 10 and 11 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8. Additional information about the commercial paper conduits is provided below.

The risks associated with providing administration, liquidity, and/or credit enhancements to these special purpose entities are reviewed as part of our corporate risk management process in a manner that is consistent with applicable policies and guidelines. We believe that we have sufficient liquidity and have provided adequate credit reserves to cover any risks associated with these activities.

Asset-Backed Commercial Paper Programs

As further described in note 11 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8, we administer four third-party-owned, special-purpose, multi-seller asset-backed commercial paper programs, commonly referred to as "conduits," the first of which was established in 1992. These conduits, which are structured as bankruptcy-remote entities and are not recorded in our consolidated financial statements under existing accounting standards, are designed to satisfy the demand of our institutional customers, particularly mutual fund customers, for commercial paper.

Total assets in the four unconsolidated conduits were approximately \$28.76 billion at December 31, 2007 and \$25.25 billion at December 31, 2006. The conduits obtain funding through the issuance of commercial paper and hold diversified portfolios of investments, which are predominately composed of securities purchased in the capital markets. These investments are collateralized by mortgages, student loans, automobile and equipment loans and credit card receivables, most of which securities are investment grade. Conduit assets are not sourced from our consolidated balance sheet.

The following tables provide additional information regarding the composition of the conduits' asset portfolios, in the aggregate, as of December 31, 2007. As of this date, none of the conduits' portfolio securities were predominantly collateralized by sub-prime real estate mortgages.

CONDUIT ASSETS BY COLLATERAL TYPE	Amount	Percent of Total Conduit Assets
(Dollars in billions)		
Australian residential mortgage-backed securities	\$ 4.7	16%
European residential mortgage-backed securities	4.7	16
U.S. residential mortgage-backed securities	4.2	15
United Kingdom residential mortgage-backed securities	2.3	8
Student loans	3.3	11
Auto and equipment loans	2.8	10
Credit cards	2.0	7
Other(1)	4.8	17
Total conduit assets	\$ 28.8	100%

(1)

"Other" included trade receivables, collateralized debt obligations, business/commercial loans and other financial instruments. No individual asset class represented more than 2% of total conduit assets, except trade receivables, which were 3% of total conduit assets.

CONDUIT ASSETS BY CREDIT RATING	Amount	Percent of Total Conduit Assets
(Dollars in billions)		
AAA/Aaa	\$ 17.7	61%
AA/Aa	4.5	16
A/A	2.3	8
BBB/Baa	1.5	5
Not rated(2)	2.8	10
Total conduit assets	\$ 28.8	100%

(2)

These assets reflect structured transactions. The transactions have been reviewed by rating agencies and have been structured to maintain the conduits' P1 or similar rating.

CONDUIT ASSETS BY ASSET ORIGIN	Amount	Percent of Total Conduit Assets
(Dollars in billions)		
U.S.	\$ 12.2	42%
Australia	6.1	21
Great Britain	2.9	10
Spain	1.9	7
Italy	1.9	7
Portugal	0.7	2
Germany	0.7	2
Netherlands	0.5	2
Greece	0.3	1
Other	1.6	6
Total conduit assets	\$ 28.8	100%

Since the conduits were first organized beginning in 1992, we have entered into contractual obligations in the form of liquidity asset purchase agreements to support most or all of the liquidity of the conduits. We also provide credit enhancement to the conduits in the form of standby letters of credit. Other institutions can and do provide contractual liquidity to the conduits. As provided for in these agreements, we provide back-up liquidity in the event that the conduits cannot meet their funding needs through the issuance of commercial paper. In the event that maturing commercial paper cannot be reissued into the market by the conduits' dealer group, we and the other institutions providing liquidity may be required to provide liquidity by purchasing portfolio assets from the conduits. State Street may also provide liquidity by purchasing commercial paper or providing other extensions of credit to the conduits. As of December 31, 2007, State Streets' commitments under these liquidity asset purchase agreements and back-up lines of credit totaled approximately \$28.37 billion, and our commitments under standby letters of credit totaled \$1.04 billion.

The conduits generally sell commercial paper to third-party investors; however, we sometimes purchase commercial paper from the conduits. At December 31, 2007, we held on our consolidated balance sheet an aggregate of approximately \$2 million of commercial paper issued by the conduits. The highest total overnight position in the conduits' commercial paper held by State Street was approximately \$1.25 billion during 2007. This was higher than the levels of commercial paper we have historically held, and was reflective of both the reduced liquidity in the asset-backed commercial paper markets during the third and fourth quarters and our desire to provide short-term stability to funding costs given the lack of liquidity in the marketplace. There were no draw-downs on the liquidity asset purchase agreements or standby letters of credit during 2007.

As the third quarter of 2007 progressed and investors became increasingly concerned about the credit quality of the underlying assets generally held in asset-backed commercial paper conduits and similar vehicles, the resulting reduction in liquidity in the global fixed-income securities markets made the funding of the State Street-administered conduits more challenging than in normal market conditions, and the yields that issuers had to pay on asset-backed commercial paper increased. Consistent with the experience of other market participants, commercial paper was generally being placed by the State Street-administered conduits with shorter maturities and higher investor yields than historically experienced. This compressed the spread between the rate earned on the conduits' assets and the conduits' funding costs. The weighted-average maturity of the conduits' commercial paper was approximately 20 days as of December 31, 2007, compared to approximately 23 days as of December 31, 2006. However, the conduits continue to roll over the commercial paper as it matures, i.e., place the commercial paper with market participants, including State Street.

We intend to continue to manage the liquidity of the programs, if and as needed, through purchases of commercial paper as necessary; however, if due to further deterioration in the liquidity of the fixed-income markets or otherwise, it would become necessary to purchase assets from the conduits, we anticipate that we could fund those purchases.

During 2007, we did not experience any losses in our role as a liquidity and credit enhancement provider to the conduits, although the margins that we generated from administration of the conduits were lower than the levels historically achieved on commercial paper issued by the conduits. The fee revenue we generated from our involvement with the conduits was approximately \$66 million for 2007, \$62 million for 2006 and \$58 million for 2005. We earn fees from our role as administrator, liquidity or credit enhancement provider and as one of the dealers, which fees are priced on a market basis. These fees are recorded in processing fees and other revenue in our consolidated statement of income. Our overall conduit business activities generated pre-tax income, which included the fee revenue described above, of approximately \$23 million for 2007, compared to pre-tax income of \$49 million for 2006 and \$45 million for 2005. The decrease in this income from 2006 to 2007 primarily resulted from the change in fair value of basis swaps, as well as other conduit operating expenses.

As described above, we provide the conduits with contractual liquidity in the form of liquidity asset purchase agreements. If a conduit experienced a problem with an asset, such as a default or credit rating downgrade, subject to certain conditions, the liquidity asset purchase agreement could be invoked by the conduit, requiring State Street to purchase the asset from the conduit at prices which may exceed the fair value of the assets. If that occurred, we would be required to recognize a loss upon purchase of the asset. Any loss from a credit default would first be offset by the level of funding provided by the first-loss note holders. Currently, in light of the recent reduction in liquidity in the markets, with spreads on virtually all asset classes except U.S. treasuries having widened, we expect that an asset purchase would result in a loss. This loss may be recovered in future periods, depending on State Street's actions after the asset is purchased and market conditions.

It is also possible that we would be required to consolidate one or more of the conduits' assets and liabilities onto our consolidated balance sheet. This consolidation would occur if we were determined to be the primary beneficiary of the conduits as defined in FIN 46(R). For example, if we updated our expected loss model assumptions as a result of changes in market conditions or a downgrade of securities, we may be required to increase the amount of first-loss notes in order for the investors in the first-loss notes to continue to be considered the primary beneficiaries of the conduits. If the conduits are not able to issue additional first-loss notes or take other actions, we may be determined to be the primary beneficiary of the conduits, and would be required to consolidate the conduits' assets and liabilities onto our consolidated balance sheet. Additional information about our use of an expected loss model and the third-party investors in first-loss notes is provided in the "Significant Accounting Estimates—Special Purpose Entities" section of this Management's Discussion and Analysis and in note 11 of the Notes to Consolidated Financial Statements included in this Form 10-K under

Item 8. Our accounting treatment of the conduits is reviewed at least quarterly, and more frequently if specific events warrant.

As a result of the events in the global fixed-income securities markets, we reviewed the underlying assumptions incorporated in our FIN 46(R) expected loss model. We concluded as of December 31, 2007, that our model assumptions were appropriate and were reflective of market participant assumptions, and appropriately considered the probability of, and potential for, the recurrence of these events.

If consolidation were to occur because we were determined to be the primary beneficiary of the conduits as defined in FIN 46(R), we would consolidate the conduits' assets and liabilities onto our consolidated balance sheet at fair value. We expect that we would recognize an extraordinary loss on the date of consolidation if the fair value of the conduits' liabilities exceeded the fair value of the conduits' assets, as they do currently. This loss would be recovered back into income over the remaining lives of the assets, assuming that the assets were held to maturity and that we recovered the full principal amount of the securities.

Purchasing or consolidating all or a significant portion of the assets of the conduits would affect the size and composition of our consolidated balance sheet and alter our financial and regulatory capital ratios, and may affect our earnings. In light of our continued ability to manage the liquidity of the commercial paper, we do not currently anticipate that this action will become necessary. However, for illustrative purposes only, assuming estimated fair values of the conduits' assets as of December 31, 2007, if all of the conduits' assets were purchased under the liquidity asset purchase agreements, or if the conduits' assets and liabilities were consolidated onto our consolidated balance sheet, we estimate that we would recognize an after-tax loss of approximately \$530 million in our consolidated statement of income.

This estimate assumes that all of the conduits, with total assets of approximately \$28.76 billion as of December 31, 2007, are consolidated on that date; that the assets of the conduits are recorded at fair value, which is based on State Street's consistent application of its pricing policies for conduit assets; and that the pre-tax loss is tax-effected at a 40% marginal income tax rate. If this consolidation were to occur in the future, or we were required to purchase assets pursuant to the liquidity asset purchase agreements at prices in excess of the fair value of the assets, the ultimate amount of loss will be based upon market conditions at the date such a determination is made, which could differ from the estimate provided above. If the assets were consolidated for accounting purposes pursuant to FIN 46(R), we expect that this loss would be recorded as an extraordinary loss, after income from continuing operations. If we were to purchase the assets under the liquidity asset purchase agreements, to the extent that a loss was incurred, we expect that the loss would be recognized in continuing operations.

We consider the activities of the conduits in our liquidity management process, as more fully described in the "Liquidity" section of this Management's Discussion and Analysis. We would be able to access multiple sources of liquidity to fund required asset purchases, including sales of other assets, asset repurchase agreements, the issuance of corporate commercial paper, the issuance of bank certificates of deposit and time deposits, and accessing the Federal Reserve discount window or similar facilities in other jurisdictions in which we maintain significant banking operations. The consolidation of the conduits for accounting purposes alone would not require additional funding or liquidity for the conduits to fund their asset portfolios. However, if the reasons for consolidation related to an inability of the conduits to issue commercial paper, the conduits would require additional liquidity.

If we were required to consolidate the conduits' assets and liabilities, our regulatory capital ratios would be negatively impacted for a period of time. With respect to regulatory capital, the consolidation of the conduits' assets and liabilities would cause a reduction of our tier 1 and total risk-based capital ratios. The impact of consolidation on our tier 1 leverage ratio would be more significant, but the

degree of impact would depend on how and when consolidation occurred, since this ratio is a function of our consolidated total average assets over an entire quarter.

Assuming estimated fair values of the conduits' assets as of December 31, 2007, priced as described above, if all of the conduits' assets and liabilities were consolidated onto our consolidated balance sheet on December 31, 2007, and no other management actions were taken with respect to regulatory capital, the following table presents the estimated impact on State Street's and State Street Bank's regulatory capital ratios.

	State Street		State Street Bank	
	Reported as of December 31, 2007	Adjusted as of December 31, 2007	Reported as of December 31, 2007	Adjusted as of December 31, 2007
Tier 1 leverage ratio	5.3%	4.9%	5.5%	5.0%
Tier 1 risk-based capital ratio	11.2	10.3	11.2	10.3
Total risk-based capital ratio	12.7	11.8	12.7	11.8

RECENT ACCOUNTING DEVELOPMENTS

Information with respect to recent accounting developments is in note 1 of the Notes to Consolidated Financial Statements included in this Form 10-K under Item 8.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information set forth in the "Market Risk" section of "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in this Form 10-K under Item 7, is incorporated by reference herein.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Additional information about restrictions on the transfer of funds from State Street Bank to the parent company is included in this Form 10-K under Item 5, and in the "Financial Condition Capital" section of Management's Discussion and Analysis of Financial Condition and Results of Operations under Item 7.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

THE SHAREHOLDERS AND BOARD OF DIRECTORS OF STATE STREET CORPORATION

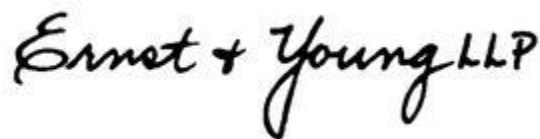

We have audited the accompanying consolidated statement of condition of State Street Corporation as of December 31, 2007 and 2006, and the related consolidated statements of income, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2007. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of State Street Corporation at December 31, 2007 and 2006, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of State Street Corporation's internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 14, 2008 expressed an unqualified opinion thereon.

As discussed in note 1 to the consolidated financial statements, in 2007 the Corporation has adopted Financial Accounting Standards Board Staff Position FAS 13-2, "Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction" and Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes."

Boston, Massachusetts

The accompanying notes are an integral part of these consolidated financial statements.

Note 1. Summary of Significant Accounting Policies

The accounting and financial reporting policies of State Street Corporation conform to accounting principles generally accepted in the United States of America, referred to as "GAAP." Unless otherwise indicated or unless the context requires otherwise, all references in these Notes to Consolidated Financial Statements to "State Street," "we," "us," "our" or similar references mean State Street Corporation and its subsidiaries on a consolidated basis. The parent company is a financial holding company headquartered in Boston, Massachusetts. We report two lines of business:

- Investment Servicing provides services for U.S. mutual funds and collective investment funds, corporate and public retirement plans, insurance companies, foundations, endowments and other investment pools worldwide. Products include custody, product- and participant-level accounting; daily pricing and administration; master trust and master custody; recordkeeping; foreign exchange, brokerage and other trading services; securities finance; deposit and short-term investment facilities; loans and lease financing; investment manager and hedge fund manager operations outsourcing; and performance, risk and compliance analytics to support institutional investors.
- Investment Management offers a broad array of services for managing financial assets, including investment management and investment research services, primarily for institutional investors worldwide. These services include passive and active U.S. and non-U.S. equity and fixed-income strategies, and other related services, such as securities finance.

The preparation of consolidated financial statements requires management to make estimates and assumptions in the application of certain of our accounting policies that materially affect the reported amounts of assets, liabilities, revenue and expenses. As a result of unanticipated events or circumstances, actual results could differ from those estimates. The following is a summary of our significant accounting policies.

Basis of Presentation:

Our consolidated financial statements include the accounts of the parent company and its majority-owned subsidiaries, including its principal banking subsidiary, State Street Bank and Trust Company, referred to as "State Street Bank." All material inter-company transactions and balances have been eliminated. Certain previously reported amounts have been reclassified to conform to current year presentation.

We consolidate subsidiaries in which we hold a majority of the voting rights or exercise control. Investments in unconsolidated subsidiaries, recorded in other assets, are generally accounted for using the equity method of accounting if we have the ability to exercise significant influence over the operations of the investee. For investments accounted for under the equity method, our share of income or loss is recorded in processing fees and other revenue. Investments not meeting the criteria for equity method treatment are accounted for using the cost method of accounting.

Foreign Currency Translation:

The assets and liabilities of our operations with functional currencies other than the U.S. dollar are translated at month-end exchange rates, and revenue and expenses are translated at rates that approximate average monthly exchange rates. Gains or losses from the translation of the net assets of subsidiaries with functional currencies other than the U.S. dollar, net of related taxes, are recorded in accumulated other comprehensive income.

Cash and Cash Equivalents:

For purposes of the consolidated statement of cash flows, cash equivalents have been defined as cash and due from banks.

Securities Purchased Under Resale Agreements and Securities Sold Under Repurchase Agreements:

U.S. Treasury and federal agency securities, referred to as "U.S. government securities," purchased under resale agreements or sold under repurchase agreements are treated as collateralized financing transactions, and are recorded in our consolidated statement of condition at the amounts at which the securities will be subsequently resold or repurchased, plus accrued interest. Our policy is to take possession or control of securities underlying resale agreements, allowing borrowers the right of collateral substitution and/or short-notice termination. We revalue these securities daily to determine if additional collateral is necessary from the borrower to protect us against credit exposure. We can use these securities as collateral for repurchase agreements. For securities sold under repurchase agreements collateralized by our U.S. government securities portfolio, the dollar value of the U.S. government securities remains in investment securities in our consolidated statement of condition. Where a master netting agreement exists or both parties are members of a common clearing organization, resale and repurchase agreements with the same counterparty or clearing house and maturity date are reported on a net basis.

Investment Securities Available for Sale and Held to Maturity:

Securities held in our investment securities portfolio are classified at the time of purchase, based on management's intentions, as available for sale or held to maturity. Securities available for sale are those that management intends to hold for an indefinite period of time, including securities used as part of our asset and liability management strategy that may be sold in response to changes in interest rates, pre-payment risk, liquidity needs or other similar factors. Debt and marketable equity securities classified as available for sale are reported at fair value, and after-tax net unrealized gains and losses are reported in accumulated other comprehensive income, a component of shareholders' equity. Gains or losses on sales of available-for-sale securities are computed using the specific identification method. Securities held to maturity are debt securities that management has the positive intent and ability to hold to maturity. Securities classified as held to maturity are reported at cost, adjusted for amortization of premiums and accretion of discounts.

Management reviews the fair value of the portfolio at least quarterly, and evaluates individual securities for declines in fair value that may be other than temporary, considering factors such as current and expected future interest rates, external credit ratings, dividend payments, the performance of underlying collateral, if any, the financial health of the issuer and other pertinent information, including current developments with respect to the issuer, as well as the duration of the decline and management's intent and ability to hold the security. If declines are deemed other than temporary, an impairment loss is recognized and the amortized cost basis of the investment security is written down to its current fair value, which becomes the new cost basis. Other-than-temporary unrealized losses on available-for-sale and held-to-maturity securities, if any, are recorded as a reduction of processing fees and other revenue.

Loans and Lease Financing:

Loans are generally reported at the principal amount outstanding, net of the allowance for loan losses, unearned income, and any net unamortized deferred loan origination fees. Interest revenue is recognized using the interest method or on a basis approximating a level rate of return over the term of the loan. Fees received for providing loan commitments and letters of credit that we anticipate will result in loans typically are deferred and amortized to interest revenue over the life of the related loan,

beginning with the initial borrowing. Fees on commitments and letters of credit are amortized to processing fees and other revenue over the commitment period when funding is not known or expected.

Loans are placed on non-accrual status when they become 60 days past due as to either principal or interest, or earlier when, in the opinion of management, full collection of principal or interest is not probable. Loans 60 days past due, but considered both well secured and in the process of collection, are treated as exceptions and may be exempted from non-accrual status. When we place a loan on non-accrual status, the accrual of interest is discontinued and previously recorded but unpaid interest is reversed and generally charged against net interest revenue. For loans on non-accrual status, revenue is recognized on a cash basis after recovery of principal, if and when interest payments are received.

Leveraged lease investments are reported at the aggregate of lease payments receivable and estimated residual values, net of non-recourse debt and unearned income. Lease residual values are reviewed regularly for other-than-temporary impairment, with valuation adjustments recorded currently against processing fees and other revenue. Unearned income is recognized to yield a level rate of return on the net investment in the leases. Gains and losses on residual values of leased equipment sold are recorded in processing fees and other revenue.

Allowance for Loan Losses:

The adequacy of the allowance for loan losses is evaluated on a regular basis by management. Factors considered in evaluating the adequacy of the allowance include previous loss experience, current economic conditions and adverse situations that may affect the borrower's ability to repay, the estimated value of the underlying collateral and the performance of individual credits in relation to contract terms, and other relevant factors. The provision for loan losses charged to earnings is based upon management's estimate of the amount necessary to maintain the allowance at a level adequate to absorb estimated probable credit losses.

Loans are charged off to the allowance for loan losses in the reporting period in which either an event occurs that confirms the existence of a loss or it is determined that a loan or a portion of a loan is not collectible. Recoveries are recorded on a cash basis.

In addition, we maintain a reserve for off-balance sheet credit exposures that is recorded in other liabilities. The adequacy of this reserve is subject to the same considerations and review as the allowance for loan losses. Provisions to change the level of this reserve are recorded in other operating expenses.

Premises and Equipment:

Buildings, leasehold improvements, computers, software and other equipment are carried at cost less accumulated depreciation and amortization. Depreciation and amortization recorded in operating expenses are computed using the straight-line method over the estimated useful lives of the related assets or the remaining terms of the leases, generally 3 to 40 years. Maintenance and repairs are charged to expense as incurred, while major leasehold improvements are capitalized and expensed over their estimated useful lives or terms of the lease. For premises held under leases where we have an obligation to restore the facilities to their original condition upon expiration of the lease, we expense the anticipated related costs over the term of the lease.

Costs related to internal-use software development projects that provide significant new functionality are capitalized. We consider projects for capitalization that are expected to yield long-term operational benefits, such as applications that result in operational efficiencies and/or incremental revenue streams. Software customization costs relating to specific customer enhancements are expensed as incurred.

Goodwill and Other Intangible Assets:

Goodwill represents the excess of the cost of an acquisition over the fair value of the net tangible and other intangible assets acquired. Other intangible assets represent purchased assets that can be distinguished from goodwill because of contractual rights or because the asset can be exchanged on its own or in combination with a related contract, asset or liability. Goodwill is not amortized, but is subject to annual impairment tests. Customer relationship intangible assets generally are amortized on a straight-line basis over periods ranging from twelve to twenty years, and core deposit intangible assets over twenty-two years, with amortization expense recorded in other operating expenses. Impairment of goodwill is deemed to exist if the carrying value of a reporting unit, including its allocation of goodwill and other intangible assets, exceeds its estimated fair value. Impairment of other intangibles is deemed to exist if the balance of the other intangible asset exceeds the cumulative net cash inflows related to the asset over its remaining estimated useful life. If it is determined, based on these reviews, that goodwill or other intangible assets are impaired, the value of the goodwill or the other intangible asset is written down through a charge to other operating expenses.

Fee and Net Interest Revenue:

Fees from investment servicing, investment management, securities finance, trading services and certain types of processing fees and other revenue are recorded based on estimates or specific contractual terms as transactions occur or services are rendered, provided that persuasive evidence exists, the price to the customer is fixed or determinable and collectibility is reasonably assured. Amounts accrued at period-end are recorded in accrued income receivable in our consolidated statement of condition. Investment management performance fees are recorded when earned, based on predetermined benchmarks associated with the applicable fund's performance. Interest revenue on interest-earning assets and interest expense on interest-bearing liabilities is recorded based on the effective yield of the related financial instrument.

Employee Benefits Expense:

Employee benefits expense includes prior and current service costs of pension and other postretirement benefit plans, which are accrued on a current basis, as well as contributions under defined contribution savings plans, unrestricted awards under other employee compensation plans, and the amortization of restricted stock awards.

Equity-Based Compensation:

We record compensation expense, equal to the estimated fair value of employee stock options on the grant date, on a straight-line basis over the options' vesting period. We use a Black-Scholes option-pricing model to determine the fair value of the options granted.

On January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*. This standard requires the fair value of all share-based payments to employees, including awards made prior to January 1, 2003, to be recognized in the consolidated statement of income. We elected to use the modified prospective method, under which compensation expense is recorded over the remaining vesting period for only the portion of stock awards not fully vested as of January 1, 2006. The impact of adoption of the standard was not material to our consolidated financial position or results of operations, because the number of options granted prior to January 1, 2003, that were not fully vested as of January 1, 2006, was not significant. In addition, we elected to adopt the alternative transition method prescribed by Financial Accounting Standards Board Staff Position No. FAS 123(R)-3, and reclassified \$86 million of tax benefits related to equity-based compensation from a general surplus account to a specifically designated surplus account within shareholders' equity.

The following table illustrates the pro forma effect on net income and earnings per share as if all outstanding and unvested stock options in 2005 were accounted for using estimated fair value.

	2005
Year ended December 31,	
(In millions, except per share amounts)	
Net income as reported	\$ 838
Add: Stock option compensation expense included in reported net income, net of related taxes	20
Deduct: Total stock option compensation expense determined under fair value method for all awards, net of related taxes	(27)
Pro forma net income	\$ 831
Earnings per share:	
Basic—as reported	\$ 2.53
Basic—pro forma	2.51
Diluted—as reported	2.50
Diluted—pro forma	2.48

Income Taxes:

We use an asset and liability approach to account for income taxes. Our objective is to recognize the amount of taxes payable or refundable for the current year through charges or credits to the current tax provision, and to recognize deferred tax assets and liabilities for the future tax consequences resulting from temporary differences between the amounts reported in the consolidated financial statements and their respective tax bases. The measurement of tax assets and liabilities is based on enacted tax laws and applicable tax rates. The financial statement effects of a tax position are recognized when we believe it more likely than not that the position will be sustained. A deferred tax valuation allowance is established if it is considered more likely than not that all or a portion of the deferred tax assets will not be realized.

Earnings Per Share:

Basic earnings per share is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period, which excludes unvested shares of restricted stock. Diluted earnings per share is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period and the shares representing the dilutive effect of stock options and awards and other equity-related financial instruments. The effect of stock options and restricted stock outstanding is excluded from the calculation of diluted earnings per share in periods in which their effect would be antidilutive.

Special Purpose Entities:

We are involved with various legal forms of special purpose entities, or SPEs, in the normal course of our business.

We use trusts to structure and sell certificated interests in pools of tax-exempt investment-grade assets principally to our mutual fund customers. These trusts are recorded in our consolidated financial statements. We transfer assets to these trusts, which are legally isolated from us, from our investment securities portfolio at adjusted book value. The trusts finance the acquisition of these assets by selling certificated interests issued by the trusts to third-party investors. The investment securities of the trusts are carried in investments securities available for sale at fair value. The certificated interests are carried in other short-term borrowings at the amount owed to the third-party investors. The interest revenue and interest expense generated by the investments and certificated interests, respectively, are recorded in net interest revenue when earned or incurred.

We use conduits in connection with an asset-backed commercial paper program that provides short-term investments for our customers. The conduits, which are administered by us, are third-party owned and are structured as bankruptcy-remote limited liability companies. The conduits purchase financial assets with various asset classifications from a variety of third-parties and fund those purchases by issuing commercial paper. We do not sell our own assets to these conduits. These conduits typically meet the definition of a variable interest entity, or VIE, as defined by FASB Interpretation No. 46(R), *Consolidation of Variable Interest Entities (revised December 2003)—an interpretation of ARB No. 51*. We have determined that we are not the primary beneficiary of the conduits, as defined by FIN 46(R), and do not record them in our consolidated financial statements. We periodically re-assess this determination, using a financial model, referred to as an "expected loss model," to ensure that consolidation is not required pursuant to FIN 46(R).

The primary beneficiary is the party that has one or more variable interests that will absorb a majority of a VIE's expected losses, receive a majority of the VIE's expected residual returns, or both. If we were to determine that we were the primary beneficiary of the conduits, we would consolidate them. We apply the expected loss model to the conduits to determine the primary beneficiaries of conduits meeting the definition of variable interest entities. Variabilities factored into the model include basis risk and credit risk, which are then allocated to the variable interest holders to determine which of those variable interest holders is the primary beneficiary. We hold no equity ownership interest in these conduits.

Investors in commercial paper issued by the conduits benefit from the liquidity support provided to the conduits, the majority of which is provided by us in the form of liquidity asset purchase agreements and backup liquidity lines of credit. We also provide direct credit support to the conduits in the form of standby letters of credit. Liquidity asset purchase agreements, backup liquidity lines of credit and standby letters of credit are not recorded in our consolidated financial statements but are reported as off-balance sheet commitments. We receive fees for providing administrative services to the conduits, as well as liquidity and direct credit support, all of which are based on market price and are recorded in processing fees and other revenue when earned.

We manage the collateral in certain third-party investment vehicles, referred to as CDOs, which structure and sell debt and equity securities to investors. These CDOs purchase a portfolio of diversified assets and fund these asset purchases through the issuance of several tranches of debt and equity, the repayment and return of which are linked to the performance of the assets in the CDO. Typically, our involvement is only as collateral manager. We may also invest in a small percentage of the debt issued. These CDOs typically meet the definition of a variable interest entity as defined by FIN 46(R). We have determined that we are not the primary beneficiary of these CDOs, and do not record them in our consolidated financial statements. We receive fees for asset management services provided to the CDOs, which are based on market price and are recorded in processing fees and other revenue when earned.

Derivative Financial Instruments:

A derivative financial instrument is a financial instrument or other contract which has one or more underlying and one or more notional amounts, no initial net investment, or a smaller initial net investment than would be expected for similar types of contracts, and which requires or permits net settlement. Derivatives that we enter into include forwards, futures, swaps, options and other instruments with similar characteristics.

We record derivatives in our consolidated statement of condition at their fair value. On the date a derivative contract is entered into, we designate the derivative as: (1) a hedge of the fair value of a recognized fixed-rate asset or liability or of an unrecognized firm commitment (a "fair value" hedge); (2) a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related

to a recognized variable-rate asset or liability (a "cash flow" hedge); (3) a foreign currency fair value or cash flow hedge (a "foreign currency" hedge); (4) a hedge of a net investment in a non-U.S. operation; or (5) held for trading purposes ("trading" instruments).

Changes in the fair value of a derivative that is highly effective—and that is designated and qualifies as a fair value hedge—are recorded currently in processing fees and other revenue, along with the changes in fair value of the hedged asset or liability attributable to the hedged risk. Changes in the fair value of a derivative that is highly effective—and that is designated and qualifies as a cash flow hedge—are recorded, net of tax, in other comprehensive income, until earnings are affected by the hedged cash flows (*e.g.*, when periodic settlements on a variable-rate asset or liability are recorded in earnings). Cash flow hedge ineffectiveness, defined as the extent to which the changes in fair value of the derivative exceed the variability of cash flows of the forecasted transaction, is recorded in processing fees and other revenue.

Changes in the fair value of a derivative that is highly effective—and that is designated and qualifies as a foreign currency hedge—are recorded currently either in processing fees and other revenue or in other comprehensive income, net of tax, depending on whether the hedge transaction meets the criteria for a fair value or a cash flow hedge. If, however, a derivative is used as a hedge of a net investment in a non-U.S. operation, its changes in fair value, to the extent effective as a hedge, are recorded, net of tax, in the foreign currency translation component of other comprehensive income. Lastly, entire changes in the fair value of derivatives classified as trading instruments are recorded in trading services revenue.

At both the inception of the hedge and on an ongoing basis, we formally assess and document the effectiveness of a derivative designated as a hedge in offsetting changes in the fair value of hedged items and the likelihood that the derivative will be an effective hedge in future periods. We discontinue hedge accounting prospectively when we determine that the derivative will not remain effective in offsetting changes in fair value or cash flows of the underlying risk being hedged, the derivative expires, terminates or is sold, or management discontinues the hedge designation.

Unrealized gains and losses on foreign exchange and interest-rate contracts are reported at fair value in the consolidated statement of condition as a component of other assets and other liabilities, respectively, on a gross basis, except where such gains and losses arise from contracts covered by qualifying master netting agreements.

Recent Accounting Developments:

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51*. SFAS No. 160 will change the accounting and reporting for minority interests, which will be recharacterized as "noncontrolling interests" and classified as a component of equity. This new consolidation method will significantly change the accounting for transactions with minority interest holders. The provisions of this standard are effective beginning January 1, 2009. We are currently evaluating the potential impact of adoption of this standard on our consolidated financial position and results of operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations*. SFAS No. 141(R) will significantly change the accounting for business combinations in a number of areas, including the treatment of contingent consideration, contingencies, acquisition costs, in-process research and development costs and restructuring costs. In addition, under SFAS No. 141(R), changes in deferred tax asset valuation allowances and acquired income tax uncertainties in a business combination after the measurement period will impact income tax expense. The provisions of this standard are effective beginning January 1, 2009. We are currently evaluating the potential impact of adoption of this new standard on our consolidated financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115*. This new standard is designed to reduce complexity in accounting for financial instruments and lessen earnings volatility caused by measuring related assets and liabilities differently. The standard creates presentation and disclosure requirements designed to aid comparisons between companies that use different measurement attributes for similar types of assets and liabilities. The standard, which is expected to expand the use of fair value measurement, permits entities to choose to measure many financial instruments and certain other items at fair value, with unrealized gains and losses on those assets and liabilities recorded in earnings. The fair value option may be applied on a financial instrument by financial instrument basis, with a few exceptions, and is irrevocable for those financial instruments once applied. The fair value option may only be applied to entire financial instruments, not portions of instruments.

The standard does not eliminate disclosures required by SFAS No. 107, *Disclosures About Fair Value of Financial Instruments*, or SFAS No. 157, *Fair Value Measurements*, the latter of which is described below. The provisions of the standard were effective for our consolidated financial statements beginning January 1, 2008. We have not elected the fair value option under SFAS No. 159, but may elect to do so in future periods.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This new standard defines fair value, establishes a framework for measuring fair value in conformity with GAAP, and expands disclosures about fair value measurements. Prior to this standard, there were varying definitions of fair value, and the limited guidance for applying those definitions under GAAP was dispersed among the many accounting pronouncements that require fair value measurements. The new standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The standard applies under other accounting pronouncements that require or permit fair value measurements, since the FASB previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. As a result, the new standard does not establish any new fair value measurements itself, but applies to other accounting standards that require the use of fair value for recognition or disclosure. In particular, the framework in the new standard will be required for financial instruments for which fair value is elected, such as under the newly issued SFAS No. 159, discussed above.

The new standard requires companies to disclose the fair value of its financial instruments according to a fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial instruments carried at fair value will be classified and disclosed in one of the three categories in accordance with the hierarchy. The three levels of the fair value hierarchy are:

- level 1: Quoted market prices for identical assets or liabilities in active markets;
- level 2: Observable market-based inputs or unobservable inputs corroborated by market data; and
- level 3: Unobservable inputs that are not corroborated by market data.

In addition, the standard requires enhanced disclosure with respect to the activities of those financial instruments classified within the level 3 category, including a roll-forward analysis of fair value balance sheet amounts for each major category of assets and liabilities and disclosure of the unrealized gains and losses for level 3 positions held at the reporting date.

The standard is intended to increase consistency and comparability in fair value measurements and disclosures about fair value measurements, and encourages entities to combine the fair value information disclosed under the standard with the fair value information disclosed under other accounting pronouncements, including SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, where practicable. The provisions of this standard were effective beginning January 1, 2008. Our adoption of the standard's provisions did not materially impact our consolidated financial position and results of operations. We will provide the disclosures required by the new standard in our first quarter 2008 Form 10-Q.

In July 2006, the FASB issued FASB Staff Position No. FAS 13-2, *Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction*. The Staff Position, the provisions of which were applied on January 1, 2007, requires that the recognition of lease income over the term of a lease be recalculated if a change in the expected timing of tax-related cash flows occurs. Our application of the Staff Position's provisions to certain of our leveraged leases resulted in a cumulative after-tax reduction of the beginning balance of retained earnings on January 1, 2007 of approximately \$226 million. Future income from the affected leases is expected to increase over the remaining terms of the affected leases by an amount approximately equal to the after-tax reduction.

In July 2006, to improve comparability in the reporting of income tax assets and liabilities in the absence of guidance in existing income tax accounting standards, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109*. Generally, this Interpretation clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with existing income tax accounting standards, and prescribes certain thresholds and attributes for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. The provisions of the Interpretation were applied on January 1, 2007, and did not have a material impact on our consolidated financial position or results of operations. Disclosures required by the Interpretation are provided in note 20.

Note 2. Acquisitions and Divestitures

On July 2, 2007, we completed our acquisition of Investors Financial Services Corp., a bank holding company based in Boston, Massachusetts with approximately \$17 billion in total assets and approximately \$1.9 trillion in assets under custody. We acquired Investors Financial in order to enhance our position as a worldwide service provider to institutional investors. We exchanged approximately 60.8 million shares of our common stock, with an aggregate value of approximately \$4.2 billion, for all of the outstanding common stock of Investors Financial. Financial results of the acquired Investors Financial business are included in our consolidated financial statements beginning on July 2, 2007.

As presented in the following table, the purchase price was allocated to the assets acquired and the liabilities assumed based on their fair values at the acquisition date. Customer relationship and core deposit intangible assets are being amortized on a straight-line basis over 20 years and 22 years, respectively. Additional information about goodwill and other intangible assets is in note 5.

(Dollars in millions, except per share amounts)

Goodwill resulting from acquisition	\$	2,710

(1)

The value per share of State Street common stock exchanged with Investors Financial shareholders was based on a five-day average closing share price for two days before and two days after the announcement date of February 5, 2007.

The following table presents pro forma combined consolidated results of operations of State Street and Investors Financial as though the acquisition had been completed on January 1, 2006.

	Years ended December 31,	
	2007	2006
(Dollars in millions, except per share amounts)		
Total fee revenue	\$ 6,966	\$ 5,822
Net interest revenue	1,832	1,274
Gains on sales of available-for-sale investment securities, net	7	18
Total revenue	8,805	7,114
Total operating expenses	6,831	5,187
Income from continuing operations before income tax expense	1,974	1,927
Income tax expense from continuing operations	666	721
Income from continuing operations	\$ 1,308	\$ 1,206
Earnings per share from continuing operations:		
Basic	\$ 3.35	\$ 3.08
Diluted	3.30	3.04
Average shares outstanding (in thousands):		
Basic	390,565	390,901
Diluted	396,734	396,881

During the second half of 2007, in connection with the acquisition, we recorded merger and integration costs of approximately \$198 million in our consolidated statement of income. These costs consisted only of direct and incremental costs to integrate the acquired Investors Financial business into our operations. These costs do not include on-going expenses of the combined organization.

(In millions)	
Lease termination	\$ 91
Retention and other compensation	42
System and customer integration	22
Other	23
	178
Premium associated with redemption of State Street junior subordinated debentures	20
Total merger and integration costs	\$ 198

In connection with the acquisition, we recorded liabilities for exit and termination costs related to the acquired Investors Financial business of approximately \$67 million. These costs were recorded as part of the purchase price, and resulted in additional goodwill. Payment of liabilities associated with contract terminations and severance is expected to be substantially completed by the end of 2008. The liability related to lease abandonments will be amortized over the term of the related leases, which is approximately twelve years.

The following table presents activity related to these liabilities for 2007.

(In millions)	Contract terminations	Severance	Lease abandonments	Total
Balance on July 2, 2007	\$ 10	\$ 26	\$ 31	\$ 67
Payments	—	6	—	6
Balance at end of year	\$ 10	\$ 20	\$ 31	\$ 61

In March 2007, we completed our acquisition of Currenex, Inc., an independently owned electronic foreign exchange trading platform. We paid approximately \$564 million, net of liabilities assumed, and recorded the following significant assets: goodwill—\$437 million; customer relationship and other intangible assets—\$174 million; and other tangible assets—\$25 million. The customer relationship and other intangible assets are being amortized on a straight-line basis over periods ranging from eight to twelve years. Financial results of Currenex are included in the accompanying consolidated financial statements beginning on March 2, 2007.

During the first quarter of 2006, we agreed to a plan of sale to finalize the divestiture of our ownership interest in Bel Air Investment Advisors LLC, and recorded income of approximately \$16 million, or \$10 million after-tax, related to the finalization of legal, selling and other costs recorded in connection with the divestiture. We completed the divestiture in July 2006.

Note 3. Investment Securities

	2007				2006

Other debt investments	758	9	928	18	1,686	27
Other equity securities	18	1	—	—	18	1
Total	\$ 11,581	\$ 159	\$ 37,447	\$ 1,236	\$ 49,028	\$ 1,395

As described in note 1, management periodically reviews the investment securities portfolio to determine if other-than-temporary impairment has occurred. This review encompasses all investment securities and includes such quantitative factors as current and expected future interest rates, the length of time the cost basis has exceeded the fair value and the severity of the impairment measured as the ratio of fair value to amortized cost, and includes all investment securities for which we have issuer-specific concerns regardless of quantitative factors. After a full review of all investment securities, taking into consideration current economic conditions, adverse situations that might affect our ability to fully collect interest and principal, the timing of future payments, the credit quality and performance of the underlying collateral of asset-backed securities, and other relevant factors, management considers the aggregate decline in fair value and the resulting gross unrealized losses of \$1.40 billion on 2,702 securities at December 31, 2007 to be temporary. The losses are not considered to be the result of any material changes in the credit characteristics of the investment securities. Management has the ability and the intent to hold the securities until recovery in market value.

Gross gains and losses realized from sales of available-for-sale securities were as follows for the years indicated:

	2007	2006	2005
(In millions)			
Gross gains	\$ 24	\$ 33	\$ 9
Gross losses	17	18	10
Net gains (losses)	\$ 7	\$ 15	\$ (1)

Contractual maturities of debt investment securities were as follows as of December 31, 2007:

	Under 1 Year	1 to 5 Years	6 to 10 Years	Over 10 Years
(In millions)				
Available for sale:				
U.S. Treasury and federal agencies:				
Direct obligations	\$ 5,683	\$ 1,072	\$ 520	\$ 906
Mortgage-backed securities	116	1,384	4,152	8,933
Asset-backed securities	1,304	11,321	8,223	4,221
Collateralized mortgage obligations	170	3,156	3,617	4,949
State and political subdivisions	370	1,997	1,644	1,802
Other investments	1,686	1,405	906	44
Total	\$ 9,329	\$ 20,335	\$ 19,062	\$ 20,855
Held to maturity:

Other investments	163	119	61	3
Total	\$ 419	\$ 1,375	\$ 1,360	\$ 1,079

The maturities of asset-backed securities, mortgage-backed securities and collateralized mortgage obligations are based upon expected principal payments.

Note 4. Loans and Lease Financing

	2007	2006
(In millions)		
Commercial and financial:		
U.S.	\$ 9,402	\$ 3,480
Non-U.S.	4,420	3,137
Lease financing:		
U.S.	396	415
Non-U.S.	1,584	1,914
Total loans	15,802	8,946
Less allowance for loan losses	(18)	(18)
Net loans	\$ 15,784	\$ 8,928

Aggregate securities settlement advances and overdrafts included in commercial and financial loans in the table above were \$11.65 billion and \$5.69 billion at December 31, 2007 and 2006, respectively.

The components of the net investment in leveraged leases were as follows as of December 31:

	2007	2006
(In millions)		
Net rental income receivable	\$ 3,264	\$ 3,272
Estimated residual values	222	196
Unearned income	(1,506)	(1,139)
Investment in leveraged leases	1,980	2,329
Less related deferred income taxes	(1,177)	(1,779)
Net investment in leveraged leases	\$ 803	\$ 550

Changes in the allowance for loan losses were as follows for the years ended December 31:

	2007	2006	2005
(In millions)			
Balance at beginning of year	\$ 18	\$ 18	\$ 18
Provision for loan losses	—	—	—
Reclassification	—	—	—
Balance at end of year	\$ 18	\$ 18	\$ 18

Note 5. Goodwill and Other Intangible Assets

Changes in the carrying amount of goodwill were as follows for the years ended December 31:

	Investment Servicing	Investment Management	Total
(In millions)			
Balance at December 31, 2005	\$ 1,330	\$ 7	\$ 1,337
Foreign currency translation adjustments	46	1	47
Balance at December 31, 2006	1,376	8	1,384
Acquisition of Currenex	437	—	437
Acquisition of Investors Financial	2,710	—	2,710
Other acquisitions	26	—	26
Foreign currency translation adjustments	10	—	10
Balance at December 31, 2007	\$ 4,559	\$ 8	\$ 4,567

The gross carrying amount and accumulated amortization of other intangible assets were as follows as of December 31:

	2007			2006		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
(In millions)						
Customer relationships	\$ 1,695	\$ (253)	\$ 1,442	\$ 564	\$ (170)	\$ 394
Core deposits	500	(11)	489	—	—	—
Other	75	(16)	59	50	(10)	40
Total	\$ 2,270	\$ (280)	\$ 1,990	\$ 614	\$ (180)	\$ 434

Amortization expense related to other intangible assets was \$92 million, \$43 million and \$43 million for the years ended December 31, 2007, 2006 and 2005, respectively. Expected amortization expense for intangibles held at December 31, 2007 is \$132 million for 2008 and 2009, \$130 million for 2010, and \$128 million for 2011 and 2012.

Note 6. Other Assets

Other assets consisted of the following as of December 31:

	2007	2006
(In millions)		
Unrealized gains on derivative financial instruments	\$ 4,513	\$ 3,060
Equity investments in unconsolidated subsidiaries	398	336
Prepaid pension expense	93	53
Other	2,075	1,922
Total	\$ 7,079	\$ 5,371

Note 7. Deposits

At December 31, 2007 and 2006, we had \$20.90 billion and \$16.74 billion, respectively, of time deposits outstanding. Non-U.S. time deposits were \$3.71 billion and \$6.80 billion at December 31, 2007 and 2006, respectively. Substantially all U.S. and non-U.S. time deposits were in amounts of \$100,000 or more. The scheduled maturities of time deposits were as follows at December 31, 2007:

(In millions)	
2008	\$ 20,712
2009	172
2010	7
2011	5
2012	—
After 2012	—
Total	\$ 20,896

At December 31, 2007, the scheduled maturities of U.S. time deposits were as follows:

(In millions)	
3 months or less	\$ 17,010
4 months to a year	3
Over one year	177
Total	\$ 17,190

Note 8. Short-Term Borrowings

Our short-term borrowings include securities sold under repurchase agreements, federal funds purchased and other short-term borrowings, including commercial paper. Collectively, short-term borrowings had weighted-average interest rates of 4.36% and 4.46% for the years ended December 31, 2007 and 2006, respectively.

The following table reflects the amounts outstanding and weighted-average interest rates of the primary components of short-term borrowings as of and for the years ended December 31:

	Federal Funds Purchased			Securities Sold Under Repurchase Agreements		
	2007	2006	2005	2007	2006	2005
(Dollars in millions)						
Balance at December 31	\$ 425	\$ 2,147	\$ 1,204	\$ 14,646	\$ 19,147	\$ 20,895
Maximum outstanding at any month end	5,007	8,040	3,982	20,108	23,024	24,690
Average outstanding during the year	1,667	2,777	2,306	16,132	20,883	22,432
Weighted average interest rate at end of year	3.06%	5.18%	4.08%	3.40%	4.43%	3.79%
Weighted average interest rate during the year	5.15	5.04	3.23	4.35	4.38	2.73

Securities sold under repurchase agreements included the following at December 31, 2007:

(In millions)	
Collateralized with securities purchased under resale agreements	\$ 9,354
Collateralized with investment securities	5,292
Total	\$ 14,646

The obligations to repurchase securities sold are recorded as a liability in our consolidated statement of condition. U.S. government securities with a fair value of \$5.48 billion underlying the repurchase agreements remained in investment securities. Information about these U.S. government securities and the related repurchase agreements, including accrued interest, as of December 31, 2007, is presented in the following table. The table excludes repurchase agreements collateralized with securities purchased under resale agreements.

	U.S. Government Securities Sold		Repurchase Agreements	
	Amortized Cost	Fair Value	Amortized Cost	Rate
(Dollars in millions)				
Overnight maturity	\$ 5,395	\$ 5,479	\$ 5,292	3.40%

During 2005, we entered into an agreement with a clearing organization that enables us to net all securities purchased under resale agreements and sold under repurchase agreements with counterparties that are also members of this organization. As a result of netting, the average balances of securities purchased under resale agreements and securities sold under repurchase agreements were each reduced by \$13.38 billion for 2007 and \$6.41 billion for 2006.

Other short-term borrowings at December 31, 2007 and 2006, included \$3.08 billion and \$1.79 billion, respectively, of certificated interests related to our tax-exempt investment program, which is discussed in note 11.

We maintain a commercial paper program under which we can issue up to \$3 billion with original maturities of up to 270 days from the date of issue. At December 31, 2007 and 2006, \$2.36 billion and \$998 million, respectively, of commercial paper were outstanding. In addition, State Street Bank has authority to issue bank notes up to an aggregate of \$750 million with original maturities ranging from 14 days to five years. At December 31, 2007 and 2006, no notes payable were outstanding, and at December 31, 2007, all \$750 million was available for issuance.

State Street Bank maintains a line of credit of CAD \$800 million, or approximately \$805 million, to support its Canadian securities processing operations. The line of credit has no stated termination

date and is cancelable by either party with prior notice. At December 31, 2007, no balance was due on this line of credit.

Note 9. Long-Term Debt

	2007	2006
(Dollars in millions)		
Statutory business trusts:		
Floating-rate subordinated notes due to State Street Capital Trust IV in 2067	\$ 800	
8.035% subordinated notes due to State Street Capital Trust B in 2027	—	\$ 309
7.94% subordinated notes due to State Street Capital Trust A in 2026	—	206
Floating-rate subordinated notes due to State Street Capital Trust I in 2028(2)	155	155
9.77% subordinated notes due to Investors Capital Trust I in 2027	25	—
Parent company and non-bank subsidiary issuances:		
Long-term capital lease	486	501
5.375% notes due 2017	450	—
7.65% subordinated notes due 2010(1)	304	294
Floating-rate notes due 2012	250	—
7.35% notes due 2026	150	150
9.50% mortgage note due 2009	3	6
State Street Bank issuances:		
5.25% subordinated notes due 2018(1)	413	396
5.30% subordinated notes due 2016	400	399
Floating-rate subordinated notes due 2015(2)	200	200
Total long-term debt	\$ 3,636	\$ 2,616

(1) We have entered into various interest-rate swap contracts to modify our interest expense on certain subordinated notes from a fixed rate to a floating rate. These swaps are recorded as fair value hedges, and at December 31, 2007 and 2006, we recorded an increase of \$19 million and a decrease of \$9 million, respectively, in the carrying value of long-term debt.

(2) We have entered into interest-rate swaps, which are recorded as cash flow hedges, to modify our floating-rate interest expense on the subordinated notes due 2028 and 2015 to a fixed rate.

See note 15 for additional information about derivatives.

We maintain an effective universal shelf registration that allows for the offering and sale of debt securities, capital securities, common stock, depositary shares and preferred stock, and warrants to purchase such securities, including any shares into which the preferred stock and depositary shares may be convertible, or any combination thereof.

Statutory Business Trusts:

As of December 31, 2007, we had three statutory business trusts, State Street Capital Trusts I and IV, and Investors Capital Trust I, which as of December 31, 2007, collectively had issued \$975 million of cumulative quarterly income trust preferred capital securities.

Proceeds received by the trusts from their capitalization and from their capital securities issuances are invested in junior subordinated debentures issued by the parent company. The junior subordinated debentures are the sole assets of the trusts. The trusts are wholly-owned by us; however, we do not consolidate the trusts under existing accounting standards.

Payments made by the trusts on the capital securities are dependent on our payments made to the trusts on the junior subordinated debentures. Our fulfillment of these commitments has the effect of providing a full, irrevocable and unconditional guarantee of the trusts' obligations under the capital securities. While the capital securities issued by the trusts are not recorded in our consolidated statement of condition, the junior subordinated debentures qualify for inclusion in tier 1 regulatory capital under federal regulatory capital guidelines. Information about restrictions on our ability to obtain funds from our subsidiary banks is in note 14.

Interest paid on the debentures is recorded in interest expense. Distributions on the capital securities are payable from interest payments received on the debentures and are due quarterly by State Street Capital Trusts I and IV, subject to deferral for up to five years under certain conditions. The capital securities are subject to mandatory redemption in whole at the stated maturity upon repayment of the debentures, with an option by us to redeem the debentures at any time upon the occurrence of certain tax events or changes to tax treatment, investment company regulation or capital treatment; or at any time after May 15, 2008 for the Capital Trust I securities and any time after June 15, 2012 for the Capital Trust IV securities. Redemptions are subject to federal regulatory approval.

In April 2007, State Street Capital Trust IV, a Delaware statutory trust wholly owned by the parent company, issued \$800 million in aggregate liquidation amount of floating-rate capital securities and used the proceeds to purchase a like amount of floating-rate junior subordinated debentures from the parent company. The capital securities represent an undivided preferred beneficial interest in those junior subordinated debentures, which are the only assets of the trust. The junior subordinated debentures have an initial scheduled maturity in June 2037 and an initial final repayment date in June 2067, each of which we may extend by ten years in specified circumstances. In accordance with existing accounting standards, we did not record the trust in our consolidated financial statements. The junior subordinated debentures qualify for inclusion in tier 1 regulatory capital.

In connection with the issuance of the junior subordinated debentures, the parent company entered into a replacement capital covenant in which it agreed, for the benefit of the holders of its junior subordinated debentures due 2028 underlying the floating-rate capital securities issued by State Street Capital Trust I, that it will not repay, redeem or repurchase, and that none of its subsidiaries will purchase, any part of the newly issued debentures or the floating-rate capital securities on or before June 1, 2047, unless the repayment, redemption or repurchase is made from the net cash proceeds of the issuance of certain qualified securities and pursuant to the other terms and conditions set forth in the covenant.

In July 2007, we redeemed an aggregate of \$500 million of unsecured junior subordinated debentures issued by the parent company to two of our statutory business trusts, State Street Capital Trusts A and B, composed of \$200 million of 7.94% debentures issued in 1996 and \$300 million of 8.035% debentures issued in 1997. We paid the trusts the outstanding amount on the debentures plus accrued interest and an aggregate redemption premium of approximately \$20 million. This redemption premium was included in the merger and integration costs which were recorded during the second half of 2007 in connection with the Investors Financial acquisition.

In July 2007, the trusts, consistent with the terms of their applicable governing documents, redeemed their respective outstanding capital securities, with an aggregate liquidation amount of \$500 million, corresponding to the debentures. The trusts paid to the holders of the outstanding capital securities the same amount that was paid by the parent company to the trusts to redeem the debentures.

In January 2008, State Street Capital Trust III, a Delaware statutory trust wholly owned by the parent company, issued \$500 million in aggregate liquidation amount of 8.250% fixed-to-floating rate normal automatic preferred enhanced capital securities, referred to as "normal APEX," and used the

proceeds to purchase a like amount of remarketable 6.001% junior subordinated debentures due 2042 from the parent company. In addition, the trust entered into stock purchase contracts with the parent company under which the trust agrees to purchase, and the parent company agrees to sell, on the stock purchase date, a like amount in aggregate liquidation amount of the parent company's non-cumulative perpetual preferred stock, series A, \$100,000 liquidation preference per share. State Street will make contract payments to the trust at an annual rate of 2.249% of the stated amount of \$100,000 per stock purchase contract. The normal APEX are beneficial interests in the trust. The trust will pass through, as distributions on or the redemption price of normal APEX, amounts that it receives on its assets that are the corresponding assets for the normal APEX. The corresponding assets for each normal APEX, \$1,000 liquidation amount, initially are \$1,000 principal amount of the 6.001% junior subordinated debentures and a 1/100th, or a \$1,000, interest in a stock purchase contract for the purchase and sale of one share of the Series A preferred stock for \$100,000. The stock purchase date is expected to be March 15, 2011, but it may occur on an earlier date or as late as March 15, 2012. From and after the stock purchase date, the corresponding asset for each normal APEX will be a 1/100th, or a \$1,000, interest in one share of the Series A preferred stock. In accordance with existing accounting standards, we did not record the trust in our consolidated financial statements. The junior subordinated debentures qualify for inclusion in tier 1 regulatory capital.

Parent Company and Non-Bank Subsidiary Issuances:

At December 31, 2007 and 2006, \$486 million and \$501 million, respectively, were included in long-term debt related to the capital leases for One Lincoln Street and the One Lincoln Street parking garage. See note 18 for additional information. The 7.65% subordinated notes due 2010 qualify as tier 2 regulatory capital under federal regulatory capital guidelines. The 7.35% notes are unsecured. The 9.50% mortgage note was fully collateralized by property at December 31, 2005. The scheduled principal payments for the next two years are \$3 million for 2008 and less than \$1 million for 2009, at which time the debt will be entirely paid off.

In April 2007, the parent company issued \$700 million of senior debt, consisting of \$250 million of floating-rate notes due in 2012 and \$450 million of 5.375% notes due in 2017. Interest on the floating-rate notes will be paid quarterly, and on the 5.375% notes will be paid semi-annually. Neither the floating-rate notes nor the 5.375% notes may be redeemed prior to maturity. Both the floating-rate notes and the 5.375% notes are unsecured.

State Street Bank Issuances:

State Street Bank has authority to issue up to an aggregate of \$1 billion of subordinated fixed-rate, floating-rate or zero-coupon bank notes with a maturity of five to fifteen years. With respect to the 5.25% subordinated bank notes due 2018, State Street Bank is required to make semi-annual interest payments on the outstanding principal balance of the notes on April 15 and October 15 of each year, and the notes qualify for inclusion in tier 2 regulatory capital.

With respect to the 5.30% subordinated notes due 2016 and the floating-rate subordinated notes due 2015, State Street Bank is required to make semi-annual interest payments on the outstanding principal balance of the 5.30% notes on January 15 and July 15 of each year beginning in July 2006, and quarterly interest payments on the outstanding principal balance of the floating-rate notes on March 8, June 8, September 8 and December 8 of each year beginning in March 2006. The notes qualify for inclusion in tier 2 regulatory capital.

Note 10. Commitments and Contingencies

Off-Balance Sheet Commitments and Contingencies:

Credit-related financial instruments include indemnified securities financing, unfunded commitments to extend credit or purchase assets and standby letters of credit. The total potential loss on unfunded commitments, standby letters of credit and securities finance indemnifications is equal to the total contractual amount, which does not consider the value of any collateral.

The following is a summary of the contractual amount of credit-related, off-balance sheet financial instruments at December 31. Amounts reported do not reflect participations to independent third parties.

	2007	2006
(In millions)		
Indemnified securities financing	\$ 558,368	\$ 506,032
Liquidity asset purchase agreements	35,339	30,251
Unfunded commitments to extend credit	17,533	16,354
Standby letters of credit	4,711	4,926

On behalf of our customers, we lend their securities to creditworthy brokers and other institutions. In certain circumstances, we may indemnify our customers for the fair market value of those securities against a failure of the borrower to return such securities. Collateral funds received in connection with our securities finance services are held by us as agent and are not recorded in our consolidated statement of condition. We require the borrowers to provide collateral in an amount equal to or in excess of 100% of the fair market value of the securities borrowed. The borrowed securities are revalued daily to determine if additional collateral is necessary. In this regard, we held, as agent, cash and U.S. government securities totaling \$572.93 billion and \$527.37 billion as collateral for indemnified securities on loan at December 31, 2007 and 2006, respectively.

Approximately 82% of the unfunded commitments to extend credit and liquidity asset purchase agreements expire within one year from the date of issue. Since many of the commitments are expected to expire or renew without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

In the normal course of business, we provide liquidity and credit enhancements to asset-backed commercial paper programs, referred to as "conduits." These conduits are described in note 11. The commercial paper issuances and commitments of the conduits to provide funding are supported by liquidity asset purchase agreements and backup liquidity lines of credit, the majority of which are provided by us. In addition, we provide direct credit support to the conduits in the form of standby letters of credit. Our commitments under liquidity asset purchase agreements and back-up lines of credit totaled \$28.37 billion at December 31, 2007, and are included in the preceding table. Our commitments under standby letters of credit totaled \$1.04 billion at December 31, 2007, and are also included in the preceding table.

Deterioration in asset performance or certain other factors affecting the liquidity of the commercial paper may shift the asset risk from the commercial paper investors to us as the liquidity or credit enhancement provider. In addition, the conduits may need to draw upon the back-up facilities to repay maturing commercial paper. In these instances, we would either acquire the assets of the conduits or make loans to the conduits secured by the conduits' assets.

In the normal course of business, we offer products that provide book value protection primarily to plan participants in stable value funds of postretirement defined contribution benefit plans, particularly 401(k) plans. The book value protection is provided on portfolios of intermediate, investment grade fixed-income securities, and is intended to provide safety and stable growth of principal invested. The protection is intended to cover any shortfall in the event that a significant number of plan participants

withdraw funds when book value exceeds market value and the liquidation of the assets is not sufficient to redeem the participants. To manage our exposure, we impose significant restrictions and constraints on the timing and cause of the withdrawals, the manner in which the portfolio is liquidated and the funds are accessed, and the investment parameters of the underlying portfolio. These constraints, combined with structural protections, are designed to provide adequate cushion and guard against payments even under extreme stress scenarios. As of December 31, 2007 and 2006, the notional amount of these guarantees totaled \$44.99 billion and \$38.37 billion, respectively. As of December 31, 2007, we have not made a payment under these products, and management believes that the probability of payment under these guarantees is remote.

In the normal course of business, we hold assets under custody and management in a custodial or fiduciary capacity. Management conducts regular reviews of its responsibilities in this regard and considers the results in preparing the consolidated financial statements. In this regard, in the opinion of management, no contingent liabilities existed at December 31, 2007, that would have had a material adverse effect on State Street's consolidated financial position or results of operations.

Legal Proceedings:

Several customers have filed litigation claims against us, some of which are putative class actions purportedly on behalf of customers invested in certain of State Street Global Advisors', or "SSgA's", active fixed-income strategies. These claims related to investment losses in one or more of SSgA's strategies that included sub-prime investments. In December 2007, we established a reserve of approximately \$625 million to address legal exposure associated with the under-performance of certain active fixed-income strategies managed by SSgA and customer concerns as to whether the execution of these strategies was consistent with the customers' investment intent. These strategies were adversely impacted by exposure to, and the lack of liquidity in, sub-prime mortgage markets that resulted from the disruption in the global securities markets during the second half of 2007. After payments for settlement agreements, the reserve totaled approximately \$609 million at December 31, 2007.

We are involved in various industry-related and other regulatory, governmental and law enforcement inquiries and subpoenas, as well as legal proceedings including the proceedings related to SSgA's active fixed-income strategies referenced above, that arise in the normal course of business. In the opinion of management, after discussion with counsel, these regulatory, governmental and law enforcement inquiries and subpoenas and legal proceedings can be defended or resolved without a material adverse effect on our consolidated financial position or results of operations in future periods.

Tax Contingencies:

In the normal course of business, we are subject to challenges from U.S. and non-U.S. income tax authorities regarding the amount of taxes due. These challenges may result in adjustments to the timing or amount of taxable income or deductions or the allocation of income among tax jurisdictions.

As a result of its review of our 1997 - 1999 income tax returns, the IRS proposed to disallow tax losses resulting from leveraged leases known as lease-in, lease-out, or LILO, transactions. We appealed the disallowance and finalized a settlement with the IRS during the fourth quarter of 2007. We had sufficient reserves to cover the final settlement agreement.

Currently, the IRS is reviewing our 2000 - 2003 income tax returns. During those years, we entered into leveraged leases known as sale-in, lease-out, or SILO, transactions, which the IRS has since classified as tax shelters. The IRS has proposed to disallow tax losses resulting from these leases. We believe that we reported the tax effects of all SILO lease transactions properly based upon applicable statutes, regulations and case law in effect at the time we entered into them, and we expect to appeal the disallowance.

While it is unclear whether we will be able to reach an acceptable resolution with the IRS, management believes we are sufficiently accrued as of December 31, 2007 for tax exposures, including exposures related to SILO transactions, and related interest expense. In future periods, if management revises its evaluation of this tax position, the effect of the revision will be recorded in income tax expense in that period. In note 20, information is provided with respect to our application of the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, to tax positions for certain of our leveraged leases for which the timing of our tax deductions is uncertain.

Note 11. Securitizations and Variable Interest Entities

Tax-Exempt Investment Programs:

In the normal course of business, we structure and sell certificated interests in pools of tax-exempt investment-grade assets, principally to our mutual fund customers. We structure these pools as partnership trusts, and the trusts are recorded in our consolidated statement of condition as municipal securities available for sale and related short-term borrowings. We may also provide liquidity and re-marketing services to the trusts.

We transfer assets to the trusts from our investment securities portfolio at adjusted book value, and the trusts finance the acquisition of these assets by selling certificated interests issued by the trusts to third-party investors and to State Street as residual holder. These transfers do not meet the de-recognition criteria of SFAS No. 140, *Accounting for the Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, and therefore are recorded in our consolidated financial statements. The trusts had a weighted-average life of approximately 8.6 years at December 31, 2007, compared to approximately 4.9 years at December 31, 2006. Under separate agreements, we provide standby bond purchase agreements to these trusts, which obligate State Street to acquire the certificated interests at par value in the event that the re-marketing agent is unable to place the certificated interests with investors. Our obligations as standby bond purchase agreement provider terminate in the event of the following credit events: payment default, bankruptcy of issuer or credit enhancement provider, imposition of taxability, or downgrade of an asset held by the trust below investment grade. Our commitments to the trusts under these standby bond purchase agreements totaled \$3.21 billion at December 31, 2007, none of which were utilized at period-end. In the event that our obligations under these agreements are triggered, no material impact to our consolidated financial position or results of operations is expected to occur, because the bonds are already recorded at fair value in our consolidated statement of condition.

Asset-Backed Commercial Paper Programs:

We established our first asset-backed commercial paper program in 1992, primarily to satisfy the demand from our institutional customers, particularly mutual fund customers, for commercial paper for their money market funds. Currently, we administer four third-party owned, multi-seller asset-backed commercial paper programs, referred to as "conduits," that purchase financial instruments, predominantly securities, from the capital markets. These conduits, which are structured as special purpose, bankruptcy-remote entities, provide our customers with short-term investment products for cash management and other investment purposes. Our relationship with the conduits is contractual. We hold no direct or indirect equity ownership in these entities.

Under FIN 46(R), the conduits meet the definition of variable interest entities. In applying the provisions of FIN 46(R), we apply a financial model, referred to as an "expected loss model," to the activities of the conduits to determine the primary beneficiaries of the conduits. As a result of application of this model, we concluded that we were not the primary beneficiary of the conduits, as defined by FIN 46(R), and as a result, we do not record these conduits in our consolidated financial statements. The conduits have third-party investors who hold subordinated debt, referred to as "first-

loss notes," issued by the conduits. These investors are in a first-loss position and bear the majority of the expected losses, as defined by FIN 46(R), of the conduits. We re-perform our expected loss model at least quarterly, and more frequently if specific events occur.

During the second half of 2007, as a result of disruption in the global fixed-income securities markets, we reviewed the underlying assumptions incorporated in our FIN 46(R) expected loss model. We concluded as of December 31, 2007, that our model assumptions were appropriate and were reflective of market participant assumptions, and appropriately considered the probability of, and potential for, the recurrence of recent events. At December 31, 2007 and December 31, 2006, total assets in these unconsolidated conduits were \$28.76 billion and \$25.25 billion, respectively. Our off-balance commitments to the conduits are disclosed in note 10.

The conduit structure is not designed to distribute interest-rate and/or foreign currency risk to commercial paper investors or the subordinated note holders. Accordingly, the conduits take measures to mitigate these risks through the use of derivative financial instruments. These derivatives are generally with State Street Bank as a counterparty, and are based upon market observable rates and indices. Among the most significant derivatives are basis swaps, whereby the conduit receives its cost of funds and pays LIBOR plus a spread to State Street Bank. This structure mitigates a portion of the risk of erosion in the expected spread between the conduits' cost of funds and the respective currency LIBOR rate.

Collateralized Debt Obligations:

We manage a series of collateralized debt obligations, referred to as "CDOs." A CDO is a managed investment vehicle which purchases a portfolio of diversified assets. A CDO funds purchases through the issuance of several tranches of debt and equity, the repayment and return of which are linked to the performance of the assets in the CDO. Typically, our involvement is as collateral manager. We may also invest in a small percentage of the debt issued. These entities typically meet the definition of a variable interest entity as defined by FIN 46(R). We are not the primary beneficiary of these CDOs, as defined by FIN 46(R), and do not record these CDOs in our consolidated financial statements. At December 31, 2007 and 2006, total assets in these CDOs were \$6.73 billion and \$3.48 billion, respectively. We did not acquire or transfer any investment securities to a CDO during 2007 or 2006.

Note 12. Shareholders' Equity

In March 2007, our Board of Directors authorized the purchase of up to 15 million shares of common stock for general corporate purposes, including mitigating the dilutive impact of shares issued under employee benefit plans, in addition to its previous authorization in 2006 of up to 15 million shares, of which 12.2 million shares remained available for purchase at December 31, 2006. We generally employ third-party broker-dealers to acquire shares on the open market in connection with our stock purchase programs.

Under the above-described authorization, during 2007 we repurchased 13.4 million shares of our common stock, and an additional .6 million shares in January 2008, in connection with a \$1 billion accelerated share repurchase program that concluded on January 18, 2008. As of that date, approximately 13.2 million shares remained available for future purchase under the combined authorization described above.

In addition, our common shares may be acquired for other deferred compensation plans, held by an external trustee, that are not part of the common stock purchase program. As of December 31, 2007, on a cumulative basis, approximately 396,500 shares have been purchased and are held in trust. These shares are recorded as treasury stock in our consolidated statement of condition.

During 2007, 2006 and 2005, we purchased and recorded as treasury stock a total of 13.4 million shares, 5.8 million shares and 13.1 million shares, respectively, at an average historical cost per share of approximately \$75, \$63 and \$51, respectively.

Accumulated other comprehensive (loss) income consisted of the following components as of December 31:

	2007	2006	2005
(In millions)			
Foreign currency translation	\$ 331	\$ 197	\$ 73
Unrealized gain (loss) on hedges of net investments in non-U.S. subsidiaries	(15)	(7)	11
Unrealized loss on available-for-sale securities	(678)	(227)	(285)
Unrealized loss on fair value hedges of available-for-sale securities	(55)	—	—
Minimum pension liability	(146)	(186)	(26)
Unrealized loss on cash flow hedges	(12)	(1)	(4)
Total	\$ (575)	\$ (224)	\$ (231)

For the year ended December 31, 2007, we realized net gains of \$7 million on sales of available-for-sale securities. Unrealized losses of \$32 million were included in other comprehensive income at December 31, 2006, net of deferred taxes of \$19 million, related to these sales.

For the year ended December 31, 2006, we realized net gains of \$15 million on sales of available-for-sale securities. Unrealized losses of \$7 million were included in other comprehensive income at December 31, 2005, net of deferred taxes of \$4 million, related to these sales.

For the year ended December 31, 2005, we realized net losses of \$1 million on sales of available-for-sale securities. Unrealized gains of \$1 million were included in other comprehensive income at December 31, 2004, net of deferred taxes of less than \$1 million, related to these sales.

Note 13. Equity-Based Compensation

We have a 2006 Equity Incentive Plan, with 20,000,000 shares of common stock approved for issuance for stock and stock-based awards, including stock options, stock appreciation rights, restricted stock, deferred stock and performance awards. In addition, up to 8,000,000 shares from our 1997 Equity Incentive Plan, that were available to issue or become available due to cancellations and forfeitures, may be awarded under the 2006 Plan. The 1997 Plan expired on December 18, 2006. As of December 31, 2006, 1,305,420 shares from the 1997 Plan have been added to and may be awarded from the 2006 Plan. As of December 31, 2007, 6,369,222 shares have been awarded under the 2006 Plan. We have stock options outstanding from previous plans, including the 1997 Plan, under which no further grants can be made.

The exercise price of non-qualified and incentive stock options and stock appreciation rights may not be less than the fair value of such shares at the date of grant. Stock options and stock appreciation rights issued under the 2006 Plan and the 1997 Plan generally vest over four years and expire no later than ten years from the date of grant. For restricted stock awards issued under the 2006 Plan and the 1997 Plan, stock certificates are issued at the time of grant and recipients have dividend and voting rights. In general, these grants vest over three years. For deferred stock awards issued under the 2006 Plan and the 1997 Plan, no stock is issued at the time of grant. Generally, these grants vest over two-, three- or four-year periods. Performance awards granted under the 2006 Plan and the 1997 Plan are earned over a performance period based on achievement of goals, generally over two- to four-year periods. Payment for performance awards is made in shares of our common stock equal to its fair market value per share, based on certain financial ratios after the conclusion of each performance period.

We record compensation expense, equal to the estimated fair value of the options on the grant date, on a straight-line basis over the options' vesting period. We use a Black-Scholes option-pricing model to estimate the fair value of the options granted.

The weighted-average assumptions used in connection with the option-pricing model were as follows for the years indicated:

	2007	2006	2005
Dividend yield	1.34%	1.41%	1.85%
Expected volatility	23.30	26.50	28.70
Risk-free interest rate	4.69	4.60	4.19
Expected option lives (in years)	7.8	7.8	7.8

Compensation expense related to stock options, stock appreciation rights, restricted stock awards, deferred stock awards and performance awards, which we record as a component of salaries and employee benefits expense in our consolidated statement of income, was \$272 million, \$208 million and \$110 million for the years ended December 31, 2007, 2006 and 2005, respectively. The related total income tax benefit recorded in our consolidated statement of income was \$109 million, \$83 million and \$44 million for 2007, 2006 and 2005, respectively.

Information about the 2006 Plan and 1997 Plan as of December 31, 2007, and activity during the year then ended, is presented below:

	Shares (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in millions)
Stock Options and Stock Appreciation Rights				
Outstanding at December 31, 2005	23,956	\$ 44.60		
Granted	972	62.63		
Exercised	(4,823)	40.81		
Forfeited or expired	(316)	51.32		
Outstanding at December 31, 2006	19,789	46.28		
Granted	1,091	70.59		
Exercised	(4,415)	42.36		
Forfeited or expired	(97)	47.12		
Outstanding at December 31, 2007	16,368	\$ 48.94	5.1	\$ 528
Exercisable at December 31, 2007	13,409	\$ 46.48	4.4	\$ 466

The weighted-average grant date fair value of options granted in 2007, 2006 and 2005 was \$22.44, \$21.09 and \$14.38, respectively. The total intrinsic value of options exercised during the years ended December 31, 2007, 2006 and 2005, was \$129 million, \$102 million and \$56 million, respectively.

As of December 31, 2007, total unrecognized compensation cost related to stock options and stock appreciation rights was \$26 million, which is expected to be recognized over a weighted-average period of 25 months.

Other stock awards and related activity consisted of the following for the years ended December 31, 2006 and 2007:

	Shares (in thousands)	Weighted-Average Grant Date Fair Value
Restricted Stock Awards		
Outstanding at December 31, 2005	378	\$ 46.82
Granted	184	62.62
Vested	(168)	46.49
Forfeited	(21)	51.12
Outstanding at December 31, 2006	373	54.42
Granted	401	69.06
Vested	(201)	54.75
Forfeited	(19)	64.50
Outstanding at December 31, 2007	554	\$ 64.77

The weighted-average grant date fair value of restricted stock awards granted in 2005 was \$45.26 per share. The total fair value of restricted stock awards vested was \$11 million, \$8 million and \$8 million for 2007, 2006 and 2005, respectively. As of December 31, 2007, total unrecognized compensation cost related to restricted stock was \$23 million, which is expected to be recognized over a weighted-average period of 22 months.

	Shares (in thousands)	Weighted-Average Grant Date Fair Value
Deferred Stock Awards		
Outstanding at December 31, 2005	3,203	\$ 43.60
Granted	3,083	60.94
Vested	(1,270)	43.80
Forfeited	(162)	53.33
Outstanding at December 31, 2006	4,854	54.21
Granted	3,542	68.33
Vested	(2,289)	52.26
Forfeited	(235)	62.50
Outstanding at December 31, 2007	5,872	\$ 63.26

The weighted-average grant date fair value of deferred stock awards granted in 2005 was \$43.40 per share. The total fair value of deferred stock awards vested was \$120 million, \$56 million and \$14 million for 2007, 2006 and 2005, respectively. As of December 31, 2007, total unrecognized compensation cost related to deferred stock awards was \$208 million, which is expected to be recognized over a weighted-average period of 25 months.

	Shares (in thousands)	Weighted-Average Grant Date Fair Value
Performance Awards		
Outstanding at December 31, 2005	1,283	\$ 48.52

Outstanding at December 31, 2006	1,889	53.49
Granted	1,203	67.84
Forfeited	(161)	59.23
Paid out	(673)	44.25
Outstanding at December 31, 2007	2,258	\$ 63.02

The weighted-average grant date fair value of performance awards granted in 2005 was \$47.91 per share. The total fair value of performance awards paid out was \$33 million, \$9 million and \$12 million for 2007, 2006 and 2005, respectively. As of December 31, 2007, total unrecognized compensation cost related to performance awards was \$55 million, which is expected to be recognized over a weighted-average period of 22 months.

We generally utilize treasury shares to satisfy the issuance of stock under our equity incentive plans. We do not have a specific policy concerning purchases of our common stock to satisfy stock issuances, including exercises of options. We have a general policy concerning purchases of stock to meet common stock issuances under our employee benefit plans, including option exercises and other corporate purposes. Various factors determine the amount and timing of our purchases of our common stock, including our capital requirements, the number of shares we expect to issue under employee benefit plans, market conditions (including the trading price of our common stock), and legal considerations. These factors can change at any time, and there can be no assurance as to the number of shares of common stock we will purchase or when we will purchase them.

Note 14. Regulatory Matters

Regulatory Capital:

We are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and discretionary actions by regulators that, if undertaken, could have a direct material effect on our consolidated financial condition. Under regulatory capital adequacy guidelines, we must meet specific capital requirements that involve quantitative measures of our consolidated assets, liabilities and off-balance sheet exposures as calculated in accordance with regulatory accounting practices. Our capital amounts and classification are subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require State Street and State Street Bank to maintain minimum risk-based capital and leverage ratios as set forth in the following table. The risk-based capital ratios are tier 1 capital and total capital divided by adjusted total risk-weighted assets and market-risk equivalents, and the tier 1 leverage ratio is tier 1 capital divided by adjusted quarterly average assets. As of December 31, 2007 and 2006, State Street and State Street Bank met all capital adequacy requirements to which they were subject.

As of December 31, 2007, State Street Bank was categorized as "well capitalized" under the regulatory framework. To be categorized as "well capitalized," State Street Bank must exceed the "well capitalized" guideline ratios, as set forth in the table, and meet certain other requirements. State Street Bank exceeded all "well capitalized" requirements as of December 31, 2007 and 2006. There are no conditions or events since December 31, 2007 that management believes have changed the capital category of State Street Bank.

The regulatory capital ratios and related amounts were as follows as of December 31:

	Regulatory Guidelines(1)		State Street		State Street Bank	
	Minimum	Well Capitalized	2007	2006	2007	2006
(Dollars in millions)						
Risk-based ratios:						
Tier 1 capital	4%	6%	11.2%	13.7%	11.2%	12.0%
Total capital	8	10	12.7	15.9	12.7	14.1
Tier 1 leverage ratio	4	5	5.3	5.8	5.5	5.6
Shareholders' equity			\$ 11,299	\$ 7,252	\$ 11,932	\$ 6,769
Capital trust securities			975	650	—	—

Tier 1 capital			7,131	6,473	6,915	5,473
Qualifying subordinated debt			1,118	1,178	998	998
Allowances for on- and off-balance sheet credit exposures			31	30	31	30
Unrealized gains on available-for-sale equity securities			3	10	2	1
Tier 2 capital			1,152	1,218	1,031	1,029
Deduction for investments in finance subsidiaries			(212)	(184)	(68)	(62)
Total capital			\$ 8,071	\$ 7,507	\$ 7,878	\$ 6,440
Adjusted total risk-weighted assets and market-risk equivalents:						
On-balance sheet			\$ 42,968	\$ 31,447	\$ 41,283	\$ 30,000
Off-balance sheet			20,248	15,371	20,254	15,375
Market-risk equivalents			321	395	317	394
Total			\$ 63,537	\$ 47,213	\$ 61,854	\$ 45,769
Adjusted quarterly average assets			\$ 135,686	\$ 110,794	\$ 126,746	\$ 97,132

(1)

State Street Bank must meet the regulatory designation of "well capitalized" in order for us to maintain our status as a financial holding company, including maintaining a minimum tier 1 risk-based capital ratio (tier 1 capital divided by adjusted total risk-weighted assets and market-risk equivalents) of 6%, a minimum total risk-based capital ratio (total capital divided by adjusted total risk-weighted assets and market-risk equivalents) of 10%, and a tier 1 leverage ratio (tier 1 capital divided by adjusted quarterly average assets) of 5%. In addition, Federal Reserve Regulation Y defines "well capitalized" for a bank holding company such as us for purposes of determining eligibility for a streamlined review process for acquisition proposals. For such Regulation Y purposes, "well capitalized" requires us to maintain a minimum tier 1 risk-based capital ratio of 6% and a minimum total risk-based capital ratio of 10%.

During 2007, our bank subsidiaries were required by the Federal Reserve to maintain average cash reserve balances of \$53 million. In addition, federal and state banking regulations place certain restrictions on dividends paid by bank subsidiaries to a parent holding company. For 2008, aggregate dividends by State Street Bank without prior regulatory approval are limited to approximately \$1.78 billion of its undistributed earnings at December 31, 2007, plus an additional amount equal to its net profits, as defined, for 2008 up to the date of any dividend.

The Federal Reserve Act requires that extensions of credit by State Street Bank to certain affiliates, including the parent company, be secured by specific collateral, that the extension of credit to any one affiliate be limited to 10% of its capital and surplus (as defined), and that extensions of credit to all such affiliates be limited to 20% of its capital and surplus.

At December 31, 2007, consolidated retained earnings included \$295 million representing undistributed earnings of affiliates that are accounted for using the equity method.

Note 15. Derivative Financial Instruments

We use derivatives to support customers' needs, conduct trading activities, and manage our interest-rate and currency risk.

As part of our trading activities, we assume positions in both the foreign exchange and interest-rate markets by buying and selling cash instruments and using derivative financial instruments, including foreign exchange forward contracts, foreign exchange and interest-rate options, and interest-rate swaps. In the aggregate, long and short foreign exchange forward positions are matched closely to minimize currency and interest-rate risk. All foreign exchange contracts are valued daily at current market rates.

Interest-rate contracts involve an agreement with a counterparty to exchange cash flows based on the movement of an underlying interest-rate index. An interest-rate swap agreement involves the exchange of a series of interest payments, either at a fixed or variable rate, based upon the notional amount without the exchange of the underlying principal amount. An interest-rate option contract provides the purchaser, for a premium, the right, but not the obligation, to receive an interest rate based upon a predetermined notional value during a specified period. An interest-rate futures contract is a commitment to buy or sell, at a future date, a financial instrument at a contracted price; it may be settled in cash or through the delivery of the contracted instrument.

Foreign exchange contracts involve an agreement to exchange one currency for another currency at an agreed-upon rate and settlement date. Foreign exchange contracts generally consist of cross-currency swap agreements and foreign exchange forward and spot contracts.

The following table summarizes the contractual, or notional, amounts of derivative financial instruments held or issued for trading and asset and liability management as of December 31:

	2007	2006
(In millions)		
Trading:		
Interest-rate contracts:		
Swap agreements	\$ 11,637	\$ 5,782
Options and caps purchased	1,241	1,216
Options and caps written	5,519	3,224
Futures	957	154
Options on futures purchased	2,245	—
Foreign exchange contracts:		
Forward, swap and spot	732,013	492,063
Options purchased	21,538	8,313
Options written	20,967	8,063
Credit derivative contracts:		
Credit default swap agreements	238	155
Equity derivative contracts:		
Swap agreements	72	—
Asset and liability management:		
Interest-rate contracts:		
Swap agreements	3,494	2,770
Foreign exchange contracts:		
Forward	146	132

In connection with our asset and liability management activities, we have executed interest-rate swap agreements designated as fair value and cash flow hedges to manage interest-rate risk. The notional values of these interest-rate swap agreements and the related assets or liabilities being hedged are presented in the following table. Hedge ineffectiveness for 2007, 2006 and 2005, recorded in processing fees and other revenue, was not material.

	2007			2006		
	Fair Value Hedges	Cash Flow Hedges	Total	Fair Value Hedges	Cash Flow Hedges	Total
(In millions)						
Available-for-sale investment securities	\$ 2,226		\$ 2,226	\$ 1,452		\$ 1,452
Interest-bearing time deposits(1)	118		118	118	\$ 300	418
Long-term debt(2)(3)	700	\$ 450	1,150	700	200	900
Total	\$ 3,044	\$ 450	\$ 3,494	\$ 2,270	\$ 500	\$ 2,770

(1) For the years ended December 31, 2007 and 2006, the overall weighted-average interest rate for interest-bearing time deposits was 5.42% and 5.02%, respectively, on a contractual basis, and 5.47% and 3.52%, respectively, including the effects of hedges.

(2) For the year ended December 31, 2007, fair value hedges of long-term debt increased the carrying value of long-term debt presented in our consolidated statement of condition by \$19 million, and for the year ended December 31, 2006, decreased the carrying value by \$9 million.

(3) For the years ended December 31, 2007 and 2006, the overall weighted-average interest rate for long-term debt was 6.55% and 6.72%, respectively, on a contractual basis, and 6.62% and 6.77%, respectively, including the effects of hedges.

For cash flow hedges, any changes in the fair value of the derivative financial instruments remain in accumulated other comprehensive income and are generally recorded in our consolidated statement of income in future periods when earnings are affected by the variability of the hedged cash flow.

We have entered into foreign exchange forward contracts with an aggregate notional amount of €100 million, or approximately \$146 million, to hedge a portion of our net foreign investment in non-U.S. subsidiaries. As a result, approximately \$8 million and \$18 million of after-tax translation losses for the years ended December 31, 2007 and 2006, respectively, on the hedge contracts were recorded in accumulated other comprehensive income.

Foreign exchange trading revenue related to foreign exchange contracts was \$802 million, \$611 million and \$468 million for the years ended December 31, 2007, 2006 and 2005, respectively. Future cash requirements, if any, related to foreign exchange contracts are represented by the gross amount of currencies to be exchanged under each contract unless we and the counterparty have agreed to pay or receive the net contractual settlement amount on the settlement date.

Note 16. Net Interest Revenue

	2007	2006	2005
(In millions)			
Interest revenue:			
Deposits with banks	\$ 416	\$ 414	\$ 529
Investment securities:			
U.S. Treasury and federal agencies	1,106	1,011	866
State and political subdivisions	205	88	58
Other investments	2,292	1,830	873
Securities purchased under resale agreements and federal funds sold	756	663	412
Loans and leases	382	270	171
Trading account assets	55	48	21
Total interest revenue	5,212	4,324	2,930
Interest expense:			
Deposits	2,298	1,891	1,132
Other short-term borrowings	959	1,145	753
Long-term debt	225	178	138
Total interest expense	3,482	3,214	2,023
Net interest revenue	\$ 1,730	\$ 1,110	\$ 907

Note 17. Employee Benefits

State Street Bank and certain of its U.S. subsidiaries participate in a non-contributory, tax-qualified defined benefit pension plan. Effective January 1, 2008, this plan was amended. After December 31, 2007, there will be no further employer contribution credits to the defined benefit pension plan. Employee account balances will continue to earn annual interest credits until retirement. In addition to the defined benefit pension plan, we have non-qualified unfunded supplemental retirement plans, referred to as "SERPs," that provide certain officers with defined pension benefits in excess of allowable qualified plan limits. Non-U.S. employees participate in local defined benefit plans.

State Street Bank and certain of its U.S. subsidiaries participate in a post-retirement plan that provides health care and insurance benefits for retired employees.

Combined information for the U.S. and non-U.S. defined benefit plans, and information for the post-retirement plan, is as follows as of the December 31 measurement date:

	Primary U.S. and Non-U.S. Defined Benefit Plans		Post-Retirement Plan	
	2007	2006	2007	2006
(In millions)				
Benefit obligations:				
Beginning of year	\$ 833	\$ 759	\$ 90	\$ 79

Noncurrent liabilities	(45)	(65)	(79)	(82)
Net prepaid (accrued) amount recognized in statement of condition	\$ 48	\$ (12)	\$ (86)	\$ (90)
Amounts recognized in accumulated other comprehensive income:				
Initial net obligation				\$ (5)
Prior service credit		\$ 20	\$ 6	—
Net loss	\$ (110)	(217)	(32)	(29)
Accumulated other comprehensive loss	(110)	(197)	(26)	(34)
Cumulative employer contributions in excess of net periodic benefit cost	158	185	(60)	(56)
Net asset (obligation) recognized in consolidated statement of condition	\$ 48	\$ (12)	\$ (86)	\$ (90)
Determination of adjustment related to adoption of SFAS No. 158:				
Liability before adoption of the funded status provisions of SFAS No. 158		\$ 31		
Accumulated other comprehensive loss before adoption of funded status recognition provisions of SFAS No. 158		31		
Transition obligation after adoption of funded status provisions of SFAS No. 158		—		\$ 5
Prior service cost		(20)		—
Net loss		217		29
Accumulated other comprehensive loss after adoption of funded status recognition provisions of SFAS No. 158		\$ 197		\$ 34
Increase in accumulated other comprehensive loss, before taxes, to reflect the adoption of SFAS No. 158		\$ 166		\$ 34
Accumulated benefit obligation	\$ 793	\$ 751		
Actuarial assumptions (U.S. Plans):				
Used to determine benefit obligations as of December 31:				
Discount rate	6.00%	5.75%	6.00%	5.75%
Rate of increase for future compensation	4.50	4.50	—	—
Used to determine periodic benefit cost for the years ended December 31:				
Discount rate	6.00%	5.50%	5.75%	5.50%
Rate of increase for future compensation	4.50	4.50	—	—
Expected long-term rate of return on plan assets	7.50	8.00	—	—
Assumed health care cost trend rates as of December 31:				
Cost trend rate assumed for next year	—	—	9.5%	10.00%
Rate to which the cost trend rate is assumed to decline	—	—	5.00	5.00
Year that the rate reaches the ultimate trend rate	—	—	2015	2013

Expected benefit payments for the next ten years are as follows:

	Primary U.S. and Non-U.S. Defined Benefit Plans	Non- Qualified SERPs	Post- Retirement Plan
(In millions)			
2008	\$ 36	\$ 6	\$ 7
2009	35	8	7
2010	35	10	7
2011	31	21	7
2012	25	22	7
2013-2017	123	74	32

The accumulated benefit obligation for all of our U.S. defined benefit pension plans was \$696 million and \$613 million at December 31, 2007, and 2006, respectively.

To develop the assumption of the expected long-term rate of return on plan assets, we considered the historical returns and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio. This analysis resulted in the determination of the assumed long-term rate of return on plan assets of 7.50% for the year ended December 31, 2007.

For the tax-qualified U.S. defined benefit pension plan, the asset allocations as of December 31, 2007 and 2006, and the strategic target allocation for 2008, by asset category, were as follows:

ASSET CATEGORY

	Strategic Target Allocation	Percentage of Plan Assets at December 31,	
	2008	2007	2006
Equity securities	43%	46%	46%
Fixed-income securities	46	45	45
Other	11	9	9
Total	100%	100%	100%

The preceding strategic target asset allocation was last amended effective July 31, 2006. Consistent with that target allocation, the plan should generate a real return above inflation, and superior to that of a benchmark index consisting of a combination of appropriate capital market indices weighted in the same proportions as the plan's strategic target asset allocation. Equities included domestic and international publicly-traded common, preferred and convertible securities. Fixed-income securities included domestic and international corporate and government debt securities, as well as asset-backed securities and private debt. The "other" category included real estate, alternative investments and cash and cash equivalents. Derivative financial instruments are an acceptable alternative to investing in these types of securities, but may not be used to leverage the plan's portfolio.

Expected employer contributions to the tax-qualified U.S. and Non-U.S. defined benefit pension plan, SERPs and post-retirement plan for the year ending December 31, 2008 are \$12 million, \$6 million and \$7 million, respectively.

State Street has unfunded SERPs that provide certain officers with defined pension benefits in excess of qualified plan limits imposed by U.S. federal tax law. Information for the SERPs was as follows for the years ended December 31:

	Non-Qualified SERPs	
	2007	2006
(In millions)		
Benefit obligations:		
Beginning of year	\$ 142	\$ 107
Service cost	12	6
Interest cost	10	7
Acquisitions and transfers in	9	—
Actuarial loss	85	24
Benefits paid	(6)	(6)
Curtailements	(41)	—
Plan amendments	—	4
End of year	\$ 211	\$ 142
Accrued benefit expense:		
Funded status (plan assets less benefit obligations)	\$ (211)	\$ (142)
Net accrued benefit expense	\$ (211)	\$ (142)
Amounts recognized in the consolidated statement of condition as of December 31:		
Current liabilities	\$ (8)	\$ (7)
Non-current liabilities	(203)	(135)
Net accrued amount recognized in consolidated statement of condition	\$ (211)	\$ (142)
Amounts recognized in accumulated other comprehensive income:		
Prior service cost		\$ (19)
Net loss	\$ (103)	(59)
Accumulated other comprehensive loss	(103)	(78)
Cumulative employer contributions in excess of net periodic benefit cost	(108)	(64)
Net obligation recognized in consolidated statement of condition	\$ (211)	\$ (142)
Determination of adjustment related to adoption of SFAS No. 158:		
Liability before adoption of funded status provisions of SFAS No. 158		\$ 32
Actual intangible asset		18
Accumulated other comprehensive loss before adoption of funded status provisions of SFAS No. 158		14
Prior service cost		19
Net loss		59
Accumulated other comprehensive loss after adoption of funded status provisions of SFAS No. 158		\$ 78
Increase in accumulated other comprehensive loss, before taxes, to reflect the adoption of SFAS No. 158		\$ 64
Accumulated benefit obligation	\$ 148	\$ 96
Actuarial assumptions:		
Assumptions used to determine benefit obligations and periodic benefit costs are consistent with those noted for the post-retirement plan, with the following exceptions:		
Rate of increase for future compensation—SERPs	4.75%	4.75%
Rate of increase for future compensation—Executive SERPs	10.00%	

For those defined benefit plans that have accumulated benefit obligations in excess of plan assets as of December 31, 2007 and 2006, the accumulated benefit obligations are \$44 million and \$326 million, respectively, and the plan assets are \$21 million and \$200 million, respectively.

For those defined benefit plans that have projected benefit obligations in excess of plan assets as of December 31, 2007 and 2006, the projected benefit obligations are \$316 million and \$411 million, respectively, and the plan assets are \$237 million and \$204 million, respectively.

If trend rates in health care costs were increased by 1%, the post-retirement benefit obligation as of December 31, 2007, would have increased 6%, and the aggregate expense for service and interest costs for 2007 would have increased 9%. Conversely, if trend rates in health care costs were reduced by 1%, the post-retirement benefit obligation as of December 31, 2007, would have decreased 6%, and the aggregate expense for service and interest costs for 2007 would have decreased 8%.

The following table presents the actuarially determined expense for our U.S. and non-U.S. defined benefit plans, post-retirement plan and SERPs for the years ended December 31:

	Primary U.S. and Non-U.S. Defined Benefit Plans			Post-Retirement Plan		
	2007	2006	2005	2007	2006	2005
(In millions)						
Components of net periodic benefit cost:

Prior service cost		\$ (2)	
Net loss	\$ (9)	(4)	
Estimated amortization	\$ (9)	\$ (6)	

Certain of our U.S. employees are eligible to contribute a portion of their pre-tax salary to a 401(k) savings plan and an Employee Stock Ownership Plan, referred to as an "ESOP." Our matching portion of these contributions is paid in cash, and the related expense was \$25 million for 2007, \$20 million for 2006 and \$21 million for 2005. In addition, employees in certain non-U.S. offices participate in other local plans. Expenses related to these plans were \$33 million, \$32 million and \$39 million for 2007, 2006 and 2005, respectively.

The ESOP is a non-leveraged plan. Compensation cost is equal to the contribution called for by the plan formula and is equal to the cash contributed for the purchase of shares on the open market or the fair value of the shares contributed from treasury stock. Dividends on shares held by the ESOP are charged to retained earnings, and shares are treated as outstanding for purposes of calculating earnings per share.

Note 18. Occupancy Expense and Information Systems and Communications Expense

Occupancy expense and information systems and communications expense includes expense for depreciation of buildings, leasehold improvements, computers, equipment and furniture and fixtures. Total depreciation expense for the years ended December 31, 2007, 2006 and 2005 was \$319 million, \$309 million and \$315 million, respectively.

We lease approximately 865,000 square feet at One Lincoln Street, an office building located in Boston, Massachusetts, and a related 366,000 square-foot underground parking garage, under 20-year, non-cancelable capital leases expiring in September 2023. As of December 31, 2007 and 2006, an aggregate net book value of \$421 million and \$447 million, respectively, for the capital leases was recorded in premises and equipment in our consolidated statement of condition, and the related liability was recorded in long-term debt. Capital lease asset amortization is recorded in occupancy expense over the lease terms. Lease payments are recorded as a reduction of the liability, with a portion recorded as imputed interest expense. For the years ended December 31, 2007 and 2006, interest expense related to these capital lease obligations, recorded in net interest revenue, was \$36 million and \$37 million, respectively. As of December 31, 2007 and 2006, accumulated amortization of assets under capital leases was \$110 million and \$84 million, respectively.

We have entered into non-cancelable operating leases for premises and equipment. Nearly all leases include renewal options. Costs related to operating leases for office space are recorded in occupancy expense. Costs related to operating leases for computers and equipment are recorded in information systems and communications expense.

Total rental expense, net of sublease revenue, amounted to \$199 million, \$179 million and \$181 million in 2007, 2006 and 2005, respectively. Rental expense has been reduced by sublease revenue of \$15 million, \$13 million and \$10 million for the years ended December 31, 2007, 2006 and 2005, respectively.

During 2007, we terminated an operating lease related to one of our office buildings in Boston. The lease was terminated in connection with an overall evaluation of our requirements for office space as a result of our acquisition of Investors Financial. The termination of the lease resulted in the recognition of a charge of approximately \$91 million, which was included in the merger and integration costs recorded in connection with the acquisition. During 2005, we entered into sub-lease agreements for our headquarters building and other office space in Boston. These sub-lease agreements resulted in the recognition of charges to occupancy expense of \$26 million for the year ended December 31, 2005.

The following is a summary of future minimum lease payments under non-cancelable capital and operating leases as of December 31, 2007. Future minimum rental commitments have been reduced by aggregate sublease rental commitments of \$77 million for capital leases and \$138 million for operating leases. The increase in future lease payments compared to amounts reported in prior years resulted from the addition of approximately 1 million square feet of office space in connection with our acquisition of Investors Financial.

	Capital Leases	Operating Leases	Total
(In millions)			
2008	\$ 52	\$ 225	\$ 277
2009	52	219	271
2010	52	199	251
2011	52	164	216
2012	52	160	212
Thereafter	563	913	1,476
Total minimum lease payments	823	\$ 1,880	\$ 2,703
Less amount representing interest payments	(337)		
Present value of minimum lease payments	\$ 486		

Note 19. Other Operating Expenses

The components of other operating expenses were as follows for the years ended December 31:

	2007	2006	2005
(In millions)			
Professional services	\$ 236	\$ 157	\$ 184
Amortization of intangible assets	92	43	43
Other	478	318	257
Total other operating expenses	\$ 806	\$ 518	\$ 484

Note 20. Income Taxes

The components of income tax expense from continuing operations consisted of the following for the years ended December 31:

	2007	2006	2005
(In millions)			
Current:			
Federal	\$ 424	\$ 328	\$ 185
State	133	82	46
Non-U.S.	338	265	139
Total current	895	675	370
Deferred:			
Federal	(155)	27	83
State	(59)	(9)	14
Non-U.S.	(39)	(18)	20
Total deferred	(253)	—	117
Total income tax expense from continuing operations	\$ 642	\$ 675	\$ 487

The income tax expense (benefit) related to net realized securities gains or losses was \$3 million, \$6 million and \$(1) million for 2007, 2006 and 2005, respectively. Pre-tax income from continuing operations attributable to operations located outside the U.S. was \$1.13 billion, \$759 million and \$494 million for 2007, 2006 and 2005, respectively.

For those foreign subsidiaries for which accumulated earnings of the subsidiary are considered to be permanently invested, no provision for deferred U.S. income taxes is recorded. The total undistributed retained earnings of these subsidiaries was \$561 million at December 31, 2007. If the accumulated earnings in these subsidiaries had been temporarily invested, a deferred U.S. tax liability of \$107 million would have been recorded.

Income tax expense from continuing operations for 2006 included an additional provision of \$35 million primarily related to the impact of the Tax Increase Prevention and Reconciliation Act on income generated from certain of our leveraged leases, more fully described below, and \$46 million related to the potential resolution of issues with the IRS concerning our LILO and SILO transactions. Additional information about contingencies related to LILO and SILO transactions is in note 10.

During 2006, TIPRA repealed the federal income tax exclusion, effective on January 1, 2007, which was previously allowed for a portion of the income generated from certain leveraged leases of aircraft. As a result of this legislation, and in accordance with existing lease accounting standards, we recalculated the allocation of the components of leasing-related income over the terms of the affected leases and recorded a non-cash charge to income tax expense of approximately \$35 million primarily related to the impact of this legislation.

Significant components of deferred tax liabilities and assets were as follows at December 31:

	2007	2006
(In millions)		
Deferred tax liabilities:		
Lease financing transactions	\$ 1,177	\$ 1,779
Foreign currency translation	152	90
Fixed and intangible assets	731	112
Total deferred tax liabilities	2,060	1,981
Deferred tax assets:		
Unrealized losses on available-for-sale securities, net	486	153
Deferred compensation	122	108
Pension	85	81
Operating expenses	402	61
Real estate	56	26
Other	79	38
Total deferred tax assets	1,230	467
Net deferred tax liabilities	\$ 830	\$ 1,514

A reconciliation of the U.S. statutory income tax rate to the effective tax rate based on income from continuing operations before income taxes was as follows for the years ended December 31:

	2007	2006	2005
U.S. federal income tax rate	35.0%	35.0%	35.0%
Changes from statutory rate:			
State taxes, net of federal benefit	2.2	2.9	3.3
Tax-exempt income	(1.7)	(1.1)	(1.5)
Tax credits	(1.6)	(1.4)	(1.3)
Foreign tax differential	(2.2)	(1.2)	(1.0)
Provision related to TIPRA	—	1.8	—
Provision related to LILO and SILO transactions	2.0	2.6	—
Other, net	—	(.5)	(.5)
Effective tax rate	33.7%	38.1%	34.0%

As discussed in note 1, we applied the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109*, on January 1, 2007. The application of the Interpretation's provisions did not change our liability for unrecognized tax benefits.

An analysis of activity related to unrecognized tax benefits follows:

	2007
(In millions)	
Balance at beginning of year	\$ 662
Additions for tax positions of prior years	150
Settlements	(507)
Balance at end of year	\$ 305

Included in the balance at December 31, 2007 is \$285 million of tax positions for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. Because of the impact of deferred tax accounting, the disallowance of the shorter deductibility period would not affect the annual effective tax rate but would accelerate the payment of cash to the taxing authority to an earlier period. Settlements include amounts remitted during 2007 and identified amounts to be remitted in 2008.

We record interest and penalties related to income taxes as a component of income tax expense. We recognized interest expense of approximately \$38 million and \$46 million for the years ended December 31, 2007 and 2006, respectively. We had approximately \$83 million and \$95 million accrued at December 31, 2007 and 2006, respectively, for the payment of interest. The earliest year open to examination in our major jurisdictions is 2000.

Note 21. Earnings Per Share

The following table presents the computation of basic and diluted earnings per share for the years ended December 31:

	2007	2006	2005
(Dollars in millions, except per share amounts)			
Net income	\$ 1,261	\$ 1,106	\$ 838
Average shares outstanding (in thousands):			
Basic average shares	360,675	331,350	330,361
Effect of dilutive securities:			
Stock options and stock awards	4,788	4,349	2,762
Equity-related financial instruments	25	33	1,513
Diluted average shares	365,488	335,732	334,636
Anti-dilutive securities (in thousands)(1)	1,091	973	8,791
Earnings per Share			
Basic	\$ 3.50	\$ 3.34	\$ 2.53
Diluted	3.45	3.29	2.50

(1) Represents stock options outstanding but not included in the computation of diluted average shares because the exercise prices of the instruments were greater than the average fair value of our common stock during the periods.

Note 22. Line of Business Information

We report two lines of business: Investment Servicing and Investment Management. Given our services and management organization, the results of operations for these lines of business are not necessarily comparable with those of other companies, including companies in the financial services industry.

Investment Servicing provides services for U.S. mutual funds, collective investment funds worldwide, corporate and public retirement plans, insurance companies, foundations, endowments, and other investment pools. Products include custody, accounting, daily pricing and administration; master trust and master custody; recordkeeping; foreign exchange, brokerage and other trading services; securities finance; deposit and short-term investment facilities; loans and lease financing; investment manager and hedge fund manager operations outsourcing; and performance, risk and compliance analytics to support institutional investors. We provide shareholder services, which include mutual fund and collective investment fund shareholder accounting, through 50%-owned affiliates, Boston Financial Data Services, Inc. and the International Financial Data Services group of companies.

Investment Management offers a broad array of services for managing financial assets, including investment management and investment research, primarily for institutional investors worldwide. These services include passive and active U.S. and non-U.S. equity and fixed-income investment management strategies, and other related services, such as securities finance.

Revenue and expenses are directly charged or allocated to the lines of business through management information systems. We price our products and services on the basis of overall customer relationships and other factors; therefore, revenue may not necessarily reflect market pricing on products within the business lines in the same way it would for independent business entities. Assets

and liabilities are allocated according to rules that support management's strategic and tactical goals. Capital is allocated based on risk-weighted assets employed and management's judgment. Capital allocations may not be representative of the capital that might be required if these lines of business were independent business entities.

The following is a summary of line of business results. Results presented exclude the income (loss) from discontinued operations related to our divestiture of Bel Air, which is discussed in note 2. The amount presented in the "Other/One-Time" column for 2007 represents merger and integration costs recorded in connection with our acquisition of Investors Financial. The amount presented in the same column for 2005 represents additional gain from our sale of the Private Asset Management business. The amount presented in the net charge line items are associated with the underperformance of certain active fixed-income strategies managed by SSgA, discussed in note 10.

	Investment Servicing			Investment Management			Other/One-Time			Total

Note 23. Non-U.S. Activities

We define non-U.S. activities as those revenue-producing assets and business activities that arise from customers domiciled outside the United States. Due to the nature of our business, precise segregation of U.S. and non-U.S. activities is not possible. Subjective judgments have been applied to determine operating results related to non-U.S. activities, including the application of transfer pricing and asset and liability management policies. Interest expense allocations are based on the average cost of short-term borrowed funds.

The following table summarizes our non-U.S. operating results for the years ended December 31, and assets as of December 31, based on the domicile location of our customers:

	2007	2006	2005
(In millions)			
Results of operations:			
Total fee revenue	\$ 2,707	\$ 2,349	\$ 1,881
Net interest revenue	713	392	249
Total revenue	3,420	2,741	2,130
Operating expenses	2,233	1,840	1,589
Income before income taxes	1,187	901	541
Income tax expense	415	346	205
Net income	\$ 772	\$ 555	\$ 336
Assets:			
Interest-bearing deposits with banks	\$ 5,574	\$ 5,193	\$ 11,235
Other assets	28,657	19,510	8,800
Total assets	\$ 34,231	\$ 24,703	\$ 20,035

Note 24. Fair Values of Financial Instruments

Fair value estimates are generally subjective in nature, and are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. Disclosure of fair values is not required for certain items, such as lease financing, equity method investments, obligations for pension and other postretirement plans, premises and equipment, other intangible assets and income tax assets and liabilities. Accordingly, aggregate fair value amounts presented do not purport to represent, and should not be considered representative of, our underlying "market" or franchise value. In addition, because of potential differences in methodologies and assumptions used to estimate fair values, our fair values should not be compared to those of other financial institutions.

We use the following methods to estimate the fair value of financial instruments:

- For financial instruments that have quoted market prices, those quoted prices are used to determine fair value.
- Financial instruments that have no defined maturity, have a remaining maturity of 180 days or less, or reprice frequently to a market rate are assumed to have a fair value that approximates reported value, after taking into consideration any applicable credit risk.
- If no quoted market prices are available, financial instruments are valued using third-party pricing services, or by discounting the expected cash flow(s) using an estimated current market interest rate for the financial instrument.
- For derivative financial instruments, fair value is estimated as the amount at which an asset or liability could be bought or sold in a current transaction between willing parties, other than in a forced liquidation or sale.

The short duration of our assets and liabilities results in a significant number of financial instruments for which fair value equals or closely approximates the value reported in our consolidated statement of condition. These financial instruments are reported in the following captions in our consolidated statement of condition: cash and due from banks; interest-bearing deposits with banks; securities purchased under resale agreements; accrued income receivable; deposits; securities sold under repurchase agreements; federal funds purchased; and other short-term borrowings. The fair value of trading account assets equals their reported value. In addition, due to the relatively short-term nature of our net loans (excluding leases), substantially all of which are due within one year, we have determined that their fair value approximates the reported value. Loan commitments have no reported value because terms are at prevailing market rates.

The reported value and fair value for other captions in the consolidated statement of condition were as follows as of December 31:

(In millions)	<u>Reported Value</u>	<u>Fair Value</u>
2007:		
Financial Assets:		
Investment securities:		
Available for sale	\$ 70,326	\$ 70,326
Held to maturity	4,233	4,225
Net loans (excluding leases)	13,804	13,804
Unrealized gains on derivative financial instruments—trading	4,450	4,450
Unrealized gains on derivative financial instruments—asset and liability management	63	63

Noninterest-bearing deposits:									
Special time	9,836			7,282			6,880		
Demand	225			663			1,243		
Non-U.S.(3)	579			329			170		
Other liabilities	9,769			7,471			6,426		
Shareholders' equity	9,427			6,744			6,178		
Total liabilities and shareholders' equity	\$ 123,482			\$ 106,444			\$ 99,769		
Net interest revenue	\$ 1,788			\$ 1,155			\$ 949		
Excess of rate earned over rate paid			1.32%			.89%			.82%
Net interest margin(1)			1.71			1.25			1.08

(1) Net interest margin is fully taxable-equivalent net interest revenue divided by average interest-earning assets.

(2) Fully taxable-equivalent revenue is a method of presentation in which the tax savings achieved by investing in tax-exempt securities are included in interest revenue with a corresponding charge to income tax expense. This method facilitates the comparison of the performance of tax-exempt and taxable securities. The adjustment is computed using a federal income tax rate of 35%, adjusted for applicable state income taxes, net of the related federal-tax benefit. The fully taxable-equivalent adjustments included in interest revenue above were \$58 million, \$45 million and \$42 million for the years ended December 31, 2007, 2006 and 2005, respectively.

(3) Non-U.S. noninterest-bearing deposits were \$1.02 billion, \$326 million and \$122 million at December 31, 2007, 2006 and 2005, respectively.

The table below summarizes changes in fully taxable-equivalent interest revenue and interest expense due to changes in volume of interest-earning assets and interest-bearing liabilities, and due to changes in interest rates. Changes attributed to both volumes and rates have been allocated based on the proportion of change in each category.

Years ended December 31, (Dollars in millions; fully taxable-equivalent basis)	2007 Compared to 2006			2006 Compared to 2005

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES: CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

State Street has established and maintains disclosure controls and procedures that are designed to ensure that material information relating to State Street and its subsidiaries on a consolidated basis required to be disclosed in its reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to State Street management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. For the fiscal quarter ended December 31, 2007, State Street carried out an evaluation, under the supervision and with the participation of State Street management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of State Street's disclosure controls and procedures. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that State Street's disclosure controls and procedures were effective as of December 31, 2007.

State Street has also established and maintains internal control over financial reporting as a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with accounting principles generally accepted in the United States. In the ordinary course of business, State Street routinely enhances its internal controls and procedures for financial reporting by either upgrading its current systems or implementing new systems. Changes have been made and will be made to State Street's internal controls and procedures for financial reporting as a result of these efforts. During the fiscal quarter ended December 31, 2007, there was no change in State Street's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, State Street's internal control over financial reporting.

INTERNAL CONTROL OVER FINANCIAL REPORTING

Management's Report on Internal Control Over Financial Reporting

The management of State Street is responsible for the preparation and fair presentation of the financial statements and other financial information contained in this Form 10-K. Management is also responsible for establishing and maintaining adequate internal control over financial reporting. Management has designed business processes and internal controls and has also established and is responsible for maintaining a business culture that fosters financial integrity and accurate reporting. To these ends, management maintains a comprehensive system of internal controls intended to provide reasonable assurances regarding the reliability of financial reporting and the preparation of the consolidated financial statements of State Street in accordance with generally accepted accounting principles. State Street's accounting policies and internal control over financial reporting, established and maintained by management, are under the general oversight of State Street's Board of Directors, including State Street's Examining and Audit Committee.

Management has made a comprehensive review, evaluation, and assessment of State Street's internal control over financial reporting as of December 31, 2007. The standard measures adopted by management in making its evaluation are the measures in the Integrated Framework published by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework).

Based upon its review and evaluation, management has concluded that State Street's internal control over financial reporting is effective at December 31, 2007, and that there were no material weaknesses in State Street's internal control over financial reporting as of that date.

Ernst & Young LLP, an independent registered public accounting firm, which has audited and reported on the consolidated financial statements contained in this Form 10-K, has issued its written attestation report on its assessment of State Street's internal control over financial reporting which follows this report.

Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting

THE SHAREHOLDERS AND BOARD OF DIRECTORS
STATE STREET CORPORATION

We have audited State Street Corporation's internal control over financial reporting as of December 31, 2007, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). State Street Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, State Street Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of condition of State Street Corporation as of December 31, 2007 and 2006, and the related consolidated statements of income, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2007 of State Street Corporation and our report dated February 14, 2008 expressed an unqualified opinion thereon.

Boston, Massachusetts

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information concerning our directors will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Election of Directors." Such information is incorporated herein by reference.

Information about two current directors of State Street who will be retiring as directors at the 2008 Annual Meeting of Shareholders is as follows:

TENLEY E. ALBRIGHT, M.D.

Director since 1993

Physician and surgeon. Dr. Albright, age 72, Director, Collaborative Initiatives at MIT, is Chairman of Western Resources, Inc., a real estate holding company. Dr. Albright's concentration in medicine and health services stems from her specialty of general surgery over 23 years. She is a faculty member and lecturer in surgery at Harvard Medical School and an honorary member of New England Baptist Hospital. Dr. Albright is consultant to and formerly chairman of the Board of Regents of the National Library of Medicine at the National Institutes of Health. She has served on the Board of the Whitehead Institute for Biomedical Research, was recently elected to the Board of Research!America, and is a member of the corporation of Woods Hole Oceanographic Institution. Dr. Albright graduated from Harvard Medical School after attending Radcliffe College, and has received eight honorary degrees.

ARTHUR L. GOLDSTEIN

Director since 1995

Retired Chairman and Chief Executive Officer of Ionics, Incorporated, an international company involved in the purification and treatment of water. He was Chief Executive Officer of Ionics, Incorporated from 1971 to 2003 and was Chairman from 1991 to 2004. Mr. Goldstein, age 72, is a director of Cabot Corporation. He is a member of the National Academy of Engineering. He is a trustee of the California Institute of Technology, the Massachusetts General Physicians' Organization, Inc., a trustee and treasurer of Partners HealthCare System, where he serves as chairman of its finance committee and a member of the MIT Energy Initiative External Advisory Board. Mr. Goldstein received a B.S. degree in chemical engineering from Rensselaer Polytechnic Institute, an M.S. in chemical engineering from the University of Delaware, and an M.B.A. from Harvard Business School.

Information concerning our executive officers appears under the caption "Executive Officers of the Registrant" in Item 4A of this Form 10-K.

Information concerning our Examining and Audit Committee will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Corporate Governance at State Street—Committees of the Board of Directors." Such information is incorporated herein by reference.

Information concerning compliance with Section 16(a) of the Securities Exchange Act will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Section 16(a) Beneficial Ownership Reporting Compliance." Such information is incorporated herein by reference.

Our Board has adopted a Code of Ethics for Senior Financial Officers that applies to our Chief Executive Officer, Chief Financial Officer and Corporate Controller. The code of ethics has been posted on our Internet website at www.statestreet.com. We intend to satisfy the disclosure requirements under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of the code of ethics, and that relates to a substantive amendment or material departure from a provision of the code of ethics, by posting such information on our Internet website at www.statestreet.com. We also intend to satisfy the disclosure requirements of the NYSE listing standards regarding waivers of the Standard of Conduct for Directors, and waivers for executive officers of the Standard of Conduct at State Street, by posting such information on our Internet website at www.statestreet.com.

ITEM 11. EXECUTIVE COMPENSATION

Information in response to this item will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Executive Compensation." Such information is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information concerning security ownership of certain beneficial owners and management will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Beneficial Ownership of Shares." Such information is incorporated herein by reference.

RELATED STOCKHOLDER MATTERS

The following table discloses the number of outstanding options, warrants and rights granted by State Street to participants in equity compensation plans, as well as the number of securities remaining available for future issuance under these plans, as of December 31, 2007. The table provides this information separately for equity compensation plans that have and have not been approved by shareholders.

	(a) Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b) Weighted-average exercise price of outstanding options, warrants and rights	(c) Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
(Shares in thousands)			
Plan category:			
Equity compensation plans approved by shareholders	25,168	\$ 53.92	14,936
Equity compensation plans not approved by shareholders	113	47.90	—
Total	25,281	53.89	14,936

One compensation plan under which equity securities of State Street are authorized for issuance has been adopted without the approval of shareholders.

In 2001, the Board adopted the State Street Corporation Savings-Related Stock Plan, or "SAYE Plan," for employees in the United Kingdom. Under the SAYE Plan, employee-participants could commit to save a specified amount from after-tax pay for a fixed period (either three or five years). Savings are deducted automatically. At the end of the period chosen, a tax-free bonus is added by State Street to the savings amount (the level of the bonus depends on the length of the fixed period of

savings), and participants have the option to receive the savings and bonus amount in cash, or to use the amount to purchase common stock from State Street at an exercise price equal to the market price of the stock as of the date of joining the SAYE Plan less a discount fixed by State Street at the date of joining. For participants joining the SAYE Plan in 2001, the discount was 15%. There was no discount for participants joining in 2002. Options granted under the SAYE Plan are non-transferable. If a participant withdraws from participation before the end of the fixed period, the options to purchase stock are forfeited. If a participant terminates during the period due to retirement, disability, redundancy or sale of the employer from State Street's group, the options may be exercised within six months of the occurrence, or one year if by reason of death. Under the SAYE Plan, an aggregate of 170,000 shares of common stock was authorized for issuance. The SAYE Plan has been discontinued and no new participations under the SAYE Plan are permitted. At December 31, 2007, a total of 1,777 shares of common stock are eligible to be purchased under outstanding options.

In addition, individual directors who are not our employees have received annual awards of deferred stock for a number of shares based on the amount of their annual retainer, payable after the director leaves the Board or attains a specific age. The number of deferred shares includes, in the case of certain directors, additional deferred share amounts in respect of an accrual under a terminated retirement plan, and for all directors is increased to reflect dividends paid on the common stock. Also, directors who are not our employees may receive their annual retainer payable at their option either in shares of our common stock or cash, and may further elect to defer either 50% or 100% until after termination of their services as a director. The number of deferred shares is increased to reflect dividends paid on the common stock. Deferred stock awards totaling 229,149 shares of common stock were outstanding at December 31, 2007; awards made through June 30, 2003 have not been approved by shareholders. Awards of deferred stock made or non-deferred retainer shares paid to individual directors after June 30, 2003 have been or will be made under our 1997 or 2006 Equity Incentive Plan, approved by shareholders.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information concerning certain relationships and related transactions and director independence will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the captions "Related Person Transactions" and "Corporate Governance at State Street." Such information is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

Information concerning principal accounting fees and services will appear in our Proxy Statement for the 2008 Annual Meeting of Shareholders, to be filed pursuant to Regulation 14A on or before April 30, 2008, under the caption "Relationship with Independent Registered Public Accounting Firm." Such information is incorporated herein by reference.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(A)(1) FINANCIAL STATEMENTS

The following consolidated financial statements of State Street are included in Item 8 hereof:

Report of Independent Registered Public Accounting Firm

Consolidated Statement of Income—Years ended December 31, 2007, 2006 and 2005

Consolidated Statement of Condition—As of December 31, 2007 and 2006

Consolidated Statement of Changes in Shareholders' Equity—Years ended December 31, 2007, 2006 and 2005

Consolidated Statement of Cash Flows—Years ended December 31, 2007, 2006 and 2005

Notes to Consolidated Financial Statements

(A)(2) FINANCIAL STATEMENT SCHEDULES

Certain schedules to the consolidated financial statements have been omitted if they were not required by Article 9 of Regulation S-X or if, under the related instructions, they were inapplicable, or the information was contained elsewhere herein.

(A)(3) EXHIBITS

A list of the exhibits filed or incorporated herein by reference is as follows:

- | | |
|-------|--|
| 2.1 | Agreement and Plan of Merger dated as of February 4, 2007 by and between State Street Corporation and Investors Financial Services Corp. (the schedules and exhibits have been omitted pursuant to Item 601(b)(2) of Regulation S-K) (filed as Exhibit 2.1 to State Street's Current Report on Form 8-K dated February 4, 2007 and incorporated herein by reference) |
| 3.1 | Restated Articles of Organization, as amended |

RESTATED ARTICLES OF ORGANIZATION OF REGISTRANT, AS AMENDED

The Commonwealth of Massachusetts
JOHN F. X. DAVOREN
Secretary of the Commonwealth
STATE HOUSE, BOSTON, MASS.

RESTATED ARTICLES OF ORGANIZATION

General Laws, Chapter 156B, Section 74

This certificate must be submitted to the Secretary of the Commonwealth within sixty days after the date of the vote of stockholders adopting the restated articles of organization. The fee for filing this certificate is prescribed by General Laws, Chapter 156B, Section 114. Make check payable to the Commonwealth of Massachusetts.

We, George B. Rockwell
Winthrop B. Walker

, President/and
, Clerk of

State Street Boston Financial Corporation
(Name of Corporation)

located at 225 Franklin Street, Boston, Massachusetts 02101 do hereby certify that the following restatement of the articles of organization of the corporation was duly adopted on June 11, 1970, by written consent of the holder of

100	shares of	Common Stock	out of	100	shares outstanding,
	shares of	(Class of Stock)	out of		shares outstanding, and
	shares of	(Class of Stock)	out of		shares outstanding,
		(Class of Stock)			

being all of the stock outstanding and entitled to vote and of each class or series of stock adversely affected thereby:-

1. The name by which the corporation shall be known is:-
State Street Boston Financial Corporation
2. The purposes for which the corporation is formed are as follows:-
See Continuation Sheet 2A.

Note:

Provisions for which the space provided under articles 2, 4, 5, and 6 is not sufficient should be set out on continuation sheets to be numbered 2A, 2B, etc. Indicate under each article where the provision is set out. Continuation sheets shall be on 8 1/2" wide x 11" high paper and must have a left-hand margin 1 inch wide for binding. Only one side should be used.

3. The total number of shares and the par value, if any, of each class of stock which the corporation is authorized to issue is as follows:

CLASS OF STOCK	WITHOUT PAR VALUE NUMBER OF SHARES	WITH PAR VALUE	
		NUMBER OF SHARES	PAR VALUE
Preferred	700,000	0	—
Common	0	3,500,000	\$ 10

*4.

If more than one class is authorized, a description of each of the different classes of stock with, if any, the preferences, voting powers, qualifications, special or relative rights or privileges as to each class thereof and any series now established:

See Continuation Sheet 4A

*5.

The restrictions, if any, imposed by the articles of organization upon the transfer of shares of stock of any class are as follows:

None

*6.

Other lawful provision, if any, for the conduct and regulation of the business and affairs of the corporation, for its voluntary dissolution, or for limiting, defining, or regulating the powers of the corporation, or of its directors or stockholders, or of any class of stockholders:

See Continuation Sheets 6A, 6B, and 6C.

*

If there are no such provisions, state "None".

CONTINUATION SHEET 2A

To acquire, hold, dispose of and otherwise deal in and with securities (including but not limited to stocks, shares, evidences of beneficial interest, evidences of indebtedness and evidences of any right to subscribe for or purchase or sell any thereof), and any interest therein, issued or created by or evidencing or representing any interest in any one or more banks, trust companies, other corporations, associations, trusts, firms, partnerships, governments, governmental or political units, instrumentalities, subdivisions, agencies or authorities, or other organizations, persons or entities, public or private; and

To engage in any other lawful business or activity in which a corporation organized under the Business Corporation Law of Massachusetts is permitted to engage.

CONTINUATION SHEET 4A

The board of directors is authorized, subject to the limitations prescribed by law and these articles, to divide the Preferred Stock into two or more series and to establish and designate each series and fix and determine the variations in the relative rights and preferences as between the different series, provided that all shares of the Preferred Stock shall be identical except that there may be variations fixed and so determined between different series as to:

- (a) The number of shares constituting each series and the distinctive designation of that series;
- (b) Whether or not the shares of any series shall be redeemable and, if redeemable, the price (which may vary under different conditions and at different redemption dates), the terms and the manner of redemption, including the date or dates on or after which they shall be redeemable;
- (c) The dividend rate on the shares of each series, the conditions and dates upon which dividends thereon shall be payable, the extent, if any, to which dividends thereon shall be cumulative, and the relative rights of preference, if any, of payment of dividends thereon;
- (d) The rights of each series on liquidation, voluntary or involuntary, including dissolution or winding up of the corporation;
- (e) The sinking fund or purchase fund provisions, if any, applicable to each series, including without limitation the annual amount thereof and the terms relating thereto;
- (f) The conversion rights, if any, of each series, including the terms and conditions of conversion, which terms and conditions may contain provisions for adjustment of the conversion rate in such events as the board of directors shall determine; and

- (g) The conditions under which each series shall have separate voting rights or no voting rights, in addition to the voting rights provided by law.

CONTINUATION SHEET 6A

By-laws

The board of directors is authorized to make, amend or repeal the by-laws of the corporation in whole or in part, except with respect to any provision thereof which by law, by these articles of organization or by the by-laws requires action by the stockholders.

Place of Meetings of the Stockholders

Meetings of the stockholders may be held anywhere in the United States.

Partnership

The corporation may be a partner in any business enterprise which the corporation would have power to conduct by itself.

Indemnification of Directors, Officers and Others

The corporation shall indemnify each person who is or was a director, officer, employee or other agent of the corporation, and each person who is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another organization in which it directly or indirectly owns shares or of which it is directly or indirectly a creditor, against all liabilities, costs and expenses, including but not limited to amounts paid in satisfaction of judgments, in settlement or as fines and penalties, and counsel fees and disbursements, reasonably incurred by him in connection with the defense or disposition of or otherwise in connection with or resulting from any action, suit or other proceeding, whether civil, criminal, administrative or investigative, before any court or administrative or legislative or investigative body, in which he may be or may have been involved as a party or otherwise or with which he may be or may have been threatened, while in office or thereafter, by reason of his being or having been such a director, officer, employee, agent or trustee, or by reason of any action taken or not taken in any such capacity, except with respect to any matter as to which he shall have been finally adjudicated by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action

CONTINUATION SHEET 6B

was in the best interests of the corporation. Expenses, including but not limited to counsel fees and disbursements, so incurred by any such person in defending any such action, suit or proceeding, may be paid from time to time by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of the person indemnified to repay the amounts so paid if it shall ultimately be determined that indemnification of such expenses is not authorized hereunder.

As to any matter disposed of by settlement by any such person, pursuant to a consent decree or otherwise, no such indemnification either for the amount of such settlement or for any other expenses shall be provided unless such settlement shall be approved as in the best interests of the corporation, after notice that it involves such indemnification, (a) by vote of a majority of the disinterested directors then in office (even though the disinterested directors be less than a quorum), or (b) by any disinterested person or persons to whom the question may be referred by vote of a majority of such disinterested directors, or (c) by vote of the holders of a majority of the outstanding stock at the time entitled to vote for directors, voting as a single class, exclusive of any stock owned by any interested person, or (d) by any disinterested person or persons to whom the question may be referred by vote of the holders of a majority of such stock. No such approval shall prevent the recovery from any such officer, director, employee, agent or trustee of any amounts paid to him or on his behalf as

indemnification in accordance by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action was in the best interests of the corporation.

The right of indemnification hereby provided shall not be exclusive of or affect any other rights to which any director, officer, employee, agent or trustee may be entitled or which may lawfully be granted to him. As used herein, the terms "director", "officer", "employee", "agent" and "trustee" include their respective executors, administrators and other legal representatives, an "interested" person is one against whom the action, suit or other proceeding in question or another action, suit or other proceeding on the same or similar grounds is then or had been pending or threatened, and a "disinterested" person is a person against whom no such action, suit or other proceeding is then or had been pending or threatened.

By action of the board of directors, notwithstanding any interest of the directors in such action, the corporation may purchase and maintain insurance, in such amounts as the board of directors may from time to time deem appropriate, on behalf of any person who is or was a director, officer, employee or other agent of the

CONTINUATION SHEET 6C

corporation, or is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another organization in which it directly or indirectly owns shares or of which it is directly or indirectly a creditor, against any liability incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability.

Intercompany Transactions

No contract or transaction between the corporation and one or more of its directors or officers, or between the corporation and any other organization of which one or more of its directors or officers are directors, trustees or officers, or in which any of them has any financial or other interest, shall be void or voidable, or in any way affected, solely for this reason, or solely because the director or officer is present at or participates in the meeting of the board of directors or committee thereof which authorizes, approves or ratifies the contract or transaction, or solely because his or their votes are counted for such purpose, if:

(a) The material facts as to his relationship or interest and as to the contract or transaction are disclosed or are known to the board of directors or the committee which authorizes, approves or ratifies the contract or transaction, and the board or committee in good faith authorizes, approves or ratifies the contract or transaction by the affirmative votes of a majority of the disinterested directors, even though the disinterested directors be less than a quorum; or

(b) The material facts as to his relationship or interest and as to the contract or transaction are disclosed or are known to the stockholders entitled to vote thereon, and the contract or transaction is specifically authorized, approved or ratified in good faith by vote of the stockholders; or

(c) The contract or transaction is fair as to the corporation as of the time it is authorized, approved or ratified by the board of directors, a committee thereof, or the stockholders.

Common or interested directors may be counted in determining the presence of a quorum at a meeting of the board of directors or of a committee thereof which authorizes, approves or ratifies the contract or transaction. No director or officer of the corporation shall be liable or accountable to the corporation or to any of its stockholders or creditors or to any other person, either for any loss to the corporation or to any other person or for any gains or profits realized by such director or officer, by reason of any contract or transaction as to which clauses (a), (b) or (c) above are applicable.

*We further certify that the foregoing restated articles of organization effect no amendments to the articles of organization of the corporation as heretofore amended, except amendments to the following articles 3 and 4

(*If there are no such amendments, state "None".)

Article Three is amended by increasing the authorized capital stock of this corporation by

- (a) 3,485,000 shares of Common Stock, \$10 par value, to a total of 3,500,000 shares; and
- (b) 700,000 shares of Preferred Stock, without par value.

Article Four is amended by the addition of provisions authorizing the Board of Directors to divide the Preferred Stock into two or more series and to establish and designate each series and fix and determine the variations in the relative rights and preferences as between the different series.

IN WITNESS WHEREOF AND UNDER THE PENALTIES OF PERJURY, we have signed our names

this 11th day of June in the year 1970.

We, Robert J. Malley
Christoph H. Schmidt

Senior Vice President, and
Clerk of

State Street Boston Corporation
(Name of Corporation)

located at 225 Franklin Street, Boston, Massachusetts 02110 do hereby certify that the following amendments to the articles of organization of the corporation were duly adopted at a meeting held on April 21, 1982, by vote of

1,315,382	shares of	Common Stock (Class of Stock)	out of	2,111,476	shares outstanding, on Vote 1
1,089,224	shares of	Common Stock (Class of Stock)	out of	2,111,476	shares outstanding, on Vote 2 and
	shares of	(Class of Stock)	out of		shares outstanding.

being at least a majority of each class outstanding and entitled to vote thereon:- /1/

(Vote 1) VOTED: That Article 3 of the Articles of Organization of this Corporation is hereby amended to increase the number of authorized shares of Common Stock, \$10 par value, of the Corporation from 3,500,000 to 7,000,000; and that the Board of Directors be and it hereby is authorized to issue any and all of the authorized but unissued shares of the Common Stock, \$10 par value, of this Corporation at such time or times, to such persons, and for such lawful consideration, including cash, tangible or intangible property, services or expenses, or as stock dividends, as may be determined from time to time by the Board of Directors.

For amendments adopted pursuant to Chapter 156B, Section 70
For amendments adopted pursuant to Chapter 156B, Section 71

Note: If the space provided under any Amendment or item on this form is insufficient, additions shall be set forth on separate 8 1/2 x 11 sheets of paper leaving a left hand margin of at least 1 inch for binding. Additions to more than one Amendment may be continued on a single sheet so long as each Amendment requiring each such addition is clearly indicated.

FOR INCREASE IN CAPITAL FILL IN THE FOLLOWING:

The total amount of capital stock already authorized is

(-0- shares preferred)	with par value
(3,500,000 shares common)	
(700,000 shares preferred)	without par value
(-0- shares common)	

The amount of additional capital stock authorized is

(-0- shares preferred)	with par value
(3,500,000 shares common)	
(2,800,000 shares preferred)	without par value
(-0- shares common)	

(Vote 2) VOTED: That Article 3 of the Articles of Organization of this Corporation is hereby amended to increase the number of authorized shares of Preferred Stock, no par value, of the Corporation from 700,000 to 3,500,000; and that the Board of Directors be and it hereby is authorized to issue any and all of the authorized but unissued shares of the Preferred Stock, no per value, of this Corporation at such time or times, to such persons, and for such lawful consideration, including cash, tangible or intangible property, services or expenses, or as stock dividends, as may be determined from time to time by the Board of Directors.

The foregoing amendments will become effective when these articles of amendment are filed in accordance with Chapter 156B, Section 6 of The General Laws unless these articles specify, in

accordance with the vote adopting the amendment, a later effective date not more than thirty days after such filing, in which event the amendment will become effective on such later date.

IN WITNESS WHEREOF AND UNDER THE PENALTIES OF PERJURY, we have hereto signed our names this eleventh day of May, in the year 1982

----------------------	--	--	----------------------

STATE STREET BOSTON CORPORATION

Continuation Sheet 1A Amendment # 1 (continued)

"Liability of Directors

A director of this corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director notwithstanding any provision of law imposing such liability, provided, however, that this paragraph of Article Six shall not eliminate the liability of a director to the extent such liability is imposed by applicable law (i) for any breach of the director's duty of loyalty to this corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for any transaction from which the director derived an improper personal benefit, or (iv) for paying a dividend, approving a stock repurchase or making loans which are illegal under certain provisions of Massachusetts law, as the same exists or hereafter may be amended. If Massachusetts law is hereafter amended to authorize the further limitation of the legal liability of the directors of this corporation, the liability of the directors shall then be deemed to be limited to the fullest extent then permitted by Massachusetts law as so amended. Any repeal or modification of this paragraph of this Article Six which may hereafter be effected by the stockholders of this corporation shall be prospective only, and shall not adversely affect any limitation on the liability of a director for acts or omissions prior to such repeal or modification."

Continuation Sheet 2A

INDEMNIFICATION OF DIRECTORS, OFFICERS AND OTHERS

The corporation shall to the fullest extent legally permissible indemnify each person who is or was a director, officer, employee or other agent of the corporation and each person who is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another corporation or of any partnership, joint venture, trust, employee benefit plan or other enterprise or organization against all liabilities, costs and expenses, including but not limited to amounts paid in satisfaction of judgments, in settlement or as fines and penalties, and counsel fees and disbursements, reasonably incurred by him in connection with the defense or disposition of or otherwise in connection with or resulting from any action, suit or other proceeding, whether civil, criminal, administrative or investigative, before any court or administrative or legislative or investigative body, in which he may be or may have been involved as a party or otherwise or with which he may be or may have been threatened, while in office or thereafter, by reason of his being or having been such a director, officer, employee, agent or trustee, or by reason of any action taken or not taken in any such capacity, except

with respect to any matter as to which he shall have been finally adjudicated by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action was in the best interests of the corporation (any person serving another organization in one or more of the indicated capacities at the request of the corporation who shall not have been adjudicated in any proceeding not to have acted in good faith in the reasonable belief that his action was in the best interest of such other organization shall be deemed so to have acted in good faith with respect to the corporation) or to the extent that such matter relates to service with respect to an employee benefit plan, in the best interest of the participants or beneficiaries of such employee benefit plan. Expenses, including but not limited to counsel fees and disbursements, or incurred by any such person in defending any such action, suit or proceeding, shall be paid from time to time by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of the person indemnified to repay the amounts so paid if it shall ultimately be determined that indemnification of such expenses is not authorized hereunder.

If, in an action, suit or proceeding brought by or in the name of the corporation, a director of the corporation is held not liable for monetary damages, whether because that director is relieved of personal liability under the provisions of this Article Six of the Articles of Organization, or otherwise, that director shall be deemed to have met the standard of conduct set forth above and to be entitled to indemnification for expenses reasonably incurred in the defense of such action, suit or proceeding.

As to any matter disposed of by settlement by such person, pursuant to a consent decree or otherwise, no such indemnification either for the amount of such settlement or for any other expenses shall be provided unless such settlement shall be approved as in the best interests of the corporation, after notice that it involves such indemnification, (a) by vote of a majority of the disinterested directors then in office (even though the disinterested directors be less than a quorum), or (b) by any disinterested person or persons to whom the question may be referred by vote of a majority of such disinterested directors, or (c) by vote of the holders of a majority of the outstanding stock at the time entitled to vote for directors, voting as a single class, exclusive of any stock owned by any interested person, or (d) by any disinterested person or persons to whom the question may be referred by vote of the holders of a majority of such stock. No such approval shall prevent the recovery from any such director, officer, employee, agent or trustee of any amounts paid to him or on his behalf as indemnification in accordance with the preceding sentence if such person is subsequently adjudicated by a court of competent jurisdiction not to have acted in good faith in the reasonable belief that his action was in the best interests of the corporation.

The right of indemnification hereby provided shall not be exclusive of or affect any other rights to which any director, officer, employee, agent or trustee may be entitled or which may lawfully be granted to him. As used herein, the terms "director", "officer", "employee", "agent", and "trustee" include their respective executors, administrators and other legal representatives, an "interested" person is one against whom the action, suit or other proceeding in question or another action, suit or other proceeding on the same or similar grounds is then or had been pending or threatened, and a "disinterested" person is a person against whom no such action, suit or other proceeding is then or had been pending or threatened.

By action of the board of directors, notwithstanding any interest of the directors in such action, the corporation may purchase and maintain insurance, in such amounts as the board of directors may from time to time deem appropriate, on behalf of any person who is or was a director, officer, employee or other agent of the corporation, or is or was serving at the request of the corporation as a director, trustee, officer, employee or other agent of another corporation or of any partnership, joint venture, trust, employee benefit plan or other enterprise or organization against any liability incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liability.

Amendment #2

VOTED: That Article 6 of the Articles of Organization be further amended and restated with respect to indemnification to read as follows:

(See Continuation Sheet 2A, attached)

The foregoing amendment will become effective when these articles of amendment are filed in accordance with Chapter 156B, Section 6 of The General Laws unless these articles specify, in accordance with the vote adopting the amendment, a later effective date not more than thirty days after such filing, in which event the amendment will become effective on such later date.

IN WITNESS WHEREOF AND UNDER THE PENALTIES OF PERJURY, we have hereto signed our names this twenty-fourth day of April, in the year 1987.

of

SERIES A JUNIOR PARTICIPATING PREFERRED STOCK

of

STATE STREET BOSTON CORPORATION

**(Pursuant to Section 26 of the
Massachusetts Business Corporation Law)**

State Street Boston Corporation, a corporation organized and existing under the Business Corporation Law of the Commonwealth of Massachusetts (hereinafter called the "Corporation"), hereby certifies that the following resolution was adopted by the Board of Directors of the Corporation as required by Section 26 of the Business Corporation Law at a meeting duly called and held on September 15, 1988:

RESOLVED, that pursuant to the authority granted to and vested in the Board of Directors of this Corporation (hereinafter called the "Board of Directors" or the "Board") in accordance with the provisions of the Articles of Organization, the Board of Directors hereby creates a series of Preferred Stock, without par value (the "Preferred Stock"), of the Corporation and hereby states the designation and number of shares, and fixes the relative rights, preferences, and limitations thereof (in addition to any provisions set forth in the Articles of Organization of the Corporation which are applicable to the Preferred Stock of all classes and series) as follows:

Series A Junior Participating Preferred Stock:

Section 1. *Designation and Amount.* The shares of such series shall be designated as "Series A Junior Participating Preferred Stock" (the "Series A Preferred Stock") and the number of shares constituting the Series A Preferred Stock shall be 400,000. Such number of shares may be increased or decreased by resolution of the Board of Directors; *provided*, that no decrease shall reduce the number of shares of Series A Preferred Stock to a number less than the number of shares then outstanding plus the number of shares reserved for issuance upon the exercise of outstanding options, rights or warrants or upon the conversion of any outstanding securities issued by the Corporation convertible into Series A Preferred Stock.

Section 2. *Dividends and Distributions.*

(A) Subject to the rights of the holders of any shares of any series of Preferred Stock (or any similar stock) ranking prior and superior to the Series A Preferred Stock with respect to dividends, the holders of shares of Series A Preferred Stock, in preference to the holders of Common Stock, \$1 par value (the "Common Stock"), of the Corporation, and of any other junior stock, shall be entitled to receive, when, as and if declared by the Board of Directors out of funds legally available for the purpose, quarterly dividends payable in cash on the first day of March, June, September and December in each year (each such date being referred to herein as a "Quarterly Dividend Payment Date"), commencing on the first Quarterly Dividend Payment Date after the first issuance of a share or fraction of a share of Series A Preferred Stock, in an amount per share (rounded to the nearest cent) equal to the greater of (a) \$1 or (b) subject to the provision for adjustment hereinafter set forth, 100 times the aggregate per share amount of all cash dividends, and 100 times the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions, other than a dividend payable in shares of Common Stock or a subdivision of the outstanding shares of Common Stock (by reclassification or otherwise), declared on the Common Stock since the immediately preceding Quarterly Dividend Payment Date or, with respect to the first Quarterly Dividend Payment Date, since the first issuance of any share or fraction of a share

of Series A Preferred Stock. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under clause (b) of the preceding sentence shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(B) The Corporation shall declare a dividend or distribution on the Series A Preferred Stock as provided in paragraph (A) of this Section immediately after it declared a dividend or distribution on the Common Stock (other than a dividend payable in shares of Common Stock); provided that, in the event no dividend or distribution shall have been declared on the Common Stock during the period between any Quarterly Dividend Payment Date and the next subsequent Quarterly Dividend Payment Date, a dividend of \$1 per share on the Series A Preferred Stock shall nevertheless be payable on such subsequent Quarterly Dividend Payment Date.

(C) Dividends shall begin to accrue and be cumulative on outstanding shares of Series A Preferred Stock from the Quarterly Dividend Payment Date next preceding the date of issue of such shares, unless the date of issue of such shares is prior to the record date for the first Quarterly Dividend Payment Date, in which case dividends on such shares shall begin to accrue from the date of issue of such shares, or unless the date of issue is a Quarterly Dividend Payment Date or is a date after the record date for the determination of holders of shares of Series A Preferred Stock entitled to receive a quarterly dividend and before such Quarterly Dividend Payment Date, in either of which events such dividends shall begin to accrue and be cumulative from such Quarterly Dividend Payment Date. Accrued but unpaid dividends shall not bear interest. Dividends paid on the shares of Series A Preferred Stock in an amount less than the total amount of such dividends at the time accrued and payable on such shares shall be allocated pro rata on a share-by-share basis among all such shares at the time outstanding. The Board of Directors may fix a record date for the determination of holders of shares of Series A Preferred Stock entitled to received payment of a dividend or distribution declared thereon, which record date shall be not more than 60 days prior to the date fixed for the payment thereof.

Section 3. *Voting Rights.* The holders of shares of Series A Preferred Stock shall the following voting rights:

(A) Subject to the provision for adjustment hereinafter set forth, each share of Series A Preferred Stock shall entitle the holder thereof to 100 votes on all matters submitted to a vote of the stockholders of the Corporation. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the number of votes per share to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event shall be adjusted by multiplying such number by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

(B) Except as otherwise provided herein, in any other Certificate of Designations creating a series of Preferred Stock or any similar stock, or by law, the holders of shares of Series A

Preferred Stock and the holders of shares of Common Stock and any other capital stock of the Corporation having general voting rights shall vote together as one class on all matters submitted to a vote of stockholders of the Corporation.

(C) Except as set forth herein, or as otherwise provided by law, holders of Series A Preferred Stock shall have no special voting rights and their consent shall not be required (except to the extent they are entitled to vote with holders of Common Stock as set forth herein) for taking any corporate action.

Section 4. *Certain Restrictions.*

(A) Whenever quarterly dividends or other dividends or distributions payable on the Series A Preferred Stock as provided in Section 2 are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on shares of Series A Preferred Stock outstanding shall been paid in full, the Corporation shall not:

(i) declare or pay dividends, or make any other distributions, on any shares of stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock;

(ii) declare or pay dividends, or make any other distributions, on any shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except dividends paid ratably on the Series A Preferred Stock and all such parity stock on which dividends are payable or in arrears in proportion to the total amounts to which the holders of all such shares are then entitled;

(iii) redeem or purchase or otherwise acquire for consideration shares of any stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock, provided that the Corporation may at any time redeem, purchase or otherwise acquire shares of any such junior stock in exchange for shares of any stock of the Corporation ranking junior (either as to dividends or upon dissolution, liquidation or winding up) to the Series A Preferred Stock; or

(iv) redeem or purchase or otherwise acquire for consideration any shares of Series A Preferred Stock, or any shares of stock ranking on a parity with the Series A Preferred Stock, except in accordance with a purchase offer made in writing or by publication (as determined by the Board of Directors) to all holders of such shares upon such terms as the Board of Directors, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, shall determine in good faith will result in fair and equitable treatment among the respective series or classes.

(B) The Corporation shall not permit any subsidiary of the Corporation to purchase or otherwise acquire for consideration any shares of stock of the Corporation unless the Corporation could, under paragraph (A) of this Section 4, purchase or otherwise acquire such shares at such time and in such manner.

Section 5. *Reacquired Shares.* Any shares of Series A Preferred Stock purchased or otherwise acquired by the Corporation in any manner whatsoever shall be retired and cancelled promptly after the acquisition thereof. All such shares will upon their cancellation become authorized but unissued shares of Preferred Stock and may be reissued as part of a new series of Preferred Stock subject to the conditions and restrictions on issuance set forth herein, in the Articles of Organization, or in any other Certificate of Designations creating a series of Preferred Stock or any similar stock or as otherwise required by law.

Section 6. *Liquidation, Dissolution or Winding Up.* Upon any liquidation, dissolution or winding up of the Corporation, no distribution shall be made (1) to the holders of shares of stock ranking

junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series A Preferred Stock unless, prior thereto, the holders of shares of Series A Preferred Stock shall have received \$100 per share, plus an amount equal to accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment, provided that the holders of shares of Series A Preferred Stock shall be entitled to receive an aggregate amount per share, subject to the provision for adjustment hereinafter set forth, equal to 100 times the aggregate amount to be distributed per share to holders of shares of Common Stock, or (2) to the holders of shares of stock ranking on a parity (either as to dividends or upon liquidation, dissolution or winding up) with the Series A Preferred Stock, except distributions made ratably on the Series A Preferred Stock and all such parity stock in proportion to the total amounts to which the holders of all such shares are entitled upon such liquidation, dissolution or winding up. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the aggregate amount to which holders of shares of Series A Preferred Stock were entitled immediately prior to such event under the proviso in clause (1) of the preceding sentence shall be adjusted by multiplying such amount by a fraction the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 7. *Consolidation, Merger, etc.* In case the Corporation shall enter into any consolidation, merger, combination or other transaction in which the shares of Common Stock are exchanged for or changed into other stock or securities, cash and/or any other property, then in any such case each share of Series A Preferred Stock shall at the same time be similarly exchanged or changed into an amount per share, subject to the provision for adjustment herein-after set forth, equal to 100 times the aggregate amount of stock, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of Common Stock is changed or exchanged. In the event the Corporation shall at any time declare or pay any dividend on the Common Stock payable in shares of Common Stock, or effect a subdivision or combination or consolidation of the outstanding shares of Common Stock (by reclassification or otherwise than by payment of a dividend in shares of Common Stock) into a greater or lesser number of shares of Common Stock, then in each such case the amount set forth in the preceding sentence with respect to the exchange or change of shares of Series A Preferred Stock shall be adjusted by multiplying such amount by a fraction, the numerator of which is the number of shares of Common Stock outstanding immediately after such event and the denominator of which is the number of shares of Common Stock that were outstanding immediately prior to such event.

Section 8. *No Redemption.* The shares of Series A Preferred Stock shall not be redeemable.

Section 9. *Rank.* The Series A Preferred Stock shall rank junior with respect to the payment of dividends and the distribution of assets to all other series of the Corporation's Preferred Stock.

Section 10. *Amendment.* The Articles of Organization of the Corporation shall not be amended in any manner which would materially alter or change the powers, preferences or special rights of the Series A Preferred Stock so as to affect them adversely without the affirmative vote of the holders of at least two-thirds of the outstanding shares of Series A Preferred Stock, voting together as a single class.

ARTICLES OF AMENDMENT
General Laws, Chapter 156B, Section 72

FEDERAL IDENTIFICATION
NO. 04-2456637

This certificate must be submitted to the Secretary of the Commonwealth within sixty days after the date of the vote of stockholders adopting the amendment. The fee for filing this certificate is prescribed by General Laws, Chapter 156B, Section 114. Make check payable to the Commonwealth of Massachusetts.

We, Marshall N. Carter
Robert J. Malley

President, and
Clerk of

State Street Boston Corporation
(Name of Corporation)

located at 225 Franklin Street, Boston, Massachusetts 02210 do hereby certify that the following amendment to the articles of organization of the corporation was duly adopted at a meeting held on April 15, 1992, by vote of

31,180,121	shares of	Common Stock (Class of Stock)	out of	37,248,358	shares outstanding.
	shares of	(Class of Stock)	out of		shares outstanding, and
	shares of	(Class of Stock)	out of		shares outstanding.

being at least a majority of each class outstanding and entitled to vote thereon:- /1/

"VOTED: That Article 3 of the Restated Articles of Organization be amended to increase the authorized number of shares of Common Stock \$1 par value, from 56 million to 112 million, and to authorize the Board of Directors to issue such shares from time to time for general corporate purposes."

For amendments adopted pursuant to Chapter 156B, Section 70
For amendments adopted pursuant to Chapter 156B, Section 71

Note: If the space provided under any Amendment or item on this form is insufficient, additions shall be set forth on separate 8 1/2 x 11 sheets of paper leaving a left hand margin of at least 1 inch for binding. Additions to more than one Amendment may be continued on a single sheet so long as each Amendment requiring each such addition is clearly indicated.

TO CHANGE the number of shares and the par value, if any, of each class of stock within the corporation fill in the following:

The total presently authorized is:

KIND OF STOCK	NO PAR VALUE NUMBER OF SHARES	WITH PAR VALUE NUMBER OF SHARES	PAR VALUE
COMMON	-0-	56,000,000	\$ 1
PREFERRED	3,500,000	-0-	

CHANGE the total to:

KIND OF STOCK	NO PAR VALUE NUMBER OF SHARES	WITH PAR VALUE NUMBER OF SHARES	PAR VALUE
COMMON	-0-	112,000,000	\$ 1
PREFERRED	3,500,000	-0-	

The foregoing amendment will become effective when these articles of amendment are filed in accordance with Chapter 156B, Section 6 of the General Laws unless these articles specify, in accordance with the vote adopting the amendment, a later effective date not more than thirty days after such filing, in which event the amendment will become effective on such later date.

IN WITNESS WHEREOF AND UNDER THE PENALTIES OF PERJURY, we have hereto signed our names this 22nd day of April, in the year 1992.

Articles of Amendment
(General Laws, Chapter 156D, Section 10.06; 950 CMR 113.34))

State Street Corporation, having a registered office at 101 Federal Street, Boston, Massachusetts 02111, certifies as follows:

FIRST, Article 4 of the Articles of Organization of the corporation, including the Certificate of Vote of Directors Establishing a Series of a Class of Stock, which was filed with the Secretary of State of the Commonwealth of Massachusetts as an amendment to such Article 4 on February 6, 1992, is amended by this Amendment.

SECOND, this Amendment was duly adopted and approved on October 19, 2006 by the board of directors without shareholder approval and shareholder approval was not required.

THIRD, Article 4 is hereby amended by (i) rescinding the designation of \$400,000 shares of Preferred Stock as Series A Junior Participating Preferred Stock, (ii) reclassifying such shares as Preferred Stock and (iii) eliminating from the Articles of Organization all references to Series A Junior Participating Preferred Stock and the preferences, limitations and relative rights thereto.

FOURTH:

(a) The total shares authorized prior to this Amendment was (i) 500,000,000 shares of Common Stock, par value \$1.00 per share, and (ii) 3,500,000 shares of Preferred Stock, without par value.

(b) The total shares authorized upon the effectiveness of this Amendment is (i) 500,000,000 shares of Common Stock, par value \$1.00 per share, and (ii) 3,500,000 shares of Preferred Stock, without par value.

FIFTH, this Amendment will become effective on October 20, 2006 at 5:30 p.m. Boston time.

Signed by

/s/ Jeffrey N. Carp

(6) State the article number and the text of the amendment. Unless contained in the text of the amendment, state the provisions for implementing the exchange, reclassification or cancellation of issued shares.

That Article 4 of the Restated Articles of Organization be Amended to designate a Series A of preferred stock more particularly described on Exhibit A attached hereto and made a part hereof.

To change the number of shares and the par value, * if any, of any type, or to designate a class or series, of stock, or change a designation of class or series of stock, which the corporation is authorized to issue, complete the following:

Total authorized prior to amendment:

WITHOUT PAR VALUE

TYPE	NUMBER OF SHARES	TYPE	WITH PAR VALUE NUMBER OF SHARES	PAR VALUE
-------------	-------------------------	-------------	--	------------------

Total authorized after amendment:

WITHOUT PAR VALUE

TYPE	NUMBER OF SHARES	TYPE	WITH PAR VALUE NUMBER OF SHARES	PAR VALUE
-------------	-------------------------	-------------	--	------------------

(7)

The amendment shall be effective at the time and on the date approved by the Division, unless a letter effective date not more than 90 days from the date and time of filing is specified:

*

G.L. Chapter 156D eliminate the concept of par value, however a corporation may specify par value in Article III. See G.L. Chapter 156D, Section 6.21, and comment relative thereto.

**CERTIFICATE OF DESIGNATION
OF
NON-CUMULATIVE PERPETUAL PREFERRED STOCK, SERIES A
OF
STATE STREET CORPORATION**

(Pursuant to Section 6.02 of the Massachusetts Business Corporation Act)

State Street Corporation, a corporation organized and existing under the Massachusetts Business Corporation Act of the Commonwealth of Massachusetts (the "Corporation"), in accordance with the provisions of Section 6.02 thereof, hereby certifies:

The Executive Committee (the "Committee") of the Board of Directors of the Corporation, in accordance with the resolutions of the Board of Directors dated March 16, 2006, March 15, 2007 and December 13, 2007 and the provisions of the Articles of Organization, adopted the following resolutions creating a series of 5,001 shares of Preferred Stock of the Corporation designated as "Non-cumulative Perpetual Preferred Stock, Series A".

RESOLVED, that pursuant to the authority vested in the Committee and in accordance with the resolutions of the Board of Directors dated March 16, 2006, March 15, 2007 and December 13, 2007 and the provisions of the Articles of Organization, a series of Preferred Stock, without par value, of the Corporation be and hereby is created, and that the designation and number of shares, and the preferences, limitations, and relative rights thereof are as follows:

Section 1. Designation and Number, Issue Date. The series will be designated the "Non-cumulative Perpetual Preferred Stock, Series A" (hereinafter called the "Series A") and will initially consist of 5,001 shares. The number of shares constituting this Series may be increased from time to time in accordance with law up to the maximum number of shares of Preferred Stock authorized to be issued under the Articles of Organization less all shares at the time authorized of any other series of Preferred Stock as of the date hereof. Shares of this Series will be dated the date of issue. Shares of the Series A that are redeemed, purchased or otherwise acquired by the Corporation, or converted into another series of Preferred Stock, shall, after such redemption, purchase or acquisition, have the status of authorized but unissued shares of preferred stock of the Corporation, without designation as to series until such shares are once more designated as part of a particular series by the Board of Directors.

Section 2. Definitions. As used herein with respect to the Series A:

(a) "Articles of Organization" means the Articles of Organization of the Corporation, as may be amended from time to time, and shall include this Certificate of Designation.

(b) "Board of Directors" means the board of directors of the Corporation.

(c) "Bylaws" means the Bylaws of the Corporation, as may be amended from time to time.

(d) "Business Day" means any day other than a Saturday, Sunday or any other day on which banking institutions and trust companies in New York, New York, Boston, Massachusetts or Wilmington, Delaware are permitted or required by any applicable law to close.

(e) "Calculation Agent" means, at any time, the person or entity appointed by the Corporation and serving as such agent at such time. The Corporation may terminate any such appointment and may appoint a successor agent at any time and from time to time, provided that the Corporation shall use its best efforts to ensure that there is, at all relevant times when the Series A is outstanding, a person or entity appointed and serving as such agent. The Calculation Agent may be a person or entity affiliated with the Corporation.

- (f) "Certificate of Designation" means this Certificate of Designation relating to the Series A, as it may be amended from time to time.
- (g) "Common Stock" means the common stock, par value \$1.00 per share, of the Corporation.
- (h) "Junior Stock" means the Common Stock and any other class or series of stock of the Corporation (other than the Series A) that ranks junior to the Series A either or both as to the payment of dividends and/or as to the distribution of assets on any liquidation, dissolution or winding up of the Corporation.
- (i) "London Banking Day" means any day on which commercial banks are open for general business (including dealings in deposits in U.S. dollars) in London, England.
- (j) "Preferred Stock" means any and all series of Preferred Stock, having no par value, of the Corporation, including the Series A.
- (k) "Reuters Screen LIBOR01 Page" means the display designated on the Reuters 3000 Xtra (or such other page as may replace that page on that service or such other service as may be nominated by the British Bankers' Association for the purpose of displaying London interbank offered rates for U.S. dollar deposits).
- (l) "Three-month LIBOR," with respect to any Dividend Period, means the offered rate expressed as a percentage per annum for deposits in U.S. dollars for a three-month period commencing on the first day of such Dividend Period, as that rate appears on Reuters Screen LIBOR01 Page as of 11:00 A.M., London time, on the second London Banking Day immediately preceding the first day of such Dividend Period.
- If Three-month LIBOR does not appear on Reuters Screen LIBOR01 Page, Three-month LIBOR shall be determined on the basis of the rates at which deposits in U.S. dollars for a three-month period, beginning on the first day of such Dividend Period, and in a principal amount of not less than \$1,000,000 are offered to prime banks in the London interbank market by four major banks in that market selected by the Calculation Agent at approximately 11:00 A.M., London time, on the second London Banking Day immediately preceding the first day of such Dividend Period. The Calculation Agent shall request the principal London office of each of these banks to provide a quotation of its rate. If at least two quotations are provided, Three-month LIBOR for such Dividend Period shall be the arithmetic mean of such quotations (rounded upward if necessary to the nearest 0.00001 of 1%) of such quotations.
- If fewer than two quotations are provided as described in the preceding paragraph, Three-month LIBOR for such Dividend Period shall be the arithmetic mean (rounded upward if necessary to the nearest 0.00001 of 1%) of the rates quoted by three major banks in New York City selected by the Calculation Agent at approximately 11:00 A.M., New York City time, on the first day of such Dividend Period for loans in U.S. dollars to leading European banks for a three-month period, beginning on the first day of such Dividend Period, and in a principal amount of not less than \$1,000,000.
- If fewer than three banks selected by the Calculation Agent to provide quotations are quoting as described in the preceding paragraph, Three-month LIBOR for such Dividend Period shall be the Three-month LIBOR in effect for the prior Dividend Period or in the case of the first Dividend Period, the most recent Three-month LIBOR that could have been determined had the Preferred Stock been outstanding.
- (m) "Voting Parity Stock" means, with regard to any election or removal of a Preferred Stock Director (as defined in Section 6(b) below) or any other matter as to which the holders of Series A are entitled to vote as specified in Section 6 of this Certificate of Designation, any and all series of Preferred Stock (other than the Series A) that rank equally with the Series A as to the payment of dividends, whether bearing dividends on a non-cumulative or cumulative basis, and having voting rights equivalent to those described in Section 6(b).
-

Section 3. Dividends.

(a) Rate. Holders of the Series A shall be entitled to receive, when, as and if declared by the Board of Directors (or a duly authorized committee of the Board of Directors) out of funds legally available therefor, non-cumulative cash dividends at the rate determined as set forth below in this Section 3 applied to the liquidation preference amount of \$100,000 per share of Series A. Such dividends shall be payable in arrears (as provided below in this Section 3(a)), but only when, as and if declared by the Board of Directors (or a duly authorized committee of the Board of Directors), (a) if the shares of Series A are issued prior to March 15, 2011, on March 15 and September 15 of each year until March 15, 2011, and (b) thereafter, on March 15, June 15, September 15 and December 15 of each year (each a "Dividend Payment Date"); *provided* that if any such Dividend Payment Date on or after March 15, 2011 would otherwise occur on a day that is not a Business Day, such Dividend Payment Date shall instead be (and any dividend payable on the Series A on such Dividend Payment Date shall instead be payable on) the immediately succeeding Business Day. If a Dividend Payment Date prior to March 15, 2011 is not a Business Day, the applicable dividend shall be paid on the first Business Day following that day without adjustment. Dividends on the Series A shall not be cumulative; holders of Series A shall not be entitled to receive any dividends not declared by the Board of Directors (or a duly authorized committee of the Board of Directors) and no interest, or sum of money in lieu of interest, shall be payable in respect of any dividend not so declared.

Dividends that are payable on the Series A on any Dividend Payment Date will be payable to holders of record of the Series A as they appear on the stock register of the Corporation on the applicable record date, which shall be the 15th calendar day before such Dividend Payment Date or such other record date fixed by the Board of Directors (or a duly authorized committee of the Board of Directors) that is not more than 60 nor less than 10 days prior to such Dividend Payment Date (each, a "Dividend Record Date"). Any such day that is a Dividend Record Date shall be a Dividend Record Date whether or not such day is a Business Day.

Each dividend period (a "Dividend Period") shall commence on and include a Dividend Payment Date (other than the initial Dividend Period, which shall commence on and include the date of original issue of the Series A) and shall end on and include the calendar day preceding the next Dividend Payment Date. Dividends payable on the Series A in respect of a Dividend Period shall be computed by the Calculation Agent (i) if shares of Series A are issued prior to March 15, 2011, on the basis of a 360-day year consisting of twelve 30 day months until the Dividend Payment Date in March 2011 and (ii) thereafter, by multiplying the per annum dividend rate in effect for that Dividend Period by a fraction, the numerator of which will be the actual number of days in that Dividend Period and the denominator of which will be 360, and multiplying the rate obtained by \$100,000. Dividends payable in respect of a Dividend Period shall be payable in arrears—i.e., on the first Dividend Payment Date after such Dividend Period.

The dividend rate on the Series A, for each Dividend Period, shall be (a) if the shares of Series A are issued prior to March 15, 2011, a rate per annum equal to 8.250% until the Dividend Payment date in March 15, 2011, and (b) thereafter, a rate per annum that will be reset quarterly and shall be equal to Three-month LIBOR for such Dividend Period plus 4.990%, applied to the \$100,000 liquidation preference per share.

The Calculation Agent's determination of any dividend rate, and its calculation of the amount of dividends for any Dividend Period, will be maintained on file at the Corporation's principal offices and will be available to any shareholder upon request and will be final and binding in the absence of manifest error.

Holders of the Series A shall not be entitled to any dividends, whether payable in cash, securities or other property, other than dividends (if any) declared and payable on the Series A as specified in this Section 4 (subject to the other provisions of this Certificate of Designation).

(b) Priority of Dividends. So long as any share of Series A remains outstanding, no dividend shall be declared or paid on the Common Stock or any other shares of Junior Stock (other than a

dividend payable solely in Junior Stock), unless (i) full dividends for the then current Dividend Period on all outstanding shares of Series A have been declared and paid (or declared and a sum sufficient for the payment thereof has been set aside) and (ii) the Corporation is not in default on its obligation to redeem any shares of Series A that have been called for redemption. The Corporation and its subsidiaries shall not purchase, redeem or otherwise acquire, directly or indirectly, for consideration any shares of Common Stock or other Junior Stock (other than as a result of a reclassification of Junior Stock for or into other Junior Stock, or the exchange or conversion of one share of Junior Stock for or into another share of Junior Stock and other than through the use of the proceeds of a substantially contemporaneous sale of other shares of Junior Stock) nor shall the Corporation pay or make available any monies for a sinking fund for the redemption of any shares of Common Stock or any other shares of Junior Stock during a Dividend Period, unless the full dividends for the most recently-completed Dividend Period on all outstanding shares of Series A have been declared and paid (or declared and a sum sufficient for the payment thereof has been set aside). The foregoing provision shall not restrict the ability of the Corporation, or any other affiliate of the Corporation to engage in any market-making transactions in Junior Stock in the ordinary course of business.

On any Dividend Payment Date for which full dividends are not paid, or declared and funds set aside therefor, upon the Preferred Stock and other equity securities designated as ranking on a parity with the Series A as to payment of dividends ("Dividend Parity Stock"), all dividends paid or declared for payment on that Dividend Payment Date with respect to the Series A and the Dividend Parity Stock shall be shared (1) first ratably by the holders of any such shares who have the right to receive dividends with respect to Dividend Periods prior to the then- current Dividend Period for which such dividends were not declared and paid, in proportion to the respective amounts of the undeclared and unpaid dividends relating to prior Dividend Periods, and thereafter (2) by the holders of these shares on a *pro rata* basis.

Subject to the foregoing, such dividends (payable in cash, securities or other property) as may be determined by the Board of Directors (or a duly authorized committee of the Board of Directors) may be declared and paid on any securities, including Common Stock and other Junior Stock, from time to time out of any funds legally available for such payment, and the Series A shall not be entitled to participate in any such dividends.

Any class or series of preferred stock issued at any time by the Corporation that is entitled to receive dividends when, as and if declared by the Board of Directors (or a duly authorized committee of the Board of Directors) shall have, for any period when any shares of Series A is outstanding, the same dividend payment dates as the Dividend Payment Dates of the Series A.

Section 4. Liquidation Rights.

(a) Voluntary or Involuntary Liquidation. In the event of any liquidation, dissolution or winding up of the affairs of the Corporation, whether voluntary or involuntary, holders of Series A shall be entitled to receive, out of the assets of the Corporation or proceeds thereof (whether capital or surplus) available for distribution to shareholders of the Corporation, and after satisfaction of all liabilities and obligations to creditors of the Corporation, before any distribution of such assets or proceeds is made to or set aside for the holders of Common Stock and any other stock of the Corporation ranking junior to the Series A as to such distribution, in full an amount equal to \$100,000 per share (the "Series A Liquidation Amount"), together with an amount equal to all dividends (if any) that have been declared but not paid prior to the date of payment of such distribution (but without any amount in respect of dividends that have not been declared prior to such payment date). After payment of the full amount of such liquidation distribution, the holders of Series A shall not be entitled to any further participation in any distribution of assets of the Corporation.

(b) Partial Payment. If in any distribution described in Section 4(a) above the assets of the Corporation or proceeds thereof are not sufficient to pay the Liquidation Preferences (as defined below) in full to all holders of Series A and all holders of any stock of the Corporation ranking equally with the Series A as to such distribution, the amounts paid to the holders of Series A and to the holders of all such other stock shall be paid *pro rata* in accordance with the respective aggregate

Liquidation Preferences of the holders of Series A and the holders of all such other stock. In any such distribution, the "Liquidation Preference" of any holder of stock of the Corporation shall mean the amount otherwise payable to such holder in such distribution (assuming no limitation on the assets of the Corporation available for such distribution), including an amount equal to any declared but unpaid dividends (and, in the case of any holder of stock other than the Series A and on which dividends accrue on a cumulative basis, an amount equal to any unpaid, accrued, cumulative dividends, whether or not declared, as applicable).

(c) Residual Distributions. If the Liquidation Preference has been paid in full to all holders of Series A, the holders of other stock of the Corporation shall be entitled to receive all remaining assets of the Corporation (or proceeds thereof) according to their respective rights and preferences.

(d) Merger, Consolidation and Sale of Assets Not Liquidation. For purposes of this Section 4, the merger or consolidation of the Corporation with any other corporation or other entity, including a merger or consolidation in which the holders of Series A receive cash, securities or other property for their shares, or the sale, lease or exchange (for cash, securities or other property) of all or substantially all of the assets of the Corporation, shall not constitute a liquidation, dissolution or winding up of the Corporation.

Section 5. Redemption.

(a) Optional Redemption. The Series A may not be redeemed by the Corporation prior to the later of March 15, 2011 and the date of original issue of the Series A. On or after that date, the Corporation, at its option, may redeem, in whole at any time or in part from time to time, the shares of Series A at the time outstanding, upon notice given as provided in Section 5(c) below, at a cash redemption price equal to \$100,000 per share, together (except as otherwise provided herein) with an amount equal to any dividends that have been declared but not paid prior to the redemption date (but with no amount in respect of any dividends that have not been declared prior to such date). The redemption price for any shares of Series A shall be payable on the redemption date to the holder of such shares against surrender of the certificate(s) evidencing such shares to the Corporation or its agent. Any declared but unpaid dividends payable on a redemption date that occurs subsequent to the Dividend Record Date for a Dividend Period shall not be paid to the holder entitled to receive the redemption price on the redemption date, but rather shall be paid to the holder of record of the redeemed shares on such Dividend Record Date relating to the Dividend Payment Date as provided in Section 3 above.

(b) No Sinking Fund. The Series A will not be subject to any mandatory redemption, sinking fund or other similar provisions. Holders of Series A will have no right to require redemption of any shares of Series A.

(c) Notice of Redemption. Notice of every redemption of shares of Series A shall be given by first class mail, postage prepaid, addressed to the holders of record of the shares to be redeemed at their respective last addresses appearing on the books of the Corporation. Such mailing shall be at least 30 days and not more than 60 days before the date fixed for redemption. Any notice mailed as provided in this Subsection shall be conclusively presumed to have been duly given, whether or not the holder receives such notice, but failure duly to give such notice by mail, or any defect in such notice or in the mailing thereof, to any holder of shares of Series A designated for redemption shall not affect the validity of the proceedings for the redemption of any other shares of Series A. Notwithstanding the foregoing, if the Series A or any depositary shares representing interests in the Series A are issued in book-entry form through The Depository Trust Company or any other similar facility, notice of redemption may be given to the holders of Series A at such time and in any manner permitted by such facility. Each such notice given to a holder shall state: (1) the redemption date; (2) the number of shares of Series A to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder; (3) the redemption price; and (4) the place or places where certificates for such shares are to be surrendered for payment of the redemption price.

(d) Partial Redemption. In case of any redemption of only part of the shares of Series A at the time outstanding, the shares to be redeemed shall be selected either *pro rata* or by lot or in such other manner as the Board of Directors (or a duly authorized committee of the Board of Directors) may determine to be fair and equitable. Subject to the provisions hereof, the Corporation shall have full power and authority to prescribe the terms and conditions upon which shares of Series A shall be redeemed from time to time. If fewer than all the shares represented by any certificate are redeemed, a new certificate shall be issued representing the unredeemed shares without charge to the holder thereof.

(e) Effectiveness of Redemption. If notice of redemption has been duly given and if on or before the redemption date specified in the notice all funds necessary for the redemption have been set aside by the Corporation, separate and apart from its other funds, in trust for the *pro rata* benefit of the holders of the shares called for redemption, so as to be and continue to be available therefor, then, notwithstanding that any certificate for any share so called for redemption has not been surrendered for cancellation, on and after the redemption date dividends shall cease to accrue on all shares so called for redemption, all shares so called for redemption shall no longer be deemed outstanding and all rights with respect to such shares shall forthwith on such redemption date cease and terminate, except only the right of the holders thereof to receive the amount payable on such redemption, without interest. Any funds unclaimed at the end of two years from the redemption date, to the extent permitted by law, shall be released to the Corporation, after which time the holders of the shares so called for redemption shall look only to the Corporation for payment of the redemption price of such shares.

Section 6. Voting Rights.

(a) General. The holders of Series A shall not have any voting rights except as set forth below or as otherwise from time to time required by applicable law.

(b) Right To Elect Two Directors Upon Nonpayment Events. If and whenever the dividends on the Series A and any other class or series of Voting Parity Stock have not been declared and paid in an aggregate amount (i) in the case of the Series A and any other class or series of Voting Parity Stock bearing non-cumulative dividends, equal to at least six quarterly dividends (whether or not consecutive) or (ii) in the case of any class or series of Voting Parity Stock bearing cumulative dividends, in an aggregate amount equal to full dividends for at least six quarterly dividend periods or their equivalent (whether or not consecutive) (a "Nonpayment Event"), the number of directors then constituting the Board of Directors shall automatically be increased by two and the holders of Series A, together with the holders of any outstanding shares of Voting Parity Stock, voting as a single class, shall be entitled to elect the two additional directors (the "Preferred Stock Directors"), *provided* that it shall be a qualification for election for any such Preferred Stock Director that the election of such director shall not cause the Corporation to violate the corporate governance requirement of the New York Stock Exchange (or any other securities exchange or other trading facility on which securities of the Corporation may then be listed or traded) that listed or traded companies must have a majority of independent directors and *provided further* that the Board of Directors shall at no time include more than two Preferred Stock Directors (including, for purposes of this limitation, all directors that the holders of any series of Voting Parity Stock are entitled to elect pursuant to like voting rights).

In the event that the holders of Series A and such other holders of Voting Parity Stock shall be entitled to vote for the election of the Preferred Stock Directors following a Nonpayment Event, such directors shall be initially elected following such Nonpayment Event only at a special meeting called at the request of the holders of record of at least 20% of the Series A and each other series of Voting Parity Stock then outstanding (unless such request for a special meeting is received less than 90 days before the date fixed for the next annual or special meeting of the shareholders of the Corporation, in which event such election shall be held only at such next annual or special meeting of shareholders), and at each subsequent annual meeting of shareholders of the Corporation. Such request to call a special meeting for the initial election of the Preferred Stock Directors after a Nonpayment Event shall be made by written notice, signed by the requisite holders of Series A or Voting Parity Stock, and

delivered to the Secretary of the Corporation in such manner as provided for in Section 8 below, or as may otherwise be required by applicable law. If the Secretary of the Corporation fails to call a special meeting for the election of the Preferred Stock Directors within 20 days of receiving proper notice, any holder of Series A may call such a meeting at the Corporation's expense solely for the election of the Preferred Stock Directors, and for this purpose only such Series A holder shall have access to the Corporation's stock ledger.

When dividends have been paid in full on the Series A and any and all series of non-cumulative Voting Parity Stock (other than the Series A) for Dividend Periods, whether or not consecutive, equivalent to at least one year after a Nonpayment Event and all dividends on any cumulative Voting Parity Stock have been paid in full, then the right of the holders of Series A to elect the Preferred Stock Directors shall cease (but subject always to revesting of such voting rights in the case of any future Nonpayment Event), and, if and when any rights of holders of Series A and Voting Parity Stock to elect the Preferred Stock Directors shall have ceased, the terms of office of all the Preferred Stock Directors shall forthwith terminate and the number of directors constituting the Board of Directors shall automatically be reduced accordingly.

Any Preferred Stock Director may be removed at any time without cause by the holders of record of a majority of the outstanding shares of Series A and Voting Parity Stock, when they have the voting rights described above (voting together as a single class). The Preferred Stock Directors elected at any such special meeting shall hold office until the next annual meeting of the shareholders if such office shall not have previously terminated as below provided. In case any vacancy shall occur among the Preferred Stock Directors, a successor shall be elected by the Board of Directors to serve until the next annual meeting of the shareholders upon the nomination of the then remaining Preferred Stock Director or, if no Preferred Stock Director remains in office, by the vote of the holders of record of a majority of the outstanding shares of Series A and such Voting Parity Stock for which dividends have not been paid, voting as a single class. The Preferred Stock Directors shall each be entitled to one vote per director on any matter that shall come before the Board of Directors for a vote.

(c) Other Voting Rights. So long as any shares of Series A are outstanding, in addition to any other vote or consent of shareholders required by law or by the Articles of Organization, the vote or consent of the holders of at least a majority of the shares of Series A at the time outstanding and entitled to vote thereon, voting separately as a single class, given in person or by proxy, either in writing without a meeting or by vote at any meeting called for the purpose, shall be necessary for effecting or validating:

(i) Authorization of Senior Stock. Any amendment, alteration or repeal of any provision of the Articles of Organization or Bylaws to authorize or create, or increase the authorized amount of, any shares of any class or series of capital stock of the Corporation ranking senior to the Series A with respect to either the payment of dividends or the distribution of assets on any liquidation, dissolution or winding up of the Corporation;

(ii) Amendment of Series A. Any amendment, alteration or repeal of any provision of the Articles of Organization or Bylaws so as to adversely affect the special rights, preferences, privileges or voting powers of the Series A; *provided, however*, that any amendment of the Articles of Organization to authorize or create or to increase the authorized amount of any Junior Stock or any class or series or any securities convertible into shares of any class or series of Dividend Parity Stock or other series of Preferred Stock ranking equally with the Series A with respect to the distribution of assets upon liquidation, dissolution or winding up of the Corporation will not be deemed to adversely affect the rights, preferences, privileges or voting powers of the Series A; or

(iii) Share Exchanges, Reclassifications, Mergers and Consolidations. Any consummation of a binding share exchange or reclassification involving the Series A, or of a merger or consolidation of the Corporation with another corporation or other entity, or any merger or consolidation of the Corporation with or into any entity other than a corporation unless in each case (x) the shares of Series A remain outstanding or, in the case of any such merger or consolidation with respect to which the Corporation is not the surviving or resulting corporation,

are converted into or exchanged for preference securities of the surviving or resulting corporation or a corporation controlling such corporation, and (y) such shares remaining outstanding or such preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof as would not require a vote of the holders of the Preferred Stock pursuant to clauses (i) or (ii) above if such change were effected by an amendment of the Articles of Organization.

If any amendment, alteration, repeal, share exchange, reclassification, merger or consolidation specified in this Section 6(c) would adversely affect the Series A and one or more but not all other series of Preferred Stock, then only the Series A and such series of Preferred Stock as are adversely affected by and entitled to vote on the matter shall vote on the matter together as a single class (in lieu of all other series of Preferred Stock).

(d) Changes for Clarification. Without the consent of the holders of Series A, so long as such action does not adversely affect the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Series A, the Corporation may amend, alter, supplement or repeal any terms of the Series A:

(i) to cure any ambiguity, or to cure, correct or supplement any provision contained in this Certificate of Designation that may be defective or inconsistent; or

(ii) to make any provision with respect to matters or questions arising with respect to the Series A that is not inconsistent with the provisions of this Certificate of Designation.

(e) Changes after Provision for Redemption. No vote or consent of the holders of Series A shall be required pursuant to Section 6(b) or (c) above if, at or prior to the time when any such vote or consent would otherwise be required pursuant to such Section, all outstanding shares of Series A shall have been redeemed, or shall have been called for redemption upon proper notice and sufficient funds shall have been set aside for such redemption, in each case pursuant to Section 5 above.

(f) Procedures for Voting and Consents. The rules and procedures for calling and conducting any meeting of the holders of Series A (including, without limitation, the fixing of a record date in connection therewith), the solicitation and use of proxies at such a meeting, the obtaining of written consents and any other aspect or matter with regard to such a meeting or such consents shall be governed by any rules the Board of Directors, in its discretion, may adopt from time to time, which rules and procedures shall conform to the requirements of the Articles of Organization, the Bylaws, applicable law and any national securities exchange or other trading facility on which the Series A is listed or traded at the time. Whether the vote or consent of the holders of a plurality, majority or other portion of the shares of Series A and any Voting Parity Stock has been cast or given on any matter on which the holders of shares of Series A are entitled to vote shall be determined by the Corporation by reference to the specified liquidation amounts of the shares voted or covered by the consent.

For purposes of determining the voting rights of the holders of Series A under this Section 6, each holder will be entitled to one vote for each \$100,000 of liquidation preference to which his or her shares are entitled. Holders of shares of Series A will be entitled to one vote for each such share of Series A held by them.

Section 7. Record Holders. To the fullest extent permitted by applicable law, the Corporation and the transfer agent for the Series A may deem and treat the record holder of any share of Series A as the true and lawful owner thereof for all purposes, and neither the Corporation nor such transfer agent shall be affected by any notice to the contrary.

Section 8. Notices. All notices or communications in respect of the Series A shall be sufficiently given if given in writing and delivered in person or by first class mail, postage prepaid, or if given in such other manner as may be permitted in this Certificate of Designation, in the Articles of Organization or Bylaws or by applicable law.

Section 9. No Preemptive Rights. No share of Series A shall have any rights of preemption whatsoever as to any securities of the Corporation, or any warrants, rights or options issued or granted

with respect thereto, regardless of how such securities, or such warrants, rights or options, may be designated, issued or granted.

Section 10. Other Rights. The shares of Series A shall not have any voting powers, preferences or relative, participating, optional or other special rights, or qualifications, limitations or restrictions thereof, other than as set forth herein or in the Articles of Organization or as provided by applicable law.

[CERTIFICATE OF DESIGNATION OF NON-CUMULATIVE PERPETUAL PREFERRED STOCK, SERIES A OF STATE STREET CORPORATION](#)

**STATE STREET CORPORATION
2006 EQUITY INCENTIVE PLAN**

1. DEFINED TERMS; EFFECTIVE DATE

Exhibit A, which is incorporated by reference, defines the terms used in the Plan and sets forth certain operational rules related to those terms. The Plan shall take effect on the Effective Date.

2. PURPOSE

The Plan has been established to advance the interests of the Company by providing for the grant to Participants of Stock-based Awards.

3. ADMINISTRATION

The Administrator has discretionary authority, subject only to the express provisions of the Plan, to interpret the Plan, determine eligibility for and grant or cancel Awards; determine, modify or waive the terms and conditions, size, or type of any Award, prescribe forms, rules and procedures, and otherwise do all things necessary to carry out the purposes of the Plan. In the case of any Award intended to be eligible for the performance-based compensation exception under Section 162(m), the Administrator will exercise its discretion consistent with qualifying the Award for that exception. Determinations of the Administrator made under the Plan will be conclusive and will bind all parties.

4. LIMITS ON AWARDS UNDER THE PLAN

(a) *Number of Shares.* The number of shares of Stock available for delivery in satisfaction of Awards under the Plan shall be determined in accordance with this Section 4(a).

(1) Subject to Section 7(b), the maximum number of shares of Stock that may be delivered in satisfaction of Awards under the Plan shall be 20,000,000 plus the number (not to exceed 8,000,000) of unused Prior Plan shares. For purposes of the preceding sentence, shares of Stock shall be unused Prior Plan shares (i) if they were subject to awards under the Prior Plan, other than restricted stock awards, that were outstanding on the day preceding the Effective Date to the extent such Prior Plan awards are exercised or are satisfied, or terminate or expire, on or after the Effective Date without the delivery of such shares, or (ii) if they were outstanding on the day preceding the Effective Date as restricted stock awards under the Prior Plan and are thereafter forfeited. The number of shares of Stock delivered in satisfaction of an Award shall be, for purposes of the first sentence of this Section 4(a)(1), the number of shares of Stock subject to the Award reduced by the number of shares of Stock (a) withheld by the Company in payment of the exercise price of the Award or in satisfaction of tax withholding requirements with respect to the Award, or (b) awarded under the Plan as Restricted Stock but thereafter forfeited, or (c) made subject to an Award that is exercised or satisfied, or that terminates or expires, without the delivery of such shares.

(2) To the extent consistent with the requirements of Section 422 and with other applicable legal requirements (including applicable stock exchange requirements), Stock issued under awards of an acquired company that are converted, replaced, or adjusted in connection with the acquisition shall not reduce the number of shares available for Awards under the Plan.

(b) *Type of Shares.* Stock delivered by the Company under the Plan may be authorized but unissued Stock or previously issued Stock acquired by the Company. No fractional shares of Stock will be delivered under the Plan.

(c) *Section 162(m) Limits.* Subject to Section 7(b), the maximum number of shares of Stock for which Stock Options may be granted to any person in any calendar year and the maximum number of shares of Stock subject to SARs granted to any person in any calendar year shall each be 2,000,000.

and the maximum number of shares subject to other Awards granted to any person in any calendar year shall be 2,000,000 shares. The provisions of this Section 4(c) shall be construed in a manner consistent with Section 162(m).

5. ELIGIBILITY AND PARTICIPATION

The Administrator will select Participants from among those key Employees and directors of, and consultants and advisors to, the Company or its Subsidiaries who, in the opinion of the Administrator, are in a position to make a significant contribution to the success of the Company and its Subsidiaries. Eligibility for ISOs is limited to employees of the Company or of a "parent corporation" or "subsidiary corporation" of the Company as those terms are defined in Section 424 of the Code.

6. RULES APPLICABLE TO AWARDS

(a) *All Awards*

(1) **Award Provisions.** The Administrator will determine the terms of all Awards, subject to the limitations provided herein. By accepting any Award granted hereunder, the Participant agrees to the terms of the Award and the Plan. Notwithstanding any provision of this Plan to the contrary, awards of an acquired company that are converted, replaced or adjusted in connection with the acquisition may contain terms and conditions that are inconsistent with the terms and conditions specified herein, as determined by the Administrator.

(2) **Term of Plan.** No Awards may be made after April 18, 2016, but previously granted Awards may continue beyond that date in accordance with their terms.

(3) **Transferability.** Neither ISOs nor, except for gratuitous transfers (i.e., transfers for no consideration) to the extent permitted by the Administrator, other Awards may be transferred other than by will or the laws of descent and distribution, and during a Participant's lifetime ISOs (and, except as the Administrator otherwise expressly provides, other non-transferable Awards requiring exercise) may be exercised only by the Participant.

(4) **Vesting, Etc.** The Administrator may determine the time or times at which an Award will vest or become exercisable and the terms on which an Award requiring exercise will remain exercisable. Without limiting the foregoing, the Administrator may at any time accelerate the vesting or exercisability of an Award, regardless of any adverse or potentially adverse tax consequences resulting from such acceleration. Unless the Administrator expressly provides otherwise, however, the following rules will apply: immediately upon the cessation of the Participant's Employment, each Award requiring exercise that is then held by the Participant or by the Participant's permitted transferees, if any, will cease to be exercisable and will terminate, and all other Awards that are then held by the Participant or by the Participant's permitted transferees, if any, to the extent not already vested will be forfeited, except that:

(A) subject to (B) and (C) below, all Stock Options and SARs held by the Participant or the Participant's permitted transferees, if any, immediately prior to the cessation of the Participant's Employment, to the extent then exercisable, will remain exercisable for the lesser of (i) a period of three months or (ii) the period ending on the latest date on which such Stock Option or SAR could have been exercised without regard to this Section 6(a)(4), and will thereupon terminate;

(B) all Stock Options and SARs held by a Participant or the Participant's permitted transferees, if any, immediately prior to the Participant's death, to the extent then exercisable, will remain exercisable for the lesser of (i) the one year period ending with the first anniversary of the Participant's death or (ii) the period ending on the latest date on which

such Stock Option or SAR could have been exercised without regard to this Section 6(a)(4), and will thereupon terminate; and

(C) all Stock Options and SARs held by a Participant or the Participant's permitted transferees, if any, immediately prior to the cessation of the Participant's Employment will immediately terminate upon such cessation if the Administrator in its sole discretion determines that such cessation of Employment has resulted for reasons which cast such discredit on the Participant as to justify immediate termination of the Award.

(5) **Taxes.** The Administrator will make such provision for the withholding of taxes as it deems necessary. The Administrator may, but need not, hold back shares of Stock from an Award or permit a Participant to tender previously owned shares of Stock in satisfaction of tax withholding requirements (but not in excess of the minimum withholding required by law).

(6) **Dividend Equivalents, Etc.** The Administrator may provide for the payment of amounts in lieu of cash dividends or other cash distributions with respect to Stock subject to an Award. Any entitlement to dividend equivalents or similar entitlements shall be established and administered consistent either with exemption from, or compliance with, the requirements of Section 409A to the extent applicable.

(7) **Rights Limited.** Nothing in the Plan will be construed as giving any person the right to continued employment or service with the Company or its Subsidiaries, or any rights as a stockholder except as to shares of Stock actually issued under the Plan. The loss of existing or potential profit in Awards will not constitute an element of damages in the event of termination of Employment for any reason, even if the termination is in violation of an obligation of the Company or Subsidiary to the Participant.

(8) **Section 162(m).** This Section 6(a)(8) applies to any Performance Award intended to qualify as performance-based for the purposes of Section 162(m) other than a Stock Option or SAR. In the case of any Performance Award to which this Section 6(a)(8) applies, the Plan and such Award will be construed to the maximum extent permitted by law in a manner consistent with qualifying the Award for such exception. With respect to such Performance Awards, the Administrator will preestablish, in writing, one or more specific Performance Criteria no later than 90 days after the commencement of the period of service to which the performance relates (or at such earlier time as is required to qualify the Award as performance-based under Section 162(m)). Prior to grant, vesting or payment of the Performance Award, as the case may be, the Administrator will certify whether the applicable Performance Criteria have been attained and such determination will be final and conclusive. No Performance Award to which this Section 6(a)(8) applies may be granted after the first meeting of the stockholders of the Company held in 2011 until the listed performance measures set forth in the definition of "Performance Criteria" (as originally approved or as subsequently amended) have been resubmitted to and reapproved by the stockholders of the Company in accordance with the requirements of Section 162(m) of the Code, unless such grant is made contingent upon such approval.

(b) Awards Requiring Exercise

(1) **Time And Manner Of Exercise.** Unless the Administrator expressly provides otherwise, an Award requiring exercise by the holder will not be deemed to have been exercised until the Administrator receives a notice of exercise (in form acceptable to the Administrator) signed by the appropriate person and accompanied by any payment required under the Award. If the Award is exercised by any person other than the Participant, the Administrator may require satisfactory evidence that the person exercising the Award has the right to do so.

(2) **Section 409A Exemption.** Except as the Administrator otherwise determines, no Award requiring exercise shall have deferral features, or shall be administered in a manner, that would cause such Award to fail to qualify for exemption from Section 409A.

(3) **Exercise Price.** The exercise price (or the base value from which appreciation is to be measured) of each Award requiring exercise shall be 100% of the fair market value of the Stock subject to the Award, determined as of the date of grant, or such higher amount as the Administrator may determine in connection with the grant. No such Award, once granted, may be repriced other than in accordance with the applicable stockholder approval requirements of the New York Stock Exchange. Fair market value shall be determined by the Administrator consistent with the requirements of Section 422 and Section 409A.

(4) **Payment Of Exercise Price.** Where the exercise of an Award is to be accompanied by payment, the Administrator may determine the required or permitted forms of payment, subject to the following: all payments will be by cash or check acceptable to the Administrator, or, if so permitted by the Administrator and if legally permissible, (i) through the delivery of shares of Stock that have been outstanding for at least six months (unless the Administrator approves a shorter period) and that have a fair market value equal to the exercise price, (ii) through a broker-assisted exercise program acceptable to the Administrator, (iii) by other means acceptable to the Administrator, or (iv) by any combination of the foregoing permissible forms of payment. The delivery of shares in payment of the exercise price under Section 6(b)(3)(i) above may be accomplished either by actual delivery or by constructive delivery through attestation of ownership, subject to such rules as the Administrator may prescribe.

(c) **Awards Not Requiring Exercise**

Restricted Stock and Unrestricted Stock, whether delivered outright or under Awards of Stock Units or other Awards that do not require exercise, may be made in exchange for such lawful consideration, including services, as the Administrator determines. Any Award resulting in a deferral of compensation subject to Section 409A shall be construed to the maximum extent possible, as determined by the Administrator, consistent with the requirements of Section 409A.

7. EFFECT OF CERTAIN TRANSACTIONS

(a) **Mergers, etc.** Except as otherwise provided in an Award, the following provisions shall apply in the event of a Covered Transaction:

(1) **Assumption or Substitution.** If the Covered Transaction is one in which there is an acquiring or surviving entity, the Administrator may provide for the assumption of some or all outstanding Awards or for the grant of new awards in substitution therefore by the acquiror or survivor or an affiliate of the acquiror or survivor.

(2) **Cash-Out of Awards.** If the Covered Transaction is one in which holders of Stock will receive upon consummation a payment (whether cash, non-cash or a combination of the foregoing), the Administrator may provide for payment (a "cash-out"), with respect to some or all Awards, equal in the case of each affected Award to the excess, if any, of (A) the fair market value of one share of Stock (as determined by the Administrator in its reasonable discretion) times the number of shares of Stock subject to the Award, over (B) the aggregate exercise or purchase price, if any, under the Award (in the case of an SAR, the aggregate base price above which appreciation is measured), in each case on such payment terms (which need not be the same as the terms of payment to holders of Stock) and other terms, and subject to such conditions, as the Administrator determines.

(3) **Acceleration of Certain Awards.** If the Covered Transaction (whether or not there is an acquiring or surviving entity) is one in which there is no assumption, substitution or cash-out, each

Award requiring exercise will become fully exercisable, and the delivery of shares of Stock deliverable under each outstanding Award of Stock Units (including Restricted Stock Units and Performance Awards to the extent consisting of Stock Units) will be accelerated and such shares will be delivered, prior to the Covered Transaction, in each case on a basis that gives the holder of the Award a reasonable opportunity, as determined by the Administrator, following exercise of the Award or the delivery of the shares, as the case may be, to participate as a stockholder in the Covered Transaction.

(4) Termination of Awards Upon Consummation of Covered Transaction. Each Award (unless assumed pursuant to Section 7(a)(1) above), other than outstanding shares of Restricted Stock (which shall be treated in the same manner as other shares of Stock, subject to Section 7(a)(5) below), will terminate upon consummation of the Covered Transaction.

(5) Additional Limitations. Any share of Stock delivered pursuant to Section 7(a)(2) or Section 7(a)(3) above with respect to an Award may, in the discretion of the Administrator, contain such restrictions, if any, as the Administrator deems appropriate to reflect any performance or other vesting conditions to which the Award was subject. In the case of Restricted Stock, the Administrator may require that any amounts delivered, exchanged or otherwise paid in respect of such Stock in connection with the Covered Transaction be placed in escrow or otherwise made subject to such restrictions as the Administrator deems appropriate to carry out the intent of the Plan.

(b) Change in and Distributions With Respect to Stock

(1) Basic Adjustment Provisions. In the event of a stock dividend, stock split or combination of shares (including a reverse stock split), recapitalization or other change in the Company's capital structure, the Administrator will make appropriate adjustments to the maximum number of shares specified in Section 4(a) that may be delivered under the Plan and to the maximum share limits described in Section 4(c), and will also make appropriate adjustments to the number and kind of shares of stock or securities subject to Awards then outstanding or subsequently granted, any exercise prices relating to Awards and any other provision of Awards affected by such change.

(2) Certain Other Adjustments. The Administrator may also make adjustments of the type described in Section 7(b)(1) above to take into account distributions to stockholders other than those provided for in Section 7(a) and 7(b)(1), or any other event, if the Administrator determines that adjustments are appropriate to avoid distortion in the operation of the Plan and to preserve the value of Awards made hereunder, having due regard for the qualification of ISOs under Section 422, the requirements of Section 409A, and the performance-based compensation rules of Section 162(m), where applicable.

(3) Continuing Application of Plan Terms. References in the Plan to shares of Stock will be construed to include any stock or securities resulting from an adjustment pursuant to this Section 7.

(c) Change in Control Provisions. Notwithstanding any other provision of the Plan to the contrary, in the event of a Change of Control:

(1) Acceleration of Stock Options and SARs; Effect on Other Awards. All Stock Options and SARs outstanding as of the date such Change of Control is determined to have occurred and which are not then exercisable shall (prior to application of the provisions of Section 7(a), above, in the case of a Change of Control that also constitutes a Covered Transaction) become exercisable to the full extent of the original grant, all shares of Restricted Stock which are not otherwise vested shall vest, and holders of Performance Awards granted hereunder as to which the relevant performance period has not ended as of the date such Change of Control is determined to have

occurred shall be entitled at the time of such Change of Control to receive a cash-out with respect to each Performance Award in the amount and in a form described in Section 7(a)(2).

(2) **Restriction on Application of Plan Provisions Applicable in the Event of Termination of Employment.** After a Change of Control, Stock Options and SARs granted under Section 7(a)(1) as substitution for existing Awards shall remain exercisable following a termination of employment or other service relationship (other than termination by reason of death, disability (as determined by the Company) or retirement (as defined in the Award)) for the lesser of (i) a period of seven (7) months, or (ii) the period ending on the latest date on which such Stock Option or SAR could otherwise have been exercised.

(3) **Restriction on Amendment.** In connection with or following a Change of Control, neither the Committee nor the Board may impose additional conditions upon exercise or otherwise amend or restrict any Award, or amend the terms of the Plan in any manner adverse to the holder thereof, without the written consent of such holder.

(d) **Section 409A.** Notwithstanding the foregoing provisions of this Section 7, Awards subject to and intended to satisfy the requirements of Section 409A shall be construed and administered consistent with such intent.

8. LEGAL CONDITIONS ON DELIVERY OF STOCK

The Company will not be obligated to deliver any shares of Stock pursuant to the Plan or to remove any restriction from shares of Stock previously delivered under the Plan until: (i) the Company is satisfied that all legal matters in connection with the issuance and delivery of such shares have been addressed and resolved; (ii) if the outstanding Stock is at the time of delivery listed on any stock exchange or national market system, the shares to be delivered have been listed or authorized to be listed on such exchange or system upon official notice of issuance; and (iii) all conditions of the Award have been satisfied or waived. If the sale of Stock has not been registered under the Securities Act of 1933, as amended, the Company may require, as a condition to exercise of the Award, such representations or agreements as counsel for the Company may consider appropriate to avoid violation of such Act. The Company may require that certificates evidencing Stock issued under the Plan bear an appropriate legend reflecting any restriction on transfer applicable to such Stock, and the Company may hold the certificates pending lapse of the applicable restrictions.

9. AMENDMENT AND TERMINATION

The Administrator may at any time or times amend the Plan or any outstanding Award for any purpose which may at the time be permitted by law, and may at any time terminate the Plan as to any future grants of Awards; *provided*, that except as otherwise expressly provided in the Plan the Administrator may not, without the Participant's consent, alter the terms of an Award so as to affect materially and adversely the Participant's rights under the Award, unless the Administrator expressly reserved the right to do so at the time of the Award. Any amendments to the Plan shall be conditioned upon stockholder approval only to the extent, if any, such approval is required by law (including the Code and applicable stock exchange requirements), as determined by the Administrator.

10. OTHER COMPENSATION ARRANGEMENTS

The existence of the Plan or the grant of any Award will not in any way affect the Company's right to award a person bonuses or other compensation in addition to Awards under the Plan.

11. MISCELLANEOUS

(a) **Waiver of Jury Trial.** By accepting an Award under the Plan, each Participant waives any right to a trial by jury in any action, proceeding or counterclaim concerning any rights under the Plan and any Award, or under any amendment, waiver, consent, instrument, document or other agreement delivered or which in the future may be delivered in connection therewith, and agrees that any such action, proceedings or counterclaim shall be tried before a court and not before a jury. By accepting an Award under the Plan, each Participant certifies that no officer, representative, or attorney of the Company has represented, expressly or otherwise, that the Company would not, in the event of any action, proceeding or counterclaim, seek to enforce the foregoing waivers.

(b) **Limitation of Liability.** Notwithstanding anything to the contrary in the Plan, neither the Company nor the Administrator, nor any person acting on behalf of the Company or the Administrator, shall be liable to any Participant or to the estate or beneficiary of any Participant by reason of any acceleration of income, or any additional tax, asserted by reason of the failure of an Award to satisfy the requirements of Section 422 or Section 409A or by reason of Section 4999 of the Code; *provided*, that nothing in this Section 11(b) shall limit the ability of the Administrator or the Company to provide by express agreement with a Participant for a gross-up payment or other payment in connection with any such tax or additional tax.

(c) **Special Terms for Non-U.S. Participants.** The Administrator may establish special rules under the Plan (which may be, but need not be, consistent with the rules applicable to Participants and Awards generally) for Awards to Participants who are or are expected to be employed by or otherwise providing services outside the United States or to a non-U.S. Subsidiary, provided, that no such rules shall be established without the approval of the stockholders of the Company to the extent they would be ineffective without such stockholder approval if accomplished as an amendment to the Plan pursuant to Section 9.

EXHIBIT A

Definition of Terms

The following terms, when used in the Plan, will have the meanings and be subject to the provisions set forth below:

"Administrator": The Executive Compensation Committee or, if the Board so determines, another committee of the Board, except that the Executive Compensation Committee or such other committee may delegate (i) to one or more of its members such of its duties, powers and responsibilities as it may determine; (ii) to one or more officers of the Company the power and authority to grant or to allocate, consistent with the requirements of Chapter 156D of the Massachusetts General Laws and subject to such limitations as the Executive Compensation Committee or such other committee may impose, Awards among such persons (other than officers of the Company) eligible to receive Awards under the Plan as such delegated officer or officers determine consistent with such delegation; and (iii) to such Employees or other persons as it determines such ministerial tasks as it deems appropriate. In the event of any delegation described in the preceding sentence, the term "Administrator" shall include the person or persons so delegated to the extent of such delegation. If the Executive Compensation Committee or such other committee includes members who are not "non-employee directors" within the meaning of Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended, or "outside directors" within the meaning of paragraph (4)(c)(i) of Section 162(m), it shall act and shall be deemed to have acted, in any case where it would be required to do so with respect to Awards to directors or executive officers of the Company to ensure exemption under Rule 16b-3 or Section 162(m), through a subcommittee consisting solely of its non-employee and outside director members.

"Award": Any or a combination of the following:

- (i) Stock Options.
- (ii) SARs.
- (iii) Restricted Stock.
- (iv) Unrestricted Stock.
- (v) Stock Units, including Restricted Stock Units.
- (vi) Performance Awards.
- (vii) Awards (other than Awards described in (i) through (vi) above) that are convertible into or otherwise based on Stock.

"Board": The Board of Directors of the Company.

"Change in Control": Any of the following:

- (1) The acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act) (a "Person") of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of 25% or more of either (x) the then outstanding shares of Stock of the Company (the "Outstanding Company Common Stock") or (y) the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors (the "Outstanding Company Voting Securities"); excluding, however, the following acquisitions of Outstanding Company Common Stock and Outstanding Company Voting Securities: (i) any acquisition directly from the Company, (ii) any acquisition by the Company, (iii) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company or (iv)

any acquisition by any Person pursuant to a transaction which complies with clauses (i), (ii) and (iii) of subsection (3) of this definition; or

(2) Individuals who, as of the effective date of the Plan, constitute the Board (the "Incumbent Board") cease for any reason to constitute at least a majority of the Board; provided, however, that any individual who becomes a member of the Board subsequent to such effective date, whose election, or nomination for election by the Company's stockholders, was approved by a vote of at least a majority of directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board; but, provided further, that any such individual whose initial assumption of office occurs as a result of either an actual or threatened election contest (as such terms are used in Rule 14a-11 of Regulation 14A promulgated under the Exchange Act) or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board shall not be so considered as a member of the Incumbent Board; or

(3) Consummation by the Company of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company ("Business Combination"); excluding, however, such a Business Combination pursuant to which (i) all or substantially all of the individuals and entities who are the beneficial owners, respectively, of the Outstanding Company Common Stock and Outstanding Company Voting Securities immediately prior to such Business Combination own, directly or indirectly, more than 50% of, respectively, the outstanding shares of common stock, and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the corporation resulting from such Business Combination (including, without limitation, a corporation which as a result of such transaction owns the Company or all or substantially all of the Company's assets either directly or through one or more subsidiaries) in substantially the same proportions as their ownership, immediately prior to such Business Combination, of the Outstanding Company Common Stock and Outstanding Company Voting Securities, as the case may be, (ii) no Person (other than any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company or such corporation resulting from such Business Combination) will beneficially own, directly or indirectly, 25% or more of, respectively, the outstanding shares of common stock of the corporation resulting from such Business Combination or the combined voting power of the outstanding voting securities of such corporation entitled to vote generally in the election of directors except to the extent that such ownership existed with respect to the Company prior to the Business Combination and (iii) at least a majority of the members of the board of directors of the corporation resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

(4) The approval by the stockholders of the Company of a complete liquidation or dissolution of the Company;

provided, that, to the extent necessary to ensure compliance with the requirements of Section 409A, where applicable, an event described above shall be treated as a Change in Control only if it also constitutes or results in a change in ownership or control of the Company, or a change in ownership of assets of the Company, described in Section 409A.

"Code": The U.S. Internal Revenue Code of 1986 as from time to time amended and in effect, or any successor statute as from time to time in effect. Any reference to a provision of the Code shall include, as determined by the Administrator, a reference to applicable regulations and Internal Revenue Service guidance with respect to such provision.

"Company": State Street Corporation.

"Covered Transaction": Any of (i) a consolidation, merger, or similar transaction or series of related transactions, including a sale or other disposition of stock, in which the Company is not the surviving corporation or which results in the acquisition of all or substantially all of the Company's then outstanding common stock by a single person or entity or by a group of persons and/or entities acting in concert, (ii) a sale or transfer of all or substantially all the Company's assets, or (iii) a dissolution or liquidation of the Company. Where a Covered Transaction involves a tender offer that is reasonably expected to be followed by a merger described in clause (i) (as determined by the Administrator), the Covered Transaction shall be deemed to have occurred upon consummation of the tender offer.

"Effective Date": The date on which the stockholders of the Company approve the Plan.

"Employee": Any person who is employed by the Company or a Subsidiary.

"Employment": A Participant's employment or other service relationship with the Company and its Subsidiaries. Employment will be deemed to continue, unless the Administrator expressly provides otherwise, so long as the Participant is employed by, or otherwise is providing services in a capacity described in Section 5 to the Company or its Subsidiaries. If a Participant's employment or other service relationship is with a Subsidiary and that entity ceases to be a Subsidiary, the Participant's Employment will be deemed to have terminated when the entity ceases to be a Subsidiary unless the Participant transfers Employment to the Company or its remaining Subsidiaries.

"Executive Compensation Committee": The Executive Compensation Committee of the Board.

"ISO": A Stock Option intended to be an "incentive stock option" within the meaning of Section 422. Each option granted pursuant to the Plan will be treated as providing by its terms that it is to be a non-incentive stock option unless, as of the date of grant, it is expressly designated as an ISO. No ISO shall be exercisable beyond ten years from the date of grant.

"Participant": A person who is granted an Award under the Plan.

"Performance Award": An Award subject to Performance Criteria. The Committee in its discretion may grant Performance Awards that are intended to qualify for the performance-based compensation exception under Section 162(m) and Performance Awards that are not intended so to qualify.

"Performance Criteria": Specified criteria, other than the mere continuation of Employment or the mere passage of time, the satisfaction of which is a condition for the grant, exercisability, vesting or full enjoyment of an Award. For purposes of Awards that are intended to qualify for the performance-based compensation exception under Section 162(m), a Performance Criterion will mean an objectively determinable measure of performance relating to any or any combination of the following (measured either absolutely or by reference to an index or indices and determined either on a consolidated basis or, as the context permits, on a divisional, subsidiary, line of business, project or geographical basis or in combinations thereof): sales; revenue; assets; expenses; expense control; earnings before or after deduction for all or any portion of interest, taxes, depreciation, or amortization, whether or not on a continuing operations or an aggregate or per share basis; return on equity, investment, capital or assets; one or more operating ratios; operating leverage; borrowing levels, leverage ratios or credit rating; market share; capital expenditures; cash flow; stock price; stockholder return; sales of particular products or services; customer acquisition or retention; acquisitions and divestitures (in whole or in part); joint ventures and strategic alliances; spin-offs, split-ups and the like; reorganizations; or recapitalizations, restructurings, financings (issuance of debt or equity) or refinancings. A Performance Criterion and any targets with respect thereto determined by the Administrator need not be based upon an increase, a positive or improved result or avoidance of loss. To the extent consistent with the requirements for satisfying the performance-based compensation exception under Section 162(m), the Administrator may provide in the case of any Award intended to qualify for such exception that one or

more of the Performance Criteria applicable to such Award will be adjusted in an objectively determinable manner to reflect events (for example, but without limitation, acquisitions or dispositions, changes in accounting principles or interpretations, impairment charges) occurring during the performance period that affect the applicable Performance Criterion or Criteria.

"Plan": The State Street Corporation 2006 Equity Incentive Plan as from time to time amended and in effect.

"Prior Plan": The State Street Corporation 1997 Equity Incentive Plan as amended and in effect prior to the Effective Date.

"Restricted Stock": Stock subject to restrictions requiring that it be redelivered or offered for sale to the Company if specified conditions are not satisfied.

"Restricted Stock Unit": A Stock Unit that is, or as to which the delivery of Stock or cash in lieu of Stock is, subject to the satisfaction of specified performance or other vesting conditions.

"SAR": A right entitling the holder upon exercise to receive an amount (payable in shares of Stock of equivalent value) equal to the excess of the fair market value of the shares of Stock subject to the right over the fair market value of such shares at the date of grant.

"Section 409A": Section 409A of the Code.

"Section 422": Section 422 of the Code.

"Section 162(m)": Section 162(m) of the Code.

"Stock": The Common Stock of the Company, par value \$1 per share.

"Stock Option": An option entitling the holder to acquire shares of Stock upon payment of the exercise price.

"Stock Unit": An unfunded and unsecured promise, denominated in shares of Stock, to deliver Stock or cash measured by the value of Stock in the future.

"Subsidiary": Any corporation or other entity that stands in a relationship to the Company that would result in the Company and such corporation or other entity being treated as one employer under Section 414(b) or Section 414(c) of the Code, except that in determining eligibility for the grant of a Stock Option or SAR by reason of service for a Subsidiary, Sections 414(b) and 414(c) of the Code shall be applied by substituting "at least 50%" for "at least 80%" under Section 1563(a)(1), (2) and (3) of the Code and Treas. Regs. 1.414(c)-2; *provided*, that to the extent permitted under Section 409A, "at least 20%" shall be used in lieu of "at least 50%"; *and further provided*, that the lower ownership threshold described in this definition (50% or 20% as the case may be) shall apply only if the same definition of affiliation is used consistently with respect to all compensatory stock options or stock awards (whether under the Plan or another plan). The Company may at any time by amendment provide that different ownership thresholds (consistent with Section 409A) apply. Notwithstanding the foregoing provisions of this definition, except as otherwise determined by the Administrator a corporation or other entity shall be treated as a Subsidiary only if its employees would be treated as employees of the Company for purposes of the rules promulgated under the Securities Act of 1933, as amended, with respect to the use of Form S-8.

"Unrestricted Stock": Stock not subject to any restrictions under the terms of the Award.

STATE STREET CORPORATION

2006 EQUITY INCENTIVE PLAN

Performance Award Agreement

(Name)

Re: *Performance Award*

Dear _____ :

This letter shall serve as an agreement (the "Agreement") between you and State Street Corporation (the "Company") setting forth the terms and conditions relating to the Performance Award granted to you under the Company's 2006 Equity Incentive Plan, as amended (the "Plan"), which shall be payable if certain performance and other conditions are satisfied as described below.

1. Grant of Performance Award.

You have been granted an award (the "Award") consisting of a total of _____ units ("Units"). To be entitled to any payment under the Award, you must execute this Agreement and return a fully executed copy to the Company, and all terms and conditions of this Award must have been satisfied. The Award will be payable, if at all, based in part on the achievement by the Company of certain performance measures (described below and in Exhibit I) over the two-year period commencing January 1, 2____ and ending on December 31, 2____ (the "Performance Period"). The date on which the Performance Period ends (December 31, 2009) is referred to herein as the "Maturity Date."

2. Performance Targets; Administrator Certification.

Whether your Award will be paid and if so in what amounts will depend in part (i) as to seventy (70%) percent of the Award (the "EPS Portion"), on the Company's achievement of specified earnings per share targets as described in (a) below and in Exhibit I attached hereto and made a part hereof, and (ii) as to the remaining thirty (30%) percent of the Award (the "ROE Portion"), on the Company's achievement of specified return on shareholders' equity targets as described in (b) below and in Exhibit I.

(a) *Earnings Per Share (EPS)*. Subject to the other terms and conditions of the Award, the Company's fully diluted aggregated operating earnings per share from continuing operations ("EPS") for the Performance Period will determine how much, if any, of the EPS Portion of the Award will be payable. Exhibit I sets forth the EPS threshold that must be achieved if any of the EPS Portion is to be payable and the higher EPS target that must be achieved if the entire EPS Portion is to be payable, with interpolation for EPS performance between those limits.

(b) *Return on Equity (ROE)*. Subject to the other terms and conditions of the Award, the Company's average return on shareholders' equity from operating results for continuing operations ("ROE") will determine how much, if any, of the ROE Portion of the Award will be payable. Exhibit I sets forth the ROE threshold that must be achieved if any of the ROE Portion is to be payable and the higher ROE targets that must be achieved if higher percentages, or the entirety, of the ROE Portion is to be payable, with interpolation for ROE performance between those limits.

The specific EPS and ROE performance targets for the Performance Period were established by the Administrator on _____ and are set forth on Exhibit I. Subject to the other terms and conditions of the Award, payment under this Award will only be made if the Administrator certifies, following the close of the Performance Period, that the pre-established threshold performance targets

have been exceeded on the Maturity Date and then only to the extent of the level of performance so certified as having been achieved.

3. *Form of Payment.*

Any portion of the Award earned by reason of the Administrator's certification as described above will be payable in shares of the Company's common stock ("Stock") to you (or your beneficiary, in the case of your death) on or before the March __ next following the end of the Performance Period. The number of shares to be paid will be determined by multiplying the number of Units set forth in paragraph 1, above, by the Total Funding Percentage. For this purpose, "Total Funding Percentage" means the sum of the weighted funding percentages achieved for each of the ROE and EPS performance targets, respectively, for the Performance Period as certified by the Administrator.

4. *Non-Transferability, Etc.*

This Award shall not be transferable otherwise than by will or the laws of descent and distribution. Any attempt by you (or in the case of your death, your beneficiary) to assign or transfer the Award, either voluntarily or involuntarily, contrary to the provisions hereof, shall be null and void and without effect and shall render the Award itself null and void.

5. *Termination of Employment.*

(a) No amount shall be paid in respect of the Award in the event that you cease to be employed by the Company and its Subsidiaries due to Circumstances of Forfeiture prior to the end of the Performance Period. If your employment with the Company and its Subsidiaries ceases by reason of Disability, Retirement, death, or any reason other than for Circumstances of Forfeitures, then you shall be eligible to receive a pro-rated Award, taking into account the time between the date on which your employment so terminated and the end of the Performance Period subject to paragraph b, below. Any amount payable pursuant to this paragraph 5 shall be paid in accordance with paragraph 3.

(b) Payment to you of any pro-rated Award after termination of your employment otherwise than by reason of your death shall be subject to the conditions that until the date on which the Award is paid you (i) shall not, without the prior written consent of the Company, (A)(1) solicit, directly or indirectly (other than through a general solicitation of employment not specifically directed to employees of the Company and its Subsidiaries) the employment of, (2) hire or employ, (3) recruit, or (4) in any way assist another in soliciting or recruiting the employment of, or (B) induce the termination of the employment of, any person who within the previous 12 months was an officer or principal of the Company or any of its Subsidiaries; (ii) shall not, without the prior written consent of the Company, engage in the Solicitation of Business (as defined below) from any client on behalf of any person or entity other than the Company and its Subsidiaries. The term "Solicitation of Business" means the attempt through direct or indirect contact by you or by any other person or entity with your assistance with a client with whom you have had or with whom persons supervised by you have had significant personal contact while employed by the Company and its Subsidiaries to induce such client to (A) transfer its business from the Company and its Subsidiaries to any other person or entity, (B) cease or curtail its business with the Company and its Subsidiaries, or (C) divert a business opportunity from the Company and its Subsidiaries to any other person or entity; and (iii) shall not engage whether directly or indirectly, in any manner or capacity as advisor, principal, agent, partner, officer, director, employee, member of any association, or otherwise, in any business or activity which is at the time competitive with any business or activity conducted by the Company or any of its direct or indirect Subsidiaries. If you do not comply with the above conditions, you shall receive no payment under this Award. Any determination by the Administrator that you are, or have engaged in any prohibited conduct as described above shall be conclusive and binding on all persons. Notwithstanding the foregoing, this paragraph 5 (b) shall be inapplicable following a Change of Control.

(c) For purposes hereof, (i) "Retirement" means your attainment of age 55 and completion of 5 years of service with the Company and its Subsidiaries or your attainment of age 65 and completion of five years of service with the Company and its Subsidiaries,

(ii) "Disability" means (A) your inability to engage in any substantially gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in your death or can be expected to last for a continuous period of not less than 12 months (an "impairment") or (B) if you, as a result of the impairment, receive income replacement benefits for a period of not less than 3 months under a plan of the Company or a Subsidiary

(iii) "Circumstances of Forfeiture" means the termination of your employment with the Company and its Subsidiaries either (A) voluntarily or (B) involuntarily and you are classified by the Company as ineligible for rehire.

6. *Acceleration of Performance Award.*

Notwithstanding anything in this Agreement to the contrary, in the event of a Change of Control occurring prior to the Maturity Date, you shall be entitled at the time of such Change of Control to receive a cash payment equal to the adjusted fair market value of a share of the Stock multiplied by the number of Units set forth in paragraph 1, above. For purposes of the preceding sentence, "adjusted fair market value" shall mean the higher of the (i) the highest average of the reported daily high and low prices per share of the Stock during the 60-day period prior to the first date of actual knowledge by the Board of circumstances that resulted in a Change of Control, and (ii) if the Change of Control is the result of a transaction or series of transactions described in paragraph 1 or 2 of the definition of Change of Control in the Plan, the highest price per share of the Stock paid in such transaction series of transactions (which in the case of a transaction described in paragraph 1 of such definition in the Plan shall be the highest price per share of the Stock as reflected in a Schedule 13D filed by the person having made the acquisition

7. *Changes in Capitalization or Corporate Structure.*

The Award is subject to adjustment pursuant to Section 7(b) of the Plan in the circumstances therein described.

8. *Amendments to Performance Units.*

Subject to the specific limitations set forth in the Plan, the Administrator may at any time suspend or terminate any rights or obligations relating to the Award prior to the Maturity Date without your consent.

9. *Compliance with Section 162(m).*

The Administrator shall exercise its discretion with respect to this Award in all cases so as to preserve the deductibility of payments under the Award against disallowance by reason of Section 162(m) of the Code.

10. *Shareholder Rights.*

You are not entitled to any rights as a Shareholder with respect to any shares of Stock subject to the Award until they are transferred to you. Without limiting the foregoing, you will have no right to receive dividends or amounts in lieu of dividends with respect to the shares of Stock subject to the Award prior to any shares being transferred to you.

11. *Withholding.*

The Company shall be obligated to issue Stock pursuant to this Agreement only if you first deliver to the Company funds sufficient to satisfy, or make other arrangements acceptable to the Company for satisfying, any tax withholding or similar withholding obligations to which the Company or its Subsidiaries may be subject by reason of such transfer under this Award. You expressly acknowledge and agree that your rights hereunder are subject to your paying to the Company any applicable taxes required to be withheld in connection with the Award in a form and manner satisfactory to the Company, including withhold to cover and sell to cover transactions.

12. *Employee Rights.*

Nothing in this Award shall be construed to guarantee you any right of employment with the Company or any Subsidiary or to limit the discretion of any of them to terminate your employment at any time, with or without cause.

13. *Provisions of the Plan.*

The provisions of the Plan are incorporated herein by reference, and all terms not otherwise defined herein shall have the meaning given to them in the Plan. In the event of any conflict between the provisions of this Agreement and the provisions of the Plan, the provisions of the Plan shall control. You acknowledge that you have received a copy of the Plan and a copy of the Prospectus for the Plan.

If the Award and the foregoing terms and conditions are acceptable to you, please sign the enclosed counterpart of this letter and return the same to the undersigned. By signing this letter, you acknowledge and agree that you are bound by the terms of the Agreement and the Plan, and the Agreement will take effect as a sealed instrument.

Very truly yours,

STATE STREET CORPORATION

By

Boon S. Ooi
Senior Vice President

The undersigned hereby accepts the Award on the terms and subject to the conditions set forth above.

**STATE STREET CORPORATION
2006 EQUITY INCENTIVE PLAN**

Restricted Stock Award Agreement

Subject to your acceptance of the terms set forth in this agreement (the "Agreement"), State Street Corporation (the "Company") has awarded to you "restricted" shares of common stock of the Company ("Stock") (the "Award"), detailed in your Award statement on this website maintained by Smith Barney (the "Statement") and pursuant to the State Street Corporation 2006 Equity Incentive Plan (the "Plan") and the terms set forth below. A copy of the Plan document and the Company's Prospectus are located on this website for your reference. The provisions of the Plan are incorporated herein by reference, and all terms used herein shall have the meaning given to them in the Plan, except as otherwise expressly provided herein. In the event of conflict between the provisions of the Agreement and the provisions of the Plan, the provisions of the Plan shall control.

In consideration of the Company's accepting this Agreement and transferring to you, the Award recipient, the shares of Stock provided for herein and in the accompanying Statement, you hereby agree with the Company as follows:

1. If certificates for the shares awarded hereunder are issued, the certificates for any unvested shares shall be held by the Company with blank stock powers to be used in the event of forfeiture. If unvested shares are held in book entry form, the Company may give stop transfer instructions to the depository to ensure compliance with the provisions hereof. Subject to paragraph 3 and this paragraph 1, your right to unrestricted shares shall vest according to the vesting schedule detailed in the Statement. The term "vest" as used herein means the lapsing of the restrictions described herein and in the Plan with respect to one or more shares of Stock. To vest in all or any portion of this Award as of any date, you must have been continuously employed with the Company or any Subsidiary from and after the date hereof and until (and including) the applicable vesting date, except as otherwise provided herein.
 2. Except as provided below, this Award shall not be transferable other than by will or the laws of descent and distribution. Any attempt by you (or in the case of your death, by your beneficiary) to assign or transfer the Award, either voluntarily or involuntarily, contrary to the provisions hereof, shall be null and void and without effect and shall render the Award itself null and void.
 3.
 - (a) Except as provided for below, the Award shall vest according to the vesting schedule detailed in your Statement.
 - (b) In the event you cease to be employed by the Company and its Subsidiaries either (i) voluntarily or (ii) involuntarily and you are classified by the Company as ineligible for rehire (collectively, "Circumstances of Forfeiture"), the Stock acquired hereunder, less any shares that have previously vested, shall be immediately forfeited to the Company.
 - (c) If your employment terminates by reason of Retirement, Disability, or for reasons other than for Circumstances of Forfeiture or death, your unvested shares of Stock shall continue to vest in accordance with the vesting schedule detailed in your Statement subject to the restrictions in paragraphs (f) and (g), below.
 - (d) If you die after your employment has terminated by reason of Retirement, Disability, or reasons other than Circumstances of Forfeiture but before the Award is fully vested, all shares acquired hereunder that have not previously vested or been forfeited shall immediately vest on the date of your death.
 - (e) If you die while employed by the Company and its Subsidiaries, or in the event that a Change of Control as defined in the Plan occurs while you are employed by the Company and its Subsidiaries, all shares acquired hereunder that have not previously vested or been forfeited shall immediately vest on the date of your death or such Change of Control.
-

(f)

Your rights to continue to vest in shares after your termination of employment other than by reason of death or Circumstances of Forfeiture shall be subject to the conditions that until any such shares vest, you (i) shall not, without the prior written consent of the Company, (A)(1) solicit, directly or indirectly (other than through a general solicitation of employment not specifically directed to employees of the Company and its Subsidiaries) the employment of, (2) hire or employ, (3) recruit, or (4) in any way assist another in soliciting or recruiting the employment of, or (B) induce the termination of the employment of, any person who within the previous 12 months was an officer or principal of the Company or any of its Subsidiaries; and (ii) shall not, without the prior written consent of the Company, engage in the Solicitation of Business (as defined below) from any client on behalf of any person or entity other than the Company and its Subsidiaries. The term "Solicitation of Business" means the attempt through direct or indirect contact by you or by any other person or entity with your assistance with a client with whom you have had or with whom persons supervised by you have had significant personal contact while employed by the Company and its Subsidiaries to induce such client to (A) transfer its business from the Company and its Subsidiaries to any other person or entity, (B) cease or curtail its business with the Company and its Subsidiaries, or (C) divert a business opportunity from the Company and its Subsidiaries to any other person or entity of the business with which you were actively connected during your employment. If you do not comply with the above conditions, you shall forfeit any remaining unvested shares under this Award. Any determination by the Administrator that you are, or have engaged in any prohibited conduct, as described above, shall be conclusive and binding on all persons. Notwithstanding the foregoing, this paragraph 3(f) shall become inapplicable following a Change of Control.

(g)

You hereby (i) acknowledge that the shares of Stock issued to you under the Agreement may be held in book entry form on the books of Computershare Limited (or another institution specified by the Company), and irrevocably authorize the Company to take such actions as may be necessary or appropriate to effectuate a transfer of the record ownership of any such shares that are unvested and forfeited hereunder, (ii) agree to deliver to the Company, as a precondition to the issuance of any stock certificate or certificates with respect to unvested shares of Stock hereunder, one or more stock powers, endorsed in blank, with respect to such shares, and (iii) agree to sign such other powers and take such other actions as the Company may reasonably request to accomplish the transfer or forfeiture hereunder.

(h)

For purposes hereof, "Retirement" means your attainment of age 55 and completion of 5 years of service with the Company and its Subsidiaries or your attainment of age 65 and completion of five years of service with the Company and its Subsidiaries, and "Disability" means (i) your inability to engage in any substantially gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in your death or can be expected to last for a continuous period of not less than 12 months (an "impairment") or (ii) if you, as a result of the impairment, receive income replacement benefits for a period of not less than 3 months under a State Street plan.

4.

Any stock certificates representing unvested shares shall be held by the Company, and any such certificate (and to the extent determined by the Company, any other evidence of ownership of unvested shares) shall contain the following legend:

THE TRANSFERABILITY OF THIS CERTIFICATE AND THE SHARES OF STOCK REPRESENTED HEREBY ARE SUBJECT TO THE TERMS AND CONDITIONS (INCLUDING FORFEITURE) OF THE STATE STREET CORPORATION 2006 EQUITY INCENTIVE PLAN AND A RESTRICTED STOCK AWARD AGREEMENT ENTERED INTO BETWEEN THE REGISTERED OWNER AND STATE STREET

5. As soon as practicable following the vesting of any such shares the Company shall cause a stock certificate or certificates covering such shares, without the aforesaid legend, to be issued and delivered to you (or in the event of your death, to your designated beneficiary), subject to paragraph 8, below.
6. You shall be entitled to any and all dividends or other distributions paid with respect to all shares of Stock acquired hereunder which have not been forfeited or otherwise disposed of and shall be entitled to vote any such shares; provided, however, that any property (other than cash) distributed with respect to a share of Stock (the "associated share") acquired hereunder, including without limitation a distribution of Stock by reason of a stock dividend, stock split or otherwise, or a distribution of other securities with respect to an associated share, shall be subject to the restrictions of this Agreement in the same manner and for so long as the associated share remains subject to such restrictions, and shall be promptly forfeited to the Company if and when the associated share is so forfeited.
7. You understand that once a certificate bearing no legend has been delivered to you in respect of shares of Stock acquired hereunder which have vested, you will be free to sell the shares of Stock evidenced by such certificate, subject to applicable requirements of federal and state securities laws.
8. You expressly acknowledge that the vesting of the shares of Stock acquired hereunder will give rise to ordinary income, subject to tax withholding through your local payroll. The amount of income realized will be the fair market value of the shares upon vesting when the substantial risk of forfeiture lapses. You expressly acknowledge and agree that your rights hereunder are subject to your paying to the Company in cash, or by selling shares of Stock acquired hereunder, or by the delivery of previously acquired Stock, any applicable taxes required to be withheld in connection with such vesting in a form and manner satisfactory to the Company.
9. You also acknowledge that you may elect, within 30 days of the date of grant, under Section 83(b) of the Code, to recognize income at the time of the Award. If you make an 83(b) election, you must pay tax withholding based on the fair market value of the shares on the date of the Award. If these shares are subsequently forfeited, the taxes paid are forfeited, and you may not claim a loss with respect to the income recognized or on the shares forfeited.
10. By your accepting this Agreement electronically, you will be deemed to have acknowledged and agreed that you are bound by the terms of this Agreement and the Plan, and it shall be deemed to have been accepted by the Company. This Agreement shall take effect as a sealed instrument.

**STATE STREET CORPORATION
2006 EQUITY INCENTIVE PLAN**

Deferred Stock Award Agreement

Subject to your acceptance of the terms set forth in this agreement (the "Agreement"), State Street Corporation (the "Company") has awarded you a contingent right to receive the number of shares of Stock (the "Deferred Shares") (the "Award") detailed in your Award statement on this website maintained by Smith Barney (the "Statement") and pursuant to the State Street Corporation 2006 Equity Incentive Plan (the "Plan") and the terms set forth below. A copy of the Plan document and the Company's Prospectus are located on this website for your reference. The provisions of the Plan are incorporated herein by reference, and all terms used herein shall have the meaning given to them in the Plan, except as otherwise expressly provided herein. In the event of any conflict between the provisions of this Agreement and the provisions of the Plan, the provisions of the Plan shall control.

The terms of your Award, are as follows:

1. Subject to paragraph 3 and this paragraph 1, your right to receive shares of Stock shall vest according to the vesting schedule detailed in your Statement. The term "vest" as used herein means the lapsing of the restrictions described herein and in the Plan with respect to one or more shares of Stock. To vest in all or any portion of this Award as of any date, you must have been continuously employed with the Company or any Subsidiary from and after the date hereof and until (and including) the applicable vesting date, except as otherwise provided herein.
2. Shares of Stock will be issued and transferred to you only if and when all requirements of this Agreement have been satisfied. Prior to that time you will have no rights as a shareholder with respect to the Deferred Shares. Without limiting the foregoing, you will have no right to receive dividends or amounts in lieu of dividends with respect to the Deferred Shares and no right to vote the Deferred Shares. The Company's obligation to issue and transfer Stock in the future pursuant to the Agreement is an unsecured and unfunded contractual obligation.
3.
 - (a) Except as provided for below, the Award shall vest according to the vesting schedule detailed in your Statement. Upon your becoming vested, the Company will issue and transfer to you, upon or as soon as practicable following such dates, the number of shares of Stock specified.
 - (b) In the event you cease to be employed by the Company and its Subsidiaries either (i) voluntarily or (ii) involuntarily and you are classified by the Company as ineligible for rehire (collectively, "Circumstances of Forfeiture"), you will immediately forfeit any and all rights to receive shares of Stock under this Agreement, less any shares that have previously vested.
 - (c) If your employment terminates by reason of Retirement, Disability, or for reasons other than for Circumstances of Forfeiture or death, your unvested right to receive shares of Stock shall continue to vest in accordance with the vesting schedule detailed in your Statement subject to the restrictions in paragraph (f), below.
 - (d) If you die after your employment has terminated by reason of Retirement, Disability, or reasons other than Circumstances of Forfeiture but before the Award is fully vested, the Award shall become fully vested on the date of your death.
 - (e) If you die while employed by the Company and its Subsidiaries, or in the event that a Change of Control as defined in the Plan occurs while you are employed by the Company and its Subsidiaries, the Company will promptly issue and deliver to you (or in the event of death, to your beneficiary designated in accordance with the terms of the Plan) any

shares under this Award that you had not otherwise had a right to receive prior to your death or such Change of Control.

(f)

Your rights to receive Deferred Shares after your termination of employment other than by reason of death or Circumstances of Forfeiture shall be subject to the conditions that until any such Deferred Shares vest, you (i) shall not, without the prior written consent of the Company, (A)(1) solicit, directly or indirectly (other than through a general solicitation of employment not specifically directed to employees of the Company and its Subsidiaries) the employment of, (2) hire or employ, (3) recruit, or (4) in any way assist another in soliciting or recruiting the employment of, or (B) induce the termination of the employment of, any person who within the previous 12 months was an officer or principal of the Company or any of its Subsidiaries; and (ii) shall not, without the prior written consent of the Company, engage in the Solicitation of Business (as defined below) from any client on behalf of any person or entity other than the Company and its Subsidiaries. The term "Solicitation of Business" means the attempt through direct or indirect contact by you or by any other person or entity with your assistance with a client with whom you have had or with whom persons supervised by you have had significant personal contact while employed by the Company and its Subsidiaries to induce such client to (A) transfer its business from the Company and its Subsidiaries to any other person or entity, (B) cease or curtail its business with the Company and its Subsidiaries, or (C) divert a business opportunity from the Company and its Subsidiaries to any other person or entity of the business with which you were actively connected during your employment. If you do not comply with the above conditions, you shall forfeit any remaining unvested Deferred Shares under this Award. Any determination by the Administrator that you are, or have engaged in any prohibited conduct, as described above, shall be conclusive and binding on all persons. Notwithstanding the foregoing, this paragraph 3(f) shall become inapplicable following a Change of Control.

(g)

For purposes hereof, "Retirement" means your attainment of age 55 and completion of 5 years of service with the Company and its Subsidiaries or your attainment of age 65 and completion of five years of service with the Company and its Subsidiaries, and "Disability" means (i) your inability to engage in any substantially gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in your death or can be expected to last for a continuous period of not less than 12 months (an "impairment") or (ii) if you, as a result of the impairment, receive income replacement benefits for a period of not less than 3 months under a State Street plan.

4.

You expressly acknowledge that the vesting of the right to receive shares of Stock acquired hereunder may give rise to ordinary income subject to withholding through your local payroll. You expressly acknowledge and agree that your rights hereunder are subject to your paying to the Company any applicable taxes required to be withheld in connection with such vesting in a form and manner satisfactory to the Company.

5.

The Company shall be obligated to issue Stock pursuant to this Agreement only if you first deliver to the Company funds sufficient to satisfy, or make other arrangements acceptable to the Company for satisfying, any tax withholding or similar withholding obligations to which the Company or its Subsidiaries may be subject by reason of such transfer of this Award.

6.

The number and kind of Deferred Shares subject to this Award, and the number and kind of shares of Stock to be delivered in satisfaction of the Company's obligations hereunder, shall be subject to adjustment in accordance with Section 7(b) of the Plan.

7. Nothing in this Award shall be construed to guarantee you any right of employment with the Company or any Subsidiary or to limit the discretion of any of them to terminate your employment at any time, with or without cause.
8. This Award shall not be transferable other than by will or the laws of descent and distribution. Any attempt by you (or in the case of your death, by your beneficiary) to assign or transfer the Award, either voluntarily or involuntarily, contrary to the provisions hereof, shall be null and void and without effect and shall render the Award itself null and void.
9. By accepting this Award electronically, you will be deemed to have acknowledged and agreed that you are bound by the terms of this Agreement and the Plan. The Agreement will take effect as a sealed instrument.

STATE STREET CORPORATION
2006 Equity Incentive Plan

SSgA Performance-Based Equity Award Agreement

Re: *Performance-Based Equity Award*

Dear :

As a member of a select group of key management of the State Street Global Advisors business unit of State Street Corporation, you have been chosen to participate in the SSgA Performance-Based Equity Program. This letter shall serve as an agreement (the "Agreement") between you and State Street Corporation (the "Company") setting forth the terms and conditions relating to the SSgA Equity-Based Performance Award granted to you pursuant to the State Street Global Advisors Performance-Based Equity Program under the Company's 2006 Equity Incentive Plan, as amended (the "Plan"), which shall be payable if certain performance and other conditions are satisfied as described below.

1. *Grant of Performance Award.*

You have been granted an award (the "Award") consisting of a total of _____ units ("Units"). To be entitled to any payment under the Award, you must execute this Agreement and return a fully executed copy to the Company, and all terms and conditions of this Award must have been satisfied. The Award will be payable based in part on the achievement by the worldwide State Street Global Advisors business unit of the Company ("SSgA") of certain performance measures (described below and in Exhibit I) over the three-year period commencing January 1, 2____ and ending on December 31, 2____ (the "Performance Period"). The date on which the Performance Period ends (December 31, 2____) is referred to herein as the "Maturity Date."

2. *Performance Targets; Administrator Certification.*

Whether your Award will be paid and in what amounts will depend on SSgA's achievement of the compounded annual growth in its Net Income Before Taxes ("NIBT") during the Performance Period and the other terms and conditions as set forth herein.

The specific NIBT performance targets for the Performance Period were established by the Administrator on February 14, 2008 and are set forth on Exhibit I attached hereto and made a part hereof. Subject to the other terms and conditions of the Award, payment under this Award will only be made if the Administrator certifies, following the close of the Performance Period, that the pre-established threshold performance targets have been exceeded on the Maturity Date and then only to the extent of the level of performance so certified as having been achieved.

3. *Form of Payment.*

Any portion of the Award earned by reason of the Administrator's certification as described above will be payable in shares of the Company's common stock ("Stock") to you (or your beneficiary, in the case of your death) on or before the March 15 next following the end of the Performance Period. The number of shares to be paid will be determined by multiplying the number of Units set forth in paragraph 1, above, by the Total Funding Percentage. For this purpose, "Total Funding Percentage" means the funding percentage achieved for the NIBT performance target, for the Performance Period as certified by the Administrator.

4. Non-Transferability, Etc.

This Award shall not be transferable otherwise than by will or the laws of descent and distribution. Any attempt by you (or in the case of your death, your beneficiary) to assign or transfer the Award, either voluntarily or involuntarily, contrary to the provisions hereof, shall be null and void and without effect and shall render the Award itself null and void.

5. Termination of Employment.

(a)

No amount shall be paid in respect of the Award in the event that you cease to be employed by the Company and its Subsidiaries due to Circumstances of Forfeiture prior to the date the award is paid. If your employment with the Company and its Subsidiaries ceases by reason of Disability, Retirement, death, or any reason other than for Circumstances of Forfeitures, then you shall be eligible to receive a pro-rated Award, taking into account the time between the date on which your employment so terminated and the end of the Performance Period subject to paragraph b, below. Any amount payable pursuant to this paragraph 5 shall be paid in accordance with paragraph 3.

(b)

Payment to you of any pro-rated Award after termination of your employment otherwise than by reason of your death shall be subject to the conditions that until the date on which the Award is paid you (i) shall not, without the prior written consent of the Company, (A)(1) solicit, directly or indirectly (other than through a general solicitation of employment not specifically directed to employees of the Company and its Subsidiaries) the employment of, (2) hire or employ, (3) recruit, or (4) in any way assist another in soliciting or recruiting the employment of, or (B) induce the termination of the employment of, any person who within the previous 12 months was an officer or principal of the Company or any of its Subsidiaries; and (ii) shall not, without the prior written consent of the Company, engage in the Solicitation of Business (as defined below) from any client on behalf of any person or entity other than the Company and its Subsidiaries. The term "Solicitation of Business" means the attempt through direct or indirect contact by you or by any other person or entity with your assistance with a client with whom you have had or with whom persons supervised by you have had significant personal contact while employed by the Company and its Subsidiaries to induce such client to (A) transfer its business from the Company and its Subsidiaries to any other person or entity, (B) cease or curtail its business with the Company and its Subsidiaries, or (C) divert a business opportunity from the Company and its Subsidiaries to any other person or entity. If you do not comply with the above conditions, you shall forfeit all rights to any and all unpaid or unvested equity awards held by you, and the Company may seek injunctive relief in addition to, and not in lieu of, any other relief to which it may be entitled. Any determination by the Administrator that you are, or have engaged in any prohibited conduct as described above shall be conclusive and binding on all persons. Notwithstanding the foregoing, this paragraph 5 (b) shall be inapplicable following a Change of Control or the Administrator's determination that a Covered Transaction has occurred.

(c)

For purposes hereof:

(i)

"Retirement" means your attainment of age 55 and completion of 5 years of service with the Company and its Subsidiaries or your attainment of age 65 and completion of five years of service with the Company and its Subsidiaries.

(ii)

"Disability" means (A) your inability to engage in any substantially gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in your death or can be expected to last for a continuous period of not less than 12 months (an "impairment") or (B) if you, as a result of the impairment, receive income

replacement benefits for a period of not less than 3 months under a plan of the Company or a Subsidiary.

(iii)

"Circumstances of Forfeiture" means the termination of your employment with the Company and its Subsidiaries either (A) voluntarily or (B) involuntarily and you are classified by the Company as ineligible for rehire.

(iv)

"Covered Transaction" means the sale by the Company of all or substantially all of the assets of SSgA as determined by the Administrator.

6. Non-Disclosure; Non-Competition.

By signing this Agreement and accepting the Award, you: (a) shall hold in a fiduciary capacity for the benefit of the Company all secret or confidential information, knowledge or data relating to SSgA, the Company, any of its Subsidiaries, and their respective businesses and Clients (as defined below), including but not limited to Clients' identities and any and all information regarding or relating to their business relationship with SSgA, the Company, or any of its Subsidiaries, which shall have been obtained by you during your employment by SSgA, the Company, or any of its Subsidiaries and which shall not be or become public knowledge (other than by acts by you or your representatives in violation hereof), and you shall not, without the prior written consent of the Company or as may otherwise be required by law or legal process, communicate or divulge any such information, knowledge or data to anyone other than the Company and those designated by it. The term "Client(s)" means any person or entity that is a customer or client of SSgA, the Company, or any of its Subsidiaries.

(b)

for and during a period of 18 months following your termination of employment with the Company and all of its Subsidiaries for any reason (other than death), shall not engage, either directly or indirectly, in any manner or capacity as advisor, principal, agent, partner, officer, director or employee of, or as consultant to Fidelity Investments, Barclays Global Investors NA, Wellington Management Co, LLP, Mellon Financial Corp., Goldman Sachs Asset Management LP, BlackRock Inc. (each an "Institution") For purposes of this paragraph 6(b) each Institution shall also include any subsidiary and affiliate of the Institution, including any successor entity to an Institution, by way of merger, acquisition (either of stock or substantially all of the assets), reorganization, change of name or other similar event occurring subsequent to the date of this Award. If you do not comply with the above conditions, you shall forfeit all rights to any and all unpaid or unvested equity awards then held by you, and the Corporation may seek injunctive relief in addition to, and not in lieu of, any other relief to which it may be entitled. Notwithstanding the foregoing, paragraph 6(b) shall be inapplicable following a Change of Control.

(c)

acknowledge that any and all inventions, discoveries, improvements, copyrighted works (including computer programs), trademarks, processes, systems, and developments that are conceived, discovered or made solely or jointly during the term of your employment at State Street, whether or not patentable or eligible to be copyrighted, (hereinafter "Inventions") shall be deemed made in the regular course of your employment with State Street and within the scope of that employment and shall from the date of creation, be owned exclusively by State Street. Furthermore, you hereby assign to State Street, without the necessity of any further consideration, all of your right, title and interest in and to any invention, in any and all media now known or hereafter developed throughout the universe, and State Street shall be entitled to obtain and hold same in its own name on all applicable patents, registrations, At State Street's request, you will reasonably cooperate with State Street to sign any documents necessary to protect and enforce any such rights in State Street.

7. *Acceleration of Performance Award.*

Notwithstanding anything in this Agreement to the contrary, in the event of a Change of Control or a Covered Transaction occurring prior to the Maturity Date, you shall be entitled at the time of such Change of Control to receive a cash payment equal to the adjusted fair market value of a share of the Stock multiplied by the number of Units set forth in paragraph 1, above. For purposes of the preceding sentence, "adjusted fair market value" shall mean the higher of the (i) the highest average of the reported daily high and low prices per share of the Stock during the 60-day period prior to the first date of actual knowledge by the Board of circumstances that resulted in a Change of Control, and (ii) if the Change of Control is the result of a transaction or series of transactions described in paragraph 1 or 2 of the definition of Change of Control in the Plan, the highest price per share of the Stock paid in such transaction series of transactions (which in the case of a transaction described in paragraph 1 of such definition in the Plan shall be the highest price per share of the Stock as reflected in a Schedule 13D filed by the person having made the acquisition

8. *Changes in Capitalization or Corporate Structure.*

The Award is subject to adjustment pursuant to Section 7(b) of the Plan in the circumstances therein described.

9. *Amendments to Performance Units.*

Subject to the specific limitations set forth in the Plan, the Administrator may at any time suspend or terminate any rights or obligations relating to the Award prior to the Maturity Date without your consent.

10. *Compliance with Section 162(m).*

The Administrator shall exercise its discretion with respect to this Award in all cases so as to preserve the deductibility of payments under the Award against disallowance by reason of Section 162(m) of the Code.

11. *Shareholder Rights.*

You are not entitled to any rights as a Shareholder with respect to any shares of Stock subject to the Award until they are transferred to you. Without limiting the foregoing, you will have no right to receive dividends or amounts in lieu of dividends with respect to the shares of Stock subject to the Award prior to any shares being transferred to you.

12. *Withholding.*

The Company shall be obligated to issue Stock pursuant to this Agreement only if you first deliver to the Company funds sufficient to satisfy, or make other arrangements acceptable to the Company for satisfying, any tax withholding or similar withholding obligations to which the Company or its Subsidiaries may be subject by reason of such transfer under this Award. You expressly acknowledge and agree that your rights hereunder are subject to your paying to the Company any applicable taxes required to be withheld in connection with the Award in a form and manner satisfactory to the Company.

13. *Employee Rights.*

Nothing in this Award shall be construed to guarantee you any right of employment with the Company or any Subsidiary or to limit the discretion of any of them to terminate your employment at any time, with or without cause.

14. Provisions of the Plan.

The provisions of the Plan are incorporated herein by reference, and all terms not otherwise defined herein shall have the meaning given to them in the Plan. In the event of any conflict between the provisions of this Agreement and the provisions of the Plan, the provisions of the Plan shall control. You acknowledge that you have received a copy of the Plan and a copy of the Prospectus for the Plan.

If the Award and the foregoing terms and conditions are acceptable to you, please sign the enclosed counterpart of this letter and return the same to the undersigned. By signing this letter, you acknowledge and agree that you are bound by the terms of the Agreement and the Plan, and the Agreement will take effect as a sealed instrument.

Very truly yours,

STATE STREET CORPORATION

Boon S. Ooi
Senior Vice President

The undersigned hereby accepts the Award on the terms and subject to the conditions set forth above.

Re: *Deferred Stock Award*

Dear _____:

Please find below the terms and conditions relating to your 2 _____ Deferred Stock Award made under the State Street Corporation 2006 Equity Incentive Plan (the "Plan").

1. The number of shares of Stock awarded to you for the 2 _____ -2 _____ Board year is _____, which equals the number of whole shares obtained by dividing \$ _____ by the closing price of a share of Stock on _____. This letter describes the terms under which these shares of Stock have been awarded to you (the "Terms").

2. The shares described in paragraph 1 plus any additional shares of Stock determined under paragraph 4 below (the shares described in paragraph 1 plus the shares described in paragraph 4 being hereinafter referred to as the "2 _____ shares") will be issued to you as soon as practicable following the later of (i) the date you cease to be a director, or (ii) the date specified in a deferral election described in paragraph 3. In the event of your death prior to the issuance of the 2 _____ shares, the 2 _____ shares will be issued to your designated beneficiary(ies). You may designate a beneficiary or beneficiaries by delivering to Boon Ooi, Senior Vice President, Compensation and Benefits, or to his successor or designate (the "Administrator"), a written beneficiary designation in form satisfactory to the Administrator. Your designation (or change in designation) will be effective when received in satisfactory form by the Administrator. If you should die without having named a beneficiary, your 2 _____ shares will be issued to the executor or administrator of your estate.

3. At any date that is at least twelve months prior to the Plan Year in which the 2 _____ shares would otherwise be paid (or payment would have commenced) you may make an election to change the timing and/or form of payment of the 2 _____ shares under the Plan. Any election described in the preceding sentence must be in writing and shall take effect only when delivered to the Administrator in a form satisfactory to the Administrator. Except as otherwise determined by the Administrator consistent with Section 409A of the Internal Revenue Code of 1986, as amended, ("Section 409A") no such election may specify a new date for receipt of the 2 _____ shares that is earlier than five years following the date on which the 2 _____ shares would be paid or payment would have commenced. No change to an election as to the time or form of payment will take effect until at least twelve months after the date on which the election is made. If you make an effective election under this paragraph to defer receipt of the 2 _____ shares, and you die prior to issuance of the shares, the 2 _____ shares shall be issued as soon as practicable following your death to your designated beneficiary(ies) or to the executor or administrator of your estate if no beneficiary has been designated or survives.

4. You will not have any rights as a stockholder with respect to the 2 _____ shares until they have been issued to you. However, if any dividends and distributions (other than distributions described in paragraph 5) are paid on the Stock prior to the date you are issued the 2 _____ shares, the number of 2 _____ shares notionally credited to your account will be increased by the number of shares obtained as follows: by dividing the total dividend or distribution you would have received if you had owned the 2 _____ shares credited to your account on the dividend or other distribution declaration date, by the closing price of a share of Stock on the date the dividend or distribution was paid.

5. The number and kind of shares constituting the 2 _____ shares shall be appropriately adjusted by the Board to reflect stock splits, stock dividends or similar changes in the capitalization of State Street Corporation (the "Corporation").

6. Your rights to the 2_____ shares are only those of an unsecured creditor of the Corporation. Nothing in the Terms or the Plan or otherwise shall be construed as obligating the Corporation to establish a trust or otherwise to set aside Stock or funds to meet its obligations under the Terms or the Plan.

7. Nothing in the Terms or the Plan or otherwise shall obligate the Corporation to register the shares of Stock to be issued hereunder. You acknowledge that federal and state securities laws or other laws may limit the extent to which you or your beneficiary(ies) may sell or otherwise transfer or dispose of any shares of Stock issued under the Terms or the Plan.

Under currently applicable rules under the Securities Exchange Act of 1934, as amended, you are required to report the award described above as a 2_____ exempt award.

8. The Board may at any time vote to accelerate the issuance of the 2_____ shares to you, but only if its doing so would be consistent with the requirements of Section 409A. The Terms and the award described herein are intended to comply with Section 409A and shall be subject to such modifications as are necessary so to comply.

9. You agree that as a precondition to the issuance of any of the 2_____ shares, you will pay to the Corporation such amounts, if any (including, but not limited to, income taxes and social insurance contributions if applicable), as are required to be withheld by the Corporation in respect of the award and payments described herein.

10. The Terms, the Plan, and the award described herein shall be construed and administered by the Board in accordance with the laws of the Commonwealth of Massachusetts, and the determination of the Board shall be binding on all persons.

If you agree with the terms set forth above, please so indicate by signing the accompanying copy of this letter and returning it to my attention.

STATE STREET CORPORATION

DESCRIPTION OF COMPENSATION ARRANGEMENTS FOR NON-EMPLOYEE DIRECTORS

For the period April 2007 through March 2008, directors who are not employees of State Street or the Bank received the following compensation:

- Annual retainer—\$70,000, payable at their election in shares of the Registrant's common stock or in cash;
- Meeting fees—\$1,500 for each Board and committee meeting attended, payable in cash;
- A deferred stock award in an amount equal to \$110,000 divided by the closing price of the stock on April 18, 2007 (together with additional stock amounts to reflect dividend and distribution amounts paid during deferral);
- An additional annual retainer for the Lead Director of \$25,000, payable at his or her election in shares of the Registrant's common stock or in cash;
- An additional annual retainer for the Examining and Audit Committee Chair of \$20,000, payable at his or her election in shares of the Registrant's common stock or in cash;
- An additional annual retainer for each other Committee Chair of \$10,000, payable at their election in shares of the Registrant's common stock or in cash;
- An additional annual retainer for each member of the Examining and Audit Committee, other than the Chair, of \$7,500 payable at their election in shares of the Registrant's common stock or in cash; and
- A pro-rated annual retainer and deferred stock award for any director who was elected to the Board after the 2007 Annual Meeting.

Pursuant to State Street's Deferred Compensation Plan for Directors, directors may elect to defer the receipt of 50% or 100% of their (i) retainers, (ii) meeting fees, and/or (iii) annual award of shares of common stock. Directors also may elect to receive all of their retainers in cash or shares of common stock. Directors who elect to defer the cash payment of their retainers and/or meeting fees may also make notional investment elections with respect to such deferrals, with a choice of one or more of five notional investment fund returns, including one that tracks the performance of State Street common stock. To the extent the amounts are deferred, they will be paid (i) on the date elected by the director, which date shall be the earlier of his or her termination of service on the Board and a date specified, and (ii) in the form elected by the director as either a lump sum or in installment over a two- to ten-year period.

For this period, six directors elected to receive their annual retainers in cash, and all other outside directors elected to receive their annual retainers in shares of common stock. Eleven directors elected to defer all or a portion of their compensation under the plan.

SEPARATION AGREEMENT

This Separation Agreement (hereinafter the "Agreement") is made and entered into by and between State Street Corporation ("State Street"), and on behalf of State Street Bank and Trust Company (together with State Street, the "Company"), and William W. Hunt (the "Executive"), dated as of January 2, 2008, and effective on the Effective Date (as defined in Section 20(i) hereof). The parties seek through this Agreement to recite the mutually agreed upon terms and conditions of the Executive's separation from the Company.

1. *Termination of Employment.* The Executive hereby resigns, as of January 2, 2008 (the "Separation Date"), from his position of employment as Vice Chairman of State Street and Chief Executive Officer of the State Street Global Advisors business unit of the Company, as well as from all officerships and directorships of the Company and any of its affiliates and subsidiaries (the "Company Group"), including from the boards and committees of any related trusts or foundations and from any other entities controlled by the Company Group. The Company hereby accepts the Executive's voluntary resignation from the Company Group, as herein described, effective as of the Separation Date.

2. *Base Salary; Additional Payments.* The Executive shall be entitled to receive base salary at the annualized rate of \$750,000 currently in effect (the "Base Pay") for any unpaid periods of employment through and including the Separation Date, such amount to be paid in accordance with the Company's standard payroll practices. The Executive shall receive reimbursement for all properly documented and reimbursable business expenses that are submitted to the Company within 30 days of the Effective Date. The Executive shall additionally receive payment for any accrued but unused vacation, as reflected in the books and records of the Company, within two weeks of the Effective Date.

3. *Severance Compensation.* Subject to Section 20(i) hereof, upon the Separation Date and continuing until the second anniversary of the Separation Date (the "Severance Compensation Period"), the Company will provide the Executive with severance compensation in an amount equal to the Base Pay for such two-year period in accordance with the terms of the State Street Corporation Severance Plan (the "Severance Plan") (except as otherwise modified herein); *provided* that so much of such severance compensation as would be payable on such basis within the first six months following the Separation Date shall instead be paid in a single lump sum on that day that falls six months and one day after such Separation Date (the "Delayed Payment Date"), and the balance shall be paid thereafter in accordance with the Company's standard payroll practices as in effect on the Separation Date.

4. *Benefits Continuation.*

(a) Provided he makes a timely election to participate and in accordance with the terms of the Severance Plan (except as modified herein), the Executive shall be eligible for continuation of coverage, at his expense, under the Company's group medical, dental and vision plans, but only to the extent required by and subject to the terms of Part 6 of Subtitle B of Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). If, at the conclusion of the first 18 months of the Severance Compensation Period, the Executive immediately prior thereto is still receiving continuation coverage pursuant to the immediately preceding sentence, has not accepted new employment and has not secured alternate health, dental and vision insurance coverages, either through new employment or otherwise, the Company will arrange for comparable coverage (through self-insurance or otherwise) at comparable cost to the Executive through the balance of the Severance Compensation Period or, if earlier, until the Executive accepts new employment. The Executive agrees to notify the Company immediately if he accepts new employment during the Severance Compensation Period.

(b) Eligibility to participate in the Company's short-term disability plan will end as of the Separation Date, and eligibility to participate in the Company's long-term disability plan will end as of the last day of the calendar month in which the Executive's Separation Date occurs.

(c) The Executive may continue his life insurance (*i.e.*, Basic Life Insurance, Optional Employee Life Insurance, Spouse/Domestic Partner Life Insurance and Dependent Child Life Insurance, as applicable) during the Severance Compensation Period by making the premium payments therefor. Such coverage will terminate at the conclusion of the Severance Compensation Period, unless the Executive directly elects to convert his coverage pursuant to the terms of these policies by private arrangement with the life insurance carrier.

(d) The Executive shall continue to receive repatriation tax equalization and tax preparation benefits related to his service with the Company Group as an expatriate in accordance with Company policy in effect as of the date hereof.

(e) The Executive's participation in all other Company benefit plans and programs, including, but not limited to, the Qualified Plan and the Savings Plan (each as defined below), will end as of the Separation Date, in accordance with the terms of the respective plans.

5. *Stock-Based Compensation, Retirement and Other Benefits.*

(a) *Stock Options/SARs.* State Street has previously awarded stock options and stock appreciation rights to the Executive under its 1997 Equity Incentive Plan (the "1997 Plan") and its 2006 Equity Incentive Plan (the "2006 Plan" and collectively with the 1997 Plan, the "Equity Plans"). The Company has furnished the Executive a schedule (including vesting schedules and expiration dates), appended hereto as *Exhibit A*, reflecting those outstanding (*i.e.*, not earlier expired or been exercised) stock options and stock appreciation rights held by the Executive as of the Separation Date (each, a "Stock Option"). The Stock Options shall continue to vest and be exercisable, subject to the Executive's compliance with Section 6, Section 7 and Section 8 hereof, and/or become forfeitable in accordance with the terms of the applicable Equity Plan and/or the applicable option agreement or other award documentation. The Company and the Executive agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject under the Equity Plans and any related award documentation. For the avoidance of doubt, those 8,271 Stock Options granted to the Executive under the 1997 Plan that were scheduled to vest on March 2, 2010 shall be immediately and automatically forfeited as of the Separation Date in accordance with their terms.

(b) *Performance Awards.* The Executive holds performance share awards granted under the Equity Plans. The following provisions shall govern the treatment of certain of these awards:

(i) *Cycle O Performance Award.* State Street has previously awarded to the Executive a Cycle O performance award under the 1997 Plan as set forth on *Exhibit A* hereto (the "Cycle O Award"), that vested on December 31, 2007. Notwithstanding anything to the contrary under the terms of the 1997 Plan and/or the applicable performance share award agreement or other award documentation, but subject to the Executive's compliance with Section 6, Section 7 and Section 8 hereof, the Company shall deliver to the Executive, on or about February 15, 2008, but not later than March 15, 2008, that number of shares of common stock of State Street, par value \$1 ("Common Stock"), equal to the number of such shares the Executive would have received under the Cycle O Award had the Executive remained employed by the Company Group. The Company and the Executive agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject under the 1997 Plan and the award documentation with respect to the Cycle O Award.

(ii) *2006 PEP Performance Award.* State Street has previously awarded to the Executive performance-based equity awards under the 2006 State Street Global Advisors Performance Equity Program pursuant to the 1997 Plan as set forth on *Exhibit A* hereto (the "2006 PEP Award"). In

accordance with the terms of the 2006 PEP Award (as modified herein) and subject to the Executive's compliance with Section 6, Section 7 and Section 8 hereof, the Company shall deliver to the Executive in full satisfaction of the 2006 PEP Award, on February 15, 2009 (the "Settlement Date"), but not later than March 15, 2009, that number of shares of Common Stock (the "2006 PEP Shares") equal to the product of (I) the number of the shares of Common Stock the Executive would have received under his 2006 PEP Award had the Executive remained employed by the Company Group through the Settlement Date and (II) 24/36 (66.66%); *provided* that if the aggregate value of the 2006 PEP Shares (determined using the closing price of a share of Common Stock on the New York Stock Exchange on the Settlement Date) is greater than \$5 million, the Executive shall only be entitled to the delivery, in full satisfaction of the 2006 PEP Award, of such number of 2006 PEP Shares with an aggregate value equal to \$5 million, and the remainder of the 2006 PEP Shares shall be forfeited. The Company and the Executive agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject under the 1997 Plan and the award documentation with respect to the 2006 PEP Award.

(c) *Payments in Respect of Other Stock-Based Awards.* The Executive holds certain deferred stock awards and performance share awards (in addition to those discussed under Section 5(b) hereof) granted under the Equity Plans. The following provisions shall govern the treatment of these awards:

(i) *Deferred Stock Awards.* State Street has previously awarded to the Executive an award of shares of deferred stock under the 1997 Plan as set forth on *Exhibit A* hereto (the "DSAs"), which are scheduled to vest on February 15, 2008. In full satisfaction of the DSAs and subject to the Executive's compliance with Section 6, Section 7 and Section 8 hereof, the Company shall pay the Executive on the Delayed Payment Date a single lump sum cash payment of \$900,000, *provided* that in no event shall such payment occur prior to February 15, 2008. The Company and the Executive agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject under the 1997 Plan and the award documentation with respect to the DSAs.

(ii) *Other Stock-Based Awards.* In full satisfaction of all other equity-based awards held by the Executive under the Equity Plans, including, without limitation, all performance-based equity awards under the 2005 State Street Global Advisors Performance Equity Program pursuant to the 1997 Plan, all performance-based equity awards under the 2007 State Street Global Advisors Performance Equity Program pursuant to the 2006 Plan, and the "Cycle P" and "Vice Chairman" performance awards under the 1997 Plan, but specifically excluding only the Stock Options, the Cycle O Award, the 2006 PEP Award and the DSAs (which shall be subject to Section 5(a), Section 5(b)(i), Section 5(b)(ii) and Section 5(c)(i) hereof, respectively), the Company shall pay the Executive on the Delayed Payment Date a lump sum cash payment of \$4.6 million; *provided* that in the event that the aggregate value of the 2006 PEP Shares (determined in accordance with Section 5(b)(ii) hereof) is less than \$5 million as of the Settlement Date, the Company shall pay the Executive on the Settlement Date, but not later than March 15, 2009, an additional lump sum cash payment equal to (i) \$5 million less (ii) the aggregate value of the 2006 PEP Shares (determined in accordance with Section 5(b)(ii) hereof). Any amounts payable by the Company pursuant to this Section 5(c)(ii) are subject to the Executive's compliance with Section 6, Section 7 and Section 8 hereof. The Company and the Executive agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject under the Equity Plans and any related award documentation.

(d) *Pension Benefits.* The Executive is vested in his currently accrued benefit as of the Separation Date under the Company's tax-qualified defined benefit pension plan, the State Street Retirement Plan (the "Qualified Plan"), and State Street's Management Supplemental Retirement Plan, as amended and restated effective as of January 1, 2008 (the "SERP" and together with the Qualified Plan, the "Retirement Plans"). The Company has furnished to the Executive a schedule showing his vested benefits under the Retirement Plans (the "Retirement Benefits"). The Executive shall be entitled following the Separation Date to receive the Retirement Benefits in accordance with and subject to the terms of the applicable Retirement Plans. In addition to the foregoing benefits, the Executive will be entitled to receive, following the Separation Date, all of his accrued benefits as of the Separation Date under State Street's Salary Savings Program (the "Savings Plan") and its Management Supplemental Savings Plan as amended and restated effective as of January 1, 2008 (formerly, the 401(k) Voluntary Deferral Plan) (the "MSSP"), in each case in accordance with and subject to the terms of the applicable plan. The Company has furnished the Executive a schedule, appended hereto as *Exhibit B*, reflecting, as of December 31, 2006, the Executive's vested accrued benefits under the Qualified Plan, the SERP, the Savings Plan, the MSSP and the Supplemental Pension Plan, as amended and restated effective as of January 1, 2008 (formerly, the Supplemental Defined Benefit Pension Plan) (the "ESRP"). For the avoidance of doubt, for purposes of determining the Executive's benefits under the foregoing programs, compensation or remuneration paid or payable pursuant to Section 2 hereof or otherwise paid or payable pursuant to this Agreement shall be disregarded.

6. *Non-Competition/Non-Solicitation.* The Executive agrees that he will not, during the 18-month period commencing on the Separation Date (the "Restricted Period"), (a) accept employment with, work for or otherwise provide services to, whether directly or indirectly or whether with or without compensation, any Institution (as defined below); (b) directly or indirectly solicit or encourage any customer or prospective customer (the latter defined to mean any person or entity with which any member of the Company Group has made a business-seeking contact other than by mass mailing or general advertising within 12 months preceding the Separation Date) of, or investor in, any member of the Company Group as of the Separation Date to conduct with anyone else any business activity which such customer, prospective customer or investor could conduct with the Company Group; (c) directly or indirectly hire or solicit any officer or principal of the Company Group to discontinue or curtail his/her employment with the Company Group (other than through generalized solicitations or advertising); (d) directly or indirectly solicit or encourage any independent contractor providing services to any member of the Company Group to terminate or curtail his/her/its relationship with the Company Group; (e) directly or indirectly attempt to induce a client or customer of the Company Group with whom the Executive has had or with whom persons supervised by the Executive have had significant personal contact while employed by the Company Group to (i) transfer its business from the Company Group to any other person or entity; (ii) cease or curtail its business with the Company Group; or (iii) divert a business opportunity from the Company Group to any other person or entity. Notwithstanding the foregoing, (A)(i) on and after the six-month anniversary of the Separation Date, the Executive may provide services to any hedge fund established after the Separation Date of which the Executive is a founding principal and (ii) on or after the first anniversary of the Separation Date, the Executive may accept employment with, work for or provide services to any hedge fund which is not controlled by or under common control with an Institution, and (B) nothing herein shall prevent the Executive from owning not in excess of 1% of any security issued and outstanding of an entity listed on a national securities exchange or the Nasdaq National Market. For purposes of this Agreement, an "officer", "principal" or "independent contractor" of the Company Group is any person who acquired such status on or within 12 months preceding the date of the asserted breach. For purposes of this Agreement, "control" (including the terms "controlled by" and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity or person, whether through the ownership of voting securities, by contract, or otherwise.

For purposes of this Agreement, each of the following entities (together with its affiliates and subsidiaries) is an "Institution": Fidelity Investments, Barclays Global Investors, N.A., Wellington Management Co., LLP, The Bank of New York Mellon, Putnam Investments, Goldman Sachs Asset Management LP, BlackRock, Inc. and any institution in addition to the foregoing that is among the five institutions with the highest value of total assets under management as listed in Institutional Investor's annual ranking of America's Top Money Managers, Total Assets Under Management (historically published in the month of July) or Pensions & Investments' annual ranking of Top Firms Ranked By Worldwide Assets (historically published in the month of May) (the "Top Five(5)") published most recently prior to the Separation Date (the "Publication Date"); *provided that*, if one or both of these publications change the title of their rankings, the ranking(s) utilized will be ranking(s) of total assets under management; and *provided further that*, if one or both of these publications change their names, or cease to carry out the described annual rankings, the ranking(s) utilized will be by the publication(s) that are recognized in the worldwide investment community as the most trustworthy rankings, as determined by the Executive Compensation Committee of the Board (as defined in Section 10 hereof) in its sole discretion. If for any reason the publications used to determine the Top Five (5) institutions have different rankings, then any Institution listed in the Top Five (5) list of any such publication will be considered an Institution. For purposes of this Agreement, Institutions shall be determined without regard to, and shall not include, the Company Group. Furthermore, any successor entity to an Institution, by way of merger, acquisition (either of stock or substantially all of the assets), reorganization, change of name or other similar event occurring subsequent to the Publication Date, shall be deemed to be an Institution.

7. *Confidential Information.* The Executive agrees that, except as authorized in writing by the Company's Chief Executive Officer, as required by applicable law, rule, regulation or legal process, or as may be reasonably required in connection with obtaining legal advice, he will not, directly or indirectly, use or disclose any Confidential Information belonging to the Company Group. For purposes of this Agreement, "Confidential Information" means any and all information of the Company Group that is not generally known by others with whom it competes or does business, or with whom, during the 12 months preceding the Separation Date, it planned to compete or do business, including but not limited to (a) all proprietary information of the Company Group, including but not limited to the products and services, technical data, methods, processes, trade secrets, know-how, developments, inventions, and formulae of the Company Group, (b) the development, research, testing, marketing, financial activities and strategic plans of the Company Group, (c) the manner in which the Company Group operates, (d) the Company Group's actual and projected financial performance, (e) the identity and special needs of the customers, clients, prospective customers, prospective clients and investors of the Company Group, and (f) the people and organizations with whom any member of the Company Group has business relationships and the substance of those relationships. Confidential Information also includes any information that any member of the Company Group may receive or has received from customers, investors, business partners or others with any understanding, express or implied, that the information would not be publicly disclosed. Anything in this paragraph to the contrary notwithstanding, the Executive shall be bound by his obligations to maintain attorney/client confidences, and the Company does not hereby waive any attorney/client privilege. Notwithstanding the foregoing, "Confidential Information" shall not include any information (i) that is currently or becomes publicly available or a matter of public knowledge or domain through no wrongful act or omission by the Executive, or (ii) that is received by the Executive from a third party who is not known by the Executive to be bound by an obligation of confidentiality to the Company Group not to disclose such information. The Executive further agrees that, on or before five days subsequent to the Separation Date, he will return to the Company all documents, materials and information (whether in hard copy, on electronic media or otherwise) related to Company business, and all keys, access cards, credit cards, computer hardware and software, telephones and telephone-related equipment and all other property of the Company Group in his possession or control, and hereby certifies that he has not and will not

knowingly retain copies of any such Company Group documents, materials or information; *provided* that the Executive shall be entitled to retain copies of all compensation and benefit plans and agreements, including, without limitation, the Equity Plans and related documentation, referenced in Section 3, Section 4 and Section 5 hereof.

8. *Non-Disparagement.* The Executive agrees that he shall not make any intentionally false, or any disparaging or derogatory statements, to any media outlet (including, but not limited to, any Internet-based chat rooms, message boards and/or web pages), industry groups, financial institutions, current or former employees, consultants, clients or customers of the Company Group regarding the Company Group or any of its directors, officers, employees, agents or representatives, or about the Company Group's business affairs and/or financial condition. The Company, in turn, agrees that it will not, in any authorized corporate communications to third parties, and will endeavor to direct those individuals set forth on *Exhibit C* hereto not to, make any intentionally false, or any disparaging or derogatory statements about the Executive; *provided, however*, that nothing herein shall prevent either party from giving truthful testimony and/or from otherwise making good faith statements in connection with legal investigations and/or other proceedings. In addition, the Company shall, prior to its public release, provide the Executive with a copy of the press release regarding the Executive's separation from the Company.

9. *Certain Remedies.*

(a) *Remedies.* The Company and the Executive agree without reservation that the restraints set forth in Section 6, Section 7 and Section 8 hereof are necessary for the reasonable and proper protection of the Company, or the Executive, as the case may be; that each and every one of the restraints is reasonable with respect to subject matter, length of time and geographic area; and that these restraints will not prevent the Executive from obtaining other suitable employment, if he wishes to do so, during the Restricted Period. The Company and the Executive further agree that the restraints and obligations of the Executive pursuant to Section 6, Section 7 and Section 8 hereof shall be deemed for all purposes as controlling, in lieu of any different restraints or undertakings of the Executive on the same subject contained in any agreement previously entered into or binding between the Executive and any member of the Company Group, including, without limitation, under the Equity Plans and any related award documentation. The Executive further agrees that, were he to breach any of the covenants contained in Section 6, Section 7 or Section 8 hereof, the damage to the Company would be irreparable. The Executive therefore agrees that the Company, in addition to any other remedies available to it, including, without limitation, under Section 9(b) hereof, shall be entitled to preliminary and permanent injunctive relief against any breach or threatened breach by the Executive of any of those covenants, together with an award of attorney's fees incurred in connection with securing the same. It is expressly agreed that the Company will not have to post bond in connection with any such injunction, and that the Executive will not take, and will not permit anyone else to take on his behalf, any position in a court or any other forum inconsistent with any of his covenants and agreements herein. The Company and the Executive further agree that, in the event that any provision of Section 6 or Section 7 hereof is determined by a court of competent jurisdiction to be unenforceable by reason of its being extended over too great a time, too large a geographic area, or too great a range of activities, the relevant provision shall be deemed to be modified to permit its enforcement to the maximum extent permitted by law. Further, the Company and the Executive agree that the period of restriction described in Section 6 hereof shall be tolled, and shall not run, during any period of time in which the Executive is judicially determined by a court of competent jurisdiction to have been in breach of the terms of Section 6 hereof.

(b) *Forfeiture.* In the event that the Executive (i) fails to comply with Section 6, Section 7 or Section 8 hereof, other than any isolated, insubstantial and inadvertent failure that is not in bad faith, or (ii) files any charge, claim, demand, action or arbitration with regard to the Executive's employment, compensation or termination of employment under any federal, state or local law, or an arbitration

under any industry regulatory entity, except in either case for a claim for breach of this Agreement or failure to honor the obligations set forth herein, the Company shall be entitled to cease making any payments due hereunder, subject to written notice to the Executive specifying in reasonable detail the nature of the breach, and the Executive agrees that he shall forfeit, in each of the following clauses (i) and (ii) as of the date of the breach by the Executive: (i) any amounts not already paid pursuant to Section 3 and Section 5(c) hereof; and (ii) all Stock Options, the Cycle O Award and the 2006 PEP Award (including any right to a cash payment pursuant to Section 5(c)(ii) hereof) to the extent not vested, settled, paid and/or exercised, as applicable, as of the date of the breach by the Executive. Any disputes with respect to the application of this Section 9(b) shall be subject to Section 19 hereof; *provided* that during the pendency of any such dispute the Company shall be entitled to withhold any payments and/or settlement of any awards to the Executive pursuant to this Section 9(b).

10. *Post-Employment Cooperation.* The Executive agrees he will reasonably cooperate with the Company with respect to any matters arising during or related to his employment, including but not limited to reasonable cooperation in connection with any litigation, governmental investigation, or regulatory or other proceeding which may have arisen or which may arise following the execution of this Agreement; *provided* this obligation shall not extend to any litigation or other proceeding commenced by the Company against the Executive or to any litigation or other proceeding commenced by the Executive against the Company to enforce the Executive's rights under this Agreement or with respect to any right, claim or cause of action which the Executive has not released pursuant to Section 12 hereof. As part of such reasonable cooperation, the Executive shall provide reasonably requested information to the Company and its attorneys with respect to any matter arising during or related to his employment, shall make himself reasonably available to meet with Company Group personnel, the Company's attorneys, the attorneys of the Board of Directors of State Street (the "Board") and/or the attorneys of any committee of the Board, and shall, at the Company's request and upon reasonable notice, travel to such places as the Company may specify (for which the Company will reimburse the Executive for his travel and lodging expenses in accordance with the Company's expense practices applicable to the Executive immediately prior to the Separation Date). Finally, as part of such reasonable cooperation agreed to herein, to the extent allowed by law, the Executive shall promptly notify the Company's Chief Legal Officer, by the third business day following his actual, personal receipt, or actual, personal notice of receipt, from any third party or governmental entity of a request for testimony and/or documents, whether by legal process or otherwise, relating to any matter arising during or relating to his employment or other relationship with the Company Group. In the event that the Executive's required cooperation pursuant to this Section 10 exceeds an aggregate of 24 working hours, and to the extent not connected to the deposition or testimony of the Executive, the Company shall compensate the Executive at an hourly rate of \$250 per hour for such cooperation, not to exceed \$2,000 for any single day's work. The Company shall promptly notify the Executive, within three business days, of its actual receipt from any third party or governmental entity of a request for testimony of and/or documents from the Executive, whether by legal process or otherwise, relating to any matter arising during or relating to the Executive's employment or other relationship with the Company Group. The Company agrees to provide the Executive reasonable access to information regarding his employment benefits and to Company personnel who have knowledge of such matters.

11. *Reciprocity of Obligations.* The performance by State Street of its commitment to pay moneys to the Executive hereunder, and the Executive's right to receive and retain the same, shall be expressly conditioned on the Executive's material fulfillment of all of his obligations in this Agreement, including, without limitation, those set forth in Sections 6, 7, 8 and 10 hereof. Similarly, the Executive's performance of his commitments hereunder shall be expressly conditioned upon the Company's material fulfillment of all of its obligations set forth herein. Either party may suspend or terminate its performance hereunder in the event the other commits a material breach of this Agreement.

12. *Executive's Release of Claims.*

(a) *Generally.* In consideration of the benefits to be provided the Executive hereunder, and after consultation with counsel, the Executive, and each of the Executive's respective heirs, executors, administrators, representatives, agents, successors and assigns (collectively, the "Releasors"), hereby releases, waives and forever discharges the Company Group and all those persons, employees, directors, agents and entities affiliated with it ("Releasees") from and against any and all claims, rights and causes of action arising on or prior to the date hereof, both known and unknown, including but not limited to all claims of breach of contract or misrepresentation, wrongful discharge, and claims of alleged violations of Title VII of the Civil Rights Act of 1964, the Fair Labor Standards Act, ERISA, the Americans With Disabilities Act, Massachusetts G.L. c. 151B, Massachusetts G.L. c. 149, § 148, and any other local, state, or federal law, regulation or other requirement and any other claim relating to or arising out of the Executive's employment and/or other relationship with the Company Group and/or his ownership of Common Stock. The Executive hereby covenants that he will not institute any charge, complaint or lawsuit to challenge the validity of this release or to otherwise assert claims against the Releasees that have been waived hereunder. It is agreed and understood that the foregoing general release does not waive any of the following rights: (a) to the pay or benefits to be provided to the Executive as set forth herein; (b) to enforce the terms of this Agreement; (c) to exercise the Stock Options in accordance with Section 5(a) hereof; (d) to access any benefit to which the Executive is entitled under the Qualified Plan, the SERP or the Savings Plan; (e) to pursue counterclaims and defenses directly related to claims that the Company has not waived pursuant to this Agreement and claims which the Executive may not release pursuant to applicable laws and regulations; (f) to file a charge with the Equal Employment Opportunity Commission ("EEOC") or similar state agency or otherwise participate in an investigation or proceeding conducted by the EEOC or similar state agency; (g) to avail himself of any rights to insurance or indemnification that the Executive may have (including with respect to matters that are the subject of this release) under State Street's articles, by-laws or applicable insurance policies, under applicable law, and under any agreement between the Executive and the Company; and (h) to pursue claims arising after the date hereof.

(b) *Specific Release of ADEA Claims.* In further consideration of the payments and benefits provided to the Executive under this Agreement, the Releasors hereby unconditionally release and forever discharge the Company Group, and the officers, employees, directors and agents of each member of the Company Group from any and all claims that the Releasors may have as of the date the Executive signs this Agreement arising under the Federal Age Discrimination in Employment Act of 1967, as amended, and the applicable rules and regulations promulgated thereunder ("ADEA"). In signing this Agreement, the Executive acknowledges that he understands its provisions; that his agreement is knowing and voluntary; that he has been afforded a full and reasonable opportunity of at least 21 days to consider its terms and consult with or seek advice from an attorney of his choosing; that he is providing this release and discharge set forth in this Section 12(b) only in exchange for consideration in addition to anything of value to which he is already entitled; and that he has been advised to seek counsel from an attorney and has in fact done so.

13. *Company's Release of Claims.* In exchange for the commitments of the Executive set forth herein, the Company, for itself and on behalf of the Company Group, hereby voluntarily and forever releases, waives and discharges the Executive from and against any and all causes of action, rights or claims arising on or prior to the date hereof, both known and unknown, to the Company, including but not limited to all claims of breach of contract or misrepresentation, breach of fiduciary duty, and claims of violation of any local, state or federal law, regulation or other requirement and any other claim relating to or arising out of the Executive's employment and/or other relationship with the Company Group. The Company hereby covenants that it will not institute any charge, complaint, or lawsuit to challenge the validity of this release or to otherwise assert claims against the Executive that have been waived hereunder. It is agreed and understood that the foregoing general release does not waive any of

the following rights: (a) to enforce the terms of this Agreement; (b) to pursue claims arising from criminal, fraudulent or otherwise intentionally wrongful misconduct on the Executive's part or claims arising from a knowing violation of federal or state laws or regulations; (c) to pursue claims arising from the Executive's obtaining an impermissible or illegal benefit from the Company; (d) to pursue claims arising from actions taken after the date hereof; (e) to pursue counterclaims and defenses directly related to claims that the Executive has not waived pursuant to this Agreement; and (f) to pursue claims which the Company may not release pursuant to applicable laws and regulations.

14. *Indemnification.* The Executive shall be entitled (a) to such rights to indemnification as shall exist in the Company's articles and by-laws, as amended from time to time, under applicable law, and under any agreement between the Executive and the Company, and (b) to coverage under the Company's directors' and officers' insurance policy and other applicable liability policies, as in effect from time to time, for causes relating to acts or omissions occurring on or prior to the Separation Date, to the extent set forth in such documents. The Executive agrees to promptly notify the Company of any claims made against the Executive in his capacity as a former officer/employee of the Company or any other member of the Company Group.

15. *Entire Agreement.* This Agreement, together with all of the plans, agreements and documents referred to herein and as modified hereby, constitutes the entire agreement between the Company and the Executive, and supersedes any other contracts or commitments with respect to the Executive's employment with the Company and/or other service to the Company, and/or his separation therefrom (including any contracts or commitments to the extent they relate to the Executive's activities following the Separation Date), except to the extent expressly provided for herein. It is agreed and understood that, except as expressly set forth in this Agreement, the Executive shall receive no other compensation or benefits of any kind from the Company, including, without limitation, under the ESOP or the Change of Control Agreement (defined below).

16. *Modification of Agreement.* This Agreement may only be amended, modified or waived by a writing signed by parties duly authorized to do so.

17. *Successors and Assigns; Death Benefits.* It is agreed and understood that this Agreement shall inure to the benefit of and be binding upon the parties' respective heirs, executors, beneficiaries, successors and assigns. In the case of benefits under an employee benefit plan or program of the Company (including, but without limitation, the Qualified Plan, the SERP, the Savings Plan, the MSSP, the Equity Plans, and any life insurance policy or program under which the Executive is covered), the heirs or beneficiaries of the Executive shall be entitled only to such death benefits and other rights and benefits, if any, as are provided under the terms of the applicable plan or program. In addition, in the event of the Executive's death prior to his receipt of all the payments, compensation and benefits provided for herein, the unpaid portions of any such payments, compensation and/or benefits shall, subject to the proviso in Section 20(b) hereof, be paid to the Executive's beneficiary or beneficiaries or to the Executive's estate, as the case may be, at the same time or times, and in the same form and amounts, as they would have been paid had the Executive survived.

18. *Notices.* All notices and other communications hereunder shall be in writing and shall be deemed to have been given three days after having been mailed by first-class mail or registered or certified mail, two days after having been mailed by private overnight courier service or 12 hours after having been delivered or sent by facsimile or email (provided in each case that the day on which notice is deemed to have been given is a business day), to the following addresses or to such other addresses

as the parties shall have furnished to each other in writing; *provided* that notice provided to copy parties shall not be deemed to be notice to the parties to this Agreement.

19. *Disputes.* Any dispute or controversy arising under this Agreement that cannot be mutually resolved by the Executive and the Company shall be settled exclusively by arbitration in accordance with the rules of the American Arbitration Association or JAMS (an "Arbitration Association"), as selected by the Company in its sole discretion, in Boston, Massachusetts before one arbitrator of exemplary qualifications and stature, who shall be selected jointly by the Executive and the Company, or, if agreement on the selection of the arbitrator cannot be reached, shall be selected by the Arbitration Association (*provided* that any arbitrator selected by the Arbitration Association shall not, without the consent of both the Executive and the Company, be affiliated with the Executive or the Executive's affiliates or the Company Group). Judgment may be entered on the arbitrator's award in a Massachusetts State Court. The arbitrator shall be empowered to enter an equitable decree mandating specific enforcement of the terms of this Agreement. Each party shall bear his or its own expenses incurred in any arbitration arising out of a dispute or controversy under this Agreement.

20. *Miscellaneous.*

(a) All payments to the Executive and all benefits, entitlements and accruals of the Executive under this Agreement or under any other Company Group plan or program (whether or not expressly mentioned in this Agreement) are conditioned upon the payment by the Executive of the employee's portion of applicable required tax withholdings, including, without limitation, FICA (including

Medicare) tax withholdings. The Company may reduce any cash payments by the amount of any such applicable tax withholdings, including, without limitation, any such applicable tax withholdings with respect to any taxable non-cash benefits or payments. The Executive agrees that the Company may, upon written notice by the Company to the Executive specifying in reasonable detail the nature of the following deductions, deduct from the severance compensation all outstanding financial obligations that he may have to the Company, including, without limitation, such items as expense account balances, credit card balances, employee advances (including advanced vacation days) and reimbursement for any property of the Company Group retained by him.

(b) The Executive acknowledges that he is a "specified employee" under Treas. Reg. § 1.409A-1(i). Any amounts payable under this Agreement that constitute deferred compensation subject to Section 409A of the Internal Revenue Code of 1986, as amended, as determined by the Company in its reasonable discretion, that would (but for this sentence) be payable within six months following the Separation Date shall instead be paid on the Delayed Payment Date; *provided* that in the event the Executive dies prior to the Delayed Payment Date, any payments that would be payable on the Delayed Payment Date pursuant to this Agreement shall instead be paid, subject to Section 20(i) hereof, on the earlier of (i) the 30th day following the date of the Executive's death or (ii) the Delayed Payment Date.

(c) Effective as of the Separation Date, the Executive shall cease to be covered by that certain change of control employment agreement between the Company and the Executive (the "Change of Control Agreement"), and the Change of Control Agreement shall have no further force or effect; *provided*, *however*, that nothing herein shall eliminate or otherwise adversely affect any protections that the Executive may have upon a change of control of State Street under other plans, awards or agreements of the Company Group, including, without limitation, accelerated vesting of outstanding Stock Options.

(d) In order to be certain that this Agreement will resolve any and all concerns that the Executive might have, the Company requests that he carefully consider its terms, including the general release of claims set forth above. For a period of seven days following his execution of this Agreement (the "Revocation Period"), the Executive may revoke his acceptance hereof as to the release of claims under ADEA, and this Agreement shall not become effective or enforceable as to the release of such claims until after the Revocation Period has expired. In the event of any such revocation by the Executive all obligations of the parties under this Agreement shall terminate and be of no further force and effect as of the date of the Executive's revocation; *provided* that no such revocation by the Executive shall be effective unless it is in writing and signed by the Executive and received by the Company prior to the expiration of the Revocation Period.

(e) The parties' substantive and procedural rights with respect to this Agreement shall be governed by the laws of the Commonwealth of Massachusetts, without resort to choice of law or conflict of law principles.

(f) The headings of this Agreement are for convenience of reference only, and will not affect the construction of any provision hereof.

(g) This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, and which together shall be deemed to be one and the same instrument.

(h) The failure of any party to this Agreement to enforce any of its terms, provisions or covenants shall not be construed as a waiver of the same or of the right of such party to enforce the same. Waiver by any party hereto of any breach or default by another party of any term or provision of this Agreement shall not operate as a waiver of any other breach or default.

(i) This Agreement shall take effect on the eighth day following the Executive's execution hereof (the "Effective Date"), *provided* that the Executive has not earlier revoked his acceptance of the

Agreement in accordance with the provisions of Section 20(d) hereof. The Company represents and warrants that it has due authority to enter into this Agreement and that upon the Effective Date, this Agreement shall be a valid and binding obligation of the Company.

THE EXECUTIVE HEREBY ACKNOWLEDGES THAT THE EXECUTIVE HAS READ THIS AGREEMENT, THAT THE EXECUTIVE FULLY KNOWS, UNDERSTANDS AND APPRECIATES ITS CONTENTS, AND THAT THE EXECUTIVE HEREBY ENTERS INTO THIS AGREEMENT VOLUNTARILY AND OF HIS OWN FREE WILL.

STATEMENT OF RATIOS OF EARNINGS TO FIXED CHARGES

		Years Ended December 31,				
(Dollars in millions)		2007	2006	2005	2004	2003
EXCLUDING INTEREST ON DEPOSITS:						
Pre-tax income from continuing operations, as reported		\$ 1,903	\$ 1,771	\$ 1,432	\$ 1,192	\$ 1,112
Share of pre-tax income of unconsolidated affiliates		65	43	16	39	11
Fixed charges		1,248	1,384	948	481	424
Earnings	(A)	\$ 3,216	\$ 3,198	\$ 2,396	\$ 1,712	\$ 1,547
Interest on other short-term borrowings		\$ 959	\$ 1,145	\$ 753	\$ 315	\$ 279
Interest on long-term debt, including amortization of debt issuance costs		189	140	100	68	69
Portion of rents representative of the interest factor in long-term leases (1)		100	99	95	98	76
Fixed Charges	(B)	\$ 1,248	\$ 1,384	\$ 948	\$ 481	\$ 424
Consolidated ratio of earnings to fixed charges excluding interest on deposits	(A)/(B)	2.58x	2.31x	2.53x	3.56x	3.65x
INCLUDING INTEREST ON DEPOSITS:						
Pre-tax income from continuing operations, as reported		\$ 1,903	\$ 1,771	\$ 1,432	\$ 1,192	\$ 1,112
Share of pre-tax income of unconsolidated subsidiaries		65	43	16	39	11
Fixed charges		3,546	3,275	2,080	993	796
Earnings	(C)	\$ 5,514	\$ 5,089	\$ 3,528	\$ 2,224	\$ 1,919
Interest on other short-term borrowings and deposits		\$ 3,257	\$ 3,036	\$ 1,885	\$ 827	\$ 651
Interest on long-term debt, including amortization of debt issuance costs		189	140	100	68	69
Portion of rents representative of the interest factor in long-term leases (1)		100	99	95	98	76
Fixed Charges	(D)	\$ 3,546	\$ 3,275	\$ 2,080	\$ 993	\$ 796
Consolidated ratio of earnings to fixed charges including interest on deposits	(C)/(D)	1.55x	1.55x	1.70x	2.24x	2.41x

(1)

The interest factor on long-term operating leases was estimated using one-third of rental expense. The interest factor on long-term capital leases was equal to the amount recorded as interest expense in the consolidated statement of income.
