WASHINGTON FEDERAL, INC.
PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS
January 21, 2009

This Proxy Statement is furnished to the holders of the common stock, \$1.00 par value per share (“Common Stock”), of Washington Federal, Inc. (“Washington Federal” or the “Company”), the parent holding company for Washington Federal Savings, a federally-chartered savings association, in connection with the solicitation of proxies by the Board of Directors of the Company, to be used at the Annual Meeting of Stockholders to be held at The Seattle Sheraton Hotel, 6th & Pike, Seattle, Washington, on Wednesday January 21, 2009, at 2:00 p.m., Pacific Time, and at any adjournment thereof (the “Annual Meeting”), for the purposes set forth in the Notice of Annual Meeting of Stockholders. This Proxy Statement is first being mailed to stockholders on or about December 12, 2008.

The proxy solicited hereby, if properly signed and returned and not revoked prior to its use, will be voted in accordance with the instructions given thereon. If no instructions are so specified, the proxy will be voted for the persons nominated to be directors by the Board of Directors, for the ratification of the appointment of Deloitte & Touche LLP as independent registered public accountants for fiscal 2009 and, upon the transaction of such other business as may properly come before the Annual Meeting, in accordance with the best judgment of the persons appointed as proxies. Other than the matters listed on the attached Notice of Annual Meeting of Stockholders, the Board of Directors knows of no additional matters that will be presented for consideration at the Annual Meeting.

Any stockholder giving a proxy has the power to revoke it at any time before it is exercised by: (i) filing written notice thereof with the Secretary of Washington Federal (Edwin C. Hedlund, Washington Federal, Inc., 425 Pike Street, Seattle, Washington 98101); (ii) submitting a duly executed proxy bearing a later date; or (iii) appearing at the Annual Meeting and notifying the Secretary of his or her intention to vote in person. Proxies solicited hereby may be exercised only at the Annual Meeting and any adjournment thereof and will not be used for any other meeting.

The Company’s fiscal year end is September 30. All references to 2008 and 2007 represent amounts as of September 30, 2008 and September 30, 2007, or activity for the fiscal years then ended, respectively.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Voting Securities

Only stockholders of record at the close of business on November 28, 2008 (the "Voting Record Date") will be entitled to vote at the Annual Meeting. On the Voting Record Date, 87,978,527 shares of Common Stock were issued and outstanding. Each share of Common Stock is entitled to one vote at the Annual Meeting on matters other than the election of directors, for which cumulative voting is permitted, as discussed below under "Information with Respect to Nominees for Director, Directors Whose Terms Continue and Executive Officers." A majority of the votes entitled to be cast by stockholders on a matter represented in person or by proxy is necessary to constitute a quorum.

Vote Required

The election of the Company's directors requires a plurality of the votes represented in person or by proxy at the Annual Meeting. The proposal to ratify the appointment of Deloitte & Touche LLP as independent registered public accountants and any other business that properly may come before the Annual Meeting require that the votes cast in favor of such proposals exceed the votes cast against such proposals.

Effect of Abstentions and Broker Non-Votes

A stockholder who abstains from voting on any or all proposals and broker non-votes will be included in the number of stockholders present at the Annual Meeting for the purpose of determining the presence of a quorum. Abstentions, however will not be counted either in favor of or against the election of the nominees or any other proposal. Consequently, abstentions will have no affect on the vote required to approve the nominees for director or the other proposals being considered at the Annual Meeting.

Under rules applicable to broker-dealers, banks, brokers and other nominees may vote shares held by them for a customer on matters that are determined to be routine, even though the bank, broker or other nominee has not received instructions from the customer. The proposals to elect directors and ratify the appointment of the independent registered public accountants are considered "discretionary" items upon which brokerage firms may vote in their discretion on behalf of their clients if such clients have not furnished voting instructions. Consequently, there will be no broker non-votes.

Principal Holders of Voting Securities

The following table sets forth information as of October 1, 2008 with respect to: (i) any person or entity known by Washington Federal to be the beneficial owner of 5% or more of the issued and outstanding Common Stock; and (ii) ownership of the Common Stock by all directors and executive officers of Washington Federal as a group.

The Retirement Plan is a qualified, defined contribution profit sharing and employee stock ownership plan maintained for all eligible employees of Washington Federal that invests primarily in certificates of deposit and similar instruments issued by Washington Federal Savings and other financial institutions. As an alternative to the aforementioned investments, employees have the option of directing vested balances to a variety of mutual funds. The shares of Common Stock of Washington Federal held by the Retirement Plan are voted by the trustees of such plan at their discretion, but the disposition of such shares can be directed only by the employee to whose account the shares are allocated. INFORMATION WITH RESPECT TO NOMINEES FOR DIRECTOR, DIRECTORS WHOSE TERMS CONTINUE AND EXECUTIVE OFFICERS

General

The Restated Articles of Incorporation of Washington Federal provide that the Board of Directors shall be divided into three classes as nearly equal in number as possible, and that the members of each class shall be elected for terms of three years and until their successors are elected and qualified, with one of the three classes of directors to be elected each year. The number of directors currently authorized by Washington Federal's Bylaws is ten.

Pursuant to Washington Federal's Restated Articles of Incorporation, at each election of directors every stockholder entitled to vote has the right to vote, in person or by proxy, the number of shares owned by him or her for as many persons as there are directors to be elected, or to cumulate his or her votes by giving one candidate as many votes as the number of such directors to be elected multiplied by the number of his or her shares shall equal, or by distributing such votes on the same principle among any number of candidates. In the event that cumulative voting is in effect, it is the intention of the persons named in the accompanying proxy to vote cumulatively for the election as directors the nominees listed in the table that follows.

At the Annual Meeting, stockholders of Washington Federal will be asked to elect four directors of Washington Federal for a three-year term and until their successors are elected and qualified. The four nominees for election as directors to a three-year term are John F. Clearman, James J. Doud, Jr., H. Dennis Halvorson and Roy M. Whitehead. All nominees were selected by the Nominating Committee of the Board of Directors and currently serve as directors of Washington Federal. There are no arrangements or understandings between the persons named and any other person pursuant to which such person was selected as a nominee for election as a director at the Annual Meeting, and no director or nominee for director is related to any other director or executive officer of Washington Federal by blood, marriage or adoption.

If any person named as nominee should be unable or unwilling to stand for election at the time of the Annual Meeting, the proxies will nominate and vote for any replacement nominee or nominees recommended by the Board of Directors of Washington Federal. Alternatively, under such circumstances, the Board of Directors of Washington Federal may reduce the number of directors of Washington Federal. Washington Federal knows of no reason why any of the nominees may not be able to serve as director if elected.

Under Section 16(a) of the Exchange Act, Washington Federal's directors and executive officers and any persons holding 10% or more of the outstanding Common Stock must report their ownership of Washington Federal's securities and any changes in that ownership to the SEC by specific dates. Washington Federal believes that during the fiscal year ended September 30, 2008 all of these filing requirements were satisfied by its directors and executive officers. In making the foregoing statement, Washington Federal has relied in part on representations of its directors and executive officers and copies of the reports that they have filed with the SEC.

The Board of Directors and Its Committees

The Board of Directors of Washington Federal held a total of eleven meetings during the last fiscal year. No incumbent director attended fewer than 75% of the aggregate of the total number of meetings of the Board of Directors held during his or her tenure in office during the last fiscal year and the total number of all meetings held by all committees of the Board of Directors on which he or she served during such year. Although Washington Federal does not have a formal policy regarding attendance by directors at annual meetings of stockholders, directors are expected to attend such meetings. At the 2008 Annual Meeting, all directors were present.

The Board of Directors has established various committees, including an Executive Committee, an Audit Committee, a Nominating Committee, a Compliance Committee and a Compensation Committee. The Board of Directors selects certain members to serve on its Executive Committee. The present Executive Committee consists of Messrs. Whitehead, Chairman, Clearman, Halvorson and Richmond. The Executive Committee is authorized to exercise all the authority of the Board of Directors in the management of Washington Federal between board meetings unless otherwise provided by law or the Bylaws of Washington Federal. The Executive Committee did not meet during the last fiscal year.

The Board of Directors has a standing Audit Committee with a written charter. A copy of the Audit Committee Charter is available on Washington Federal’s website at www.washingtonfederal.com. The Audit Committee consists of Messrs. Clearman, Chairman, Kelley and Kenney. The Board has determined that Chairman Clearman as well as Messrs. Kenney and Kelley are “audit committee financial experts”, as defined by SEC regulations. The Audit Committee met on four occasions during the last fiscal year. The Audit Committee’s primary responsibilities include review of all financial reports, oversight of the internal audit function, appointment of independent auditors, pre-approval of all services performed by the independent registered public accountants and review of all related party transactions.

The Board of Directors has a standing Compensation Committee consisting of Mr. Halvorson, Chairman, Mr. Chinn, Ms. Johnson and Ms. Smith. No member of the Compensation Committee has served as a current or former officer or employee of Washington Federal or Washington Federal Savings. The Compensation Committee studies personnel and compensation recommendations made by the Chief Executive Officer and

makes recommendations to the Board of Directors. Further, the Compensation Committee is authorized to act under Washington Federal's stock benefit plans to grant stock options and restricted shares. The Compensation Committee met three times during the last fiscal year. The Compensation Committee does not have a written charter.

The Board of Directors has appointed four of its members to serve as a Nominating Committee in connection with the election of directors. For the present Annual Meeting, the Board of Directors appointed Ms. Johnson, Chairman, and Messrs. Clearman, Chinn and Doud to serve on the Nominating Committee. Selection of Nominees for the Board

The Nominating Committee considers candidates for director suggested by its members and other directors of Washington Federal, as well as management and stockholders. The Nominating Committee also may solicit prospective nominees. In addition, nominees for election as director may be obtained in connection with acquisitions by Washington Federal. A stockholder who desires to recommend a prospective nominee for the Board of Directors should notify Washington Federal’s Secretary or any member of the Nominating Committee in writing with whatever supporting material the stockholder considers appropriate. The Nominating Committee also considers whether to nominate any person nominated pursuant to the provision of Washington Federal’s Bylaws relating to stockholder nominations, which are described under “Stockholder Nominations” below. The Nominating Committee has the authority to retain a third-party search firm to identify or evaluate, or assist in identifying and evaluating, potential nominees if it so desires, although it has not done so to date.

Director Qualifications

In making recommendations for nominees to the Board of Directors, the Nominating Committee reviews and considers the qualifications, strengths and abilities of the potential candidates for nomination, including new candidates that may be identified from time to time through the Company's internal search and review procedures or as a result of stockholder recommendations. In deciding whether to recommend the re-nomination of an incumbent director whose term is expiring at an upcoming meeting or the nomination of new directors who previously served as officers of Washington Federal, the Nominating Committee considers their prior performance as directors and officers of the Company in addition to the candidates' other qualifications. For new candidates, the review process may require additional evaluation and consideration.

The Nominating Committee works with the Board of Directors on an ongoing basis in identifying the particular qualities and abilities that Washington Federal seeks in its directors generally, and the mix of experience, expertise and attributes, that are sought or required for the Board as a whole. Desirable personal qualities include integrity, business acumen and industry knowledge. All candidates for nomination are evaluated against these target qualities and attributes, as well as the Board of Directors' particular needs at the time.

Stockholder Nominations

Pursuant to Article IV, Section 4.15 of Washington Federal's Bylaws, stockholders of Washington Federal may nominate persons for election to the Board of Directors by submitting such written nominations to the Secretary of Washington Federal at least ninety (90) days prior to the anniversary date of the mailing of proxy materials by Washington Federal in connection with the immediately preceding Annual Meeting of Stockholders of Washington Federal. Such stockholder's notice shall set forth: (a) the name and address of the stockholder who intends to make the nomination and of the person or persons to be nominated; (b) a representation that the stockholder is a holder of record of stock of Washington Federal entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (c) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder; (d) such other information regarding each nominee proposed by such stockholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the SEC; and (e) the consent of each nominee to serve as a director of Washington Federal, if elected. If a nomination is made in accordance with applicable requirements, then ballots will be provided for use by stockholders at the stockholder meeting bearing the name of such nominee or nominees. No nominations for election as a director at the Annual Meeting were submitted to Washington Federal in accordance with the foregoing requirements.

Communications with the Board of Directors

The Board of Directors has established a process for stockholders to communicate with the Board. Stockholders who wish to communicate with the Board of Directors may do so by sending written communications to the following address: Board of Directors-Stockholder Communications, c/o Corporate Secretary, 425 Pike Street, Seattle, Washington 98101. The Corporate Secretary will forward such communications to the director or directors to whom they are addressed.

Code of Conduct and Ethics

Washington Federal maintains a Director and Employee Code of Ethics that covers all directors, officers and employees of Washington Federal and its subsidiaries. The Code of Ethics requires, among other things, that the directors, officers and employees exhibit and promote the highest standards of honest and ethical conduct; avoid conflicts of interest; comply with laws, rules and regulations; and otherwise act in the best interest of Washington Federal. In addition, Washington Federal maintains a separate Code of Ethics for Senior Financial Officers that imposes specific standards of conduct on persons with financial reporting responsibilities at Washington Federal. Each senior financial officer of Washington Federal, including its Chief Executive Officer and Chief Financial Officer, is required to annually certify in writing his or her compliance during the prior year with the Code of Ethics for Senior Financial Officers. A copy of the Director and Employee Code of Ethics and Code of Ethics for Senior Financial Officers can be viewed on Washington Federal's website at www.washingtonfederal.com.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

Washington Federal's Board of Directors approves all policies that govern executive compensation, which are then administered by the Compensation Committee, including the following activities:

- Establishing and reviewing executive base salaries;
- Overseeing Washington Federal's annual incentive compensation plan;
- Overseeing Washington Federal's long-term equity-based compensation plans;
- Approving all bonuses and awards distributed under these plans; and
- Reviewing all compensation decisions for executive officers with the Board of Directors, including those for the Chief Executive Officer and the other officers named in the Summary Compensation Table on page 12 (referred to as the "Named Executive Officers").

On behalf of the Board of Directors, the Compensation Committee seeks to assure that compensation paid to the Named Executive Officers is fair, reasonable and competitive, and is linked to protecting and increasing stockholder value.

Executive Compensation Philosophy

Maintaining an effective executive compensation and benefits program is deemed important to advancing the financial performance of Washington Federal. The following core principles are used to guide decisions regarding these programs:

- The interests of executives should be aligned with those of the Company's stockholders through potential stock ownership;
- Rewards should be linked to company-wide and individual performance;
- Incentives are to be provided to promote the achievement of successful annual results as a step toward fulfilling long-term operating goals and strategic objectives;
- The structure of executive officers' compensation should align with short-term and long-term goals and objectives;
- Executive compensation must be sufficient to ensure that the Company is able to attract, retain and motivate top performing executive officers; and
- Executive compensation should be perceived to be fair by all parties with interests in the Company's success.

The Board of Directors and its Compensation Committee of Washington Federal believe that implementing an executive compensation and benefits program that is focused on achieving these core principles will benefit the Company, and ultimately its stockholders, by helping attract and retain highly qualified and industry-experienced executives.

To balance objectives, the Board of Directors and its Compensation Committee have determined that the Company's executive compensation program should use the following elements:

- Base salary, to provide a fixed compensation level sufficient to attract and retain qualified executives;
- An annual incentive compensation plan, to reward short-term performance against specific financial targets;
- A long-term equity incentive compensation program to link management incentives to stockholder return;
- Retirement benefits to provide security and to reward executive officers for their contribution to the Company's success over the course of their careers; and
- Other benefits, including perquisites, necessary to maintain a healthy, motivated leadership team and to enable the productivity of executive officers.

Role of the Compensation Committee

The Compensation Committee is responsible for, among other things, developing executive compensation policies for approval by the Board of Directors. As part of its responsibilities, the Compensation Committee reviews and establishes compensation for all of the executive officers of Washington Federal, including the Named Executive Officers, and reviews its decisions with the Board of Directors as appropriate.

The Compensation Committee is comprised entirely of directors who meet the independence requirements as defined by NASDAQ Rule 4200(a)(15), are deemed a "non-employee director" under Rule 16b-3 of the Exchange Act, and satisfy the requirements of an "outside director" for purposes of Section 162(m)(4)(C) of the Internal Revenue Code of 1986 as amended. The Compensation Committee is comprised of the following individuals: Mr. Halvorson, Chairman, Mr. Chinn, Ms. Johnson, and Ms. Smith.

A key objective of the Compensation Committee is to further the core compensation principles described above through a compensation structure comprised of base salary and long-term and short-term incentive-based compensation. Since a meaningful part of total compensation is incentive based, a direct link is established between executive compensation and the long-term performance of Washington Federal.

The Compensation Committee met three times during the year ended September 30, 2008. In making its recommendations with respect to executive compensation to the Board of Directors, the Compensation Committee reviewed relevant market data on the

financial performance of both national and regional financial institutions, specifically banks and thrifts, which the Company views as its peer group. Such data are used as points of reference, but are not the deciding factor in establishing appropriate compensation for executive officers of Washington Federal, due to the wide variety of circumstances, financial performance, geography, and business plans of the peer group institutions.

The Compensation Committee has the authority to directly engage outside consultants, although it has not done so.

Total Compensation

Total executive compensation is tied to performance and is structured to ensure focus on financial results, stockholder return, individual performance, and the responsibility and experience of executive officers. Based on analysis, the total compensation paid and earned by the Named Executive Officers in fiscal 2008 was consistent with Washington Federal's financial performance, the individual performance of each Named Executive Officer, the responsibilities and experience of Named Executive Officers and stockholder return. The Board of Directors and its Compensation Committee believes that total executive compensation was reasonable in its totality and consistent with the compensation philosophies as described above.

In light of the Company's compensation philosophy, the Board of Directors and its Compensation Committee have determined that the total compensation package for Named Executive Officers should continue to consist of base salary, annual cash incentive compensation, long-term equity-based incentive compensation, benefit plans and certain other perquisites.

Elements of Compensation

Base Salary

Base salaries for executive officers are determined based on job responsibilities, level of experience and individual performance. In making its recommendations to the Board of Directors, the Compensation Committee reviews market data with respect to the Company's Peer Group to assess the competitiveness of the base salary of the Named Executive Officers as well as other senior officers. Such information is used as a point of reference; however, it is not the deciding factor in establishing appropriate base salaries due to the lack of precise comparability.

Merit pay adjustments to base salary are considered annually for each executive officer. When making adjustments to the base salary of the Chief Executive Officer, the Compensation Committee considers the job performance and contribution to the successful operation of Washington Federal by the Chief Executive Officer. When making adjustments to the base salaries of the other Named Executive Officers, the Compensation Committee relies upon the recommendation of the Chief Executive Officer. Executive base salaries are intended to be at levels that will attract, retain and motivate the necessary management expertise to successfully execute the Company's business plan.

For 2008, Messrs. Beardall, Hedlund, Jacobson and Whitehead and Ms. Brower received increases in the range of 3% to 12% in their base salaries. The salary increases for the Named Executive Officers were reflective of their individual performance and the Company's objectives regarding the level of base salaries paid to Company executives as described above. Base salaries paid to Messrs. Beardall, Hedlund, Jacobson, Whitehead and Ms. Brower represented 49%, 52%, 52%, 56% and 47%, respectively, of their total compensation.

Annual Incentive Compensation

An annual incentive compensation program has been established for all employees, including the Named Executive Officers. Eligibility for the annual incentive program is restricted only by excluding employees that are not in good standing with the Company. All Named Executives Officers were in good standing in fiscal 2008 and are currently in good standing with Washington Federal. Consistent with the overall compensation philosophy of linking incentive awards to company-wide and individual performance, the incentive plan is designed to provide performance-based annual cash compensation based on the achievement of annual performance targets approved by the Board of Directors. For 2008, the bonus plan for the Named Executives Officers was based on net income produced by the Company, plus a special discretionary performance award for all Named Executives other than the CEO. Based on predetermined targets, the Named Executive Officers can earn a performance bonus ranging from 0 to 50% of base compensation as defined.

During 2008, Named Executive Officers each earned a bonus ranging from 14% to 33% of eligible compensation for the year.

Long-Term Incentives

In the past, certain executive officers, including the Named Executive Officers, have been granted restricted stock and stock option awards by the Board of Directors, pursuant to Company's equity based compensation plans. The Company has two equity based compensation plans: the 1994 Stock Option and Stock Appreciation Rights Plan and the 2001 Long-Term Incentive Plan. All three plans are substantially similar and have been previously approved by the Company's stockholders. Stock option awards made to date have had an exercise price equal to the fair market value of a share of stock on the grant date of the award. Stock option awards and restricted stock awards vest pro rata over a four to seven year period. In 2008 Mr. Whitehead was awarded 40,000 stock options. Messrs. Beardall, Hedlund and Jacobson and Ms. Brower each received awards of 20,000 stock options.

The Board of Directors believes that these long-term incentive awards help align the interests of Washington Federal's executives with those of its stockholders through potential stock ownership. Although there are no definitive plans for future awards to the Named Executive Officers, the Compensation Committee and the Board of Directors consider stock awards to be a key piece of executive compensation and reviews the appropriateness of such awards annually in light of performance.

Employment and Change in Control Agreements

The Company does not have any employment agreements in place with any Named Executive Officer. Pursuant to the 1994 and 2001 Plans, upon a change in control of the Company, each unvested equity instrument previously awarded to the Named Executive Officers would become fully vested. No other change of control agreements are in place for the Named Executive Officers.

Perquisites

In 2008, perquisites were provided to certain executive and senior officers. Perquisites are given to executive and senior officers based upon their role in the company and the business advantage gained by the use of perquisites. In 2008, we provided the following perquisites to the Named Executive Officers:

- Messrs. Beardall, Hedlund, Jacobson and Whitehead and Ms. Brower were provided memberships to a downtown Seattle athletic club that was also used for business-related entertainment. The cost to the Company of each membership was approximately \$2,500.
- The Company provided either an automobile or an automobile allowance. The related compensation is included in the Summary Compensation Table as “All Other Compensation”.

Retirement Benefits

In addition to the above, the Company maintains the following plans that provide, or may provide, compensation to the Named Executive Officers. The Compensation Committee considers all of these plans and benefits when reviewing total compensation for executive officers and in making its recommendations to the Board of Directors.

Retirement Plans

The Washington Federal Profit Sharing Retirement Plan (“PSRP”), is a defined contribution plan in which all employees with over 1,000 hours worked are eligible to participate. Historically, the Company has contributed 11% of an employees’ eligible base salary into the plan on his or her behalf. During 2008, the Company contributed 11% of each Named Executive Officer’s eligible base salary. These amounts are included in the Summary Compensation Table under “All Other Compensation”. Amounts exceeding IRS “Top-Heavy” rules are paid directly to the affected executive on a pre-tax basis. Company contributions vest ratably over six years.

The PSRP also contains an Employee Stock Ownership Plan (“ESOP”) in which employees can purchase Washington Federal, Inc. Common Stock at the market price twice per year with vested Company contributions and/or with their own individual contributions. No compensation is associated with the ESOP as the price is established at the market price, as permitted under Statement of Financial Accounting Standards 123(R) (“FAS 123R”).

Summary Compensation Table

The following table sets forth for each of the Named Executive Officers: (1) the dollar value of base salary and bonus earned during the year ended September 30, 2008; (2) the dollar value of the compensation cost of all stock and option awards recognized over the requisite service period, computed in accordance with FAS 123R; (3) the dollar value of earnings for services performed pursuant to awards granted during the year under non-equity incentive plans; (4) the change in pension value and non-qualified deferred compensation during the year; (5) all other compensation for the year; and (6) the dollar value of total compensation for the year. The Named Executive Officers are the Company's principal executive officer, principal financial officer, and the three other most highly compensated executive officers as of September 30, 2008 (each of whose total cash compensation exceeded \$100,000 for fiscal year 2008).

Potential Payments Upon Termination or Change in Control

Pursuant to the 1994 and 2001 Plans, all unvested stock options and restricted stock awards will become fully vested upon a change of control of the Company. The following tables describe the value of the vesting of such options and stock awards upon a change in control. These tables assume the change of control occurred on September 30, 2008, the last business day of our fiscal year, and the price per share was \$18.45, the closing price of our common stock on September 30, 2008, the last trading day of the fiscal year.

Potential Payments Upon Change in Control(1)

	Potential Change in Control Payments	
	Vesting of Stock Options(2)	Vesting of Restricted Stock
Whitehead	\$0	\$340,007
Beardall	0	222,454
Brower	0	222,454
Hedlund	0	170,004
Jacobson	0	170,004

- (1) Pursuant to the 1994 and 2001 Plans, all unvested stock options and restricted stock awards will become fully vested upon a “change of control” the Company. A “change in control” of the Company” is defined to mean a change in control of a nature that would be required to be reported in response to Item 6(e) of Schedule 14A of Regulation 14A promulgated under the Exchange Act, provided that, without limitation, such a change in control shall be deemed to have occurred if (i) any “person” (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than the Company, is or becomes the “beneficial owner” (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 25% or more of the combined voting power of the Company’s then outstanding securities, or (ii) during any period of twenty-four consecutive months during the term of an Option, individuals who at the beginning of such period constitute the Board of the Company cease for any reason to constitute at least a majority thereof, unless the election, or the nomination for election by the Company’s stockholders, of each director who was not a director at the date of grant has been approved in advance by directors representing at least two-thirds of the directors then in office who were directors at the beginning of the period.
- (2) Based on the stock price of \$18.45 as of September 30, 2008, none of the unvested stock options to the Named Executive Officers are in the money, therefore there is no potential change in control payment related to stock options.

Employment and Change in Control Agreements

Washington Federal does not currently have any employment agreements or change in control agreements, except for the provisions of the equity awards which allow for vesting of all unvested shares as described above.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Determinations regarding compensation of the Chief Executive Officer and other Named Executive Officers are made by the Compensation Committee of the Board of Directors.

No person who served as a member of the Compensation Committee during 2008 was a current or former officer or employee of Washington Federal. None of the members engaged in any transactions with Washington Federal, that were required to be disclosed by regulations of the SEC. Additionally, there were no compensation committee “interlocks” during 2008, which means that no executive officer of Washington Federal served as a director or member of the compensation committee of another entity, one of whose executive officers served as a director or member of our Compensation Committee.

Related Person Transactions

Washington Federal Savings will from time to time make mortgage loans to directors, executive officers and employees on the security of their residences at prevailing contractual interest rates. Management believes that these loans do not involve more than the normal risks of collectibility or present other unfavorable features. These loans are made on substantially the same terms as those prevailing at the time for comparable transactions with non-affiliated persons. As of September 30, 2008 there were no loans outstanding to directors or executive officers with balances greater than \$120,000. Washington Federal Savings also makes loans secured by savings accounts to its non-executive officers and employees. These loans are made on the same terms as those prevailing for comparable loans to non-affiliated persons.

The Company regularly monitors its business dealings and those of its directors and executive officers to determine whether any existing or proposed transactions would require proxy disclosure under Item 404(a) of Regulation S-K. In addition our Code of Conduct requires the directors and executive officers to notify the Company of any relationships or transactions that may present a conflict of interest, including those involving family members. If a transaction is identified, the Company determines whether or not the transaction should be permitted and the necessary disclosure to be made.

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

At the Annual Meeting, stockholders of Washington Federal will be asked to ratify the appointment of Deloitte & Touche LLP (“Deloitte”), as Washington Federal’s independent registered public accountants for the fiscal year ending September 30, 2009. This appointment was recommended and approved by the Audit Committee of Washington Federal and approved by the Board of Directors of Washington Federal. If the stockholders of Washington Federal do not ratify the appointment of Deloitte, then the Board of Directors of Washington Federal may reconsider the appointment.

Deloitte has advised Washington Federal that neither the firm nor any of its members has any relationship with Washington Federal or its subsidiaries other than the usual relationship that exists between independent registered public accountants and clients.

Aggregate billings for the professional services rendered to the Company by Deloitte for the 2008 and 2007 fiscal years were as follows:

	<u>2008</u>	<u>2007</u>
